At the request of the New York and Long Branch Railroad Company the Coast Guard is considering amending the regulations for the railroad bridge across Cheesequake Creek to permit periods during the fall, winter, and spring when four hours notice would be required for the draw to open for the passage of vessels. The draw is presently required to open on signal. This is being considered because of limited navigation during the proposed closed periods.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander, (oan), Third Coast Guard District, Governors Island, New York, New York 10004. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Third Coast Guard District.

The Commander, Third Coast Guard District, will forward any comments received before September 11, 1973, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposed. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by revising § 117.215 by adding a new subparagraph (5) to paragraph (j) to read as follows:

§ 117.215 **Navigable streams flowing into Raritan Bay (except Raritan River and Arthur Kill), the Shrewsbury River and its tributaries, and all inlets on the Atlantic Ocean including their tributaries and canals between Sandy Hook and Bay Head, N.J.; bridges.**

. . . . . .

(j) • • •

(5) New York and Long Branch railroad bridge across Cheesequake Creek. The draw shall open on signal except at the following times the draw shall open on signal only if at least four hours notice is given:

(i) 2 p.m. to 6 a.m. from January 1 through March 31;

(ii) 10 p.m. to 6 a.m. from April 1 through May 31 and December 1 through December 31;

(iii) 10 p.m. to 5 a.m. from October 1 through November 30.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05–1(c)(4))

Dated: August 1, 1973.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[33 CFR Part 117]

[CGD 73–165P]

BAYOU TECHE, NEW IBERIA, LA.

Proposed Drawbridge Operation Regulations

At the request of the Louisiana Department of Highways and the City of New Iberia, the Coast Guard is considering amending the regulations for the Lewis Avenue, Duperier Avenue and Jefferson Avenue drawbridges located across the Gulf Intracoastal Waterway in New Iberia to permit closed periods during the morning, noon and afternoon vehicular peak periods and also to require at least 12 hours notice for openings between 9 p.m. and 5 a.m. The first periods are being considered because of an increase in vehicular traffic and the second because of limited openings during that period.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander (oan), Eighth Coast Guard District, Customhouse, New Orleans, Louisiana, 70130. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Eighth Coast Guard District.

The Commander, Eighth Coast Guard District, will forward any comments received before September 11, 1973, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposed. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by adding a new § 117.540 immediately after § 117.535 to read as follows:

§ 117.540 **GIWW, New Iberia, Louisiana; bridges.**

(a) The draws of the Lewis Avenue, Duperior Avenue and Jefferson Avenue bridges shall open on signal except:

(1) from 7:30 to 8:30 a.m., 11:30 a.m. to 1 p.m. and 4:30 to 5:30 p.m., Monday through Friday, except legal holidays, the draws need not open for the passage of vessels; and

(2) from 9 p.m. to 5 a.m. the draws shall open on signal if at least 12 hours notice is given.

(b) the owners of or agencies controlling these bridges shall post on both the upstream and downstream sides of the bridges or elsewhere in the vicinity in such a manner that they may be readily read from an approaching vessel, directions for contacting the authorized representative to arrange for openings of the draws.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05–1(c)(4))

Dated: August 1, 1973.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[33 CFR Part 117]

[CGD 73–161P]

ROOT RIVER, WISCONSIN

Proposed Drawbridge Operation Regulations

At the request of the City of Racine, the Coast Guard is considering amending the regulations for the Main Street bridge across the Root River located in Racine, Wisconsin. This amendment would modify present closed periods and would permit additional closed periods during peak vehicular traffic periods. The draw is presently closed to the passage of vessels from 6:30 to 7 a.m., 12 noon to 12:15 p.m. and 12:45 to 1 p.m., except Saturdays, Sundays and holidays. The proposed closed periods are from 7:30 to 8:10 a.m., 11:50 a.m. to 12:10 p.m., 12:50 to 1:10 p.m., 3:30 to 4:10 p.m. and 4:30 to 5:10 p.m., excluding Saturdays, Sundays and holidays. Reference to the 4th Street bridge will be deleted because this bridge has been removed. The regulations governing the operation of the State Street bridge would not be changed.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander (oan), Ninth Coast Guard District, 1240 East 9th Street, Cleveland, Ohio 44199. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Ninth Coast Guard District.

The Commander, Ninth Coast Guard District, will forward any comments received before September 11, 1973, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposed. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by revising § 117.660 to read as follows:

§ 117.660 **Root River, Racine, Wisconsin, Main Street and State Street bridges.**

(a) The draws of these bridges shall open on signal except that

(1) The draw of the Main Street bridge may remain closed to the passage of vessels Monday through Friday, except holidays, during the following periods:

7:30 a.m. to 8:10 a.m.
11:50 a.m. to 12:10 p.m.
12:50 p.m. to 1:10 p.m.
3:30 p.m. to 4:10 p.m.
4:30 p.m. to 5:10 p.m.

(2) The draw of the State Street bridge may remain closed to the passage of vessels, Monday through Friday, except holidays, during the following periods:

6:30 a.m. to 7 a.m.
12 noon to 12:15 p.m.
12:45 p.m. to 1 p.m.

(b) Signals

(1) Main Street bridge—The opening signal is one long blast followed by one short blast of a whistle, horn, siren, or by shouting.

(2) State Street bridge—The opening signal is three short blasts of a whistle, horn, siren, or by shouting.

(3) The acknowledging signal from the drawtender is the same as the opening signal when the draw will open promptly, or a white flag or ball by day and a white light by night, conspicuously displayed. When the draw cannot open promptly or is open and must close, four or more short blasts, or a red flag by day or a red light at night.

(c) The owners of or agencies controlling these bridges shall provide the necessary drawtenders and the proper mechanical appliances for the safe prompt and efficient opening of the draw.

(d) The draws shall open on signal at all times for vessels in distress and public vessels of the United States, state or local governments engaged in public safety or law enforcement activities.

(e) The owners of or agencies controlling these bridges shall post the provisions of this regulation on the upstream and downstream sides of the bridges or elsewhere in a manner that it can easily be read from an approaching vessel at all times.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05–1(c)(4))

Dated: August 1, 1973.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 19762]

FM BROADCAST STATIONS IN EAST MOLINE, ILL.

Proposed Table of Assignments; Order Extending Time for Filing Reply Comments

In the matter of Amendment of § 73.202(b), *Table of assignments*, FM Broadcast Stations. (East Moline, Illinois), Docket No. 19762, RM–1973.

1. On June 6, 1973, the Commission adopted a notice of proposed rulemaking in the above-captioned proceeding. Publication was given in the FEDERAL REGISTER on June 15, 1973, 38 FR 15739. The date for filing comments has expired and the date for filing reply comments is July 31, 1973.

2. On July 27, 1973, counsel for Upper Rock Island Holding Company, filed a request for an extension of time to and including August 10, 1973, to file reply comments. Counsel states that he will be absent from his office and therefore needs the additional time.

3. We are of the view that the requested extension of time is warranted and would serve the public interest. *Accordingly, it is ordered*, That the time for filing reply comments is extended to and including August 10, 1973.

4. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and § 0.281(d)(8) of the Commission's rules.

Adopted: July 31, 1973.

Released: August 1, 1973.

FEDERAL HOME LOAN BANK BOARD

[12 CFR Part 526]

[No. 73–1085]

FEDERAL HOME LOAN BANK SYSTEM

Proposed Amendments Relating to Savings Accounts

AUGUST 2, 1973.

The Federal Home Loan Bank Board, after consulting with the Board of Governors of the Federal Reserve System and the Board of Directors of the Federal Deposit Insurance Corporation, considers it advisable to amend Part 526 of the Regulations for the Federal Home Loan Bank System (12 CFR Part 526) by revising § 526.6 thereof, captioned "Advertising of interest or dividends on savings accounts," and by adding paragraph (a) of new § 526.6–1, captioned "Disclosure before acceptance; notice before end of fixed or minimum term". The Board also considers it advisable to further amend said Part 526 by adding paragraph (b) of new § 526.6–1 and by adding a new § 526.7, captioned, "Penalty for early withdrawal."

Section 526.6 is amended by redesignating paragraphs (e), (f) and (g) thereof as paragraphs (f), (g) and (h) respectively, and by adding a new paragraph (e) thereto. Said new paragraph (e) requires that all advertisements by member institutions relating to interest or dividends paid on certificate accounts state that Federal law and regulation prohibit a member institution from permitting withdrawal of a certificate account before the end of its fixed or minimum term unless substantial interest is forfeited. This requirement applies to all forms of advertising, including advertisements on radio and television.

Paragraph (a) of new § 526.6–1 requires a member institution to provide a certificate account customer with a written statement which fully and clearly describes the early withdrawal penalties applicable to such an account before accepting the customer's deposit. Such statement must contain arithmetic examples.

Paragraph (b) of new § 526.6–1 requires a member institution to mail a notice to the holder of a certificate account of one year or more which such institution may renew after December 31, 1973 unless such holder presents the certificate evidencing such account for withdrawal within a specified period. Such notice must be mailed to an account holder between 20 and 60 days before the end of the fixed or minimum term of such account.

The information which an institution must provide to the holder of a given certificate account differs according to whether or not that institution intends to renew such account in the event that the funds are not withdrawn. Subparagraph (1) of paragraph (b) of new § 526.6–1 states that an institution which does not intend to renew such an account shall provide the account holder with the following information: (1) The date on

V 38 154 AUG 10 73 XUM

which the fixed or minimum term of such account ends; (2) a statement that the institution does not intend to renew such account; and (3) the rate of return which will be paid on such account after the end of such fixed or minimum term. Subparagraph (2) of said paragraph (b) states that an institution which does intend to renew such an account shall provide the account holder with the following information: (1) The date on which the fixed or minimum term of the existing certificate account ends and the date on which the fixed or minimum term of such account will end if renewed; (2) the rate of return which is being paid on the existing certificate account and the rate of return which will be paid on such account if renewed; if the latter is less than the rate of return which the institution is presently offering for certificate accounts with the same fixed or minimum term, the rate of return presently being offered must also be stated; (3) any other changes in the terms of the certificate account if renewed, including any change in the penalty provisions; and (4) the period within which the existing certificate account must be presented for withdrawal in order to avoid loss of interest or dividends.

A certificate account which is not renewed at the end of its fixed or minimum term earns less following the end of such term. Notification of the holder of a given certificate account that such account will not be renewed at the end of its fixed or minimum term will enable such holder to reinvest his funds immediately following the end of such term if he so desires.

There are two reasons for requiring a member institution to notify the holder of a certificate account, before the end of the fixed or minimum term of such account, if such institution intends to renew the account unless the funds are withdrawn. First, the Board's recent amendments to §§ 563.3–1 and 563.3–2 and the addition of new § 526.7, proposed herein, make the penalties for early withdrawal from such accounts more severe. In order to avoid incurring these new penalties, it is important that an account holder receive notice of the impending end of the fixed or minimum term of his account. Second, it has come to the Board's attention that some member institutions commonly renew certificate accounts at their original rate even though the institution involved may be accepting new certificate accounts of the same type at a higher rate. The Board believes that supplying account holders with the information required by paragraph (b) of new § 526.6–1 will serve to prevent any abuses in this area.

New § 526.7 would impose the early withdrawal penalties applicable to insured institutions on non-insured member institutions.

Accordingly, the Federal Home Loan Bank Board hereby proposes to amend Part 526 by redesignating paragraphs (e), (f) and (g) of § 526.6 thereof as paragraphs (f), (g) and (h) respectively, and by adding a new paragraph (e) thereto, and by adding new §§ 526.6–1 and 526.7 thereto, to read as set forth below.

Interested persons are invited to submit written data, views, and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 101 Indiana Avenue, NW, Washington, D.C., 20552, by September 10, 1973, as to whether this proposal should be adopted, rejected, or modified. Written material submitted will be available for public inspection at the above address unless confidential treatment is requested or the material would not be made available to the public or otherwise disclosed under § 505.6 of the General Regulations of the Federal Home Loan Bank Board (12 CFR 505.6).

§ 526.6 Advertising of interest or dividends on savings accounts.

* * * * *

(e) *Penalty for early withdrawals.* Any advertisement, announcement, or solicitation relating to interest or dividends paid by a member institution on certificate accounts shall include clear and conspicuous notice that Federal law and regulation prohibit the member institution from permitting withdrawal of a certificate account before the end of its fixed or minimum term or qualifying period unless substantial interest or dividends are forfeited.

* * * * *

§ 526.6–1 Disclosure before acceptance; notice before end of fixed or minimum term.

(a) *Disclosure before acceptance.* Before a member institution accepts a certificate account deposit, such institution shall provide to the depositor a written statement of the applicable penalty provisions for a withdrawal from such account before the end of the fixed or minimum term or qualifying period for such account. Such written statement shall describe fully and clearly—including arithmetic examples—how such penalty provisions would apply to such a withdrawal from such certificate account.

(b) *Notice before end of fixed or minimum term.* (1) If a member institution does not intend to renew, after December 31, 1973, a certificate account of one year or more which such institution may renew unless the holder thereof presents the certificate evidencing such account for withdrawal within a specified period, such institution shall mail a notice to the holder of such account not less than 20 days and not more than 60 days before the end of the fixed or minimum term of such account. Such notice shall contain the following information:

(i) The date on which such fixed or minimum term ends;

(ii) A statement that the institution does not intend to renew such account; and

(iii) The rate of return which will be paid on such account after the end of such fixed or minimum term.

(2) If a member institution intends to renew, after December 31, 1973, a certificate account of one year or more which such institution may renew unless the holder thereof presents the certificate evidencing such account for withdrawal within a specified period, such institution shall mail a notice to the holder of such account not less than 20 days and not more than 60 days before the end of the fixed or minimum term of such account. Such notice shall contain the following information:

(i) The date on which the fixed or minimum term of the existing certificate account ends and the date on which the fixed or minimum term of such account will end if renewed;

(ii) The rate of return which is being paid on the existing certificate account and the rate of return which will be paid on the account if renewed; if the latter is less than the rate of return presently being offered for certificate accounts with the same fixed or minimum term, the rate of return presently being offered shall also be stated;

(iii) Any other changes in the terms of the certificate account if renewed, including any change in the penalty provisions; and

(iv) The period within which the existing certificate account must be presented for withdrawal in order to avoid loss of interest or dividends.

§ 526.7 Penalty for early withdrawal.

With respect to each certificate account issued on or after _____ [effective date of this amendment], each member institution which is not an insured institution (as defined in § 561.1 of this chapter) shall impose the following conditions on withdrawal from such an account before the expiration of its fixed or minimum term or qualifying period: (a) The account holder shall receive interest or dividends from the date of issuance of such account on the amount withdrawn at a rate not in excess of the rate then being paid on regular accounts; and (b) the account holder shall also pay a penalty in an amount not less than the lesser of (1) the interest or dividends at such rate for 90 days (3 months) on the amount withdrawn or (ii) all interest or dividends at such rate (since issuance or renewal of the certificate account) on the amount withdrawn.

(Sec. 5B, 47 Stat. 727, as added by sec. 4, 80 Stat. 824, as amended by Public Law 91–151, sec. 2(b), 83 Stat. 371; sec. 17, 47 Stat. 736, as amended; 12 U.S.C. 1425b, 1437. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

FEDERAL POWER COMMISSION

[18 CFR Parts 2, 3, 9]

[Docket No. R–417]

DISPOSAL OF INTERESTS IN PROJECT LANDS, AND APPLICATIONS FOR CERTAIN USES OF PROJECT PROPERTY REQUIRING COMMISSION APPROVAL

Renotice of Proposed Rulemaking and Request for Comments

AUGUST 3, 1973.

On April 7, 1971, the Commission published a notice of proposed rulemaking in Docket No. R–417 (Disposal of Interests in Lands Within Licensed Projects) for the purpose of amending its rules with respect to certain lands within project boundaries.

At the present time, the Secretary of the Commission has broad authority to approve conveyances of interests in project lands.[1] Because of the increased awareness of and emphasis on environmental factors, the policies expressed by the Commission in Order Nos. 313 and 414;[2] and an increased number of applications for land transfers, the Commission determined that the authority to approve transfers which was delegated to the Secretary should be re-defined, clarified, and restricted so that appropriate consideration could more easily be given the factors involved.

It was proposed to limit § 3.5 by requiring any instrument of conveyance to provide that the use of such lands would not endanger health, create a nuisance, or otherwise be incompatible with overall project recreational use, in accordance with the policy expressed in Commission Order No. 313. It was further proposed to require a showing in each application that the transfer would be in accordance with existing comprehensive land use plans adopted by local and regional agencies.[3]

The notice clearly stated that the already-existing Staff review of land transfer applications would remain the same. It was also pointed out that the Secretary would not be permitted to grant transfers in special cases, e.g., transfers involving environmental considerations. In appropriate cases the procedures mandated by the National Environmental Policy Act (NEPA) would be followed.

As a result of publication of the Notice a total of nine comments were received: Congressman John D. Dingell, Chairman, Subcommittee on Fisheries and Wildlife Conservation; National Wildlife Federation; the Wilderness Society; Western Rockhounds Association, Inc.; Idaho Fish and Game Department; New England Power Company; Virginia Electric and Power Company; Pacific Gas and Electric Company; and Consumers Power Company.

Three main issues were raised by these comments: (1) Such broad authority should not be delegated to the Secretary; (2) because delegation to the Secretary would preclude full Commission scrutiny, the proposal would not allow certain interests to be adequately protected; and (3) the rulemaking should be subject to the procedural requirements of section 102(2)(C) of NEPA.

With respect to the first comment, it was clear on the face of the Notice that the proposal was not intended to delegate a new power to the Secretary, but was to restrict an already-existing power.

In regard to the second contention that a transfer approved by the Secretary would be likely to ignore some critical interests, we point out that the Notice was clear in its intention to reserve for Commission approval any transfer which involved special considerations. Furthermore, the contention that absent full Commission scrutiny such special considerations would not be apparent is without merit because the Notice stated that whether the Commission or the Secretary approved the transfer, the Staff review of each application for transfer would be conducted as it has been in the past.

Turning to the third contention, it was correctly pointed out that the disposal of some interests in land may have an impact on the environment. However, the act of promulgating regulations merely establishes a procedural mechanism to handle individual applications, any one of which may or may not have an impact on the environment. Therefore, the time to carry out the detailed balancing analysis mandated by NEPA is at the time an individual application comes before the Commission. Only then are precise environmental impacts and alternatives to the proposed action susceptible to quantification. On the basis of this reasoning, the Commission determined that an environmental impact statement to accompany the rulemaking was neither necessary nor proper.

In addition to the foregoing, several comments also expressed a desire for more clarification and stronger guidelines for the submission of applications for the disposal of interests in lands within project boundaries.[4] As a result of these comments, further study by Staff, an increased number of applications for transfer of interests in project lands, the importance of adequate public recreational facilities, and the importance of the substantive and procedural provisions of NEPA, the Commission has decided that the present rules and regulations governing the disposal of interests in lands within licensed projects can be improved to provide more adequate information to the public and better guidelines to licensees for preparation of applications. The Commission feels that the original proposals in this docket were too narrow in scope. Accordingly, the Commission has determined that it is in the public interest to amend the proposals in this docket to provide the needed guidance in these matters.

In order to protect environmental values, to ensure greater public participation in the decision-making process, to provide greater public information, and to insure the public safety at licensed projects, the Commission proposes to adopt new regulations which will provide needed information and guidance in the following areas: (1) Transfer of interests in project property owned in fee by the licensee and certain uses of project property which will require Commission approval, together with the information to be contained in applications for such transfer or use; (2) covenants and provisions to be included in instruments of conveyance; (3) provisions for review of environmental factors in the transfer or use; and (4) procedures which the Commission Staff will use in processing applications.

Therefore, the Commission proposes the following modifications to its rules of practice and procedure and its regulations under the Federal Power Act:

PART 2—GENERAL POLICY AND INTERPRETATIONS

(1) *Promulgation of a new § 2.14 of the Commission's rules of practice and procedure.* The greater number of licenses issued by the Commission specify only that the conveyance of an interest in project lands must be approved by the Commission. Consequently, there have been instances in which licensees have undertaken or permitted the undertaking of certain potentially harmful uses of project lands and waters without Commission approval, such as non-project construction on project property by licensee (e.g., non-project transmission lines); joint use of project land by licensee and another party (e.g., two different transmission lines sharing or partially sharing, the same rights-of-way); non-project withdrawal of water from project reservoirs; and construction of transmission lines, roads, communication cables, pipelines, or other non-project facilities over or under project lands or waters. There have also been instances in which licensees have transferred in-

[1] Section 3.5 authorizes the Secretary to: (16) Approve, with respect to particular parcels of lands within the project area of a licensed waterpower project, the conveyance by the licensee to another legal entity of an interest therein for use for a non-project purpose, subject to the right of the licensee, its successors and assigns to use the land for all project purposes contemplated by the license for the project.

[2] Order No. 313; Recreational Development at Licensed Projects, Statement of General Policy, issued December 27, 1965 (30 FR 16197), 34 F.P.C. 15463.

Order No. 414; Amending Regulations under the Federal Power Act for the Protection and Enhancement of Aesthetic and Related Values in the Design, Location, etc., of Project Works, issued November 27, 1970 (35 FR 18585), 44 F.P.C. 1491.

[3] As proposed, § 3.5 would have authorized the Secretary to:

(16) Approve, with respect to particular parcels of land within the project area of a licensed water-power project, the conveyance by the licensee to another legal entity of an interest therein for use for a nonproject purpose, subject to the right of the licensee, its successors and assigns to use the land for all project purposes, provided that the application contains a statement that the proposed use is not inconsistent with any officially recognized local or regional land use plan and, except in cases of conveyances to States or municipalities for their own use, the instrument of conveyance contains a covenant providing that the use of such lands will not endanger health, create a nuisance or otherwise be incompatible with overall project recreational use, in accordance, with the requirements of paragraph (C) of the Commission's Order No. 313, issued December 27, 1965 (34 FPC 1546, 1549–50).

[4] Comments of National Wildlife Federation, New England Power Company, and Virginia Electric and Power Company.

V 38-154 AUG 10 73 XUM

terests in project lands both without Commission approval and contingent on Commission approval.

It is further noted that the substantive and procedural requirements of NEPA are of paramount importance. When information in an application (see the proposed § 9.21(h), infra) indicates that the action to be authorized by the Commission will initiate a use of project lands or waters which will have a significant impact on the human environment, applications will be treated in accordance with Commission regulations which govern compliance with NEPA.[7]

Therefore, the Commission proposes a new § 2.14, to clearly indicate that certain uses of project property require Commission authorization, and to set forth the requirements for Commission approval which must be satisfied prior to the implementation of such uses:

§ 2.14 Certain uses of project property requiring commission approval.

(a) Any licensee desiring to take any action which will:

(1) Convey to another legal entity any interest in a parcel of land within a project boundary; (2) withdraw, or permit another legal entity to withdraw, any project waters for any non-project purposes; (3) construct, or grant approval to another legal entity to construct transmission lines, roads, communication cables, pipelines, or any non-project facilities over or under project lands (assuming such are owned in fee by the licensee) or waters;[8] (4) result in the construction by the licensee of non-project facilities within the project boundaries; shall timely file with the Commission an application pursuant to Part 9 of the Commission's regulations under the Federal Power Act, which filing must be approved by the Commission prior to such action. This section shall not apply to public access facilities, leases, or permits specifically authorized by Commission approval of an Exhibit R or recreational use plan, or an Exhibit S or fish and wildlife conservation plan.

(b) When it appears, based on the information contained in the application (including but not limited to information specified by § 9.21(h) of this chapter, and review by Staff, that Commission approval of Applicant's action will initiate a use of project property which may constitute a significant effect on the human environment, the application will be treated in accordance with the procedures specified by §§ 2.80 and 2.81.

(2) *Promulgation of a new § 2.15 of the Commission's rules of practice and procedure.* This section sets forth restrictive covenants to be included in any instrument conveying interest in project property, unless specifically exempted by the Commission. Any licensee desiring such exemption shall set forth in detail in its application any reasons for exclusion.

Docket No. R-417 proposed a covenant which contained an exemption applicable to conveyances to States and municipalities for their own use.[9] However, the Commission feels that the burden of the standard covenants which are herein proposed should fall equally on all transferees in order to more adequately protect the public interest. Therefore, the exception to the covenant proposed in Docket No. R-417 is not included. The proposed § 2.15 includes as one covenant the restrictions in Paragraph (C) of Order No. 313.[10] Order No. 313 was a statement of General Policy and this restriction is not presently included in our regulations. The policy expressed is of such importance that the Commission feels it should be included as a part of the regulations, and it hereby proposes to do so.

Finally, the Commission retains the right to impose such additional covenants in specific cases as in its judgment may be necessary and proper to protect the public interest.

Accordingly, the Commission proposes a new § 2.15 to read:

§ 2.15 Required covenants in instruments of conveyance of interests in project property.

(a) Unless the land to be conveyed is shown to be no longer necessary for project purposes, the Commission will approve the conveyance of any interest in project property pursuant to § 2.14 only if the conveyance shall covenant:

(1) The right to use the coveyed land shall be reserved to the licensee, its successors, and assigns for project purposes only.

(2) That the use of the land conveyed will not endanger health, create a nuisance, or otherwise be incompatible with overall project recreational use;

(3) That where construction is contemplated as a result of the conveyance, the party to undertake such construction shall take all necessary precautions during construction and subsequent operation and maintenance to protect and enhance the environmental values of any affected project lands and waters. Such precautions shall include but not be limited to the provisions set forth in Commission Order Nos. 414[11] and 407[12]; and

(4) The conveyance and use of the property shall be in compliance with all applicable laws and regulations.

(b) In the event an Applicant wishes to have exempted from the instrument of conveyance one or more of the covenants listed above, the application shall fully support the reason for such exemption, which will be granted only for good cause shown.

(c) The Commission reserves the right to require such additional covenants in the instrument of conveyances as it shall judge necessary and proper to protect the public interest.

PART 3—ORGANIZATION; OPERATION; INFORMATION AND REQUESTS; MISCELLANEOUS CHARGES; ETHICAL STANDARDS

§ 3.5 [Amended]

(3) Section 3.5: *Delegations of final authority.* Delete § 3.5(a)(16) of Part 3 and re-number § 3.5(a)(17–26) as § 3.5(a)(16–25).

This will revoke the authority presently delegated to the Secretary to authorize transfers of interests in lands.

PART 9—TRANSFER OF LICENSE OR LEASE OF PROJECT PROPERTY REQUIRING COMMISSION APPROVAL

(4) *Amendment of Part 9 of the regulations by changing its title and adding new §§ 9.20 and 9.21.* These subsections will specify both the procedure for filing an application for approval of non-project use of project property and the contents of such an application to include the information necessary for Staff review. Each application and its environmental report should furnish information on all present and projected future development of the project reservoir and its contiguous lands and the capacity of the project lands and waters and their biota to serve foreseeable future public uses which may be imposed upon them. Such information should be furnished even if approval of the application, by itself, would not significantly affect the quality of the human environment, but where the cumulative effects of approval of a number of similar applications could constitute a major Federal action.

---

[7] Order No. 415-C, promulgated December 18, 1972. (18 CFR 2.80, 2.81, 2.82).

[8] Where construction will result in any discharge into project waters appropriate permits and certification should be obtained and furnished to the Commission for its information.

[9] See Note 3, supra.

[10] 313(C) reads:

(C) The Commission will not grant any authorization for a licensee to dispose of any interest in project lands, unless a showing is made that such disposal is not inconsistent with any approved recreational plan or in the absence of such a plan, that the lands do not have recreational value. Pending a determination by the Commission that such lands are not needed for public recreational purposes (all project lands, buildings, or other property will be considered to be required to achieve the purposes of the license within the meaning of any article in the license relating to the leasing of such lands, buildings, or other property. The licensee, in the absence of specific Commission exemption from these requirements, shall include in the instrument of conveyance a covenant running with the land adequate to insure that, unless the Commission subsequently authorizes a different use as consistent with a comprehensive plan for improving or developing the waterway, the use of lands conveyed will not endanger health, create a nuisance, or otherwise be incompatible with overall project recreational use.

[11] See Note 2, supra.

[12] Order No. 407, Statement of Policy Amending Regulations under the Natural Gas Act Re: Rights-of-way Routes, of Natural Gas Companies, July 10, 1970 (35 FR 11377). 44 FPC 47.

APPLICATION FOR CERTAIN USES OF PROJECT PROPERTY REQUIRING COMMISSION APPROVAL

§ 9.20 Filing.

Any licensee desiring to (a) make certain uses of project lands, or (b) convey any interest in project lands, shall timely file an application for Commission approval thereof pursuant to §§ 2.14 and 2.15 of this chapter.

§ 9.21 Contents of application.

An application shall contain, but not be limited to, the following information:

(a) Present and proposed use of the project property, and the party or parties to whom the rights are to be conveyed.

(b) The location of any land involved and the size thereof marked on prints of appropriate sheets of Exhibit K.

(c) (1) Copies of all correspondence with Federal, State, regional, and local agencies concerning the proposed use; (2) an explanation of any permits or other approvals which must be obtained from any agency for the proposed use, including copies of any permits or other approvals which may have been issued; and (3) the time and nature of any public notices which may have been issued by any agency and response thereto, including any hearing which may have been held.

(d) Technical descriptions and drawings of any construction, excavation, clearing of land, etc., and proposed operation thereof.

(e) A showing in accordance with § 2.13(c)(2) of this chapter.

(f) Any proposed change in project operation and any compensation to be paid to licensee because of such change in project operation.

(g) A showing, pursuant to Commission order No. 313 that the proposed use is not inconsistent with any approved recreational plan or, in the absence of such a plan, that the property does not have recreational value.

(h) A detailed report of the environmental factors specified in § 2.80 of this chapter (Order No. 415-C issued December 18, 1972), if construction, or operating change of a project, is proposed.

(i) A statement that this application would not modify previously filed Exhibits (filed pursuant to Part 4) or that revised Exhibits will be filed.

(j) A copy of any proposed instrument of conveyance (See § 2.15 of this chapter).

Any interested person may submit to the Federal Power Commission, Washington, D.C. 20426, on or before September 17, 1973, views, comments or suggestions in writing concerning all parts of the proposals above. An original and fourteen (14) conformed copies should be filed with the Secretary of the Commission. Submittals to the Commission should indicate the name, title, and mailing address of the person to whom communications concerning the proposals should be addressed, and whether the person filing them requests a conference at the Federal Power Commission to discuss the proposed amandments. The Commission will consider all such written submittals before acting on the proposed amendments.

The Secretary shall cause prompt publication of this notice to be made in the FEDERAL REGISTER.

By direction of the Commission.

MARY B. KIDD,
Acting Secretary.

Notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

FEDERAL POWER COMMISSION

[Docket No. E-8255]

ALABAMA POWER CO.

Order Accepting for Filing and Denying Motion To Reject or Suspend Service Agreement

AUGUST 1, 1973.

On November 1, 1971, Alabama Power Co. (Alabama) tendered for filing under section 205(d) of the Federal Power Act a new tariff schedule applicable to all electric service provided by Alabama to municipal distribution systems and rural distribution cooperations. By order issued December 30, 1971, in Docket No. E-7674, the Commission ordered an investigation of the proposed increase and suspended application of the increased rates until February 2, 1972. The rate increase filing was in the form of an electric tariff which Alabama intended to replace its then current rate schedules, which incorporated individual contracts for each delivery point, as of the termination of the current contract in each case. By Commission orders issued December 30, 1971 and February 11, 1972, Alabama was authorized to effectuate its rate schedule after the expiration of the suspension period, subject to refund, upon the termination of individual contracts. This action was affirmed by Court of Appeals decision in Municipal Electric Utility Association of Alabama v. FPC F.2d, Civil Action No. 72-1294 (D.C. Cir. 1973).

By letter dated May 31, 1973, Alabama submitted for filing under its tariff an unsigned service agreement with the City of Alexander City, Alabama (Alexander) for service to three delivery points and a revised sheet to the Index of Purchasers section of its tariff. Alabama's proposed filing was noticed in the FEDERAL REGISTER on June 29, 1973, fixing July 12, 1973, as date for filing protests or petition to intervene. The Protest and Comments of Alexander were filed on June 22, 1973. On July 10, 1973, Alexander and the Municipal Electric Utility Association of Alabama (Municipal) filed a petition to intervene. Alabama filed a response to the Protest and Comments of Alexander on July 9, 1973, and Alexander filed a reply to this response on July 10, 1973. In its Protest and Comments Alexander requested that the Alabama filing be rejected or, in the alternative, that the increase in rates be suspended for five months and a hearing be ordered into its lawfulness.

We believe that the Alabama filing dated May 31, 1973, complied with Commission orders of December 30, 1971 and February 11, 1972, in Docket No. E-7674 which were affirmed by the Court of Appeals decision as indicated above.

Alexander alternatively requests for a five month suspension of the filing.

Alexander contends that Alabama has not submitted the documents specified in § 35.12(b) of the Commission's regulations under the Federal Power Act and that the tender is therefore jurisdictionally deficient and should be rejected for that reason. But the Court of Appeals decision stated (at mimeo. p. 15):

> The details of procedural mechanics are best left to the Commission in the first instance. In broad outline, however, it appears that FPC review of the Alabama Power filing will proceed as follows: the section 205(e) proceedings that began in early 1972 will include all of Alabama Power's wholesale municipal customers. As to those among the Petitioners whose contract have already expired, whatever finding the Commission makes as to the lawfulness of the tariff will, of course, be immediately binding. As to those whose contracts remain in effect, such determination will be prospective in nature, and the contract rates and service condition will remain in effect. When each of these latter contracts experies (sic) Alabama Power will file with the Commission the documentation necessary to bring the affected customer within the terms of the general tariff. At this time, if the Commission has reason to believe that the assumptions underlying its earlier determination are not operative—possibly due to a change in conditions, or more likely a projection of conditions that did not materialize—the Commission may order the section 205(e) proceedings to be reopened; require from Alabama Power whatever additional data is necessary to demonstrate the continuing validity of the tariff rate; if necessary suspend extension and take whatever further steps may be necessary to assure that the rates and conditions of service remain lawful.

In our original suspension we found that the rates then in effect were deficient. Alexander has not advanced any proposition that conditions have changed or that projected occurrences did not materialize to render our prior decision no longer valid. Moreover, the original section 205 proceeding is still pending before us. Under these circumstances, we conclude, that Alabama need file no new economic data to support its filing. Similarly, we find no merit in Alexander's request for a five month suspension and for a separate hearing on the May 31, 1973, filing. That filing complied with the Court of Appeals directive (mimeo. p. 15) to Alabama to make when each contract expired, the necessary filings to bring the affected party within the terms of the general tariff. We note, with respect to the request for hearing, that Alexander was a party in the hearing in Docket No. E-7674 and has filed exception to the Initial Decision therein, concerning the justness and reasonableness of the rates contained in the May 31 filing in this docket.

The Commission finds. The filing of Alabama dated May 31, 1973, complies with Commission orders of December 30, 1971 and February 11, 1972, and the decision of the D.C. Circuit Court of Appeals affirming those orders and we therefore deny Alexander's request that the filing be rejected or suspended.

The Commission orders. (A) The Service Agreement tendered by Alabama is accepted for filing, to become effective on July 31, 1973, as requested subject to refund pending decision in Docket No. E-7674.

(B) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD, *Acting Secretary.*

[FR Doc.73-16569 Filed 8-9-73;8:45 am]

[Docket No. RP73-112]

ALGONQUIN GAS TRANSMISSION CO.

Order Accepting and Suspending Proposed Tariff Sheets, Providing for Hearing and Granting Intervention

AUGUST 1, 1973.

On June 15, 1973, Algonquin Gas Transmission Company (Algonquin) tendered for filing proposed changes in FPC Gas Tariff as follows:

Original Volume No. 1
Third Revised Sheet No. 3-A
Original Volume No. 2
Twenty-Seventh Revised Sheet No. 57

Algonquin proposed to increase the rates, effective August 1, 1973, presently applicable to natural gas service rendered to its customers under its Rate Schedules F-1, WS-1, I-1, E-1, X-5 and T-1. The proposed changes amount to an increase in revenues of approximately $7.8 million annually, or an annual percentage increase of 7.58 percent. Furthermore, Algonquin proposed to increase its basic rate of depreciation from 3 percent to 5 percent. The proposed increase in revenues is based on a test year ended March 31, 1973, as adjusted.

Algonquin states that two major cost of service factors necessitate the proposed changes. Firstly, an increase in depreciation from 3 percent to 5 percent is needed since the 3 percent rate has been basically utilized since Algonquin commenced operations approximately twenty years ago. Secondly, Algonquin states that an increase in rate of return from 8.125 percent to 9 percent is needed to reflect the current capitalization and debt cost of Algonquin.

The filing was noticed on June 22, 1973, with letters of protest and petitions to intervene due on or before July 9, 1973. The following parties filed timely petitions to intervene or notices of intervention: Central Hudson Gas and Electric Corporation; New Jersey Natural Gas Company; Consolidated Edison Company of New York, Inc.; Rhode Island Consumer's Council and Providence Gas Company.

Our review of the filing indicates that it raises certain issues which may require development in an evidentiary hearing. The proposed changes in rate and charges have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful. We shall therefore order a suspension of the rates proposed herein for the full statutory period.

The Commission finds.

(1) The proposed increased rates and charges have not been shown to be justified and may be unjustified and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful.

(2) It is necessary and proper in the public interest and to the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges in Algonquin's FPC Gas Tariff as proposed to be amended in this docket, and that the tendered tariff sheets be suspended as hereinafter provided.

(3) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

(4) Participation of the above-named petitioners for intervention in this proceeding may be in the public interest.

The Commission orders.

(A) Algonquin's tariff sheets as filed on June 15, 1973, are accepted for filing as hereinafter ordered.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 5 thereof, the Commission's rules of practice and procedure and the regulations under the Natural Gas Act (18 CFR, Chapter I), a public hearing shall be held commencing with a prehearing conference on December 18, 1973, at 10 a.m., e.s.t., in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, concerning the lawfulness of the rates, charges, classification and service contained in Algonquin's FPC Gas Tariff, is proposed to be amended.

(C) At the prehearing conference on December 18, 1973, Algonquin's prepared testimony (Statement P) together with its entire rate filing shall be offered for admission to the record as its complete case-in-chief subject to appropriate motions, if any, by parties to the proceedings.

(D) On or before November 2, 1973, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of any or all intervenors shall be served on or before November 16, 1973. Any rebuttal evidence by Algonquin shall be served on or before November 30, 1973. Cross-examination of the evidence filed will commence December 19, 1973.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (see Delegation of Authority 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in § 2.59 of the Commission's rules of practice and procedure.

(F) Pending such hearing and decision thereon Algonquin's proposed revised tariff sheets are hereby suspended and the use thereof is deferred until January 1, 1974, and until such time as they are made effective in the manner provided in the Natural Gas Act.

(G) The above-named intervenors are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such interveniors shall be limited to matters affecting the rights and interests specifically set forth in their petition to intervene; and *Provided, further,* That the admission of such interveniors shall not be construed as recognitions that they or any of them might be aggrieved because of any order issued by the Commission in this proceeding.

(H) Nothing contained in this order shall relieve the applicant of any responsibility imposed by the Economic Stabilization Act of 1970 (Public Law 91-379, 84 Stat. 799, as amended by Public Law 92-15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

(I) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD, *Acting Secrctary.*

[FR Doc.73-16547 Filed 8-9-73;8:45 am]

[Docket No. CI74-48]

ANADARKO PRODUCTION CO.

Notice of Application

AUGUST 2, 1973.

Take notice that on July 23, 1973, Anadarko Production Co. (Applicant), P.O. Box 9317, Fort Worth, Texas 76107, filed in Docket No. CI74-48 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Panhandle Eastern Pipe Line Company from the No. 1 Kinzey "A" Well, Stevens County, Kansas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell up to 1,000 Mcf per day for one year at 45.0 cents per Mcf at 14.65 psia, subject to Btu adjustment, within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before August 18, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

MARY B. KIDD, *Acting Secretary.*

[FR Doc.73-16551 Filed 8-9-73;8:45 am]

[Project No. 271]

ARKANSAS POWER & LIGHT CO.

Notice of Application for Change in Land Rights

AUGUST 2, 1973.

Public notice is hereby given that application was filed October 30, 1972, under the Federal Power Act (16 U.S.C. 791a-825r) by the Arkansas Power & Light Co. (Correspondence to: Mr. W. M. Murphey, Vice-President, Arkansas Power & Light Co., 9th & Louisiana Street, Little Rock, Arkansas 72203) for change in land rights for Project No. 271, known as the Carpenter and Remmel Project,

V 38-154 AUG 10 73 XUM

located on the Ouachita River in Hot Springs and Garland Counties, near the Towns and Cities of Malvern and Hot Springs, Arkansas.

The applicant proposes to convey in fee to the city of Hot Springs 100 acres of Electric Island (the remaining 18 acres would be reserved by the Company for its own use) and 16.2 acres of Little Goat Island. This property is located off shore of Point Lookout one and one half miles west of Carpenter Dam in Lake Hamilton.

The city of Hot Springs subsequently proposes to lease both islands to Mr. Jess P. Odom (lessee), for a term of 50 years, for the development of a recreation-amusement park area.

The proposed lease would guarantee an expenditure of a minimum of $1.5 million within a period of three to five years to develop the two islands. If the lessee would not spend the $1.5 million within this specified period, the investment made to that time would revert to the City by default.

Execution of the lease would be subject to the following conditions:

(1) The term of the lease would be for 50 years for both islands.

(2) Arkansas Power and Light Co. would supply both islands with adequate electricity.

(3) The City would construct a two lane blacktop road, or improve existing roads to the water's edge of the mainland from State Route 290, through the Arkansas Game and Fish Commission Fish Hatchery, total length of the road being one mile. The City would also build a causeway 12 to 14 feet high, wide enough to accommodate a two lane blacktop road, starting from both the island and the mainland, and meeting 25 feet apart at the middle of the channel. Lessee would construct a bridge to join the two causeway sections.

(4) Lessee would supply and construct adequate water and sewage service on each island.

The proposed development would consist of:

A. An electric monorail system on both islands. Access to Little Goat Island would be by monorail and boat only.

B. Twenty-five acres of recreational and amusement facilities comprising theaters, exhibitions, museums, gardens, zoos, swimming facilities, golf courses, amusements, and fishing and boating facilities.

C. Fifteen acres for boat docks, marinas, aquarena, and public picnic facilities, including tables, benches, cooking grills, and waste depositories.

D. Fifteen acres for trailer and camper areas including water, electrical, sewer, parking, and public boat dock or launch ramp facilities.

E. Twenty acres for public parking areas.

F. Thirty-five acres for homes and shopping areas, including rental lakeside homes and a 150 room "Boatel" and restaurant.

G. Eight acres for other facilities, to include: public sand beaches; rest areas with seating and drinking fountains; restroom facilities; first aid station; outdoor interdenominational church; and a bandstand.

Any person desiring to be heard or to make protest with reference to said application should on or before September 14, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

MARY B. KIDD,
Acting Secretary.

[FR Doc.73-16558 Filed 8-9-73;8:45 am]

[Docket No. E-8335]

BUFFALO RAPIDS IRRIGATION PROJECT ET AL.

Notice of Filing of Complaint

AUGUST 2, 1973.

In the matter of: Buffalo Rapids Irrigation Project, Custer Rod & Gun Club, Tongue-Yellowstone Beet Growers, Trout, Unlimited Complainants v. Montana Power Co., Puget Sound Power & Light Co., Portland General Electric Co. Washington Water Power Co., Pacific Power & Light Co. Complainees.

Public notice is hereby given pursuant to § 2.1 of Part 2, Statements of general policy and interpretations, subchapter A, Chapter I of Title 18 of the Code of Federal Regulations, that a complaint was filed on July 11, 1973, by James H. Goetz alleging that the proposed fossil fuel generating facilities known as the Colstrip plants which are owned and operated by Montana Power Co., Puget Sound Power & Light Co., Portland General Electric Co., Washington Water Power Co., and Pacific Power & Light Co. and which are located on the Yellowstone River near Colstrip, Montana, are required to be licensed by the Federal Power Commission.

Complainants state that the water withdrawals which result from the project will affect navigability since the pumping structures will cause the water level of the Yellowstone River to be lowered. Complainants also state that the Colstrip generating facilities will use surplus water impounded by "government dams."

Complainants state that the construction, operation, and maintenance of the Colstrip Plants are not best adapted to a comprehensive plan for improving or developing the Yellowstone River, and are not best adapted for other beneficial public uses.

Complainants ask that the complainees be ordered to show cause why they should not be required to apply for licenses, and that complainees be ordered to show cause why they should not be required to suspend all development, planning and construction of the plants in question, pending the outcome of these proceedings.

Any person desiring to be heard or to make protest with reference to said complaint should on or before September 17, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The complaint is on file with the Commission and is available for public inspection.

MARY B. KIDD,
Acting Secretary.

[FR Doc.73-16571 Filed 8-9-73;8:45 am]

[Docket No. CI74-57]

C. CRADY DAVIS, ET AL.

Notice of Application

AUGUST 2, 1973.

Take notice that on July 26, 1973, C. Crady Davis, *et al.* (Applicants), 6780 E. Hampden Avenue, Denver, Colorado 80222, filed in Docket No. CI74-57 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon the sale of natural gas in interstate commerce to Southern Union Gathering Company (Southern) from the Blanco-Mesa Field, San Juan County, New Mexico, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicants were authorized by the order in Docket No. G-13105, as amended, to sell gas pursuant to a contract dated April 15, 1952, at 15.0636 cents per Mcf at 15.025 psia. Applicants state that they terminated the contract on April 30, 1973, upon Southern's refusal to enter into a new contract with higher rates equivalent to those approved by the Commission in Order No. 658. Deliveries are continuing pursuant to the old contract and Applicants' existing FPC Gas Rate Schedule No. 1.

Applicants propose to abandon the sale of natural gas to Southern, it is stated, in order to negotiate with another interstate pipeline purchaser for the sale of the gas formerly dedicated to Southern. Applicants further state that they are concurrently filing a unilateral rate increase pending any order in this proceeding.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 27, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but it will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

MARY B. KIDD,
Acting Secretary.

[FR Doc.73-16550 Filed 8-9-73;8:45 am]

[Docket Nos. E-7631 and E-7633; E-7713]

CITY OF CLEVELAND, OHIO, ET AL.

Order To Show Cause

AUGUST 2, 1973.

This matter comes before the Commission on the Motion of Cleveland Electric Illuminating Co. (CEI), requesting enforcement of Commission Opinion and Order No. 644, January 11, 1973, under the terms of which CEI was required to provide the City of Cleveland, Ohio (City) with electric energy by means of a 138 KV permanent synchronous interconnection, as well as continuing the existing load transfer service along with emergency service over a 69 KV temporary non-synchronous open-switch interconnection.

Opinion and Order No. 644, was issued in response to the complaint by the City of Cleveland, Ohio (City) against Cleveland Electric Illuminating Co. and City of Cleveland, filed May 13, 1971, Docket Nos. E-7631, et al. The City instituted these prior proceedings for the purpose of obtaining an interconnection with CEI. This interconnection was required to solve the inadequacies and deficiencies that had plagued the City's Municipal Electric Light Plant (MELP) system.

For a period of time prior to the issuance of Opinion and Order No. 644, the City had refused to pay or had been quite late in paying, certain bills rendered by CEI. Being aware of this history of arrearages, the Commission was concerned that an undue burden should not be placed on CEI as a result of the order to interconnect its system with that of the City. Accordingly, Opinion and Order No. 644 further provides that:

(D) Bills to the City for the continuation of the load transfer service, the 69 KV Emergency Interconnection and the 138 KV permanent interconnection shall be paid within 45 days from receipt of the bill. If not paid within 45 days, 5 percent is to be added to the bill, and if not paid within a total of 60 days from the receipt of the bill then 1 percent per month, or portion thereof, will be added to the bill thereafter until paid.

On Febuary 8, 1973, the City applied to the Commission for rehearing of Opinion and Order No. 644. The Commission unanimously voted to deny the petition on March 9, 1973. The City then petitioned the United States Court of Appeals for the District of Columbia Circuit (No. 73-1282) for review of the Commission's Order Denying Rehearing. This appeal is now pending.

According to the current motion by CEI, the City has failed to comply with the payment provisions section (D) of the Commission's Order, quoted above. CEI also states that the City is severely in arrears for a sum in excess of $820,803.29, and that it has received no payment from the City since February 16, 1973. It appears that the City has chosen to accept the benefits of the interconnection order pursuant to Opinion and Order No. 644, without assuming the corresponding duty to make payment for the energy supplied to it.

The Commission orders: The City of Cleveland, Ohio shall file an answer with this Commission, no later than two weeks from the date of this order, and show cause why the Commission should not, pursuant to section 309 of the Federal Power Act, 16 U.S.C. 825h, set aside those portions of Commission Opinion and Order No. 644 which heretofore required the Cleveland Electric Illuminating Co. to interconnect its facilities with those of the City of Cleveland and supply electric energy by means thereof.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[Docket No. RP73-65]

COLUMBIA GAS TRANSMISSION CORP.

Notice of Proposed PGA Rate Adjustment

AUGUST 2, 1973.

Take notice that Columbia Gas Transmission Corp. (Columbia), on July 16, 1973, tendered for filing proposed changes in its FPC Gas Tariff, Original Volume No. 1. Columbia states that the proposed changes, to be effective September 1, 1973, provide purchased gas adjustments to recover increased cost of gas purchased of $9,692,783 annually, and surcharges to recover deferred gas purchase costs of $4,244,408 which surcharges are to be effective for a six-month period.

Columbia states that copies of the filing were served upon the Company's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before August 16, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[FR Doc.73-16555 Filed 8-9-73;8:45 am]

[Docket Nos. E-7801, E-8111, E-8105]

CONNECTICUT LIGHT AND POWER CO.

Order Accepting Initial Rate Schedules and Initiating Investigations and Consolidating Proceedings

AUGUST 2, 1973.

This order concerns two separate filings in Docket Nos. E-7801 and E-8111.

On November 1, 1972, The Connecticut Light and Power Company (CL&P) tendered for filing at Docket No. E-7801 as an initial rate schedule an agreement entitled Northfield Mountain Purchase Agreement (Agreement) dated October 1, 1971. The Agreement is between CL&P, The Hartford Electric Light Company (Hartford) and Western Massachusetts Electric Company (Western Massachusetts) jointly the (Licensees) and the Public Service Company of New Hampshire (the Purchaser). The proposed effective date was December 1, 1972, or such later date as the first unit is declared available for operations and the Agreement is to continue until October 28, 1974. The agreement became effective by operation of law on December 2, 1972, thirty days after filing.

CL&P states that the Agreement provides for sales of specified percentages of capacity and related pondage of the Northfield Mountain Pump Storage Hydro Electric Project together with related transmission service. The Agreement is signed by representatives of the four parties and certificates of concurrence from Hartford and Western Massachusetts are included in the filing.

Public notice of the filing was issued on December 22, 1972, with petitions to intervene and protests due on or before January 8, 1973. No such petitions or protests were received.

The proposed rates, according to CL&P's submittal would include a joint rate of return for the Licensees of 10.00 percent. Our review of the filing indicates that the proposed rates may not be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful. Accordingly, we will institute an investigation under Section 206 of the Federal Power Act to determine the justness and reasonableness of the filed rates.

On April 5, 1973, CL&P tendered for filing, in Docket No. E-8111, a proposed

V 38-154 AUG 10 73 XUM

Rate Schedule consisting of a Purchased agreement (Agreement) dated February 1, 1973, between CL&P and New Bedford Gas and Edison Light Company (New Bedford). CL&P's transmittal letter states that the Agreement provides for sales to New Bedford of specified percentages of capacity and energy from CL&P's Monteville Unit No. 6 from May 1, 1973 through October 31, 1973. The Agreement is signed by the parties. CL&P requests an effective date of May 1, 1973, but does not specifically request waiver of the Commission's thirty-day notice period.

The filing was noticed on April 17, 1973, with petitions to intervene and protests due on or before April 24, 1973. No such petitions were received.

We shall treat this filing as an initial filing and grant waiver of the notice requirements so as to allow for an effective date of May 1, 1973. The proposed rates, according to CL&P, would include overall rates of return for CL&P of 10.6 percent. Our review of the filing indicates that the proposed rates may not be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful. Accordingly, we will institute an investigation under section 206 of the Federal Power Act to determine the justness and reasonableness of the filed rates.

We note that the issues in the above proceedings are substantially the same as those in Docket No. E–8105 wherein we ordered on July 10, 1973, a section 206 investigation into the justness and reasonableness of the rates therein. We shall therefore consolidate the investigations ordered herein with that instituted in that docket. Since the parties are presently preparing their evidence in Docket No. E–8105 and since our order in that Docket was issued a short time ago, adherence to the procedural dates set forth in Docket No. E–8105 which we order hereinafter, will not unduly prejudice the parties to this docket.

The Commission finds.

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon an investigation to determine if the rates and charges contained in CL&P's proposed Rate Schedules are in the public interest.

(2) Good cause exists to consolidate Docket Nos. E–7801 and E–8111 with E–8105.

(3) The disposition of these proceedings should be expedited in accordance with the procedure set forth in Docket No. E–8105 by our order issued July 10, 1973.

(4) Waiver of our notice requirements should be granted to permit an effective date of May 1, 1973, for the filing in Docket No. E–8111.

The Commission orders.

(A) Pursuant to the authority of the Federal Power Act, particularly section 206 thereof, the Commission's rules of practice and procedure, and the regulations under the Federal Power Act (18 CFR, Chapter I), a public hearing shall be held, to determine if the rates, charges, classifications and services contained in CL&P's proposed Rate Schedules are in the public interest.

(B) Docket Nos. E–7801, E–8111 and E–8105 are hereby consolidated since the issues of fact and law are substantially the same, and the disposition of Docket Nos. E–7801 and E–8111 shall be expedited in accordance with the procedures set forth in Docket No. E–8105.

(C) Nothing contained in this order shall relieve the applicant of any responsibility imposed by the Economic Stabilization Act of 1970 (Public Law 91–379, 84 Stat. 799, as amended by Public Law 92–15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

(D) Waiver of our notice regulations as to the filing in Docket No. E–8111 is granted and the rates are permitted to become effective May 1, 1973.

(E) The Secretary of the Commission shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[FR Doc.73–16549 Filed 8–9–73;8:45 am]

[Docket No. E–8288 et al.]

DUKE POWER CO., ET AL

Notice of Application

AUGUST 2, 1973.

Take notice that each of the Applicants listed herein has filed an application pursuant to section 205 of the Federal Power Act and Part 35 of the regulations issued thereunder.

Any person desiring to be heard or to make any protest with reference to these applications should on or before August 28, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). Persons wishing to become parties to a proceeding or to participate as a party in any hearing related thereto must file petitions to intervene in accordance with the Commission's rules. All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. The applications referred to above, are on file with the Commission and are available for public inspection.

Docket No.: E–8288, *Filing Date:* 6/21/73, *Name of Applicant:* Duke Power Company.

By letter dated June 19, 1973, Applicant filed a Supplement to its contract with Laurens Electric Cooperative, Inc. This contract is on file with the Commission and has been designated Duke Power Company Rate Schedule FPC No. 144. The Supplemental Agreement indicates an increase in designated demand at each of the following delivery points: Delivery Point No. 5, from 1,300 Kw to 2,600 Kw; Delivery Point No. 18 from 800 Kw to 1,100 Kw; Delivery Point No. 19, from 2,200 Kw to 3,000 Kw. Delivery Point No. 21 now has Southeastern Power Authority allocation which it previously did not have and there has been Southeastern Power Authority re-allocation at Delivery Point No. 2. Applicant requests that these amendments be made effective on June 20, 1973.

Docket No.: E–8292, *Filing Date:* 6/25/73, *Name of Applicant:* The Washington Water Power Company.

In its letter of June 20, 1973, Applicant requests that it's agreement with the Portland General Electric Company, dated May 14, 1973, be accepted for filing with the Commission. The agreement provides for the delivery of capacity by Portland General Electric Company to Applicant on a monthly basis in the amount of 50,000 kw during the period November 1, 1973—March 31, 1974. In exchange for such capacity the Applicant will deliver 2,404 mwh of energy per week to the Portland General Electric Company over the same period. This transaction will be on an energy exchange basis exclusively, there will be no monetary charges involved.

Docket No.: E–8295, *Filing Date:* 6/27/73, *Name of Applicant:* Mississippi Power & Light Company.

Applicant requests that its April 21, 1972, agreement with the Delta Electric Power Association (Delta) for a sale of power to Delta, and a Supplemental Operating Agreement dated July 3, 1963, be accepted with the Commission. Applicant's Rate Schedule REA–11, is on file with the Commission and is currently effective tariff for service to electric power associations.

August 15, 1973, is the proposed date of initial service. Applicant requests that this filing be made effective on the date on which service is rendered initially; Applicant will advise the Commission of that date.

Docket No.: E–8296, *Filing date:* 6/29/73, *Name of Applicant:* New York State Electric & Gas Corp.

By letter dated June 27, 1973, Applicant submits for filing as a rate schedule the June 19, 1973, agreement between Applicant and Central Hudson Gas & Electric Corporation (Central Hudson). Under the terms of this agreement, the Applicant will sell 32,000 kw of firm capability and associated energy for the term commencing on July 1, 1973 and terminating on July 31, 1973. Applicant will deliver energy to the Niagara Mohawk Power Corporation for redelivery to Central Hudson. Applicant requests that July 1, 1973, be allowed as the effective date.

Docket No.: E–8299, *Filing Date:* 7/2/73, *Name of Applicant:* Duke Power Company.

The Applicant filed by letter dated June 28, 1973, a supplement to its contract with the City of Kings Mountain, North Carolina. The subject matter of this proposed filing is the new 2,500 kw Delivery Point No. 2 located at Kings Mountain. The Applicant is constructing approximately 300 feet of 44 Kv tap line and a new substation for service under this supplemental agreement. Applicant requests effectiveness on July 20, 1973.

Docket No.: E–8304, Filing Date: 6/25/73, Name of Applicant: Northern States Power Company.

By letter dated June 20, 1973, Northern States Power Company gives notice of cancellation of the Manitoba-United States-Winnipeg-Grand Forks 230 KV Interconnection Facilities Agreement, dated January 16, 1969, between the Manitoba Hydro-Electric Board, Minnkota Power Cooperative, Inc., Northern States Power Company, and Otter Tail Power Company.

MARY B. KIDD,
Acting Secretary.

[FR Doc.73–16568 Filed 8–9–73;8:45 am]

[Docket No. CI73–746]

EDWIN L. COX

Order Granting Interventions, and Fixing Date for Hearing

AUGUST 2, 1973.

The above-named applicant has filed an application pursuant to section 7(c) of the Natural Gas Act,[1] and pursuant to § 2.75 [2] of the Commission's general policy statements, the new Optional Procedure for Certificating New Producer Sales of Natural Gas set forth in Order No. 455,[3] (Hereinafter § 2.75) for a certificate of public convenience and necessity authorizing the sale and delivery of natural gas in interstate commerce.

On May 2, 1973, Edwin L. Cox (Cox) filed in Docket No. CI73–746 an application for the sale of natural gas to Florida Gas Transmission Co. (Florida) pursuant to the optional certification procedure set forth in § 2.75 of the Commission's rules of practice and procedure. The subject gas would be produced from the East Bayou Pigeon Field, Iberia Parish, Louisiana (Onshore, Southern Louisiana Area), at initial price of 35.0 cents per Mcf at 15.025 psia with 1.0 cent/Mcf annual escalations throughout the term, 20 years of life of lease or as long as gas is economically deliverable, whichever is lesser. The basic contract with Florida Gas Transmission Company provides for reimbursment to the sellers for 100 percent of any new or additional taxes and adjustment in the price, downward or upward should the Btu content of the gas fall below 1000 or exceed 1050 Btu/cubic feet, respectively.

A notice of intervention was filed by the Public Service Commission for the State of New York, and timely petitions to intervene were filed by:

Associated Gas Distributors
Florida Gas Transmission Co.

A formal hearing has been requested, and we find a hearing is desirable to determine, on the record, whether the present and future public convenience and necessity will be served by certificating this sale, and whether the proposed rate is just and reasonable, taking into consideration all factors bearing on maintenance of an adequate and reliable supply of gas, delivered at the lowest reasonable cost.[4]

This hearing is not the proper forum for the relitigation of the propriety of the § 2.75 procedures; that matter is now before the Court of Appeals. See no. 3, supra. This hearing will be addressed solely to the issues of public convenience and necessity, and the justness and reasonableness of the particular sales and rates herein proposed.

Those parties and intervenors desiring to submit cost and non-cost data should structure their evidence to reflect the tests under § 2.75 for determining the justness and reasonableness of the rate sought.[5]

No intervenor has questioned Florida Gas's need for the approximately 1 billion cubic feet of natural gas that will be available as a result of this purchase. We note from the filings that Florida Gas is currently curtailing deliveries to its customers and is seeking approval of its curtailment plan in Docket No. RP66–4. Florida Gas is also making short-term emergency purchases in order to maintain its deliverability. Accordingly, the hearing provided for herein should not explore any issues related to Florida Gas's need for additional supplies of natural gas. However, we shall require Florida Gas to present evidence as to whether or not a comparable supply of natural gas is available to Florida Gas at any rate lower than the rate proposed in this application.

The Commission finds. (1) It is necessary and in the public interest that the above-docketed proceeding be set for hearing.

(2) It is desirable and in the public interest to allow the above-named petitioners to intervene in these proceedings.

The Commission orders. (A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 7, 15, and 16 thereof, the Commission's rules of practice and procedure, and the Regulations under the Natural Gas Act (18 CFR, Chapter I) a public hearing shall be held concerning the issues presented by the application herein commencing October 29, 1973, at 10 am (e.s.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

(B) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 C.F.R. § 3.5(d)), shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure.

(C) Applicants and all intervenors supporting the applications shall file their direct testimony and evidence on or before September 24, 1973. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, the Commission Staff, and all other parties to these proceedings.

(D) The Commission Staff and all intervenors opposing the application shall file their direct testimony and evidence on or before October 8, 1973. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, and all other parties to these proceedings.

(E) All rebuttal testimony and evidence shall be served on or before October 23, 1973. All parties submitting rebuttal testimony and evidence shall serve such testimony and evidence upon the Presiding Administrative Law Judge, the Commission Staff, and all other parties to these proceedings.

(F) The above-named petitioners are permitted to intervene in this proceeding subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; and *Provided, further,* That the admission of such intervener shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(G) The Administrative Law Judge's decision shall be rendered on or before December 4, 1973. All briefs on exceptions shall be due on or before December 14, 1973, and replies thereto shall be due on or before December 21, 1973.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[Docket Nos. G–8934; G–10008]

EL PASO NATURAL GAS CO.

Notice of Amendment to Petition

AUGUST 1, 1973.

Take notice that on July 20, 1973, El Paso Natural Gas Company (Petitioner), P.O. Box 1492, El Paso, Texas 79928, filed in Docket Nos. G–8934 and G–10008 an amendment to its petition to amend filed on November 30, 1970, as supplemented August 11, 1972, in said dockets, pursuant to section 7(c) of the Natural Gas Act to amend the orders issuing certificates of public convenience and necessity in said dockets, so as to conform

[1] 15 U.S.C. 717, et seq. (1970).

[2] 18 CFR 2.75.

[3] Statement of Policy Relating to Optional Procedure for Certificating New Producer Sales of Natural Gas, Docket No. R–441, — P.P.C. — (issued August 3, 1972), appeal pending sub nom. John E. Moss, et al v. F.P.C. No. 72–1837 (D.C. Cir.).

[4] Opinion And Order Issuing Certificate of Public Convenience And Necessity And Determining Just And Reasonable Rates, Opinion No. 659, Belco Petroleum Corporation, Agent et al., Docket Nos. CI73–293, et al.,— P.P.C.—,—(issued May 30, 1973, slip op. at para. 21, p. 5).

[5] Opinion 659 gave consideration to such factors as (1) cost, (2) return, (3) alternate supply costs, (4) contract rates for intra- and interstate sales, (5) commodity value, Opinion No. 659, supra.

V38-154 AUG 10 73 XUM

Petitioner's petition with its oral amendment introduced in the course of a hearing before an Administrative Law Judge on June 5, 1973, all as more fully set forth in the amendment to the petition to amend which is on file with the Commission and open to public inspection.

In its petition to amend, as supplemented, the orders issued November 25, 1955, in Docket No. G–8934 (14 FPC 157) and May 8, 1956, in Docket No. G–10008 (15 FPC 1378), Petitioner proposes to sell and deliver, on a daily basis, to Union Carbide Company (Union Carbide) at Uravan, Colorado, volumes of firm gas possessing up to 112 million Btu and volumes of interruptible gas possessing up to 2,258 million Btu. It is stated that the gas is to be used for space heating and human needs.

Petitioner now proposes to sell and deliver to Union Carbide firm gas possessing up to 735 million Btu and interruptible gas processing up to 2,370 million Btu. Petitioner, proposes to charge 4.2 cents per 100,000 Btu for firm and 3.8 cents per 100,000 Btu for interruptible service. Petitioner states that it made the said proposal orally at a hearing held on June 5, 1973, before an Administrative Law Judge in the form of a motion to amend its petition to amend in the said dockets pursuant to § 1.11(b) of the Commission's rules of practice and procedure (18 CFR 1.11(b)). The purpose of the oral motion was to confrom the pleadings at the hearing to issues raised in the prepared direct testimony by certain of Petitioner's and Union Carbide's officers and employees. That motion was granted by the Presiding Judge and the testimony was received indicating that additional gas was required by Union Carbide for plant protection and that Petitioner was willing to supply the necessary increased volumes. Petitioner states that the instant amendment is to insure compliance with all procedural requirements by formally setting forth the terms of Petitioner's oral amendment permitted at the June 5, 1973, hearing.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before August 23, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. Persons who have heretofore filed protests and petitions to intervene need not file again.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73–16545 Filed 8–9–73;8:45 am]

[Docket No. E–8293]

FLORIDA POWER AND LIGHT CO.

Notice of Proposed Changes in Rates and Charges

AUGUST 2, 1973.

Take notice that on July 11, 1973, Florida Power and Light Co. (Florida) tendered for filing proposed changes in its Rate Schedule FPC Nos. 2, 8, 12, 13, and 15 to become effective on September 11, 1973.

Florida asserts that the changes are necessary to eliminate the Commodity Adjustment Clauses as directed by the Commission. The same changes were proposed in Florida Rate Schedule Nos. 9, 10, 11, 14, and 16 by a June 19, 1973 filing.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 20, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[FR Doc.73–16553 Filed 8–9–73;8:45 am]

[Docket No. E–8116; E–8121]

GULF STATES UTILITIES CO.

Wholesale Electric Rates; Acceptance for Filing and Consolidation of Dockets

AUGUST 2, 1973.

On April 9, 1973, Gulf States Utilities Co. (Gulf States) filed a Letter Agreement dated August 30, 1972, between the Company and Sam Rayburn Dam Electric Cooperative Inc. (Sam Dam) which is proposed as an amendment to Gulf State's FPC Electric Rate Schedule No. 98. The Letter Agreement states that, pursuant to Commission order,[1] the Southwestern Power Administration (SPA) increased its charges to Sam Dam for hydroelectric power from the Sam Rayburn Dam Project. The Letter Agreement provides that these increases from SPA will not be passed on to Gulf States regardless of the final outcome of a lawsuit currently pursued in the courts by Sam Dam contesting such increase. At present, Gulf States buys power from Sam Dam at the same price Sam Dam purchases such power from the Sam Rayburn Dam Project. This purchased power is then integrated with Gulf State's self-generated power production and both purchased power and self-generated power are sold to Gulf State's various customers, including the members of the Sam Dam Cooperative.[2] In return for Sam Dam's agreement not to pass on the above-mentioned increase, Gulf States indicates in the Letter Agreement that it will refrain from negotiating for increased compensation or exercising its right to terminate its present contract for service (FPC No. 98) with Sam Dam. No effective date for the Letter Agreement was proposed in the filing, but the transmittal letter requests that the notice requirements of § 35.3 be waived to the extent that they are in conflict with the filing. We shall consider, as an effective date, August 30, 1972, the date of the Letter Agreement.

The filing was noticed on May 15, 1973, with comments, protests and petitions to intervene due on or before May 29, 1973.

By our order of June 14, 1973, in Docket No. E–8121, we suspended for one day a general rate increase proposed by Gulf States for certain jurisdictional customers, including the Sam Dam cooperative customers, and permitted such increase to become effective on June 16, 1973. On May 29, 1973, Sam Dam filed a petition to intervene in the instant docket in which it alleges that the subject Letter Agreement prevents Gulf States from raising or renegotiating its rates under, or terminating its contract with, Sam Dam, even with respect to the general rate increase in Docket No. E–8121, as such increase would affect the Sam Dam cooperative members. On June 4, 1973, Gulf States filed an answer to Sam Dam's petition wherein Gulf States contends that the Letter Agreement identifies and speaks only to the specific SPA-ordered rate increase, and not to general rate increases proposed by the Company to be placed in effect for all its jurisdictional customers. We note that the Letter Agreement appears to be solely concerned with the narrow issue surrounding the SPA increase rather than intending to deal with a general rate increase proposed by the Company. Nevertheless, we believe that the Letter Agreement is sufficiently ambiguous on this point to require that the question of its possible relevance to the issues in Docket No. E–8121 should be determined in the hearing presently scheduled in that docket. We shall accept the tendered Letter Agreement as a proper modification of Gulf State's Rate Schedule FPC No. 98 in so far as it relates to the increases subject to the order of the SPA. As to whether the Letter Agreement precludes, in whole or in part, the general rate increase proposed in Docket No. E–8121, as such increase relates to Sam Dam, we shall consolidate the dockets and reserve that question for hearing in the proceeding in that Docket. Should it be determined that the Letter Agreement does prohibit to any extent such proposed increase, it shall also be specifically determined at the hearing what portion of the increase should be disallowed.

The Commission finds. (1) The Letter Agreement proposed by Gulf States should be accepted for filing as a part of Gulf State's Rate Schedule FPC No. 98 as ordered below.

(2) The issue of whether the Letter Agreement precludes, in whole or in part, the general rate increase proposed in Docket No. E–8121, as such increase would affect the Sam Dam members, should be reserved for hearing and consolidated with Docket No. E–8121.

(3) Gulf State's requested waiver of § 35.3 should be granted.

(4) Good cause exists to permit Sam Dam to intervene in the aforementioned proceeding.

The Commission orders. (A) The Letter Agreement proposed by Gulf States is hereby accepted for filing to be effective as of August 30, 1972, the date of the Letter Agreement.

(B) This docket is hereby consolidated with, and shall become a part of, Docket No. E–8121 for the purpose of determining if the Letter Agreement precludes, in whole or in part, the general rate increase proposed by Gulf States in that docket to the extent that the increase might effect the members of the Sam Dam cooperative.

(C) Waiver of § 35.3 is hereby granted to permit an effective date of August 30, 1972, for the Letter Agreement.

(D) Petitioner for intervention, Sam Dam, shall be permitted to intervene in the aforementioned proceeding, subject to the Commission's rules and regulations; *Provided, however,* That the admission of such intervenor shall not be construed as recognition by the Commission that it might be aggrieved by any orders entered in this proceeding and *Provided, further,* That the participation of such intervenor shall be limited to matters affecting rights and interests specifically set forth in its petition to intervene.

(E) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[FR Doc.73–16567 Filed 8–9–73;8:45 am]

[Docket No. E–8820]

INTERSTATE POWER CO.

Notice of Application

AUGUST 3, 1973.

Take notice that on July 16, 1973, Interstate Power Company (Applicant) filed an application with this Commission seeking authorization to enter into a Secured Guaranty Agreement with the Trustee of Pollution Control Revenue Bonds to be issued by the City of Clinton, Iowa, in the amount of $975,000, which bonds, taking into account market conditions, will be sold by the City as soon as possible after obtaining approval of this Guaranty.

Applicant is incorporated under the laws of the State of Delaware, with its principal business office in Dubuque, Iowa, and is engaged principally in the electric utility business in northern and northeastern Iowa, in southern Minnesota and a few small communities in Illinois.

The bonds of the City will be sold to finance the acquisition from the Applicant of a leasehold interest in and the construction of pollution abatement equipment at Applicant's Steam Electric Generating Milton L. Kapp Power Station in Clinton, Iowa, installation of which is expected to be completed in 1974. Said equipment will be subleased by the City to the Applicant and payments under said sublease will be sufficient to pay principal, premium if any, will not be issued by the Applicant. The rate of interest will be negotiated at a private sale of the bonds between the City and the underwriters.

The authorization sought is for Applicant to issue an independent Secured Guaranty to the Trustee and holders of the bonds of payment of principal, premium if any, and interest on said bonds. No payments are made pursuant to the sublease.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 15, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

MARY B. KIDD,
Acting Secretary.

[FR Doc.73–16542 Filed 8–9–73;8:45 am]

[Docket No. E–8125]

KANSAS POWER AND LIGHT CO.

Notice Deferring Procedural Dates

AUGUST 2, 1973.

On July 30, 1973, the Kansas Power and Light Co. and the interveners, filed a petition to file settlement agreement, and for waiver of hearing among other things.

Upon consideration, notice is hereby given that the procedural dates fixed by notice issued June 26, 1973 in the above-designated matter are deferred pending further order of the Commission.

MARY B. KIDD,
Acting Secretary.

[FR Doc.73–16556 Filed 8–9–73;8:45 am]

[Docket No. RI72–250]

MOBIL OIL CORP.

Order Accepting Rate Increase, Terminating Rate Proceeding in Part, and Ordering Refund

AUGUST 1, 1973.

Mobil Oil Corp. (Mobil) filed on June 11, 1973, a notice of change in rate and a related new contract, designated as Supplement Nos. 22 and 21 to its FPC Gas Rate Schedule No. 39, respectively, for sales of natural gas in the Texas Gulf Coast Area to Natural Gas Pipeline Co. of America from the Clayton Field, Live Oak County, Texas. The proposed rate change provides for a rate of 24 cents per Mcf, which is the new gas ceiling provided in Opinion No. 595[1] for sales of gas from the Texas Gulf Coast Area pursuant to contracts dated on or after October 1, 1968. The new contract filed herein by Mobil is dated after October 1, 1968.

Mobil proposes to substitute the subject increased rate filing for an earlier unilateral rate change filed under the same rate schedule. The previous increase was also to the 24¢ per Mcf new gas ceiling rate, but was suspended and thereafter collected subject to refund in the above-entitled proceeding pending determination as to whether the "old" or "new" gas ceiling under Opinion No. 595 was applicable.[2]

In Opinion No. 639,[3] we announced our intention to apply literally the "vintaging" provisions of previous area rate opinions by using the date of a new contract for purposes of determining the applicable ceiling where the original contract has expired by its own terms. Inasmuch as the present rate change filing is based on a contract dated after October 1, 1968, and the original contract under which the gas had previously been sold has expired by its own terms, the subject rate increase and the new contract conform with the provisions set forth in Opinion Nos. 639 and 595, and should therefore be accepted as of the date of filing.

While the new contract is dated so as to take effect as of the expiration date of the old contract, it was not submitted until June 11, 1973. There is no justification in these circumstances for relieving Mobil of its refund obligation under the suspension proceeding for the period prior to the submittal of the new contracts.[4] During that period the collection

[1] Order issued March 5, 1971 in Docket No. E–7201.

[1] Opinion and Order Determining Just and Reasonable Rates for Natural Gas in the Texas Gulf Coast Area, Docket Nos. AR64–2, et al., issued May 6, 1971, 45 FPC 674 (1971).

[2] Docket No. RI72–250 also includes sales under other Mobil rate schedules which are not involved in this order.

[3] Opinion and Order Denying Petitions to Amend Regulations Covering Sales in Interstate Commerce of Natural Gas Produced in the Appalachian and Illinois Basin Areas, Docket No. R–371 issued December 12, 1972.

[4] See Mobil Oil Corp., FPC Gas Rate Schedule No. 84, order issued March 15, 1973; Mobil Oil Corp., Docket No. RI73–3, et al., order issued May 10, 1973.

V 38-154 AUG 10 73 XUM

of 24 cents was in conflict with the moratorium provisions of Opinion No. 595 prohibiting rate filings in excess of the rate ceilings prescribed therein.

We interpret the filing by Mobil as a withdrawal of its claim that the gas sold from acreage dedicated under the original contract after the expiration of such contract was never committed and thus qualifies as "new" gas.[5] Accordingly, we shall require refunds of amounts collected in excess of 19 cents per Mcf in the suspension proceeding for the period prior to the acceptance of the 24 cent filings, except insofar as sales have been made during such period pursuant to Opinion No. 567 filings.

A notice of intervention in this proceeding was filed by the Public Service Commission of the State of New York and petitions to intervene herein were filed by Natural Gas Pipeline Co. of America and Phillips Petroleum Co.

The Commission orders. (A) Supplement Nos. 21 and 22 to Mobil's FPC Gas Rate Schedule No. 39 are accepted for filing, to be effective as of June 11, 1973.

(B) The suspension proceeding in Docket No. RI72-250 is hereby terminated only insofar as it relates to sales under Mobil's FPC Gas Rate Schedule No. 39.

(C) Mobil, within 60 days of the issuance of this order shall file a refund report, in accordance with Ordering Paragraph (E) of Opinion No. 595, as amended, showing all amounts collected for the subject sales, except insofar as such sales were made pursuant to Opinion No. 567 filings, in excess of 19 cents per Mcf for the period prior to the effective date prescribed in Ordering Paragraph (A) above for its 24 cents per Mcf filing, with interest at 7 percent per annum calculated to the date of filing of the refund report. Mobil shall retain such refund amounts pursuant to either Ordering Paragraph (F) or (G) of Opinion No. 595.

(D) The petitions to intervene filed by Phillips Petroleum Company and Natural Gas Pipeline Company of America are hereby granted. *Provided, however,* That participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in the petitions to intervene; and *Provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that it might be aggrieved because of any order of the Commission entered in this proceeding.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-16565 Filed 8-9-73;8:45 am]

[5] Our interpretation applies only to the subject sales and is without prejudice to Mobil's position in any other pending cases.

[Docket No. RP73-63]

NATURAL GAS PIPELINE CO. OF AMERICA

Order Adopting Settlement Proposal, Authorizing Sale of Gas at Applicable Area Rates, Authorizing Amendment of Purchase Gas Adjustment Clause, and Terminating Proceedings

AUGUST 3, 1973.

On November 17, 1972, Natural Gas Pipeline Company of America (Natural) filed a petition in this proceeding pursuant to the provisions of section 16 of the Natural Gas Act and § 1.7 of the Commission's rules of practice and procedure, seeking authorization (1) to price for a period of twelve years natural gas produced from leases acquired by Natural prior to October 7, 1969, at the applicable area rate established by the Commission for gas of comparable quality and vintage rather than at Natural's cost of service; (2) to establish a revolving exploration and development fund to be financed with monies provided by the pricing of gas produced by Natural at the applicable area rate rather than the cost of service, plus the net income after taxes from all revenues received from natural gas and oil produced from reserves discovered or acquired as a result of activities financed with monies from the revolving exploration fund; (3) to modify paragraph 18.62 of its Purchase Gas Adjustment Clause (FPC Gas Tariff, Third Revised Volume No. 1) to reflect the initial change of pricing its own production at the applicable area rate rather than at the cost of service; and (4) to modify paragraph 18.63 of its Purchase Gas Adjustment Clause (FPC Gas Tariff, Third Revised Volume No. 1) to reflect any changes in the applicable area rate subsequent to the granting of the authorization requested in the application. The Purchase Gas Adjustment Clause would be modified by eliminating the words "cost of company-owned pipeline production from leases acquired on or after October 7, 1969", and substituting the words "company-owned production at area rates." Natural's petition was noticed on December 1, 1972, and that notice was published in the FEDERAL REGISTER on December 7, 1972 (37 FR 26059). Timely protests or petitions to intervene were due on or before December 11, 1972. Petitions to intervene were filed by the following parties:

Associated Natural Gas Company
Central Illinois Light Company
Northern Illinois Gas Company
North Shore Gas Company
The Peoples Gas, Light, and Coke Company
Iowa-Illinois Gas and Electric Company (late)
Mississippi River Transmission Corporation (late)
Illinois Power Company (late)
Northern Indiana Public Service Company (late)

These petitions to intervene were granted by the Commission's order of January 22, 1973. The petition to intervene filed by Phillips Petroleum Company on March 5, 1973, was granted by order of April 6, 1973. Phillips filed a withdrawal of its petition to intervene on May 4, 1973.

By order of January 22, 1973, the Commission established a date for prehearing conference in an effort to resolve the issues raised by Natural's petition. These issues were: the amount of reserves to be discovered, developed, and dedicated to Natural's system as a basis of determining refund obligations to Natural's customers should the need arise, and the amount of monies which Natural would add to the fund as a result of sales of natural gas and oil from reserves discovered as a result of the exploration efforts. At prehearing conferences held on February 8, 1973, and February 15, 1973, the parties to this proceeding, including Staff, were able to agree to a proposed settlement which was filed with the Presiding Administrative Law Judge on March 23, 1973. The Administrative Law Judge certified the settlement to the Commission on March 28, 1973. Notice of the Certification of Proposed Settlement Agreement was issued on June 6, 1973, and published in the FEDERAL REGISTER on June 11, 1973 (38 FR 15390). Comments on the proposed Stipulation and Agreement were due on or before June 21, 1973. The following parties filed comments:

Illinois Power Company
Northern Indiana Public Service Commission
Iowa-Illinois Gas and Electric Company
Northern Illinois Gas Company
The Peoples Gas, Light and Coke Company

No party filing comments opposed the proposed settlement.

Natural's proposal was patterned after a plan submitted to the Commission by Panhandle Eastern Pipe Line Company.[1] However, Natural's proposed program differed in certain respects from the program approved by the Commission in Opinion No. 626. First, Natural plans to keep the producing properties within its own corporate structure rather than transferring them to a wholly-owned subsidiary; secondly, the program period is twelve years rather than five; third, the original proposal by Natural did not contain an estimate of the reserves to be found as a result of exploration activities financed by its program; fourth, the additional amounts which would be added to the revolving exploration fund as a result of sales of natural gas and oil produced from reserves discovered through activities financed by the fund were expressed in terms of net income after taxes rather than specific amounts per unit of gas and oil production.[2]

The twelve year program period is more than double the period approved in Panhandle, but it is not unreasonable to allow Natural to spread its activities over this

[1] Panhandle Eastern Pipeline Company, Pan Eastern Exploration Company, Docket Nos. CP71-237, CI71-714, Opinion No. 626, — F.P.C. —, (issued November 17, 1972).

[2] The specific amounts approved in *Panhandle* were 3.0 cents per Mcf and 50 cents per barrel. Opinion 626, *supra*, — F.P.C. —, —(slip opinion at 14).

period of time since the parties believe that such a plan will produce the greatest benefit to Natural, and Natural's customers.

The proposed settlement provides for a review of Natural's proposal at the end of five years and specifically reserves to the Commission the power to require at that time refunds to Natural's customers of any amounts spent from the revolving fund not expended on bona fide exploration and development activities or take any other action that the Commission deems necessary to protect the public interest. When coupled with the requirements for an annual report concerning its exploration activities and the refund requirements at the end of twelve years, we believe that there is sufficient protection for Natural's customers to warrant approving the program for the full twelve-year period subject to the conditions of the settlement agreement.

The proposed settlement contains a reserve dedication figure of 200 Bcf to meet the requirements of Opinion No. 626 with respect to a reserve dedication goal against which refund obligations can be determined.[3] In view of the rising cost of finding and developing new supplies of natural gas, we believe that the reserve goal of 200 Bcf is reasonable and should be accepted by the Commission.[4] Natural's customers are further protected in that the proposed settlement requires the following:

D. Natural must spend at least seventy (70) percent of the revolving exploration fund monies on exploration (including drilling, applicable lease acquisition and geological activities) of reservoirs which have not been previously drilled by Natural or any other natural gas company; provided, however, that no more than thirty (30) percent of the fund money may be spent on lease acquisition. Any well drilled only into a previously drilled reservoir shall be considered to be a developmental well and Natural shall expend no more than thirty (30) percent of the monies in the revolving exploration fund on developmental wells. If an exploration well drilled in those reservoirs which have not been previously drilled is successful, then Natural may expend no more than thirty (30) percent of the monies in the revolving exploration fund to develop that reservoir.

These restrictions upon the use of monies from the revolving exploration fund are sufficient to insure that Natural will undertake a vigorous search for new supplies of natural gas. The use of the fund monies is further restricted in that those monies may not be used for advance payments, or for exploration and development activities in the offshore Federal domain.

Natural is further required to dedicate all reserves discovered through the expenditure of exploration fund monies to its system by the most feasible means and to forego pricing such natural gas under the optional procedures adopted by the Commission in Order Nos. 455 (_____ F.P.C. _____ (issued August 3, 1972)) and 455-A (_____ F.P.C. _____ (issued September 8, 1972)).[5]

Finally, we note that the settlement incorporates the specific amounts per unit of natural gas and oil production that were adopted in the Panhandle case as an alternative to the net income after taxes proposal in Natural's application for additional amounts to be added to the revolving exploration fund resulting from the production of natural gas and oil from reservoirs discovered through the use of monies from the exploration fund. Since the settlement requires that the greater of these two amounts be added to the revolving exploration fund, we believe that the protection required in the Panhandle opinion has been achieved and that the settlement proposal adequately protects Natural's customers.

Natural's application as modified by the conditions and restrictions of the proposed settlement should be granted by the Commission as being necessary and in the public interest. Natural's proposal will, if successful, result in the dedication of additional supplies of natural gas to the interstate market and will help reduce the curtailments to which Natural's customers have been subject.[6]

The Commission further finds:

(1) Natural Gas Pipeline Company of America is a natural gas company under the Natural Gas Act.

(2) The production properties and facilities hereinbefore described and more specifically described in the instant applications are used in the production and sale of natural gas in interstate commerce, subject to the jurisdiction of the Federal Power Commission.

(3) Natural should be authorized to sell gas produced by it at applicable area rates for a period of twelve years. At that time, upon filing by Natural, the Commission will make a further determination with respect to the rates for Natural's pipeline production to be effective after the initial twelve-year period, and in the absence of a showing by Natural that the public interest requires otherwise, the rates for gas from Natural's leases acquired on or before October 7, 1969, will be established on a cost of service basis.

(4) It is in the public interest that Natural Gas Pipeline Company of America be permitted to amend its Purchased Gas Adjustment Clause as hereinafter described.

(5) Natural is able and willing properly to do the acts and to perform the service proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules, and regulations of the Commission thereunder.

The Commission orders.

(A) The proposed "Stipulation and Agreement To Terminate Proceedings" is accepted by the Commission and Natural Gas Pipeline Company of America's motion for the approval of the same is granted.

(B) Natural is hereby authorized for a period of twelve years from the date of this order to price natural gas produced from leases acquired by Natural prior to October 7, 1969, at the applicable area rate from time to time established by the Commission for gas of comparable quality and vintage, or at such rate as may lawfully be established in the event that area rates shall not be applicable to gas produced from these leases, instead of the cost of service basis at which such gas is now priced.

(C) Natural is hereby authorized to file an amendment to Paragraph 18.62 of the Purchased Gas Adjustment Clause in Natural's FPC Gas Tariff (Third Revised Volume No. 1) in order to reflect the change in Natural's base average purchased gas cost resulting from pricing gas produced from Natural's pre-1969 leases at the applicable area rate. Such amendment shall be effective on the date of this order.

(D) Natural is hereby authorized to file an amendment to Paragraph 18.63 of the Purchased Gas Adjustment Clause in Natural's FPC Gas Tariff (Third Revised Volume No. 1) eliminating the words "cost of company-owned pipeline production from leases acquired on or after October 7, 1969", and substituting therefor "company-owned production priced at area rates." This amendment shall be effective on the date of this order.

(E) Natural shall establish and expend monies from a revolving exploration fund to be comprised of:

(1) The additional revenues received (without reduction for federal or state income taxes on said additional revenues) as a consequence of pricing gas produced from the pre-1969 leases for the time period and in the manner described in ordering paragraph (B) above. The additional annual revenues shall be determined by multiplying (i) the difference between the applicable area rate and the applicable cost of service by (ii) the volume of production from the pre-1969 leases.

(2) The higher of (i) the net income after taxes for a period of 12 years after the entry of a Commission order granting the authority for the program described herein on oil and gas produced from reserves discovered or acquired as the result of exploration activities financed under the revolving exploration fund, or (ii) the amount comprised of 3.0 cents per Mcf of natural gas and 50.0 cents per barrel of oil produced from re-

[3] The specific refund calculation is not contained in the settlement because it is dependent upon actual figures not yet available which are necessary to determine the amounts in the revolving exploration fund. However, if, at the end of the twelve year period, Natural has been unable to add 200 Bcf of reserves to its system, Natural is required to refund to its customers any fund monies which have not been spent for exploration and development.

[4] As to various estimates of the cost of finding new supplies of natural gas, see the "Notice of Proposed Rulemaking" and the responses filed in answer thereto in Docket No. R-389-B. The Notice of Proposed Rulemaking was issued on April 11, 1973.

[5] 18 CFR § 2.75.

[6] Natural has curtailed firm deliveries to its customers by approximately 253 Bcf since June 1970.

V 38-154 AUG 10 73 XUM

serves discovered or acquired as the result of exploration activities financed under the revolving exploration fund. The contribution into the fund required under this sub-paragraph (2) shall be determined annually on the basis of the cumulative amounts which have accrued to date under categories (i) and (ii) described herein.

(F) The above authorizations shall be subject to the following conditions which are part of the settlement proposal:

(1) The volume of 200,000,000 Mcf of natural gas reserves shall be established as the target volume to be discovered or acquired and dedicated to Natural's system as a result of the exploration program. If at the end of the 12-year period, Natural has been unable to add the aforementioned target volume of reserves to its system, Natural shall make a full accounting of its activities for said 12-year period, and any funds not spent for exploration and development activities as of that time shall be refunded to Natural's customers; provided, however, that at the end of five years from the date of issuance of the requested authorization Natural shall report to the Commission its efforts toward dedication of 200,000,000 Mcf in new reserves; and if a bona fide effort toward achieving such target volume has not been made, the Commission may require refunds to Natural's customers of any amounts not expended on bona fide exploration and development activities or take any other action that it deems necessary to protect the public interest.

(2) The amounts expended from the revolving exploration fund shall be spent on properties that are onshore in the vicinity of Natural's transmission system. The areas which are considered to be in the vicinity of Natural's transmission system are as follows:

(a) Illinois Basin Area, as defined in FPC Order No. 411 issued October 2, 1970, Docket R–371, ------ F.P.C. -------.

(b) Other Southwest Area, as defined in FPC Opinion 607 issued October 29, 1971, Docket AR67–1, ---- F.P.C. -----.

(c) Southern Louisiana Area, as defined in FPC Opinion 598, issued July 16, 1971, Docket Nos. AR61–2 & AR69–1.

(d) Texas Gulf Coast Area, as defined in FPC Opinion 595 issued May 6, 1971, Docket No. AR64–2, ------ F.P.C. ------ and FPC Order issued May 15, 1971.

(e) Permian Basin Area, as defined in FPC Order issued June 17, 1970, Docket No. AR70–1, ------ F.P.C. -------.

(f) Hugoton-Anadarko Area, as defined in FPC Opinion No. 586, issued September 18, 1970, Docket No. AR64–1, 44 F.P.C. 761.

Natural shall not be permitted to expend monies from the revolving exploration fund to explore and develop properties that are located offshore of the continental United States or its possessions as the offshore area is hereafter defined.

For the purpose of this Agreement, the terms "onshore" and "offshore" are defined as:

(a) Onshore refers to all lands within the boundaries of the several states of the United States of America, including lands underlying the coastal waters and territorial seas of the United States of America situated within such boundaries and including federal lands within such boundaries of the several states. The seaward boundary of the onshore area of the several states is that line defined by the decrees of the Supreme Court of the United States landward of which the several states are entitled to the lands, minerals, and natural resources underlying the waters.

(1) For the State of Texas, the seaward boundary is defined by the supplemental decree of the Supreme Court of the United States entered May 5, 1969. United States v. Louisiana, et al. (Texas Boundary Case). 394 U.S. 836 at 836–43 (1969).

(2) For the State of Louisiana, there still exists a disputed zone. However, the onshore area for Louisiana can be defined as all territory "lying more than one foot landward of the lines described in paragraph 2" of the supplemental decree of October 16, 1972. United States v. Louisiana, et al. (Louisiana Boundary Case), 409 U.S. 17 at 18 (1972).

(b) Offshore refers to all of the continental shelf of the United States of America seaward from the onshore areas of the several states:

(1) For the State of Texas, the offshore area is all territory seaward of the line described by the supplemental decree of May 5, 1969, in the Texas Boundary Case, 394 U.S. 836 at 836–43 (1969);

(2) For the State of Louisiana the offshore area includes all territory "lying more than one foot seaward of the line described in paragraph 3" of the supplemental decree of December 20, 1971, in the Louisiana Boundary Case, 404 U.S. 388 (1971); plus all territory in the disputed zone lying between the lines described by the decrees of December 20, 1971 (404 U.S. 388 at 389–402) and October 16, 1973 (409 U.S. 17 at 18–31) pending resolution of the boundary dispute between the State of Louisiana and the United States of America.

It is provided that the boundary between the State of Texas and the State of Louisiana shall be determined by the Report of the Special Master, Robert Van Pelt, Senior, U.S. District Judge, filed with the Supreme Court on May 8, 1972, in The State of Texas v. The State of Louisiana, 406 U.S. 941 (1972).

It is further provided that any territory which is not located within the boundaries of the State of Louisiana shall be deemed to be within the boundaries of Louisiana as of the date of the decree or decrees of the Supreme Court of the United States, giving title to such territory to Louisiana.

All monies expended from the revolving exploration fund shall be expended on wells drilled wholly within the onshore areas or for other exploratory or developmental activities within the onshore area.

The area rate for natural gas produced from a lease which is located both within the onshore and offshore areas shall be the area rate for natural gas produced within the onshore area.

(3) Natural shall expend for exploration and development, in addition to the monies contained in the revolving exploration fund provided for herein, a sum equal to at least an average expenditure of $1,000,000 per year over the 12-year term of the program established herein.

(4) Natural must spend at least seventy (70) percent of the revolving exploration fund monies on exploration (including drilling, applicable lease acquisition and geological and geophysical activities) of reservoirs which have not been previously drilled by Natural or any other natural gas company; provided, however, that no more than thirty (30) percent of the fund money may be spent on lease acquisition. Any well drilled only into a previously drilled reservoir shall be considered to be a developmental well and Natural shall expend no more than thirty (30) percent of the monies in the revolving exploration fund on developmental wells. If an exploration well drilled in those reservoirs which have not been previously drilled is successful, then Natural may expend no more than (30) percent of the monies in the revolving exploration fund to develop that reservoir.

(5) Natural shall not expend any monies from the revolving exploration fund for use as an advance payment for natural gas.

(6) None of the gas found and produced as a result of the expenditures from the revolving exploration fund provided herein shall be eligible for certification under the optional procedures adopted by the Commission in Docket No. R–441, Order No. 455, issued August 3, 1972, and Order No. 455–A, issued September 8, 1972, 18 CFR § 2.75, nor shall the contract contain any indefinite pricing clause other than a Btu price adjustment; provided that this restriction shall apply only to Natural or an affiliate of Natural and shall not apply to any other party.

(7) Natural shall maintain accounting procedures as determined following conferences with the staff of the Commission which will permit identification and verification of receipts and expenditures of the revolving fund in compliance with this authorization.

(8) Within 90 days after the close of Natural's fiscal year, Natural shall report to the Commission on a yearly basis the results of Natural's transactions regarding the revolving fund in a form acceptable to the Commission.

(9) The rate of return that shall be used in computing the cost of service applicable to the pre-1969 leases for the purpose of computing the receipts to be placed into the revolving exploration fund pursuant to paragraph 2(a) above shall be the rate of return included in the cost of service underlying Natural's then effective rates at the time such rates were approved by the Commission and placed into effect.

(10) All natural gas reserves discovered or acquired as a result of the exploration activities financed under the revolving exploration fund shall be dedicated to service for Natural's customers and will be taken into Natural's system by the most feasible means.

(G) Within sixty (60) days of the issuance of this order, Natural shall inform this Commission that the revolving exploration fund authorized to be established by Ordering Paragraph (E), supra, has in fact been established and that the proposed exploration and development program has commenced.

(H) This proceeding is terminated except as may be necessary to conduct a review of the progress of the exploration and development program as set forth in Ordering Paragraph (F)(1), supra.

(I) The Secretary shall cause this order to be promptly published in the FEDERAL REGISTER.

By the Commission.

[Docket Nos. CI73–715; CI73–722]

NORRIS OIL CO., ET AL.

Order Consolidating Proceedings Granting Interventions, and Fixing Date for Hearing

AUGUST 1, 1973.

The above-named Applicant has filed applications pursuant to section 7(c) of the Natural Gas Act,[1] and pursuant to § 2.75[2] of the Commission's general policy statements, the new Optional Procedure for Certificating New Producer Sales of Natural Gas set forth in Order No. 455,[3] (hereinafter § 2.75) for a certificate of public convenience and necessity authorizing the sale and delivery of natural gas in interstate commerce.

On April 5, 1973, Norris Oil Co., et al. (Norris) filed in Docket No. CI73–715 an application for certification pursuant to § 2.75 on sales to Southern Natural Gas Co. (Southern) from Logansport Field, De Soto Parish, North Louisiana, at an initial price of 48.5¢ per Mcf at 15.025 psia, with escalations of 1.0¢ each year for gas to be produced from all interest owned or subsequently acquired by Norris in the Logansport Field. Alternately, Norris seeks certification of this same sale through an amendment to a small producer certificate issued to Norris in Docket No. CS72–1081 on July 12, 1972, under the optional pricing procedure. The basic contract provides that Southern will reimburse Norris 1.5¢ of the Louisiana severance tax resulting in a total initial price of 50¢ per Mcf.

A notice of intervention was filed by the Public Service Commission for the State of New York, and timely petitions to intervene were filed by:

Associated Gas Distributors
Southern Natural Gas Co.

On April 30, 1973, Norris Oil Co., et al. (Norris) filed in Docket No. CI73–722 an application for certification pursuant to § 2.75 on sales to Southern Natural Gas Company (Southern) from the Grand Cane Field, DeSoto Parish, North Louisiana, at an initial price of 50.0¢ per Mcf at 15.025 psia, with escalations of 1.0¢ each year for gas, subject to upward Btu adjustments from 1030, and downward adjustments from 1000, and reimbursement of 7/8 of any new or additional taxes in excess of 3.3¢.

A notice of intervention was filed by the Public Service Commission for the State of New York, and timely petitions to intervene were filed by:

Associated Gas Distributors
Southern Natural Gas Co.

A formal hearing has been requested, and we find a hearing is desirable to determine, on the record, whether the present and future public convenience and necessity will be served by certificating these sales, and whether the proposed rate is just and reasonable, taking into consideration all factors bearing on maintenance of an adequate and reliable supply of gas, delivered at the lowest reasonable cost.[4]

Since these applications involve similar questions of law and fact as to the reasonableness of the prices for which certification is sought, the Commission concludes that the ultimate disposition of the above-described proceedings would be best accomplished in a consolidated proceeding. The Commission shall, therefore, consolidate these dockets for hearing and disposition.[5]

This hearing is not the proper forum for the relitigation of the propriety of the § 2.75 procedures; that matter is now before the Court of Appeals. See n. 3, supra. This hearing will be addressed solely to the issues of public convenience and necessity, and the justness and reasonableness, of the particular sales and rates herein proposed.

Those parties and intervenors desiring to submit cost and non-cost data should structure their evidence to reflect the tests under § 2.75 for determining the justness and reasonableness of the rate sought.

No intervenor has questioned Southern's need for the additional natural gas supplies that will be available to it as a result of these purchases. However, we are unable to determine the extent of Southern's need for new supplies since it has failed to submit the certification required by § 275h (18 C.F.R. 275h). Accordingly, we shall require Southern to present evidence as to its need for additional supplies of natural gas and whether or not a comparable supply of natural gas is available to Southern at any rate lower than the rates proposed in these applications.

The Commission finds.

(1) It is necessary and in the public interest that the above-docketed proceeding be set for a formal hearing.

(2) It is desirable and in the public interest to allow the above-named petitioners to intervene in this proceeding.

The Commission orders.

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 7, 14, 15 and 16 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Chapter I), Docket Nos. CI73–715 and CI73–722 are consolidated for purposes of hearing and disposition.

(B) A public hearing on the issues presented by the applications herein shall be held commencing August 20, 1973, at 10 am (e.d.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

(C) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5 (d)), shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure.

(D) Applicant and all intervenors supporting the applications shall file their direct testimony and evidence on or before August 10, 1973. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, the Commission Staff, and all parties to these proceedings.

(E) The Commission Staff and all intervenors opposing the applications shall file their direct testimony and evidence on or before August 15, 1973. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, and all other parties to these proceedings.

(F) All rebuttal testimony and evidence shall be served on or before August 17, 1973. All parties submitting rebuttal testimony and evidence shall serve such testimony and evidence upon the Presiding Administrative Law Judge, the Commission Staff, and all other parties to these proceedings.

(G) The above-named petitioners are permitted to intervene in these proceedings subject to the rules and regulations of the Commission: *Provided, however;* That the participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene and *Provided, further;* That the admission of such interests shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in these proceedings.

(H) The Administrative Law Judge's decision shall be rendered on or before September 7, 1973. All briefs on excep-

[Docket No. E-7867]

OHIO POWER CO.

Order Providing for Hearing and Establishing Procedures

AUGUST 1, 1973.

On December 4, 1972, Ohio Power Company (Ohio Power) tendered for filing proposed changes in its FPC Rate Schedule No. 18 which would increase Ohio Power's jurisdictional revenues by $951,065 annually. The changes primarily reflect increased demand and energy charges and a revised fuel adjustment clause.

Notice of the filing was issued on December 19, 1972, requiring petitions to intervene or protest by December 27, 1972. Timely petitions to intervene was filed jointly by Allied Chemical Corporation, Blaw Knox Company, Mobay Chemical Company, PPG Industries, Inc., and the Triangle Conduct and Cable Company (Allied, et al.). A notice of intervention was untimely filed by the West Virginia Public Service Commission. The petitioners for intervention have requested additional time to study the filing and submit pleadings. By order issued January 3, 1973, the Commission suspended the proposed increase until January 6, 1973, allowed Allied, et al., and the West Virginia Commission to intervene in the proceeding and requested that the parties (Intervenors and Staff) file offers of proof within thirty (30) days supporting their positions as to the lawfulness of the proposed rates to assist the Commission in determining whether a hearing is necessary in this proceeding. Ohio Power was allowed fifteen (15) days from the filing of those pleadings to answer. In addition, the January 3 order required Ohio Power to show cause why its fuel clause should not conform to Opinion No. 633.

Allied, et al., filed its Offer of Proof on February 1, 1973, stating inter alia, that Ohio Power supports its proposal only by "Company-wide" data, and offers no evidence of the justification for raising wholesale rates to only Wheeling Electric Company (Wheeling) and to no other customer. Allied believes a hearing is necessary to determine whether the increase to Ohio Power's affiliate, Wheeling, is unreasonably discriminatory because of the complete absence of arm-lengths bargaining and is necessary to test Ohio Power's claim that cost increases require this rate increase.

The staff upon motion to the Commission, was allowed until February 5, 1973, to file its Offer of Proof. The staff takes the position that the proposed increased rates are fully justified from a cost-of-service standpoint, states that it does not believe that it is necessary or in the public interest to sponsor an evidentiary case in its own behalf, and considers an evidentiary hearing inappropriate.

On February 12, 1973, the West Virginia Commission requested a hearing to be held in this proceeding asserting that this proceeding will have a drastic effect on a wheeling rate case currently pending before it.

Review of the Offers of Proof filed by Allied, *et al.*, and the staff indicates that they are insufficient on their face to be dispositive of the issues and insufficient to substantiate a finding that a hearing is unjustified. Accordingly, we will set this proceeding for hearing. The proposed increases in rates and charges have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful.

In response to the show cause part of our January 3, 1973, order, Ohio Power asserts that (1) it was not a party to the proceedings in New England Power Company, Docket No. E-7541, Opinion No. 633, issued October 30, 1972, (New England Power) and (2) there are significant differences between the facts and circumstances of this proceeding and the proceeding in New England Power. Ohio Power argues, inter alia, that the effect of applying a fuel clause such as approved in Opinion No. 633, may, under some conditions, actually make it in Ohio Power's economic interest to operate higher cost generation (recoverable through fuel clauses) rather than to purchase available lower cost energy (not recoverable through fuel clauses).

We find the assertions made therein cannot be summarily dismissed but raise questions that can only be resolved by the development of an evidentiary hearing record. Accordingly, we will also set the issue of the appropriate fuel clause for hearing.

The Commission finds.

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges including the proposed fuel adjustment clause contained in Ohio Power's FPC Rate Schedule No. 18 as proposed to be amended in this docket as hereinafter provided.

(2) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

The Commission orders.

(A) Pursuant to the authority of the Federal Power Act, particularly section 205 thereof, the Commission's rules of practice and procedure, and the regulations under the Federal Power Act (18 CFR, Chapter I), a public hearing shall be held commencing with a prehearing conference at 10 a.m., e.d.t., on September 25, 1973, in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, concerning the lawfulness of the rates, charges, classifications, and services contained in Ohio Power's FPC Rate Schedule No. 18, as proposed to be amended, and with respect to the issue of an appropriate fuel clause for Ohio Power as raised by the assertions contained in Ohio Power's response to the Commission's order issued January 3, 1973, as discussed herein.

(B) At the prehearing conference on September 25, 1973, Ohio Power's prepared testimony with its entire rate filing as submitted and served on December 4, 1972, shall be admitted to the record as Ohio Power's complete case-in-chief subject to appropriate motions, if any, by the parties to the proceeding. All parties will be expected to come to this conference prepared to effectuate the provisions and policy of § 1.18 of the Commission's rules of practice and procedure.

(C) On or before August 21, 1973, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of any and all intervenors shall be served on September 4, 1973. Any rebuttal evidence by Ohio Power shall be served on or before September 18, 1973. Cross-examination of the evidence filed will commence on October 2, 1973.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control the proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(E) Nothing contained in this order shall relieve the applicant of any responsibility imposed by the Economic Stabilization Act of 1970 (Public Law 91-379, 84 Stat. 799, as amended by Public Law 92-15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

(F) The Secretary of the Commission shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[FR Doc.73-16548 Filed 8-9-73;8:45 am]

[Docket Nos. CI72-321; CI73-755]

PENNZOIL PRODUCING CO. AND MIDWEST OIL CORP.

Order Consolidating Proceedings, Granting Interventions, and Fixing Date for Hearing

AUGUST 2, 1973.

The above-named Applicants have filed an application pursuant to section 7(c) of the Natural Gas Act,[3] and pursuant to § 2.75[4] of the Commission's general policy statements, the new Optional Procedure for Certificating New Producer Sales of Natural Gas set forth in Order No. 455,[5] (hereinafter § 2.75) for a certificate of public convenience and necessity authorizing the sale and delivery of natural gas in interstate commerce.

On April 27, 1973, Pennzoil Producing Co. (Pennzoil) filed in Docket No. CI72-321 an application for a certificate of public convenience and necessity, or amendment of its present certificate, authorizing the sale of natural gas to Sea Robin Pipeline Co. (Sea Robin), an affiliate, pursuant to the optional certification procedure provided by § 2.75 of the Commission's general policy and interpretations. The subject gas would be produced from wells commenced after April 6, 1972, in Block 225, Ship Shoal Area, Louisiana (Offshore, Southern Louisiana Area), at an initial rate of 35 cents per Mcf with 2.5 cent per Mcf escalations every three years throughout the life of the contract term which expires September 1, 1991. Additionally, the basic contract with Sea Robin provides for 100 percent reimbursement of any new or additional taxes, downward and upward Btu adjustment from 1000 Btu per cubic feet, and an "area rate" type clause which is prohibited by paragraph (f) of Order No. 455.

A notice of intervention was filed by the Public Service Commission of the State of New York, and timely petitions to intervene were filed by:

Associated Gas Distributors
Mississippi River Transmission Corp.
American Public Gas Association
Sea Robin Pipeline Co.
United Gas Pipeline Co.

On May 7, 1973, Midwest Oil Corp. (Midwest) filed in Docket No. CI73-755 an application for a certificate of public convenience and necessity or amendment of its present certificate authorizing the sale of natural gas to Sea Robin Pipeline Co. (Sea Robin), pursuant to the optional certification procedure provided by § 2.75 of the Commission's general policy and interpretations. The subject gas would be produced from Block 225, Ship Shoal Area, Louisiana (Offshore, Southern Louisiana Area), at an initial rate of 35.0 cents per Mcf at 15.025 psia with 2.5 cent/Mcf escalations thereof every three years throughout its term which expires September 1, 1991. Additionally, the basic contract with Sea Robin provides for 100 percent reimbursement of any new or additional taxes, downward and upward Btu adjustment from 1000 Btu per cubic feet, and an "area rate" type clause which is prohibited by paragraph (f) of Order No. 455.

A notice of intervention was filed by the Public Service Commission for the State of New York, and timely petitions to intervene were filed by:

Associated Gas Distributors
United Gas Pipeline Co.
American Public Gas Association

[3] 15 U.S.C. 717, *et seq.* (1970).
[4] 18 CFR 2.75.

[5] Statement Of Policy Relating To Optional Procedure For Certificating New Producer Sales of Natural Gas, Docket No. R-441, ____F.P.C.____ (issued August 3, 1972), appeal pending sub nom. John E. Moss, et al. v. F.P.C., No. 72-1837 (D.C. Cir.).

A formal hearing has been requested, and we find a hearing is desirable to determine, on the record, whether the present and future public convenience and necessity will be served by certificating this sale, and whether the proposed rate is just and reasonable, taking into consideration all factors bearing on maintenance of an adequate and reliable supply of gas, delivered at the lowest reasonable cost.[6]

Since these applications involve similar questions of law and fact as to the reasonableness of the prices for which certification is sought, the Commission concludes that the ultimate disposition of the above-described proceedings would be best accomplished in a consolidated proceeding. The Commission shall, therefore, consolidate these dockets for hearings and disposition.[7]

This hearing is not the proper forum for the relitigation of the propriety of the § 2.75 procedures; that matter is now before the Court of Appeals. See n. 3, supra. This hearing will be addressed solely to the issues of public convenience and necessity, and the justness and reasonableness of the particular sales and rates herein proposed.

Those parties and intervenors desiring to submit cost and non-cost data should structure their evidence to reflect the tests under § 2.75 for determining the justness and reasonableness of the rate sought.[8]

No intervenor has questioned Sea Robin's need for the additional natural gas supplies that will be available to it as a result of these purchases. However, we are unable to determine the extent of Sea Robin's need for new supplies since it has failed to submit the certification required by § 2.75h (18 CFR 2.75h). Accordingly, we shall require Sea Robin to present evidence as to its need for additional supplies of natural gas and whether or not a comparable supply of natural gas is available to Sea Robin at any rate lower than the rates proposed in these applications.

The Commission finds. (1) It is necessary and in the public interest that the above-docketed proceeding be consolidated for hearing and decision.

(2) It is desirable and in the public interest to allow the above-named petitioners to intervene in these proceedings.

The Commission orders. (A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 7, 15, and 16 thereof, the Commission's rules of practice and procedure, and the Regulations under the Natural Gas Act (18 CFR Ch. I) Docket Nos. CI73-755 and CI72-321 are consolidated for the purpose of hearing and disposition.

(B) A public hearing on the issues presented by the proposals of the applicants herein shall be held commencing September 10, 1973, at 10 am. (e.d.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

(C) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 C.F.R. § 3.5(d)), shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure.

(D) Applicants and all intervenors supporting the applications shall file their direct testimony and evidence on or before August 22, 1973. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, the Commission Staff, and all other parties to these proceedings.

(E) The Commission Staff and all intervenors opposing the application shall file their direct testimony and evidence on or before August 31, 1973. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, and all other parties to these proceedings.

(F) All rebuttal testimony and evidence shall be served on or before September 7, 1973. All parties submitting rebuttal testimony and evidence shall serve such testimony and evidence upon the Presiding Administrative Law Judge, the Commission Staff, and all other parties to these proceedings.

(G) The above-named petitioners are permitted to intervene in this proceeding subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene: *And provided, further,* That the admission of such intervener shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(H) The Administrative Law Judge's decision shall be rendered on or before October 9, 1973. All briefs on exceptions shall be due on or before October 19, 1973, and replies thereto shall be due on or before October 26, 1973.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[Project No. 2161]

ST. REGIS PAPER CO.

Notice of Application for New License for Constructed Project

AUGUST 2, 1973.

Public notice is hereby given that application for new license has been filed on March 12, 1969, and supplemented on February 27, 1970, under the Federal Power Act (16 U.S.C. 791a–825r) by St. Regis Paper Co. (Correspondence to: Homer Crawford, Esquire, Secretary, St. Regis Paper Co., 150 East 42nd Street, New York, New York 10017), for its constructed Rhinelander Project No. 2161, located in Oneida County, Wisconsin, on the Wisconsin River in the region of Rhinelander and Towns of Pine Lake, Wisconsin and Newbold, Wisconsin. The project affects navigable waters and unpatented lands of the United States.

The existing Rhinelander Project operates as a supplier of energy for the Applicant's industrial operations, for lighting and auxiliary purposes when the Applicant's mill and steam generating plant are not in operation, and for power to start up the steam plant. The project consists of: (1) A 180-foot long earth dam with a concrete section containing two waste gates, (2) a 3576-acre reservoir with normal water surface elevation at 1555.33 feet (U.S.C.S.G.S. datum), (3) a concrete intake structure about 82 feet long at the head of the diversion canal containing 14 gates, (4) a canal about 965 feet long and about 60 feet wide, (5) a brick powerhouse containing two 560-kilowatt generating units, and one 1,000 kilowatt generating unit, and (6) other facilities appurtenant to the operation of the project.

According to the application: (1) The estimate of fair value is $2,200,000, (2) the estimated net investment is $326,238, and (3) the estimated severance damages in the event of "takeover" are $28,000,000.

The Applicant states that the project reservoir, Boom Lake, is heavily used for recreation. Although most of the shoreline is privately owned, the Applicant provides access to the Lake over those abutting lands that it owns. The Lake is used for swimming, boating, and fishing. No further development of the Project is contemplated at this time.

Any person desiring to be heard or to make protest with reference to said application should on or before September 27, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceedings. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

MARY B. KIDD,
Acting Secretary.

[Docket No. E-8052]

SOUTH CAROLINA ELECTRIC AND GAS CO.

Notice of Filing of New Delivery Point

AUGUST 2, 1973.

Take notice that South Carolina Electric and Gas Co. (South Carolina) on June 8, 1973, filed "Delivery Point and Service Specifications" for the proposed delivery of power to Berkeley Electric Cooperative, Inc. at a new point of service near Jedburg, South Carolina. South Carolina estimates revenues under the service to be $125,511.50 for the first year of service.

South Carolina further states that service will be rendered in accordance with the Company's FPC Electric Tariff Original Volume No. 1 and Rate Schedule SR–2, currently in effect subject to refund in Docket No. E–8052.

The proposed date of initial service is July 15, 1973, and South Carolina states that they will notify the Commission when service commences.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 14, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[FR Doc.73-16554 Filed 8-9-73;8:45 am]

[Docket No. RP73-100]

SYLVANIA CORP.

Pipeline Rates; Order Vacating Prior Order and Accepting for Filing and Suspending Proposed Increased Rates and Establishing Hearing Procedures

AUGUST 1, 1973.

The Sylvania Corporation (Sylvania) on July 2, 1973, tendered for filing Substitute Original Sheet No. 4 to its FPC Gas Tariff, First Revised Volume No. 1. Sylvania maintains that the filing is necessitated by a mathematical error in its filing made April 26, 1973 in this same docket. Sylvania states that correction of the error produces an alleged revenue deficiency of $666,161 rather than the $338,069 deficiency claimed in the April 26, 1973 filing.[1] The filing was noticed, with comments, protests and/or petitions to intervene due on or before July 27, 1973.

By order issued in this docket on June 8, 1973 we suspended Sylvania's original filing one day, or until June 11, 1973.[2] Sylvania now requests that we waive our requirements under § 154.22 of our regulations under the Natural Gas Act and accept the Substitute Sheets for filing effective June 11, 1973.

We note that Sylvania is a small natural gas wholesaler and is not frequently before this Commission in pipeline rate cases. Therefore, we shall treat the filing of July 2, 1973, as an application for withdrawal of the April 26, 1973, filing as well as a filing for a proposed increase in rates and charges under section 4(e). Since Sylvania supports the proposed increase by reference to the cost and revenue data filed on April 26, 1973, we shall accept such data as being properly filed in support of Substitute Original Sheet No. 4.

We note that Sylvania has filed no supporting testimony and exhibits (Statement P) in this proceeding or with its April 26, 1973 filing. We shall, therefore, order Sylvania to file its Statement P not more than 15 days from the date of issuance of this order so that its filing may be complete.

Finally, since Sylvania's filing of July 2 constitutes a new filing of a proposed increase, we shall assign it a proposed effective date of 30 days after filing, or August 2, 1973, and we shall suspend the proposed increase one (1) day, or until August 3, 1973. Sylvania's request for waiver of § 154.22 of our Regulations will accordingly be denied.

Our review of the proposed increase indicates that certain issues are raised which may require development in an evidentiary proceeding. The proposed increased rates and charges have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential or otherwise unlawful.

The Commission finds. (1) Good cause exists to accept for filing Substitute Original Sheet No. 4 as set forth below and to permit Sylvania to withdraw its April 26, 1973, filing.

(2) It is necessary and appropriate in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Sylvania's FPC Gas Tariff, as proposed to be amended herein, and that the tendered Substitute Original Sheet No. 4 described above be accepted for filing and suspended as hereinafter provided.

(4) In the event this proceeding is not concluded prior to the termination of the suspension period herein ordered, the placing of the tariff changes applied for in this proceeding into effect, subject to refund with interest while pending Commission determination as to their justness and reasonableness, is consistent with the purpose of the Economic Stabilization Act of 1970, as amended.

The Commission orders. (A) Sylvania's filing of April 26, 1973, is hereby deemed withdrawn.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 5 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Chapter I), a public hearing shall be held commencing with a prehearing conference on October 30, 1973, at 10 a.m., e.s.t. in a hearing room of the Federal Power Commission, Washington, D.C. 20426, concerning the lawfulness of the rates, charges, classifications and services contained in Sylvania's FPC Gas Tariff, as proposed to be amended herein.

(C) Sylvania's request for waiver of § 154.22 of regulations under the Natural Gas Act is denied.

(D) Pending hearing and decision thereon Sylvania's Substitute Original Sheet No. 4 is accepted for filing and the use thereof is suspended until August 3, 1973, or such time it is made effective in the manner provided in the Natural Gas Act.

(E) This acceptance for filing is conditioned upon Sylvania filing its Statement (P) not more than 15 days from the issuance of this order.

(F) At the prehearing conference on October 30, 1973, Sylvania's prepared testimony (Statement P) together with its entire rate filing, shall be admitted to the record as its complete case-in-chief subject to appropriate motions, if any, by parties to the proceeding. The testimony and exhibit of all other parties to this proceeding shall also be admitted to the record at this time. All parties will be expected to come to this conference prepared to effectuate the provisions of §§ 1.18 and 2.59 of the Commission's rules of practice and procedures.

(G) On or before September 25, 1973, the Commission Staff shall serve its prepared testimony and exhibits. Any rebuttal evidence by Sylvania shall be served on or before October 19, 1973. The public hearing herein ordered shall convene on October 31, 1973, at 10 a.m., e.s.t.

(H) Nothing contained in this order shall relieve the applicant of any responsibility imposed by the Economic Stabilization Act of 1970, (Public Law 91–379, 84 Stat. 799, as amended by Public Law 92–15, 85 Stat. 38) or by any Executive Order or rules and regulations promulgated pursuant to such Act.

(I) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[FR Doc.73-16546 Filed 8-9-73;8:45 am]

[Docket Nos. CP73-115 and CP74-27]

TENNESSEE GAS PIPELINE CO.

Order Granting Motions To Vacate, Issuing Order To Show Cause, Consolidating Proceedings, Setting Procedures for Hearing, and Granting Interventions

AUGUST 3, 1973.

On October 31, 1972, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee) filed in Docket No. CP73–115, as supplemented February 12, 1973, an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain facilities to enable Tennessee to meet the increased annual requirements of its customers under their respective presently authorized contract quantities commencing with the 1973–74 winter season, all as more fully set forth in the application as supplemented thereto in this proceeding.

After due notice by publication in the FEDERAL REGISTER on November 21, 1972 (37 FR 24791), we issued an order on May 1, 1973, granting a certificate of public convenience and necessity for the construction and operation of the proposed facilities and providing for hearing to decide: (1) whether a certificate of public convenience and necessity should issue for the increased annual sales of gas as proposed and; (2) whether a maximum annual limitation should be placed on each customer served by Applicant's system and, if so, the limitation to be established. Additionally, the order provides for the hearing to decide whether the increased annual sales of gas as proposed should be certificated based, inter alia, on end-use considerations. May 23, 1973, was set as the date for filing testimony and exhibits, and the hearing was to commence June 5, 1973. On motion by Tennessee, we postponed the above dates, setting July 10, 1973, as the date for filing testimony and evidence and July 24, 1973, as the date for hearing. On July 2, 1973, we further postponed the above dates to July 24, 1973, and August 8, 1973, respectively, and on July 17, 1973, all dates were suspended pending further action by us.

Applications for rehearing of our May 1, 1973, order were filed by Tennessee, Alabama-Tennessee Natural Gas Company (Alabama), and Central Hudson Gas & Electric Corporation (Central Hudson). On June 29, 1973, we granted rehearing for the purpose of reconsideration of our May 1, 1973, order.

Tennessee Natural Gas Lines, Inc. (Tennessee Natural) and Knoxville Utilities Board, et al. (Knoxville), filed responses in support of Tennessee's application for rehearing[1] and motions for vacating, upon rehearing, our May 1, 1973, order as to the "issue" of maximum annual volume requirements for each customer as being inconsistent with Commission Opinion No. 619 issued on May 19, 1972, in Docket No. RP71–6, et al. In their motions to vacate our May 1, 1973, order, they state, inter alia, that our notice of November 14, 1972, is insufficient in giving notice of the "issue" of what maximum annual volumetric requirements, if any, should be established for each customer served by Tennessee. Without exploring the other arguments raised by these motions to vacate, we believe that some customers of Tennessee may not have received sufficient notice of the "issue" raised by this application as noticed in the FEDERAL REGISTER on November 21, 1972 (37 FR 24791). We will, therefore, grant the motions to vacate the condition in our May 1, 1973 order requiring a hearing to be held on the above stated "issue". By this action, the following filings in this proceeding need not be considered further:

Application of Tennessee Gas Pipeline Company, a Division of Tenneco Inc., for Rehearing filed on May 31, 1973.
Application of Alabama-Tennessee Natural Gas Company for Rehearing filed on May 31, 1973.
Application of Central Hudson Gas & Electric Corporation for Rehearing filed on June 7, 1973.
Petition of the Berkshire Gas Company, *et al.*, for Clarification and Limitation of Issues and for Procedural Relief filed on June 11, 1973.
Motion of Knoxville Utilities Board, *et al.*, for Interpretative Order Fixing Procedure for Filing of Evidence filed on June 27, 1973.
Motion of Tennessee Natural Gas Lines, Inc., for Interpretative Order Fixing Procedure for Filing of Evidence filed on June 27, 1973.

Late petitions to intervene have been filed by the following:

Colonial Natural Gas Company on June 6, 1973.
Texas Gas Transmission Corporation on June 6, 1973.

[1] The filing is based on a test year ended December 31, 1972, as adjusted.

[2] This increase is currently subject to the price freeze.

[1] On July 2, 1973, Knoxville filed a motion to permit its response to be substituted in lieu of a petition for rehearing.

V 38-154 AUG 10 73 XUM

Roanoke Gas Company on June 8, 1973.
Cabot Corporation on June 25, 1973.
Pennsylvania & Southern Gas Company on June 25, 1973.
North Penn Gas Company on June 26, 1973.
Long Island Lighting Company on July 2, 1973.
Elizabethtown Gas Company on July 3, 1973.
Mobil Chemical Company, a Division of Mobil Oil Corporation, on July 16, 1973.
Peoples Gas Light and Coke Company on July 23, 1973.

A late notice of intervention was filed by the Tennessee Public Service Commission on May 31, 1973, wherein it states that it felt compelled to intervene only after issuance of our May 1, 1973, order.

We believe that good cause exists to permit intervention of the above petitioners inasmuch as no undue delay will result.

The expansion of Tennessee's facilities certificated by us in the May 1, 1973, order involves increased volumes of gas to be sold to its customers under existing contracts. In this time of gas shortage, the public interest requires that we carefully assess any increase in deliveries of gas. We will therefore issue an order in Docket No. CP74–27 requiring Tennessee to show cause why a maximum annual volumetric requirement should not be established for each customer on Tennessee's system for deliveries of gas in excess of its 1972–73 requirement, or, in the alternative, its 1973–74 requirement, and, if appropriate, what requirement should be established for each. The term "1972–73 requirement" means the volumes required by Tennessee's customers in 1972–73, assuming that design temperatures had prevailed and that the year-end customers had been attached and served during the entire calendar year, i.e., those volumes shown at Exhibit Z–1, pp. 1–6, column 6, in Docket No. CP72–127.

The Commission notes the interrelationship between the issue remaining in Docket No. CP73–115, i.e., whether the increased annual sales of gas as proposed should be certificated based, inter alia, on end-use considerations, and the issues presented in this show cause proceeding in Docket No. CP74–27 and concludes that their ultimate disposition would best be accomplished in a consolidated proceeding. Therefore, we shall consolidate these proceedings for hearing and disposition.

Any person wishing to become a party to the show cause proceeding hereinafter ordered may do so by filing a petition to intervene on or before August 23, 1973. All parties heretofore permitted to intervene in Docket No. CP73–115 shall be deemed to be intervenors in the show cause proceeding, Docket No. CP74–27.

The Commission finds:

(1) The motions of Tennessee Natural Gas Lines, Inc. and Knoxville Utilities Board, et al., to vacate that part of our May 1, 1973, order requiring a hearing to determine whether maximum annual volumetric requirements for each customer should be established and, if so, the limitation to be established should be granted.

(2) Good cause exists to allow the above-named petitioners to intervene.

(3) It is appropriate in the administration of the Natural Gas Act that the Commission enter upon a hearing at which Tennessee Gas Pipeline Company should show cause why maximum annual volumetric requirements should not be established for each customer on Tennessee's system for deliveries of gas in excess of its 1972–73 or, in the alternative, its 1973–74 requirements, and, if appropriate, what requirement should be established for each customer.

(4) It is necessary and in the public interest that the above-docketed proceedings be consolidated for hearing and decision.

The Commission orders:

(A) The motions of Tennessee Natural Gas Lines, Inc. and Knoxville Utilities Board, et al. to vacate that part of our May 1, 1973, order requiring hearing in Docket No. CP73–115 on the above described "issue" is hereby granted. In all other respects, our May 1, 1973, order is confirmed.

(B) The above-designated matters in Docket Nos. CP73–115 and CP74–27 are hereby consolidated for purposes of hearing and disposition.

(C) The above-named petitioners are permitted to intervene in this consolidated proceeding subject to the Rules and Regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; *And provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in this proceeding. All parties heretofore permitted to intervene in the Docket No. CP73–115 proceeding are deemed to be intervenors in the show cause proceeding, Docket No. CP74–27.

(D) Pursuant to the authority, and in order to effectuate the purposes, of the Natural Gas Act (particularly sections 5, 7, 14 and 16), Tennessee Gas Pipeline Company is hereby ordered to appear at a public hearing and to show cause: (1) Why maximum annual volumetric requirements should not be established for each customer on Tennessee's system for deliveries of gas in excess of its 1972–73 requirements, and, if appropriate, what requirement should be established for each customer; or, in the alternative, (2) why maximum annual volumetric requirements should not be established for each customer on Tennessee's system for deliveries of gas in excess of its 1973–74 requirements, and, if appropriate, what requirement should be established for each customer.

(E) Pursuant to the authority of the Natural Gas Act, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act, a public hearing shall be held commencing on October 16, 1973, at 10 a.m. (e.d.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20002, on the issues raised by the show cause order issued herein in Docket No. CP74–27 to Tennessee Gas Pipeline Company and on the remaining issues raised in Docket No. CP73–115.

(F) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for this purpose (see Delegation of Authority, 18 CFR 3.5(d)) shall preside at the hearing in this consolidated proceeding pursuant to the Commission's rules of practice and procedure.

(G) The direct case of Tennessee Gas Pipeline Company, in accordance with the show cause order issued herein and the remaining issues raised in Docket No. CP73–115, shall be filed and served on all parties, the Presiding Administrative Law Judge, and the Commission staff on or before September 20, 1973. Additionally, each customer desiring to submit testimony and/or exhibits on the issues raised by this consolidated proceeding shall file and serve on all parties its direct evidence on or before September 20, 1973.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[FR Doc.73–16541 Filed 8–9–73;8:45 am]

[Docket Nos. CP73–48, etc.]

TENNESSEE GAS PIPELINE CO. ET AL.

Order Clarifying and Modifying Previous Order

AUGUST 2, 1973.

In the matter of Tennessee Gas Pipeline Co., a Division of Tenneco Inc. Columbia Gulf Transmission Co., CP73–48; Tennessee Gas Pipeline Co., a Division of Tenneco Inc. Columbia Gulf Transmission Co., CP72–114; Columbia Gulf Transmission Co., CP73–71; Phillips Petroleum Co., CI73–408; Union Texas Petroleum, a Division of Allied Chemical Corp., CI73–343, Skelly Oil Co., CI73–428.

On July 3, 1973, The Public Service Commission for the State of New York (New York) filed a Petition for Clarification or Rehearing of the Commission's order issued in this proceeding on June 7, 1973. On July 9, 1973, Tennessee Gas Pipeline Company (Tennessee) filed an application for Rehearing and/or Reconsideration and Clarification of the Commission's order.

Specifically, New York seeks Commission clarification of ordering paragraphs (D)(4) and (E)(4). Ordering paragraph (D)(4) reads as follows: "In the event that the producers exercise their right to have Columbia Gulf transport gas reserved for their own use, Columbia Gulf will file a certificate application for authorization to transport gas." Ordering paragraph (E)(4) reads as follows: "That in the event Phillips, Union Texas and Skelly exercise their right to receive up to 25 percent of the average daily quantity of gas produced, it will be necessary to submit proposed rate schedule supplements, at least 30 days prior to the effective dates, notifying the Commission that the option has been exercised and setting forth the conditions and details of the contemplated action."

In its petition for clarification New York expresses concern that read together those two paragraphs could be taken to authorize the producers to exercise their contractual options to have portions of the gas reserves transported by the pipeline for redelivery for their own use by filing a rate supplement prior to final Commission action upon the pipeline's certificate application to transport the gas. Our order, however, requires the pipelines to file certificate applications when the producers exercise their contractual options to receive gas delivered for their own use. As we stated in our order (mimeo, pp. 8 and 10), the certificates issued should make the following provisions: "advise Columbia and Tennessee that it will be necessary to file a certificate application for authorization to transport gas for Phillips should Phillips exercise its option".

Petitioner Tennessee seeks clarification of ordering paragraphs (A)(3) and (A)(4), which are among the conditions imposed upon the Commission's granting a certificate of public convenience and necessity to Tennessee and Columbia Gulf Transmission Company (Columbia Gulf). Ordering paragraphs (A)(3) and (A)(4) read as follows: "(3) An appropriate portion of the proposed facilities will not be included in the rate base of Tennessee and Columbia Gulf in any future rate proceeding in the event the facilities are not fully used or are not useful. (4) In the event that the producers exercise their right to have Tennessee and Columbia Gulf transport gas reserved for their own use, Columbia Gulf and Tennessee will file a certificate application for authorization to transport gas."

In its application, Tennessee correctly states that ordering paragraphs (A)(3) and (A)(4) should be revised to delete any reference to Tennessee, since its contractual agreements with its suppliers in this proceedings, Texaco Inc. and Tenneco Oil Company, do not provide for any arrangement whereby the suppliers hold options to have their retained reserves transported by Tennessee in contrast to the arrangement Columbia Gulf has with its suppliers in this proceeding. Accordingly, our order should be modified to delete all reference to Tennessee from ordering paragraphs (A)(3) and (A)(4).

The Commission orders: (A) Our order of June 7, 1973, is modified by deleting ordering paragraphs (A)(3) and (A)(4) and substituting the following paragraphs:

(A)(3) An appropriate portion of the proposed facilities will not be included in the rate base of Columbia Gulf in any future rate proceeding in the event the facilities are not fully used or are not useful.

(A)(4) In the event that the producers exercise their right to have Columbia Gulf transport gas reserved for their own use, Columbia Gulf will file a certificate application for authorization to transport gas."

(B) Except as modified above and as clarified, our order of June 7, 1973, remains in full force and effect.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[FR Doc.73–16563 Filed 8–9–73;8:45 am]

[Docket Nos. RP71–130; RP72–58; CP73–310; and CP73–311]

TEXAS EASTERN TRANSMISSION CORP.

Order Dismissing Proceedings for Mootness, Granting Interventions Providing for Hearing, and Establishing Procedures

AUGUST 1, 1973.

On April 27, 1973, the Town of Smyrna, Tennessee (Smyrna) filed with the Commission in Docket No. CP73–310, a petition for emergency relief pursuant to § 1.7(b) of the Commission's rules of practice and procedure, 18 CFR 1.7(b), and pursuant to the Commission's Order Denying Rehearing and Stay issued January 24, 1973.[1] Smyrna requested an increase of 20,307 Mcf of natural gas in its annual allotment from its sole supplier, Texas Eastern Transmission Corp. (TETCO). On June 11, 1973, Smyrna amended its petition asking for a further increase in its annual allotment. Smyrna now requests that its entitlement be increased by 35,000 Mcf for the twelve months ending August 31, 1973.

On April 27, 1973, the Town of Utica, Mississippi (Utica) filed in Docket No. CP73–311 a petition for emergency relief similar to that of Smyrna. Utica asks for an increased allotment of 10,653 Mcf for the twelve months ending August 31, 1973.

On June 13, 1973, the City of Huntingburg, Indiana (Huntingburg) filed in Docket Nos. RP71–130 and RP72–58 a petition for emergency relief similar to that of Smyrna and Utica. Huntingburg asks for an increased allotment of at least 10,000 Mcf for the twelve months ending August 31, 1973.

TETCO is the sole supplier of natural gas for Smyrna, Utica, and Huntingburg. Because of the national shortage of natural gas, TETCO has been forced to curtail deliveries to its customers. On December 1, 1972, the Commission approved a Stipulation and Agreement establishing the annual allotments for TETCO's customers, including the three petitioners herein. Present entitlements together with emergency requests and annual contract quantities are as follows:

Petitioner	Current entitlement	Increase	Requested entitlement	Contract [2]
		Mcf 15.025 p.s.i.a.		
Smyrna [3]	156,828	35,000	191,828	505,890
Utica	57,800	10,653	68,453	208,050
Huntingburg	423,722	10,000	433,722	973,090

[2] 365 times the daily contract demand prior to the onset of curtailment.

Petitioners submit that the annual entitlements calculated for them under the Stipulation and Agreement are not sufficient to serve the requirements of their existing customers until August 31, 1973, when the annual entitlements expire. All petitioners state that unless they are granted increased entitlements, they will either have to terminate service to existing customers who fall mostly in the residential and commercial category or incur penalty charges[3] of a magnitude that would virtually bankrupt their small system.

Each petitioner states that the majority of its customers are residential and small commercial (less than 50 Mcf on a peak day), and thus fall into priority-of-service category (1) established by the Commission Order 467–B, of March 2, 1973, Docket No. 469. Smyrna states that it has only three customers which could not be classified residential or small commercial—Smyrna High School, Tennessee Farmers Coop, and the Lane Company; Utica only three customers—Utica Junior College, Movie Star and Kitchen Bros.; and Huntingburg only five customers—Saint Joseph's Hospital, Southridge High School, Southwest DuBois Middle School, Huntingburg Brick Company and Food Concepts, Inc.

TETCO filed an answer to Huntingburg's petition on July 6, 1973. TETCO neither supports or objects to Huntingburg's request for relief.

Both Smyrna and Utica state that their current annual entitlements of 156,828 Mcf and 57,800 Mcf, respectively, were exhausted during the month of May, 1973.

On June 1, and June 8, 1973, the Town of Franklin Tennessee (Franklin) notified the Commission of the commencement of the emergency sale of natural gas to Smyrna and Utica, respectively, pursuant to the terms of § 2.68 of the Commission's rules of practice and procedure. On July 17, 1973, Smyrna, Utica, and Franklin filed petitions requesting a waiver of the 60 day limitation imposed by § 2.68 of the Commission's rules of practice and procedure in order to continue the emergency sale of Natural gas through August 31, 1973. The Commission approved said petition on July 25, 1973, and stated that Franklin's exempt status under section one of the Natural Gas Act is not jeopardized.

[1] The Order Denying Rehearing and Stay was issued in Docket Nos. RP71–130 and RP72–58.

[3] The Stipulation and Agreement approved by the Commission provides for a charge of $3.00 per Mcf for all gas taken in excess of this annual entitlement.

V 38-154 AUG 10 73 XUM

Franklin states that it has surplus gas available due to the temporary shutdown of one of its customers. Through June 30, 1973, Franklin has transferred 11,574 Mcf to Smyrna and 1,842 Mcf to Utica out of original requests of 35,000 Mcf and 10,000 Mcf, respectively. Texas Eastern has agreed to deliver the gas to Smyrna and Utica without any transportation charge. Franklin will be reimbursed by Smyrna and Utica at the effective rate of the applicable rate schedule of their mutual supplier, Texas Eastern.

Approval of the petition filed on July 17, 1973, effectively moots the petitions for emergency relief filed by Smyrna and Utica in Docket Nos. CP73–310 and CP73–311 by assuring the Towns of an adequate gas supply through August 31, 1973.

On June 11, 1973, Algonquin Gas Transmission Co. (Algonquin) filed petitions for leave to intervene opposing grant of the relief requested in Docket Nos. CP73–310 and CP73–311. Algonquin states that it appears that the entitlements of Smyrna and Utica are insufficient because of the expansion of service by these customers. Algonquin feels that it is not equitable to allow some customers of Texas Eastern to grow while Algonquin and its customers are forced ot incur substantial expenses to supplement their gas supply from other sources. On July 6, 1973, Algonquin filed a petition to intervene in Docket Nos. RP71–130 and RP72–58.

On July 6, 1973, Columbia Gas Transmission Corp. (Columbia) filed petitions to intervene in Docket Nos. RP71–130, RP72–58 and CP73–310. Columbia, a large customer of TETCO, requests a formal hearing.

An untimely petition to intervene was filed in Docket No. CP73–311 on July 20, 1973, by Indiana Gas Co., Inc. (Indiana), a large customer of TETCO. Indiana did not request a formal hearing. On July 9, 1973, Indiana filed a petition to intervene in Docket Nos. RP71–130 and RP72–58, requesting a formal hearing.

On July 2, 1973, Brooklyn Union Gas Co. (Brooklyn Union), a large customer of TETCO filed an untimely petition to intervene in Docket No. CP73–311. Brooklyn Union requests a formal hearing.[4]

The cases in Docket Nos. RP71–130 and RP72–53 include issues which arose in earlier proceedings and are not material to the three petitions considered herein. Parties who have previously intervened in Docket Nos. RP71–130 or RP72–58 will be permitted to intervene in these consolidated proceedings so long as their participation is limited to matters raised in the petition for emergency relief which is the basis for the hearings provided for in this order.

The Commission finds. (1) Good cause exists to dismiss the proceedings in Docket Nos. CP73–310 and CP73–311 for mootness.

(2) Good cause exists to set the proceedings in Docket Nos. RP71–130 and RP72–58 for formal hearing, and to establish procedures for that hearing.

(3) The participation of each party which has petitioned to intervene in Docket Nos. RP71–130 and RP72–58 will neither hinder nor delay the conduct of these proceedings.

The Commission orders. (A) The proceedings in Docket Nos. CP73–310 and CP73–311 are dismissed as moot.

(B) Pursuant to the authority of the Natural Gas Act, the Commission's Rules of Practice and Procedure, and the Regulations under the Natural Gas Act, a public hearing shall be held on August 27, 1973 at 10 a.m. in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, concerning the public interest issues involved in the consolidated proceeding, Docket Nos. RP71–130 and RP72–58.

(C) On or before August 14, 1973, petitioner and all parties supporting petitioner's request shall serve with the Commission and upon all other parties including Commission Staff to the proceeding their testimony and exhibits in support of their position.

(D) An Administrative Law Judge to be designated by the Chief Administrative Law Judge for the purpose, shall preside at the hearing in this consolidated proceeding and shall prescribe relevant procedural matters not herein provided.

(E) Algonquin, Columbia and Indiana, are hereby permitted to intervene in this proceeding, subject to the Rules and regulations of the Commission; *Provided, however*, That the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in the respective petitions to intervene; and *Provided, further*, That the admission of such intervenors shall not be construed as recognition that they or any of them might be aggrieved because of any order or orders issued by the Commission in this proceeding.

By the Commission.

[SEAL] MARY B. KIDD, *Acting Secretary.*

[FR Doc.73–16559 Filed 8–9–73;8:45 am]

[4] The Public Service Commission for the State of New York (PSCNY) which intervened in Docket Nos. RP71–130 and RP72–58 on January 24, 1971, filed with this Commission on July 6, 1973, a statement conditionally supporting Huntingburg's position. PSCNY has not requested a formal hearing in this matter. The Tennessee Public Service Commission, which is not an intervenor in these proceedings filed a statement on June 11, 1973, supporting Smyrna's petition.

[Docket No. RP72–64]

TEXAS GAS TRANSMISSION CORP.

Notice of Extension of Time

AUGUST 3, 1973.

Louisville Gas and Electric Co., Southern Indiana Gas and Electric Co. and Western Kentucky Gas Co. filed motions on July 26, 1973 and July 30, 1973 respectively, for an extension of the procedural dates. On August 1, 1973, General Motors filed an answer in support of the motion of Louisville Gas and Electric Co. By notice issued July 16, 1973, the time was extended to and including November 5, 1973, within which end-use data was to be submitted by Texas Gas Transmission Corp.

Upon consideration, notice is hereby given that the other procedural dates are modified accordingly:

Texas Gas and Intervenor, cases-in-chief, December 5, 1973.
Prehearing Conference, December 18, 1973. (10 am, e.s.t.)
Answering testimony, January 14, 1974.
Hearing, February 5, 1974. (10 am, e.s.t.)

MARY B. KIDD, *Acting Secretary.*

[FR Doc.73–16557 Filed 8–9–73;8:45 am]

[Docket No. RP73–101]

TRANSWESTERN PIPELINE CO.

Order Denying Rehearing and Reconsideration, Instituting Complaint Proceeding, and Establishing Procedures

AUGUST 1, 1973.

By order issued May 31, 1973, the Commission, inter alia, accepted for filing tariff sheets, tendered by Transwestern Pipeline Co. (Transwestern),[1] and established procedures for the filing of end-use data.[2] Applications for rehearing were filed on July 2, 1973, by Pacific Lighting Service Co. (PLSC), Southern California Gas Co. (SoCal), and the People of the State of California and the Public Utilities Commission of the State of California (California). On July 13, 1973, and July 25, 1973, San Diego Gas & Electric Co. (San Diego) and Southern California Edison Co. (Edison) respectively filed a motion requesting permission to file an application for rehearing out-of-time and attached the application to its motion.[3]

In their applications for rehearing, Petitioners urge reconsideration of our acceptance of Transwestern's proposed curtailment plan and, upon reconsideration, instituting a hearing under section 4 of the Natural Gas Act to determine the lawfulness of that plan. While Petitioners broadly allege the impropriety of the order of priorities established by Transwestern's filing, their concern appears to be directed more to their position on the priority scale than urging the impropriety of the priorities themselves. For example, PLSC, SoCal, and San Diego allege that a section 4 hearing is necessary to determine that the priorities "are appropriate and nondiscriminatory" (p. 4). They then argue that the application of those priorities may be unlawful against Transwestern's California customers, who are required under the regulations of the California Public Utilities Commission to provide only interruptible service to industrial consumers in excess of 200 Mcf per day. California, on the other hand, urges rehearing on the basis, inter alia, of the need to expand priority (2) to include interruptible sales (p. 7) and the need for considering storage and partial requirements customers in formulating the curtailment plan (pp. 8–9), while also urging the possible discrimination of the priority list on the California customers based on its "interruptible" requirement (pp. 4–6). Accordingly, the need to initiate a section 4 hearing to determine the lawfulness of the priorities per se has not been demonstrated.

The application for rehearing filed by California, unlike the joint application of PLSC and So Cal, does not state that a hearing under section 5 of the Act is not requested. The pleadings present issues that, in our judgement, should be adjudicated on the basis of an evidentiary record. Accordingly, we will consider the application filed by California as a complaint filed under section 5 and order a hearing thereon, wherein California, as complainant may have the opportunity to present evidence to sustain its burden of showing that; (a) the plan unduly discriminates against California customers.

(b) Priority (2) should be enlarged to include interruptible service, and (c) the list of priorities should be modified to include consideration for customers who have storage facilities and for partial requirements customers.[4]

The Commission finds. (1) Good cause exists to grant San Diego's and Edison's motions and permit them to file an application for rehearing out-of-time which will be treated as motions for reconsideration.

(2) The assignments of error and grounds for rehearing set forth in the applications for rehearing and motions for reconsideration of our May 31, 1973, order issued in this proceeding present no new facts or principals of law which were not considered by the Commission when it issued its order or which having now been considered warrant any change in said order.

(3) It is necessary and proper for the purpose of carrying out the provisions of the Natural Gas Act that California's application for rehearing be treated as a complaint filed under section 5 of the Natural Gas Act and that a hearing be initiated and the procedures established for the hearing, all as hereinafter ordered.

The Commission orders. (A) The motions filed by San Diego and Edison on July 13, 1973 and July 25, 1973, respectively requesting permission to file an application for rehearing out-of-time is hereby granted.

(B) The applications for rehearing filed in this proceeding by PLSC, So Cal, and California, are hereby denied. The applications for rehearing and treated as motions for reconsideration filed by San Diego and Edison are hereby denied.

(C) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by the Natural Gas Act, particularly sections 5, 14, 15, and 16 thereof, a hearing on the complaint filed by California shall be convened concerning the issues of why Transwestern's California customers should not adhere to the list of curtailment priorities set forth in Transwestern's tariff, why priority (2) in that list should be modified to include interruptible service, and why the list of priorities should be modified to include consideration for customers who have storage facilities and for partial requirements customers.

(D) Answers and responses to the complaint under § 1.6(a) of our rules of practice and procedure, are hereby waived, without prejudice.

(E) As established by our notice of July 11, 1973, Transwestern shall serve its end-use data on all parties in this proceeding including Commission staff, on or before September 24, 1973. California and parties in support of California's stated contentions shall serve their cases-in chief in response to ordering paragraph (C) above on all parties to this proceeding including Commission staff, on or before October 25, 1973.

(F) Pursuant to the authority contained in and subject to the jurisdiction conferred on the Federal Power Commission by the Natural Gas Act, particularly section 5, 14, 15, and 16 thereof, and pursuant to the Commission's rules of practice and procedure and the Regulations under the Natural Gas Act, a public hearing shall be convened on November 19, 1973, at 10 am (e.s.t.) at the offices of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426 concerning the issues involved in the proceeding initiated in ordering paragraph (C) above.

(G) An Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (see Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearings in this proceeding, and shall prescribe relevant procedural matters not herein provided.

(H) Notices of intervention and petitions to intervene in the complaint proceeding may be filed with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before August 30, 1973, in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.37).

By the Commission.

[SEAL] MARY B. KIDD, *Acting Secretary.*

[FR Doc.73–16564 Filed 8–9–73;8:45 am]

[1] The tariff sheets contained Transwestern's proposed curtailment plan reflecting priorities for service during curtailment consistent with our Statement of Policy issued in Docket No. R–469.

[2] By notice issued July 11, 1973, the time for filings the data was extended to September 24, 1973.

[3] We will grant the motions since such action will neither delay the determination of this proceeding nor adversely affect any party to this proceeding. However, the finding will be accepted and treated as motions for reconsideration.

[4] California's further argument on the application of the Natural Environmental Policy Act in curtailment proceedings was refuted by the Commission in its order issued August 22, 1972, in El Paso Natural Gas Company, Docket No. RP72–6.

[Docket No. CP74–24]

TRANSWESTERN PIPELINE CO. AND NORTHERN NATURAL GAS CO.

Notice of Application

AUGUST 1, 1973.

Take notice that on July 25, 1973, Transwestern Pipeline Co. (Transwestern), P.O. Box 2521, Houston, Texas 77001, and Northern Natural Gas Co. (Northern), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP74–24 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of pipeline and appurtenant facilities and the transportation and processing of raw gas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is stated that Northern has quantities of raw gas in excess of the present treating capacity at its Lockridge Plant and that Transwestern has periodic excess capacity at its Pyote Treating Plant, all located in Ward County, Texas. It is proposed that Transwestern receive at a new point of interconnection on the Worsham 10-inch pipeline volumes of raw gas from Northern for treatment on a best efforts basis. Transwestern would then redeliver residue gas in quantities equivalent to 96 percent of the amount of delivered raw gas to Northern at a delivery point on the West 21-inch pipeline in Ward County. Northern would be charged 2.0 cents per Mcf of the residue gas redelivered to it. Applicants' state that any variances in deliveries and redeliveries would be balanced as soon as practicable.

To facilitate the proposed treatment and transportation of gas, Northern proposes to construct, operate and own approximately 600 feet of 8-inch pipeline and appurtenant metering and regulating facilities and to reimburse Transwestern for the cost of any new facilities necessary for the proposed transportation and treatment of gas. Applicants estimate the total cost of the proposed facilities to be $51,000 which Northern would finance from available funds.

The purpose of this proposal is to make additional volumes of gas available to Northern during the upcoming heating season which otherwise would not be available.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 27, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the Protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a

V 38-154 AUG 10 73 XUM

petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

MARY B. KIDD,
Acting Secretary.

[Docket No. CP74-18]

UNITED GAS PIPE LINE CO.

Notice Denying Request To Reset Date of Prehearing Conference

AUGUST 3, 1973.

On July 31, 1973, United Gas Pipe Line Company filed a motion to reset the date of the prehearing conference in the above designated matter. The prehearing conference was scheduled for August 6, 1973, by order issued July 20, 1973.

Upon consideration, notice is hereby given that the above motion is denied.

MARY B. KIDD,
Acting Secretary.

[Project No. 108—Wisconsin]

NORTHERN STATES POWER CO.

Notice of Availability of Environmental Statement for Inspection

Notice is hereby given that on August 2, 1973, as required by the Commission rules and regulations under Order 415–C, issued December 18, 1972, a final environmental statement prepared by the Commission's staff pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 (Public Law 91–100) was placed in the public files of the Federal Power Commission. This statement deals with the environmental impact of an application for a new major license filed pursuant to the Federal Power Act for Chippewa Reservoir Project No. 108 located on the Chippewa River in Sawyer County, Wis. The original license for the project expired on August 7, 1971, and the project is presently being operated under an annual license. The project is located partly on Tribal lands of the Lac Court Orielles Indian Reservation and lands of the United States.

This statement is available for public inspection in the Commission's Office of Public Information, Room 1000, 825 North Capitol Street NE., Washington, D.C. 20426 and its Chicago Regional Office. Copies of this statement are being provided to interested Federal, Regional, State, and local Agencies, and to all parties of record in the proceeding. Copies will be available from the National Technical Information Service, Department of Commerce, Springfield, Va. 22151.

The Chippewa Reservoir Project consists of: (1) A dam about 1,290 feet long and about 45 feet high (2) Chippewa Reservoir which impounds 223,000 acre-feet of useable storage capacity with about 15,800 acres of water surface area at normal full pool elevation 1313.0 (m.s.l.); and (3) all other facilities and interests appurtenant to operation of the project.

Chippewa Reservoir is a storage reservoir, impounded primarily for regulation of the flow of the Chippewa River for downstream hydroelectric power production. There are no generating facilities at the project.

KENNETH F. PLUMB,
Secretary.

STUDY GROUP 5 OF THE U.S. NATIONAL COMMITTEE FOR THE INTERNATIONAL RADIO CONSULTATIVE COMMITTEE (CCIR)

Notice of Meeting

The Department of State announces that Study Group 5 of the U.S. National Committee for the International Radio Consultative Committe (CCIR) will meet on August 20, 1973, in Room 1103, Radio Building, Department of Commerce Laboratories, Boulder, Colorado. The meeting will be held in two sessions commencing at 3:00 p.m. and 7:00 p.m., respectively.

Study Group 5 deals with matters relating to the propagation of radio waves (including radio noise) at the surface of the earth, through the non-ionized regions of the earth's atmosphere, and in space where the effect of ionization is negligible. The meeting on August 20 will consider new draft texts which are proposed as U.S. contributions to the International meeting of Study Group 5 in 1974.

Members of the general public who desire to attend the meeting on August 20 will be admitted up to the limits of the capacity of the meeting room.

GORDON L. HUFFCUTT,
Chairman,
U.S. CCIR National Committee.

METAL PUNCHING MACHINES, SINGLE-END TYPE, MANUALLY OPERATED, FROM JAPAN

Antidumping; Withholding of Appraisement Notice

AUGUST 6, 1973.

Information was received on January 23, 1973, that metal punching machines, single-end type, manually operated, from Japan were being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). This information was the subject of an "Antidumping Proceeding Notice" which was published in the FEDERAL REGISTER of February 26, 1973, on page 5195. The "Antidumping Proceeding Notice" indicated that there was evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Pursuant to section 201(b) of the Act (19 U.S.C. 160(b)), notice is hereby given that there are reasonable grounds to believe or suspect that the purchase price (section 203 of the Act; 19 U.S.C. 162) of metal punching machines, single-end type, manually operated, from Japan is less, or likely to be less, than the foreign market value (section 205 of the Act; 19 U.S.C. 164).

Statement of reasons. Information currently before the U.S. Customs Service tends to indicate that the probable basis of comparison for fair value purposes will be between purchase price and the adjusted home market price of such or similar merchandise.

Purchase price will probably be calculated on the basis of a c.i.f. price, with deductions for inland freight, forwarding fees, ocean freight and marine insurance.

Home market price will probably be calculated on the basis of a delivered price with deductions for inland freight and delivery charges. Adjustments probably will be made for testing and after-sales service, customer training, differences in the merchandise and in packing, as appropriate. Adjustments probably will also be made for differences in the level of trade, as appropriate.

Using the above criteria, there are reasonable grounds to believe or suspect that purchase price will be lower than the adjusted home market price.

Customs officers are being directed to withhold appraisement of metal punching machines, single-end type, manually operated, from Japan in accordance with § 153.48, Customs Regulations (19 CFR 153.48).

In accordance with §§ 153.32(b) and 153.37, Customs Regulations (19 CFR 153.32(b), 153.37), interested persons may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any requests that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 2100 K Street NW., Washington, D.C. 20229, in time to be received by his office on or before August 20, 1973. Such requests must be accompanied by a statement outlining the issues wished to be discussed.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received by his office on or before September 10, 1973.

This notice, which is published pursuant to § 153.34(b), Customs Regulations (19 CFR 153.34(b)), shall become effective upon publication in the FEDERAL REGISTER. It shall cease to be effective at the expiration of 6 months from the date of this publication, unless previously revoked.

[SEAL] EDWARD L. MORGAN,
Assistant Secretary of the Treasury.

[FR Doc.73-16578 Filed 8-9-73;8:45 am]

UPHOLSTERY SPRING WIRE OF COILING AND KNOTTING QUALITY FROM JAPAN

Tentative Discontinuance of Antidumping Investigation

AUGUST 6, 1973.

Information was received on March 12, 1973, that upholstery spring wire of coiling and knotting quality from Japan was being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). This information was the subject of an "Antidumping Proceeding Notice" which was published in the FEDERAL REGISTER of April 12, 1973, on page 9242.

I hereby announce a tentative discontinuance of the antidumping investigation concerning upholstery spring wire of coiling and knotting quality from Japan.

Statement of reasons on which this notice of tentative discontinuance of antidumping investigation is based. All known Japanese exporters of upholstery spring wire of coiling and knotting quality have furnished formal assurances that they have terminated sales to the United States, and that sales shall not be resumed.

The facts recited above constitute evidence warranting the discontinuance of this investigation.

Interested persons may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any requests that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 2100 K Street NW., Washington, D.C. 20229, in time to be received by his office on or before August 20, 1973. Such requests must be accompanied by a statement outlining the issues wished to be discussed.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received by his office on or before September 10, 1973.

Unless persuasive evidence or argument to the contrary is presented pursuant to the preceding paragraphs, a final notice will be published discontinuing the investigation.

This notice of tentative discontinuance of antidumping investigation is published pursuant to § 153.15(b) of the Customs Regulations (19 CFR 153.15(b)).

[SEAL] EDWARD L. MORGAN,
Assistant Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

STATE DIRECTORS AND BLM DIRECTORS—BIFC

Delegation of Authority

Delegation of authority Bureau of Land Management, Associate Director, delegates procurement authority to State Directors and BLM Director-BIFC (excluding the Director-Eastern States Office)—effective on August 10, 1973. State Directors and BLM Director-BIFC (excluding the Director-Eastern States Office).

1. Negotiated contracts may enter into contracts pursuant to section 302(c)(2) of the Federal Property and Administrative Services Act, regardless of amount. This authority is to be used for rental of equipment and aircraft and for procurement of supplies and services required for emergency fire suppression and presuppression, where the order exceeds $2,500.

2. Open market purchases may enter into contracts pursuant to section 302(c)(3) of the Federal Property and Administrative Services Act, for supplies, services, and rental of equipment and aircraft not to exceed $2,500 per transaction; and for construction not to exceed $2,000 per transaction; provided that the requirement is not available from established sources of supply.

3. Established sources of supply may procure supplies and services available from established sources of supply regardless of amount.

4. Capitalized property may enter into contracts, under authority of subparagraphs 1. 2, or 3 above, as appropriate, for purchase of capitalized property.

If the purchase is to be charged to fire suppression funds, or if the item is not included in an approved equipment budget, prior approval of purchase by the Assistant Director, Administration is required. This authority may be exercised only in a true emergency situation such as for immediate use in suppression of active fires and delivery for use on that fire is attainable.

The authority granted above may be redelegated.

GEORGE L. TURCOTT,
Associate Director.

Geological Survey

SAN JUAN RIVER BASIN, COLORADO

Power Site Cancellation 320

Pursuant to authority under the Act of March 3, 1879 (20 Stat. 394; 43 U.S.C. 31), and 220 Departmental Manual 6.1, Power Site Classification 219 and 357 are hereby canceled to the extent that they affect the following described land:

NEW MEXICO PRINCIPAL MERIDIAN, COLORADO

Power Site Classification 219 as of May 13, 1929:

T. 39 N., R. 4 W. (unsurveyed)
All lands adjacent to Los Pinos River lying below an altitude of 10,000 feet above sea level as shown on United States Geological Survey topographic map San Cristobal quadrangle. Protraction of public land surveys indicates that the land described, when surveyed, will be wholly within the W½ of township.

T. 37 N., R. 5 W.,
Sec. 3, Unsurveyed NW¼ and NW¼SW¼;
Sec. 4, lots 7 and 8, S½N½ and S½;
Sec. 8, NE¼SE¼ and SW¼SE¼;
Sec. 9, W½NE¼, NW¼, and SE¼SW¼;
Sec. 16, NW¼NW¼;
Sec. 17, SE¼NE¼, SE¼NW¼, NE¼SE¼, and SW¼SE¼;
Sec. 18, NE¼SE¼ and SW¼SE¼;
Sec. 19, SE¼NE¼, NE¼SW¼, and NW¼SE¼.

T. 38 N., R. 5 W. (unsurveyed)
All lands adjacent to Los Pinos River and Lake Fork lying below an altitude of 10,050 feet above sea level as shown on United States Geological Survey topographic map San Cristobal quadrangle.

T. 37 N., R. 6 W.,
Sec. 13, SE¼NE¼, SE¼SW¼, N½SE¼, and SW¼SE¼;
Sec. 24, E½NW¼.

T. 39 N., R. 7 W.,
Sec. 5, lots 1, 2, and 3, S½NW¼ and NW¼SW¼.

The area described aggregates approximately 7900 acres. Power Site Classification 357 of October 24, 1944:

T. 37 N., R. 5 W.,
Sec. 4, lots 5 and 6;
Sec. 5, lots 1 and 2, and S½NE¼.
The area described aggregates 238.18 acres.
The total land described in this notice aggregates about 8138 acres.

The effective date of this cancellation is December 6, 1973.

HENRY W. COULTER,
Acting Director.

AUGUST 6, 1973.

National Park Service

BIG BEN NATIONAL PARK

Notice of Intention To Extend Concession Contract

Pursuant to the provisions of section 5 of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that on September 6, 1973, the Department of the Interior, through the Director of the National Park Service, proposes to extend the concession contract with Gilbert C. Youngdoff authorizing him to continue to provide concession facilities and services for the public within Big Bend National Park for a period of two (2) years from January 1, 1974, through December 31, 1975.

The foregoing concessioner has performed his obligations under the expiring contract to the satisfaction of the National Park Service, and therefore, pursuant to the Act cited above, is entitled to be given preference in the renewal of the contract and in the negotiation of a new contract. However, under the Act cited above, the Secretary is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted on or before September 10, 1973.

Interested parties should contact the Chief of Concessions Management, National Park Service, Washington, D.C. 20240, for information as to the requirements of the proposed contract.

Dated August 3, 1973.

JOSEPH C. RUMBURG,
Deputy Associate Director, National Park Service.

GREAT SMOKY MOUNTAINS NATIONAL PARK, NORTH CAROLINA-TENNESSEE

Intention To Issue Concession Permit

Pursuant to the provisions of section 5 of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that on September 6, 1973, the Department of the Interior, through the Superintendent, Great Smoky Mountains National Park, proposes to issue a concession permit to Glen R. McHan, authorizing him to provide and sell merchandise for the public in the Smokemont public campground, for a period of 5 years from January 1, 1974, through December 31, 1978.

The foregoing concessioner has performed his obligations under a prior permit to the satisfaction of the National Park Service and, therefore, pursuant to the Act cited above, is entitled to be given preference in the renewal of the permit and in the negotiation of a new permit. However, under the Act cited above, the National Park Service is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted within thirty (30) days after publication date of this notice.

Interested parties should contact the Superintendent, Great Smoky Mountains National Park, Gatlinburg, Tennessee 37738, for information as to the requirements of the proposed permit.

VINCENT ELLIS,
Superintendent, Great Smoky Mountains National Park.

DEPARTMENT OF AGRICULTURE

Forest Service

REGION 4; MANTI-LASAL NATIONAL FOREST; MANTI DIVISION G-10 ADVISORY BOARD

Notice of Meeting

The Manti Division Regulation G-10 Advisory Board will hold a summer tour and meeting on August 29 and 30, 1973.

The two-day tour will leave from Majors Flat, 10 miles east of Ephraim, on Utah State Highway No. 29 at 10:00 a.m. on Wednesday, August 29.

This meeting is being held to review various range livestock allotments and to see portions of the Ferron P.L. 566 watershed project. A short formal business meeting will be held to discuss such topics as the Board members or Chairman believe desirable.

The meeting will be open to the public. To the extent time permits, persons may be permitted to comment on topics brought before the Board at anytime during the discussion.

Persons desiring additional detailed information regarding food and lodging necessary on the tour should contact Forest Supervisor George McLaughlin, Manti-LaSal National Forest, 350 East Main Street, Price, Utah 84501.

Dated: August 1, 1973.

GEORGE F. MCLAUGHLIN,
Forest Supervisor.

COMPUTER PERIPHERALS, COMPONENTS AND RELATED TEST EQUIPMENT TECHNICAL ADVISORY COMMITTEE

Notice of Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463), notice is hereby given that a public meeting of the Memory Equipment Subcommittee of the Computer Peripherals, Components, and Related Test Equipment Technical Advisory Committee will be held Thursday, August 16, 1973, at 9 a.m. in the Building 4 Conference Room at Electronic Memories Corporation, 12621 Chadron, Hawthorne, California.

Members advise the Office of Export Control, Bureau of East-West Trade, with respect to questions involving technical matters, worldwide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to computer peripherals, components, and related test equipment, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

Agenda items are as follows:

1. Discussion of the product areas to be considered, and assignment of work programs.
2. Discussion of source document information.
3. Discussion of scope and content of report to be generated.
4. Discussion of criteria of production parameters for export control.
5. Further discussions that illustrate classes of equipment for which major applications are commercial as determined by the pattern of use in U.S.A. trade.

The meeting will be open to the public. To the extent time permits, members of the public may present oral statements to the committee. Interested persons also are invited to file written statements with the committee.

Further information may be obtained from Philip A. Harding, Chairman of the subgroup and General Manager, Electronic Memories, 12621 Chadron Avenue, Hawthorne, California 90250 (A/C 213—644-9881). Minutes of the meeting will be available 30 days from the date of the meeting upon written request addressed to Central Reference and Records Inspection Facility, U.S. Department of Commerce, Washington, D.C. 20230.

Dated: August 7, 1973.

JOHN T. CONNOR, Jr.,
Acting Director, Bureau of East-West Trade, U.S. Department of Commerce.

COMPUTER PERIPHERALS, COMPONENTS AND RELATED TEST EQUIPMENT TECHNICAL ADVISORY COMMITTEE

Notice of Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463), notice is hereby given that a public meeting of the Input/Output Equipment Subgroup of the Computer Peripherals, Components, and Related Test Equipment Technical Advisory Committee will be held Wednesday, August 15, 1973, at 10:00 a.m. in the main conference room at Data Products Corporation, 6219 DeSoto Avenue, Woodland Hills, California.

Members advise the Office of Export Control, Bureau of East-West Trade, with respect to questions involving technical matters, worldwide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to computer peripherals, components, and related test equipment, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

Agenda items are as follows:

1. Discussion of the product areas to be considered and assignment of work programs.
2. Discusion of source document information.
3. Discussion of scope and content of reports.
   a. Foreign availability
   b. End use patterns
   c. Export of hardware
   d. Export of technology.
4. Discussion of methodology and format for reports.
   a. Historical review and future trends of performance, cost and technology.
   b. Historical review and future trends of population statistics and use patterns.
   c. Impact of technology on use patterns—Example, Key-tape availability affecting punched card use.
5. Discussion of criteria of product parameters for export control.

The meeting will be open to the public. To the extent time permits, members of the public may present oral statements to the committee. Interested persons also are invited to file written statements with the committee.

Further information may be obtained from Irving L. Wieselman, Chairman of the subgroup and Vice President, Product Programs, Data Products Corporation, 6219 DeSoto Avenue, Woodland Hills, California 91364 (A/C 213 + 887-8000).

Minutes of the meeting will be available 30 days from the date of the meeting upon written request addressed to Central Reference and Records Inspection Facility, U.S. Department of Commerce, Washington, D.C. 20230.

Dated: August 7, 1973.

JOHN T. CONNOR, Jr.,
Acting Director, Bureau of East-West Trade, U.S. Department of Commerce.

WASHINGTON UNIVERSITY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 73-00494-33-46040. Applicant: Washington University, School of Medicine, Department of Psychiatry, 4940 Audubon Avenue, St. Louis, Mo. 63110. Article: Electron microscope, JEM-100B. Manufacturer: JEOL, Ltd., Japan. Intended use of article: The article is intended to be used to study experimentally induced neuropathological conditions in brains of fetal and infant animals, for optimal interpretation of lesions induced in developing brain. In addition, the article will be used to teach residents and postgraduate research fellows the techniques of research cited above.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides a continuous magnification from 90 to 500,000 magnifications, without changing the polepiece. The most closely comparable domestic instrument is the Model EMU-4C manufactured by the Forgflo Corp. The Model EMU-4C, with its standard polepiece, has a specified range from 1,400 to 240,000 magnifications. For survey and scanning, the lower end of this range can be reduced to 200 magnifications or less. But the continued reduction of magnification induces an increasingly greater distortion. The domestic manufacturer suggests in its literature on the Model EMU-4C that for highest quality, low magnification electron micrographs in the magnification range between 500 and 70,000 magnifications, and optional low magnification polepiece should be used. Changing the polepiece on the Model EMU-4C re-

V 38-154 AUG 10 73 XUM

quires a break in the vacuum of the column. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated July 13, 1973 that the applicant requires the capability of taking high-quality micrographs at low magnifications in order to achieve the purposes for which the article is intended to be used. The Department of Health, Education, and Welfare (HEW) further advises that breaking the vacuum in the column induces the danger of contamination which would very likely lead to the failure of the experiment. Therefore, the capability of moving from 90 to 500,000 magnifications without changing polepieces, while at the same time providing high-quality micrographs at low magnifications is considered to be a pertinent characteristic. For these reasons, we find that the Model EMU-4C is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director, Special Import Programs Division.

Maritime Administration

CENTRAL GULF LINES

Construction of Six 380,000 DWT Tankers; Amended Application for Construction Differential Subsidy; Notice of Filing

Notice is hereby given that Central Gulf Lines, Inc. has filed an amended application dated July 30, 1973, pursuant to Title V of the Merchant Marine Act 1936, as amended for a contract differential subsidy to aid in the construction of six new VLCC tankers of approximately 380,000 DWT for use in the foreign commerce of the United States. It is proposed that the vessels be constructed by Todd Shipyards Corporation at Galveston Texas.

Any interested parties may inspect this amended application in the Office of the Secretary, Room 3099B, Maritime Administration, Commerce Department Building, 14th and E Streets, NW., Washington, D.C. 20235.

Dated: August 6, 1973.

By order of the Maritime Subsidy Board, Maritime Administration.

JAMES S. DAWSON, Jr.,
Secretary.

[Docket No. S-380]

CHESTNUT SHIPPING CO.

Notice of Application

Notice is hereby given that Chestnut Shipping Company has filed an application dated July 9, 1973, under the Merchant Marine Act of 1936, as amended, for operating-differential subsidy on two O/B/O vessels (to be constructed) which are to be employed in U.S. foreign trade. Inasmuch as affiliated companies of Chestnut Shipping Company own and/or operate U.S. flag tankers which from time to time may operate in domestic intercoastal or coastwise trade, written permission of the Maritime Administration under section 805(a) of the Merchant Marine Act, 1936, as amended, will be required by Chestnut Shipping Company if its application for operating-differential subsidy is approved.

Chestnut Shipping Company (Chestnut) advises that companies which are affiliated or associated with it own or operate a total of up to 31 U.S. flag vessels. Chestnut, accordingly, requests permission in its operating-differential subsidy contract for the transportation of liquid bulk cargoes within and between the following coastal areas with free interchange of the vessels among these various domestic trades. The following list shows the maximum number of vessels to be employed in each Domestic Trade at any one time:

U.S. Gulf-Atlantic Coastwise	17 vessels
U.S. Gulf-Atlantic-Puerto Rico	2 vessels
U.S. Atlantic-Gulf Intercoastal (including Alaska and Hawaii)	5 vessels
Pacific Coast-Alaska-Hawaii	10 vessels

As information the following U.S. flag tankers are owned, managed, or operated by Chestnut's affiliates:

Chancellorsville	Spirit of Liberty
Perryville	Catawba Ford
Shenandoah	Keytanker
Fort Fetterman	Keystoner
Julesburg	Keytrader
Birch Coulie	Valley Forge
Santa Clara	Golden Gate
Gaines Mill	Edgar M. Queeny
Mill Spring	Sinclair Texas
Northfield	David E. Day
Tullahoma	Mobile Gas
Meadowbrook	Mobile Power
Sandy Lake	Mobile Fuel
Monmouth	

Interested parties may inspect this application in the Office of Subsidy Administration, Maritime Administration, Room No. 4888, Department of Commerce Building, Fourteenth & E Streets NW, Washington, D.C. 20230.

Any person, firm or corporation having interest (within the meaning of section 805(a)) in such application and desiring to be heard on issues pertinent to section 805(a) or desiring to submit comments or views concerning the application must, by close of business August 22, 1973, file same with the Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Administration will take such action as may be deemed appropriate.

In the event petitions regarding the relevant section 805(a) issues are received from parties with standing to be heard, a hearing has been tentatively scheduled for 10 a.m. on August 24, 1973, in Room 4896 Department of Commerce Building, Fourteenth & E Streets NW., Washington, D.C. 20230. The purpose of the hearing will be to receive evidence under section 805(a) relative to whether the proposed operation (a) could result in unfair competition to any person, firm, or corporation operating exclusively in the coastwise or intercoastal services, or (b) would be prejudicial to the objects and policy of the Act relative to domestic trade operations.

By order of the Maritime Administration.

Dated: August 6, 1973.

JAMES S. DAWSON, Jr.,
Secretary.

[Docket No. S-379]

MOORE-McCORMACK BULK TRANSPORT, INC.

Notice of Application

Notice is hereby given that Moore-McCormack Bulk Transport, Inc. (Bulk Transport) has filed an application under the Merchant Marine Act of 1936, as amended (the Act) for operating-differential subsidy with respect to operation of three (3) 38,300 deadweight ton tankers in worldwide tanker trades. Bulk Transport is a wholly-owned subsidiary of Moore and McCormack Co., Inc. which is related by and through Moore-McCormack Lines, Incorporated to The Interlake Steamship Company. The Interlake Steamship Company owns and Pickands Mather & Company, a subsidiary of Moore and McCormack Co., Inc., operates under a Managing Agency Agreement, 13 dry bulk cargo ships in domestic service on the Great Lakes.

Accordingly, Bulk Transport requires written permission under section 805(a) of the Act so that Moore and McCormack Co., Inc. and its subsidiary Pickands Mather & Company, and Moore-McCormack Lines, Incorporated and its subsidiary The Interlake Steamship Company may continue (a) to own, charter, and operate dry bulk cargo ships as contract carriers in the domestic trade between United States ports on the Great Lakes, and (b) to own, a pecuniary interest, directly or indirectly, in a person or concern that owns or charters, and operates dry bulk cargo ships as contract carriers in the domestic trade between United States ports on the Great Lakes, and (c) for Messrs. Barker and Tregurtha to be directors, and Messrs. Hoyt and McInnes to be officers and directors of The Interlake Steamship Company.

The 13 dry bulk cargo ships owned by The Interlake Steamship Company are listed below:

Frank Armstrong	Samuel Mather
Charles M. Beeghly	J. L. Mauthe
Harry Coulby	Col. James Pickands
E. G. Grace	Charles M. Schwab
Robert Hobson	John Sherwin
Elton Hoyt 2nd	Walter E. Watson
Herbert C. Jackson	

Interested parties may inspect this application in the Office of The Secretary, Maritime Administration, Department of Commerce Building, Fourteenth & E Streets, NW., Washington, D.C. 20230.

Any person, firm or corporation having any interest (within the meaning of section 805(a)) in the application and desiring to be heard on issues pertinent to section 805(a) or desiring to submit comments or views concerning the application must, by close of business August 22, 1973, file same with the Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Administration will take such action as may be deemed appropriate.

In the event petitions regarding the relevant section 805(a) issues are received from parties with standing to be heard, a hearing has been tentatively scheduled for 10 a.m., August 24, 1973, in Room 4896 Department of Commerce Building, Fourteenth & E Streets, NW., Washington, D.C. 20230. The purpose of the hearing will be to receive evidence under section 805(a) relative to whether the proposed operation (a) could result in unfair competition to any person, firm or corporation operating exclusively in the coastwise or intercoastal services, or (b) would be prejudicial to the objects and policy of the Act.

By order of the Maritime Administration.

Dated: August 6, 1973.

JAMES S. DAWSON, Jr.,
Secretary.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Health Resources Administration

U.S. NATIONAL COMMITTEE ON VITAL AND HEALTH STATISTICS AND HEALTH SERVICES RESEARCH TRAINING COMMITTEE

Notice of Renewals

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Public Law 92-463, 86 Stat. 770-776) the Health Resources Administration announces the approval of renewal by the Secretary DHEW, on June 30, 1973, with concurrence by the Office of Management and Budget Committee Management Secretariat, of the following advisory committees:

Designation: U.S. National Committee on Vital and Health Statistics.

Purpose: Advises the Administrator, Health Resources Administration on the formulation of the United States policy regarding the development of vital and health statistics for national and international use. Cooperates with similar committees in other countries in the study of mutual problems. Works through subcommittees appointed to deal with specific questions and with other organizations cooperating voluntarily with the Committee.

Designation: Health Services Research Training Committee.

Purpose: The Committee advises and makes recommendations to the Director, National Center for Health Services Research and Development, on health services training. It performs the initial review of research training grant applications relating to the programs administered by the national center for Health Services Research and Development and makes recommendations to the National Advisory Health Services Council and the Federal Hospital Council; it also functions as the sole review body for health services research fellowship applications. As scientific leaders, members survey the status of training in their fields to determine areas in which research training activities should be initiated or expanded.

Authority for these committees will expire June 30, 1975, unless the Secretary, DHEW, with the concurrence of the Office of Management and Budget Committee Management Secretariat, formally determines that continuance is in the public interest.

Dated: August 6, 1973.

K. M. ENDICOTT,
Acting Administrator, Health Resources Administration.

Social Security Administration

COMMISSIONER OF SOCIAL SECURITY

Redelegations of Authority

The Assistant Secretary for Administration and Management has delegated authority to the Commissioner of Social Security to certify true copies of any books, records, papers, or other documents on file within the Social Security Administration; to certify extracts from such material; to certify the nonexistence of records on file; and to cause the Seal of the Department of Health, Education, and Welfare to be affixed to such certifications (34 FR 18049-50), dated November 7, 1969). The Commissioner of Social Security previously redelegated this authority to certain officials of the Social Security Administration, as set forth in 33 FR 2613-14, dated February 6, 1968; 34 FR 13046-47, dated August 12, 1969; and 37 FR 10602-3, dated May 25, 1972.

Notice is hereby given that the foregoing authority to make certifications and affix the Department Seal has also been redelegated to Regional Commissioners of the Social Security Administration, without authority to further redelegate. This authority applies to any books, records, papers or other documents on file within their respective regional jurisdictions. These redelegations to the Regional Commissioners are effective as of the date this General Notice thereof is published in the FEDERAL REGISTER.

Dated: August 2, 1973.

ARTHUR E. HESS,
Acting Commissioner of Social Security.

Hazardous Materials Regulations Board

SPECIAL PERMITS ISSUED

Pursuant to Docket No. HM–1, Rule-Making procedures of the Hazardous Materials Regulations Board, issued May 22, 1968 (33 FR 8277) 49 CFR 170, following is a list of new DOT Special Permits upon which Board action was completed during July 1973:

Special Permit No.	Issued to—Subject	Mode or Modes of Transportation
6778	Eaton Corporation, Troy, Michigan, to ship a compressed inert gas mixture in steel pressure vessels (toroidal shaped) complying with DOT Specification 39 with certain exceptions.	Highway, Rail Cargo-only Aircraft, Cargo Vessel.
6779	Shippers registered with this Board to ship perchloromethyl mercaptan in monel clad DOT Specification 51 portable tanks.	Highway.
6780	Shippers registered with this Board to ship petroleum naphtha inside metal cans packed in fiberboard boxes complying with DOT Specification 12B with certain exceptions.	Highway, Rail.
6781	Shippers registered with this Board to ship encapsulated methyl parathion (Pencap M) in DOT Specification 34 polyethylene containers.	Highway.
6782	Shippers registered with this Board to ship cryogenic refrigerators, containing gaseous helium, described as "Refrigerating Machines".	Highway, Passenger-Carrying Aircraft.
6783	Shippers registered with this Board to ship carbon tetrabromide in 60% weight solution with cyclohexane in DOT Specification 17C steel drums equipped with liner.	Highway, Rail Cargo Vessel.
6784	Diamond Shamrock Chemical Co., Cleveland, Ohio and the Essex Chemical Corporation to ship chromic acid in non-DOT specification steel drums in compliance with DOT Specification 37A, except for marking.	Highway, Rail.
6785	Shippers registered with this Board to ship certain corrosive liquids, n.o.s. in Specification MC 310, MC 311, or MC 312 tank motor vehicles.	Highway.
6788	Shippers registered with this Board to ship certain flammable solids in DOT Specification 56 portable tanks.	Highway.
6789	Shippers registered with this Board to ship sodium percarbonate in multiwall natural kraft paper bags, with liner, not exceeding 100 pounds net weight each.	Highway, Rail.
6791	Shippers registered with this Board to ship hexamethylenimine solution in DOT Specification MC 312 or MC 311 tank motor vehicles having stainless steel cargo tanks.	Highway.
6794	FCX Incorporated, Raleigh, N.C. to ship certain liquids in the organic phosphate family in a non-DOT specification tank motor vehicle (twin tanks) constructed in accordance with the ASME Code.	Highway.

Denied—Subject

1. Request by Pennwalt Corporation, Philadelphia, Pa. to ship vinylidene fluoride in a modified DOT Specification 51 portable tank.

ALAN I. ROBERTS,
Secretary.

ATOMIC ENERGY COMMISSION

[Docket Nos. 50–282, 50–306]

NORTHERN STATES POWER CO.

Notice of Prehearing Conference

Notice is hereby given that the Atomic Safety and Licensing Board will hold a prehearing conference in this proceeding on August 16, 1973, at 10:00 a.m. local time, in Courtroom No. 2, U.S. Federal Courthouse, 316 North Roberts Street, St. Paul, Minnesota 55101. The parties should be prepared at this conference to offer such argument on submitted contentions and pending motions as the Board may require.

Members of the public may attend this prehearing conference as well as the evidentiary hearing which will be held at a later time to be fixed by the Board. However, members of the public who may wish to participate in the proceeding by way of limited appearances will not be permitted to do so at the prehearing conference. Oral or written statements offered by way of limited appearances will be received by the Board at the time of the aforementioned evidentiary hearing.

Issued at Washington, D.C., this 7th day of August 1973.

It is so ordered.

ATOMIC SAFETY AND LICENSING BOARD,
EDWARD LUTON, *Chairman.*

[FR Doc.73–16663 Filed 8–9–73;8:45 am]

[Docket Nos. 50–438 and 50–439]

TENNESSEE VALLEY AUTHORITY

Notice of Receipt of Application for Construction Permits and Facility Licenses and Availability of Applicant's Draft Environmental Statement: Time for Submission of Views on Antitrust Matter

The Tennessee Valley Authority (the applicant), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, has filed an application, which was docketed June 21, 1973, for authorization to construct and operate two generating units utilizing pressurized water nuclear reactors. The application was tendered on May 14, 1973. Following a preliminary review for completeness, it was accepted on June 14, 1973 for docketing.

The proposed nuclear facility, designated by the applicant as the Bellefonte Nuclear Plant, Units 1 and 2, is located at the Bellefonte site in Jackson County, Alabama, approximately six miles northeast of Scottsboro, Alabama. Each unit is designed for initial operation at a core power level of 3413 megawatts (thermal), and a gross electrical output of 1329 megawatts.

A Notice of Hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust aspects of the application presented to the Attorney General for consideration shall submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before September 4, 1973. The request should be filed in connection with Docket Nos. 50–438–A and 50–439–A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20545, and at the Scottsboro Public Library, 1002 South Broad Street, Scottsboro, Alabama 35768.

The applicant has also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in Appendix D to 10 CFR Part 50, a Draft Environmental Statement (in lieu of an environmental report) since TVA like other Federal agencies is subject to the requirements of Section 102 of the National Environmental Policy Act of 1969. The Statement (report) has been made available for public inspection at the aforementioned locations. The Statement, which discusses environmental considerations related to the proposed construction of the Bellefonte Nuclear Plant, Units 1 and 2, is also being made available at the Alabama Development Office, State Office Building, Montgomery, Alabama 36104 and Top of Alabama Regional Council of Governments, P.O. Box 308, City Hall 6th Floor, Huntsville, Alabama 35801.

After TVA's Statement has been analyzed by the Commission's Director of Regulation or his designee, an AEC Draft Environmental Statement will be prepared in accordance with the Commission's procedures in Appendix D to 10 CFR Part 50. Upon preparation of the AEC Statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of its availability requesting comments from interested persons. The summary notice will also state that comments of Federal agencies and State and local officials on the AEC Statement will be made available when received.

Dated at Bethesda, Maryland, this 23rd day of July 1973.

For the Atomic Energy Commission.

A. SCHWENCER,
Chief, Pressurized Water Reactors Branch No. 4 Directorate of Licensing.

[Dockets Nos. 50–438 and 50–439]

TENNESSEE VALLEY AUTHORITY

Establishment of Atomic Safety and Licensing Board

On August 3, 1973, the Commission published in the FEDERAL REGISTER, 38 FR 20932, a notice of hearing to consider the applications filed by the Tennessee Valley Authority for construction permits for the Bellefonte Nuclear Plant, Units 1 and 2. The notice indicated that the Safety and Licensing Board for this proceeding would be designated at a later date, and that notice of its membership would be published in the FEDERAL REGISTER.

Pursuant to the Atomic Energy Act of 1954, as amended, the regulations of Title 10, Code of Federal Regulations, Part 2 (Rules of Practice) and the notice of hearing referred to above, notice is hereby given that the Safety and Licensing Board in this proceeding will consist of Mr. Glenn O. Bright, Dr. E. Leonard Cheatum and Elizabeth S. Bowers, Esq., Chairman. Dr. John H. Manley has been designated as a technically qualified alternate and Hugh K. Clark, Esq., has been designated as an alternate qualified in the conduct of administrative proceedings.

The positions and mailing addresses of the Board members are as follows:

1. Elizabeth S. Bowers, Esq., Chairman, an attorney member of the Atomic Safety and Licensing Board Panel, U.S. Atomic Energy Commission, Washington, D.C. 20545.

2. Mr. Glenn O. Bright, a technical member of the Atomic Safety and Licensing Board Panel, U.S. Atomic Energy Commission, Washington, D.C. 20545.

3. Dr. E. Leonard Cheatum, Director, Institute of National Resources, University of Georgia, Athens, Ga. 30601.

4. Hugh K. Clark, Esq., Alternate Chairman, P.O. Box 127A, Kennedyville, Md. 21645.

5. Dr. John H. Manley, Alternate, Box 417, Rural Route 1, Espanola, N. Mex. 87532.

As provided in the notice of hearing, the date and place of a prehearing conference and of a hearing will be scheduled by the Board and will be published in the FEDERAL REGISTER.

Dated at Washington, D.C., this 6th day of August 1973.

NATHANIEL H. GOODRICH,
Chairman, Atomic Safety and Licensing Board Panel.

CIVIL AERONAUTICS BOARD

[Docket No. 23045; Order 73–8–32]

BUSINESS JETS, PTY., LTD.

Statement of Tentative Findings and Conclusions and Order To Show Cause Regarding Cancellation of Foreign Air Carrier Permit

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 7th day of August 1973.

By Order 71–7–31, dated June 15, 1971, and approved by the President on July 1, 1971, the Board issued a permit to Business Jets, Pty., Ltd., authorizing the carrier, for a period of five years or until its wet-lease agreement with Air Nauru terminated, whichever occurred first, to engage in foreign air transportation of persons, property, and mail between a point or points in the Republic of Nauru and the terminal point Majuro, Marshall Islands, Trust Territory of the Pacific Islands, such authority limited to transportation performed pursuant to a wet-lease agreement between the carrier and Air Nauru.

Air Nauru has filed a petition requesting termination of Business Jets' permit on the grounds that the wet-lease agreement between Business Jets and Air Nauru has been terminated and that Air Nauru now operates its own aircraft and employs its own crew.

Based upon the foregoing, the Board tentatively finds that it should issue a notice that the foreign air carrier permit now held by Business Jets, Pty., Ltd. has terminated, and that, unless objections are received within 20 days from the date of service of this order, the Board should make such tentative findings final.

Accordingly, it is ordered:

1. That all interested persons are directed to show cause why the Board should not issue an order which would make final the tentative findings and conclusions herein and which would give notice that the foreign air carrier permit held by Business Jets, Pty., Ltd., has terminated;

2. That any interested person having objections to the issuance of such an order shall file with the Board a statement of objections supported by evidence within 20 days of service of this order; [1]

3. That if timely and properly supported objections are filed, further consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board;

4. That in the event no objections are filed, all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein; and

5. That Business Jets, Pty., Ltd., Air Nauru, and the Republic of Nauru shall be served copies of this order.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] PHYLLIS T. KAYLOR,
Acting Secretary.

[FR Doc.73–16620 Filed 8–9–73;8:45 am]

[1] Since provision is made for a response to this order, petitions for reconsideration of this order will not be entertained.

[Docket No. 18078; Order 73–8–31]

FLYING TIGER LINE INC.

Order Regarding Service Mail Rates for Transatlantic and Transpacific Priority Mail and Military Ordinary Mail

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 7th day of August 1973.

Order 69–12–31, dated December 5, 1969, directed all interested persons to show cause why the Board should not (1) adopt the standard mileages proposed therein for The Flying Tiger Line Inc. (FTL), and (2) delete from Order 68–9–8, dated September 4, 1968, as amended by Order 69–7–11, dated July 2, 1969, the provision which specified one standard mileage for the transportation of military ordinary mail (MOM) between certain West Coast cities [1] and Tokyo.

By a notice dated December 15, 1969, the Postmaster General (PMG) raised a technical objection to the show-cause order, while on December 1969, notices of objections to the order were filed by Northwest Airlines Inc. (Northwest), and Pan American World Airways, Inc. (Pan Am).[2]

In his notice of technical objection, the PMG opposed the proposed deletion of the common-mileage provision for the transportation of MOM between West Coast cities and Tokyo. Both Northwest and Pan Am supported the PMG's position on this point.

Northwest and Pan Am, in answers dated January 7, and January 6, 1970, respectively, opposed the proposed standard mileage of 4,828 miles for FTL between Seattle and Tokyo. They maintained that the proposed mileage did not reflect the actual operation of the service and that such a mileage would result in a rate reduction below the level

[1] San Francisco, Portland, and Seattle. The standard mileage was 4,865 miles, Northwest's standard mileage between Seattle and Tokyo.

[2] Although it had, in previous submissions, contested the mileages proposed by the show-cause order, FTL indicated in a letter dated December 15, 1969, that it would not object to Order 69–12–31 since discussions were then being held to develop circuity factors to be used in conjunction with the establishment of great-circle mileages.

V 38-154 AUG 10 73 XUM

specified in applicable mail rate orders. Northwest and Pan Am contended that, because of outstanding notices of equalization in this market, they would be forced to accept the proposed mileage in computing their compensation, and thus no carrier, not even FTL, which would become the "rate-making carrier," would be able to achieve a yield equal to the ton-mile rate contained in the rate orders.

The controversy over the establishment of the Seattle-Tokyo standard mileage for FTL is indicative of the problems involved in determining such mileages. We have since adopted a nonstop great-circle mileage basis for rate-making mileages, effective April 1, 1972,[3] which will eliminate such controversy in the future. In the course of establishing nonstop great-circle miles, it was anticipated that the FTL standard mileage problem might be resolved. Since no resolution was reached, we are ordering that a hearing be held pursuant to our Rules of Practice to establish the standard mileage for FTL between Seattle and Tokyo through March 31, 1972. However, those mileages for FTL proposed in the order to show cause which have not been contested will be finalized by this order.[4]

Finally, we have also decided, on the basis of the filed objections, not to adopt the proposal to delete from Order 68–9–8 the common-rated mileage for MOM between certain West Coast cities and Tokyo. However, since Order 68–9–8 as amended stated this common mileage in terms of Northwest's standard mileage of 4,865 between Seattle and Tokyo, we are amending Order 68–9–8 to clarify that the great-circle mileage between Seattle and Tokyo applies to the computation of compensation for the transportation of MOM, or Seattle and Tokyo effective April 1, 1972, the date of adoption of great-circle mileages.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly section 204(a) and 406 thereof, and the Board's regulations 14 CFR Part 302.

It is ordered, That:

1. Effective August 12, 1969, Order 68–9–8, as amended by Order 69–7–11, is amended by adding to page 4 of Appendix A of Order 69–7–11, the standard mileages for The Flying Tiger Line Inc. which are appended to this order.

2. Investigation of the issue of the standard mileage for The Flying Tiger Line Inc. between Seattle and Tokyo and to all points affected by this mileage for the period August 12, 1969, through March 31, 1972, shall be assigned for hearing before an Administrative Law Judge of the Board at a time and place hereafter to be designated.

3. Effective April 1, 1972, Order 68–9–8 dated September 4, 1968, as amended by Order 73–4–16, dated April 3, 1973, is further amended to provide that, for the purpose of computing the compensation for the transportation of Military Ordinary Mail between San Francisco, California, Portland, Oregon, and Seattle, Washington, on the one hand, and Tokyo, Japan, on the other, the mileage shall be based on the great-circle mileage between Seattle, Washington, and Tokyo, Japan, in lieu of the standard mileage of 4,865.

4. This order shall be served upon the Postmaster General, The Flying Tiger Line Inc., Northwest Airlines, Inc., and Pan American World Airways, Inc., which are hereby made parties to the investigation ordered to be heard by paragraph 2, and upon American Airlines, Inc., Continental Air Lines, Inc., and Trans World Airlines, Inc.

This order will be published in the FEDERAL REGISTER.[5]

By the Civil Aeronautics Board.

[FR Doc.73–16616 Filed 8–9–73;8:45 am]

[Docket No. 23333; Order 73–8–2]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Specific Commodity Rates

Issued under delegated authority August 1, 1973.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic regulations between various air carriers, foreign air carriers and other carriers, embodied in the resolutions of the Joint Traffic Conferences of the International Air Transport Association (IATA).

The agreement proposes revisions to the specific commodity rates applicable in the North Atlantic and the South Pacific areas. These revisions are outlined in the attachments hereto, and reflect both increases and reductions from the presently effective rates.

Pursuant to authority duly delegated by the Board in the Board's regulations, 14 CFR 385.14, it is not found that the subject agreement is adverse to the public interest or in violation of the Act, provided that approval is subject to the conditions hereinafter ordered.

Accordingly, it is ordered, That:

1. Agreement C.A.B. 23708 R–1 through R–3, be and hereby is approved, provided that approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publication;

2. The U.S. and foreign flag carriers may file tariffs implementing this agreement on not less than one day's notice for effectiveness not earlier than August 13, 1973; and

3. The findings and approval herein pertaining to North Atlantic specific commodity rates shall not be deemed to modify the findings and Order of the Board in its decision in Agreements Adopted by IATA Relating to North Atlantic Cargo Rates, Order 73–2–24 of February 6, 1973, as amended and finalized by Order 73–7–9 of July 5, 1973, and are subject to all provisions of such order.

Persons entitled to petition the Board for review of this order pursuant to the Board's regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.[2]

[SEAL] PHYLLIS T. KAYLOR, *Acting Secretary.*

[FR Doc.73–16618 Filed 8–9–73;8:45 am]

[Docket No. 25774; Order 73–8–26]

PAN AMERICAN WORLD AIRWAYS, INC.

Order of Investigation and Suspension Regarding Peak-Period Reservation Rule

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 6th day of August 1973.

By tariff revisions[1] marked to become effective August 8, 1973, Pan American World Airways, Inc. (Pan American) proposes to establish a rule regarding full payment for reservations for travel during the 1973/1974 Christmas/New Year, and 1974 Washington's Birthday and July 4th holiday periods in the mainland United States-Puerto Rico/Virgin Islands markets. The proposed rule would require full payment of the fare not later than two months prior to date of travel if the reservation is made more than two calendar months in advance, and full payment of the fare at the time the reservation is made if within two months of the travel date. In addition, the carrier proposes a penalty equal to 25 percent of the price of the ticket for failure to cancel a reservation at least 72 hours prior to scheduled departure.

In support of its proposal, Pan American alleges that the rule parallels that previously approved by the Board in connection with travel group charters and APEX fares. The carrier states that it has studied the four-week advance-payment requirement with which the Board has indicated it would have less trouble, but that in its judgment shortening the advance-payment requirement to less than two months would render the proposal impractical.

No complaints have been filed.

Upon consideration of the tariff filing and other relevant matters the Board concludes that the proposal may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be investigated. We further conclude that the proposal should be suspended pending investigation.

The Board previously suspended a proposal by Pan American which would have required full payment of the fare at the time the reservations are made,[2] and still another advance-reservation proposal in the northeast corridor-Florida markets.[3] In doing so, we expressed our belief that both proposals may have been unnecessarily severe and indicated our judgment that a four-week advance-payment requirement, or one which obligated the carriers to pay interest on payments required to be made more than four weeks in advance would be more suitable. Here, Pan American acknowledges the Board's view, but without any explanation or supporting data simply states that in its judgment shortening the advance payment to less than two months would render the proposal impractical. In the absence of factual support for its proposal, we see no reason to depart from our earlier view.

Moreover, the travel group charter (TGC) and APEX fares to which Pan American refers do not appear relevant to its proposal. Advance-purchase requirements are imposed on such fares for reasons quite apart from the no-show problem and, in our opinion, do not constitute a precedent for similar application to normal fares.

Accordingly, Pursuant to the Federal Aviation Act of 1958, and particularly sections 204, 403, 404, and 1002 thereof:

It is ordered, That:

1. An investigation is instituted to determine whether the provisions in Rule 7(D) on 39th Revised Page 15 and 43rd Revised Page 16 of International Air Traffic Tariffs Corp., Agent, Tariff C.A.B. No. 191, and rules, regulations, or practices affecting such provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful provisions, and rules, regulations, and practices affecting such provisions;

2. Pending hearing and decision by the Board, the provisions in Rule 7(D) on 39th Revised Page 15 and 43rd Revised Page 16 of International Air Traffic Tariffs Corp., Agent, Tariff C.A.B. No. 191, are suspended and their use deferred to and including November 5, 1973, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board.

3. The investigation ordered herein be assigned before an Administrative Law Judge of the Board at a time and place hereafter to be designated; and

4. Copies of this order be filed with the aforesaid tariff and be served upon Pan American World Airways, Inc., which is hereby made a party to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] PHYLLIS T. KAYLOR, *Acting Secretary.*

[FR Doc.73–16617 Filed 8–9–73;8:45 am]

[Docket No. 24488; Agreement C.A.B. 23710]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Passenger Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 3rd day of August, 1973.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers and other carriers embodied in the resolutions of Joint Conference 1–2 of the International Air Transport Association (IATA). The agreement, which was adopted by mail vote, has been assigned the above-designated C.A.B. agreement number.

The agreement would amend add-on amounts for French domestic points in combination with transportation over the North and South Atlantic routes by increasing these amounts by approximately 5 percent to reflect an increase in French domestic fares which became effective on April 15, 1973.

For through trips to French interior points, the international carriers must now pay prorate amounts to French domestic carriers based on increased local fares for transportation on the domestic segments of such trips. Without an attendant adjustment in international fares, the international carriers would be forced to absorb the increase in domestic French fares.

The Board, acting pursuant to sections 102, 204(a), and 412 of the Act, does not find the following resolutions, incorporated in agreement C.A.B. 23710, to be adverse to the public interest or in violation of the Act:

JT12(Mail 814) 054a, 054c, 064a, 064c, 070d, 071q, 076e, 076p, 084a, 084p, 092f and 095b

Accordingly, *IT IS ORDERED*, That:

1. Agreement C.A.B. 23710 be and hereby is approved;

2. The U.S.- and foreign-flag carriers may file tariffs implementing the agreement on not less than one day's notice for effectiveness not earlier than August 13, 1973; and

3. Tariffs implementing this agreement shall be marked to expire on certifications (34 F.R. 18049–50, dated December 31, 1973.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

[SEAL] EDWIN Z. HOLLAND, *Secretary.*

[FR Doc.73–16772 Filed 8–9–73;11:45 am]

ENVIRONMENTAL PROTECTION AGENCY

INSECTICIDES IN FOOD HANDLING ESTABLISHMENTS

Definitions and Policy Statement

Safe amounts of pesticides in foods have been regulated through sections 408 and 409 of the Federal Food, Drug, and Cosmetic Act. It has been recognized for some time that contamination of foods might result from use of insecticides in food handling establishments such as canneries, restaurants, and warehouses. To assist in the regulatory control of insecticides in food handling establishments, the following definitions will be used:

1. Food is defined by section 201(f) of the Federal Food, Drug, and Cosmetic Act to mean (1) articles used for food or drink for man or other animals, (2) chewing gum, and (3) articles used for components of any such article.

2. A food handling establishment is an area or place other than a private residence in which food is held, processed, prepared and/or served.

a. Nonfood areas of food handling establishments include garbage rooms, lavatories, floor drains (to sewers), en-

[3] Order 73–4–16, dated April 3, 1973.

[4] Mileages constructed on the basis of the mileage between Seattle and Tokyo will also be in issue in the investigation.

[5] Appendix filed as part of the original.

[2] Attachments A and B filed as part of the original document.

[1] Revisions to International Air Traffic Tariffs Corp., Agent, Tariff C.A.B. No. 191.

[3] Order 73–5–128, May 29, 1973.

[2] Order 72–4–67, April 14, 1972.

V 38-154 AUG 10 73 XUM

tries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets, and storage (after canning or bottling).

b. Food areas of food handling establishments include areas for receiving, serving, storage (dry, cold, frozen, raw), packaging (canning, bottling, wrapping, boxing) preparing (cleaning, slicing, cooking, grinding), edible waste storage, enclosed processing systems (mills, dairies, edible oils, syrups).

3. Nonresidual insecticides are those products applied to obtain insecticidal effects only during the time of treatment and are applied either as space treatments or contact treatments.

a. Space treatment is the dispersal of insecticides into the air by foggers, misters, aerosol devices or vapor dispensers for control of flying insects and exposed crawling insects.

b. Contact treatment is the application of a wet spray for immediate insecticidal effect.

4. Residual insecticides are those products applied to obtain insecticidal effects lasting several hours or longer and are applied as general, spot, or crack and crevice treatments.

a. General treatment is application to broad expanses of surfaces such as walls, floors, and ceilings or as an outside treatment.

b. Spot treatment is application to limited areas on which insects are likely to occur, but which will not be in contact with food or utensils and will not ordinarily be contacted by workers. These areas may occur on floors, walls, and bases or undersides of equipment. For this purpose, a "spot" will not exceed 2 square feet.

c. Crack and crevice treatment is application of small amounts of insecticides into cracks and crevices in which insects hide or through which they may enter the building. Such openings commonly occur at expansion joints, between different elements of construction, and between equipment and floors. These openings may lead to voids such as hollow walls, equipment legs and bases, conduits, motor housings, junction or switch boxes.

Under terms of the agreement between the Department of Health, Education, and Welfare and the Environmental Protection Agency published in the FEDERAL REGISTER of December 22, 1971 (36 FR 24234), the Environmental Protection Agency is responsible for processing petitions for insecticide residues in foods exposed during treatment of food handling establishments. Representative residue data should be obtained for food exposed during treatments with insecticides. Based upon petitions with such residue data, food additive regulations have already been established for pyrethrins, piperonyl butoxide and *N*-octylbicycloheptene dicarboximide.

Many insecticides effective in food handling establishments have tolerances to cover agricultural uses. It is anticipated that the available toxicology data for these compounds will usually meet toxicology data requirements. New compounds will, of course, be subject to current toxicology data requirements.

In the interim while tolerance data is being further developed, it has been determined that certain residual insecticides, if used with proper care in food handling establishments, can assist in the protection of the public health from contamination of food by insects and insect-borne diseases without hazard from residues. Therefore, use of the following type residual insecticides is authorized for careful crack and crevice treatment in food areas in addition to their authorized label uses:

1. borax (finely divided powder)
2. boric acid (finely divided powder)
3. carbaryl
4. chlordane
5. chlorpyrifos
6. dimethyl 2,2-dichlorovinyl phospate
7. dimethyl 2,2,2-trichloro-1-hydroxyethel phosphonate
8. 0,0-dimethyl 0-(2-isopropyl-4-methyl-6-pyrimidinyl) phosphosothioate
9. fenthion
10. orthoisopropoxysphenye methylcarbamate
11. malathion
12. N-octylbicycloheptene discarboximide
13. piperonyl butoxide
14. pyrethrins
15. ronnel
16. silica gel (finely divided powder)

Registrants of pesticides containing the above ingredients are requested to make immediate application for label modification to add the use for Crack and Crevice treatments in food areas. Testing is required for similar use of residual insecticides not listed above.

If the label modification is not approved within 6 months from date of publication of the notice, the product will no longer be authorized for C+C treatment.

Applications for experimental use permits may be needed to obtain residue data, and temporary food additive tolerances may be needed in conjunction with the permit. Since section 409 of the Federal Food, Drug, and Cosmetic Act does not provide for temporary food additive regulations, section 5(b) of the Federal Insecticide, Fungicide, and Rodenticide Act as amended by Public Law 92-516 is considered adequate authority to establish temporary tolerances for residues of insecticides from experimental use permits issued to obtain data from application of insecticides in food handling establishments.

As soon as adequate experimental data become available, food additive petitions should be submitted in order to provide time for review before October 1974. Registration under Public Law 92-516 can begin at that time and appropriate food additive regulations will be a necessary prerequisite for registration.

Dated: August 2, 1973.

DAVID D. DOMINICK,
Assistant Administrator for Hazardous Materials Control.

[FR Doc.73-16536 Filed 8-9-73;8:45 am]

QUATERNARY AMMONIUM COMPOUNDS

Notice of Intent To Cancel Registration

This notice is a continuation of the phaseout of no residue, or zero tolerance, registrations. Previous actions in this regard were based on the statement of implementation April 13, 1966 (31 FR 5723), and amended statement of implementation December 5, 1970 (35 FR 18550). Petitions proposing tolerances for residues of quaternary ammonium compounds in poultry tissues and eggs have not been submitted.

Registration is no longer being issued for products containing quaternary ammonium compounds intended to sanitize poultry drinking water. Data presented by a basic manufacturer of this type of compound indicate the transfer of residues to the tissues and eggs of poultry that drink such treated water. The presence of residues in poultry tissues and eggs from the use of quaternary ammonium compounds as sanitizers in poultry drinking water would constitute adulteration under the Federal Food, Drug, and Cosmetic Act. Therefore, directions for such uses are not considered to be adequate for the protection of the public.

In accordance with the provisions of Section 6 of the Federal Insecticide, Fungicide, and Rodenticide Act as amended by Public Law 92-516 (86 Stat. 984) products containing quaternary ammonium compounds for use in sanitizing poultry drinking water and which are registered under the Federal Insecticide, Fungicide, and Rodenticide Act are no longer considered to be in compliance with provisions of said Act. The registration of such products will be canceled effective 30 days following the publication of this notice or from receipt by the registrant of a copy of this notice, whichever is later, unless all directions for such uses in sanitizing poultry drinking water are immediately deleted from the labels of such products or other procedure is invoked as provided in section 6.

Five copies of corrected labeling must be submitted to the Registration Division, Office of Pesticide Programs, Environmental Protection Agency, Washington, D.C. 20460, if continued registration is desired.

Dated: August 3, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticide Programs.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19794; FCC 73-798]

MIRACLE VALLEY BROADCASTING CO., INC.

Memorandum Opinion and Order Designating Application for Hearing on Stated Issues

In re application of Miracle Valley Broadcasting Co., Inc. (WEIF), Moundsville, W. Va., File No. BP-18338. Has: 1370 kHz, 1 kW, Day; Requests: 1370kHz, 5 kW, Day. For construction permit.

1. The Commission has before it (i) the above-captioned application of WEIF to increase daytime power; (ii) petition to deny filed by WK, Inc., former broadcast licensee of WKWK, Wheeling, W. Va., and adopted by its successor in interest, Publishers Broadcasting Corp., the present licensee of WKWK, Wheeling, W. Va.; and (iii) pleadings in opposition and reply thereto.

2. Petitioner failed to set forth the basis of standing as a party in interest. Nevertheless, since petitioner alleges that the applicant would compete with WKWK for audience and revenue, the Commission finds that the petitioner has standing as a party in interest within the meaning of section 309(d)(1) of the Communications Act of 1934, as amended, and § 1.580(i) of the Commission's rules. Federal Communications Commission v. Sanders Brothers, 309 U.S. 470, 9 RR 2008 (1940).

3. The initial field intensity measurement data filed in the WEIF application indicated that the proposed 5 mV/m contour would not penetrate the Wheeling city limits. Subsequent measurements submitted by the petitioner made on an azimuth of 17°, however, revealed that the 5 mV/m signal would in fact penetrate the city. Commission analysis of all pertinent data confirms the fact that a significant portion of Wheeling will be within WEIF's proposed 5 mV/m contour.

4. Petitioner contends that the proposed operation comes within the purview of the Commission's Policy Statement on section 307(b) Considerations for Standard Broadcast Facilities Involving Suburban Communities, 2 FCC 2d 190 (1965). Prior to the 1970 census, the petitioner relied upon the 1960 census which indicated Wheeling's population to be 53,400 and Moundsville's population to be 15,163, thus raising the rebuttable presumption that WEIF was realistically proposing to serve Wheeling. When the 1970 census indicated that Wheeling's population had fallen to 46,-854,[1] the applicant amended his application by documenting the decrease in population and requesting rejection of the 307(b) question. In its supplemental petition to deny, petitioner opposed this contention and, relying on VWB, Inc., 10 RR 2d 563 (1967), attempted to establish a threshold showing that WEIF seeks realistically to serve Wheeling.

5. Petitioner cites VWB, Inc., supra, for the proposition that the 5mV/m-50,-000 population test is not an inflexible rule. While conceding that the fact situation in VWB is considerably different from the fact pattern of the case now before us,[2] petitioner contends that the main principle of the VWB case is that in a situation involving a community with a population under 50,000, the Commission must look to the "totality of the circumstances" in order to ascertain the applicant's intent. Specifically, petitioner argues that WEIF's present primary service of all of Marshall County runs contrary to its purported reason for requesting a power increase; that the power increase bears no relationship to Miracle's ability to meet community needs and problems; that the power increase masks an attempt by WEIF to gain further revenue from Wheeling-based advertising above and beyond the 29 to 33 percent it already has; that WEIF is located within 10 miles of Wheeling; and that both communities are in the same Standard Metropolitan Statistical Area (SMSA).

6. The applicant argues (i) that the VWB case is inapplicable because Moundsville has it own educational, religious, political, and economic structure; (ii) That although all of Marshall County presently receives primary service, outlying areas will nevertheless benefit from a power increase; (iii) that Wheeling-based advertising is designed to encourage Moundsville residents to shop in Wheeling rather than to reach the Wheeling audience itself; (iv) that the revenue from Wheeling is expected to decline because of decreasing population in that area; (v) that permission to move the antenna would have been requested by WEIF had its intent really been to serve Wheeling; and (vi) that only the lower half of Wheeling is penetrated and the extent of coverage is the result of greater conductivity around the Ohio river.

7. Two major factors are repeatedly emphasized in cases involving threshold showings in communities with populations under 50,000. The first requisite is a tremendous disparity in the comparative sizes of the two towns. The second is a showing of social, political, and/or economic dependence. VWB, supra, Harry D. and Robert E. Stephenson, et al., 15 FCC 2d 335 (1968). Further, prior cases make clear that when the larger city has a population under 50,000, the burden on the petitioner to establish a threshold showing is not a light one. The Commission will not designate a proposal for hearing merely because it happens to place a strong signal over a larger community. VWB, supra; Durguin Associates, Inc., 10 FCC 2d 24 (1967). Therefore, the threshold showing must clearly establish a basis upon which the presumption may arise.

8. Petitioner has established that Wheeling and Moundsville are in the same SMSA, are less than 10 miles apart, and that WEIF relies to some extent on Wheeling-based revenues. However, in Durguin, supra, the Commission found that no threshold showing had been made even though the two communities were less than six miles apart and the larger community was three times as populous as the smaller (21,680 and 6,897, respectively). In distinguishing Durguin from VWB, the Commission stated that since the smaller community in Durguin was over one-third the size of the larger, there was no great disparity in the size of the two towns as existed in the VWB case.[3] In addition, no showing of economic, social, political or educational dependence has been made. In Stephenson, supra, the larger community had a population of under 50,000. The smaller town was only 5 miles from the larger, both were within the same metropolitan area, and the residents of the smaller town did considerable shopping in the larger community. In finding that the requisite showing had been made, however, the Commission relied not only on the facts stated above, nor on the "totality of the circumstances," but emphasized instead that its decision was prompted by the relative disparity in the sizes of theh towns[4] and by the fact that since the community was so small[5] it would of necessity be dependent upon other communities for revenues. Id at 340-341. The Moundsville community, on the other hand, is sizable and is, in fact, the largest city in Marshall County and serves as the county seat. Moreover, the citizens of Moundsville maintain 14 schools, and support 15 different churches. There are over 200 retail business establishments and various civic organizations. Commission studies indicate that the power increase would result in WEIF covering approximately twice the area (1,275 square miles) it presently serves and would enable the station to cover virtually all of Marshall County for the first time with a 2 mV/m signal. As a result, approximately 37,000 persons (exclusive of Wheeling residents) living within that contour will receive an additional aural service. Also, an extensive rural area, including several dozen small communities of under 2,500 persons, having a total population of about 72,000 would be encompassed by the proposed 0.5 mV/m contour. In light of the foregoing, we find that no 307(b)-suburban issue has been raised.

9. Petitioner alleges that the applicant failed to conduct a survey as required by the Primer on Ascertainment of Community Problems by Broadcast Applicants, 19 RR 2d 1901 (1970). By amendments dated January 6, 1972, and September 20, 1972, however, the applicant submitted the survey results for the gain area. The Primer requires that where major change applications are involved only the gain area need be surveyed. The amendments submitted by the applicant do provide a breakdown of the population of the gain area, interviews with leaders of the representative groups in the area, list the needs of the communities in the area and reflect in sufficient detail the programming to meet community needs. Therefore, the Commission finds that the

[1] Population of Moundsville according to the 1970 census had dropped to 13,420.

[2] In *VWB*, the population of the smaller community was merely 4.2 percent of the larger community while Moundsville is over one-third as populous as Wheeling. The town in *VWB*, further, was dependent upon the larger community economically, politically, educationally, and socially.

[3] Present census figures place Wheeling's population at 46,854 and Moundsville at 13,420, a ratio of slightly more than 3 to 1.

[4] The smaller town was roughly 4 percent of the size of the larger.

[5] Population, 1,500.

V 38-154 AUG 10 73 XUM

applicant has complied with the basic Primer requirements.

10. Petitioner also alleges that the applicant is not financially qualified to construct the proposal. Subsequent to the filing of the petition, the applicant filed additional financial information. Examination of these data shows that $20,673 will be required to effect the necessary change in operation. Of this total, $19,173 will be needed for equipment and $1,500 for miscellaneous expense. To meet these expenses, the applicant relies on a $30,000 loan from its principal stockholder, Fred Grewe, Jr. Examination of Mr. Grewe's balance sheet shows that although he appears to have more than enough total net assets to make such a loan, he has failed to segregate his current liabilities from his long-term obligations as required by the instructions to section III of FCC Form 301. Under these circumstances we must consider all Mr. Grewe's liabilities to be current (i.e., due within one year) and, on this basis, we find that sufficient liquid and current assets in excess of current liabilities have not been indicated. Accordingly, a financial issue will be included and Mr. Grewe will be afforded the opportunity to file a more detailed financial statement.

11. Petitioner contends that the use of of an inaccurate contour map for advertising promotion constitutes deceptive business practices in violation of section 5 of the Federal Trade Commission Act, 38 Stat., 719, 15 U.S.C. 45 § 5, and that a hearing must be held on this matter to determine whether the applicant possesses the necessary qualifications of a Commission licensee. Universal Communications of Pittsburgh, Inc., 17 RR 2d 1262 (1969) (Recon. denied, 21 FCC 2d 542, 18 RR 2d 491 (1970)) dealt with a rate card which substantially exaggerated the coverage area. In that case, the Commission stated:

> Use of an inaccurate and exaggerated coverage map will not be tolerated. Any practice intended to deceive or mislead advertisers or the public cannot be condoned. 17 RR 2d at 1262 (Italic added).

WEIF contends that the requisite intent to deceive is lacking in this case. Applicant maintains that the map was used innocently, that it had been prepared under the direction of the prior owners of the station, that it was designed by a reputable engineering firm and that since the owners are not engineers, they had no way of knowing whether or not the map was accurate. Petitioner asserts that WEIF's use of the map could not have been innocent since subsequent engineering data prepared by the licensee in connection with this application reflects the inaccuracy of the rate card.[6]

[6] In this connection, we note that not only did the 0.5 mV/m contour depicted on the WEIF rate card encompass a considerably larger area than the proposed 0.5 mV/m contour shown on the engineering exhibits in this application, but it also encompassed a larger area than did the coverage map used by the prior owners of the station.

12. The Review Board in Athens Broadcasting Company, Inc., 27 FCC 2d 7 (1971), enlarged issues in a comparative hearing to inquire into misrepresentations as to the coverage area of a station. Further, in Radio Clinton, Inc., 73 FCC 463, the Commission stated that discontinued use of a coverage map on its rate card will not obviate the need for further inquiry. Because of the gravity of the charges, we believe further inquiry is necessary. Accordingly, an appropriate issue will be specified. Since WEIF's license was renewed last year for the period ending October 1, 1975, there is no application presently before the Commission against which an ultimate adverse conclusion concerning basic licensee qualifications could be applied. However, we believe that the facts developed on the issue should also be considered in connection with a determination as to whether a grant of the application before us would serve the public interest. In addition, if the issue as to basic licensee qualifications is decided adversely to the applicant in this proceeding, findings of fact made under this issue will be considered res judicata with respect to those matters in passing upon the next-filed renewal of license application.

13. Except as indicated by the issues specified below, the applicant is qualified to construct and operate as proposed. In view of the foregoing, however, the Commission is unable to make the statutory finding that a grant of the subject application would serve the public interest, convenience, and necessity, and is of the opinion that the application must be designated for hearing on the issues set forth below.

14. Accordingly, *It is ordered*, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the application is designated for hearing, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine whether Fred Grewe, Jr., has sufficient net current liquid assets to finance the proposed construction and, in light thereof, whether Miracle Valley Broadcasting Co., Inc., is financially qualified.

2. To determine whether Miracle Valley Broadcasting Co., Inc., employed a deceptive coverage map on the WEIF rate card, and, if so, whether it continues to possess the requisite qualifications to be a broadcast licensee.

3. To determine, in light of the evidence adduced pursuant to the foregoing issues, whether a grant of the application would serve the public interest, convenience and necessity.

15. *It is further ordered*, That, the petition to deny of Publishers Broadcasting Co., Inc., is granted to the extent indicated above and is denied in all other respects.

16. *It is further ordered*, That Publishers Broadcasting Corp. licensee of station WKWK, Wheeling, W. Va., is made a party to the proceeding.

17. *It is further ordered*, That, to avail themselves of the opportunity to be heard, the applicant and party respondent herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

18. *It is further ordered*, That the applicant herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: July 26, 1973.

Released: August 1, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[7]

[Dockets Nos. 19791, 19792]

MONTROSE COUNTY AIRPORT

Order Designating Applications for Consolidated Hearing on Stated Issues

In re Applications of Montrose County, Colo., Montrose, Colo., Docket No. 19791, File No. 92-A-L-53, and Leonard E. Orme, d/b/a Orme Flying Service, Montrose, Colo., Docket No. 19792, File No. 119-A-L-53. For Aeronautical Advisory Station to serve Montrose County Airport, Montrose, Colo.

1. The Commission's rules (§ 87.251 (a)) provide that only one aeronautical advisory station may be authorized to operate at a landing area. The above-captioned applications both seek Commission authorty to operate an aeronautical advisory station at Montrose County Airport, Montrose, Colo., and, therefore, are mutually exclusive. Accordingly, it is necessary to designate the applications for hearing. Except for the issues specified herein, each applicant is otherwise qualified.

2. In view of the foregoing, *It is ordered*, That, pursuant to the provisions of section 309(e) of the Communications Act of 1934, as amended, and § 0.331(b)(21) of the Commission rules, the above-captioned applications are hereby designated for hearing in a consolidated proceeding at a time and place to be specified in a subsequent order on the following issues:

(a) To determine which applicant would provide the public with better aeronautical advisory service based on the following considerations:

(1) Location of the fixed-base operation and proposed radio station in relation to the landing area and traffic patterns;

(2) Hours of operation;

(3) Personnel available to provide advisory service;

(4) Experience of applicant and employees in aviation and aviation communications;

[7] Commissioner H. Rex Lee absent.

(5) Ability to provide information pertaining to primary and secondary communications as specified in § 87.257 of the Commission's rules;

(6) Proposed radio system including control and dispatch points; and

(7) The availability of the radio facilities to other fixed-based operators.

(b) To determine in light of the evidence adduced on the foregoing issues which, if either, of the applications should be granted.

3. *It is further ordered*, That to avail themselves of an opportunity to be heard Montrose County, Colo., and Leonard E. Orme, d/b/a Orme Flying Service, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this order file with the Commission, in triplicate, a written appearance stating an intention to appear on the date set for hearing and present evidence on the issues specified in this Order. Failure to file a written appearance within the time specified may result in dismissal of the application with prejudice.

Adopted: July 24, 1973.

Released: July 26, 1973.

RADIO TECHNICAL COMMISSION FOR MARINE SERVICES

Notice of Meeting

AUGUST 1, 1973.

In accordance with Public Law 92-463, "Federal Advisory Committee Act," the following is a listing of the August meeting of the Radio Technical Commission for Marine Services (RTCM):

Special Committee No. 64, "MF, HF, and VHF Maritime Radioreleprinter and Data Systems and Operations", 38th meeting.

Tuesday, August 14, 1973—9:30 a.m. (All-day meeting).

Conference Room 205, 1229 20th Street NW., Washington, D.C.

Principal Agenda Items:

a. Report on MarAd developmental program for a Digital Selective Calling System.

b. Discussion of Comments on FCC Notice of Inquiry for 1974 Maritime Radio Conference (FCC Docket No. 19325).

c. Discussion of Direct Printing and Data Systems.

Chairman, SC-64, H. T. Blaker, Collins Radio Co., Arlington, Va. 22209. (Phone: [703] 524-9503).

FEDERAL COMMUNICATIONS COMMISSION,

FEDERAL MARITIME COMMISSION

ATLANTIC LINES, LTD. AND PAN AMERICAN MAIL LINE, INC.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street, NW., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, and San Francisco, California. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, by August 29, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Mr. S. Doolos
General Traffic Manager
Chester, Blackburn & Roder, Inc.
One World Trade Center—Suite 1035
New York, New York 10048

Agreement No. 9864-3, between Atlantice Lines, Ltd. (initial carrier), and Pan American Mail Line, Inc. (delivering carrier), modifies Articles 1(B) and 2 of the basic agreement which covers a through billing arrangement for the movement of general cargo from U.S. Atlantic and Gulf ports to (1) expand the ports of discharge under the agreement to include ports in the Leeward and Windward Islands and the Gulanas when transshipment is effected at Tortola, British Virgin Islands and (2) provide that the through rates to such ports shall be those as published in the Leeward and Windward Islands and Gulanas Conference S.B. L&W 10, Freight Tariff FMC No. 1, in effect at time of shipment.

Dated: August 6, 1973.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

MADER & CO.

Order of Revocation

By letter dated June 28, 1973, Mader & Co., P.O. Box 668, Dania, Florida 33004 was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 859 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before July 25, 1973.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

Mader & Co. has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (revised) § 7.04(g) (dated 5/1/72);

It is ordered, That Independent Ocean Freight Forwarder License No. 859 of Mader & Co. be returned to the Commission for cancellation.

It is further ordered, That Independent Ocean Freight Forwarder License No. 859 be and is hereby revoked effective July 25, 1973.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon Mader & Co.

WM. JARREL SMITH, JR.,
Deputy Managing Director.

[Docket No. 73-35]

INTERMODAL SERVICE OF CONTAINERS AND BARGES AT THE PORT OF PHILADELPHIA

Amendment to Order of Investigation and Hearing

At page 3 of the order served June 18, 1973, amend the first ordering paragraph by inserting, after the word "calls" in line 5 of the paragraph, the following phrase:

"• • • from or to other East Coast ports of the United States in the domestic and foreign trades • • •"

Make the following changes in the Appendix:

Delete heading "Greece/U.S.A. Westbound Freight Conference (Agreement 9238)" and insert "Greece/United States Atlantic Rate Agreement 9238" and insert thereunder "Mr. T. F. Walsh, Secertary, Concordia Line, c/o Boise Griffin Steamship Co., One World Trade Center, Suite 3811, New York, New York 10048."

Delete "Turkey/U.S.A. Westbound Freight Conference (Agreement 9239)" and insert "Turkey/United States Atlantic Rate Agreement 9239" and insert thereunder "Mr. T. F. Walsh, Secertary, Concordia Line, c/o Boise Griffin Steamship Co., One World Trade Center, Suite 3811, New York, New York 10048."

Under Portugal/U.S. North Atlantic Westbound Freight Conference add "Sea-Land Service, Inc. P.O. Box 1050, Elizabeth, New Jersey 07207" as a member.

Under North Atlantic Westbound Freight Association, add "Bristol City Line, Ltd., Cumberland Road, Bristol, England" as a member.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

[Docket No. 73-46]

PACIFIC ISLANDS TRANSPORT LINE

Order of Investigation and Suspension

Pacific Islands Transport Line (PITL) has filed with the Federal Maritime Commission various pages (see Appendix A) to its Tariff FMC-F No. 2 to become effective July 15, 1973. These pages will increase ocean freight rates on cargo moving Westbound by an average of 23 percent, with certain exceptions. The exceptions are: 1) Westbound rates for "Refrigerated Cargo" and "Lumber" which will be increased by 6 percent; and 2) The Westbound rate on "Bulk Vegetable Oil" which will be increased 10 percent. The minimum bill of lading charge applying on "Motion Picture Films and Motion Picture Advertising Matter" will be increased 40 percent.

On June 15, 1973, PITL was advised to take steps to postpone the rate increases until August 13, 1973, in order to comply with the President's order freezing prices to that date. PITL filed such a postponement supplement.

Protests relating to increases of ocean freight rates in the United States/Samoa trade were received from American Can Company; American Samoa Chamber of Commerce; Max Haleck, Inc.; the Honorable John M. Haydon, Governor of Samoa; Ivi S. Pele; President Salanoa, Speaker Pro Tem Faasuka S. Lutu, Senator Tagaloa and Representative Seufagafaga Langkilde; Sawyer Sifoa Co., Inc.; Mrs. W. R. Seacord and the United States Department of the Interior. All of the protests alleged that an increase in ocean freight rates would have an unfavorable effect on the well being of the American Samoan people and on the economic development of the territory.

Upon consideration of the said tariff pages, and the protests filed thereto, the Commission is of the opinion that the above designated tariff matter should be suspended and made the subject of a public investigation and hearing to determine whether it is unjust, unreasonable, or otherwise unlawful under section 18 (a) of the Shipping Act, 1916, and/or sections 3 and 4 of the Intercoastal Shipping Act, 1933, and good cause appearing, therefore:

It is ordered, That pursuant to the authority of sections 18(a) and 22 of the Shipping Act, 1916, and sections 3 and 4 of the Intercoastal Shipping Act, 1933, an investigation is hereby instituted into the lawfulness of said increased rates and charges and the proposed new rates and charges published on the tariff pages listed in Appendix A with a view toward making such findings and orders as the law, the facts and the circumstances warrant. In the event the matter hereby placed under investigation is further changed, amended, or reissued, such matter will be included in this investigation;

It is further ordered, That pursuant to section 3, Intercoastal Shipping Act, 1933, the pages listed in Appendix A are suspended and the use thereof deferred to and including November 1, 1973 unless otherwise ordered by this Commission;

It is further ordered, That there shall be filed immediately with the Commission by PITL a consecutively numbered supplement to the aforesaid tariff which supplement shall bear no effective date, shall reproduce the portion of this order wherein the suspended matter is described and shall state that the aforesaid matter is suspended and may not be used until November 1, 1973 unless otherwise authorized by the Commission and the rates and charges or other provisions heretofore in effect, and which were to be changed by the suspended matter shall remain in effect during the period of suspension, and neither the matter suspended, nor the matter which is continued in effect as a result of such suspension, may be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission;

It is further ordered, That copies of this order shall be filed with the said tariff schedule in the Bureau of Compliance of the Federal Maritime Commission;

V 38-154 AUG 10 73 XUM

It is further ordered, That Pacific Islands Transport Line be named as respondent in this proceeding;

It is further ordered, That American Can Company; American Samoa Chamber of Commerce; Ivi S. Pele; President Salanoa, Speaker Pro Tem Faasuka S. Lutu, Senator Tagaloa and Representative Seufagafaga Langkilde; Sawyer Sifoa Co., Inc.; Mrs. W. R. Seacord; and the United States Department of the Interior be named as Complainants in this proceeding;

It is further ordered, That this proceeding be assigned for public hearing before an Administrative Law Judge of this Commission's Office of Administrative Law Judges and that the hearing be held at a date and a place to be determined by the Presiding Administrative Law Judge;

It is further ordered, That, (1) a copy of this order be forthwith served upon the Respondent and Complainants herein and upon this Commission's Bureau of Hearing Counsel and published in the FEDERAL REGISTER; and (2) the Respondent, Complainants, and Hearing Counsel be duly served with notice of time and place of the hearing;

It is further ordered, That the provisions of rule 12 of the Commission's rules of practice and procedure which require leave of the Commission to take testimony by deposition or by written interrogatory if notice thereof is served within 20 days of the commencement of the proceeding, are hereby waived for this proceeding inasmuch as the expeditious conduct of business so requires. The provision of rule 12(h) which requires leave of the Commission to request admissions of fact and genuineness of documents if notice thereof is served within 10 days of commencement of the proceeding, is similarly waived;

All persons (including individuals, corporations, associations, firms, partnerships and public bodies) having an interest in this proceeding and desiring to intervene therein should notify the Secretary of the Commission promptly and file Petitions for Leave to Intervene in accordance with rule 5(1) of the Commission's rules of practice and procedure (46 CFR 502.72) with a copy to all parties to this proceeding.

By the Commission.

POLYNESIA LINE, LIMITED

Order of Investigation and Suspension

Polynesia Line, Limited (PLL) filed with the Federal Maritime Commission various pages (see Attachment A) to its Tariff FMC-F No. 2 to become effective June 25, 1973. These pages will increase both East and Westbound rates by approximately 24 percent.

On June 15, 1973, PLL was advised to take steps to postpone the rate increases until August 13, 1973, in order to comply with the President's order freezing prices to that date. PLL filed such a postponement supplement.

Protests relating to increase of ocean freight rates in the United States/Samoa trade were received from American Can Company; American Samoa Chamber of Commerce; Max Haleck, Inc.; the Honorable John M. Haydon, Governor of Samoa; Ivi S. Pele; President Salanoa, Speaker Pro Tem Faasuka S. Lutu, Senator Tagaloa and Representative Seufagafaga Langkilde; Sawyer Sifoa Co., Inc.; Mrs. W. R. Seacord; and the United States Department of Interior. All of the protests alleged that an increase in ocean freight rates would have an unfavorable effect on the well being of the American Samoan people and on the economic development of the territory.

Upon consideration of the said tariff pages, and the protests filed thereto, the Commission is of the opinion that the above designated tariff matter should be suspended and made the subject of a public investigation and hearing to determine whether it is unjust, unreasonable or otherwise unlawful under section 18(a) of the Shipping Act, 1916, and/or sections 3 and 4 of the Intercoastal Shipping Act, 1933, and good cause appearing, therefore;

It is ordered, That pursuant to the authority of sections 18(a) and 22 of the Shipping Act, 1916, and sections 3 and 4 of the Intercoastal Shipping Act, 1933, an investigation is hereby instituted into the lawfulness of said increased rates and charges and the proposed new rates and charges published on the tariff pages listed in Appendix A with a view toward making such findings and orders as the law, the facts and the circumstances warrant. In the event the matter hereby placed under investigation is further changed, amended, or reissued, such matter will be included in this investigation;

It is further ordered, That pursuant to section 3, Intercoastal Shipping Act, 1933, the pages listed in Appendix A, are suspended and the use thereof deferred to and including November 1, 1973 unless otherwise ordered by this Commission;

It is further ordered, That there shall be filed immediately with the Commission by PLL a consecutively numbered supplement to the aforesaid tariff which supplement shall bear no effective date, shall reproduce the portion of this order wherein the suspended matter is described and shall state that the aforesaid matter is suspended and may not be used until November 1, 1973, unless otherwise authorized by the Commission; and the rates and charges or other provisions heretofore in effect, and which were to be changed by the suspended matter shall remain in effect during the period of suspension, and neither the matter suspended, nor the matter, which is continued in effect as a result of such suspension, may be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission;

It is further ordered, That copies of this order shall be filed with the said tariff schedule in the Bureau of Compliance of the Federal Maritime Commission;

It is further ordered, That Polynesia Line, Limited be named as Respondent in this proceeding;

It is further ordered, That American Can Company; American Samoa Chamber of Commerce; Ivi S. Pele; President Salanoa, Speaker Pro Tem Faasuka S. Lutu, Senator Tagaloa and Representative Seufagafaga Langkilde; Sawyer Sifoa Co., Inc.; Mrs. W. R. Seacord; and the United States Department of the Interior be named as Complainants in this proceeding;

It is further ordered, That this proceeding be assigned for public hearing before an Administrative Law Judge of this Commission's Office of Administrative Law Judges and that the hearing be held at a date and place to be determined by the Presiding Administrative Law Judge;

It is further ordered, That, (1) a copy of this order be forthwith served upon the Respondent and Complainants herein and upon this Commission's Bureau of Hearing Counsel, and published in the FEDERAL REGISTER; and (2) the Respondent, Complainants and Hearing Counsel be duly served with a notice of time and place of the hearing;

It is further ordered, That the provisions of rule 12 of the Commission's rules of practice and procedure which require leave of the Commission to take testimony by deposition or by written interrogatory if notice thereof is served within 20 days of the commencement of the proceeding, are hereby waived for this proceeding inasmuch as the expeditious conduct of business so requires. The provision of rule 12(h) which requires leave of the Commission to request admissions of fact and genuiness of documents if notice thereof is served within 10 days of commencement of the proceeding, is similarly waived;

All persons (including individuals, corporations, associations, firms, partnerships and public bodies) having an interest in this proceeding and desiring to intervene therein should notify the Secretary of the Commission promptly and file Petitions for Leave to Intervene in accordance with rule 5(1) of the Commission's rules of practice and procedure (46 CFR 502.72) with a copy to all parties to this proceeding.

STATE OF HAWAII MATSON NAVIGATION CO., INC. AND MATSON TERMINALS, INC.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street, NW., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, and San Francisco, California. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, by August 29, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

David V. Ainsworth, Esq.
Counsel
Matson Navigation Company
100 Mission Street
San Francisco, California 94105

Agreement No. T-2171-3, among the State of Hawaii (Hawaii), Matson Navigation Co., Inc. (Matson), and Matson Terminals, Inc. (Terminals), is an assignment of the basic agreement which provides for the lease of marine terminal space by Hawaii to Matson for use, primarily, as a container facility. The purpose of the modification is the assignment by Matson of the original terminal lease as amended, with the consent of Hawaii, to its wholly owned subsidiary, Terminals. All other provisions of the original lease as amended will remain unchanged.

Dated: August 3, 1973.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

COST OF LIVING COUNCIL

NATIONAL COMMISSION FOR INDUSTRIAL PEACE

Notice of Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770) notice is hereby given that the National Commission for Industrial Peace, created by Executive Order 11710, will meet on August 14, 1973 at 2 p.m. in Conference Room 4121 of the U.S. Treasury Building.

The first portion of the meeting will be open to the public. The chairman of the committee is empowered to conduct the meeting in a fashion that will, in his judgement, facilitate the orderly conduct of business. Only members of the committee and its staff may question the witnesses. The chairman may, if he believes it would be useful to the work of the committee and time permits, entertain questions from the floor. Due to space limitations, it is possible that there will not be enough seating. For that reason persons will be admitted on a first-come first-served basis.

The agenda for the open portion of the meeting will be the presentation of two proposals, one given by the representatives of the Federal Mediation and Conciliation Service and one given by representatives of the Commission on Productivity.

The second portion of the meeting, which will be closed to the public, will be a discussion of the roll of the Commission for Industrial Peace in Phase IV.

Since these discussions, if written, would fall within exemption (5) of 5 USC 552(b and since it is necessary to close the meeting if there is to be a free exchange of views, I have determined under the authority granted me by Executive Order 11729 that this portion of the meeting should be closed pursuant to section 10(d) of the Federal Advisory Committee Act.

Issued in Washington, D.C., on August 9, 1973.

WILLIAM WALKER,
General Counsel,
Cost of Living Council.

NATIONAL ADVISORY COUNCIL ON THE EDUCATION OF DISADVANTAGED CHILDREN

NOTICE OF PUBLIC MEETING

Notice is hereby given, PL 92-463, that the next meeting of the National Advisory Council on the Education of Disadvantaged Children will be held at 7:00 a.m., August 17, 1973 through August 18, 1973 at 3:00 p.m. An on-site visit is scheduled for the Council in Staunton, Virginia on the 17th of August.

The National Advisory Council on the Education of Disadvantaged Children is established under section 148 of the Elementary and Secondary Education Act (20 U.S.C. 2411) to advise the President and the Congress on the effectiveness of compensatory education to improve the educational attainment of Disadvantaged Children.

The meeting is being called to discuss subcommittee findings from the federal, administrative and legislative levels, and how they can improve the educational attainment for the disadvantaged child.

Because of limited space for the public meeting of August 18 all persons wishing to attend should call for reservations at Area Code 202/632-5221 by August 15, 1973.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the National Advisory Council on the Education of Disadvantaged Children, located in Room 202, 1717 H Street, NW., Washington, D.C. 20006.

Signed at Washington, D.C. on August 7, 1973.

ROBERTA LOVENHEIM,
Executive Director.

[FR Doc.73-16635 Filed 8-9-73;8:45 am]

POSTAL SERVICE

POSTAL SERVICE ADVISORY COUNCIL

Notice of Meeting

Notice is hereby given that a meeting of the Postal Service Advisory Council will be held on Monday, August 20, 1973, at 10:00 a.m. in Room 3146, U.S. Postal Service, Twelfth Street and Pennsylvania Avenue, N.W., Washington, D.C. 20260. The Postal Service Advisory Council was established by 39 U.S.C. 206 which provides that "[t]he Postal Service shall consult with and receive the advice of the Advisory Council regarding all aspects of postal operations."

The meeting has been called to consider the impact of the Federal Advisory Committee Act upon the Council. The meeting is open to the public. Persons wishing to be present or to obtain further information on this meeting should contact Mrs. Sally Jones, Secretary to the Senior Assistant Postmaster General, Policy Matters, Room 5202, U.S. Postal Service, at the street address shown above. (Telephone Number: (202) 961-6273.)

ROGER P. CRAIG,
Deputy General Counsel.

TARIFF COMMISSION

[AA1921-125]

GERMANIUM POINT CONTACT DIODES FROM JAPAN

Rescheduling of Hearing Date

Notice is hereby given that the hearing in Investigation No. AA1921-25, scheduled to be held in the Tariff Commission's Hearing Room, Tariff Commission Building, 8th and E Streets, NW., Washington, D.C., beginning at 10 a.m., e.d.t., on Tuesday, August 14, 1973, has been rescheduled for 10 a.m. e.d.t., on August 27, 1973. Requests to appear at the public hearing should be received by the Secretary of the Tariff Commission, in writing, at its offices in Washington, D.C., not later than noon, Thursday, August 23, 1973.

Written submissions. Interested parties may submit written statements of information and views, in lieu of their appearance at the public hearing, or they may supplement their oral testimony by written statements of any desired length. In order to be assured of consideration, all written statements should be submitted at the earliest practicable date, but not later than the close of business on September 6, 1973.

The hearing is being held in connection with a Commission investigation under the provisions of section 201(a) of the Antidumping Act, 1921, as amended, to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of germanium point contact diodes from Japan which the Assistant Secretary of the Treasury has determined are being, or are likely to be, sold at less than fair value. Notice of the investigation was published in the FEDERAL REGISTER of July 16, 1973 (38 FR 18931).

Issued: August 8, 1973.

By order of the Commission.

[SEAL] G. PATRICK HENRY,
Acting Secretary.

[FR Doc.73-16704 Filed 8-9-73;8:45 am]

VETERANS ADMINISTRATION

WAGE COMMITTEE

Notice of Meetings

The Veterans Administration gives notice that meetings of the VA Wage Committee will be held at the Veterans Administration Central Office, 810 Vermont Avenue NW., Washington, D.C., on:

Thursday, August 30, 1973.
Thursday, September 13, 1973.
Thursday, September 27, 1973.
Thursday, October 11, 1973.
Thursday, October 25, 1973.

The meetings will convene in Room 1100 at 2 p.m. for the purpose of reviewing the adequacy of data obtained in wage surveys conducted under the lead of VA field stations and under the procedure requirements of the Federal Wage System.

The meetings will be closed to the public under the provisions of section 10(d) of Public Law 92-463, based on the confidential nature of information under consideration.

Dated: August 6, 1973.

By direction of the Administrator.

[SEAL] RUFUS H. WILSON,
Associate Deputy Administrator.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

STANDARDS ADVISORY COMMITTEE ON AGRICULTURE

Notice of Meetings

Notice is hereby given that the Standards Advisory Committee on Agriculture, and its subcommittees on Machinery Guarding, Nuisance Dust, Personal Protective Equipment, Farm Safety Education, and Livestock Handling, established under section 7(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (29 U.S.C. 656), will meet on Monday, August 20, 1973, starting at 8:30 a.m., and on Tuesday, August 21, 1973, starting at 8:15 a.m. in Conference Room B, Department Auditorium, on Constitution Avenue between 12th and 14th Streets, NW., Washington, D.C.

The agenda provides for the full committee to meet in an introductory session each day, after which the subcommittees will meet in separate sessions. The subcommittee meeting rooms will be announced at the introductory sessions. The subcommittees on Farm Safety Education, Machinery Guarding, Nuisance Dust, and Personal Protective Equipment are scheduled to meet on August 20. The subcommittees on Farm Safety Education, Livestock Handling, and either Nuisance Dust or Personal Protective Equipment are scheduled to meet on August 21. Each Subcommittee will continue the development of its recommendations begun at previous meetings. At 11:00 a.m. on August 21, 1973, the full committee will meet to receive and consider any interim or final recommendations of the subcommittees.

The meetings shall be open to the public. Written data, views, or arguments concerning the subjects to be considered may be filed, together with 20 copies thereof, with the Committee's Executive Secretary by August 16, 1973, or by filing them with the Executive Secretary at the meetings. Any such submissions, timely received, will be provided to the members of the committee and will be included in the record of the meetings.

Persons wishing to orally address the committee or subcommittees at any of the meetings should submit a written request to be heard, together with 20 copies thereof, to the Executive Secretary no later than August 16, 1973. The request must contain a short summary of the intended presentation and an estimate of the amount of time that will be needed. At the meetings the chairman will announce whether oral presentations will be allowed, and if so, under what conditions.

Communications to the Executive Secretary should be addressed as follows:

Executive Secretary
Standards Advisory Committees,
OSHA-OSMC
Railway Labor Building, Room 509
U.S. Department of Labor,
Washington, D.C. 20210

Signed at Washington, D.C., this 8th day of August 1973.

JOHN STENDER,
Assistant Secretary of Labor.

FOURTH SECTION APPLICATION FOR RELIEF

AUGUST 7, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with § 1100.40 of the general rules of practice (49 CFR 1100.40) and filed on or before August 27, 1973.

FSA No. 42727—*Vinyl Chloride from Norco, Louisiana.* Filed by Southwestern Freight Bureau, Agent, (No. B-429), for interested rail carriers. Rates on vinyl chloride, in tank-car loads, as described in the application, from Norco, Louisiana, to specified points in eastern territory.

Grounds for relief—Market Competition.

Tariff—Supplement 22 to Southwestern Freight Bureau, Agent, tariff 12-H, I.C.C. No. 5043. Rates are published to become effective on September 5, 1973.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice 106]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 6, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 647 (Sub-No. 9 TA) filed July 24, 1973 Applicant: EXHIBITORS SERVICE COMPANY 85 Helen Street McKees Rocks, Pa. 15136 Applicant's representative: William J. Lavelle 2310 Grant Building Pittsburgh, Pa. 15219 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods and foodstuffs*, in vehicles equipped with mechanical refrigeration, between points in Allegheny County, Pa., on the one hand, and, on the other, Batavia, Bath, Buffalo and Canandaiqua, N.Y., for 180 days. SUPPORTING SHIPPER: North Pole Storage Co., 295 W. Steuben Street, Pittsburgh, Pa. 15205. SEND PROTESTS TO: John J. England, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 2111 Federal Building, 1000 Liberty Avenue, Pittsburgh, Pa. 15222.

No. MC 2226 (Sub-No. 103 TA) filed July 26, 1973 Applicant: RED ARROW FREIGHT LINES, INC. P. O. Box 1897, 3901 Sequin Rd. San Antonio, Tex. 78206. Applicant's representative: Eugene C. Daniel (Same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, between specified points in Texas, including points in all commercial zones as follows: (1) Between Dallas and Amarillo, serving Fort Worth, Wichita Falls and all intermediate points between Wichita Falls and Amarillo, as follows: (a) From Dallas over Interstate Highway 35 E to Denton and thence over U. S. Highway 380 to Decatur, from Dallas over Texas Highway 114 to Rhome and from Dallas over the Texas Turnpike Authority Toll Road to Forth Worth and thence over U. S. Highway 287 to Decatur, thence over U. S. Highway 287 to Amarillo, and return over the same route; (b) from Fort Worth over Texas Highway 199 to Jacksboro, thence over U. S. Highway 281 to Wichita Falls, and return over the same route; (2) Between Fort Worth and Lubbock, serving all intermediate points between Jacksboro and Lubbock, and the off-route point of Hurlwood west of Lubbock, as follows: From Fort Worth over Texas Highway 199 via Jacksboro to Seymour, thence over U. S. Highway 82 to Lubbock, and return over the same route; (3) Between Wichita Falls and Abilene, serving all intermediate points except Weinert, Haskell, points between Abilene and Stamford on U. S. Highway 277 and Albany, as follows: (a) From Wichita Falls over U. S. Highway 277 to Abilene, and return over the same route; (b)

[Notice 332]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before August 30, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74524. By order of August 3, 1973, The Motor Carrier Board approved the transfer to Miller Transportation, Inc., Worthington, Ohio, of Certificate of Registration No. MC-121046 (Sub-No. 2), issued June 28, 1965, to B. A. Miller & Sons Trucking, Inc., Liberty Center, Ohio, evidencing a right to engage in transportation in interstate commerce, corresponding in scope to Certificate of Convenience and Necessity Nos. 2845-I and 9153-I dated May 13, 1960, as reissued October 20, 1961, and transferred to B. A. Miller & Sons Trucking, Inc., November 27, 1964, issued by the Public Utilities Commission of Ohio. A. Charles Tell, 100 East Broad St., Columbus, Ohio, 43215, attorney for applicants.

[SEAL] ROBERT L. OSWALD,
Secretary.

Minimum Wages for Federal and Federally Assisted Construction

General Wage Determination Decisions

V38-154 AUG 10 73 XUM

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

Modifications and Supersedeas Decisions to General Wage Determination Decisions

General wage determination decisions. General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary's of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determinations frequently and in large volume causes these procedures to be impractical and contrary to the public interest.

General Wage determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and supersedeas decisions to general wage determination decisions. Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

Modifications to general wage determination decisions. Modifications to General Wage Determination Decisions for the following States (the numbers of the decisions being modified and their dates of publication in the FEDERAL REGISTER are listed with each State):

Alabama:	
AP–1105	June 23, 1973
Kentucky:	
AP–170; AP–171	Mar. 23, 1973
AP–188	Apr. 20, 1973

SUPERSEDEAS DECISION

STATE: North Dakota

COUNTIES: Burleigh, Cass, Grand Forks, Morton, Richland, Steele, Walsh and Ward

DATE: Date of Publication

DECISION NUMBER: AQ-1,011
Supersedes Decision Number AQ-1,001 dated July 20, 1973, in 38 FR 19650
DESCRIPTION OF WORK: Building Construction (excluding single family homes and garden type apartments up to and including 4 stories).

BUILDING CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments: H & W	Pensions	Vacation	App. Tr.	Others
ASBESTOS WORKERS (Except Walsh County)	$7.19	.35	.35		.02	
BOILERMAKERS (Except Walsh County)	8.25	.30	1.00			
BRICKLAYERS; Stonemasons:						
Burleigh and Morton Counties	6.75		.15			
Grand Forks, Steel and Walsh Counties	8.00		.15			
Cass and Richland Counties	7.50	.40	.15	.30		
Ward County	6.85		.15		.02	
CARPENTERS:						
Burleigh and Morton Counties						
Carpenters	5.75					
Piledrivermen	5.875					
Grand Forks, Steele (Northern half), and Walsh Counties						
Carpenters	6.35				.02	
Piledrivermen	6.58				.02	
Millwrights	6.73				.02	
Cass, Richland, and Steele (Southern half) Counties						
Carpenters	6.56		.25			
Ward County						
Carpenters	6.28					
Piledrivermen	6.76					
Millwrights	6.51					
CEMENT MASONS:						
Grand Forks and Steel Counties	5.65		.15			
Cass and Richlands Counties	6.45					
Ward County	5.00					
ELECTRICIANS:						
Cass, Grand Forks, Richland, and Steel Counties (Grand Forks-Fargo-West Fargo-Valley City):						
Zone A (0-15 miles from all cities-0-5 miles from Grafton)	7.15	.20	1%	6%	1¾%

REMINDERS

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

This list includes only rules that were published in the FEDERAL REGISTER after October 1, 1972.

page no. and date

BLM—Mineral Collection Permits. 18883; 7–16–73

COAST GUARD—Drawbridge; Pascagoula River, Miss ... 18546; 7–12–73

FCC—Allowance of ships and survival craft engaged in public correspondence to defer the 15-minute identification requirement until the end of a message or the end of a telephone conversation 18256; 7–9–73

—FM Broadcast stations in New Berne and Morehead City-Beaufort, NC 18256; 7–9–73

—Subsidiary communications authorizations.... .... 18374; 7–10–73

—Re-regulation of Radio Television Broadcasting .. 18376; 7–10–73

HUD—Elimination of State and local government educational institutions from filing compliance reports. 18546; 7–12–73

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

HEW: FDA advisory committees; 8–30 and 8–31–73 21808

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-186]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

[Docket No. FI-187]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

The Federal Insurance Administrator finds that comment and public procedure and the use of delayed effective dates in identifying the areas of communities which have special flood or mudslide hazards, in accordance with 24 CFR Part 1915, would be contrary to the public interest. The purpose of such identifications is to guide new development away from areas threatened by flooding, a purpose which is accomplished pursuant to statute by denying subsidized flood insurance to structures thereafter built within such areas. The practice of issuing proposed identifications for comment or of delaying effective dates would tend to frustrate this purpose by permitting imprudent or unscrupulous builders to start construction within such hazardous areas before the official identification became final, thus increasing the communities' aggregate exposure to loss of life and property and the agency's financial exposure to flood losses, both of which are contrary to the statutory purposes of the program. Accordingly, the Department is not providing for public comment in issuing this amendment and it will become effective on August 13, 1973. Section 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas.

Title 32—National Defense

CHAPTER VII—DEPARTMENT OF THE AIR FORCE

SUBCHAPTER H—AIR FORCE RESERVE OFFICERS' TRAINING CORPS

PART 870—AIR FORCE RESERVE OFFICERS' TRAINING CORPS

Correction

In FR Doc. 73-15803 appearing at page 21147 for the issue of Monday, August 6, 1973, make the following changes:

1. In § 870.38, paragraph (b) (3) (iv) should read as follows: (iv) Are ineligible for monetary assistance under the CSP.

2. In § 870.40, line eleven should read "proved by the Secretary of Defense. Vir-".

3. In § 870.86, the entry for line 2, column B has inadvertently been omitted. The entry should read "up to, but not exceeding an equivalent portion of the GMC".

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER C—ACCOUNTS, RECORDS, AND REPORTS

[Order 35029]

PART 1203—EXPRESS COMPANIES

At a session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 26th day of July 1973.

Uniform System of Accounts

It appearing, that, pursuant to the Administrative Procedure Act (5 U.S.C. 553) and section 20 of the Interstate Commerce Act, this Commission issued a notice of proposed rulemaking dated December 9, 1968, setting forth a proposed revised system of accounts for express companies; that the notice of proposed rulemaking was published in the FEDERAL REGISTER on December 13, 1968 (33 FR 18496) and all interested persons were invited to participate in this proceeding by submitting their views in writing; and that REA Express, Inc. (formerly Railway Express Agency, Incorporated) on October 7, 1969, submitted an alternative accounting system for consideration, and petitioned for its adoption in lieu of the system initially proposed;

It further appearing, that, by order dated November 28, 1969, the Commission suspended the existing accounting system for express companies for one year effective January 1, 1970, and permitted REA to use its alternative accounting system during the suspension period; that the suspension was subsequently extended; that, by a supplemental notice of proposed rulemaking served December 11, 1969, the Commission notified the public that REA had submitted an alternative system of accounts, directed REA to provide interested persons with copies of its proposed system, and requested interested persons to submit comments in regard thereto; and that a response was received from the National Motor Freight Traffic Association, Inc. (NMFTA);

It further appearing, that NMFTA in its response stated that REA's proposed system of accounts is defective in that it does not provide necessary separations between domestic and international and/or surface and air transportation in the accounts provided for cargo handling and marketing expenses;

It further appearing, that REA's proposed system of accounts has been revised in the appendix to this order to conform with the statutory requirements set forth in the Revenue Act of 1971 (Public Law 92-178); that this act, in addition to restoring the investment tax credit, also provides that no taxpayer shall be required to use, for the purpose of financial reports subject to the jurisdiction of any Federal agency or reports made to any Federal agency, any particular method of accounting for credit allowed by such act; that this Commission, in Docket No. 34178 (Sub-No. 1, amended its accounting regulations in Parts 1201, 1202, and 1204 through 1210 of Title 49 of the Code of Federal Regulations to permit carriers subject to those parts to account for the investment tax credit allowable under the Revenue Act of 1971 by either the flow through or the deferral method; and that this change will bring the revised accounting regulations, to be added as Part 1203, in conformity with the provisions of the Revenue Act;

And it further appearing, that REA is now the only remaining express company subject to the Commission's jurisdiction; that the system of accounts proposed and now used by REA is designed to meet the specific needs of express companies; that said system is adaptable for use with modern electronic computer systems and conforms with generally accepted accounting principles; that the existing accounting system for express companies was adopted in 1914 and is not designed to meet current managerial and reporting needs; that REA has been operating pursuant to its proposed system of accounts since January 1970 and has converted its 4,000 terminal and office facilities to this system; that the Commission and REA have evaluated their respective experiences with the proposed system and have found that, subject to certain minor revisions, this system meets the needs of REA, the Commission, and the public in general; and that the uniform system of accounts for express companies set forth below should be adopted;

Wherefore, and good cause appearing therefor;

We find, that no need has been shown for requiring the maintenance by express companies qualifying to use the accounting system prescribed herein of the separate accounts requested by NMFTA, and that such express companies shall not be required to maintain separate accounts for operations which may qualify them as carriers of another mode under the Interstate Commerce Act;

We further find, that, effective January 1, 1973, the accounting regulations for express companies should be revised as shown in the appendix to this order, and should be published in Part 1203, to be added to Chapter X, Subchapter C of Title 49 of the Code of Federal Regulations; that such rules are reasonable and necessary to the effective enforcement of the provisions of Part I of the Interstate Commerce Act, as amended; that such regulations are otherwise lawful and are consistent with the public interest and the national transportation policy; and that this decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969;

It is ordered, That the appended uniform system of accounts be, and it is hereby, adopted and required for use by express companies, effective January 1, 1973.

It is further ordered, That the petition of REA Express, Inc., filed on October 7, 1969, except to the extent granted herein be, and it is hereby, denied.

It is further ordered, That this order shall be effective September 25, 1973.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

(5 U.S.C. 553; 49 U.S.C. 20(3); and 54 Stat. 917)

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

(i) *Definitions.* When used in this system of accounts:

1. "Accounts" means the accounts prescribed in this system of accounts.

2. "Actually issued," as applied to securities, means those which have been sold to bona fide purchasers for a valuable consideration (including those issued in exchange for other securities or other property) so that the purchasers secured them free from control by the issuing carrier, also securities issued as dividends on stock, and those which have been issued in accordance with contractual requirements direct to trustees of sinking and other funds.

3. "Actually outstanding," as applied to securities issued or assumed by the carrier, means those which have been actually issued and are neither retired nor held by or for the carrier; provided however, that securities held by trustees of sinking and other funds shall be considered as actually outstanding.

4. "Addition" means structures, facilities or equipment added to those in service, or the extension or enlargement of existing property, and not taking the place of anything previously existing.

5. "Affiliated companies" means persons (see definition 31) that directly, or indirectly through one or more intermediaries, control or are controlled by, or are under common control with the accounting carrier.

6. "Amortization" means the gradual extinguishment of an amount in an account by prorating such amount over either a fixed period dependent on the

V 38 155 AUG 13 73 XUM

requirements of regulatory bodies, the life of the asset or liability to which it applies, or over the period during which it is anticipated the benefit will be realized.

7. "Betterment" means alterations or changes in structural design of property which result in increased service life or efficiency.

8. "Book cost" means the amount at which property is recorded on the books of the carrier without deduction of related reserves.

9. "Carrier" means any express company subject to the Interstate Commerce Act.

10. "Carrier operating property" means the property which is used (see definition 40) by the carrier in the conduct of its express operations or leased to others for such operations, and which has an expectation of life in service of more than one year from date of installation. This includes land, strutures, equipment, and facilities necessary for such operations and services incidental thereto.

11. "Company" means any individual, firm, copartnership, corporation, association, or joint-stock association; and includes any trustee, receiver, assignee, or personal representative thereof. (See definition 31)

12. "Commission" or "the Commission" means the Interstate Commerce Commission.

13. "Contingent assets" means a possible source of value to the carrier dependent upon the fulfillment of conditions regarded as uncertain.

14. "Contingent liabilities" means items which may under certain conditions become obligations of the carrier but which are neither direct nor assumed liabilities at the date of the balance sheet.

15. "Control" (including the terms "controlling," "controlled by," and "under common control") as used in context with "person" (see definition 31) means the possession directly or indirectly, of the power to direct or cause the direction of the management and policies of a person whether through the ownership of voting securities, by contract or otherwise. If in any instance the existence of control is or may be open to reasonable doubt, the carrier shall report to the Commission all of the material facts pertinent to the possible existence of control.

16. "Cost" means the amount of money actually paid for property or services, or the current cash value of the consideration given when other than money.

17. "Cost of removal" means the cost of demolishing, dismantling, tearing down, or otherwise removing operating property, including the cost of transportation and handling incident thereto.

18. "Current assets" means cash as well as those assets that are readily convertible into cash or are held for current use in operations or construction; current claims against others, payment of which is reasonably assured; and other amounts accruing to the carrier which are subject to settlement within one year from the date of issue or upon demand.

19. "Current liabilities" means those obligations the amount of which is definitely determined or closely estimated which are either matured or become due within one year from date of issue or assumption, or upon demand.

20. "Date of retirement" as applied to operating property, means the date at which such property is permanently withdrawn from service.

21. "Debt expense" means all expense in connection with the issuance and sale of evidences of debt, such as fees for drafting mortgages and trust deeds; fees and taxes for issuing or recording evidences of debt; cost of engraving and printing bonds, certificates of indebtedness, and other evidences of debt; fees paid trustees; specific costs of obtaining governmental authority; fees for legal services; fees and commissions paid underwriters; brokers, and salesmen for marketing evidences of debt; fees and expenses of listing on exchanges; and other like costs.

22. "Delayed items" means items relating to transactions which occurred before the current year. It includes adjustments of errors in the income, operating revenue, and operating expense accounts of prior years. (See general instruction 1–7.)

23. "Depreciation", as applied to depreciable property, means the loss in service value (see definition 37) not restored by current maintenance, incurred in connection with the consumption or prospective retirement of property in the course of service from causes against which the carrier is not protected by insurance, which are known to be in current operation. Among the causes to be given consideration are wear and tear, decay, action of the elements, obsolescence, changes in the art, inadequacy, changes in demand, and requirements of public authority.

24. "Discount", as applied to securities issued or assumed by the carrier, means the excess of the par or face value of the securities plus interest or dividends accrued at the date of the sale over the cash value of the consideration received from the sale.

25. "Long-term obligations" means obligations having a life of more than one year from date of creation or assumption, all unmatured bonds and receivers' or trustees' certificates, and demand obligations which by mutual agreement will not be paid within one year from date of issue.

26. "Mileage method", as applied to depreciation of vehicles, means the plan under which the service value is charged to depreciation expenses and credited to depreciation reserves at a fixed rate per mile run.

27. "Minor items", as applied to carrier operating property (see definition 10), means the associated parts or elements of which units of property (see definition 39) are composed.

28. "Net book cost", when applied to property, means the book cost (see definition 8) less related depreciation and amortization reserves.

29. "Nominally issued", as applied to securities issued or assumed by the carrier, means those which have been signed, certified, or otherwise executed and placed with the proper officer for sale and delivery, or pledged, or otherwise placed in some special fund of the carrier, but which have not been sold or issued directly to trustees of sinking funds in accordance with contractual requirements.

30. "Nominally outstanding" means actually issued securities which have been reacquired by or for the carrier under circumstances which require the securities to be held alive and not retired or cancelled.

31. "Person" when not otherwise indicated in the context, means an individual, a corporation, a partnership, an association, a joint-stock company, a business trust, or any other organization, or any receiver or trustee.

32. "Premium", as applied to securities issued or assumed by the carrier, means the excess of the cash value of the consideration received from their sale over the sum of their par (stated value of no-par stocks) or face values plus interest or dividends accrued at the date of sale.

33. "Property retired", as applied to operating property, means property which has been removed, sold, abandoned, destroyed or which for any cause has been permanently withdrawn from service.

34. "Replacing" or "replacement" means the acquisition, construction, or installation of property in place of property of like purpose retired, together with the removal of the property retired.

35. "Salvage value" means the amount received for property retired, less any expenses incurred in connection with the sale or in preparing the property for sale; or, if retained, the amount at which the material recovered is chargeable to account 116–Material and Supplies, or other appropriate account.

36. "Service life" means the period between the date when carrier operating property (see definition 10) is placed in service and the date of its retirement. (See definition 33)

37. "Service value" means the difference between the book cost (see definition 8) and the salvage value (see definition 35) of carrier operating property.

38. "Straight line method", as applied to depreciation accounting, means the plan under which the service value (see definition 37) of property is charged to depreciation expenses or other appropriate accounts and credited to the depreciation reserves through equal periodic charges as nearly as may be during its service life.

39. "Unit of property", for the purpose of this system of accounts, means any item of carrier property which when retired, with or without replacement by sale, abandonment, disposal or replacement, is accounted for by crediting the book cost (see definition 8) thereof to the operating property account in which it is included.

40. "Used", as applied to operating property, means actually and necessarily in current service or ready for and reasonably required to be currently held for future service.

GENERAL INSTRUCTIONS

1–1 Classification of accounts.

(a) Accounts are prescribed to record the cost of property used in express and related operations and for revenues, expenses, taxes, rents and other items of income for such operations. Separate accounts are prescribed for cost of property not used in express operations and for income and expenses applicable thereto; for other investments and related income; for extraordinary and prior period items including applicable income taxes; and for assets, liabilities and shareholders' equity.

(b) All items of profit and loss recognized during the year are includible in ordinary income, except nonrecurring items (which in the aggregate) for the same class are both material in relation to operating revenues and ordinary income for the year, and are clearly not identified with or do not result from the usual business operations of the year. Important items of the kind which occur from time to time and which, when material in amount, are to be excluded from ordinary income are those resulting: (1) From unusual sales of property and investment securities other than temporary cash investments; (2) from company bonds reacquired, from wars, earthquakes and similar calamities and catastrophes, which are not a recurrent hazard of the business and which are not usually covered by insurance; (3) from change in application of accounting principles; (4) from prior period items (other than ordinary adjustments of a recurring nature). Material items are those which, unless excluded from ordinary income, would distort the accounts and impair the significance of ordinary income for the year. Items so excludible from ordinary income are to be entered directly in the income accounts provided for extraordinary and prior period items upon approval or direction of the Commission.

(c) Adjustments constituting items of customary business activities or corrections or refinements resulting from the natural use of estimates inherent in the accounting process, including those arising from disposal of a unit of property sold or retired in the regular course of business operations, shall not be considered extraordinary or prior period items regardless of size.

(d) In determining materiality, items of a similar nature shall be considered in the aggregate; dissimilar items should be considered individually. As a general standard, an item to qualify for inclusion as an extraordinary or prior period item, shall exceed one percent of total operating revenues and ten percent of ordinary income for the year.

1–2 Accounting scope.

(a) This system provides for accounting methods which channel a multitude of details into journals: cash receipts, revenues, purchases, expenses, cash disbursements, payroll, operating property, services rendered, and others. These journals pass on their information to the general ledger, the terminal point of all accounting entries and the summary of all activities. The general ledger and the financial statements stemming therefrom demand the highest degree of accuracy; accuracy in summaries of great masses of detail, in the shortest possible time. The financial statements are the significant facts in summary form, supplemented by comparative data.

(b) The general ledger represents the control or master records and the details supporting these master records are assigned, in some cases, to subsidiary ledgers: accounts receivable, inventories, operating property, accounts payable, payroll, and capital shares.

The basic requirements for general ledger accounting procedures are:

(1) Chart of accounts—preparation of account classification.
(2) Source records—processing original data for multiple use.
(3) Trial balance—proof of the general ledger and a summary record of all the carrier's transactions.
(4) Income statement—total revenues less expenses.
(5) Balance sheet—assets less liabilities equal shareholders' equity.

Each general ledger account is coded with a five digit account number. The account number comprises a three digit primary account number and a two digit secondary account number.

(c) Nine broad divisions of accounts include all types of accounts reflecting express company operations:

(1) Assets—things owned by the carrier or amounts owed to the carrier.
(2) Liabilities—amounts owed by the carrier.
(3) Operating revenues—amounts received from the sale of express and other services to customers.
(5) Operating expenses—amounts paid to employees and vendors for services and supplies; also, taxes other than income taxes.
(6) Nonoperating income—amounts received for interest and other income earned in non-express activities.
(7) Nonoperating expenses—amounts paid for interest and other expenses incurred in non-express activities.
(8) Income taxes on ordinary income—amounts paid to the federal government for taxes based on ordinary income.
(9) Extraordinary and prior period items—unusual, large, and nonrecurring items which would distort the accounts if included in ordinary income.

An orderly account classification is necessary to the preparation of well arranged and intelligible financial statements. This is accomplished by the chart of accounts which possesses certain characteristics:

(1) Explicit account names.
(2) Sequentially numbered accounts.
(3) Accounts arranged in the order used for financial statements.
(4) Simple yet comprehensive format, with room for expansion and with provision for location number.

(d) Starting with the first digit of the primary account number, the coding is organized as follows:

Balance Sheet Groups		*Income Statement Groups*	
100	Assets	300	Operating revenues
200	Liabilities	500	Operating expenses
		600	Nonoperating income
		700	Nonoperating expenses
		800	Federal income taxes on ordinary income
		900	Extraordinary and prior period items

Then, the second digit of the primary balance sheet account numbers is further divided into classes:

110 Current assets
120 Tangible property
130 Permanent investments
140 Other assets
210 Current liabilities
220 Long-term obligations
230 Advances payable
240 Other liabilities
250 Shareholders' equity

The third digit of the primary balance sheet classes, then, represents the nature of the asset or liability:

111 Cash
112 Temporary investments
113 Notes receivable
114 Accounts receivable
115 Allowance for uncollectible receivables
116 Material and supplies
117 Prepayments
118 Affiliate receivables
119 Other current assets
121 Operating property
122 Accumulated depreciation on operating property
123 Nonoperating property
124 Accumulated depreciation on nonoperating property
131 Affiliate investments
132 Other investments
141 Intangible property
142 Accumulated amortization (intangible property)
143 Deferred charges
144 Special funds
211 Current long-term debt
212 Dividends declared
213 Notes payable
214 Accounts payable
215 Income taxes accrued
216 Other taxes accrued and withheld
217 Accrued expenses
218 Affiliate payables
219 Other current liabilities
221 Equipment obligations
222 Bonds
223 Other long-term obligations
231 Affiliate advances payable
232 Other advances payable
241 Accumulated provision for self-insurance
242 Deferred credits
251 Preferred stock
252 Common stock
253 Capital stock subscribed
254 Capital surplus
255 Retained income

The second digit of the primary income statement account number is further divided into classes:

310 Domestic express
320 Foreign express
330 Interline express
340 Other express
350 Other revenue
510 Equipment maintenance
520 Transportation
530 Terminal
540 Operations
550 Marketing
560 Finance and administration
570 Personnel
580 Exclusive air operations
590 Executive

V 38 155 AUG 13 73 XUM

610 Noncarrier income
620 Interest income
630 Dividend income
640 Other income
710 Interest expense
720 Debt expense and credit
730 Other expenses
810 Federal income taxes on ordinary income
910 Extraordinary items (net)
920 Prior period items (net)
930 Income taxes on extraordinary and prior period items

The third digit of the primary income statement classes, then represents the nature of the revenue or the function of the expense:

311 Domestic surface express
312 Domestic air express
321 Foreign surface express
322 Foreign air express
331 Interline surface express
332 Interline air express
341 Miscellaneous express
351 Advertising revenue
352 Customs brokerage fees
353 C. O. D. service fees
354 Storage fees
355 Miscellaneous revenue
511 Maintenance management
512 Line haul maintenance
513 (1) Pickup and delivery maintenance
514 Service cars
515 Railroad car maintenance
522 Line haul transportation
523 (1) Pickup and delivery transportation
524 Air transportation
525 Railroad transportation
531 (1) Terminal management
532 (1) Cargo handling
534 (1) Property maintenance
541 Operations management
542 Fleet maintenance
543 Transportation management
544 Engineering and real estate
552 (1) Sales

(1) Does not include exclusive air terminals.

553 Freight claims
554 Surface advertising
555 Air advertising
556 Market research
557 Traffic
559 International services
561 Banking and corporate accounting
562 Disbursements
563 Budget and cost
564 Revenue billing
565 Tax and insurance
566 Internal auditing
567 Data processing
568 Systems and programming
569 Credit and collection
571 Personnel management
572 Office services
573 Employee benefits
581 Pickup and delivery maintenance—exclusive air
582 Pickup and delivery transportation—exclusive air
583 Cargo handling—exclusive air
584 Terminal manageemnt—exclusive air
585 Air services management
587 Property maintenance—exclusive air
588 Sales and marketing—exclusive air
591 Executive management
592 Law
593 Purchasing
594 Security
611 Noncarrier revenues
612 Noncarrier expenses
621 Investment interest income
622 Affiliate interest income
623 Miscellaneous interest income
631 Investment dividend income
632 Affiliate dividend income
641 Miscellaneous income
711 Investment interest expense
712 Affiliate interest expense
721 Debt discount expense
722 Debt premium credit
731 Miscellaneous expenses
811 Federal income taxes
813 Other income taxes
911 Extraordinary items (net)
921 Prior Period Items (net)
931 Income taxes on extraordinary and prior period items

(e) The secondary account number of balance sheet classes is used, in sequence, for detailed identification of the account.

Primary	Secondary	Title
111	00	Cash
111	01	ABC Bank
111	02	DEF Bank
111	03	GHI Bank
111	04	JKL Bank

Thus, applying the balance sheet account numbering system, money on deposit in an account with the JKL Bank is identified by the account number 111–04.

The secondary account number of income statement classes (except operating expenses accounts) is used, in sequence, for detailed identification of the account in the same manner as balance sheet accounts.

The secondary account numbers of operating expense accounts represent the objective of the expense:

01 Payroll
02 Employees welfare
03 Advertising
04 Taxes and licenses
05 Utilities
06 Supplies
07 Services purchased
08 Unclassified
09 Traveling
10 Communications
11 Pensions
12 Insurance
13 Depreciation
14 Professional services
15 Donations
16 Uncollectible revenues
17 Equipment rentals
18 Purchased transportation
19 Commission agents
20 Real Property rentals
21 Tires and tubes
22 Motor fuel and oil
23 Demurrage and detention
24 Regulatory fees
25 Surface substitute service
26 Gain or loss on sale of assets (unit method)

or the nature of the clearing account:

91 Maintenance transfers
92 Transportation transfers
93 Other expense transfers
94 Interdepartment transfers
95 Other credits
96 Multi-terminal distribution

Thus, applying the income statement numbering system, traveling by personnel of the sales division is identified by the account number 552–09.

(f) Where no secondary account number has been indicated for a primary account in the balance sheet and income statement classes, the secondary account number "01" is implied. It takes the same account title as that shown for the primary account.

(g) Subdivisions of any account in this system may be kept to indicate the terminal, garage, office or other location involved. (See general instruction 1–17)

1–3 Records.

(a) The accounts prescribed in this system shall be kept by carriers engaged in performing express transportation services. Subdivisions of any of the prescribed accounts also may be kept provided that the integrity of such prescribed account or accounts is not impaired thereby. The Commission reserves the right to order carriers to subdivide any account in this system of accounts.

(b) Each carrier shall keep its books of account, and all other books, records and memoranda which support the entries in such books of account, so as to be able to readily furnish full information pertaining to every item included in any account. Each entry shall be supported by such detailed information as will permit ready identification, analysis, and verification of all facts applicable thereto.

(c) The books and records referred to herein include not only accounting records in a limited technical sense, but all records, such as minute books, stock books, reports, correspondence, memoranda, etc., which may be useful to developing the history of or facts relating to any transaction.

(d) The carrier shall not destroy any such books or records unless the destruction thereof is permitted by the Regulations to Govern the Destruction of Records of Express Companies.

1–4 Accounting period.

(a) Each carrier shall keep its books on a calendar year basis. All transactions applicable thereto, as nearly as can be ascertained, including full accruals, shall be entered in the books of original entry (cash book, purchase journal, etc.) and posted to the general ledger. A trial balance of the general ledger accounts shall be prepared at the close of each month. At the end of the year, the revenues, expense and other income accounts shall be closed into retained income or the noncorporate capital accounts; and balance sheet account balances shall be brought forward to the general ledger for the succeeding year.

(b) The final entries for any month shall be made in the general ledger not later than 60 days after the last day of the month for which the accounts are stated, unless otherwise authorized by the Commission, except that the period within which the final entries for the last month of the year shall be made may be extended by another 30 days, following the 60 days referred to above, to allow adequate time for the closing of the year's accounts.

(c) After the accounts of the carrier have been closed for the calendar year no changes can be made in such accounts

thereafter unless approval is first requested and given by the Commission.

1–5 Interpretation of prescribed accounting.

The cross-reference included in, and notes following, the texts of various instructions and accounts are for the purpose of indicating the applicable provisions of other sections. Such references are not to be construed as comprising a complete list of the instructions relating to a particular subject, since the definitions, the general instructions, and the text of each account must be given consideration in determining the prescribed accounting.

1–6 Item lists.

List of items appearing in the texts of the several accounts are given for the purpose of indicating the application of the prescribed accounting in specific cases. The lists are not to be considered as comprising all items includible in the accounts, but merely as representative of them. On the other hand, the appearance of an item in a list warrants the inclusion of such item in the account concerned only when the text of the account also indicates inclusion, inasmuch as the same item frequently appears in more than one list. The proper entry in each instance must be determined by the texts of the accounts.

1–7 Delayed items.

Ordinary delayed items and adjustments arising during the current year which are applicable to prior years shall be included in the same account which would have been charged or credited if the item had been taken up or adjusted in the year to which it pertained. When the amount of a delayed item or adjustment is relatively so large that its inclusion in net income for a single month would seriously distort the accounts for the month (but not for the year), such amount may be distributed in equal monthly charges or credits, as the case may be, to the remaining months of the year. See general instruction 1–1(b) as to delayed items which would distort the accounts for the year.

1–8 Accounting method.

(a) The system of accounts shall be kept by the accrual method of accounting. Items of income and expenses shall be accrued each month on a consistent basis. The carrier shall promptly report to the Commission unusual accruals and changes in accrual basis or practices which have the effect of including or excluding material amounts from the accounts.

(b) Estimated accruals shall be recorded on the basis of the best information available. Such estimates shall be modified in conformity with later and more up-to-date information and adjusted to the actual amounts of income or expenses involved promptly when that information is known or becomes determinable. Accrual accounting is not required for minor items which do not appreciably affect the accounts.

1–9 Acquisition by merger, consolidation or purchase.

(a) Where property is acquired by business combination of two or more corporations, the accounting for the transaction shall depend on whether there has been (1) merger or consolidation on a "pooling of interests basis" or (2) a "purchase basis".

(b) In accounting for a pooling of interests, no new basis of accountability arises. The assets, liabilities, and retained income, or deficit, if any, of the predecessor company shall be recorded in the accounts of the transferee at amounts carried on the books of the predecessor company at date of consummation of the transaction. Such amounts shall be adjusted, if necessary, to conform with the rules in this system of accounts. Where one of the stockholders obtains 90 percent or more of the voting interest in the combined enterprise, there is a presumption that the transaction is a purchase rather than a pooling of interests and the transactions shall be so accounted for, unless otherwise directed or authorized by the Commission.

When the total par value or stated value of no par capital stock of the surviving company is more than the aggregate total of the capital stock of the separate companies before merger or consolidation, the excess shall be charged to account 254–02–other capital surplus, or to account 255–02–unappropriated retained income, if unrestricted capital surplus is not available for such purpose.

When the total par value or stated value of no par capital stock of the surviving company is less than the aggregate total of the capital stock of the separate companies before merger or consolidation, the difference shall be credited to account 254–02—other capital surplus.

(c) When physical property and other assets are purchased, the amounts includible in the accounts for carrier operating property, noncarrier property, and intangible property which includes certificates and permits issued by regulatory agencies to engage in transportation operations, shall be based on the cost to the buyer of each such asset. Other assets acquired and the liabilities assumed shall be recorded in the appropriate prescribed accounts in the amounts shown in the books of the seller, adjusted as may be necessary to conform with this system of accounts. When separate costs for the physical property and the intangible property are not indicated in the purchase and sale agreement, or otherwise disclosed in the application or record in the proceeding, a reasonable amount carefully ascertained based on the best information obtainable representing a fair portion of the total purchase price shall be assigned to each such class of property.

In ascertaining the portion of the total purchase price assignable to the intangible property, due consideration shall be given to past earnings attributable to the property acquired and to other pertinent factors appropriate in ascertaining the value of intangible property in accordance with sound accounting principles for which there is authoritative support. The portion of the total purchase price assignable to the physical property shall be substantiated by an appraisal made by a disinterested qualified appraiser and such other documentary evidence as the Commission may require. The amount shown on the books of the seller for the physical property together with the accrued depreciation may be used in lieu of such an appraisal providing that the books of the seller have been kept in accordance with the rules of this Commission and the amount is fairly representative of the purchase price of such property.

The aggregate amount recorded in the accounts for the intangible property and the other assets acquired, shall in no case exceed the total purchase price thereof.

(d) Detailed records, including copy of each appraisal report, shall be maintained showing the basis used for computing amounts included in the tangible property, intangible property, other capital surplus, retained income and other accounts. Full details showing the purchase price, the principals from whom the property was acquired, and agents who represented such principals shall be stated in the journal entries recording the acquisition of the property.

1–10 Amortization of intangibles.

(a) Amortization accounts shall be established to provide for the retirement of the cost of permits, franchises, patents or other intangibles upon the expiration of their life term.

Accretions to these accounts shall be made through equal charges each month to the appropriate account or accounts over the life terms of the intangibles.

(b) When it becomes reasonably evident that the term of existence of an intangible, the cost of which is included in account 141, Intangible property, has become limited or its value impaired, its cost shall be amortized through account 731, Miscellaneous expenses, or it may be entirely written off by charge to this account, or the entire cost, when qualifying as extraordinary pursuant to general instruction 1–1, may be written off by debit to account 911, extraordinary items, with concurrent credit to account 142, accumulated amortization on intangible property.

(c) When intangibles covered by amortization accruals terminate at the close of their life terms or become invalid for whatever cause, the book costs of such items shall be credited to the investment account. Concurrently, the related accumulated amortization accounts shall be charged with the amounts provided therein with respect to the retired intangibles, and any remaining difference shall be charged to the expense or ordinary income accounts prescribed therefor as appropriate.

1–58 Nuisance.

(a) Secondary operating expense account 12–Insurance, shall be used for recording monthly write-off of amounts

V 38 155 AUG 13 73 XUM

of prepaid premiums paid to commercial insurance companies and charges for the purpose of maintaining self-insurance. Amounts payable by the carrier in settlement of cargo loss and damage claims not recoverable from insurance companies or others, shall be charged to the appropriate self-insurance account.

(b) Fire, theft and collision and other insurance costs are to be charged to secondary operating expense account 12–insurance. Inasmuch as such risks represent losses that may be sustained by the carrier rather than claims against it by others, coverage by commercial insurance or self-insurance is not a mandatory requirement, and if no provision is made for such coverage, losses from fire, theft or collision shall be charged to the appropriate expense accounts if owned or leased property is repaired, or if retired from service, handled in accordance with carrier property instruction 3–3.

(c) Accumulated provisions for self-insurance of cargo loss and damage and other loss and damage claims shall be included in account 241–04–surface cargo loss, and acount 241–05–air cargo loss, as the case may be.

Monthly charges to expense accounts for the purpose of creating self-insurance liability shall be determined currently by the carrier from its best source of information and the rates used may be based on percentage of revenue, mileage of vehicles, or other equitable bases.

(d) Amounts payable by the carrier in settlement of cargo and other loss and damage claims, including those paid by the carrier for which it will be reimbursed wholly or in part by insurance companies, connecting carriers or others, shall be charged to the self-insurance accounts. Parts of such claims that are payable by insurance companies or others, less any adjustment for salvage recovered, shall, when their liability is determined, be credited to the self-insurance accounts previously charged.

(e) The cost of repairs to owned or leased carrier operating property involved in accidents or damaged by fire or other causes, and of replacing damaged or destroyed property leased from others, shall be charged to the appropriate expense accounts. When the amounts receivable from insurance companies or others in full or partial reimbursement of such costs, if any are determined, they shall be credited to the expense accounts previously charged, together with the value of salvaged materials recovered.

(f) Insurance premiums paid in advance to commercial insurance companies shall be charged to account 117–02–prepaid insurance, and distributed to the appropriate insurance expense accounts in monthly installments over the period for which the premiums have been paid except that minor premiums may be charged direct to the secondary insurance expense account. If it is anticipated that a dividend or refund will be received on prepaid premiums at the end of the year or other period covered by the insurance, an amount equal to the estimated dividend or refund shall be retained in account 117–02–prepaid insurance and the balance of the premium shall be charged to secondary expense accounts in monthly installments as described above. When the dividend or refund is received, it shall be credited to account 117–02–prepaid insurance. Any discrepancy between the estimated dividend or refund and the amount actually received shall be adjusted to the appropriate secondary insurance expense accounts. If insurance premiums are paid on a monthly basis and it is anticipated that a dividend or refund will be received at the end of the year, a part of each monthly payment equal to one-twelfth of the estimated dividend shall be charged to account 117–02–prepaid insurance and the balance of the payment shall be charged to the secondary insurance expense account. When the actual dividend is received, it shall be accounted for as described above.

1–12 Taxes and licenses.

Taxes, licenses and tolls relating to express operations and property, payable to Federal, State, county, municipal and other taxing authorities, shall be charged to secondary expense account 04–Taxes and Licenses. Where appropriate, an amount shall be charged each month with concurrent credits to account 117–01–prepaid taxes and licenses. When it is not possible to determine the actual amount of the tax, it shall be estimated and adjusted when the actual tax becomes known.

1–13 Joint facilities.

Where a joint facility operated by others, is used by the reporting carrier under a joint facility arrangement, any amounts paid by the carrier as its share of operation and maintenance costs shall be charged to secondary operating expense account 20–real property rentals. Do not include in secondary operating expense account 20–real property rentals, expenses such as taxes, supplies, repairs, insurance, depreciation and interest when paid for separately and directly by the reporting carrier, since such expenses should be charged to the specific expense accounts provided for those classes of expenditures. Expenses such as depreciation, taxes or others in the joint facility, when the property is owned by the operating carrier, shall be charged to the respective appropriate secondary operating expense accounts. Any payments received by the operating carrier shall be credited to secondary operating expense account 20–real property rentals.

1–14 Allocation of maintenance expenses among line haul, pickup and delivery and service cars.

(a) All maintenance expenses that can be directly charged to line haul, pickup and delivery or service car maintenance shall be so charged. All other maintenance expenses which cannot be readily distinguished shall be charged to line haul maintenance and prorated at the end of each month to pickup and delivery and service car maintenance.

(b) Proratable maintenance costs shall include the following secondary operating expense accounts:

01 Payroll
.04 Taxes and licenses
06 Supplies
07 Services purchased
22 Gas and oil

(c) The use of prorating joint maintenance expenses shall be restricted to those instances which do not lend themselves to direct charging.

1–15 Employees' welfare expenses.

(a) Primary operating expense account 573–employee benefits shall be used to record expenditures made for employees' welfare. Such expenditures shall include the following classes of items:

(1) Contributions to health and welfare funds, whether under contract arrangements with labor organizations or otherwise.
(2) Premiums on group insurance policies for benefit of employees or their beneficiaries.
(3) Payments to trustees under profit sharing and pension plans or the benefits of employees in active service.
(4) Payments for pensions directly to retired employees or to their beneficiaries when no trust fund exists.
(5) Payments to or on behalf of employees other than claims covered by Workmen's Compensation Acts.
(6) Vacation accrual for all employees.

(b) Such expenses shall be apportioned to the appropriate primary operating expense accounts in the same ratio as their pay is distributed to primary operating expense accounts or on some other equitable basis.

(c) No charges to primary operating expenses account 573–employee benefits shall be made in anticipation of future discretionary payments.

1–16 Interpretation of rules.

The carrier shall submit questions of doubtful interpretation to the Commission for consideration and decision.

1–17 Tertiary accounts.

The carrier may subdivide any account in this system of accounts to show the terminal, garage, office or other location involved.

1–18 Accounting for the investment tax credit.

(a) Carriers electing, as provided in the Revenue Act of 1971, to account for the investment tax credit by the flow-through method shall charge account 810, income taxes on ordinary income, or account 931, income taxes on extraordinary and prior period items, as applicable and shall credit account 215, income taxes accrued, with the estimated Federal income taxes payable which is net of the investment tax credit utilized as a reduction of the tax liability in the current year.

(b) Carriers electing the deferral method to account for the investment tax credit shall, concurrently with making the entries prescribed in (a) above,

charge account 810, income taxes on ordinary income, or account 931, income taxes on extraordinary and prior period items, as applicable and shall credit account 242, deferred credits, with the investment tax credit utilized as a reduction of the current year's tax liability but deferred for accounting purposes. The investment tax credits so deferred shall be amortized by credits to account 810, income taxes on ordinary income, over the life of the assets to which they relate.

(c) Any change in practice of accounting for the investment tax credit shall be reported promptly to the Commission. Carriers desiring to clear account 242 of the amounts representing deferred investment tax credits because of a change from the deferral method to the flow-through method shall submit the proposed journal entry to the Commission for consideration and advice.

INSTRUCTIONS FOR BALANCE SHEET ACCOUNTS

2–1 Current assets.

(a) This group of accounts shall include all assets and resources which reasonably may be expected to be realized in cash or sold or consumed within one year; such as, unrestricted cash, assets readily convertible into cash, or that are held for current use in operations, current claims against others, and amounts of whatever nature accruing to the carrier which are reasonably certain of being settled within one year.

(b) There shall not be included in the current asset group any item the collectibility of which is not reasonably assured, or for which adequate provision for uncollectibility has not been made. Items of current character but of doubtful value not so provided for shall be written down or written off to the expense or ordinary income accounts prescribed therefor, as appropriate.

2–2 Investments—special funds.

(a) Include in this classification the cost of long-term investments in securities of others, investment advances and all similar items of a non-current character, such as cash or securities deposited with trustees of sinking funds, or deposited to guarantee contract performance or for other specific purposes under conditions preventing their use in current operations.

(b) Investment in securities shall be recorded at cost exclusive of amounts paid for interest or dividends accrued thereon when acquired. If for some reason the value of certain owned securities becomes either permanently impaired or worthless, the investment therein shall be promptly written down or written out of the accounts as appropriate in the circumstances. Such losses in value of securities written off, if material, shall be charged to account 911–extraordinary items (see general instruction 1 (b)), otherwise charge to account 731–08–miscellaneous, sundry expenses.

2–3 Current liabilities.

This category shall include all liabilities and debts ordinarily subject to current payment and those which will become subject to settlement and payment within one year.

2–4 Long term debt due after one year.

This classification comprises those obligations and debts which do not become subject to payment and liquidation until more than one year from the date of the balance sheet. Among other long-term obligations, include in this classification, mortgages, leases that are clearly in substance installment purchases, bonds, debentures and other issues of debt securities which do not mature for more than one year from the date of the balance sheet. Debt securities shall be recorded in the appropriate liability account at par value; any premiums realized or discount sustained shall be included in the proper balance sheet accounts prescribed therefor and amortized monthly.

2–5 Shareholders' equity.

(a) Group under this general classification all items which record the aggregate interests of the holders of the carrier's stock in the assets owned by the carrier.

(b) "Shareholders' equity" shall be subdivided to reflect the direct contribution of the stockholder and any capital surplus, separately from the undistributed income retained from the operation of the carrier. The income shall be carried to "retained income" which shall be divided between appropriated retained income and unappropriated retained income.

(c) Discount applicable to original issuances of a particular class or series of capital stock may be charged only against premiums applicable to the same class or series of stock.

2–6 Contingent assets and liabilities.

Contingent assets are items which may be a possible source of value to the carrier dependent upon the fulfillment of conditions regarded as uncertain; contingent liabilities are items which under certain conditions could become obligations of the carrier but which are neither direct nor assumed liabilities at the date of the balance sheet. Contingent assets and contingent liabilities shall not be shown in the body of the balance sheet but shall be explained in footnotes.

INSTRUCTIONS FOR CARRIER PROPERTY ACCOUNTS

3–1 Property acquired.

(a) In general, the carrier property accounts shall be charged with the cost of property purchased or constructed, and with the cost of additions and betterments of property. Cost includes the net purchase price, plus taxes, transportation, installation, testing and costs incurred in preparation for use. If the consideration is other than cash, the cost shall be based on the current cash value of such consideration. However, the acquisition of a distinct operating unit shall be accounted for as provided in general instruction 1–9.

(b) When indebtedness is directly incurred to finance the construction of carrier property, the interest accruing thereon up to the time the property is completed and placed in service shall comprise a component of the cost of the property to be recorded in the appropriate property investment account.

(c) Accounting shall be performed on the "betterment" plan where superior component parts are installed in a unit of property to replace older component parts, thereby increasing the usefulness, efficiency, capacity or durability of the unit. In these cases, the excess of the cost of the superior parts installed over the current cost of new parts of the kind replaced shall be charged to the appropriate property account subject to the minimum adopted under carrier property instruction.

2. The cost of removing the old and installing the new parts shall be charged to operating expenses. Where, however, the new parts installed are substantially similar to the parts removed resulting in no material betterment of the unit, all costs incurred in effecting the replacement shall be charged to operating expenses.

(d) If a unit of property is to be extensively rebuilt with the result that the expectation of its service life will be prolonged for a period fairly comparable with similar new property, the accounting shall be performed on the write-in and write-out basis. The old unit shall be considered retired and appropriate retirement accounting performed. The rebuilt unit shall be stated in the property account at the aggregate of the labor and material costs incurred, plus the appraised value (not to exceed original costs) of the second-hand material (from the old unit) reused in the rebuilding process.

(e) Upon the effective date of this system of accounts, all motor vehicles acquired and used to transport express traffic over streets and highways shall be stated in the property account at purchase cost including the values of the tires on and received with the vehicles when acquired.

3–2 Minimum rule.

Units of property, and additions to, and betterments of, existing property, having a life in excess of one year and costing less than $500.00 shall be charged to operating expenses. A minimum of a lesser amount may be substituted provided that the Commission is promptly notified and that no further change will be made in such minimum without obtaining prior authorization from the Commission. Expenditures made under a general plan shall not be parcelled to avoid the adopted minimum, nor shall unrelated items be combined to exceed the minimum.

V 38-155 AUG 13 73 XUM

3–3 Retirements.

(a) *Property depreciated under "Unit Plan."* When a unit of property on which depreciation charges have been accrued under the unit plan is retired from service, the book cost of the property shall be credited to the appropriate property account and concurrently charged to account 143–02–other deferred charges. This account shall be credited with the value of salvage recovered in case the property is dismantled; the amount received from the sale or trade-in of the retired property; or with the amount of insurance recovered, including amounts provided for by any self-insurance with respect to the retired property when such self-insurance covers the cause of the retirement; and with the amount of depreciation accrued to date of retirement with a concurrent charge to the appropriate accumulated depreciation-operating property account.

If the property retired is to be rebuilt in conformity with the provisions of carrier property instruction 3–1(b), the accounting shall be peformed as described above, except that the appraised value (not to exceed original cost) of the parts to be utilized in the rebuilt unit shall be charged to account 121–09–unfinished construction.

Any balance remaining in account 143–02–other deferred charges after the foregoing entries have been made, shall be transferred to secondary account 26–Gain or Loss on the Sale of Assets.

(b) *Property depreciated under the "Group Plan."* When a unit of property on which depreciation charges were accrued under the group plan is retired from service, the book cost thereof shall be credited to the appropriate property account and concurrently charged, together with the cost of removal, to the accumulated depreciation-operating property account. Any salvage or insurance recovered, including amounts provided for by any self-insurance with respect to the retired property, when such self-insurance covers the cause of retirement, or the proceeds if the property is sold or traded, shall be credited to the accumulated depreciation-operating property account. No further entries are required under this plan because over or under accruals of depreciation are not cleared from accumulated depreciation-operating property account.

(c) *Land.* When land is sold, the book costs shall be credited to the land account and any difference between the book cost and the sales price, less commissions and expenses on the sale, shall be debited or credited to account 641–miscellaneous income or, when material pursuant to general instruction 1–1 to account 911–extraordinary items (net).

(d) *Determination of book cost.* The book cost of operating property retired shall be the amount at which such property is included in the property accounts. When it is impracticable to determine the book cost of individual low cost items being retired such as tools, office machines, furniture, due to the large number of items in service, the average book cost of all substantially similar items shall be used for retirement accounting purposes.

3–4 Depreciation accounting-operating property.

(a) *Method.* Depreciation charges shall be recorded monthly on depreciable carrier property by the straight-line method under the unit plan or the group plan as explained hereunder except that the mileage method may be used for automotive equipment in which event the rate per mile shall be applied to the number of miles traveled each month.

(1) *Unit Plan.* Depreciation charges are computed and accrued on the book cost of individual units of property, and the records maintained so that the total amount of depreciation accrued for each unit of property can be determined. Depreciation shall cease when the accruals credited to the accumulated depreciation account for a particular unit becomes equal to the estimated service value of the unit. Depreciation charges shall be computed on the unit plan with respect to property included in the following accounts:

121–02 Structures
121–03 Revenue equipment
121–04 Service cars and equipment
121–10 Structures on land not owned

(2) *Group Plan.* Depreciation charges are computed and accrued on the sum total of the book costs of all units of property included in each depreciable property account or subdivision thereof at composite rates based on averages of the service lives of all such units. Depreciation shall not cease until the unit is retired from service when its full book cost shall be charged to the accumulated depreciation account regardless of whether the actual service life of the unit was shorter or longer than the average for the units with which it was grouped.

(3) Depreciation charges shall be computed on either the unit or group plan with respect to property included in the following accounts:

121–05 Shop and garage equipment
121–06 Furniture and office equipment
121–07 Miscellaneous equipment

(b) *Rates.* Separate annual percentage rates are prescribed by Commission order for each depreciable account. The carrier may be called upon by the Commission to conduct and submit the results of studies bearing on the reasonableness of the depreciation rates in effect. If any rate prescribed by the Commission is believed to be no longer appropriate, the carrier shall submit the rate it believes should be established, supported by full particulars for consideration by the Commission.

The carrier shall keep records of property and property retirements that will reflect the service life of property retired in past years, or that will permit the determination of service life indications by mortality, turnover, or other appropriate methods. Also, the carrier shall keep records that will reflect the percentage of salvage value for property retired from each class of depreciable carrier property.

(c) *Leasehold improvements.* Depreciation charges on the cost of additions or betterments included in account 121–08–leasehold improvements, shall be on the same basis as for similar depreciable property includiable in other property accounts, except where limited by terms of the lease.

3–5 Depreciation accounting-nonoperating property.

Estimated accruals to cover depreciation on the book cost of depreciable property owned, classified as "nonoperating property," shall be recorded in the appropriate accounts monthly. The depreciation charges shall be such as to distribute the service value equitably over the service life of such property.

3–6 Salvage.

(a) When retired property is salvaged for material or parts which are to be reused by the carrier, the salvage shall be taken into the accounts at current prices for similar items, (not to exceed original cost) with due consideration of their second-hand condition.

(b) Pending the recovery of salvage (including reusable parts and material) from retired units of depreciable property the value of salvage expected to be recovered (less estimated cost of recovery) shall be estimated and recorded in account 119–02–salvage property, if it is to be recovered within a year, otherwise, in account 143–02–other deferred charges.

INSTRUCTIONS FOR OPERATING REVENUE AND MAJOR OPERATING EXPENSE ACCOUNTS

4–1 Detail of accounts.

The carrier shall keep the prescribed accounts with sufficient particularity to permit the reporting of operating revenues by the various sources involved, as outlined in the primary operating revenue accounts provided, and to permit the allocation of operating expenses by service functions. (See operating instruction 4–3)

Carrier is not required to allocate small items which will not appreciably affect these accounts.

4–2 Operating revenues.

(a) The operating revenue accounts are designed to reflect revenues derived during the current year from the performance of intra and intercity transportation services both within the United States and to and from foreign countries; and from the performance of accessorial, incidental and other transportation related services referred to and described in the texts of those accounts.

(b) Refundable overcharges resulting from the use of erroneous rates, weights, classifications or computations, (or provision for possible claims for such overcharges) and amounts of uncollected revenues on shipments destroyed, lost or refused by consignees due to delay or other causes, shall be charged to the same revenue accounts that were initially credited with such items.

4–3 Operating expenses.

(a) The operating expense accounts are designed to reflect all expenses directly and indirectly incurred during the current year in the express transportation of goods and commodities and in the performance of other related services that produce the revenues includable in the primary operating revenue accounts. The expenses of express operations shall be segregated into the major functions described below.

(b) *Equipment maintenance.* The primary operating expense accounts grouped in this major function shall include all expenses specifically identifiable with the repair and upkeep of both owned and leased railroad cars, motor vehicles (trucks, tractors and trailers), shipping containers and such other units of transport equipment being used in the performance, either of pickup and delivery services or of line haul express transportation services.

(c) *Transportation.* The primary operating expense accounts grouped in this major function shall include all expenses specifically identifiable with the performance of express transportation services, including amounts chargeable to secondary operating expense account 18–purchased transportation. As used in this system, the term "line haul" means the transportation of express shipments or other traffic between a terminal or point in one location and a terminal or point in another community, city, state, or foreign country. Transportation also includes the performance of local pickup and delivery services within the confines of communities, cities, terminal areas or commercial zones.

Purchased transportation, a secondary operating expense account, shall include amounts payable to railroads, motor carriers, air lines, water carriers and others for furnishing raiload cars, motor vehicles, airplanes, or ships for transporting express shipments and other traffic, where the vehicles so employed are furnished with drivers, are not used exclusively in the carrier's service and are not under its direction.

In the preparation of income statements, the aggregate of amounts receivable for vehicles furnished to others with the services of drivers shall be reflected as a credit to operating revenues.

(d) *Terminal.* The primary operating expense accounts grouped in this major function shall include all expenses specifically identifiable with the work functions involved in the assembly and sorting of shipments by terminals. These functions generally include cargo handling, the sorting and loading of shipments preparatory to the line haul movement by rail, highway, air or water, the unloading and sorting at destination terminal, the transfer of the shipments to city route vehicles, and collection of express charges when such responsibility lies with the terminal.

(e) *Operations.* The primary operating expense accounts grouped in this major function shall include all expenses specifically identifiable with central operations management including the operation of the central fleet maintenance function, the central terminal operations function, the central transportation management function, and the central engineering and real estate function.

(f) *Marketing.* The primary operating expense accounts grouped in this major function shall include all expenses specifically identifiable with promotional and marketing activities designed to stimulate and expand the use of express transportation service by the public. It shall also include expenses incurred in the preparation, production and distribution of tariffs, schedules and similar publications, such as material that describes the transportation services furnished, states the rates assessed and provides other relevant information regarding the handling and movement of traffic. Also included are expenses relating to the administration of express claims, advertising and marketing research.

(g) *Finance and administration.* The primary operating expense accounts grouped in this major function shall include salaries and expenses of supervisory and clerical personnel administering to and performing financial and administrative services, including general accounting, payroll, accounts payable, revenue accounting, billing and collecting, banking, tax, insurance, internal auditing and data processing work.

(h) *Personnel.* The primary operating expense accounts grouped in this major function shall include salaries and expenses of supervisory and clerical personnel administering to and performing the functions of personnel management, office services and employee benefits. (Including company-wide cost of benefits)

(i) *Exclusive Air.* The primary operating expense accounts grouped in this major function shall include salaries and expenses of personnel involved in managing and operating exclusive air terminals and equipment. The major functions shall include maintenance, pickup and delivery service, platform work, management both local and central, property maintenance and sales and marketing. It will not include air excise tax, claims on air express shipments or air purchased transportation all of which will be recorded in primary account 524.

(j) *Executive.* The primary operating expense accounts grouped in this major function shall include salaries and expenses of those principal officers who have plenary authority and jurisdiction over the carrier's entire organization and operations; also, salaries and other expenses incurred in the performance of legal, purchasing, security and related functions that contribute to and have general applicability to the work and activities of all departments, divisions and other organizational units engaged in the conduct of the carrier's express transportation business.

4–4 Expense distribution.

(a) The several classes of primary operating expenses shall be directly distributed to the applicable service functions to the fullest possible extent. Expenses common to two or more functions and system expenses shall be equitably distributed to the service functions. The basis for distribution and the underlying records in support thereof shall be readily available for inspection. The following categories of expense shall be distributed among the respective elements provided, as outlined in this instruction.

(b) *Equipment maintenance.* To facilitate the allocation of costs among the applicable units of service, the primary maintenance expense accounts are classified into:

(1) Maintenance management
(2) Line haul maintenance
(3) Pickup and delivery maintenance
(4) Service cars, and
(5) Railroad car maintenance

Applicable elements of directly assignable expenses shall be allocated between those classifications on the basis of the predominant service of the respective vehicles.

(c) *Terminal-Operations.* To facilitate the allocation of costs among the applicable units of service, expenses relating to branch terminal operations and activities shall be segregated into primary operating expense accounts as follows:

(1) terminal management
(2) cargo handling
(3) property maintenance

Items of directly assignable expense classified in the category, Cargo Handling, shall be separated between amounts applicable to "surface" shipments and amounts applicable to "air" express shipments by means of the tertiary location number.

At terminals where both surface and air express traffic are handled, joint expenses shall be initially classified as "surface" and prorated between "surface" and "air" for each cost study.

(d) *Purchased transportation.* This secondary operating expense account shall be segregated between:

(1) line haul (excluding "trailers on flat cars")
(2) pickup and delivery
(3) air, and
(4) railroad transportation (including "trailers on flat cars")

(e) *Marketing.* Expenses directly identifiable with the promotion and advertising of surface and air express traffic shall be included in separate subdivisions of the applicable primary operating expense accounts prescribed.

SECONDARY OPERATING EXPENSE ACCOUNTS

One or more secondary operating expense accounts are prescribed for each primary operating expense account. These secondary operating expense accounts are detailed below and the tabulations, where set forth, are merely illustrative of the applicable primary expense accounts.

V 38 155 AUG 13 73 XUM

01. Payroll.

(a) This expense account includes, in general, all items of compensation for services actually rendered by employees of the company, such as salaries, wages, premiums, bonuses and cash prizes or prizes costing $25.00 or more for contests and similar events. It also includes vacation accrual, sick leave or absentee benefits, separation, holiday and military leave, etc.

(b) This account should *not* be charged with items of payroll billed by outside agencies on a contractual or similar basis.

(c) Capital improvements made by regular employees should be credited to this account.

(d) Except for those positions specifically identified in this secondary account under primary account 591, Executive Management, salaries of all others shall be charged to the primary operating expense accounts applicable to their work responsibilities.

(e) When a person temporarily works on a job in a terminal or expense account other than the one to which the person's salary is regularly charged, *no* transfer or earnings or hours shall be made between primary accounts.

(f) The cost of extra personnel hired in connection with a physical inventory shall be charged to primary account 561—banking and corporate accounting.

(g) Salaries paid to an employee during the first training period should be charged to the terminal and work function to which the employee has been, or will be assigned. This does not apply to management trainees which expense should be charged to primary account 572—office services.

(h) Salaries of assistants and secretaries are charged to the same primary account as the salary of the person for whom he or she works.

(i) Vacation accrual is charged to primary account 573—employee benefits.

02. Employees welfare.

(a) This expense account is used for the distribution of employee benefits to all primary operating expense accounts, thus obtaining total payroll and employee welfare costs.

(b) The basis of the allocation shall be the ratio of total employee benefits (primary account 573) to total payroll (expense account 01) excluding employee benefits payroll (573–01). Each primary account shall bear its related ratio cost. (Excluding (573–01).) The charge shall be included in expense account 02 in each of the primary accounts. The credit shall be to 573–02 for the amount of employee benefits distributed to all other primary accounts.

03. Advertising.

(a) This expense account includes all costs of advertising media such as the cost of space in newspapers, periodicals, programs, streetcars and billboards; the cost of direct mail advertising; and the cost of radio and television station time. It also includes direct outside costs of electros, cuts, mats and engraving related to the foregoing.

(b) This account should not be charged with the production costs incident to the preparation of the various types of media advertising which costs are to be charged to their appropriate expense accounts, as for example; payroll, supplies, services purchased, etc.

(c) Advertising credits for all types of media should be credited to this account.

(d) All advertising should be charged to primary account 554—surface advertising or 555—air advertising, as appropriate.

04. Taxes and licenses.

(a) This expense account includes all taxes, licenses and bridge, ferry, highway and tunnel tolls incurred in transporting express traffic, paid or accrued with the exception of federal, state, and other taxes based on income which are to be charged to account 810–federal income taxes on ordinary income, or account 930–income taxes on extraordinary and prior period items.

(b) This account includes all real and personal property taxes, franchise taxes, license fees, and other taxes not included elsewhere imposed by the various government bodies.

(c) The tax credit or income received as reimbursement for the expenses involved in the collection of state or local taxes should be credited to account 641–miscellaneous income.

(d) Taxes and licenses should be charged to primary accounts as follows:

Types of Taxes and Licenses	*Primary Account*
Line haul license fees	522
Tolls	522 and 523 as appropriate
Pickup and delivery license fees	523–582
Personal property taxes on furniture, fixtures and equipment.	Primary account of department in which located
Real estate taxes on land and buildings	511, 531, 541, 584 or 591, as appropriate
Railroad retirement taxes	573
Railroad unemployment insurance taxes	573
Franchise taxes	591
Air excise tax	524
Automobiles and station wagons	Appropriate primary account of the department the officer or employee is assigned

05. Utilities.

(a) This expense account includes the cost of various types of fuels such as coal, oil, gas, water, electricity, and steam purchased or used in the generation of heat, light and power and the maintenance of air conditioning systems.

(b) Utilities should be charged to primary accounts 511–maintenance management, 531–terminal management, 584–terminal management-exclusive air, or 591–executive management, as appropriate.

06. Supplies.

(a) This expense account includes the cost of items consumed in the operation of the business, such as stationery and related items and materials for wrapping, packing, cleaning, repairing, postage, etc.

(b) This account should not be charged with publication subscriptions which are to be charged to account 08–unclassified.

(c) Supplies can be divided into two distinct categories: administrative supplies and functional supplies. Administrative supplies relate to those of a general nature such as pencils, pens, paper clips, ordinary stationery, etc. Functional supplies are those of a special nature, usually characteristic of and purchased specifically for a particular function, and, therefore, may be significant in amount, such as voucher checks, accounts receivable statements, wrapping or cleaning supplies, repair parts, express receipts, etc.

(d) Administrative supplies for the entire company, such as stationery, envelopes, carbon paper, pencils and paper clips should be charged to primary account 593–purchasing.

(e) Functional supplies (including postage) should be charged to its related primary account.

Examples follow:

Type of Supply	*Primary Account*
Repair parts for line haul vehicles such as chains, lubricants, small tools and batteries	512
Repair parts for pickup and delivery vehicles, such as chains, lubricants, small tools and batteries	513
Uniforms for employees (including cost of laundry)	531
Brushes and mops	531
Cleaning supplies	531
Soap and cleaning powder	531
Toilet and rest room supplies	531
Express receipts	531
Money bags	531
C. O. D. sheets	532
Furniture pads and covers	532
Hangers	532
Merchandise covers	532
Pallets	532
Racks, hampers, etc	532
Receiving forms and records	532
Stock boards	532
Trip sheets	532
Wrapping and packing supplies such as boxes, bags, wrapping paper, tissue, corregated paper, twine, lumber, etc	532
Electric bulbs	534
Repair parts	534
Tools	534
Artist's supplies	554 or 555
Copywriter's supplies	554 or 555
Photographer's supplies	554 or 555
Postage on direct mail advertising	554 or 555
Postage on Tariffs	557
Postage on Disbursements	562
Accounts receivable ledgers	564
Charge or credit plates	564
Credit and refund forms	564
Postage on customers statements	564
Collection letters	569
Credit applications	569
Application blanks	571
Personnel forms and folders	571
Gifts, pins, etc. given to employees for anniversaries and other occasions	571
Medical supplies	571
Reading materials	571
Recreational equipment	571
Binders	591
Business cards	591
Executive stationary	591
Stock certificates	591

07. Services purchased.

(a) This expense account includes charges for all non-professional services rendered by outsiders which aid, supplement, or substitute for the normal routine activity of the terminal, garage or office. It consists exclusively of services performed by outsiders, whether they be companies, individuals, agencies, or independent contractors, provided the services are not chargeable to expense account 14–professional services.

(b) This account should not be charged with any internal costs incidental to the receiving of any of the services purchased, which items are to be charged to the appropriate expense accounts.

(c) There are no expense accounts for repairs and maintenance. If repair and maintenance work is done by employees, the repair and maintenance payroll should be charged to expense account 01–payroll and supplies to expense account 06–supplies. If the work is done by an independent contractor, the invoice should be charged to expense account 07–services purchased.

(d) Fees paid to employment agencies for the hiring of personnel are charged to the primary account for which the employee was hired.

(e) Repair services by outside companies and maintenance contracts for all terminal properties, such as elevators and escalators, heat, light and power systems, air conditioning and cooling systems, fixtures and leasehold improvements shall be charged to primary account 534–property maintenance.

(f) Repair services by outside companies and maintenance contracts for equipment are to be charged to the primary account in which the equipment is used.

(g) All other services purchased should be charged to primary accounts as follows:

Type of Service	*Primary Account*
Hired mail trucks	531
Hired messengers	531
Interior and exterior building cleaning by outsiders	531
Window cleaning by outsiders	531
Alarm protection services	531
Terminal property repair and maintenance charges by outsiders	534
Copywriting, art and photographic services purchased from outsiders for publicity purposes (including such services of individuals when engaged on a retainer basis)	554 or 555
Cost of transcribing programs in connection with radio and television advertising	554 or 555
Services of outside advertising agencies	554 or 555
Stuffing and sorting of direct mail and addressography by an outside agency	554 or 555
Talent charges and studio announcers' fees	554 or 555
Inventory extensions	561
Payroll preparations	562
Collection agency services	569
Armored car service	594
Outside detective services	594
Collection attorney and agency fees (other than those applicable to account previously written off)	569
Credit bureau membership and report costs	569
Fees charged by banks for processing accounts receivable mail payments	564
Service bureaus for computer work	567
Service bureaus for keypunching	567
Annual retainer fees paid to executive personnel agencies	571
Doctors' and nurses' fees	571
Employee welfare or recreational activities	571
Reference investigations	571
Outside classes for employees	572
Special job instruction	572

08. Unclassified.

(a) This expense account includes all expenses not otherwise classified as chargeable to another expense account. Care should be exercised to limit charges to this account to type of items which are specified below or which cannot be more appropriately charged elsewhere.

(b) Bridge, ferry, highway and tunnel tolls incurred in transporting express traffic shall be charged to expense account 04–Taxes and Licenses.

(c) All expenses of interviewing and hiring personnel including all interview travel expenses paid to applicants and moving allowances paid to personnel hired are charged to the primary account of the function for which interviewed or hired.

(d) Prizes and awards costing less than $25.00 for contests should be charged to the primary account to which the employee's payroll is charged.

(e) All memberships, dues, subscriptions, etc. should be charged to the primary account to which the employee's payroll is charged.

(f) All suppers and supper money shall be charged to 09–Traveling.

(g) All expenses relating to cleaning should be charged to the primary account involved using this expense account.

(h) Employment ads should be charged to the primary account incurring the expense.

(i) All other unclassified expenses should be charged to primary accounts as follows:

Type of Expense	*Primary Account*
Mailing lists for direct mail	554 or 555
Bank service charges	561
Writing off differences in accounts receivable controls	564
Cash shortages of accounts receivable, cashiers and drivers	569
Travel expenses to colleges for the purpose of recruitment	571
Doctor's and nurses' automobile expense	571
Allowances for tuition for courses taken by employees	571
Cost of company sponsored parties	571
Prizes paid for employe suggestions	571
Directors' fees	591
Entertainment of a general company nature	591
Registrar fees	591
Transfer agent fees	591

09. Traveling.

(a) This expense account includes all expenses arising as a result of domestic and foreign travel of all employees (including line haul drivers) of the company for business purposes if the individual is reimbursed therefor. Such expenses include transportation, hotel bills, meals, tips and incidentals.

(b) To be included also as a charge to this expense account are local transportation expenses, transportation costs for travel between the terminals and automobile hire.

(c) Out-of-pocket expenses by employees who use company cars and allowances to employees for use of their cars on company business shall be charged to this expense account.

(d) Meal allowances to employees working after scheduled hours shall be charged to this account.

(e) Traveling expenses of applicants for position and moving expenses of newly hired and relocated employees shall be charged to expense account 08—unclassified.

(f) Traveling expenses and meal allowances shall be charged to the primary account in which the employee's payroll is charged.

10. Communications.

(a) This expense account includes all expenses relative to the cost of terminal and service unit communications, including *local telephone service, toll calls, telegrams, teletype services, telephone* and other communications, and equipment rentals.

V 38 155 AUG 13 73 XUM

(b) All postage shall be charged to expense account 06–supplies and not to this expense account.

(c) Telephone equipment rental, toll charges, cable charges and telegrams shall be charged to primary account 531–terminal management.

(d) Expenses of leased lines (WATS, centrex, teletypes, etc.) shall be charged to primary account 567–data processing.

(e) Rental or telephone order board equipment and monthly telephone service charges incurred in connection with the telephone order function is chargeable to primary account 531–terminal management.

11. Pensions.

(a) This expense account includes payments to trustees under profit sharing and pension plans for the benefit of employees in active service and payments for pensions directly to retired employees or to their beneficiaries where no trust fund exists.

(b) Pensions are charged to primary account 573–employee benefits.

12. Insurance.

(a) This expense account includes the cost of all insurance, whether actually purchased or provided for through self-insurance, i.e. cargo loss and damage, personal injury and property damage, etc.

(b) The cost of fixed premiums are distributed over the term for which the protection is provided.

(c) The cost of variable premiums is accrued each month.

(d) Dividends and earnings on mutual and reciprocal insurance contracts are credited to this expense account.

(e) Insurance on revenue equipment, including fire, theft, public liability and property damage is chargeable to primary accounts 522, 523, 525, or 582 as appropriate.

(f) Insurance on structures is chargeable to primary accounts 511–maintenance management, 531–terminal management, 541–operations management, 584–terminal management-exclusive air, or 591–executive management, as appropriate. Insurance on furniture is chargeable to the primary expense account of the department in which located.

(g) Insurance on employees such as workmen's compensation, health and welfare, group insurance and payments for supplemental unemployment benefits is chargeable to primary account 573–employee benefits.

(h) All other insurance is chargeable to primary account 591–executive management.

13. Depreciation.

(a) This expense account includes depreciation of the book value of the capital assets employed in the operation of the business such as buildings, fixtures, vehicles, furniture and office equipment and leasehold improvements.

(b) In order to evaluate comparative profitability from the standpoint of operating efficiency, straight-line depreciation shall be used for all reports even though accelerated depreciation may be used for tax purposes.

(c) Depreciation charges on the following property and equipment should be charged to the primary accounts indicated below:

Property or Equipment	*Primary Account*
Shop and garage equipment (except service cars)	511–581
Automobiles, service cars and equipment used in maintenance and repair operations	514–581
Line haul equipment	522
Surface and air pickup and delivery equipment	523–582
Railroad car equipment	525
Structures, leasehold improvements and office furniture and equipment:	
Maintenance operations	511
Terminal operations	531–584
Operations management	541
General and administrative operations	591
Other office furniture and equipment	Primary account of department in which located
Automobiles and station wagons used by officers and employees	Appropriate primary account of the department the officer or employee is assigned

14. Professional services.

(a) This expense account includes, in general, the cost of any service of a highly specialized and professional character furnished by outside professional agencies such as accountants, appraisers, architects, consultants, and lawyers.

(b) Professional services are distinguished from services purchased in that they are limited to those services which, by their very nature, are normally secured from outside specialists and experts qualified by training, and often licensed by governmental bodies or divisions.

(c) Do not include attorney fees for the collection of past due accounts receivable which should be charged to expense account 07–Services Purchased.

(d) This account should not be charged with the cost of financial or economic services, which are regularly issued as publications. These should be charged to expense account 08–unclassified.

(e) Professional services should be charged to primary accounts as follows:

Type of Service	*Primary Account*
Appraisal fees (if not capitalized)	544
Architects fees (if not capitalized)	544
Industrial engineers and management consultants, relating to terminal operations	544
Customer market surveys	556/588
Professional services of outside agencies for publicity surveys or for advisory purposes (excluding fees paid to advertising agencies for their services in the preparation of advertising and other publicity or promotional campaign)	554 or 555
Certified public accountants' fees	561
Charges from outside professional agencies for consultations, evaluations, and surveys in connection with systems	568
Actuarial and professional fees for pension and retirement plans	571
Fees for outside professional services such as labor attorneys, labor relations, specialists, arbitrators, personnel surveys, etc.	571
Fees for efficiency and service studies	591
Fees for general and feasibility studies	591
Legal fees	592

15. Donations.

(a) This expense account includes contributions to all welfare, charitable, educational and similar institutions where the purpose of the donation is not principally for publicity objectives.

(b) The contribution may be in the form of cash or merchandise.

(c) Donations are chargeable to primary account 591–executive management.

16. Uncollectible revenues.

(a) This expense account includes either actual bad debts written off or the provision relating to an allowance for doubtful accounts.

(b) It also includes losses due to bad checks.

(c) Bad debts (net of attorney fees applicable to accounts written off) are chargeable to primary account 569 credit and collections.

17. Equipment rentals.

(a) This expense account includes the rent paid for personal property used in the operation of the business except for communication equipment which is to be charged to expense account 10–communications.

(b) This account shall be credited with amounts receivable for vehicles furnished to others without the service of drivers.

(c) The cost of other leased or rental equipment (except communication equipment) is chargeable to the primary account for which the equipment is used.

18. Purchased transportation.

(a) This expense account includes amounts payable to others for furnishing vehicles with the services of drivers, individual shipments billed by the accounting carrier but carried by another, piggyback payments and tariff allowances to shippers and consignees for pickup and delivery service.

(b) This account should be charged with payments made to airlines for performing the line haul on air express traffic.

(c) Amounts receivable for line haul vehicles furnished to others with the services of drivers should be credited to revenut account 341–01–sold transportation.

(d) This account is not to be used for substitute service purchase from outside parties as explained in secondary account 25.

(e) Purchased transportation is chargeable as follows:

Type of Service	*Primary Account*
Line haul vehicles	522
Intercity shipments hauled by another carrier	522
Pickup and delivery vehicles	523–582
Local shipments hauled by another carrier	523
Payments to airlines	524

19. Commission agents.

(a) This expense account includes amounts paid to others on a commission or other basis for the solicitation, terminal handling and pickup and delivery of express shipments at points where the carrier does not operate terminals.

(b) This account also includes amounts allowed commission agents for expenses such as advertising, rent, light, heat, power and water, telephone and telegraphic service, and items of a similar nature.

(c) Commission agents are chargeable to primary account 531–terminal management.

20. Real property rentals.

(a) This expense account includes rent paid for real property used in the operation of the business.

(b) Do not include in this expense account expenses such as taxes, supplies, repairs, insurance, depreciation and interest when paid directly by the company. These items are to be charged to the applicable expense accounts.

(c) Rent paid for real property not used in express operations shall be charged to primary account 612–00–noncarrier expenses.

(d) Real property rentals are chargeable as follows:

Department	*Primary Account*
Equipment maintenance	511/581
Terminal	531/584
Operations	541/544
Marketing	552/559
Finance and administration	562/564
Personnel	571
Executive	591

21. Tires and tubes.

(a) This expense account includes the cost (including taxes thereon) or replacement tires and tubes applied to revenue equipment.

(b) The cost of tires and tubes applied to new revenue equipment shall be included in balance sheet account 121–03–revenue equipment.

(c) The cost of unapplied tires and tubes held in stock shall be carried in balance sheet account 116–05–unapplied tires and tubes.

(d) The cost of tires and tubes included in balance sheet account 116–05–unapplied tires and tubes, shall be adjusted based on periodical physical inventory taken at least annually.

(e) Tires and tubes of service equipment should be charged to primary account 514–service cars.

(f) Tires and tubes of all automobiles should be charged to the primary account incurring the expense.

(g) Tires and tubes are chargeable as follows:

Type of Equipment	*Primary Account*
Line haul vehicles (size 10:00)	512
Pickup and delivery equipment (size 6:00 to 9:99)	513

22. Motor fuel and oil.

(a) This expense account includes the cost of gasoline, other motor fuel, enriching materials and motor oils (including taxes thereon) used by revenue equipment.

(b) Include in this account, transportation charges paid to others on motor fuel and oil.

(c) Motor fuel and oil used in automobiles and service cars used in maintenance and repair operations shall be charged to primary account 514–service cars.

(d) Motor fuel and oil consumed in vehicles used in transportation express over streets and highways is chargeable to primary account 522–line haul transportation, when it is diesel oil purchases and, primary account 523–pickup and delivery transportation when it is gasoline purchases.

(e) Motor fuel used in automobiles and station wagons shall be charged to the primary expense account of the department incurring the expense.

23. Demurrage and detention charges.

(a) This expense account includes charges made by railroads against the carrier for failure to pickup or return railroad owned trailers used by the carrier in "trailers on flat cars" service, within the "free time" period prescribed in contracts for such movements.

(b) Demurrage and detention costs shall be charged to primary account 522–line haul transportation or 525–railroad transportation, as appropriate.

24. Regulatory fees.

(a) This expense account includes expenses incurred by the carrier in connection with formal cases before Federal or State regulatory bodies or cases to which such a body is a party.

(b) This account also includes payments made to a regulatory commission for fees or amounts assessed against the carrier for pay and expenses of the regulatory commission, its officers, agents, and employees, other than those incurred in securing certificates of convenience and necessity and authority for the issuance of securities.

(c) Expenses incurred for the improvement of service, for additional inspection, or rendering reports which are made necessary by the rules and regulations, or orders, of regulatory bodies, shall be charged to the appropriate operating expense accounts.

(d) Regulatory fees are chargeable to primary account 592–Law.

25. Surface substitute service.

This expense account reflects the cost of purchased surface services from an independent third party contractor, encompassing both line haul and local pickup and delivery services. The charges for such services are of a nature which makes it difficult to reflect either exclusive line haul or exclusive pickup and delivery.

26. Gain or loss on sale of assets (unit plan).

This account includes the difference between the selling price and net book value including the related selling expenses of assets disposal. This pertains only to assets maintained under the "unit plan".

91. Maintenance transfers.

This secondary operating expense account shall be used when it is necessary to effect a transfer of expenses from one or more primary operating expense accounts in the major operating expense function "equipment maintenance" to one or more other primary operating expense accounts in the same major operating expense function.

92. Transportation transfers.

This secondary operating expense account shall be used when it is necessary to effect a transfer of expenses from one or more primary operating expense accounts in the major operating expense function "transportation" to one or more other primary operating expense accounts in the same major operating expense function.

93. Other expense transfers.

This secondary operating expense account shall be used when it is necessary to effect a transfer of expenses from one or more primary operating expense accounts in one of the other major operating expense functions to one or more other primary operating expense accounts in the same major operating expense function.

94. Interdepartment transfers.

This secondary operating expense account shall be used when it is necessary to effect a transfer of expenses from one or more primary operating expense accounts in one major operating expense function to one or more primary operating expense accounts in a different major operating expense function.

95. Other credits.

This secondary operating expense account shall be used to credit a primary

V 38 - 155 AUG 13 73 XUM

operating expense account with amounts which are to be charged to accounts other than primary operating expenses. Credits are to be made through this secondary operating expense account regardless of whether the credit applies to only one of the secondary operating expense accounts or is a composite credit entry.

99. Multi-terminal distribution.

This secondary operating expense account shall be used for the specific purpose of providing a vehicle whereby accumulated service unit expenses may be redistributed to individual terminals for internal management purposes.

BALANCE SHEET ACCOUNT CLASSIFICATIONS

100. Assets.

110. Current assets.

111. Cash.

(a) This account shall include current funds in the hands of financial officers and agents, cash in transit for which managers and agents have received credit, and funds deposited in banks and trust companies available on demand for general company purposes.

(b) This account by secondary account number shall also denote funds specifically deposited with fiscal agents or others for the payment of dividends, interest and other current obligations; also, working funds and performance or similar deposits which it is reasonable to expect will be withdrawn by the carrier within a year. Amounts of checks and sight drafts issued and transmitted to payees that remain unpaid at the close of the accounting period shall be credited to this account.

(c) The secondary account numbers for this account follow:

01 to 80 inclusive, reserved for designation of bank despositors
81 Working funds
91 Special deposits of interest
92 Special deposits of dividends
93 Miscellaneous special deposits
94 Cash in transit

112. Temporary investments.

This account shall include the cost of securities of others and other collectible obligations acquired for the purpose of temporarily investing cash, such as, United States Treasury Certificates, readily marketable securities, short-term time drafts, demand loans, time loans, time deposits with banks and trust companies, and other similar investments of a temporary character. Any securities included in this account must be of such a nature as to be readily convertible into cash at substantially their book value.

113. Notes receivable.

(a) This account shall include the book value of all collectible obligations (excluding those from affiliated companies) in the form of notes receivable, contracts receivable, and similar evidences of money receivable which are collectible on demand or within one year from date of issue.

(b) This account shall be subdivided by secondary account numbers as follows:

01 Customer notes receivable
02 Employee notes receivable
03 Other notes receivable

114. Accounts receivable.

This account shall be subdivided by secondary account numbers to include:

01 *Customer accounts receivable.* The amounts receivable from customers for transportation services performed. Does not include charges to the U.S. Government.

02 *Interline accounts receivable.* The net interline account balance receivable from other carriers in connection with the interchange of through express traffic.

03 *Agent accounts receivable.* The net balances, including amounts of unremitted cash, due in current accounts from managers, agents, other employees or representatives entrusted with the collection or custody of current revenues.

04 *Employee accounts receivable.* Receivables due in current accounts from employees for supplies furnished, for assets sold, and for funds advanced.

05 *Other accounts receivable.* Receivables due in current accounts from others (except affiliated companies) for rental of property, for supplies furnished, for assets sold, and for funds advanced.

06 *Subscriptions receivable.* Balances due from subscribers upon legally enforceable subscriptions to capital stock.

07 *Interest receivable.*

08 *Dividends receivable.*

09 *Advances due from consignees.*

10 *Customer accounts receivable—U.S. government.* The amount receivable from the U.S. Government for transportation services performed. Does not include charges to regular customers.

11 *Interline accounts receivable accural.* This balance represents monies estimated due from other carriers in connection with the interchange of through express traffic.

12 *Agents accounts receivable—debit transfer waybills.* This represents accounts receivable billing in transit for company agents.

17 *Interline accounts receivable—debit transfer waybills.* This represents accounts receivable billing in transit due from other carriers in connection with the interchange of through express traffic.

18 *Agents accounts receivable—credit transfer waybills.* This represents accounts receivable collections or settlements in transit for company agents.

20 *Airline receivable—substitute service.* This represents monies due from various airlines for services performed by the carrier on air shipments where the airline was unable to complete their service.

115. Allowance for uncollectible receivables.

(a) This account shall be credited with estimates for receivables of uncertain or doubtful collectibility. The account shall be subdivided by secondary account numbers as follows:

01 Customer uncollectible receivables
02 Interline uncollectible receivables
03 Agent uncollectible receivables
04 Employee uncollectible receivables
05 Other uncollectible receivables

(b) A review shall be made periodically to determine adequacy of balances in each subdivision of this account.

116. Material and supplies.

(a) This account shall include by secondary account numbers, cost of repair parts and materials, fuel, unapplied tires and tubes, and the variety of other articles and supplies (except stationery and printed matter) needed to maintain and operate equipment and other property used in carrier and noncarrier operations. The term "costs" as used herein, means the purchase cost plus sales taxes, excise taxes, and transportation to points of delivery, less purchase or trade discounts.

(b) Issues of materials and supplies shall be charged to the appropriate operating expense or other accounts at their actual costs, average costs, or at amounts based on a recognized pricing system provided that such system is consistently applied.

(c) Reusable parts and material recovered in the process of demolishing and repairing property shall be recorded in this account at current second-hand value, not to exceed original cost.

(d) A physical inventory shall be taken at least annually of all unapplied materials and supplies on hand and entries shall be recorded to adjust the books to the inventory figures. To the extent practicable, adjustments shall be made directly to the primary operating expense accounts to which such material and supplies were charged during the period. Differences that cannot be directly allocated shall be equitably apportioned among the primary operating expense accounts to which materials and supplies were charged since the last inventory.

(e) This account shall be subdivided by secondary account numbers as follows:

01 Container deposits
02 Small tools
03 Repair parts
04 Motor fuel
05 Unapplied tires and tubes
06 Miscellaneous supplies

117. Prepayments.

(a) This account shall include amounts of expenses paid or incurred in advance of their accrual, the benefits of which are to be realized in subsequent periods. Entries shall be made to transfer the portion of the prepayments expiring each month to the appropriate expense or other accounts.

(b) This account shall be subdivided by secondary account numbers as follows:

01 Prepaid taxes and licenses
02 Prepaid insurance
03 Prepaid interest
04 Prepaid rents
05 Miscellaneous prepayments

118. Affiliate receivables.

(a) This account shall include gross amounts due from affiliated companies which normally are settled currently, such as, receivables for services and materials furnished, rentals, traffic balances, matured interest, dividends and other items in open account. Also include herein, the amounts of loans and notes which will fall due and collectible from affiliates within a year.

(b) This account shall be subdivided as follows:

01 Loans receivable
02 Accounts receivable
03 Interest receivable
04 Dividends receivable

(c) For balance sheet presentation, the amount of receivables from or payables to each individual affiliated company shall be shown as a net receivable or net payable, as appropriate.

119. Other current assets.

This account shall include the amount of other current assets subdivided by account numbers:

01 Resale property
02 Salvage property
03 Miscellaneous other current assets

120. Tangible property.

121. Operating property.

(a) This general account shall be subdivided by secondary account numbers representing the cost of operating property used by the carrier in its express operations, including such property held by agents. The subdivisions are:

01 Land and landrights
02 Structures on land owned
03 Revenue equipment
04 Service cars and equipment
05 Shop and garage equipment
06 Furniture and office equipment
07 Miscellaneous equipment
08 Leasehold improvements
09 Unfinished construction
10 Structures on land not owned
11 Unfinished construction on land not owned
12 Unfinished construction-leasehold improvements

(b) 01 *Land and landrights.* (1) This account shall include the initial cost of land used by the carrier in its express operations, plus the cost of subsequent non-depreciable improvements.

(2) Land temporarily vacated but which it is contemplated will be returned to express service within one year shall be retained in this account.

NOTE: Vacated land not planned to be returned to express service within a year, shall be removed from this account. If the land is to remain idle until sold or otherwise disposed of, or if diverted by the carrier for use in its own non-express service, or if leased to others for non-express purposes, the investment therein shall be transferred to account 123-01-Nonoperating Property-Land.

(c) 02 *Structures on land owned.* (1) This account shall include the cost in place of buildings and appurtenances, located on owned land, and used in express operations for such purposes as general offices, agency offices, terminals, loading platforms, and repair shops. "Cost" in the sense intended, is the cost of the buildings themselves plus the cost of permanent fixtures, heating and sanitary systems, lighting and air conditioning apparatus, elevators, vaults and other items required to fit the buildings for occupancy.

(2) Records shall be kept showing the cost of each building, whether on leased or owned land, the function for which primarily used in express operations, and identification with surface express, air express or joint express operations according to use. Structures on leased land are to be recorded in secondary account 10.

(d) 03 *Revenue equipment.* (1) This account shall include the cost of trucks, tractors, semitrailers and trailers engaged in transporting express shipments over streets and highways, together with the first set of accessories required to fit them for service, including tires and tubes also radio communication apparatus, refrigeration machinery, hoists and other like equipment installed on the vehicles to improve their efficiency and performance.

(2) Spare engines kept available to temporarily replace similar units removed for repair or overhaul may be included in this account at cost.

(3) Records shall be maintained to reflect the investment cost by class of those vehicles used predominantly or exclusively in local pickup and delivery or transfer service separately from the investment cost of those vehicles used predominantly or solely in intercity line haul services.

(4) This account shall include the cost of carrier owned rail cars of all classes used in express operations, together with the cost of additions and betterments to such cars.

NOTE: The records supporting this account shall be maintained to show the investment in and number of each different type of car owned.

(5) This account shall reflect the cost of containers, cages, and similar receptacles used to facilitate the handling and transportation of express shipments, and portable safes providing protection to shipments of cash, securities and other valuables while in transit which shall be identified with surface express, air express or joint express service according to use.

NOTE: The investment in office safes located in general, local, terminal, garage, shop, and agent offices, shall be carried in account 121-06-Furniture and Office Equipment.

(e) 04 *Service cars and equipment* (1) This account shall include the cost of wrecker trucks, service trucks and other mobile automotive equipment, including cost of original tires and tubes thereon, used to tow disabled vehicles, to pick up parts and for additional purposes connected with the repair and servicing of equipment and other property.

(2) The cost of radio receiving and sending apparatus installed on service vehicles shall be included in this account.

(f) 05 *Shop and garage equipment.* This account shall include the installed cost of stationery machinery and equipment (not an integral part of the building itself), together with the foundations on which mounted used in the maintenance and servicing of equipment and other property.

(g) 06 *Furniture and office equipment.* (1) This account shall include the installed cost of office furniture and fixtures and office machines and equipment wherever located or used when not an integral part of the building itself.

(2) Records shall be maintained to provide a segregation and breakdown of the cost recorded herein by locations, so as to show the respective portions of such cost assignable to property of this class in (a) executive and general offices, (b) district offices, (c) agency offices, (d) garage and shop offices, (e) terminal offices, and (f) all other offices.

(h) 07 *Miscellaneous equipment.* (1) This account shall include the cost of equipment used in the loading, unloading sorting, arranging, moving or other handling of express cargo at terminals, warehouses and rail station platforms, such as, conveyor lines, chutes, automatic sorters, tow cars systems, lifts, platform and depot tractors, self-propelled and manually pulled trucks and other wheeled conveyances.

(2) This account shall be subdivided to reflect the cost of conveyor lines, tow cart systems and other similar facilities separately from platform and depot tractors and trucks and other wheeled conveyances having substantially shorter service lives.

(3) The items in this account shall be identified with surface express, air express or joint express operations according to use.

(4) This account shall reflect the cost of carrier owned automobiles and station wagons (including cost of original tires and tubes thereon), and of airplanes acquired for use of officers, employees or agents in the performance of their assigned duties on behalf of the carrier.

(i) 08 *Leasehold improvements.* (1) This account shall include the aggregate cost of preparing and readying leased property for initial use in express operations; also the cost of subsequent additions to and betterments of the leased property.

(2) Each addition or betterment shall be identified with surface express, air express or joint express operations according to use.

NOTE: Amortization accruing on improvements to leased property shall be accounted for in the same manner as for similar owned property, excess where limited by terms of the lease.

(j) 09 *Unfinished construction on land owned.* (1) This account shall include the accumulated costs with respect to property that either is in process of construction at date of balance sheet or which for other reasons is not yet ready for initial placement in active service. The costs recorded herein shall be transferred to the appropriate property investment account in the month the property is placed in service.

(2) Each project shall be identified according to planned use of the facility in surface express, air express or joint express operations.

(k) 10 *Structures on land not owned.* See secondary account 02.

(l) 11 *Unfinished construction on land not owned.*

V 38-155 AUG 13 73 XUM

(m) 12 *Unfinished construction-leasehold improvements.*

122. Accumulated depreciation on operating property.

(a) This account shall reflect the accumulated depreciation for losses in value of carrier operating property which have been created through charges each month to appropriate operating expense accounts. (See carrier property instruction 3-4)

(b) Charges shall be made to the accumulated depreciation account when depreciable carrier operating property is retired from service. (See carrier property instruction 3-3)

(c) This account shall be subdivided as follows:

02 Accumulated depreciation—structures on land owned
03 Accumulated depreciation—revenue equipment
04 Accumulated depreciation—service cars and equipment
05 Accumulated depreciation—shop and garage equipment
06 Accumulated depreciation—furniture and office equipment
07 Accumulated depreciation—miscellaneous equipment
08 Accumulated depreciation—leasehold improvements
09 Accumulated depreciation—structures on land not owned

123. Nonoperating property.

(a) This account shall reflect the investment in property used by the carrier or leased by the carrier to others where the end use, activity or purpose is not related nor associated with express operations.

(b) By secondary account numbers this account shall be subdivided as follows:

01 Land
02 Structures on land owned
03 Equipment
04 Structures on land not owned

124. Accumulated depreciation on nonoperating property.

(a) Estimated accruals to cover depreciation on the book cost of property classified as nonoperating property shall be recorded monthly to distribute the service value equitably over the service life of the property.

(b) This account shall be subdivided by secondary codes as follows:

02 Accumulated depreciation—structures on land owned
03 Accumulated depreciation—equipment
04 Accumulated depreciation—structures on land not owned

130. Permanent investments.

131. Affiliate investments.

(a) This account shall reflect the cost of carrier investments in bonds, notes, capital stock, and securities of whatever kind issued or assumed by affiliated companies; also, amounts of advances or loans to affiliated companies which will not be settled currently.

(b) This account shall be subdivided as follows:

01 Common stocks
02 Preferred stocks
03 Bonds receivable
04 Notes receivable
05 Other investments
06 Advances receivable
07 Adjustments

NOTE: Securities of affiliates held in special funds shall be excluded from this account. (See account 144-Special Funds).

(c) Secondary account 07 shall reflect provision for permanent impairment in the values of these investments and advances created by charges to account 731-miscellaneous expenses.

132. Other investments.

(a) This account shall include the cost of carrier investments in bonds, notes, capital stock, and other securities issued by non-affiliated companies which do not qualify as short-term investments; also, loans, advances and receivables from non-affiliates not subject to settlement within one year.

(b) This account shall be subdivided as follows:

01 Other common stock
02 Other preferred stock
03 Other bonds receivable
04 Other notes receivable
05 Other investments
06 Other advances receivable
07 Other adjustments

NOTE: Securities of non-affiliates held in special funds shall be excluded from this account. (See account 144-Special Funds)

(c) Secondary account number 07 shall reflect provision for permanent impairment of these investments and advances created by charges to account 731-miscellaneous expenses.

140. Other assets.

141. Intangible property.

(a) This account shall be subdivided as follows:

01 Organization
02 Franchises
03 Patents
04 Other intangible property

(b) 01 *Organization.* This account shall include fees paid to a state or other governmental body for the privilege of incorporating and conducting a business, and expenditures incurred in organizing the corporation.

(c) 02 *Franchises.* (1) This account shall include amounts actually paid by the carrier to the Federal Government, a state, a political subdivision thereof, or to other governmental authority to obtain franchises, permits, consents, or certificates, running in perpetuity or for a specified term of more than one year.

(2) This account shall be charged with payments for legal services, witness fees and expenses, advertising and other attending costs only if the carrier's application for the franchises, permits, etc., is granted. Where the application is denied, all such expenditures shall be charged to account 731-08-sundry expenses.

(3) If an intangible is acquired by assignment the purchase price and other expenditures involved shall be charged to this account.

(4) This account shall reflect separately amounts applicable to (1) perpetual franchises, and (2) fixed-term franchises.

(d) 03 *Patents.* This account shall include the cost of patent rights, licenses and privileges necessary or valuable to the economical conduct of the express business or noncarrier operations, and which have a life of more than one year from the date they become effective.

(e) 04 *Other intangible property.* This account shall include the book cost of any intangible not provided for in another account.

142. Accumulated amortization on intangible property.

(a) This account shall be credited with amounts charged to account 731-04-intangible write-offs, to amortize the costs of acquiring leaseholds, franchises, consents, privileges, and patents, over the respective life terms of such intangibles. This account shall also be credited with amounts charged to account 731-08—sundry expenses, when the carrier elects to amortize the cost of acquiring similar intangibles which do not have fixed life terms.

(b) This account shall be subdivided by secondary account numbers to show the amount of each separate account set out below and the nature of and amounts of debits and credits thereto:

02 Accumulated amortization on franchises
03 Accumulated amortization on patents
04 Accumulated amortization on other intangible property

143. Deferred charges.

(a) This account shall be subdivided as follows:

01 Debt discount
02 Other deferred charges
03 Capital stock discount
04 Capital stock commission
05 Interest

(b) 01 *Debt discount.* This account shall include the total of the net debit balances representing the excess of the discount and expense incurred over the premium realized from the issuance of each class of the carrier's outstanding long-term debt securities. Separate data shall be maintained with respect to each issue of securities.

(c) 02 *Other deferred charges.* This account shall include debit items not provided for elsewhere for which the proper final disposition cannot be effected until additional information is received. Among additional items includable in this account are deposits made on equipment purchased for future delivery; escrow payments for options, etc., pending final election and disposition; and expenditures for valuations, inventories, and appraisals made in connection with pending applications for purchase, sale or lease of franchises, permits, and other intangible or tangible property.

(d) 03 *Capital stock discount.* This account shall be debited for discount incurred in connection with an issuance of the carrier's capital stock pending write-off to account 254—capital surplus, provided there is a credit balance therein sufficient to absorb such write-off and in the event such credit balance is insufficient, the write-off is to be to account 255-08—other debits. (See balance sheet instruction 2-5(c)).

(e) 04 *Capital stock commission.* This account shall be charged for commission expenses incurred in connection with an issuance of the carrier's capital stock and shall be written-off as provided above for capital stock discount.

(f) 05 *Interest.* This account shall consist of any interest charge on long-term leases subject to capitalization. Also any interest charge exceeding the current period by term of agreement. This account will contain the long-term portion while the short-term (within one year) will be shown in current assets.

144. Special funds.

(a) This account shall include cash, securities or other assets in the hands of trustees or otherwise restricted, that have been set aside in distinct funds for certain specific purposes.

(b) This account shall be subdivided by secondary account numbers as follows:

01 *Sinking funds.* Sinking funds maintained under mortgage provisions.
02 *Depreciation funds.* Depreciation funds for the replacement of retired property.
03 *Miscellaneous special funds.* Employee benefit funds for the payment of pensions and hospitalization; insurance funds for the payment of losses not covered by insurance, and similar miscellaneous special funds. Securities of the carrier's issue placed in special funds shall be recorded at their par or stated value.
04 *Claim insurance deposits held in escrow.* Cash deposits, to support potential claim liability, which are required by the insurance carrier underwriting the claim payments.

200. Liabilities.

210. Current liabilities.

211. Current long-term debt.

This account shall include the total amount of bonds, equipment obligations, and other long-term obligations, including obligations maturing serially or payable in installments, which are due and payable within one year, and for which arrangements for refunding have not been made or for which no sinking funds have been provided. This account shall be subdivided as follows to show the different classes of debt so maturing.

01 Current equipment obligations
02 Current bonds
03 Current other long-term debt

212. Dividends declared.

(a) This account shall include the amount of dividends declared but not paid on any issue of capital stock of the carrier. Dividends (except those payable to affiliated companies) shall be credited to this account as of the day upon which they became a liability of the carrier.

(b) A separate subdivision shall be maintained in this account for dividends on each class and series of stock.

213. Notes payable.

(a) This account shall include the face value of outstanding obligations to other than affiliates in the form of notes, drafts, acceptances, and similar evidences of indebtedness which by their terms do not run for a period in excess of one year from date of issue, including the face value of notes receivable discounted or sold without releasing the carrier from liability as endorser thereon.

(b) This account shall be subdivided as follows to show separately, obligations maturing upon demand and obligations bearing a specified date of maturity:

01 Demand notes payable
02 Fixed term notes payable

214. Accounts payable.

(a) This account shall include amounts payable to others (except affiliated companies) that are subject to current settlement, for materials, supplies and services received, including rents payable for the use of revenue vehicles and other property; other matured rents, amounts due to public authorities, amounts of payable judgments, current accounts with officers and employees, the carrier's liability for transportation taxes and sales taxes collected from customers.

(b) This account shall also include the balances due other carriers (except affiliated companies) in favor of each of which there is a net credit balance representing interline accounts.

(c) This account shall be subdivided as follows:

01 Vendor payables
02 Interline payables
03 Employee payables
04 Unremitted paid beyond
05 Other payables
06 Accrued interline payable
07 Garnishments payable

215. Income taxes accrued.

(a) This account shall be credited each month with the amount of Federal, State and local income taxes accrued in the current period. The balance in the Federal income tax account at the close of the year shall represent the estimated tax payable after deduction of the amount of utilizable tax credits computed in accordance with the Internal Revenue Code.

(b) The records supporting entries to this account shall be kept to show the estimated tax liability for the current year separately from claimed tax overpayments or underpayments in dispute, or other items and adjustments applicable to prior years.

(c) This account shall be subdivided as follows:

01 Federal income taxes accrued
02 State income taxes accrued
03 Local income taxes accrued

216. Other taxes accrued and withheld.

(a) This account shall be credited each month with the amount of taxes other than income, accrued during the month, with concurrent debits to the appropriate accounts for tax charges. This account shall also include deductions from employees' wages for railroad retirement tax and Federal, state and local income taxes. Credits to this account that are based upon estimates shall be adjusted from time to time during the year so that the tax expense accounts may show as nearly as possible, the taxes applicable to each period. Payments of taxes for which accruals have been made shall be debited to this account. Amounts representing prepayment of taxes applicable to subsequent periods shall be included in account 117-01-prepaid taxes and licenses.

(b) The records supporting entries to this account shall be kept so that the carrier can furnish information as to the basis for each tax accrual, the kinds of taxes paid, the amount of each and the accounts charged with the tax accruals.

(c) This account shall be subdivided as follows:

01 Real estate taxes accrued
02 Personal property taxes accrued
03 Railroad retirement taxes accrued
04 Railroad unemployment taxes accrued
05 Other taxes accrued
06 Federal withholding taxes
07 State withholding taxes
08 City withholding taxes
10 Air excise taxes accrued

217. Accrued expenses.

This account as subdivided will reflect current liability for:

01 Wages payable
02 Accrued interest
03 Accrued rents
04 Accrued insurance
07 Other accrued expenses
08 Accrued vacation—nonunion—current year
09 Accrued vacation—union—current year
10 Accrued vacation—nonunion—next year
11 Accrued vacation—union—next year
12 Group insurance contribution
13 Accrued line haul expense

and shall be credited each month for the amounts accrued or applicable during that month.

218. Affiliate payables.

(a) This account shall include amounts payable currently to affiliated companies, such as amounts due for services and materials received, rentals, traffic balances, matured interest, dividends and other items in open account. Also, the face value of loans and notes which will fall due and become payable to affiliates within one year.

(b) This account shall be subdivided as follows:

01 Affiliate loans payable
02 Affiliate accounts payable
03 Affiliate interest payable
04 Affiliate dividends payable

(c) For balance sheet presentation, the amount of payables to and receivables from each individual affiliated company shall be shown as a net payable or net receivable, as appropriate.

V 38-155 AUG 13 73 XUM

219. Other current liabilities.

(a) This account shall include all current liabilities not includible in other current liability accounts covering unclaimed wages, savings bond deductions, unremitted C.O.D.'s and other miscellaneous current liabilities.

(b) This account shall be subdivided by secondary account numbers, as follows, to show the nature of each liability:

01 Unclaimed wages
02 Savings bond deductions
03 Unremitted C.O.D.'s
04 Miscellaneous other current liabilities
05 Union dues deductions

220. Long-term obligations.

221. Equipment obligations.

(a) This account shall include the unpaid balance of unmatured equipment notes, chattel mortgages, and conditional sales contracts executed by the carrier to finance the purchase of motor vehicles and other equipment; also, long-term leases capitalized in conformity with balance sheet account instruction 4–2 and the unpaid balance of similar equipment obligations executed or issued by others for which the carrier has assumed the obligation to pay and payable more than one year from the date of the balance sheet.

(b) A separate subdivision shall be maintained for each class of equipment obligation and no issue shall be considered to be of the same class unless identical as to the liability and nature of property covered. When reacquired equipment obligations are retired, this account shall be cleared of amounts included herein.

(c) The liability for equipment obligations maturing within one year from the close of each month is includible in account 211–current long-term debt.

222. Bonds.

(a) This account shall reflect the unpaid balance of unmatured bonds issued by the carrier and maturing more than one year from the close of the accounting period; also, the unpaid balance of unmatured bonds issued by others for which the carrier has assumed the obligation to pay. See account 211–current long-term debt.

(b) A separate subdivision shall be maintained for each class and series of bonds, and no issue shall be considered to be of the same class unless identical as to liability and nature of property covered. When reacquired bonds are retired, this account shall be cleared of amounts included herein.

223. Other long-term obligations.

(a) This account shall include all other long-term liabilities and obligations that become payable after one year from the close of the accounting period and not provided for elsewhere herein. These obligations include, but are not limited to, real estate mortgages, assessments for public improvements; and serial and other notes payable (except equipment notes). See account 211–current long-term debt.

(a) A separate subdivision shall be maintained for each class of obligation included herein, and records shall be maintained to show separately for each issue, details as to date of issue, date of maturity, interest dates and rates, and the security, if any, pledged. When reacquired other long-term obligations are retired, this account shall be cleared of amounts included herein.

230. Advances payable.

231. Affiliate advances payable.

(a) This account shall include amounts payable to affiliated companies for notes, loans, and advances not subject to current settlement, including interest accrued on such debt when such interest is not subject to current settlement.

(b) This account shall be subdivided by secondary account numbers as follows:

01 Affiliate notes payable
02 Affiliate accounts payable
03 Affiliate interest payable

232. Other advances payable.

(a) This account shall include the amount of unsecured advances and other unsecured obligations payable to individuals and companies, other than affiliated companies, whether evidenced by notes or open accounts, which are not subject to current settlement, including interest accrued thereon when such interest is not subject to current settlement. This account shall also include obligations that are payable on demand but which, by mutual agreement, will not be presented for payment within one year from date of issue.

(b) This account shall be subdivided by secondary account numbers as follows:

01 Other notes payable
02 Other accounts payable
03 Other interest payable

(c) The liability for advances payable to individuals and companies other than affiliated companies, maturing within one year of the close of the accounting period is includable in account 211–current long-term debt.

240. Other liabilities.

241. Accumulated provision for self-insurance.

(a) The accounts, as subdivided below, shall be credited with amounts that have been included in charges to the secondary operating expense account 12–insurance, within the primary operating expense accounts 552–line haul transportation, 523–pickup and delivery transportation, 524–air transportation, 525–railroad transportation, 531–terminal management, 573–employee benefits, 582–pickup and delivery transportation exclusive air and 584–terminal management exclusive air, to provide accumulated provisions for settlement of claims that are not covered, or partially covered, by commercial insurance:

01 General insurance
02 Public liability
03 Workmen's compensation
04 Surface cargo loss
05 Air cargo loss
06 Other

(b) The account shall be maintained to show separately the accretions to and charges against each account listed above.

242. Deferred credits.

(a) This account shall include credit items not provided for elsewhere for which the proper final disposition cannot be effected until services are performed or additional information is received.

(b) This account also shall include the total of the net credit balances representing the excess of the premium realized over the discount and expense incurred from the issuance of each class of the carrier's outstanding long-term debt securities.

(c) A separate subdivision shall be maintained for each issue of securities.

(d) This account shall also include amounts representing investment tax credit being accounted for under the deferral method. The account shall be maintained in such manner as to show separately the unamortized balance of the deferred credit for each year such credits were utilized as a reduction of tax liability. (See general instruction 1–18.)

250. Shareholders' equity.

251. Preferred stock.

(a) This account shall include the par value of par value stock, stated value of no-par value stock and the amount received for no-par value stock without stated value, which have been issued to bona fide purchasers and have not been reacquired and cancelled; also, shares of stock nominally issued, and reacquired shares which have not been cancelled. When other than cash is received for no-par value stock without stated value, the fair market value of the consideration shall be entered in this account.

(b) This account shall be divided so as to show separately each class of stock issued, subdivided between issued and actually outstanding, nominally issued and nominally outstanding, and reacquired.

(c) When reacquired stock is retired, this account should be cleared of amounts included herein.

252. Common stock.

(a) This account, as subdivided below, shall include the par value of par value stock, stated value of no-par value stock and the amount received for no-par value stock without stated value, which have been issued to bona fide purchasers and have not been reacquired and cancelled; also, shares of stock nominally issued, and reacquired shares which have not been cancelled. When other than cash is received for no-par value stock without stated value, the fair market value of the consideration shall be entered in this account.

(b) This account shall be divided so as to show separately each class of stock issued, subdivided between issued and actually outstanding, nominally issued and nominally outstanding, and reacquired.

(c) When reacquired stock is retired, this account shall be cleared of amounts included herein.

253. Capital stock subscribed.

This account shall include the amount of legally enforceable subscriptions to capital stock of the carrier. It shall be credited with the par or stated value, or with the subscription price in the case of stock without par or stated value, exclusive of accrued dividends, if any. Concurrently, a debit shall be made to account 114–06—subscriptions receivable for the agreed purchase price and any discount or premium debited or credited to the appropriate discount or premium account. When properly executed stock certificates have been issued representing the stocks subscribed, this account shall be debited and the appropriate capital stock account credited with the par or stated value of the stock (or the consideration received in the case of no-par stock without a stated value).

254. Capital surplus.

(a) This account shall be subdivided as follows:

01 Capital stock premium
02 Other capital surplus

(b) *01 Capital stock premium.* (1) This account shall include the excess of the actual cash value of the consideration received by the carrier (at the time of original sale of par value stock and no par stock with a stated value) over the par or stated value of the stock issued, plus, accrued dividends, if any, also subsequent assessments against stockholders representing payments required in excess of par or stated value.

(2) In no event shall dividends be charged against this account without prior authorization of the Commission.

(3) The records supporting this account shall be maintained to show premiums and assessments on each class of stock, also proportions of the amounts included therein when shares of capital stock are reacquired.

(c) *02 Other capital surplus.* (1) This account shall include gains from purchase and resale of reacquired stock; donations of capital by stockholders and others; the excess of retained earnings capitalized over the par or stated value of capital stock issued; and adjustments in capital resulting from reorganization or recapitalization.

(2) This account shall be subdivided to show each source of paid-in capital.

(3) This account shall be charged with net debits resulting from the reacquisition or resale of the carrier's capital stock to the extent of, but not exceeding the credit balance therein, with respect to the particular class of stock involved; the excess, if any, shall be charged to account 255–08–other debits.

(4) Upon approval of the Commission, this account may be charged with (1) amounts credited to the capital stock account incident to the issuance of stock dividends, or to increase the liability for no par stock without stated value, or (2) amounts transferred to retained income either directly by credits thereto of gains on transactions in the carrier's own capital stock, or indirectly by charges against this account for losses, write-downs, charge-offs, or the distribution of dividends.

255. Retained income.

(a) This account shall be subdivided as follows:

01 Appropriated retained income
02 Unappropriated retained income
03 Current net income
04 Other credits
05 Current net loss
06 Dividend appropriation
07 Other appropriations
08 Other debits

(b) *01 Appropriated retained income.* This account shall include retained income which has been appropriated and set aside under contractual or legal requirements and for other specific purposes, such as retirement of indebtedness, redemption of capital stock, certain employee benefits, replacements of plant and for various contingencies. Appropriations shall be released when their respective purposes have been served. The records supporting this account shall be maintained to show each specific purpose for which retained income is appropriated.

(c) *02 Unappropriated retained income.* (1) This account shall include retained income which has not been appropriated or set aside for specific purposes. There shall be no transfers of amounts between this account and account 254–02–other capital surplus, unless, so authorized by the Commission.

(2) The balances of accounts 255–03 to 255–08, inclusive, shall be closed to this account at the end of each year.

(d) *03 Current net income.* If the income statement for the current year reflects a net credit balance, it shall be brought forward to this account.

(e) *04 Other credits.* (1) This account shall include other credit adjustments net of assigned income taxes, not provided for elsewhere in this system, but only after such inclusion has been authorized by the Commission.

(2) The records supporting entries in this account shall be so maintained that an analysis thereof may be readily made available.

(f) *05 Current net loss.* If the income statement for the current year reflects a net debit balance, it shall be brought forward to this account.

(g) *06 Dividend appropriations.* This account shall include the amounts of dividends declared during the year on all classes of outstanding capital stock. Stock reacquired and owned by the carrier (except shares held in special funds not under control of the carrier), shall not be subject to dividends. Subsidiary records shall be kept to show separately, the dividends declared on each type and class of capital stock. When dividends are paid in other than money, complete detail of each transaction shall be maintained.

(h) *07 Other appropriations.* This account shall include appropriations from retained income for sinking funds and other reserves, and allotments of surplus or transfers of definite amounts from retained income to reserves under the terms of mortgages, deeds of trust, or contracts, and other appropriations of retained income set aside in special reserve accounts.

(i) *08 Other debits.* (1) This account shall include (1) losses on resale of reacquired capital stock, (2) charges which reduce or write-off discount on capital stock issued by the company but only to the extent that such charges exceed credit balances in other capital surplus for shares reacquired, and (3) in pooling of equity interests situations, the excess of the value of the surviving company's capital stock over the aggregate total of the capital stock of the separate companies before such merger or consolidation, but only to the extent that capital surplus is not available for such purposes.

(2) This account shall include other debit adjustments, net of assigned income taxes, not provided for elsewhere in this system but only after such inclusion has been authorized by the Commission.

(3) The records supporting entries in this account shall be so maintained that an analysis thereof may be readily made available.

INCOME ACCOUNTS

300. Operating revenues.

310. Domestic express.

311. Surface.

(a) This account shall include revenues (including value charges and surcharges) derived from the transportation of surface express traffic at lawful surface tariff rates to and from points within the United States. Such revenue shall include arbitraries and single line or zone rates for commodities, baggage, mail and newspapers.

(b) There shall also be separately included in this account revenues earned for furnishing refrigeration or heat to preserve perishable shipments while in transit, for feeding and care of birds and animals, for armed guards provided to protect shipments of money and valuables and for similar services made available to the shipping public at specific tariff charges.

(c) Separations of revenue shall be maintained by use of the following secondary revenue accounts:

01 Prepaid forwarded
02 Collect received

(d) This account shall be charged with overcharges refunded to customers, caused by use of erroneous rates, weights, classifications or computations; also, revenue refunds on loss and damage shipments.

312. Air.

(a) This account shall include revenues (including value charges and surcharges) derived from the transportation of air express traffic at lawful air express tariff rates to and from points within the United States.

(b) There shall also be included in this account revenues earned of armed guards provided to protect shipments of money and valuables and for similar services made available to the shipping public at specific tariff charges.

(c) Separations of revenue shall be maintained by use of the following secondary revenue accounts:

01 Prepaid forwarded
02 Collect received
03 Air surcharge

(d) This account shall be charged with overcharges refunded to customers, caused by use of erroneous rates, weights, classifications or computations; also, revenue refunds on loss and damage shipments.

320 Foreign express.

321 Surface.

(a) This account shall include revenues derived from the transportation by railroad, motor vehicles and vessels of cargo shipments between points in the United States and points in foreign countries, except Canada.

(b) Separations of revenue shall be maintained for each of the following secondary revenue accounts:

01 Prepaid forwarded
02 Collect received

322 Air.

(a) This account shall include the revenues derived from the transportation by air of cargo shipments between points in the United States and points in foreign countries, except Canada.

(b) Separations of revenue shall be maintained for each of the following secondary revenue accounts:

01 Prepaid forwarded
02 Collect received

330 Interline express.

331 Surface.

(a) This account shall include the carrier's proportion of transportation revenue derived from surface transportation services provided in the United States on shipments having Canadian origins or destinations received from or turned over to Canadian express companies.

(b) Separations of revenue shall be maintained for each of the following secondary revenue accounts:

01 Prepaid northbound
02 Prepaid southbound
03 Collect northbound
04 Collect southbound

332. Air.

(a) This account shall include the carrier's proportion of transportation revenue derived from air transportation services provided in the United States on shipments having Canadian origins or destinations received from or turned over to Canadian carriers.

(b) Separations of revenue shall be maintained for each of the following secondary revenue accounts:

01 Prepaid northbound
02 Prepaid southbound
03 Collect northbound
04 Collect southbound

340. Other express.

341. Miscellaneous express.

(a) This account shall include miscellaneous express transportation revenue not specifically provided for in other accounts, such as sold transportation.

(b) Separations of revenue shall be maintained by use of the following secondary revenue accounts:

01 Sold transportation (1)
02 Sundry express

(1) (Includes furnishing a vehicle with a driver to another carrier, transporting freight for another carrier and moving loaded or empty trailers for another carrier).

350 Other revenue.

351 Advertising revenue.

(a) This account shall include revenues derived from advertising matter displayed on vehicles and structures concerning products or services of other companies.

(b) Separations of revenue shall be maintained for:

01 Vehicle advertising revenue
02 Structure advertising revenue

352 Customs brokerage fees.

This account shall include revenues earned by the carrier for paying duties, making declarations, executing forms and papers and performing other functions on behalf of customers, necessary to obtain clearance through customs of export or import shipments.

353 C.O.D. service fees.

This account shall include revenues earned for services perfomed incident to the collection of "cash on delivery" express shipments and the remittance of such funds to shippers.

354 Storage fees.

This account shall include revenues earned from the storage of express shipments or other freight for shippers and others.

355 Miscellaneous revenue.

This account shall include revenues not provided for elsewhere and should be separately recorded in secondary revenue accounts specifically provided for below:

01 Order and commissions
02 Payroll deduction commissions
03 Freight collection commissions
04 Garnishment fees
05 Vending machine revenue
06 Telephone revenue
07 Newsstand revenue
08 Restaurant income
09 Material and supplies sales
10 Shop work sales
11 Vehicle parking revenue
12 Snow plow work revenue
13 Foreign commissions
14 Sundry revenue

510 Equipment maintenance.

511 Maintenance management.

This account shall be charged with the salaries and other expenses incurred by or for officers, managers, supervisors, and their clerical staffs, whose predominant duties and responsibilities relate to the administration and supervision of the equipment maintenance department.

This primary account shall include but not be limited to the following secondary operating expense accounts:

01 Payroll
04 Taxes and licenses
Real estate and personal property taxes
05 Utilities
06 Supplies
07 Services purchased
08 Unclassified
09 Traveling
12 Insurance
Insurance applicable to structures and furniture and equipment of the maintenance department
13 Depreciation
Depreciation of structures, furniture and office equipment used by the maintenance department
Depreciation of shop and garage equipment except service cars
17 Equipment rentals
20 Real property rentals
26 Gain or loss on sale of assets

512 Line haul maintenance.

This account shall include all expenses, payroll and other, incurred in repairing and servicing line haul vehicles. This account shall also be charged with the cost of replacing original equipment included in the book cost of the line haul vehicles, such as fire extinguishers, jacks, lamps, tire chains, and tires and tubes. Joint expenses or those expenses that cannot readily be identified between line haul, pickup and delivery and service car maintenance are to be charged to this account and prorated to 513 and 514 using basis developed from statistical reports through expense account 91–maintenance transfers.

This primary account shall include but not be limited to the following secondary operating expense accounts:

01 Payroll
06 Supplies
07 Services purchased
08 Unclassified
09 Traveling
17 Equipment rentals
21 Tires and tubes

513 Pickup and delivery maintenance.

This account includes all expenses, payroll and other incurred in repairing and servicing pickup and delivery vehicles. This does not include vehicles assigned to exclusive air primary account 581. This account shall also be charged with the cost of replacing original equipment included in the book cost of pickup and delivery vehicles, such as fire extinguishers, jacks, lamps, tire chains and tires and tubes. Joint expenses or those maintenance expenses not readily identifiable will be charged to this account by allocations from primary account 512 through expense account 91–maintenance transfers.

This primary account shall include but not be limited to the following secondary operating expense accounts:

01 Payroll
06 Supplies
07 Services purchased
08 Unclassified
09 Traveling
17 Equipment rentals
21 Tires and tubes

514 Service cars.

This account shall be charged with the cost of operating and maintaining servce vehicles (tow trucks, wreckers, automobiles, etc.) used in connection with the carrier's maintenance and repair operations, including drivers' or operators' wages, gasoline, oil, tires, tubes, registration fees and vehicle licenses; also expense incurred in the operation of platform equipment such as depot tractors, hydraulic lifts, scooters and mobile terminal equipment. 587 Property maintenance-exclusive air.

(a) This account shall include payroll and all other expenses incurred in the repair and maintenance of all exclusive air terminal and office properties, except revenue equipment.

Such property shall include but is not limited to the following:

(1) Air conditioning and cooling systems
(2) Conveyors
(3) Docks
(4) Elevators and escalators
(5) Fixtures and equipment
(6) Heat, light and power systems
(7) Leasehold improvements

(b) The cost of construction and other work property chargeable to asset accounts shall be excluded from this account.

(c) This primary account shall include but not limited to the following secondary operating expense accounts:

01 Payroll
06 Supplies
07 Services purchased
08 Unclassified
09 Traveling
17 Equipment rental

588 Sales and marketing—exclusive air.

This account shall include payroll and all other expenses of employees engaged in the solicitation of domestic and foreign air traffic. It also includes staff personnel and expenses related to exclusive air market research.

This primary operating expense account shall include but not be limited to the following secondary operating expense accounts:

01 Payroll
06 Supplies
07 Services purchased
Commissions and fees paid to outside organizations for the solicitation of traffic with the exception of payments to commission agents.
Fees paid to personnel agencies for the procurement of employees.
Maintenance contracts for equipment used in the work applicable to this account.

This account shall include payroll and all other expenses incurred by or for personnel engaged in field and central safety and security functions.

This primary account shall include but not be limited to the following secondary operating expense accounts:

01 Payroll
06 Supplies
07 Services purchased
08 Unclassified
09 Traveling
17 Equipment rentals

NOTE: Detail of applicable items has been omitted under certain of the secondary operating expense accounts shown under primary operating expense accounts 511 to 594 inclusive, where that information has been specifically provided for in the instructions for those accounts.

600 Nonoperating income.

610 Noncarrier income.

611 Noncarrier revenues.

(a) This account shall include the gross revenues from business operations and activities that are not connected with the performance of express transportation services by the carrier.

(b) Separations of noncarrier revenue shall be maintained in accordance with the following secondary accounts:

01 Rents from Owned Operating Property
02 Rents from Owned Nonoperating Property
03 Rents from Subleased Property
04 Sundry Income

612 Noncarrier expenses.

This account shall include expenses incurred in deriving gross revenues included in account 611-noncarrier revenues.

NOTE: Expenses as used in the text of this account, include all elements of cost incurred in noncarrier operations, including depreciation of noncarrier property, rents, taxes, (other than income taxes), and insurance.

620 Interest income.

621 Investment interest income.

(a) This account shall include interest accruing to the carrier upon securities of other companies (other than affiliated companies) and federal, state or municipal governments, on loans, notes and advances; special deposits and all other interest bearing assets. Interest accrued shall not be credited to this account unless its payment is reasonably assured; in other cases, credits to this account shall be based upon the interest actually collected.

(b) This account shall be maintained to show separately the interest income from each investment.

622 Affiliate interest income.

(a) This account shall include interest accruing to the carrier upon securities of affiliated companies.

(b) This account shall be maintained to show separately the interest income from each affiliated company.

623 Miscellaneous interest income.

This account shall include interest accruing to the carrier which has not been provided for elsewhere.

630 Dividend income.

631 Investment dividend income.

(a) This account shall include income derived by the carrier from the dividends on stock of other companies (other than affiliated companies) held by it. Accruals of guaranteed dividends may be included in this account if the payment is reasonably assured.

(b) This account shall be maintained to show separately the dividend income from each investment.

632 Affiliate dividend income.

(a) This account shall include income derived by the carrier from the dividends on stock of affiliated companies.

(b) This account shall be maintained to show separately the dividend income from each affiliated company.

640 Other income.

641 Miscellaneous income.

This account shall include all income accrued to the accounting carrier in accordance with the terms of any contract by which the carrier is entitled to participate in the profits from the operations of others, and all nonoperating income not provided for in any of the foregoing accounts. Credits for rents receivable by the carrier for owned or leased railroad cars shall also be included in this account.

NOTE: "Profits from the operations of others" does not include any dividends on stock. Income from dividends shall be credited to account 631-investment dividend income, or account 632-affiliate dividend income, as appropriate.

700 Nonoperating expenses.

710 Interest expense.

711 Investment interest expense.

(a) This account shall include all interest accrued on funded and unfunded debt, and on obligations of indebtedness of whatever kind issued, assumed, or incurred by the carrier (other than affiliated companies). This account shall not include interest on securities held by the carrier in its treasury, in sinking or other special funds, or pledged as collateral.

(b) Secondary accounts, as indicated below, shall be maintained to show separately the interest expense on each of the following:

01 Advances Interest Expense
02 Bond Interest Expense
03 Equipment Obligation Interest Expense
04 Other Long-term Obligation Interest Expense
05 Current Obligation Interest Expense

712 Affiliate interest expense.

(a) This account shall include interest accrued on funded and unfunded debt,

V 38-155 AUG 13 73 XUM

and on obligations of whatever kind issued, assured or incurred by the carrier to affiliated companies.

(b) This account shall be maintained to show separately the interest expense to each affiliated company.

720 Debt expense and credit.

721 Debt discount expense.

(a) This account shall be charged each month with the applicable proportion of the unamortized discount and expense on outstanding long-term debt.

(b) A plan of amortization shall be adopted that will result in distributing the total debt discount and expense through equal monthly charges to this account over the life of the security.

722 Debt premium credit.

(a) This account shall be credited each month with the applicable proportion of the premium at which outstanding long-term debt was issued.

(b) A plan of amortization shall be adopted that will result in distributing the debt premium through equal monthly credits to this account over the life of the security.

730 Other expenses.

731 Miscellaneous expenses.

(a) This account shall be charged with all items properly chargeable to income of the current year which have not been provided for elsewhere, including contract guarantees to be assumed by the carrier, loss reimbursements in accordance with the terms of contracts, nonoperating bad debts, intangible write-offs, contributions that do not have a direct relationship to the protection of carrier property, development of business or welfare of the carriers; employees' fines and penalties for violations of law, and excess of premiums for life insurance of officers and employees over the increase in cash surrender value of the policies.

(b) Charges to this account shall be separated upon basis of the following secondary accounts:

01 Contract Guarantees
02 Loss Reimbursements
03 Nonoperating Bad Debts
04 Intangible Write-Offs
05 Nonoperating Donations
06 Fines and Penalties
07 Excess Life Insurance Premium
08 Sundry Expenses
09 Salvage Value of Revenue Equipment

800 Income taxes on ordinary income.

810 Income taxes on ordinary income.

811 Federal income taxes.

This account shall be charged each month with its proportion of Federal income taxes payable on the net annual income or profits of the carrier. (See account 930–income taxes on extraordinary and prior period items for recording other Federal income taxes).

813 Other income taxes.

This account shall be charged each month with its proportion of income taxes (other than Federal) payable on the net annual income or profits of the carrier. (See account 930–income taxes on extraordinary and prior period items for recording other income taxes.)

900 Extraordinary and prior period items.

910 Extraordinary items (net).

911 Extraordinary items (net).

(a) This account shall include extraordinary items accounted for during the current year in accordance with general instruction 1–1(b) and with the approval of the Commission. Among the items which shall be included in this account are:

(1) Net gain or loss on sale of land used for transportation purposes.

(2) Net gain or loss on sale of securities acquired for long-term investment purposes.

(3) Net gain or loss on reacquisition of company bonds.

(4) Loss on retirement of express property because of abandonment or other cause for which depreciation accruals have not been provided.

(5) Changes in application of accounting principles.

(b) Income tax consequences of charges and credits to this account shall be included in account 930–income taxes on extraordinary and prior period items.

(c) This account shall be maintained in a manner sufficient to identify the nature and gross amount of each debit and credit.

920 Prior period items (net).

921 Prior period items (net).

(a) This account shall include unusual delayed items accounted for during the current fiscal year in accordance with the text of general instruction 1–1(b) and with the approval of the Commission. Among the items which shall be included in this account are:

(1) Unusual adjustments, refunds or assessments of income taxes of prior years.

(2) Similar items representing transactions of prior years which are not identifiable with or do not result from business operations of the current year.

(b) Income tax consequences of charges and credits to this account shall be included in account 930-income taxes on extraordinary and prior period items.

(c) This account shall be maintained in a manner sufficient to identify the nature and gross amount of each debit and credit.

930 Income taxes on extraordinary and prior period items.

931 Income taxes on extraordinary and prior period items.

This account shall include the estimated income tax consequences (debit or credit) assignable to the aggregate of items of both taxable income and deductions from taxable income which, for accounting purposes, are classified as unusual and extraordinary and are includable in account 910-extraordinary items, or account 920-prior period items, as appropriate.

Title 50—Wildlife and Fisheries

CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Kirwin National Wildlife Refuge

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

KANSAS

KIRWIN NATIONAL WILDLIFE REFUGE

Public hunting of pheasants, quail, cottontail rabbits, and fox squirrels on the Kirwin National Wildlife Refuge, Kansas, is permitted only on the area designated by signs as open to hunting. This open area, comprising 3,300 acres, is delineated on maps available at refuge headquarters, 5 miles west of Kirwin, Kansas, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 10597 W 6th Ave., Denver, Colorado 80215. Hunting shall be in accordance with all applicable State regulations governing the hunting of pheasants, quail, cottontail rabbits, and fox squirrels subject to the following special conditions:

(1) The open season for hunting pheasants on the refuge extends from November 10, 1973 through January 31, 1974, inclusive.

(2) The open season for hunting quail on the refuge extends from November 10, 1973 through January 31, 1974, inclusive.

(3) The open season for hunting cottontail rabbits and fox squirrels on the refuge shall be only on those days during the open season for the hunting of pheasants and quail.

(4) Shotguns and bow and arrows are legal weapons. Rifles or handguns will not be permitted.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 31, 1974.

KEITH S. HANSEN,
Refuge Manager, Kirwin National Wildlife Refuge, Kirwin, Kansas.

AUGUST 3, 1973.

Title 7—Agriculture

CHAPTER II—FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

NATIONAL SCHOOL LUNCH PROGRAM, SPECIAL MILK PROGRAM FOR CHILDREN, SCHOOL BREAKFAST PROGRAM, AND SPECIAL FOOD SERVICE PROGRAM

Definition of Milk

On June 4, 1973, there was published in the FEDERAL REGISTER (38 FR 14691), a notice of proposed rulemaking to amend the Regulations governing the operation of the National School Lunch Program (7 CFR Part 210), Special Milk Program for Children (7 CFR Part 215), School Breakfast Program (7 CFR Part 220), and the Special Food Service Program for Children (7 CFR Part 225) for the purpose of authorizing a choice in the type of milk served under the child nutrition programs. Responses to the proposed amendments were received from 512 individuals and organizations. The comments and the action taken as a result thereof are discussed below.

The proposed revision to the definition of milk was supported overwhelmingly by 501 respondents. Many of these respondents specifically referred to the fact that the new definition would increase flexibility in the meal service without causing a loss of necessary protein, vitamins, and minerals. Many respondents also expressed the belief that this increased flexibility will be a great step toward increasing program participation.

Twelve of the respondents favoring the amendments suggested that the definition be rewritten to include a requirement that skim and low fat milk be fortified with Vitamins A and D. Inasmuch as the State standards for milk and for the fortification of milk vary, the Department does not believe it should impose such a requirement. Ten of the above respondents were not in favor of allowing a choice of flavored milk. They expressed the concern that children would most often choose the flavored milk and that the inclusion of sugar and chocolate in such milk contributes heavily to dental caries and obesity.

Eleven respondents had mixed comments opposing the implementation of the proposed amendments. They expressed concern that many schools and institutions would serve only low fat milk because it is cheaper; that the packaging of these additional varieties of milk would be more expensive; that a choice of milk would create new problems with recordkeeping, ordering, inventory and serving; that the definition offers no method of control for maintaining the nutritional quality of the meals provided to children; that a choice of milk would be particularly detrimental to younger children who need whole milk in early years; that the need for children to drink other than whole milk is a controversial issue that has never been proven or settled, that is, that fat in children's diets is responsible for certain types of ailments in middle age and later years; and that the future adequate national milk supply would be jeopardized.

Local school officials have always been permitted to serve a variety of milk types and, heretofore, many schools and institutions have made a choice of milk available with meals but were not reimbursed for those meals because child nutrition program regulations authorized the service of fluid whole milk only, except in certain cases where individual participating children were unable, because of medical or other special dietary needs, to consume fluid whole milk.

These amendments are intended to expand the child nutrition programs to include the service of a variety of milk types as a meal component under the National School Lunch Program, School Breakfast Program and Special Food Service Program for Children, and to include the service of a variety of milk types under the Special Milk Program for Children for which the Department will provide reimbursement.

The issuance of these amendments is not an advocation or a mandate by the Department to serve any one of the proposed types of milk, nor are these amendments intended to discourage the continued use of whole milk. The service of the type or types of milk (meeting the requirements of the definition) shall continue to be left to the discretion of the State and local school authorities. Thus no change has been made in the final amendments.

Accordingly, the National School Lunch Program, Special Milk Program for Children, School Breakfast Program and Special Food Service Program for Children regulations are amended as follows:

[Amdt. 13]

PART 210—NATIONAL SCHOOL LUNCH PROGRAM

1. In § 210.2 paragraph (i) is revised to read as follows:

§ 210.2 Definitions.

• • • • • •

(i) "Milk" means fluid types of unflavored whole milk or lowfat milk or skim milk or cultured buttermilk which meet State and local standards for such types of milk and flavored milk made from such types of milk which meet such standards; and, in those areas of Alaska, Guam, Hawaii, American Samoa, Puerto Rico, and the Virgin Islands where a sufficient supply of such types of milk cannot be obtained, shall include recombined or reconstituted whole milk, and, in those areas of Alaska, American Samoa, Puerto Rico, and the Virgin Islands where a sufficient supply of such types of milk or of recombined or reconstituted whole milk cannot be obtained, shall include reconstituted nonfat dry milk.

• • • • • •

(Catalog of Federal Domestic Assistance Program No. 10.553, National Archives Reference Services)

[Amdt. 10]

PART 215—SPECIAL MILK PROGRAM FOR CHILDREN

2. In § 215.2 paragraph (l) is revised to read as follows:

§ 215.2 Definitions.

• • • • • •

(l) "Milk" means fluid types of unflavored whole milk or lowfat milk or skim milk or cultured buttermilk which meet State and local standards for such types of milk and flavored milk made from such types of milk which meet such standards; and, in those areas of Alaska, Guam, and Hawaii where a sufficient supply of such types of milk cannot be obtained, shall include recombined or reconstituted whole milk, and, in those areas of Alaska, American Samoa, Puerto Rico, and the Virgin Islands where a sufficient supply of such types of milk or of recombined or reconstituted whole milk cannot be obtained, shall include reconstituted nonfat dry milk.

• • • • • •

(Catalog of Federal Domestic Assistance Program No. 10.556, National Archives Reference Services)

[Amdt. 15]

PART 220—SCHOOL BREAKFAST AND NONFOOD ASSISTANCE PROGRAMS AND STATE ADMINISTRATIVE EXPENSES

3. In § 220.2 paragraph (j) is revised to read as follows:

§ 220.2 Definitions.

• • • • • •

(j) "Milk" means fluid types of unflavored whole milk or lowfat milk or skim milk or cultured buttermilk which meet State and local standards for such types of milk and flavored milk made from such types of milk which meet such standards; and, in those areas of Alaska, Guam, Hawaii, American Samoa, Puerto Rico, and the Virgin Islands where a sufficient supply of such types of milk cannot be obtained, shall include recombined or reconstituted whole milk, and, in those areas of Alaska, American Samoa, Puerto Rico, and the Virgin Islands where a sufficient supply of such types of milk or of recombined or reconstituted whole milk cannot be obtained, shall include reconstituted nonfat dry milk.

• • • • • •

§ 220.8 [Amended]

4. In § 220.8, the term, "fluid whole milk" in subparagraph (l) of paragraph (a) is deleted and the term "milk" is substituted therefor.

(Catalog of Federal Domestic Assistance Program No. 10.553, National Archives Reference Services)

[Amdt. 7]

PART 225—SPECIAL FOOD SERVICE PROGRAM FOR CHILDREN

5. In § 225.2, paragraph (k) is revised to read as follows:

§ 225.2 Definitions.

• • • • • •

(k) "Milk" means fluid types of unflavored whole milk or lowfat milk or skim milk or cultured buttermilk which meet State and local standards for such types of milk and flavored milk made from such types of milk which meet such standards; and, in those areas of Alaska, Guam, Hawaii, American Samoa, Puerto Rico, the Trust Territory of the Pacific Islands, and the Virgin Islands where a sufficient supply of such types of milk cannot be obtained, shall include recombined or reconstituted whole milk, and, in those areas of Alaska, American Samoa, Puerto Rico, the Trust Territory of the Pacific Islands, and the Virgin Islands where a sufficient supply of such types of milk or of recombined or reconstituted whole milk cannot be obtained, shall include reconstituted nonfat dry milk.

§ 225.9 [Amended]

6. In § 225.9, the term "fluid whole milk" in subdivision (i) of subparagraphs (1) and (2) of paragraph (b) is deleted and the term "milk" is substituted therefor.

• • • • • •

(Catalog of Federal Domestic Assistance Program No. 10.552, National Archives Reference Services.)

Effective date. These amendments shall be effective August 13, 1973.

Dated: August 9, 1973.

CLAYTON YEUTTER,
Assistant Secretary.

[FR Doc.73-16791 Filed 8-10-73;8:45 am]

V 38-155 AUG 13 73 XUM

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Avocado Reg. 15, Amdt. 2]

PART 915—AVOCADOS GROWN IN SOUTH FLORIDA

Limitation of Shipments

This amendment to Avocado Regulation 15 revises the maturity requirements for the handling of the Nesbitt variety of avocados, so as to permit the marketing of mature avocados of this variety. The maturity requirements are specified in terms of minimum weights or diameters and are those which have been found to be necessary for the avocados to ripen properly after harvesting.

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 915, as amended (7 CFR Part 915), regulating the handling of avocados grown in South Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation of the Avocado Administrative Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of avocados, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amended regulation until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of Florida avocados are currently regulated pursuant to Avocado Regulation 15 (38 FR 15511; 17437) and, unless sooner modified or terminated, will continue to be so regulated until April 30, 1974. The recommendation and supporting information for amendment of the regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Avocado Administrative Committee on August 7, 1973; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the recommended amendment and information upon which the amendment is based were received by the Department on August 7, 1973; the provisions of this amended regulation, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of avocados; it is necessary, in order to effectuate the declared policy of the act, to make this amended regulation effective during the period and in the manner hereinafter set forth so as to provide for the continued regulation of the handling of such avocados; compliance with this amended regulation will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof, and it relieves restrictions by permitting shipment of the Nesbitt variety at an earlier date than now provided.

The need for the amendment to Avocado Regulation 15 stems from the current avocado crop maturity situation. Because of current rainfall and warm weather, the Nesbitt variety of avocados are of a larger size than normal, and are maturing about two-weeks earlier than the date such variety of avocados are permitted to be handled pursuant to the provisions of such regulation.

Order. The provisions of paragraph (a)(2) of § 915.315 (Avocado Regulation 15; 38 FR 15511; 17437) are amended by changing in Table I the dates and minimum weights applicable to the Nesbitt variety, so that after such changes the portion of Table I relating to the Nesbitt variety reads as follows:

Variety	Date	Minimum Weight or Diameter	Date	Minimum Weight or Diameter	Date	Minimum Weight or Diameter	Date
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
Nesbitt	8-8-73	22 oz.	8-20-73	18 oz.	8-27-73	16 oz.	9-17-73

(Secs. 1–19, 48 Stat. 31, as amended, 7 U.S.C. 601–674)

Dated, August 8, 1973, to become effective August 8, 1973.

D. S. KURYLOSKI,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

PART 919—PEACHES GROWN IN MESA COUNTY, COLORADO

Expenses and Rate of Assessment

This document authorizes expenses of $1,000 of the Administrative Committee, under Marketing Order No. 919, for the 1972–73 fiscal period and fixes the rate of assessment of $0.005 per cwt. of peaches handled in such period to be paid to the committee by each first handler as his pro rata share of such expenses.

On July 30, 1973, notice of rule making was published in the FEDERAL REGISTER (38 FR 20265) regarding proposed expenses and the related rate of assessment for the period December 1, 1972, through November 30, 1973, pursuant to the marketing agreement, as amended, and Order No. 919, as amended (7 CFR Part 919), regulating the handling of peaches grown in Mesa County, Colorado. This notice allowed interested persons 7 days during which they could submit written data, views, or arguments pertaining to these proposals. None were submitted. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Administrative Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

§ 919.212 Expenses and rate of assessment.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Administrative Committee during the period December 1, 1972, through November 30, 1973, will amount to $1,000.

(b) *Rate of assessment.* The rate of assessment for said period, payable by each handler in accordance with § 919.41, is fixed at $0.005 per cwt. of peaches.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (7 U.S.C. 553) in that (1) shipments of peaches have already begun, (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment herein fixed shall be applicable to all assessable peaches handled during the aforesaid period; and (3) such period began on December 1, 1972, and the rate of assessment herein fixed will automatically apply to all assessable peaches beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

Dated: August 8, 1973.

D. S. KURYLOSKI,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-16744 Filed 8-10-73;8:45 am]

PART 948—IRISH POTATOES GROWN IN COLORADO

Expenses and Rate of Assessment

This document authorizes expenses of $14,780 for the Area No. 2 Committee under Marketing Order No. 948, as amended, during the 1973–74 fiscal period and fixes a rate of assessment of $0.0025 per hundredweight of potatoes handled in such period to be paid to the committee by each first handler as his pro rata share of such expenses.

Notice of rulemaking regarding the proposed expenses and rate of assessment for Area No. 2 (San Luis Valley), to be effective under Marketing Agreement No. 97 and Order No. 948, both as amended (7 CFR Part 948), was published in the July 17, 1973, FEDERAL REGISTER (38 FR 19047). This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

The notice afforded interested persons an opportunity to file written data, views, or arguments pertaining thereto not later than August 6, 1973. None was filed.

After consideration of all relevant matters, including the proposals set forth in the aforesaid notice which were recommended by the Area No. 2 Committee, established under the marketing agreement and order, it is hereby determined that:

§ 948.269 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred by the Area No. 2 Committee to enable it to perform its functions, under the provisions of Marketing Agreement No. 97, as amended, and this part, during the fiscal period ending June 30, 1974, will amount to $14,780.

(b) The rate of assessment to be paid by each handler pursuant to Marketing Agreement No. 97, as amended, and this part, shall be $0.0025 per hundredweight of potatoes grown in Area No. 2 handled by him as the first handler thereof during said fiscal period.

(c) Unexpended income in excess of expenses for the fiscal period ending June 30, 1974, may be carried over as a reserve.

(d) Terms used in this section shall have the same meaning as when used in Marketing Agreement No. 97, as amended, and this part.

It is hereby found that good cause exists for not postponing the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) the relevant provisions of the said marketing agreement and this part require that the rate of assessment for a particular fiscal period shall be applicable to all assessable potatoes from the beginning of such period, and (2) the current fiscal period began on July 1, 1973, and the rate of assessment herein fixed will apply to all assessable potatoes beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

Dated: August 7, 1973.

D. S. KURYLOSKI,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS PURCHASES, AND OTHER OPERATIONS

[1973-Crop Distress Grain Loan Program Regs.]

PART 1473—DISTRESS LOANS

Subpart—1973-Crop Distress Grain Loan Program

Correction

In FR Doc. 73-16029 appearing at page 20843 in the issue of Friday, August 3, 1973, make the following changes:

1. In the Table of Contents immediately after entry "1473.12 Release of grain under loan.", insert "1473.13 Insurance".

2. In the second line of § 1473.19, after "§ 1421.24" insert "of this chapter".

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 73-EA-66]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Alteration of Control Zone and Transition Area

The Federal Aviation Administration is amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Greater Pittsburgh Control Zone (38 FR 411) and Pittsburgh, Pa., Transition Area (38 FR 557).

The Greater Pittsburgh, Pa. Airport name was recently changed to "Greater Pittsburgh International Airport." To reflect the revised name of the airport, we will require an editorial change to the description of the control zone and 700-foot floor transition area description.

Since the foregoing is editorial in nature, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In view of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective on August 13, 1973, as follows:

1. Amend § 71.171 of Part 71, Federal Aviation Regulations by altering the description of the Pittsburgh, Pa. (Greater Pittsburgh) Control Zone by deleting the phrase "Greater Pittsburgh Airport," and by substituting therefor the phrase, "Greater Pittsburgh International Airport,".

2. Amend § 71.181 of Part 71, Federal Aviation Regulations by altering the description of the Pittsburgh, Pa. 700-foot floor transition area by deleting the phrase, "Greater Pittsburgh Airport," and by substituting therefor the phrase "Greater Pittsburgh International Airport,".

(Sec. 307(a); Federal Aviation Act of 1958; 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c); Department of Transportation Act; 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on July 27, 1973.

L. J. CARDINALI,
Acting Director, Eastern Region.

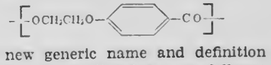
Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION



SUBCHAPTER C—REGULATIONS UNDER SPECIFIC ACTS OF CONGRESS

[Docket No. 206-13]

PART 303—RULES AND REGULATIONS UNDER THE TEXTILE FIBER PRODUCTS IDENTIFICATION ACT

Generic Names and Definitions for Manufactured Fibers

On December 9, 1970, Unitika Limited, a Japanese corporation with executive offices at 4–68 Kitakyutaro-Machi, Higashiku, Osaka, Japan, and U.S. offices at 350 Fifth Avenue, New York, N.Y. 10001, filed an application pursuant to § 303.8 [16 CFR 303.8] of the rules and regulations under the Textile Fiber Products Identification Act, 72 Stat. 1717, *et seq.*, 79 Stat. 124, 15 U.S.C. § 70, *et seq.* (hereinafter referred to as "Act"), requesting that 16 CFR 303.7, setting forth generic names and definitions of manufactured textiles fibers, be amended by adding thereto a new generic name and definition to cover its fiber called "A-Tell." Applicant alleged that A-Tell is a distinctive new fiber exhibiting advantageous physical and chemical properties, that it is not covered by any generic classification in § 303.7, and that it should not be identified by any of the generic names in such section. According to the application, the fiber has essentially the following chemical formula:

The new generic name and definition proposed by applicant are as follows:

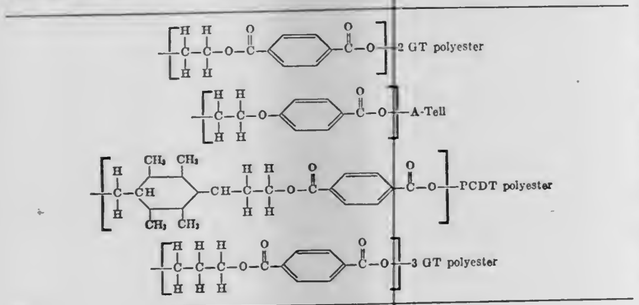
Benzoate [or Pel or Pelfil or Benox]= a manufactured fiber in which the fiber-forming substance is any long chain synthetic polymer composed of at least 85% by weight of para-ethyleneoxy benzoate units

V 38-155 AUG 13 73 XUM

By letter of February 8, 1972, the Commission assigned the designation "UT–0001" to Unitika's fiber for temporary use until a final determination could be made as to the merits of the application.

On February 25, 1972, a Notice of proposed rule making was issued by the Commission in this proceeding and subsequently published in the FEDERAL REGISTER at 37 FR 4726, March 4, 1972. Such Notice announced that the Commission was considering the application, including the following questions:

(1) Whether the fiber described in the application may properly be designated by any existing generic name or names contained in 16 CFR 303.7, and



(2) What, if any, amendment to the rules and regulations under the Act, particularly § 303.7 thereof, may be necessary and proper with regard to matters raised in the application.

The notice further provided that should the Commission determine that some amendment of § 303.7 is necessary, it would consider whether the present definition of polyester, paragraph (c) thereof, should be broadened to cover fibers such as applicant's or whether a new generic name and definition should be added to § 303.7.

The notice also provided that interested parties could participate in this proceeding by submitting their views, arguments, or other pertinent data, in writing, to the Commission.

E.I. du Pont de Nemours & Co., Inc. submitted comment in which it opposed creation of a new generic classification to cover A-Tell, favoring instead a broadening of the polyester definition to cover such fibers. Applicant also submitted comment in further support of its application and in rebuttal to du Pont's comment. This material included, among other things, letters of support of the application from two polymer chemists, Dr. Teiji Tsuruta, of the University of Tokyo, Japan, and Dr. Maurice L. Huggins of the Arcadia Institute for Scientific Research, Inc., in the United States.

The present definition of polyester is "a manufactured fiber in which the fiber-forming substance is any long chain synthetic polymer composed of at least 85% by weight of an ester of a dihydric alcohol and terephthalic acid (p.—HOOC—C_6H_4—COOH)." By far the most commonly known and widely sold fiber falling within this definition is known as PET or 2 GT polyester (Hereinafter the term 2 GT is used. "G" stands for gylcol; "T" stands for terephthalic acid; the number stands for the number of CH_2 groups in the gylcol.) Another well-known, but less common commercial polyester is PCDT polyester. The chemical structures of these two fibers and A-Tell are diagramed below. Also included is the 3 GT experimental polyester referred to by du Pont in its comments.

It is readily apparent that A-Tell and 2 GT polyester are very much alike. Both have an ester linkage, an aromatic ring, and an ethylene section in their repeating units. The only difference is in the other linkage adjacent to the aromatic ring (left side in the drawing), which is an ester linkage in the polyester and an ether linkage in the A-Tell. Both fibers would be called polyesters in chemical terminology, although A-Tell could be called a polyester-ether. Because of this very substantial similarity in chemical structure it would be the Commission's inclination to enlarge the polyester definition to encompass applicant's fiber, unless there is some clear reason why this should not be done. In this connection, the Commission has considered the various property similarities and differences among A-Tell and the polyesters, raised by applicant and du Pont.

Applicant indicated in the portion of its application designated "Supplementary Information" that A-Tell and 2 GT polyester are either identical or very similar in such qualities as specific gravity, moisture regain, tensile strength, elongation at break, extension recovery, abrasion resistance, light resistance, and acid resistance; and that they are only slightly different in tenacity against heat. Applicant reported some differences in X-ray diffraction photographs, infrared absorption spectra, nuclear magnetic resonance absorption spectra, second order transition temperature, weather resistance, solubility in certain organic solvents, alkali resistance, and dyeability. Pronounced differences were noted in melting point and modulus.

In the Commission's view, the X-ray diffraction photographs, infra-red absorption spectra, and NMR absorption spectra mainly indicate that the molecular structures of A-Tell and 2 GT polyester are different, but, as has been indicated above, the Commission does not take this as necessarily requiring that A-Tell be classified separately from the polyesters.

Applicant said that A-Tell was less resistant to certain organic solvents than 2 GT polyester; du Pont stated such solvents were exotic ones not used by consumers or the textile trade. To applicant's tests showing superior alkali and

weather resistance of A-Tell as compared with 2 GT polyester, du Pont countered that the test conditions employed would not likely be encountered in normal usage. (Such conditions did include six months' outdoor exposure, soaking in 16% or more caustic soda, boiling 150 to 300 hours in pressurized 120°C hot water.)

Applicant reported the following modulus and melting point differences between A-Tell and 2 GT polyester:

	A-Tell filament yarn	2 GT polyester filament yarn
Young's modulus	400–900	1,100–2,000
Initial modulus	33–75	90–160
Melting point	253–268	225–260

Du Pont countered that the melting points of Type 765 "Fortrel" polyester (a commercial 4 GT polyester) and 3 GT polyester are 218°C and 220°C, respectively, and that the initial modulus of 3 GT polyester is only 20.

As against applicant's showing of a difference of nearly 5°C in second order transition temperature between A-Tell and 2 GT polyester, du Pont showed a 12°C spread among fibers within the existing polyester definition.

Applicant stated in its Supplementary Information that A-Tell can be dyed brilliantly and fast with disperse and azoic dyes and that its dyeability is far better than that of polyester. It presented a graph showing considerably more disperse dye exhaustion by A-Tell than 2 GT polyester at 97°C. It stated in its later comments that A-Tell, but not polyester, can be treated with sulphur after manufacture to dye with basic dyestuffs. Du Pont indicated in its comments that both 3 GT and 4 GT polyesters have disperse dyeability rates in the same range as A-Tell and that A-Tell dyes with the same dyes as the polyesters. It said that applicant has not shown that dyeing A-Tell with basic dyes after sulphur treatment is superior, economically and otherwise, to processes presently used for dyeing polyesters.

A study of the various test results and points raised above has revealed little to the Commission in the way of properties of interest to the consumer that would distinguish A-Tell from existing polyesters, particularly when A-Tell is compared with the wider range of polyester fibers and not just 2 GT polyester. Also, with regard to weather and alkali resistance and dyeability, the Commission must consider, along with applicant's test results, that the polyesters have over the years exhibited characteristics in these areas quite adequate for normal trade and consumer use. See in this connection, e.g., Cook, *Handbook of Textile Fibers*, 4th Ed., pp. 384, 385–387, 393, 398–401.

An additional claim particularly emphasized by applicant is that A-Tell possesses a special suitability for use in next-to-the-body wear—*e.g.*, men's and women's underwear and hosiery. It claims A-Tell can be successfully utilized in such garments even at 100 percent fiber content level; that such use potential results mostly from an exceptional moisture dispersing property and a good elasticity of A-Tell; and that polyester is not as suitable for the next-to-the-body wear as A-Tell, primarily because polyester lacks moisture dispersing ability and sufficient elasticity. In its comments applicant stated A-Tell readily disperses moisture, quickly releasing it to the atmosphere "by reason of the greater surface area available for moisture evaporation." In its later comments it stated that the "highly polar nature of the ether moiety vis-a-vis an ester link provides for a greater degree of intermolecular hydrogen bonding between * * * [A-Tell] and water molecules, or, in other words, a stronger affinity for water than the polyesters, even though the moisture regain among * * * [A-Tell] and the polyesters is roughly the same." Applicant reported testing samples of A-Tell and 2 GT polyester, *inter alia*, which, it maintained, showed A-Tell to transpire water faster than polyester. However, du Pont disputed the validity of these tests and reported a test of its own which it maintained showed the water transpiration of the two fibers to be similar.

With regard to elasticity, applicant's Supplementary Information compared tensile strain recoveries of A-Tell and 2 GT polyester at various percentages of strain or extension. A-Tell was shown to be the same as polyester at 2% and 3%; to be very slightly higher at 5%; and to be significantly higher at 10%. Du Pont, in its comments showed tensile strain recovery significantly lower for A-Tell than 2 GT polyester at 3% strain (but at a temperature of 40°C). It also showed work recovery of A-Tell at 3% and 5% strains to be considerably higher than 2 GT polyester, but clearly in the same range as (although slightly less than) "Kodel" and 3 GT experimental polyester.

In the Commission's view, if applicant bases its claim for superior water dispersing ability for A-Tell on greater surface area, the property does not have a chemical basis and should not be considered in connection with determining A-Tell's generic classification. If, on the other hand, its claim is based on A-Tell's chemistry, we are faced with 1) data in applicant's Supplementary Information that A-Tell and 2 GT polyester have the same moisture regain and 2) the inconclusive nature of the data submitted (applicant's, vis-a-vis du Pont's) as to how much, if any, A-Tell is superior in dispersing moisture. It is difficult for the Commission to see how there could be appreciably more hydrogen bonding with water in A-Tell than in 2 GT polyester when their moisture regain values are the same. Also, the Commission cannot overlook the fact that polyester itself has the reputation for readily transpiring water. In *Manmade Fibers* by R.W. Moncrieff, 3d Ed., c. 1957, there appears the following, pp. 358–359:

> In the staple form * * * [polyester] has been used for socks which are fairly comfortable for town wear and which practically eliminate the housewife's darning chores.
>
> * * * * * *
>
> It [polyester] "wicks" so that polyester fabric transfers rain or snow quickly from the outside to the interior of a garment; wool does not do this.
>
> * * * * * *
>
> It must be added, however, that many people who have worn * * * [polyester] underclothes say that the lowness of its moisture regain is not disadvantageous, and that the moisture travels through the garment doubtless by wicking and then evaporates; they maintain, too, that there is no chilliness when cooling off after being hot. Something has to be allowed for personal preferences and for conditions of wear.

Also, in *Handbook of Textile Fibres* by J. Gordon Cook, 4th Ed., c. 1968, there appears on p. 391 the following:

> Fibres of low moisture absorption tend to be unsatisfactory for use in underwear and other garments in contact with the skin. They do not absorb the perspiration as wool, for example, does, and they may feel damp and clammy. This is mitigated to some extent in the case of PET polyester fabrics, as the fibres tend to "wick" readily. Moisture is carried rapidly through the fabrics, so that it can evaporate quickly as it reaches the outer surface.

Finally, the Commission has serious doubt concerning the degree to which high moisture transpiration can be a substitute for high moisture regain as a comfort factor in next-to-the-body wear.

As to elasticity, the actual data submitted, both by applicant and du Pont (summarized above) certainly could not be said to show a strong superiority of A-Tell over the polyesters in this area.

Also, it is evident to the Commission that both the ability to disperse moisture

V 38-155 AUG 13 73 XUM

and the elasticity of fabrics can be greatly controlled by texturizing and finishing processes.

In view of all these considerations, the Commission cannot see where the superiority of A-Tell over polyester for next-to-the-body wear, to the extent that it exists, is a compelling argument for creation of a new generic classification for A-Tell.

A second additional claim made by applicant is that A-Tell has the appearance of natural silk. However, a glance at page 2 of the Supplementary Information reveals that A-Tell is much closer in properties to 2 GT polyester than to silk. (The specific gravity of silk given in the Supplementary Information, 1.33–1.45, apparently relates to silk prior to degumming. The usual text-book figure for boiled-off or degummed silk is 1.25, as compared with A-Tell's reported specific gravity of 1.34.) Of course, the chemical structure of A-Tell is very different from silk, which is composed of various polypeptide chains. In view of these considerations, A-Tell's stated appearance of natural silk is hardly unique. Several silk-like polyesters appear to be on the market, some of which are Japanese fibers. See, e.g., *Guidebook to Man-made Textile Fibers and Textured Yarns of The World*, the United Piece Dye Works, c 1969, 3d ed.

Another additional claim for A-Tell is that it can be treated with bromine (nonobromonated in the benzine ring) to improve its heat resistance, raise its melting point, increase its strength at elevated temperatures, render it more resistant to certain chemical solvents, render it "more insensitive to laundering and dry cleaning," enhance its affinity for basic dyestuffs, enhance its self-extinguishing property, and enhance its nonflammability characteristics; whereas the polyesters cannot be so treated. Applicant states that in this way A-Tell "can be rendered more abundantly suited than polyesters, by simple chemical treatment, for such consumer products as curtains, sheets, and sleepwear (including pajamas and like) wherein enhanced resistance to heat, flammability, and household and dry cleaning chemicals is an obvious desideratum." Du Pont countered that fibers and fabrics of polyester with topical flame retardant treatments are commercially available.

It is the Commission's view that a treatment, such as applicant's, which fits a fiber for specialized end uses, should be given little weight in determining generic classification, since it does not change the basic identity of the fiber. Any other course could lead to an unnecessary and confusing proliferation of generic names, since it is hardly likely that A-Tell is the only fiber susceptible to such treatments.

After careful consideration of the application, it is the Commission's opinion that A-Tell is so closely related to the polyesters that it belongs in the same generic classification. It is recognized that A-Tell's chemical structure is somewhat different from fibers falling within the present polyesters definition, and that this difference may be related to some differences in properties. However, it is the Commission's judgment that these differences are not great enough to justify creation of a new generic category and that if this were done it would tend to confuse, rather than aid consumers.

Wherefore, after consideration of the views, arguments, and data submitted pursuant to the Notice of proposed rule making herein and other pertinent information and material available to the Commission, the Commission has determined to deny applicant's request that a new generic classification be promulgated and has further determined to amend the rules and regulations under the Textile Fiber Products Identification Act in the manner set forth below.

Section 303.7, "Generic names and definitions for manufactured fibers," of Part 303, Subchapter C, Chapter I, Title 16, Code of Federal Regulations, is hereby amended to revise the polyester definition in such section, paragraph (c), to read as follows:

§ 303.7 Generic names and definitions for manufactured fibers.

(c) *Polyester.* A manufactured fiber in which the fiber-forming substance is any long chain synthetic polymer composed of at least 85% by weight of an ester of a substituted aromatic carboxylic acid, including but not restricted to substituted terephthalate units, p(-R-O-C-C_6H_4-C-O-), and para substituted hydroxy-benzoate units, p(-R-O-C_6H_4-C-O-).

(Sec. 6, 72 Stat. 1717; 15 U.S.C. section 70e)

Effective date. The amendment to the rules and regulations under the Act prescribed herein shall become effective on September 12, 1973.

As amended § 303.7(c) will cover applicant's fiber. The designation UT–0001 previously assigned to applicant's fiber for temporary use is hereby revoked as of the effective date of the above amendment.

Issued: August 6, 1973.

By the Commission.

[SEAL] CHARLES A. TOBIN, *Secretary.*

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release Nos. 33–5414, 34–10317, AS–145]

PART 211—INTERPRETATIVE RELEASES RELATING TO ACCOUNTING MATTERS (ACCOUNTING SERIES RELEASES)

PART 231—INTERPRETATIVE RELEASES RELATING TO THE SECURITIES ACT OF 1933 AND GENERAL RULES AND REGULATIONS THEREUNDER

PART 241—INTERPRETATIVE RELEASES RELATING TO THE SECURITIES EXCHANGE ACT OF 1934 AND GENERAL RULES AND REGULATIONS THEREUNDER

Accounting for Catastrophe Reserves

On January 3, 1973 the Commission issued Accounting Series Release No. 134 [38 FR 1734] calling attention to the recent adoption by some property and casualty insurance companies of accounting policies providing for charges to income thereby creating a reserve for future catastrophe losses. It was noted that the matter was being considered by the American Institute of Certified Public Accountants and that definitive principles were expected to be announced in time for use in preparing 1973 annual financial statements. The Accounting Principles Board has now referred this matter to the Financial Accounting Standards Board and it is apparent that a definitive statement will not be available for use in 1973 financial statements.

The Commission continues to believe that alternative accounting principles for similar fact situations are undesirable. However, since active consideration of this matter is continuing and only a small number of companies have changed to the reserve method, it will continue to accept financial statements of insurance companies using the same method of accounting as they followed in their latest published financial statements provided the disclosure specified in Accounting Series Release No. 134 is made. No further changes of accounting policy for catastrophe losses should be made until a single method has been adopted by the Financial Accounting Standards Board.

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted In Food for Human Consumption

ENDOSULFAN

A petition (FAP 2H2667) was filed by American Hoechst Corp., 11312 Hartland Street, North Hollywood, CA 91605, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 348), proposing establishment of a food additive tolerance (21 CFR Part 121) of 35 parts per million for combined residues of the insecticide endosulfan (6,7,8,9,10,10 - hexachloro - 1,5,5a,6,9,9a-hexahydro-6,9-methano-2,4,3 - benzodioxathiepin-3-oxide) and its metabolite endosulfan sulfate (6,7,8,9,10,10-hexachloro - 1,5,5a,6,9,9a - hexahydro - 6,9-methano-2,4,3 - benzodioxathiepin - 3,3-dioxide) in or on dried tea resulting from application of the insecticide to growing tea.

Subsequently, the petitioner amended the petition by reducing the proposed tolerance to 24 parts per million (reflecting less than 0.1 part per million residues of the insecticide in beverage tea).

The Reorganization Plan No. 3 of 1970, published in the FEDERAL REGISTER of October 6, 1970 (35 FR 15623), transferred (effective December 2, 1970) to the Administrator of the Environmental Protection Agency the functions vested in the Secretary of Health, Education, and Welfare for establishing tolerances for pesticide chemicals under sections 406, 408, and 409 of the Federal Food, Drug, and Cosmetic Act, as amended (21 U.S.C. 346, 346a, and 348). Pesticide tolerances for residues of endosulfan have been previously established.

Having evaluated the data in the petition and other relevant material, it is concluded that the tolerance should be established.

Therefore, pursuant to provisions of the act (sec. 409(c)(1), (4), 72 Stat. 1786; 21 U.S.C. 348(c)(1), (4)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 F.R. 9038), Part 121 is amended by adding the following new section to Subpart D:

§ 121.1252 Endosulfan.

A tolerance of 24 parts per million is established for combined residues of the insecticide endosulfan (6,7,8,9,10,10-hexachloro-1,5,5a,6,9,9a-hexahydro - 6,9-methano - 2,4,3 - benzodioxathiepin - 3-oxide) and its metabolite endosulfan sulfate (6,7,8,9,10,10-hexachloro - 1,5,5a,6,9,9a-hexahydro-6,9 - methano - 2,4,3-benzodioxathiepin-3,3-dioxide) in or on dried tea (reflecting less than 0.1 part per million residues in beverage tea) resulting from application of the insecticide to growing tea.

Any person who will be adversely affected by the foregoing order may at any time on or before September 12, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 3902A, 4th & M Streets, SW., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on August 13, 1973.

(Sec. 409(c)(1), (4), 72 Stat. 1786; 21 U.S.C. 348(c)(1), (4))

Dated: August 8, 1973.

HENRY J. KORP, *Deputy Assistant Administrator for Pesticides Programs.*

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER E—PESTICIDE PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Benzene Hexachloride

In response to a petition (PP 3F1374) submitted by Klein Bros., 1305 West Fremont Street, Stockton, CA 95201, a notice was published by the Environmental Protection Agency in the FEDERAL REGISTER of May 30, 1973 (38 FR 14175), proposing establishment of an interim tolerance of 1 part per million for residues of the insecticide BHC (benzene hexachloride) in or on dried lima beans from postharvest application in the Malagasy Republic. The tolerance was requested specifically to cover residues of BHC in or on imported dried lima beans being detained by the Food and Drug Administration.

One comment was received from the District Attorney of the 18th Judicial District, Wichita, Kansas, asking (1) if the BHC applied in the Malagasy Republic was produced by American manufacturers, and (2) if any manufacturers of BHC joined in or initiated the request for a tolerance.

No requests for referral to an advisory committee were received. It is concluded that the proposal should be adopted.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 F.R. 9038), Part 180 is amended by adding the following new section to subpart C:

§ 180.319a BHC; interim tolerance for residues.

An interim tolerance of 1 part per million is established for residues of the insecticide BHC (benzene hexachloride) in or on the raw agricultural commodity dried lima beans imported from the Malagasy Republic. This interim tolerance expires December 31, 1973.

Any person who will be adversely affected by the foregoing order may at any time on or before September 12, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 3902A, 4th & M Streets, SW., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on August 13, 1973.

(Sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e))

Dated: August 8, 1973.

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

U.S. Customs Service

[19 CFR Part 174]

PROTESTS

Time for Review With Respect To Merchandise Excluded From Entry or Delivery

Notice is hereby given that under the authority of Revised Statute 251, as amended (19 U.S.C. 66), section 515, 46 Stat. 736, as amended (19 U.S.C. 1515), and section 624, 46 Stat. 759 (19 U.S.C. 1624), it is proposed to amend section 174.21 of the Customs Regulations (19 CFR 174.21) to provide for prompt disposition of protests with respect to merchandise excluded from entry or delivery under any provision of the Customs laws.

Representatives of importers and others have asserted that delays by the Bureau of Customs in acting on protests arising out of decisions by Customs to exclude merchandise from entry or delivery under any provision of the Customs laws have created substantial difficulties. It has been asserted that although judicial review in the Customs Court of actions on protests of decisions to exclude merchandise from entry or delivery is a theoretical possibility, it is one which does not afford an adequate remedy because of the delay which, under present practice, ensues before the protest is acted upon by Customs. There appears to be considerable merit in the position thus set forth. The proposed amendment would have no effect on protests to the extent that they relate to classification or value decisions by Customs for duty assessment purposes.

Accordingly, it is proposed to amend § 174.21 by designating the present text as paragraph (a) and adding a new paragraph (b), to read as follows:

§ 174.21 Time for review of protests.

(a) *In general.* Except as provided in paragraph (b) of this section, the district director shall review and act on a protest filed in accordance with section 514, Tariff Act of 1930, as amended (19 U.S.C. 1514), within 2 years from the date the protest was filed. If several timely filed protests are treated as part of a single protest pursuant to section 174.15, the 2-year period shall be deemed to run from the date the last such protest was filed in accordance with section 514, Tariff Act of 1930, as amended (19 U.S.C. 1514).

(b) *Protests relating to exclusion of merchandise.* If the protest relates to an administrative action involving exclusion of merchandise from entry or delivery under any provision of the Customs laws, the district director shall review and act on a protest filed in accordance with section 514, Tariff Act of 1930, as amended (19 U.S.C. 1514), within 30 days from the date the protest was filed, unless the person filing the protest shall request an additional delay for the purpose of presenting evidence or argument with respect to the matters involved in the protest. In no event shall the district director (or the Commissioner of Customs or his designee if the protest is the subject of further review as provided for in §§ 174.25 and 174.26) delay action on the protest beyond 30 days, or such additional time period as may be agreed to by the person filing the protest. Any protest filed pursuant to this paragraph shall clearly so state on its face.

Prior to the adoption of this amendment, consideration will be given to any relevant data, views, or arguments which are submitted in writing to the Commissioner of Customs, Attention: Regulations Division, Washington, D.C. 20229, and received on or before September 12, 1973.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.3(b) of the Customs Regulations (19 CFR 103.3 (b)), at the Regulations Division, Bureau of Customs, Washington, D.C., during regular business hours.

[SEAL] VERNON D. ACREE,
Commissioner of Customs.

Approved: July 31, 1973.

EDWARD L. MORGAN,
Assistant Secretary
of the Treasury.

[FR Doc.73-16664 Filed 8-10-73;8:45 am]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 52]

CANNED GRAPEFRUIT [1]

Proposed United States Standards for Grades

Notice is hereby given that the United States Department of Agriculture is considering a revision of the United States Standards for Grades of Canned Grapefruit [1] (7 CFR 52.1141-52.1154). These grade standards are issued under the authority of the Agricultural Marketing Act of 1946 (Sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1624) which provides for the issuance of official U.S. grades to designate different levels of quality for the voluntary use by producers, buyers, and consumers. Official grading services are also provided under this act upon request and upon payment of a fee to cover cost of such services.

All persons who desire to submit written views, data, or arguments for consideration in connection with the proposed revision should file the same in duplicate, not later than September 15, 1973 with the hearing clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250. All written submissions made pursuant to this notice will be available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27 (b)).

Statement of consideration leading to the proposed revision of the standard. The Florida Canners Association representing all of the processors of canned grapefruit has requested the U.S.D.A. to revise the current U.S. Standards for Grades of Canned Grapefruit to overcome problems associated with mechanized segmenting and filling operations.

The Department concludes that the proposed changes are consistent with good industry practice and serve the public interest in facilitating efficient processing of food products.

Changes proposed are as follows:

(1) Elimination of drained weight as a scoring factor of quality and adoption of new acceptance criteria for these weights. This is consistent with other U.S. standards since it is variable from container to container and is not necessarily related to quality.

(2) Lowering of the recommended minimum drained weight from 56% of the water capacity of the container to 53% for Grade A. This is equal to the FDA minimum fill of container and is the current minimum requirement for grade B.

(3) Lower the minimum percent of whole or almost whole segments in grade A from 75% to 65% of drained weight. In addition in grade B, relax the restriction on loose floating cells. These changes are to compensate for unavoidable increased breakage due to machanized segmenting and filling operations.

Other changes proposed to be consistent with current practice in U.S. standards are as follows:

(4) Sirup designations of "Heavy Sirup" and "Heavily Sweetened Grape-

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or with applicable State laws and regulations.

V 38 - 155 AUG 13 73 XUM

fruit Juice Sirup" added to the standards.

(5) Criteria for Brix determination—equalized (15 days after pack) or forced by comminuting.

(6) Fill of Container—each container be filled as full as practical without impairment of quality.

(7) Realignment of scorepoints to 25 points for each factor that is scored.

(8) Changing "Fairly Good Flavor" to "Reasonably Good Flavor"—grade B terminology.

(9) Presents "Allowance for Defects" in a tabular form.

52.1152 Character.

LOT INSPECTION AND CERTIFICATION

52.1153 Ascertaining the grade of a lot.

SCORE SHEET

52.1154 Score sheet for canned grapefruit.

AUTHORITY: Sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1624.

IDENTITY AND GRADES

§ 52.1141 Identity.

"Canned Grapefruit" means the canned product prepared from clean, sound, and mature grapefruit (Citrus paradisi Macfadyen), as such product is defined in the standards of identity for canned grapefruit (21 CFR 27.90) issued pursuant to the Federal Food, Drug and Cosmetic Act.

§ 52.1142 Grades.

(a) "U.S. Grade A" (or "U.S. Fancy") is the quality of canned grapefruit that:

(1) Has a drained weight or average drained weight of not less than 53 percent of the water capacity of the container, of which not less than 65 percent by weight of the drained grapefruit consists of whole or practically whole segments;

(2) Has a good color;

(3) Is practically free from defects;

(4) Has a good character;

(5) Has a good flavor and odor; and

(6) Scores not less than 90 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U.S. Grade B" (or "U.S. Choice") is the quality of canned grapefruit that:

(1) Has a drained weight or average drained weight of not less than 53 percent of the water capacity of the container, of which not less than 50 percent by weight of the drained grapefruit consists of whole or practically whole segments (sample average);

(2) Has a reasonable good color;

(3) Is reasonably free from defects;

(4) Has a reasonably good character;

(5) Has a reasonably good flavor and odor; and

(6) Scores not less than 80 points when scored in accordance with the scoring system outlined in this subpart.

(c) "U.S. Broken" is the quality of canned grapefruit that:

(1) Has a drained weight or average drained weight of not less than 53 percent of the water capacity of the container, of which less than 50 percent by weight of the drained grapefruit consists of whole or practically whole segments (sample average);

(2) Has at least a reasonably good color;

(3) Is at least reasonably free from defects;

(4) Has at least a reasonably good character;

(5) Has at least a reasonably good flavor and odor; and

(6) Scores not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(d) "Substandard" is the quality of canned grapefruit that fails to meet the requirements of U.S. Grade B and U.S. Broken.

LIQUID MEDIA AND BRIX MEASUREMENTS

§ 52.1143 Liquid media and brix measurements.

(a) Brix measurement requirements for the liquid media in canned grapefruit are not incorporated in the grades of the finished product since sirup, or any other liquid medium, as such, is not a factor of quality for the purposes of these grades. The designation of liquid packing media and brix measurements, where applicable, are as follows:

Designation	*Brix Measurements*
Water	Not applicable
Grapefruit juice	Not applicable
Grapefruit juice and water.	Not applicable
Slightly sweetened water	12° or more, but less than 16°
Slightly sweetened grapefruit juice	12° or more, but less than 16°
Sirup	16° or more, but less than 18°
Grapefruit juice sirup	16° or more, but less than 18°
Heavy sirup	18° or more
Heavily sweetened grapefruit juice sirup	18° or more

(b) The densities of the packing media, as listed in this section, are measured on the refractometer, expressed as percent by weight sucrose (degree Brix) with correction for temperature to the equivalent at 20° C. (68° F), but without correction for invert sugars or other substances. The degrees Brix of the packing media may be determined by any other method which gives equivalent results.

(c) Brix determination is made on the packing media 15 days or more after the grapefruit is canned or on the blended homogenized slurry of the comminuted entire contents of the container if canned for less than 15 days.

FILL OF CONTAINER

§ 52.1144 Fill of container.

(a) The fill of container for canned grapefruit is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purpose of these grades. It is recommended that each container be filled as full as practicable with grapefruit without impairment of quality.

(b) Canned grapefruit shall also meet the fill of container requirements as set forth in the Regulations of Food and Drug Administration (21 CFR 27.92).

DRAINED WEIGHTS

§ 52.1145 Minimum drained weights.

(a) *General.* The minimum drained weight requirements for the various container sizes are listed in Table I. The drained weight of the grapefruit is not less than 53 percent of the water capacity of the container.

(b) *Definitions.* (1) Sample average—average of all the drained weights of the sample containers representing a lot.

(2) $\overline{X}_d$—means a specified minimum sample average drained weight.

(3) LL—lower limit for individual container drained weight.

(c) *Method for ascertaining drained weight.* The drained weight of canned grapefruit is determined by emptying the contents of the container upon a U.S. Standard No. 8 circular sieve of proper diameter containing 8 meshes to the inch (0.0937 inch (2.3 mm), ±3 percent square openings) so as to distribute the product evenly over the sieve. Without shifting the product, incline the sieve at an angle of 17° to 20° to facilitate drainage and allow to drain for 2 minutes. The weight of drained grapefruit is the weight of the sieve and product less the weight of the dry sieve. A sieve 8 inches in diameter is used if the contents of the container is less than 3 pounds and a sieve 12 inches in diameter is used if the contents of the container is 3 pounds or more.

(d) *Compliance with minimum drained weights.* A lot of canned grapefruit is considered as meeting the minimum drained weight requirement when the following criteria are met:

(1) The sample average meets the specified minimum sample average drained weight (designated as "$\overline{X}_d$" in Table I); and

(2) The number of sample containers which fail to meet the minimum drained weight for individual containers (designated as "LL" in Table I) does not exceed the applicable acceptance number specified in Table II.

TABLE I—MINIMUM DRAINED WEIGHTS

Container Designation	LL	$\overline{X}_d$
	ounces	ounces
8Z (211 x 304)	4.25	4.60
No. 303 (303 x 406)	8.50	8.95
No. 3 Cyl. (404 x 700)	26.30	27.40

TABLE II—SINGLE SAMPLING PLANS AND ACCEPTANCE NUMBER

Sample Size (No. of sample containers)	3	6	13	21	29	38	48	60
Acceptance numbers	0	1	2	3	4	5	6	7

SAMPLE UNIT SIZE

§ 52.1146 Sample unit size.

Compliance with requirements for factors of quality is based on a sample unit comprised of the entire contents of one container, irrespective of container size.

FACTORS OF QUALITY

§ 52.1147 Ascertaining the grade of a sample unit.

(a) *General.* The grade of a sample unit of canned grapefruit is ascertained by considering the factor of flavor and odor which is not scored; the ratings for the factors of wholeness, color, defects, and character which are scored; the total score; and the limiting rules which may be applicable.

(b) Factors rated by score points. The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given each factor are:

Factors	*Points*
Wholeness	25
Color	25
Defects	25
Character	25

(c) *Definition.* (1) "Good flavor and odor" means that the product has a distinct and normal flavor and odor typical of canned grapefruit and is free from objectionable flavors and objectionable odors of any kind.

(2) "Reasonably good flavor and odor" means that the product may be lacking in good flavor and odor but is free from objectionable flavors and objectionable odors of any kind.

§ 52.1148 Ascertaining the rating for the factors which are scored.

The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "23 to 25 points" means 23, 24, or 25 points.)

§ 52.1149 Wholeness.

(a) *General.* (1) A "whole segment" means any grapefruit segment that is substantially intact and retains its apparent original conformation.

(2) A "practically whole segment" means any portion of a grapefruit segment that is not less than 75 percent of its apparent original size and is not excessively trimmed.

(b) (*A*) *classification.* Sample units of canned grapefruit that consist of less than 65 percent by weight of the drained grapefruit in whole and/or practically whole segments may be given a score of 21 to 25 points.

(c) (*B*) *classification.* Sample units of canned grapefruit that consists of less than 65 percent but not less than 40 percent by weight of the drained grapefruit in whole and/or practically whole segments may be given a score of 17 to 20 points. In addition the sample average (average of all sample units representing a lot) shall not be less than 50 percent by weight of whole and/or practically whole segments. Sample units of canned grapefruit that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product. (This is a limiting rule.)

(d) (*Broken*) *classification.* Sample units of canned grapefruit that consists of less than 40 percent by weight of the drained grapefruit in whole and/or practically whole segments may be given a score of 0 to 16 points. Sample units of canned grapefruit that fall into this classification shall not be graded above U.S. Broken, regardless of the total score for the product. (This is a limiting rule.)

§ 52.1150 Color.

(a) (*A*) *classification.* Canned grapefruit that has a good color may be given a score of 23 to 25 points. "Good color" means a practically uniform, bright, typical color free from any noticeable tinge of amber.

(b) (*B*) *classification.* Canned grapefruit that has a reasonably good color may be given a score of 21 to 22 points. Canned grapefruit that falls into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product. (This is a limiting rule.) "Reasonably good color" means a fairly bright color which may be variable but is not off color for any reason.

(c) (*SStd.*) *classification.* Canned grapefruit that fails to meet the requirements in paragraph (b) of this section may be given a score of 0 to 20 points and shall not be graded above Substandard, regardless of the total score for the product. (This is a limiting rule.)

§ 52.1151 Defects.

(a) *General.* The factor of defects refers to the degree of freedom from extraneous vegetable material, from seeds, from portions of albedo, from portions of tough membrane, from damaged units, and from other similar defects.

(1) "Extraneous vegetable material" means leaves, portions of leaves, small pieces of peel, and other similar material that is harmless.

(2) "Seed" means any seed or any portion thereof, whether or not fully developed, that measures more than $\frac{1}{8}$ inch in any dimension.

(3) "Large seed" means any seed or any portion thereof, whether or not fully developed, that measures more than $\frac{3}{8}$ inch in any dimension.

(4) "Damaged unit" means any grapefruit segment or portion thereof that is damaged by lye peeling, by discoloration, or by similar injury or that is otherwise damaged to such an extent that the appearance or eating quality of the unit is materially affected.

(b) (*A*) *classification.* Canned grapefruit that is practically free from defects may be given a score of 23 to 25 points. "Practically free from defects" means that:

(1) All defects present, whether or not specifically defined or listed in this section, do not more than slightly affect the appearance or edibility of the product; and

(2) The defects that may be present in a sample unit and in the entire sample do not exceed the allowances specified in Table III.

(c) (*B*) *classification.* Canned grapefruit that is reasonably free from defects may be given a score of 21 to 22 points. Canned grapefruit that falls into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product. (This is a limiting rule.) "Reasonably free from defects" means that:

(1) All defects present, whether or not specifically defined or listed in this section, may materially, but not seriously, affect the appearance or edibility of the product; and

(2) The defects that may be present in a sample unit and in the entire sample do not exceed the allowances specified in Table IV.

(d) (*SStd.*) *classification.* Canned grapefruit that fails to meet the requirements of paragraph (c) of this section may be given a score of 0 to 20 points and shall not be graded above Substandard, regardless of the total score for the product. (This is a limiting rule.)

§ 52.1152 Character.

(a) *General.* The factor of character refers to the structure and condition of the cells of the grapefruit and reflects the maturity of the grapefruit.

(b) *(A) classification.* Canned grapefruit that has a good character may be given a score of 21 to 25 points. "Good character" means that the grapefruit segments are moderately firm and fleshy; that the segments or portions thereof possess a juicy, cellular structure free from dry cells, or "ricey" cells, or fibrous cells that materially affects the appearance or eating quality of the product.

(c) *(B) classification.* Canned grapefruit that has a reasonably good character may be given a score of 17 to 20 points. Canned grapefruit that falls into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product. (This is a limiting rule.) "Reasonably good character" means that the grapefruit segments may be affected, but not seriously so, by dry cells, "ricey" cells or fibrous cells that detract from the appearance or eating quality of the product.

(d) *(SStd.) classification.* Canned grapefruit that fails to meet the requirements of paragraph (c) of this section may be given a score of 0 to 16 points and shall not be graded above Substandard, regardless of the total score for the product. (This is a limiting rule.)

LOT INSPECTION AND CERTIFICATION

§ 52.1153 Ascertaining the grade of a lot.

The grade of a lot of canned grapefruit covered by these standards is determined by the procedures set forth in the Regulation Governing Inspection and Certification of Processed Fruits and Vegetables, Processed Products Thereof, and Certain Other Processed Food Products (§§ 52.1 through 52.87).

SCORE SHEET

§ 52.1154 Score sheet for canned grapefruit.

JOHN C. BLUM,
Acting Administrator.

[FR Doc.73–16508 Filed 8–10–73;8:45 am]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

[45 CFR Part 124]

FINANCIAL ASSISTANCE FOR DEMONSTRATION PROJECTS FOR REDUCING SCHOOL DROPOUTS

Notice of Proposed Rulemaking

In accordance with section 503 of the Education Amendments of 1972 (P.L. 92–318) and pursuant to the authority contained in the Dropout Prevention Program, title VIII, section 807, of the Elementary and Secondary Education Act as amended by title I of the Education Amendments of 1970, P.L. 91–230, 20 U.S.C. 887, the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to amend title 45, part 124 of the Code of Federal Regulations to read as set forth below. The Commissioner also proposes to establish guidelines for this program, which are set forth following the text of the proposed regulation.

1. *Program purpose.* The Dropout Prevention Program provides for a program of financial assistance to local educational agencies to carry out, in schools with a high percentage of students who are from families with an income which does not exceed a low-income factor and who do not complete their education in elementary or secondary school, innovative demonstration projects which show promise of reducing the number of such students.

2. *Section 503 procedures and effect.* Section 503 of the Education Amendments of 1972 requires the Commissioner to study all rules, regulations, guidelines, or other published interpretations or orders issued by him or by the Secretary after June 30, 1965, in connection with, or affecting the administration of Office of Education programs; to report to the Committee on Labor and Public Welfare of the Senate and the Committee on Education and Labor of the House of Representatives concerning such study; and to publish in the FEDERAL REGISTER such rules, regulations, guidelines, interpretations, and orders, with an opportunity for public hearing on the matters so published. The regulations and guidelines proposed below reflect the results of this study as it pertains to the program under the Dropout Prevention Program. Upon publication of revised Part 124 in final form, after comments and hearing, all preceding rules, regulations, guidelines, and other published interpretations and orders issued in connection with or affecting Part 124 (as amended by the Office of Education general provisions regulation; see the notice of proposed rulemaking at 38 FR 10388) will be superseded effective thirty days after such publication.

3. *Effect of Office of Education general provisions regulation.* The proposed regulation differs from the current regulation in that provisions have been deleted relating to general fiscal and administrative matters which are presently covered in 45 CFR Part 124 and which will be covered in the future under the overall Office of Education general provisions regulation, published under notice of proposed rulemaking in the FEDERAL REGISTER at 38 FR 10386 (April 26, 1973), in connection with the same study under section 503 of the Education Amendments of 1972 of which this publication is a part. (Reference is made in particular to the provisions of proposed part 100a of Title 45 CFR, containing general provisions for direct assistance programs, which would be applicable to the Dropout Prevention Program.)

4. *Guidelines.* Guidelines for the program have not previously been published in the FEDERAL REGISTER. The guidelines proposed below essentially contain recommendations and suggestions for program management and operation and are designed to incorporate all materials covered by section 503 of the Education Amendments of 1972 not otherwise reflected in the regulation. When finally published in the FEDERAL REGISTER in accordance with section 503(d) the guidelines will be stated separately in the general notice section of the FEDERAL REGISTER.

5. *Citations of legal authority.* As required by section 431(a) of the General Education Provisions Act (20 U.S.C. 1232(a)) and section 503 of the Education Amendments of 1972, a citation of statutory or other legal authority for each section of the regulations and guidelines has been placed in parentheses on the line following the text of the section.

On occasion, a citation appears at the end of a subdivision of a section. In that case the citation applies to all material in that section above the citation. When the citation appears only at the end of the section it applies to the entire section.

6. *Opportunity for public hearing.* Pursuant to section 503(c) of the Education Amendments of 1972, the Commissioner will provide interested parties an opportunity for a public hearing on these regulations and guidelines, as follows:

A hearing will take place at the U.S. Office of Education on October 2, 1973 in the auditorium of Regional Office Building Three, 7th and D Streets, S.W., Washington, D.C. 20202, beginning at 10:00 a.m.

The purpose of the hearing is to receive comments and suggestions on the published materials.

Interested parties may also submit written comments and recommendations to Room 5717, Regional Office Building Three, 7th and D Streets, SW., Washington, D.C. 20202, Attention: Chairman, Office of Education Task Force on Section 503. All relevant material received prior to the date of the hearing will be considered. Comments and suggestions submitted in writing will be available for review in the above office between the hours of 9 a.m. and 4:30 p.m., Monday through Friday of each week.

Parties interested in attending the hearing should notify the Office of Education at the above address, and are urged to submit a written copy of their comments with such notification. Each party planning to make oral comments at the hearing is urged to limit his presentation to a maximum of fifteen minutes.

(Catalog of Federal Domestic Assistance Program No. 13.410, Dropout Prevention)

Dated: July 5, 1973.

JOHN OTTINA,
Acting U.S. Commissioner of Education.

Approved: August 3, 1973.

FRANK CARLUCCI,
Acting Secretary of Health, Education, and Welfare.

PART 124—FINANCIAL ASSISTANCE FOR DEMONSTRATION PROJECTS FOR REDUCING THE NUMBER OF SCHOOL DROPOUTS

Subpart A—Scope; Definitions

Sec.
124.1 Scope.
124.2 Definitions.

Subpart B—Preapplication and Project Proposal Requirements

124.3 Preapplications.
124.4 Eligibility.
124.5 Project proposal requirements.
124.6 Adequacy of facilities.

Subpart C—Approval of Project Proposals

124.15 Criteria for evaluation of project proposals.
124.16 Dissemination of information.

AUTHORITY: Sec. 807, Pub. L. 89–10 as amended, 81 Stat. 806 (20 U.S.C. 887), unless otherwise noted.

Subpart A—Scope; Definitions

§ 124.1 Scope.

(a) Financial assistance may be provided under section 807 of the Act for the carrying out of promising demonstration projects involving the use of innovative methods, systems, materials, or programs, designed to reduce the number of children who do not complete their education in elementary and secondary schools.

(20 U.S.C. 887(a))

(b) Assistance provided under this part is subject to applicable provisions contained in Subchapter A of this chapter (relating to fiscal, administrative, property management, and other matters).

(20 U.S.C. 887)

§ 124.2 Definitions.

As used in this part:

"Act" means the Elementary and Secondary Education Act of 1965, Public Law 89–10, as amended.

"Dropout" means a pupil who leaves elementary or secondary school, for any reason, before he graduates. The term designates those elementary and secondary school pupils who have been in membership during the regular school term and who withdraw from membership before graduating from secondary school (as defined in § 100.1 of this chapter) or before completing equivalent programs of studies. Such an individual is considered a dropout whether he leaves school during or between regular school terms, whether he leaves school before or after he has passed the compulsory school attendance age, and, where applicable, whether or not he has completed a minimum required amount of school work.

(20 U.S.C. 887)

"Local educational agency" means a public board of education or other public authority legally constituted within a State for either administrative control or direction of, or to perform a service function for, public elementary or secondary schools in a city, county, township, school district, or other political subdivision of a State, or such combination of school districts or counties as is recognized in a State as an administrative agency for its public elementary or secondary schools. Such term also includes any other public institution or agency having administrative control and direction of a public elementary or secondary school.

(20 U.S.C. 881(f))

"Low-income factor" means an annual family income of $4,000 (as defined in section 103(c) of the Elementary and Secondary Education Act of 1965, as amended).

(20 U.S.C. 887(a), 241c(c))

"State" includes, in addition to the 50 States of the Union, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, and the Virgin Islands. This term does not include the Trust Territory of the Pacific Islands.

(20 U.S.C. 887, 881(j))

V 38-155 AUG 13 73 XUM

"State educational agency" means the State board of education or other agency or officer primarily responsible for the State supervision of public elementary and secondary schools, or, if there is no such officer or agency, an officer or agency designated by the Governor or by State law.

(20 U.S.C. 881(k))

Subpart B—Preapplication and Project Proposal Requirements

§ 124.3 Preapplications.

Prior to the preparation of a formal project proposal, each prospective applicant must submit a preapplication proposal to the U.S. Office of Education and to the apropriate State education agency. Office of Education personnel, State educational agency personnel, and outside consultants will evaluate the preapplication proposals. Each State educational agency will indicate to the Office of Education its approval or disapproval of the proposals submitted. Invitations and instructions to submit a formal proposal will be given to applicants whose preapplication proposals have received a favorable review based on the requirements and criteria set forth in §§ 124.5 and 124.15.

(20 U.S.C. 887(b))

§ 124.4 Eligibility.

Financial assistance under section 807 of the Act may be provided to a local educational agency with an approved preapplication proposal under § 123.3 only upon submission of an application for assistance which has been approved by the appropriate State educational agency.

(20 U.S.C. 887(b))

§ 124.5 Project proposal requirements.

Each project proposal shall describe the activities to be undertaken with funds made available under section 807 of the Act and shall contain information adequate to establish:

(a) That the project will be carried out in one or more elementary or secondary schools (1) which are located in urban or rural areas, (2) which have a high percentage of children from families with incomes not exceeding the low-income factor, and (3) which have a high percentage of those children who do not complete their education in elementary or secondary schools;

(b)(1) That the applicant has conducted a comprehensive needs assessment which includes an analysis of the reasons for the failure of those children in those schools to complete their elementary and secondary education, and (2) that the proposed project has been designed in the light of that assessment and shows promise of effectively reducing or eliminating the causes of that failure; and

(c) That effective procedures, including objective measurements of educational achievement, will be adopted for evaluating at least annually the effectiveness of the proposed project; and

(d) That an independent review of this educational program evaluation will be made by qualified persons not associated with the applicant, for the purpose of verifying the results of that evaluation and of assessing the appropriateness of evaluation procedures used in determining the effectiveness of the program, and that copies of reports prepared as a result thereof shall be submitted to the Office of Education.

(20 U.S.C. 877(b))

§ 124.6 Adequacy of facilities.

Each project proposal shall describe the facilities to be made available for the project. If a project proposal provides for the leasing or remodeling of facilities, it must show why such a provision is necessary for the success of the project.

(20 U.S.C. 887)

Subpart C—Approval of Project Proposals

§ 124.15 Criteria for evaluation of project proposals.

In evaluating project proposals for the purpose of making awards under this part, the Commissioner will seek to identify a relatively small number of projects in areas of outstanding need and will give consideration to the following (in addition to the criteria set forth in § 100a.26(b) of this chapter):

(a) The extent to which the proposed innovative methods, systems, materials or programs show promise of reducing the number of children in the target school who do not complete their elementary and secondary school education;

(b) The extent to which the project is likely to result in the development of new materials and methods which will be of value in reducing the number of children who do not complete their elementary and second school education; and

(c) The percentage of children in the schools in which the project will be carried out who come from families with an income not exceeding the low income factor, and the percentage of those children who may not complete their elementary and secondary school education. Priority will be given to proposals where projects will be undertaken in schools in which:

(1) At least 40 percent of the children in average daily membership are from families with income not exceeding the low income factor; and

(2) At least 7 percent of those children annually are dropouts;

(d)(1) The adequacy of the applicant's analysis of the causes for the dropout problem in the schools proposed to be served, and the (2) adequacy of the design of the program intended to eliminate those causes;

(e) The extent to which the applicant has consulted with dropouts and potential dropouts and their families and with interested members of the community, and has sought their advice on the relevance of the proposed project;

(f) The extent to which the proposed project is exemplary;

(g) The adequacy of evidence that the proposed project will focus upon a limited number of schools intended to be served by assistance under this part so as to have a major impact on the problem of dropout prevention; and

(h) The degree of the applicant's awareness of other dropout prevention programs, research findings, or published materials of recognized experts.

(20 U.S.C. 887; H.R. Rept. No. 1049, 90th Cong. 1st Sess. 58 (1967); Sen. Rept. No. 726, 90th Cong. 1st Sess. 50–51 (1967).)

§ 124.16 Dissemination of information.

(a) The recipient shall provide for dissemination of (1) significant information developed as a result of those projects carried out under this part and (2) the recipient's evaluation of those projects. The cost of dissemination may be charged to the project to the extent authorized in the award document.

(b) The recipient must submit to the Office of Education (1) three copies of printed materials disseminated in connection with the project, including curriculum materials, newsletters, brochures, and other printed matter, and (2) one copy of any audiovisual materials produced in connection with the project, such as films, filmstrips, slides, and videotapes. All materials, together with a statement of the purpose and extent of distribution, shall be sent to the Office of Education.

Part 9—Dissemination
Section 9.1 Purpose.

PART 1—INTRODUCTION

Sec. 1.1 Scope of guidelines.

(a) The guidelines contained in this document are recommendations and suggestions for meeting the legal requirements which apply to Federal assistance under the Elementary and Secondary Education Act, title VIII, section 807. The legal requirements include the Act itself (20 U.S.C. 887) and the regulations (45 CFR 124). The guidelines are not to be construed as requirements. However, where the guidelines set forth a permissible means of meeting a legal requirement, the guidelines may be relied upon.

(20 U.S.C. 887; 113 Cong. Rec. 5936, 5939 (daily ed. May 23, 1967); *United States* v. *Jefferson County Board of Education*, 372 F. 2d 836, 857 (1966))

(b) Where a guideline is issued in connection with or affecting a provision in the regulations, the pertinent regulation will be cited after the citation of legal authority for the guideline in the parentheses following the guideline. For example, if the legal authority for the guideline is Section 807(b) of the Act (20 U.S.C. 887(b)), and the guideline affects section 124.5(d) of the regulations (45 CFR 124.5(d)), the following citation will be placed on the line immediately following the guideline: (20 U.S.C. 887(b); 45 CFR 124.5 (b)). If no particular section of the regulations is affected, no citation to the Code of Federal Regulations (CFR) will be made.

(20 U.S.C. 1232(a))

Sec. 1.2 Purpose of the Act.

The Dropout Prevention Program, funded under title VIII of the Elementary and Secondary Education Act of 1965, as amended, is designed to foster the development of exemplary educational programs which show promise of reducing the number of children who do not complete their education in elementary and secondary schools. Since the program is for the development and demonstration of promising educational practices throughout the Nation, projects funded involve the use of innovative methods, systems, or materials in their efforts to reduce the dropout rate.

(20 U.S.C. 887(a); 45 CFR 124.1)

Sec. 1.3 Basic objectives.

(a) Because of the nature of the problem, comprehensiveness of approach should be an essential element in designing projects. No mere addition to the existing school program will be significant in keeping children in school; instead, the school district should consider introducing basic and widespread changes in its organization, curriculum offerings, pupil services, and teacher training. The thorough needs assessment required by 45 CFR 124.5(b) should assist the school district in determining what changes may be needed and the nature and extent of those changes.

(b) In approaching the problem in a comprehensive fashion, the school district should also recognize that children begin to drop out of school long before they reach the secondary level of education. Attention should be paid to the earlier levels of education, for the roots of the problem are often found at these educational levels.

(c) Concentration of resources should also be an essential element of the program. Sufficient human and financial resources should be utilized if dropout prevention efforts are to yield maximum impact in solving the problem. Moreover, human resources involved in any dropout prevention project should, to the extent practical, include representatives of all segments of the community, since the dropout problem should not be separated from the larger context of the community.

(d) Since the Dropout Prevention Program is designed to develop model programs which can be replicated and adapted in school systems across the Nation, emphasis is being placed on accountability for results by the local educational agency. The local educational agency should be answerable for both the educational accomplishments attributable to specific dropout prevention techniques and the cost effectiveness of instructional and management procedures involved in the project.

(20 U.S.C. 877; 45 CFR 124.5, 124.15)

PART 2—PROGRAM DESIGN

Sec. 2.1 Design of management systems.

(a) Since dropout prevention projects are comprehensive and may require large expenditures of funds, the local educational agency should be firmly committed to the development of an effective management system with an effective framework and methodology for planning, installing, operating, communicating and evaluating program activities. It is suggested that the project be viewed as a subsystem within the total school system, serving a defined target area and requiring identified resources from the local educational agency at specified points during the project's schedule of operation.

(b) In designing a management system, it is suggested that basic steps or actions, such as the following, be taken into account: (1) Identify the problem, (2) analyze the problem, (3) consider alternate solutions, (4) determine strategy, (5) implement the project, and (6) evaluate the project.

(c) An important element in developing a management system is the selection of the project director, i.e., the educational manager, who should be experienced in acting for educational change, in stimulating people to get things done, in making decisions, in evaluating educational programs, and in using outside resources to strengthen the school's capability to solve educational problems.

(20 U.S.C. 887(b)(2))

Sec. 2.2 Planning and installation of system.

(a) *Planning.* After a needs assessment (Part 4) has been conducted and objectives have been established, the project director and project planners should determine what components and activities will be needed to attain the objectives of the project. Various management tools can help the project director plan a strategy and build an organization for an effective program. Some of the management tools currently used in business, industry, and education are Program Evaluation and Review Techniques (PERT), Critical Path Method (CPM), and Line of Balance (LOB). Charts showing work breakdown structures, work flow networks, staffline relationships, time lines (with milestone events identified), and monthly rate of expenditures can help planners analyze all the constituent parts of a project. These management products also serve as an effective communication medium for all personnel involved in the planning process.

(b) *Installation.* The effective installation of a dropout prevention project depends in large measure on the quality of the planning. When plannnig is well done, the objectives, procedures, and management processes for meeting these objectives are clearly delineated. The project director's task then becomes that of installing and operating according to the specific plans, and of providing management decisions to keep the program moving toward its stated objectives on schedule and within cost projections. One of the critical tasks of the project director is staffing the positions provided for by the organization structure. Management activities include appraising and selecting candidates for positions and providing necessary training for personnel. Project directors should determine the policies and procedures they expect to follow for recruiting, selecting, training, and promoting the project staff members.

(20 U.S.C. 887(b)(2))

Sec. 2.3 Internal communication system.

The control of an operating program depends on timely relevant, and valid feedback of information so that problems can be readily identified, alternate solutions considered, and decisions made and implemented. Project directors should establish an effective internal communication system so that timely feedback information is reported by and to project staff, and regular school staff. The information feedback system should be a process by which information about past and present performances is used to influence future performance. The communication system should also be linked to procedures for utilizing the information.

(20 U.S.C. 887(b)(2))

Sec. 2.4 Evaluation design.

The project director should ensure that an adequate evaluation design has been developed for each project component and for the overall project and that provisions have been made for timely feedback of evaluation findings to appropriate personnel. An evaluation of the project is useful in determining how well each component and the entire project function within the established framework or time, cost, and performance objectives. The evaluation design should provide a basis for a cost effectiveness analysis of the project. For example, the design should provide for data to be collected for the calculation of total participant costs for such component, including the pro-rata or proportionate administrative costs applied to the components; the calculation of average participant costs; and the comparison of component and project participant costs with achievement gains.

(20 U.S.C. 887(b)(3); 45 CFR 124.5(c))

PART 3—COMMUNITY PARTICIPATION

Sec. 3.1 Community representation.

The Office of Education suggests that representatives of all segments of the community be involved in the development and operation of projects, with special consideration being given to plans for the participation of dropouts and students. The Dropout Prevention Program is uniquely suited to providing new opportunities for youth to have a voice in planning, implementing, and evaluating the experiences and programs in which they participate. Encouraging youth to originate and carry out ideas for increasing their role and participation in school and community activities and giving them opportunities to share responsibility with adults and to work with their peers and adults in

V 38-155 AUG 13 73 XUM

a variety of relationships may encourage students to remain in school.

(20 U.S.C. 887(b)(2); 45 CFR 124.15(e))

Sec. 3.2 Student involvement.

(a) Since it is well established that a major factor cited by students for their withdrawal from school is disinterest in a curriculum which they view as boring and irrelevant, almost all dropout prevention programs tend to focus on curriculum modification. Efforts to restructure curriculum focus on both content and methodology, and these range from the redesign of existing courses and traditional subjects to the introduction of entirely new curriculum areas. Among some of the more promising recent curriculum efforts are those in which students have had a major voice and have occupied a joint role as both the objects and the agents of an improved instructional program. In some instances, students are serving as advisers to teachers and department heads responsible for curriculum revision; while in others, working closely with teachers as resource persons, students themselves have developed and conducted complete courses, selected the materials and instructors, and arranged for speakers and outside consultants to assist them.

(b) Student advisory roles to school faculties, administrators, and boards of education are also being developed and are giving students a greater understanding of the complexities of school operations and the opportunity to identify, study, and discuss school problems, make recommendations, and help to implement solutions. As part of their responsibilities, such youth advisers may report their activities through various school media and help to create a better informed and more concerned student body.

(c) Additional opportunities for student participation in school and community-related experiences can be provided through work-study programs, a prominent feature of many dropout prevention projects. In addition to local businesses and industries, project planners should consider community agencies, municipal government offices, and the schools themselves as potential placement sources for student training, work experience, and part-time paid positions. Within the schools, students might serve as classroom and library aides, tutors to other students, assistants in the operation of school stores and after-school and evening study or recreation centers, and apprentices in the building maintenance, food, clerical and audiovisual supportive services.

(20 U.S.C. 887(b)(2); 45 CFR 124.15(e))

Sec. 3.3 Involvement of parents and other community residents.

(a) Parents and other residents of the community should similarly be given opportunities for program participation. Many of the roles suggested for students—participating in curriculum development, serving as advisers and consultants to teachers, administrators, and school boards, and disseminating their activities to the community—are equally appropriate for adults, while other activities are suited uniquely to the interests and resources of parents and other residents.

(b) Interaction between parents and project staff—in home, classrooms, and elsewhere—can help parents learn how they may best support and influence the dropout prevention effort and on their own, reinforce the goals of the program. Such interaction, accomplished through home visits, orientation sessions, workshops, and other methods assists the project staff in becoming more responsive to the needs and goals of the parents and community and in becoming better able to translate their goals into project activities.

(c) Instructional activities should be open to parent observers at reasonable and convenient times, and parents should be encouraged to observe classes periodically during the school year. Parental involvement might also take the form of educational programs designed to familiarize parents with the school curriculum or with specific project activities and to instruct them in the use of materials and techniques by which they might supplement and reinforce their children's classroom instruction at home.

(20 U.S.C. 887(b)(2); 45 CFR 124.15(e))

Part 4—Needs Assessment

Sec. 4.1 Purpose of needs assessment.

(a) A significant step in the development of a comprehensive dropout prevention project should be the efforts of the school district to assess the nature and scope of its local dropout problem and to analyze thoroughly the reasons why students drop out of schools within the district. In addition to providing project planners with the information necessary to establish priorities for the dropout prevention project on a sound basis, an adequate assessment of local needs will have long-range value and will yield information useful to the system in any future planning for both locally and federally sponsored programs.

(b) The assessment of needs should be a continuing process during the several stages of the planning and operation of a project. Since a major section of the preliminary proposal must be devoted to a discussion of the local dropout problem and the methods by which it has been analyzed, an initial assessment of needs should be completed prior to the submission of the preliminary proposal. In those districts selected to develop a formal proposal, further examination and interpretation of existing information and appropriate additional studies or surveys concerning school dropouts quite likely will be among the major activities of the planning group during the developmental period. If the project is funded, at least an annual reexamination of local needs is suggested as an aid to project personnel in determining appropriate program modifications.

(20 U.S.C. 887(b)(2); 45 CFR 124.5(b), 124.15(d))

Sec. 4.2 Analyzing local needs.

The following questions are suggestions for developing an analysis of local needs:

(a) By grade level, how many students drop out of school in the district each year? What are the grade levels at which the highest dropout rate occurs? Which schools have the highest dropout rates?

(b) What is the current status of the district's information about its school dropout problem and how adequate is the dropout information system?

(c) What are the characteristics of those students who drop out of school?

(d) What happens to the students who drop out of school, both on a short-term and on a long-range basis?

(e) What are the reasons for students dropping out of school, as perceived by a wide variety of groups both within and outside of the schools? Such groups should include teachers, administrators, parents community and agency representatives, former dropouts, potential dropouts, and students satisfied with the schools.

(f) Which students are likely to drop out of school and what procedures are used to identify those students?

(g) What are the program priorities best designed to meet the needs of those students identified as potential dropouts, as suggested and agreed upon by groups both within and outside of the schools?

(h) What are the implications of the title VIII needs assessment for the entire school system?

(20 U.S.C. 887(b)(2); 45 CFR 124.5(b), 124.15(d))

Sec. 4.3 Related resources.

Several resources will be valuable to the project planners in carrying out their work. One of the first tasks might be an examination of several of the studies available concerning the national dropout problem, which include profiles of the typical school dropout and analyses of the reasons for withdrawal from school. Although the instruments used in individual studies vary greatly and although it is unlikely that any single study or combination of studies will include all of the variables of any local situation other than the one studied, the use of such research may assist the planners in the identification of critical factors to be investigated and may suggest possible instruments and assessment designs which can be adapted for local use. An excellent source of research and information related to the dropout problem is the Educational Research Information Center (ERIC), a nationwide, comprehensive information system through which materials are available at low cost. Information concerning the ERIC system can be obtained by writing to the Central ERIC, National Institute of Education, Reporters Building, Room 405, 7th and D Streets, SW., Washington, D.C. 20202.

(20 U.S.C. 887(b)(2); 45 CFR 124.15(h))

Sec. 4.4 Local studies.

Along with their study of the research and literature on the national dropout problem, the project planners should review the currently available information on the local situation. The status of local needs assessments will, of course, vary substantially in individual districts. Some districts already have adequate data and studies which, with some updating and expansion, can serve as the basis for planning a dropout prevention project. Other districts may have adequate statistical data on the numbers and rate of school dropouts over the past several years, but they may lack information concerning the reasons why students drop out of school or other important information related to the local problem. For these districts, a survey sample may provide valuable insights into the nature of otherwise unavailable information.

(20 U.S.C. 887(b)(2); 45 CFR 124.15(h))

Part 5—Technical Assistance

Sec. 5.1 Use of technical assistance.

Technical assistance is the use of resources outside the local educational agency in planning, developing, managing, evaluating, disseminating, and conducting an educational audit of dropout prevention programs. The purpose of outside technical assistance is to help the local educational agency strengthen its capabilities to achieve the performance objectives of the dropout prevention project.

(20 U.S.C. 887(b))

Sec. 5.2 Resources for technical assistance.

Outside technical assistance may be provided by (a) industry, (b) business, (c) labor, (d) private and nonprivate organizations, (e) colleges and universities, (f) services clubs, (g) community action groups, (h) regional education laboratories, (i) research and development centers, (j) State educational agencies, (k) other local educational agencies, (l) the U.S. Office of Education, (m) other Federal agencies, (n) employment bureaus, and (o) other groups or organizations with the needed expertise. Because of their familiarity with improved techniques of management and quality control, business and industrial resources may be particularly helpful to local educational agencies in improving their program management operations.

(20 U.S.C. 887(b))

Sec. 5.3 Selecting technical assistance.

Local educational agencies should ensure that any technical assistance obtained is furnished by reputable organizations. For example, program planners might examine the capabilities of the prospective technical assistance groups in terms of the following:

(a) Experience and evidence of acceptable performance in problem areas and tasks similar to those specified by the local educational agency;

(b) Evidence of staff expertise in the job area (Resumes should provide specific information concerning the background and experiences of personnel assigned to the contract work. The technical assistance agency should indicate the availability of these personnel, giving evidence of staff stability, reputation, and performance which would tend to insure successful completion of the contract terms and conditions.); and

(c) Evidence of cost effectiveness in terms of the end products and services provided.

(20 U.S.C. 887(b))

Part 6—Measurable Performance Objectives

Sec. 6.1 Identification of objectives.

Project accomplishments rest heavily on the degree to which accomplishments can be validly measured by systematic methods such as standardized tests and questionnaires, teacher-made tests, rating techniques and observational procedures. However, the adequacy of the measurement process in turn depends upon project planners' skill in determining and framing measurable project objectives, i.e., immediate or long-range goals which can be stated in terms of products, performance criteria, indices of change or progress, or other operational accomplishments. Too often, these objectives are described in loose, general language with the result that their meaning is subject to a variety of interpretations. A clear statement of objectives identifying specific types of performances to be measured is, therefore, an important task facing project planners.

(20 U.S.C. 887(b)(s); 45 CFR 124.5(c))

Sec. 6.2 Types of measurable performance objectives.

Performance objectives in an educational program are precise statements of anticipated project goals in terms of behaviors, outcomes, or material items which can be validly measured. For purposes of project planning under Section 807 of the Act, performance objectives are significant for three distinct areas of program design—*product outcomes*, *instructional* or *operational processes*, and *management processes*. Product refers to a behavior—cognitive, affective, or psychomotor—or to a materials item such as a curriculum guide or a list of available vocational opportunities for a work-study program. Process is the means by which a product or series of products is obtained.

(20 U.S.C. 887(b)(3); 45 CFR 124.5(c))

Sec. 6.3 Elements for defining objectives.

(a) In approaching the development of performance objectives, it is recommended that program planners consider the following types of elements in order to have an adequately defined measurable performance objective.

(1) *Identification of the individual or group that will perform the desired behavior.* For example, the objective of "developing questionnaires, survey techniques, and interview procedures for identifying potential dropouts" is an incomplete statement, since the individuals responsible for the development of the end products are not specified.

(2) *Identification of the behavior to be demonstrated or product to be developed.* The behavior should be described as precisely as possible as an action or a product that can be observed. An objective such as "a student will understand the importance of education for his future success in life" would not meet this criterion. The word "understand" may convey a variety of meanings to those assigned the task of evaluating whether the objective was achieved. Other indefinite "behavior" terms include expressions such as "knowing," "appreciating," "thinking," "enjoying," and "grasping the value of." Unlike these expressions, objectives stating a clear form of externalized action are not subject to such an array of interpretations. Such actions might be "writing," "listing," "constructing," "reading," or "attending." A third category of possibilities lies somewhere in the middle. Such words as "demonstrating," "participating," or "utilizing," are visible forms of behavior, but they may mean different things to different observers. More rigor could be applied to a definition of behavior by indication of the unit measure. Does "participating", for example, mean commenting or asking questions during discussions or attending extracurricular activity sessions?

(3) *Identification of the primary conditions under which the performance is expected to be measured.* Conditions might include restrictions placed upon the project participant during the performance of specified behaviors, such as a time imposed on a student in a test-taking situation. Conversely, conditions might refer to supporting services which would be available as resources to assist in the attainment of the anticipated behavior or product. Programmed materials and a teacher aide in a regular classroom setting might be identified as pertinent resources or "given" during an observation of teacher performance. Since every measurement situation will be composed of a variety of conditional factors, objectives should specify those which are unique or of particular significance.

(4) *Identification of the minimum level of acceptable performance.* This step can be critical because it poses many problems for planners. Not only is there an element or risk involved in predicting what a program will accomplish, but there is need for considerable care in establishing the performance standard through an analysis of past experience or research data, and determining and collecting baseline data (data on existing status of performance or programs). Without adequate baseline data, predictions become trial-and-error guesswork.

(5) *Identification of the means or instrument which will be used to measure the expected performance or terminal behavior.* This element is closely related to paragraph (a)(4). Since, if the minimum level of acceptable performance is a statistically significant improvement of student skills in an academic skill area, i.e., a specified number of correct answers to test questions, the instrument of measurement would be the particular test used. Likewise, if a demonstration of skill acquisition by a teacher is indicated by her attainment of 20 points out of a total of 30 on a rating scale, the means for accomplishing the measurement could be a videotape viewed by a panel of teachers utilizing the rating scale.

(b) (1) The process of defining performance objectives and instruments to measure the attainment of these objectives can present certain difficulties to project planners.

(2) Project planners should follow the findings of the comprehensive needs assessment closely in determining priorities among possible objectives. The need for changes in what is termed the "affective domain" is likely to be one source of difficulty. For example, if the needs assessment reveals that dropout-prone students perceive teachers to be insensitive to their problems, project planners might find it difficult to construct adequate performance objectives for their efforts to change this perception. However, the existence of problems in the measurement of affective changes should not lead to avoidance or postponement of the problem. The unfortunate result would be inadequate use of needs assessment data and, in all probability, undue emphasis upon more mechanistic, easily designed program objectives. Moreover, the interplay between cognitive and affective factors makes it desirable that project planners wrestle with the problem. Motivational forces might well interact with program treatments to bring about a cognitive behavioral change on the part of dropout-prone students. These changes merit attention as a product outcome as much as a score on a standardized achievement test, particularly in determining conditions necessary for project replication in other situations.

(3) Project planners should also insure that all target groups participating in the program are included in the statement of performance objectives. In too many instances, there is a tendency for planners to develop objectives only for target student groups. However, a dropout prevention program, in order to be comprehensive, should not be focused exclusively on students. Teachers, administrators, and community residents are often the recipients of program treatment or activities, and changes in their performance are, therefore, appropriate goals for program planners' consideration.

(20 U.S.C. 887(b)(3); 45 CFR 124.5(c))

Sec. 6.4 Development of objectives.

In order to assist the project manager in developing adequate measurable performance objectives, the following questions relating to each of the basic management functions have been included as suggestions for eliciting the type of information that will be useful in this task.

(a) *Planning and organizing.* (1) Was the needs assessment conducted by a broadly based planning group which provided a variety ofperspectives on the problem?

(2) Were individuals and groups to be affected by the project's operation involved in the planning of activities which will affect them?

(3) Are the needs assessment data reflected in the project priorities and component activities?

(4) Were alternative approaches to meeting specified needs considered?

(5) Were special efforts made to gain the support of individuals or groups whose anticipated reaction to the program is negative or neutral?

V 38-155 AUG 13 73 XUM

(6) Were performance objectives for both product outcomes and operational processes established for each component?

(7) Were work breakdown structures and work flow networks developed for each component and the entire project?

(8) Were the needs for technical assistance identified and the appropriate services secured and utilized?

(9) Were alternative resources identified in the event that selected contractors, consultants, or suppliers did not provide services according to specifications?

(b) *Installing and operating.* (1) Did important prerequisite actions such as staff training take place before component activities were initiated?

(2) Were all staff positions filled in time for program operation to begin as planned and on schedule?

(3) Were student selection and scheduling procedures completed so that students were ready to enter program activities on the target date?

(4) Were the services and products of contractors provided according to specifications so that component activities could begin as planned?

(5) Were the facilities readied for operation on schedule and were the equipment and materials available to the project staff when needed?

(6) Was sufficient authority delegated so that project staff could carry out its responsibilities effectively?

(7) Did the project director have the decision-making authority necessary to carry out program plans and did he exercise his authority effectively?

(8) When performance deficiencies were noted, did the project director take prompt and decisive corrective action?

(9) Did the project director receive the needed support of services, personnel, and leadership from within the school system, and did he effectively utilize available resources?

(10) Were staff positions developed and assigned so that the workload was allocated reasonably?

(c) *Communicating.* (1) Did program staff provide the director with timely information on problems so that solutions could be developed and implemented as quickly as possible?

(2) Did the staff organizational pattern facilitate communication (i) among the project staff, (ii) between staff and school system administration, and (iii) between project staff and the community groups?

(3) Did the project director consult with those to be affected by a change in the program plan and allow for feedback and further modification before the revised plan was implemented?

(4) Were the types of media selected for communication purposes determined by the type of information to be presented and the specific target audience?

(5) Did the communication system provide a mechanism for the continuous flow of ideas and suggestions from those involved with and concerned about the project to the project director?

(6) Was a mechanism established for the periodic review and dissemination of information about the status of the project?

(d) *Evaluating.* (1) Was technical assistance utilized effectively in the development of evaluation procedures when identified areas of weakness existed?

(2) Were the evaluation responsibilities clearly assigned?

(3) Were evaluation techniques and instruments determined as an integral part of the performance objective development process?

(4) Were the baseline data secured prior to the initiation of program activities which might affect the validity of evaluation data?

(5) Were the evaluation procedures coordinated with the program verification process?

(6) Were the evaluation findings utilized appropriately by the project staff in adjusting or modifying program operations to correct problems?

(20 U.S.C. 887(b)(3); 45 CFR 124.5(c))

PART 7—COMPREHENSIVE EVALUATION DESIGN

Sec. 7.1 Purpose.

(a) A comprehensive evaluation design through which the school system can assess the degree to which the project objectives have been achieved is an integral part of the overall program design. (See section 124.5(c) of the regulations.) The purpose of the evaluation is to determine how well each component and the entire project function within the established framework of time, cost, and objectives. If well planned and operated, the evaluation system should result in information which communicates clearly whether the standards of performance specified in the objectives have been met to a degree greater than, equal to, or less than the predetermined standards and why. The task of designing the evaluation plan is both complex and multifaceted. Each component and the total project involves the evaluation of product, operational process, and management process goals.

(b) As one of his primary management responsibilities, the project director oversees the design and implementation of the evaluation plan. Many districts may find it necessary to hire consultants or to seek the help of an outside technical assistance group for the planning, installation, or operation of the evaluation system, particularly if the program requires newly developed instruments or techniques.

(20 U.S.C. 887(b)(3))

Sec. 7.2 Components.

The evaluation design (briefly discussed in section 2.4) to be presented in the formal application should include at least the following components. Although the following suggestions are not comprehensive, they may serve as a general guide for the description of each component.

(a) *Performance to be measured.* (1) The formation of the evaluation design is inextricably linked to the development of performance objectives. (Part 6) If performance objectives are developed both for product outcomes and for operational and management processes, a major part of the task will be accomplished, since the expected behaviors, the measurement instruments, the conditions of measurement, and the minimum levels of acceptable performance should be specified within these objectives.

(2) Following a careful review of the objectives to verify that each one contains the basic elements (section 6.3), those responsible for designing the evaluation should assist the project planners in strengthening any objectives which require greater specificity, refinement, or the addition of omitted elements.

(b) *Measurement instruments and techniques.* (1) The evaluation instrument for each objective should be identified and described briefly. Standardized tests, questionnaires, rating scales, interviews, observation schedules, and interest inventories may be among the instruments selected. It is recommended that the instruments be matched as closely as possible to the objectives and that the validity and reliability of each instrument be ascertained prior to its use. If new instruments are to be developed, a plan for their design and pretesting should be included.

(2) (i) Since the validity of the evaluation process may be affected if the appropriate prerequisite data on the target population are not secured or available at the beginning of the program, baseline data on ability and achievement levels, socio-economic status, attitudes, and other characteristics of project participants may be needed in many cases for accurate measurement of the attainment of project performance objectives.

(ii) The process of establishing baseline data is a task of some magnitude and requires skill on the part of project planners. Questions of appropriateness of objectives, timeliness of collection, sensitivity or responsiveness to short-term change, reliability and objectivity of data, and comparability of data-gathering situations are some of the considerations which program planners may take into account as they formulate their evaluation designs.

(3) In the case of process evaluation, program planners should consider various approaches toward establishing a standard against which operational and management processes can be measured. For example, (i) Does the process exist? (ii) Is the process the most effective one known as compared with the best practice, determined by recognized authorities? (iii) Is the process more effective than similar processes used in other school system projects or operations?

(4) The evaluation techniques should also be described clearly. Those who design the evaluation should determine whether traditional pretest and post-test techniques may be used to measure some of the objectives, for example, and if so, on what basis the scores and ratings will be evaluated.

(c) *Data collection procedures.* It is suggested that the plan for the collection of evaluation data should cover the appropriate budget period and should include the complete evaluation schedule, the target populations to be measured, those responsible for arranging and administering the measurements, and any conditions of measurement not specified in the objectives. Procedures for the selection and training of testers, observers, or interviewers should be described. Charts and diagrams may prove to be helpful tools in the planning and organization of data collection procedures and in the coordination of these procedures with the plans for periodic reviews of the data by the independent educational accomplishment auditor.

(20 U.S.C. 887(b)(3); 45 CFR 124.5(c))

Part 8—Educational Program Verification

Sec. 8.1 Purpose.

An educational program verification is an external evaluation by qualified outside technical personnel who are not directly involved in the planning or operation of the project. The verification is designed (a) to verify the results of the evaluation of an educational program and (b) to assess the appropriateness of evaluation procedures for determining the effectiveness of program procedures. Assuming that the evaluation is complete, relevant, and valid and that it includes procedures for assessing product, process, and program management, an educational verification should provide an added measure of objectivity for the conclusions reached through the evaluation process, and may also identify weaknesses in the evaluation procedures and offer ideas for correcting such weaknesses in succeeding phases of the project.

(20 U.S.C. 887(b)(3); 45 CFR 124.5(d))

Sec. 8.2 Suggested procedures.

(a) *Program examiners.* Soon after a preapplication proposal is selected for further development, the applicant should contact and establish liaison with one or more prospective educational program examiners. When the district has tentatively selected an examiner, arrangements should be made for services to be provided by him during the developmental period. If the local educational agency has been awarded a developmental grant, some of the funds from this grant can be used to pay for the services of an examiner on a consultant basis.

(b) *Preliminary procedures.* (1) As one of the first of his activities during the developmental period, the examiner should familiarize himself thoroughly with the intent and policies of the dropout prevention program and with the proposed objectives and project activities which the applicant presented in the preapplication proposal. The local district should provide all pertinent documents to the examiner early in the developmental period.

(2) (i) A major function of the examiner during this developmental period is his conduct of an examination of the proposed evaluation system to determine whether it provides a basis for an adequate educational verification of the project. The examiner should determine, for example, whether the baseline data, the types of instruments to be used, and the quantity of evaluation data to be collected are adequate and whether instruments and procedures are included for the evaluation of product, operational process, and management process objectives.

(ii) While the examination is being conducted, the outside examiner should work closely with the prospective project evaluator as well as with the planning director and his staff. The examiner should be given draft materials for the formal proposal as they are developed and copies of specific evaluation instruments as they are selected or designed. In making his critique of the proposed evaluation design, the examiner must be careful to maintain objectivity and detachment, lest he later find himself in the position of auditing his own work. Designing and modifying the evaluation system is *not* his function.

(3) The verification plan and a performance contract for the operational period also should be developed during the developmental period.

(c) *Evaluation of documents.* (1) Throughout the project period, the local school district should provide the examiner with project evaluation documents at scheduled times. Prior to his onsite visits, the examiner needs adequate time for a detailed analysis of the evaluation documents, the formulation of questions to be raised with the project director and the evaluator, and the determination of the specific sampling to be conducted during the visit. In turn, the local educational agency will generally need time to arrange and confirm with the examiner his onsite visit schedule. Since it is obvious that the examiner cannot possibly examine all of the project evaluative data, he will need to work largely from tabulations, data analyses, and written interpretations and summaries of the evaluation made available to him by the local educational agency during the project period.

(2) In addition to providing the examiner with the evaluation reports, the local educational agency should submit to him a description of the data analysis techniques and procedures used by the project evaluator, any recommendations for revisions of the evaluation design which have been proposed as a result of a particular phase of the evaluation cycle, and any recommendations for program modifications which have been suggested as a result of the evaluation.

(d) *Onsite visits.* (1) The examiner's review of the written documents prior to his visit will establish a framework for the scope and emphases of his onsite work, which may consist largely of spot checking and sampling what has been reported in the documents. The critique of the evaluation reports is an important preliminary activity, but it is through the onsite visits that the examiner can actually verify the results of the evaluation and assess the appropriateness of the evaluation procedures.

(2) Before concluding his onsite visit, the examiner should discuss any major discrepancy findings with the local educational agency, so that procedures for their correction and for appropriate follow-up activities by the examiner can be established as soon as possible. If, for example, some phase of the evaluation had not been completed on schedule and; therefore, could not be verified, the examiner might plan to verify that phase at a later date; or if the procedures for some phase of the evaluation are to be modified substantially, a reexamination of that phase might be appropriate at some time prior to the next regularly scheduled complete verification.

(e) *Reports.* (1) The major task of the examiner after he completes his onsite visit is the preparation of verification reports, which should include his comments, critiques and recommendations with regard to the project evaluation.

(2) It is recommended that an interim and a final report be written initially as draft documents, to be presented to and discussed with the local educational agency prior to formal submission to the appropriate local personnel and in turn to the Office of Education. Provision for a meeting to discuss the draft audit report would enable both the examiner and the local educational agency to raise final questions concerning its content, accuracy, and completeness. The meeting can serve as the occasion for a review of the entire educational program verification process and the degree to which both have fulfilled their responsibilities.

(20 U.S.C. 887(b)(3); 45 CFR 124.5(d))

PART 9—DISSEMINATION

Sec. 9.1 Purpose.

An effective dissemination program is vital to the success of the Dropout Prevention Program and to the success of each project. Since the Dropout Prevention Program is a demonstration program which seeks to develop models that can be emulated and adapted across the Nation, it is important that validated information about these projects be widely disseminated. The educational community should be made aware of these projects and their progress so that successful approaches and solutions can be shared, mistakes avoided, and cooperative efforts stimulated. The general public should also be made aware of these efforts to find solutions to the school dropout problem, since public understanding of the project and support for it are essential to its continuation and expansion.

(20 U.S.C. 887(a); 45 CFR 124.16)

[FR Doc.73-16662 Filed 8-10-73;8:45 am]

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 73-CE-14]

CONTROL ZONES AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the Kansas City, Missouri (International Airport) and Kansas City, Missouri control zones and the Kansas City, Missouri transition area.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106. All communications received on or before September 12, 1973, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposals contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106.

With the opening of the Kansas City, Missouri International Airport, air carrier operations have shifted from the Kansas City Municipal Airport to the new facility. As a result, it is necessary to alter controlled air space surrounding Kansas City International Airport to protect aircraft operating in accordance with instrument flight rule flight plans. Also, the shift in air carrier operations has resulted in reduced control zone size requirements for the Kansas City Municipal Airport and increased the size requirements of the Kansas City International control zone. Accordingly, action is taken herein to reflect these changes.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.171 (38 FR 351), the following control zones are amended to read:

KANSAS CITY, MISSOURI
(INTERNATIONAL AIRPORT)

Within a 5 mile radius of the Kansas City International Airport (latitude 39°18'05" N, longitude 94°43'37" W) and within 2 miles either side of the Rwy 9 ILS Localizer West Course extending from the 5 mile radius zone to the Rondell OM; and within 2 miles either side of the Rwy 19 ILS Localizer North Course extending from the 5 mile radius zone to 12 miles north of the Wyandotte OM; and within 1.5 miles either side of the 268° radial of the Kansas City VORTAC extending from the 5 mile radius zone to the VORTAC; and within 2 miles either side of the Rwy 1 ILS Localizer South Course extending from the 5 mile radius zone to 1.5 miles south of the Wyandotte OM.

V 38 155 AUG 13 73 XUM

KANSAS CITY, MISSOURI

Within a 5 mile radius of the Kansas City Municipal Airport (latitude 39°07'27" N, longitude 94°35'31" W) and within 1.5 miles either side of the 031° radial of the Riverside, Missouri VOR extending from the 5 mile radius zone to 6 miles NE of the VOR; and within 1.5 miles either side of the 215° radial of the Riverside, Missouri VOR extending from the 5 mile radius zone to 6 miles SW of the VOR; and within 2 miles either side of the 353° radial of the Riverside, Missouri VOR extending from the 5 mile radius zone to 10.5 miles N of the VOR, excluding that area which overlies the Kansas City International Airport control zone.

In § 71.181 (38 FR 435), the following transition area is amended to read:

KANSAS CITY, MISSOURI

That airspace extending upwards from 700 feet above the surface within a 10 mile radius of the Kansas City Municipal Airport (latitude 39° 07'20" N, longitude 94° 35'30" W) and within a 7 mile radius of Sherman AAF (latitude 39° 22'05" N, longitude 94° 54'45" W); and that airspace extending from 700 feet above the surface within an 8.5 mile radius of the Kansas City International Airport (latitude 39° 18'05" N, longitude 94° 43'47" W) and within 5 miles either side of the Rwy 19 ILS Localizer North Course extending from the 8.5 mile radius zone to 25 miles N of the Wyandotte OM; and within 5 miles either side of the 088° radial of the Kansas City VORTAC extending from the 8.5 mile radius zone to 11.5 miles E of the VORTAC; and within 5 miles either side of the Rwy 1 ILS Localizer South Course extending from the 8.5 mile radius zone to 11 miles S of the Wyandotte OM; and that airspace extending upward from 1,200 feet above the surface bounded on the southeast by the arc of a 42 mile radius circle centered on the Kansas City Municipal Airport, beginning at the west boundary of V–159 and extending counter clockwise to the south boundary of V–12 to longitude 93° 30'00" W, thence north along longitude 93° 30'00" W, to the southeast boundary of V–10 thence direct to latitude 93° 47'45" N, longitude 93° 34'00" W, thence southwest along the northwest boundary of V–10 to the east boundary of V–161, thence west to latitude 39° 44'00" N, longitude 94° 43'20" W, thence southwest to latitude 39° 30'00" N, longitude 94° 49'00" W, thence west along latitude 39° 30'00" N, to the southwest boundary of V–71, thence northwest along the southwest boundary of V–71 to longitude 95° 09'00" W, thence south along longitude 95° 09'00" W, to the southeast boundary of V–10 to the arc of a 10 mile radius circle centered on the Kansas City Municipal Airport, thence clockwise to the west boundary of V–159, thence south along the west boundary of V–159 to the point of beginning; and that airspace extending upward from 5,000 feet MSL bounded on the west by longitude 93° 30'00" W; on the south by V–4; on the east by V–424; on the north by V–116 and on the northwest by V–206; and on the north by V–10; and within an area bounded on the west by V–161; on the southeast by V–10 and on the north by V–50.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Kansas City, Missouri on July 20, 1973.

JOHN R. WALLS,
Acting Director, Central Region.

CONTROL ZONE

Proposed Alteration

The Federal Aviation Administration is considering amending § 71.171 of Part 71 of the Federal Aviation Regulations so as to alter the New York, N.Y. (John F. Kennedy International Airport) Control Zone (38 FR 406).

Forthcoming revisions to the VOR instrument approach procedures for John F. Kennedy International Airport and a review of the controlled airspace requirements for the terminal area indicate alteration of the control zone is required to provide controlled airspace in consonance with Terminal Instrument Procedures (TERPS).

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before September 12, 1973 will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of New York, N.Y. (John F. Kennedy International Airport), proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations by deleting the description of the New York, N.Y. (John F. Kennedy International Airport) control zone and by substituting the following in lieu thereof:

Within a 5-mile radius of the center 40°38'25" N., 73°46'41" W., of John F. Kennedy International Airport; within the area bounded by a line beginning at 40°36'16" N., 73°52'32" W., to 40°37'10" N., 73°54'55" W., to 40°42'19" N., 73°51'07" W., to 40°41'23" N., 73°48'48" W., to the point of beginning; within 1.5 miles each side of the Kennedy VORTAC 108° radial, extending from the 5-mile radius zone to 6.5 miles east of the VORTAC; within 1.5 miles each side of the Kennedy VORTAC 207° radial, extending from the 5-mile radius zone to 6 miles southwest of the VORTAC; within 1.5 miles each side of the Kennedy VORTAC 134° radial, extending from the 5-mile radius zone to 5 miles southeast of the VORTAC.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348] and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Jamaica, N.Y., on July 30, 1973.

L. J. CARDINALI,
Acting Director, Eastern Region.

[14 CFR Part 71]

[Airspace Docket No. 73–EA–63]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Wilmington, Del., Transition Area (38 FR 601, 1579).

A new area navigation (RNAV) instrument approach procedure was developed recently to serve Runway 35 at Summit Airpark Airport, Middletown, Delaware. Provision of controlled airspace for the new procedure will require alteration of the 700-foot floor transition area.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before September 4, 1973 will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Wilmington, Delaware, proposes the airspace action hereinafter set forth:

1. Amend § 71.181 of Part 71, Federal Aviation Refulations so as to alter the description of the Wilmington, Delaware 700-foot floor transition area by deleting all after, "Summit Airpark Airport," and substituting therefor, "Middletown, Del.; within 2.5 miles each side of a line bearing 345° from a point in latitude 39°23'-31" N., longitude 75°40'38" W. extending from said point to the 5-mile radius area centered on Summit Airpark Airport and within 3 miles each side of a 234° bearing from the Greater Wilmington, Del., ILS OM extending from the Summit Airpark Airport 5-mile radius area to 13 miles southwest of the OM.".

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348] and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Jamaica, N.Y., on July 27, 1973.

L. J. CARDINALI,
Acting Director, Eastern Region.

[Airspace Docket No. 73–EA–65]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Wise, Va., Transition Area (38 FR 602).

A recent revision of the Lonesome Pine Airport, Wise, Virginia NDB instrument approach procedure to runway 24 will require alteration of the transition area.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before September 12, 1973 will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Wise, Virginia, proposes the airspace action hereinafter set forth:

1. Amend § 71.181 of Part 71 Federal Aviation Regulations by amending the text of the Wise, Virginia 700-foot floor transition area by deleting all after "Wise, Va.," and by substituting therefor, "and within 3.5 miles each side of the 056° bearing from the Wise RBN (37°01'18" N., 82°28'04" W.) extending from the 11-mile radius area to 11.5 miles northeast of the RBN.".

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348] and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Jamaica, N.Y., on July 30, 1973.

L. J. CARDINALI,
Acting Director, Eastern Region.

Federal Railroad Administration

[49 CFR Part 217]

[Docket No. RSOR–1; Notice 3]

RAILROAD OPERATING PRACTICES

Extension of Time for Filing Comments; New Date for Public Hearing

On May 14, 1973, the Federal Railroad Administration (FRA) published in the FEDERAL REGISTER a notice of proposed rulemaking to add a new Part 217 to Title 49 of the Code of Federal Regulations to establish initial rules respecting railroad operating practices (38 FR 12617). The closing date for comments and date for public hearing provided in that notice were re-scheduled to August 14, 1973, and August 15, 1973; respectively, in a second notice of rulemaking published at 38 FR 14865.

The Association of American Railroads (AAR) has filed a request for additional time to submit the views and arguments of its member railroads and to make an oral presentation. This request was made, in part, due to the FRA's late response in issuing an interpretation of the scope and intent of the proposed rules as asked by the AAR in a letter of July 5, 1973. The July 5 letter and the FRA's interpretation are available in the public docket.

For good cause shown in the AAR request, the FRA has decided to extend the closing date for filing written comments and to set a new time for the public hearing. The new deadline for filing written comments is September 19, 1973, except that written statements may be submitted at the oral hearing. Written comments received after September 19, other than at the oral hearing, will be considered only so far as practicable. The new time and the place for the oral hearing are 10:00 a.m., September 20, 1973, in Room 5332, Nassif Building, 400 Seventh St., S.W., Washington, D.C. Persons wishing to make an oral presentation should notify the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, 400 Seventh St., SW., Washington, DC 20590, before September 20. Participants should refer to the original notice (38 FR 12619) for a brief statement of the procedures to be followed at the hearing.

(Sec. 202, 84 Stat. 971, 45 U.S.C. 431; § 1.49 (n), 49 C.F.R. 1.49(n))

Issued in Washington, D.C., on August 7, 1973.

DONALD W. BENNETT,
Chief Counsel.

ENERGY POLICY OFFICE

[32A CFR Ch. XIII]

EPO REG. 1

Mandatory Fuel Allocation

The Energy Policy Office is considering the adoption of a mandatory fuel allocation program pursuant to the authority granted under Section 203(a)(3) of the Economic Stabilization Act of 1970, as amended.

On April 30, 1973, the Economic Stabilization Act was amended by PL 93–28 to give the President (or his delegate) the power to allocate petroleum products including crude oil. Guidelines for a voluntary program for allocation of crude oil and refinery products were published in the FEDERAL REGISTER, Vol. 38, No. 99, on Wednesday, May 23, 1973. Public Hearings concerning the operation of the voluntary program and the need for a mandatory program were held in Washington on June 11–14, 1973.

The following proposed program would, if adopted, provide for the mandatory allocation of crude oil, refined petroleum products and liquified petroleum gas. It is being published at this time so that public comments may be considered prior to the institution of a mandatory allocation program. It should be noted that the program is being published for comment only and that there is no intention to actually implement a mandatory program at this time.

Interested persons may submit written data, views or arguments to: Mandatory Petroleum Allocation Program, Attention: Charles J. Cullen, Office of Oil and Gas, P.O. Box 19407, Washington, D.C. 20504. Comments should be received prior to September 10, 1973.

Comments are welcome on (1) the general need for a mandatory program (2) the overall effects of the mandatory program as proposed, (3) individual sections of the proposed program and their expected effects, (4) the proposed base period and method of establishing the purchaser/supply relationship, (5) the relationship of the proposed program to other federal and state programs which may effect fuel allocation, such as natural gas curtailment procedures, environmental implementation plans and Cost of Living Council regulations, and (6) any other matter relevant to the proposed regulations.

Specific forms which are referred to in the proposed program are not included for comment.

In the event a decision is made to institute a mandatory fuel allocation program under 203(a)(3) of the Economic Stabilization Act, as amended, it is proposed to add a new Chapter XIII to Title 32A CFR consisting of the following EPO—Reg 1:

V 38 155 AUG 13 73 XUM

AUTHORITY: Sec. 203(a)(3) of the Economic Stabilization Act of 1970 as added on April 30, 1973 by Sec. 2(b) of the Economic Stabilization Act Amendments of 1973 (P.L. 93-28); 12 U.S.C. 1904 (Note); EO 11695, 38 FR 1473; Cost of Living Council Order No. 33, 38 FR 20960.

Subpart A—Mandatory Allocation Program for Crude Oil

Section 1. Intent of program.

The mandatory crude oil allocation program is intended to facilitate operations by small refiners at levels of at least 90 percent of capacity. Imported crude oil will not be subject to control; it is expected that refiners who have historically been able to obtain and process imported crude will continue to do so. The program provides for allocation of domestic crude oil to crude deficient small refiners, sufficient to maintain each small refiner's 1972 ratio of domestic crude to imported crude oil input were he to operate at 90 percent of capacity. Shortages of domestic crude will be determined by the Department of Interior, based on reports from small refiners. Each eligible major refiner will submit reports of domestic crude availability to the Department of Interior and will be required to offer a specified proportional quantity of crude oil for sale to the small refiners. Major refiners operating at below 90% of capacity will not be required to sell crude oil to small refiners. The parties involved will be required to effect the necessary sales and exchanges to actually accomplish the redistribution. The sales price will be posted price plus six percent for brokerage and handling plus actual transportation costs. To encourage exploration for new reserves, the program exempts from allocation production from new discoveries.

Sec. 2. Definitions.

"Brokerage and Handling Fee"—6 percent surcharge on all sales of crude oil under this program.

"Crude Deficient Refiner"—any refiner with anticipated crude availability which is expected to result in operations below 90% of capacity during the next quarterly period.

"Crude Sales Fraction"—a fraction applied to each eligible major refiner's eligible crude availability to determine the actual amount (in barrels) the refiner must offer for sale in any period. The crude sales fraction is the same for all eligible major refiners; it is the quotient of the total small refiner's deficiencies divided by the total eligible crude availability.

"Domestic Crude Availability"—the amount of domestic crude oil available to major refiners operating at or above 90% of capacity as of the effective date of this program, a portion of which will be designated for sale to small refiners by the Department of Interior. All new discoveries subsequent to the commencement of this program will not be included in a refiner's eligible crude availability, but will be considered in determining if a major refiner is crude deficient.

"Historical domestic crude fraction"—domestic crude runs as a fraction of total refinery runs (including all imports) of crude oil during calendar year 1972.

"Major Refiner"—any refiner with total capacity equal to or greater than 175,000 barrels per day; major refiners operating at or above 90% of capacity are "eligible" and will be required to sell domestic crude oil to small refiners.

"Period"—Quarterly periods as designated by the Department of Interior after the commencement of this program.

"Proportional Share"—the actual amount of domestic crude offered for sale by an eligible major refiner. The proportional share equals the product of each major refiner's eligible crude availability multiplied by the national crude sales fraction.

"Small Refiner"—any refiner with total capacity less than 175,000 barrels per day.

"Small Refiner Deficiencies"—those quantities of domestic crude oil that a refiner is deficient according to the formula in section 4(c).

Sec. 3. Coverage of program.

The program will apply to all refiners and others who purchase crude oil from producers directly or indirectly for resale or transfer to refineries. However, only refining companies with a total domestic refinery capacity of less than 175,000 barrels per day will be permitted to purchase domestic crude oil under this program as specified by the Department of Interior. All major refiners reporting operations equal to or greater than 90% of capacity in the next period will be required to offer a proportional share of domestic crude for sale to small refiners. All crude deficient major refiners will be exempt from offering domestic crude for sale, but will be required to report to the Department of Interior.

Sec. 4. Basis for allocations.

(a) Separate programs will be established for Districts I–IV and for District V.

(b) Each established refining company will report to the Department of Interior within ten days of the commencement of this program. These refiners shall report for each refinery for each period capacity and anticipated crude oil availability. Refiners will also report on a one-time basis the total amounts of domestic and imported crude oil run through their refineries during calendar year 1972.

(c) Based upon reports provided by each refiner, the Department of Interior may verify the estimated crude availability for the next period. The Department of Interior will determine each small refiner's deficiency according to the following formula:

S.R.D. = (H.D.C.F.) X [0.9 (capacity)]—S.R.D.C.A.
H.D.C.F. = historical domestic crude fraction
S.R.D.C.A. = small refiner domestic crude availability (anticipated for the next period)

The Department of the Interior will sum all small refiner deficiencies and determine the total domestic crude availability from eligible major refiners. The Department of Interior will determine the crude sales fraction (which applies to all eligible major refiners) by dividing the total small refiner deficiencies by the total domestic crude availability. Each eligible major refiner will be required to sell a proportional share of domestic crude equal to the product of the crude sales fraction and his reported domestic crude availability. The Department of Interior will publish in the FEDERAL REGISTER a list of refiners who may purchase crude oil under this program and a list of refiners who are required to offer crude oil for sale. Specific quantities will be specified for each selling or purchasing refiner for each period.

(d) Major refiners who are required to sell crude oil must offer this crude oil, directly or through exchange, to small refiners who have the opportunity to purchase crude oil under this program. The crude oil offered must be suitable for processing in and practical for delivery to plants of purchasing refiners. The crude will be made available in reasonable increments during the period in accordance with normal business practices.

(e) Refiners allowed to purchase crude oil under this program who desire to purchase crude oil, but are unable to negotiate a contract for an acceptable crude oil within the time period allotted may request that the Department of the Interior compel a refiner to sell an acceptable type of crude oil to the deficit refiner. Upon such request, the Department

of Interior will direct a refiner who has not sold its required volume of crude oil to sell a specified volume of a specified crude to the purchasing refiner. If the Department of Interior directs the sale, the Department of Interior will collect the brokerage fee from the buyer. Should the refiner then decline not to purchase the crude oil specified by the Department of Interior, any rights to purchase that volume of crude oil based on this program will be forfeited for that period, provided that all provisions of this program have been met by the prospective seller.

(f) In determining subsequent small refiner deficiencies, the Department of the Interior will adjust the amount a small refiner may purchase by the actual overage or underage (the difference between the estimated and actual supply of crude oil) in the previous period, based on data in the quarterly report on actual operations.

(g) Major refiners who report that they will operate below 90% of capacity will not be required to sell crude oil. Should a major refiner then actually operate at or above 90% of capacity, the Department of Interior will increase the amount a major refiner must offer for sale in the next period accordingly. The domestic crude availability reported by crude deficient major refiners will not be included in the total eligible crude availability.

(h) If the proportional share assigned for sale by the Department of Interior results in a major refiner becoming crude deficient, the major refiner will not be required to provide more crude for sale to small refiners than would result in reducing the major refiner's operations to less than 90% of capacity. Should this occur, the Department of Interior will reduce the total eligible crude availability accordingly.

(i) Foreign crude may be substituted for domestic crude, providing that this is acceptable to both the purchaser and seller. The sales shall be at a price agreeable to both parties. Except as specified in this paragraph, no other portion of this mandatory crude oil allocation program applies to the purchase, sale, or distribution of imported crude oil.

(j) Domestic crude oil purchased by small refiners under this program may not be sold, but must be utilized or exchanged for crude oil which will be utilized by the small refiner.

(k) The type of crude oil purchased or sold, the location of each sale, and the terms and conditions of sale shall be agreed upon by individual companies conducting the transactions consistent with normal business practice, subject to provisions of these regulations and to the applicable laws in effect at the time of the transactions.

(l) If any refiner radically changes existing supply relationships so that the net result is to significantly reduce the sales on the free market and to increase the sales under this program (thus receiving the 6% brokerage fee on a higher portion of crude sales) the Department of Interior may direct the reestablishment of the historical supply relationships at posted prices, allowing no brokerage fee.

(m) In the event of supply disruptions that substantially affect the program or any refiner, the Department of Interior may terminate or reduce the sales volumes of any agreements made as required by this program and issue additional instructions for sales to bring the program back into reasonable balance.

(n) Exchanges of crude oil may be utilized to comply with the purchase and sale provisions of this program, provided they are on a barrel-for-barrel basis. (For example, Refiner A who is required to sell crude oil, may deliver a barrel of crude oil to Refiner B who in turn delivers a barrel of crude oil to Refiner C, who is allowed to purchase crude oil under the program.)

(o) The Department of Interior, based upon periodic reports of all refiners, will review the allocations quarterly and make adjustments to reflect the changing availability in crude supplies or transportation. Purchasers and sellers are encouraged to continue the supply relationships in effect at the commencement of this program and instituted under the first period of this program to minimize disruption and maximize crude availability. Small refiners with 25% or more of their refinery output as asphalt will not necessarily receive the full allocation of domestic crude oil according to the formula in Section 4(c). The Department of Interior may reduce the allocations to reflect seasonal patterns of asphalt production.

(p) All new discoveries of domestic crude subsequent to the commencement of the program shall be exempt from allocation under this program. These new supplies shall be available to the owner for use or sale in any manner consistent with normal business practices and laws governing each use and transaction. "New discoveries" is interpreted to mean new crude petroleum as defined in § 150.354(b)(4), Subpart L of Phase IV Proposed Rulemaking, 6 CFR Part 150, July 20, 1973 (38 FR 19468).

Sec. 5. Procedure and timing requirements.

(a) *Initial report.* Within ten days following the commencement of this program, each refiner shall submit a report to the Department of Interior with the following information:

(1) Capacity of each refinery reported to the Bureau of Mines, and any new capacity estimated to be put on stream from July 1, 1973 through June 30, 1974.

(2) Total crude availability for the next period, segregating domestic crude oil and imported crude oil, including:

(i) Estimated monthly deliveries of various grades of crude oil, excluding crude oil to be processed for other refiners under agreements.

(ii) Estimated monthly deliveries of various crude oils to other refiners' plants for processing for its own account under processing agreements.

(iii) Any crude oil to which the company has title or will obtain title, that is not committed by contract to other refiners, or is not included in its estimates for deliveries to its refineries, or for processing by other refiners under processing agreements.

(3) The total quantities of domestic crude oil and imported crude oil processed during calendar year 1972. Total deliveries of various crudes to other refiners' plants for processing under its own account as well as crude oil processed for other refiners will be separately identified. (Refiners with 25% or more of their output as asphalt shall report 1972 crude runs on a monthly basis.)

The amounts reported shall be certified for correctness by an officer of the company to be accurate to the best of his knowledge. The provisions of 18 U.S.C. 1001 shall apply to all submissions made. Supporting documents may be required by the Department of Interior as it deems necessary. The projected volume of imported crude oil reported shall be that which the company anticipates importing for the upcoming period, and must be at least equal to that average daily volume of imported crude oil actually charged to the refiner's plants during the period from July 1, 1972 through June 30, 1973; any reductions in this level of imported crude oil by major refiners will not be considered in determining the eligibility of the refiner for sales under this program, i.e., will not be considered in reviewing a major refiner's operations at or near 90% of capacity. Any reductions in the level of imported crude from the calendar 1972 levels by crude deficient small refiners will be deducted from the quantities of crude oil to be purchased under this program.

(b) *Subsequent reports.* Each refiner will report to the Department of Interior 60 days prior to the first day of each new period. These reports shall be identical to the initial report, except: refiners will not report on 1972 historical crude runs, but will report actual crude runs and actual capacity for the previous period, segregating domestic crude from imported crude oil.

(c) Each transaction made to comply with this program shall be reported to the Department of Interior. This report will indicate the selling and purchasing refiner, the price of the contract modified by any allowed transportation cost adjustments, and the identity and volumes of the crude oil sold.

(d) The Department of Interior will publish a list showing required sales volumes and purchase opportunities for each refiner in Districts I–IV and District V, and issue instructions to the major refiners to sell the required volumes of crude oil or inform small refiners of their opportunities to purchase additional supplies. The lists shall be published by the Department of Interior at least 30 days prior to the beginning of a new period.

(e) Within 20 days of the date the lists are published in the FEDERAL REGISTER, each refiner shall make a report to the Department of Interior showing progress made to comply with the program. Based on these reports, the De-

V 38-155 AUG 13 73 XUM

partment of Interior will work with refiners in the ten days prior to the beginning of the new period to assist them in complying with the program and may require any refiner who has not complied with this program to date to sell specified volumes of a specified crude oil to refiners unable to purchase crude oil.

(f) All agreements for exchanges of foreign oil for domestic oil in effect at the initiation of this program shall remain in effect as long as the foreign crude oil being delivered for exchange continues to be available. In the event that supplies of foreign crude oil being exchanged become unavailable through circumstances not under the control of the person, firm, or corporation that is supplying the foreign crude oil, and other replacement crude oils cannot be secured, then the exchange agreement may be terminated upon seven days notice, provided that a full report is sent to the Department of Interior and that the Department of Interior is notified by telegram at the time of the notice. The Department of Interior may then alter previous allocations in an attempt to ensure that crude deficient small refiners obtain supplies of crude oil.

(g) Any refiner may report to the Department of Interior any significant changes in available supply. Such reports may be filed at any time; however, changes in allocation to small refiners can usually be best accommodated utilizing the reporting and adjustment procedure presented in section 4(f). New supply exempt from allocation shall be listed separately in such reports.

Sec. 6. Pricing and terms of crude oil sales by refiners to comply with the mandatory allocation program.

(a) The price at which crude oil shall be offered for sale as required by this program in Districts I–IV or District V shall equal posted prices (plus other applicable costs as specified in paragraphs (b) and (c) of this section), plus a 6 percent brokerage fee. In no case, will the price charged be in violation of Cost of Living Council rules. Each refiner required to sell oil under this program shall maintain records, which shall be made available to the Department of Interior upon request, listing the volumes and prices of all crude oils delivered to its plants during each month.

(b) The delivered price charged a deficit refinery may also include, where applicable, any gathering or trucking allowances and terminaling costs, and exchange differentials paid to deliver the crude oil to the seller's refineries.

(c) Actual additional transportation expenses incurred in moving the offered crude oil to the purchaser's refinery shall be paid by the purchaser at the published tariff rate. Actual transportation expenses saved as a result of moving the offered crude oil directly to the purchaser's refinery shall be deducted from the selling price.

(d) In the event that an exchange is used to effect the delivery of crude oil to the purchaser's refinery, no exchange differential may be collected other than actual additional transportation expenses which are associated with the exchange.

(e) In no case will a supplier be required to sell crude oil at a price that is less than cost and therefore confiscatory.

(f) If a refiner does not effect a sale and the Department of Interior is required to force a sale, the 6 percent brokerage and handling fee shall be paid to the Department of the Interior by the buyer.

Sec. 7. Compliance provisions.

(a) Compliance with this program shall be mandatory. Each refiner required to sell crude oil under the provisions of this program must do so or face penalties or sanctions.

(b) Any participant in the program may file a complaint with the Department of Interior against any other participant. Upon receipt of such complaint, the Department of Interior will conduct an investigation, and in the event of violations, instruct the violators to comply with the program, impose penalties as specified, and if necessary impose sanctions.

Subpart B—Mandatory Allocation Program for Refined Petroleum Products and Liquefied Petroleum Gas

Sec. 8. Intent of program.

It is the intent of the mandatory allocation program for refined petroleum products and liquefied petroleum gases (LPG) to distribute available products among wholesale purchasers equitably, and to provide a state reserve for priority uses. The Federal Government will administer that portion of the program which ensures equitable distribution to the wholesale purchaser. It is intended that allocations will be made by suppliers consistent with normal regional patterns through normal distribution networks. Wholesale purchasers of petroleum products and LPG will be allocated 100% of the same quantities as purchases in calendar year 1972 or if these quantities are not available, a proportional share of the supplier's allocable supplies. Marketers, jobbers, dealers, or direct wholesale customers not in business during the entire base period, or who have had substantial changes in fuel requirements such that allocations equal to or proportional to base period supply levels would create exceptional economic hardships, may petition the Department of Interior to receive greater allocations. The state governments may direct use of the state reserve if desired to meet priority needs. Dealers, marketers and jobbers who supply priority users may apply to the designated state office for additional supplies above their allocations to meet priority demands.

Sec. 9. Definitions.

"Adjusted Base Period Supply Volume." The amount assigned by the Department of Interior to a wholesale purchaser in lieu of the wholesale purchaser's actual base period sales or usage which a supplier must use as a base for calculating allocations.

"Allocable Supplies." Any supplier's total supply of any refined petroleum product covered by this program less any exempt volumes not allocable.

"Allocation Fraction." A fraction, calculated as described in the program regulations, which each supplier will use to apportion its allocable supplies among all its wholesale purchasers based on their base period supply volumes.

"Assigned Customer." A wholesale purchaser with whom a supplier did not do business during March 1973 or the nearest month in 1973 prior to March 1973 that is assigned to a supplier by the Department of Interior and whom the supplier must supply for the duration of this program.

"Base Period." [1] The equivalent month in 1972.

"Base Period Supply Volume." A wholesale purchaser's base period sales or usage. A supplier's base period supply volume will be equal to the sum of its wholesale purchaser's base period supply volumes and the base period supply volumes of its own retail outlets, plus adjustments by the Department of the Interior.

"LPG." Liquefied petroleum gas, including propane and butanes, but excluding ethane.

"Proportional Allocation." If the 1972 supply levels are not available, the proportional allocation equals the total allocation received by each wholesale purchaser. This is equal to the product of the supplier's allocation fraction times the wholesale purchaser's base period supply volume or adjusted base period supply volume.

"State Reserve." 10 percent of the total allocation which may be allocated by the states for priority use.

"Supplier." Any refiner, gas plant operator, wholesale marketer, jobber, distributor, terminal operator, or any person, firm or corporation who supplies petroleum products or LPG in bulk at the wholesale level.

"Total Allocation." 100 percent of a wholesale purchaser's base period supply volume, or, if the supplier does not have this quantity, a proportional allocation.

"Wholesale Customer or Purchaser." Any person, firm, corporation, cooperative, or governmental unit that purchases petroleum products in bulk or under contract at the wholesale level, including distributors, independent or branded and unbranded jobbers or dealers, public utilities, industries or large volume users.

Sec. 10. Coverage of program.

(a) The program will cover all designated products produced in or imported into all states, territories, commonwealths, and possessions.

[1] The base period currently under review is calendar year 1972 as a basis for quantities to be allocated; associated with this base period is the use of March 1973 as a basis for establishing the supplier/purchaser relationship. An alternative is to utilize calendar year 1972 both for determining quantities and for establishing supplier/purchaser relationships. Comments on alternative base periods are solicited.

(b) Separate programs will exist for Districts I–IV and for District V. However, normal supply patterns that cross district boundaries will be continued. For the purpose of this program, retail outlets normally supplied across district lines will be considered to be in the district from which they are supplied.

(c) The mandatory provisions of the program will apply to all refiners, gas plant operators, wholesale marketers, jobbers, distributors, and terminal operators, or any person, firm or corporation which supplies petroleum products or LPG in bulk at the wholesale level.

(d) The program will apply to the distribution and marketing of the following petroleum products: propane, butanes, gasoline including aviation gasoline, naphtha, and naphtha base jet fuel, kerosine, stove oil, and No. 1 fuel oil; and heavy distillates such as diesel fuel, furnace oil and No. 2 fuel oil, and residual oils. Petrochemicals (but not feedstocks), lubricants, asphalt, and refined solvents will be excluded.

Sec. 11. Basis for proportional allocations.

(a) Each wholesale purchaser entitled to receive allocations under this program will be supplied by his supplier(s) of record during March 1973. Each supplier will be required to continue to serve the customers he served during March 1973. However, a supplier may in addition, if he so elects, continue to serve customers signed to new supply contracts since March 1973, providing that provision of supplies to the new customer does not reduce the level of supplies available to a supplier's historical customers.

(b) Any person, firm, corporation or organization who qualifies as a wholesale purchaser and who did not have a supplier during March 1973 may apply to the Department of Interior and be assigned a supplier. Any assigned customer must be accepted by the supplier, and during this program, must be treated in the same manner as any other customer of the equivalent category and wholesale level.

(c) Each wholesale purchaser's base period supply volume in any month will be the amount purchased from *all* suppliers during the corresponding month of 1972, provided however, that wholesale purchasers not in business during all of 1972, or who have had substantial changes in requirements such that allocations based upon a percentage of actual base period supplies would create an exceptional economic hardship, may petition the Department of Interior to be granted adjusted base period supply volume greater than the actual base period supply purchased. The Department of Interior will develop and public a set of criteria under which such petitions will be considered; the criteria will include consideration of unusual conditions or misfortunes in the base period, new investments, sales experience of comparable purchasers, etc.

(d) A supplier will be required to allocate supplies to each wholesale purchaser based on the purchaser's claimed base period supply volume, or any adjusted base period supply volume assigned to that purchaser by the Department of Interior. It will be each wholesale purchaser's responsibility to notify his supplier of his base period supply volume within 30 days of the commencement of this program, if it differs from the amounts actually supplied by the supplier during the base period or if the wholesale purchaser had multiple suppliers in March 1973. The supplier may, if he so desires, request that the notification be on an OOG form which requires certification. When a supplier does not receive notification from a wholesale purchaser, he should assume that the wholesale purchaser's volume is the same as his sales to that purchaser during the base period.

(e) A wholesale purchaser with more than one supplier during March 1973 will distribute his base period supply volume among his March 1973 suppliers in proportion to the percent of his total supply that each supplier provided during March 1973. Purchasers who do not advise their suppliers of multiple supply arrangements and who intentionally obtain supplies from multiple suppliers greater than their total allocation will be subject to sanctions, including exclusion from further entitlement to allocations under this program.

(f) Suppliers and purchasers may agree among themselves to either borrow on future allocations or defer current allocations within the level of the total allocation for the year, as long as such arrangements do not result in an involuntary reduction in allocations to other purchasers.

(g) Each wholesale purchaser notifying his supplier of a base period volume different from the supplier's actual sales to the purchaser during the base period must be prepared to document his base period supply levels. The supplier may request documentation of the wholesale purchaser's reported base period sales, and if the purchaser fails to supply this documentation within 30 days, the supplier may reduce the purchaser's base period supply volume to the volume of products the supplier sold the purchaser during the base period. The Department of Interior may investigate such cases and depending upon its findings may (1) restore part or all of the original base period volume plus any underage in supply to the purchaser that may result during the time the base period volume is reduced, (2) penalize the purchaser for its overage during the initial periods of over supply, or (3) if the violation warrants it, impose sanctions upon the wholesale purchaser.

(h) If a supplier has insufficient supplies to provide every purchaser with a quantity equal to the 1972 supply level, plus those purchasers assigned by the Department of Interior, the supplier will allocate based on proportional allocations. To determine monthly proportional allocations to its wholesale purchasers, each supplier shall determine its allocation fraction for the coming month. Each supplier's allocation fraction (calculated separately for each product category) shall be equal to its adjusted total allocable supplies for that month divided by the adjusted base period supply volume (total base period supply volume plus purchasers assigned by the Department of Interior) of all its wholesale purchasers, including its own retail outlets. A supplier's adjusted total allocable supplies shall be equal to its total estimated allocatable supplies for the coming month, less any adjustments to correct for the difference between the previous month's estimated supplies and actual supplies.

(i) Each purchaser's total allocation for each month shall be equal to 100 percent of the supplier's allocation fraction multiplied by the wholesale purchaser's base period supply volume (or adjusted base period supply volume).

(j) In the event that a supplier's adjusted total allocable supplies exceed the sum of the total allocations for all purchasers, the supplier may distribute any surplus supplies at his discretion.

(k) To allow suppliers flexibility in meeting regional imbalances in normal demand, any supplier may vary his monthly allocation fraction to wholesale purchasers in different areas or regions by as much as 10%; provided that all customers in any local area receive allocations based on an identical allocation fraction and that the total of all proportional allocations remains unchanged. It is intended that suppliers shall use this privilege sparingly.

Sec. 12. Priority allocations.

(a) Any wholesaler, purchaser or user of refined petroleum products may apply to the designated state office to obtain products for priority use by certifying that these or like products will not be diverted from priority uses. An OOG form or a similar state form may be used for such certification.

(b) The following list of activities considered as priority uses of petroleum products is recommended as a guideline for use in state programs to allocate petroleum products:

(1) Farming, ranching, dairy, and commercial fishing.

(2) Services directly related to the cultivation, production, processing, preservation, or distribution of food.

(3) Oil, gas and coal industry operations and related suppliers and services.

(4) Health and sanitation services.

(5) Police, firefighting and emergency aid services.

(6) Public passenger transportation, including school buses and other buses, intercity and mass transit rail systems, and airline passenger services, but excluding taxicabs and tour and excursion services.

(7) Rail, highway, sea and air freight transportation services.

(8) Public utilities, except for substitute natural gas feedstocks and fuels

V 38-155 AUG 13 73 XUM

required for conversion from coal and residual fuel oil other than those necessary to meet primary air standards.

(9) Telecommunications.

(c) States may direct the suppliers to distribute future allocations of petroleum products and LPG in quantities different than prescribed in section 11 to any wholesale purchasers or any end users to meet priority needs. States may not direct more than 10 percent of any wholesale purchaser's total allocation. This redistribution should be for priority use only and states are encouraged to make all efforts to equalize the impact of redistribution on affected purchasers.

(d) The state reserve is intended for use by the states in meeting priority needs. If, in any month, the states do not direct use of any or all of the state reserve for priority needs, the wholesale purchaser will automatically receive all or the balance of his total allocation. States are encouraged to return all wholesale purchasers to a supply level equal to their total allocation as soon as possible. As supplies of petroleum products and LPG continue to increase, most priority needs should be met by the functioning of the normal market mechanism.

(e) The state reserve cannot be accumulated or deferred.

(f) States, territories, commonwealths and possessions may not restrict or in any way interfere with the interstate commerce of fuels, either as raw materials or products. The allocation authority of the state shall extend only to the state reserve which comes to rest in the state. States may not take actions which will result in overt discrimination against non-residents in favor of residents for any fuel or products. Interstate transportation, out-of-state travellers, and wholesalers and retailers doing business in more than one state are examples of classes of petroleum buyers and users to whom the states may not restrict supplies to beyond proportional allocations affecting all buyers and users equally.

Sec. 13. Timing of program and report requirements.

(a) This program shall become effective immediately after the approved program is published in the FEDERAL REGISTER. The first month of allocations will be prescribed by the Department of Interior upon commencement of the program.

(b) To be assured of allocations once the program has commenced, each wholesale purchaser should immediately file a specified form with his suppliers. Wholesale purchasers without a supplier should file a specified form with the Department of Interior in order to be assigned a supplier. To be assured of priority allocations each month, wholesale purchasers should contact the designated state offices.

(c) Each supplier selling covered products to wholesale purchasers will be required to file a monthly and yearly report with the Department of Interior.

(d) Each supplier selling covered products to wholesale purchasers will be required to advise the designated state office monthly of estimated total quantities of the supplier's products (for each product) that will be available within the respective states.

Sec. 14. Adjustments in program.

(a) In order to meet imbalances in supply that may arise from unusual weather conditions or from supply disruptions, the Department of Interior shall reserve the right to order the transfer of supplies from one region to another, to the extent that may be possible with existing transportation facilities and to allocate supplies among suppliers when such an allocation could help alleviate imbalances. Under these circumstances, the allocation fraction for individual suppliers could vary from state to state within Districts I–IV and District V.

(b) The Department of Interior may reassign wholesale purchasers, require a transfer of some wholesale purchasers among suppliers, direct a reallocation of supplies among suppliers, or make other adjustments as may be necessary to achieve a more equitable balance of assigned sales and priority sales among suppliers. The Department of Interior shall make such adjustments sparingly and may seek the advice of the designated state offices and of the affected companies concerning how to make such adjustments with a minimum cost and a minimum effect upon commerce and competition.

(c) Suppliers may make arrangements to supply purchasers to whom they have an allocation responsibility through other suppliers providing that price and other non-price contract provisions are comparable and that the same quantity is supplied.

(d) In cases where abnormal market conditions have resulted in distortions in distribution channels, the Department of Interior may redirect supplies to traditional markets.

Sec. 15. Prices.

The prices at which petroleum products shall be sold by suppliers to each class of wholesale customers in a market area, if such a sale is ordered by the Federal or state government, shall bear a normal and reasonable relationship to the price at which such products are sold to each other class of customers in each market area or the nearest market area, after adjustment for normal and reasonable costs of transportation between market areas. Whether a price bears a "normal and reasonable relationship" to other prices shall be determined by the Department of Interior in cooperation with the Cost of Living Council, except that in the exercise of this authority, the Department of Interior shall have no power to compel sale at below cost.

Sec. 16. Normal business practices.

It is the intent of the program that suppliers will deal with wholesale purchasers according to normal business practices. Nothing in this program shall be construed to require suppliers to sell to wholesale purchasers who do not arrange proper credit or payment for products. However, a supplier may not require or impose cedit terms or payment schedules on wholesale purchasers more stringent than the supplier's normal business practice during the first half of 1972, other than are common under current market conditions (such as higher interest rates).

Sec. 17. Appeals to the Department of Interior.

(a) Any party may file a complaint with the Department of Interior or the designated state office against any other party concerning failure to comply with their respective portion of this program.

(b) Any supplier or wholesale purchaser may request adjustments from the Department of Interior in his base period volumes, assigned customers, or any other feature of this program, where such features result in exceptional economic hardship or gross inequities.

(c) The Department of Interior will investigate all complaints and requests for adjustments and take such action as it deems appropriate. It may require adjustments, impose penalties, or in cases of willful violations of the program, invoke sanctions on any violating parties.

Sec. 18. Compliance provisions.

(a) Compliance with this program shall be mandatory. Each supplier of refined petroleum products and LPG must allocate all available supplies not exempt from allocation in accordance with the provisions of this program or face penalties or sanctions.

(b) Wholesale purchasers failing to comply with reporting requirements of the program face possible loss of or reductions in allocations by their suppliers. Willful misrepresentations on reports to suppliers shall be grounds for exclusion from the program.

Sec. 19. Relationship with other Governmental programs.

(a) No provision of this program is intended to conflict with the rules and regulations of the Cost of Living Council or of the Mandatory Oil Import Program.

(b) Proof that any wholesale purchaser is willfully violating Cost of Living Council regulations shall provide grounds for exclusion of the purchaser from this program by the Department of Interior.

(c) The Cost of Living Council may initiate a complaint against any supplier of wholesale purchaser violating its regulations and request appropriate action by the Department of Interior under this program to help obtain compliance.

(d) The Department of Interior will assist the states in establishing their programs for priority allocation of petroleum products and LPG. The Department of Interior will provide suggested forms and procedures. A representative of the Department of Interior will be appointed to assist most designated state offices (some states may be served by a regional representative) and to provide liaison with the Federal portions of the program.

Subpart C—General Provisions

Sec. 20. Exceptions.

The intent of this program is as expressed separately for the crude oil allocation and the refined products and LPG allocation programs. If the results of some aspects of the programs are contrary to the intent, the person affected may request that the Department of Interior grant an exception on the basis of unintended results.

Sec. 21. Force majeure.

No person shall be held liable by any other person for damages or penalties for any act or failure to act resulting directly or indirectly from compliance with a rule, regulation, or order issued pursuant to this program notwithstanding that any such rule, regulation, or order shall thereafter be declared by judicial or other competent authority to be invalid.

Sec. 22. Discrimination.

No supplier shall discriminate against any wholesale purchaser or refiner purchasing crude oil by failing to make allocations as described under this program, or any rule, regulation, or directive issued pursuant thereto, by charging higher prices or by imposing different terms and conditions on sales upon any single purchaser than charged or imposed upon all other purchasers at an equivalent level of trade, except as may be normal in general business practice.

Sec. 23. Preemption.

For the allocation program to be successful, it is imperative that supplies of crude oil and refined products be made on a coordinated national basis. Therefore the provisions of this program preempt the regulations of any state, territorial, commonwealth, insular possession or local community which would obstruct the smooth and equitable functioning of this national program.

Sec. 24. Termination.

This program will continue until terminated by the President or by expiration of the Economic Stabilization Act.

Sec. 25. Voluntary allocation program.

Upon commencement of this program, all requests for assistance under the voluntary allocation program with the Department of Interior will be voided. Any problem of allocation of crude oil or refined products which remains or occurs after the commencement of the mandatory allocation program should be brought to the attention of the Department of Interior in the manner prescribed in this program.

Sec. 26. Sanctions.

(a) Any refiner who does not comply with the crude oil provisions of this program may, upon further review by the relevant agency of the U.S. Government, be denied fee-free import licenses in the year following the violation of this program. In addition, the Department of Justice may be requested to bring an appropriate civil or criminal action in a district court of the United States.

(b) The Department of Justice may be requested to bring an appropriate civil or criminal action in a district court of the United States against any refiner, gas plant operator, wholesale marketer, jobber, or distributor who fails to comply with the refined products provisions of this program. Failure to comply with the provisions of this program will subject the party to termination of all benefits under the program.

(c) Any person who requests either a priority or non-priority allocation under false circumstances or who uses products provided under a priority allocation for non-priority use, shall be subject to appropriate civil and criminal penalties for each violation of these provisions, and shall be subject to loss of any right to be assigned to a supplier. In addition, the Department of Justice may be requested to seek appropriate injunctive relief to halt the use and sale of products provided under a priority allocation for non-priority use.

SHIPPING COORDINATING COMMITTEE, SUBCOMMITTEE ON CODE OF CONDUCT FOR LINER CONFERENCES

Notice of Meeting

A meeting of the Subcommittee on the Code of Conduct for Liner Conferences will be held at 10 a.m. on Thursday, September 20, 1973 in Room 1105, Department of State, Washington, D.C. The meeting will be open to the public.

The participants at the meeting will discuss United States positions on the draft Code of Conduct for Liner Conferences in regard to the October meeting of the Special Group on UNCTAD of the OECD Maritime Transport Committee and regarding the UN Conference of Plenipotentiaries on the Code scheduled to convene November 12, 1973.

For information concerning the meeting, contact Mr. Richard K. Bank, Secretary, Shipping Coordinating Committee, Department of State, Washington, D.C., telephone (area code 202) 632–0704.

Dated August 6, 1973.

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

NOTICE OF GRANTING OF RELIEF

Notice is hereby given that pursuant to 18 U.S.C., section 925(c) the following named persons have been granted relief from disabilities imposed by Federal laws with respect to the acquisition, transfer, receipt, shipment, or possession of firearms incurred by reason of their convictions of crimes punishable by imprisonment for a term exceeding one year.

It has been established to my satisfaction that the circumstances regarding the convictions and each applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief will not be contrary to the public interest.

Askegard, Delmont Lloyd, 30713 Fourth Avenue SW., Federal Way, Washington, convicted on September 16, 1960, in Superior Court in and for King County, State of Washington.

Cahall, James Wesley, 506 North 96th Place, Mesa, Arizona, convicted on April 21, 1954, in United States District Court, Northern Judicial District of Oklahoma, and on May 19, 1954, in United States District Court for the District of New Mexico.

Iverson, James E., Jr., 11501 84th Avenue South, Seattle, Washington, convicted on July 30, 1965, in Superior Court of the State of Washington.

Washakie, Russell E., Box 254, Fort Washakie, Wyoming, convicted on June 19, 1967, in United States District Court for District of Wyoming.

Webster, Wallace G., 18902 Brady, Detroit, Michigan, convicted on March 18, 1953, in the Circuit Court of Wayne County, Wayne County, Michigan.

Weston, Don, Route 1, Jonesville, Virginia, convicted on June 21, 1968, in the United States District Court, Western District of Virginia.

White, Lester, 111 N. Park Street, Saginaw, Michigan, convicted on May 2, 1956, in Saginaw County Circuit Court, Saginaw, Michigan.

Signed at Washington, D.C., this 6th day of August 1973.

Comptroller of the Currency

[Delegation Order No. 15]

FIRST DEPUTY COMPTROLLER OF THE CURRENCY ET AL.

Order of Succession To Act as Comptroller

By virtue of the authority vested in me by Treasury Department Order No. 129 (Rev. No. 2), dated April 22, 1955, it is hereby ordered as follows:

1. The following officers in the Bureau of Comptroller of the Currency, in the order of succession enumerated, shall act as Comptroller of the Currency during the absence or disability of the Comptroller of the Currency or when there is a vacancy in such office:

(1) Justin T. Watson, First Deputy Comptroller of the Currency.
(2) Thomas G. DeShazo, Deputy Comptroller of the Currency.
(3) David C. Motter, Deputy Comptroller of the Currency.
(4) John D. Gwin, Deputy Comptroller of the Currency.
(5) Robert Bloom, Chief Counsel.
(6) Dean E. Miller, Deputy Comptroller of the Currency.
(7) Kenneth W. Leaf, Chief National Bank Examiner.
(8) William A. Howland, Jr., Deputy Comptroller of the Currency for Administration.
(9) Richard J. Blanchard, Deputy Comptroller of the Currency.
(10) Albert J. Fauistich, Deputy Comptroller of the Currency.
(11) Robert A. Mullin, Deputy Comptroller of the Currency for International Banking.

2. In the event of an enemy attack on the continental United States, all Regional Administrators of National Banks, including any Acting Regional Administrators, are authorized in their respective regions to perform any function of the Comptroller of the Currency, or the Secretary of the Treasury, whether or not otherwise delegated, which is essential to the carrying out of responsibilities otherwise assigned to them. The respective officers will be notified when they are to cease exercising the authority delegated in this paragraph.

3. Delegation Order No. 14 is hereby repealed.

Dated: August 6, 1973.

[SEAL] JAMES E. SMITH,
Comptroller of the Currency.

[FR Doc.73–16670 Filed 8–10–73;8:45 am]

[Order No. 150–82]

COMMISSIONER OF INTERNAL REVENUE

Delegation of Authority To Perform Price Stabilization Functions

Pursuant to the authority vested in me as Secretary of the Treasury, including the authority in Reorganization Plan No. 26 of 1950, and the delegation of authority to me as Secretary of the Treasury by Cost of Living Council Order No. 37, it is ordered that:

1. The authority to perform all functions delegated to me by Cost of Living Council Order No. 37, is hereby redelegated to the Commissioner of Internal Revenue. This authority is to be exercised subject to the policy guidance and discretion of the Director of the Cost of Living Council.

2. The Commissioner may redelegate this authority to any official of the Internal Revenue Service.

This Order shall become effective upon issuance.

Dated: August 9, 1973.

Issued: August 13, 1973.

[SEAL] GEORGE P. SHULTZ,
Secretary of the Treasury.

DEPARTMENT OF DEFENSE

Office of the Secretary of Defense

ADVISORY GROUP ON ELECTRON DEVICES

Notice of Meeting

The Department of Defense Advisory Group on Electron Devices (Working Group or Microwave Devices) will meet in closed session at 201 Varick Street, New York, New York 10014, 17 August 1973.

The purpose of the DoD Advisory Group on Electron Devices is to provide the Director of Defense Research and Engineering and the Military Departments with advice and recommendations on the conduct of economical and effective Research and Development programs in the field of electron devices, e.g., lasers, radar tubes, transistors, infrared sensors, etc. The group is also the vehicle for interservice coordination of planned R&D efforts.

In accordance with Public Law 92–463, section 10d, the Director of Defense Research and Engineering has determined, on 28 February 1973, that the meetings of the Advisory Group are matters which fall within policies analogous to those recognized in section 552(b) of title 5 of the United States Code and that the public interest requires such activities to be withheld from disclosure insofar as the requirements of subsection (a)(1) and subsection (b) of section 10, Public Law 92–463 are concerned.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD (Comptroller).

Drug Enforcement Administration

MANUFACTURER OF METHADONE INTERMEDIATE

Notice of Withdrawal of Application

On July 6, 1973, the Drug Enforcement Administration published a Notice of Application in the FEDERAL REGISTER (38 FR 18046–50) stating that the Monsanto Research Corporation, Dayton, Ohio, had submitted an application for registration as a bulk manufacturer of Methadone Intermediate, a basic class controlled substance listed in Schedule II.

All persons registered to manufacture the basic class in bulk were afforded an opportunity to file written comments on or objections to the issuance of the proposed registration on or before August 15, 1973.

On July 30, 1973, the Monsanto Research Corporation advised the Drug Enforcement Administration that it was withdrawing its application for registration as a bulk manufacturer. The application having been withdrawn, all proceedings relating to application have been terminated.

Dated: August 7, 1973.

JOHN R. BARTELS, Jr.,
Acting Administrator,
Drug Enforcement Administration.

PACIFIC NORTHWEST REGIONAL ADVISORY COMMITTEE

Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Pacific Northwest Regional Advisory Committee will be held at 9:00 a.m. on Wednesday, August 29, 1973, in the Diablo Community Building, Diablo, Washington.

The Committee was established by Public Law 91–383 to provide for the free exchange of ideas between the National Park Service and the public and to facilitate the solicitation of advice or other counsel from members of the public on programs and problems pertinent to the Pacific Northwest Region of the National Park Service.

The members of the Committee are as follows:

Mr. Earl J. Davenport, Olympia, Washington (Chairman); Dr. Robert L. Whitner, Walla Walla, Washington (Secretary); Mr. Leo V. Bodine, Boise, Idaho; Mr. J. Allen Jensen, Idaho Falls, Idaho; Mr. Roger Mellem, Eugene, Oregon; Dr. Richard M. Noyes, Eugene, Oregon; Mr. Wesley A. Phillips, Jr., Seattle, Washington; Mr. John C. Sackett, Fairbanks, Alaska; Honorable Lowell Thomas, Jr., Anchorage, Alaska.

The matters to be discussed at this meeting include new permit systems for backcountry use in Mount Rainier and North Cascades National Parks, reservation systems for campgrounds, environmental impact statements, the McKinley Park Hotel replacement, new area proposals in Alaska, and the status of study proposals for Thousand Springs, Hagerman Pliocene Fauna Preserve, City of Rocks, and Sawtooths in Idaho.

The meeting will be open to the public. Any person may file with the Committee a written statement concerning the matters to be discussed.

Persons desiring further information concerning this meeting or who wish to file written statements may contact Glenn D. Gallison, Acting Assistant Regional Director, Cooperative Activities, Pacific Northwest Region, National Park Service, at (206) 442–5962. Minutes of the meeting will be available for public inspection three weeks after the meeting at the Pacific Northwest Regional Office, Fourth and Pike Building, Seattle, Washington.

Dated July 31, 1973.

STANLY W. HULETT,
Associate Director,
National Park Service.

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

[Docket No. SH–313–R01]

MAINLAND CANE SUGAR AREA

Notice of Reopening of Hearing on Proportionate Shares for 1974-Crop Sugarcane

Pursuant to the authority contained in section 302 of the Sugar Act of 1948, as amended (7 U.S.C. 1132), notice is hereby given that the Secretary of Agriculture will reopen the public hearing on proportionate shares (farm acreage allotments) for the 1974 crop of Mainland sugarcane.

The reopened hearing will be conducted at West Palm Beach, Florida, on August 24, 1973 in the Ramada Inn, 1800 Palm Beach Lakes Boulevard, beginning at 9:30 a.m. local time.

On July 13, 1973, subsequent to the informal public hearing held last April in Atlanta, Georgia, the Department of Agriculture announced that farm proportionate shares would not be established for the 1974 crop of sugarcane in the Mainland Cane Sugar Area (Florida and Louisiana). That action removed the acreage controls that have been in effect each year since 1965, and gives the area the opportunity to increase its sugar production to a level sufficient to meet its annual quota and provide a normal carryover inventory.

Subsequent to the announcement of an unrestricted 1974-crop proportionate share program, several independent producers in Florida expressed concern that the processor-producer with whom they have customarily marketed their sugarcane will now significantly expand his own acreage and at the same time not afford the independent growers an opportunity to increase their acreage. The independent producers requested that the Department afford them protection under the "small producer" provision of the Sugar Act.

That provision is found in section 302 (b) of the act and reads as follows:

• • • (5) Whether farm proportionate shares are or are not determined, the Secretary shall, insofar as practicable, protect the interests of new producers and small producers and the interest of producers who are cash tenants, share tenants, adherent planters, or sharecroppers and of the producers whose past production has been adversely, seriously, and generally affected by drought, storm, flood, freeze, disease, insects, or other similar abnormal and uncontrollable conditions.

The independent growers believe that the Department should amend the 1974 Mainland cane area proportionate share regulation to protect small and independent producers. One manner suggested would be patterned after the protection concept applicable to the Hawaiian sugarcane program. To protect the interests of small producers in Hawaii, the proportionate share regulation, which has been in effect since 1955, establishes proportionate shares subject to practicable conditions for maintaining an equitable production relationship between the farm of the processor-producer and the farms of small producers in the mill area. In other words, the proportionate share for any farm is established at the actual level of production, except that the establishment of the proportionate share for the farm of a processor-producer is subject to conditions designed to maintain the pro rata relationship in the acreage under cultivation to sugarcane between the processor-producer and the small producers in the event of an adjustment in production. There are also provisions permitting modification of the conditions set forth in the Hawaiian proportionate share regulation in cases that arise which are beyond the control of the processor-producer.

The Department believes that another informal public hearing should be held to afford all interested persons an opportunity to present, for consideration by the Secretary, evidence on whether there is sufficient justification for establishing provisions in the Determination of Proportionate Shares for the Mainland Cane Sugar Area to protect the interests of independent sugarcane producers so that they may increase their acreage proportionately with that of the processor-producer. The record and the hearing (identified as Docket No. SH–313–R01) will be reopened for that purpose. The scope of the reopened hearing will be limited to the presentation of evidence on that issue relative and pertinent to the proportionate share program for the 1974 crop of Mainland sugarcane.

To obtain the best possible information, all interested persons are requested to appear at the hearing to express their views, preferably supported in writing by an original and three copies of their oral statement, and to present appropriate evidence in regard to the foregoing matter. Statements may also be submitted in writing (original and two copies) at the hearing without an oral presentation, or they may be mailed to the Director, Sugar

Forest Service

ANTHONY LAKES RECREATION AREA

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Anthony Lakes Recreation Area USDA–FS–FES–(Adm)–73–60.

The environmental statement concerns a proposed management plan for the Anthony Lakes Recreation Area that will provide quality year-long recreation experiences in a scenic, high elevation setting. Specific features include: (a) relocation of recreation activities and development of facilities away from the shoreline of Anthony Lake, (b) relocation and improvement of existing resort facilities, and (c) expansion of the adjacent Anthony Lake Ski Area.

This final environmental statement was filed with CEQ on August 1, 1973.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3230
12th St. & Independence Ave., S.W.
Washington, D.C. 20250

USDA, Forest Service
Pacific Northwest Region
319 S.W. Pine Street
Portland, Oregon 97204

Wallowa-Whitman National Forest
Federal Building
Baker, Oregon 97814

A limited number of single copies are available upon request to Regional Forester T. A. Schlapfer, Pacific Northwest Region, P.O. Box 3623, Portland, Oregon 97208.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia, 22151. Please refer to the name and number of the environmental statement above when ordering.

Copies of the environmental statement have been sent to various Federal, state and local agencies as outlined in the CEQ guidelines.

PHILIP L. THORNTON,
Deputy Chief, Forest Service.

AUGUST 7, 1973.

MULTIPLE USE PLAN PLEASANT VALLEY PLANNING UNIT

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for Multiple Use Plan Pleasant Valley Planning Unit, Forest Service report number USDA–FS–DES (Adm) 73–93.

The environmental statement concerns a proposed implementation of a revised multiple use plan for the Pleasant Valley Planning Unit, Fisher River Ranger District, Kootenai National Forest and located in Lincoln County, Montana. The proposal affects approximately 41,000 acres of National Forest lands which have been stratified into six management situations or units with similar resource implications.

This draft environmental statement was filed with CEQ on August 3, 1973.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3230
12th St. & Independence Ave., S.W.
Washington, D.C. 20250
USDA, Forest Service
Northern Region
Federal Building
Missoula, Montana 59801
USDA, Forest Service
Kootenai National Forest
418 Mineral Avenue
Libby, Montana 59923

A limited number of single copies are available upon request to Acting Forest Supervisor, Robert W. Damon, Kootenai National Forest, 418 Mineral Avenue, Box AS, Libby, Montana 59923.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151. Please refer to the name and number of the environmental statement above when ordering.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Acting Forest Supervisor Robert W. Damon, Kootenai National Forest, 418 Mineral Avenue, Box AS, Libby, Montana 59923. Comments must be received by 9/16/73 in order to be considered in the preparation of the final environmental statement.

PHILIP L. THORNTON,
Deputy Chief, Forest Service.

Food and Drug Administration

ADVISORY COMMITTEES

Notice of Meetings

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Public Law 92–463, 86 Stat. 770–776), the Food and Drug Administration announces the following public advisory committee meetings and other required information in accordance with provisions set forth in section 10(a) (1) and (2) of the act:

Committee name	Date, time, place	Type of meeting and contact person
1. Panel on Review of Viral Vaccines and Rickettsial Vaccines.	Aug. 30 and 31, 9 a.m., Room 115, Bldg. 29, National Institutes of Health, 9000 Rockville Pike, Bethesda, Md.	Open Aug. 30, 9 a.m. to 11 a.m., closed Aug. 30 after 11 a.m., closed Aug. 31. Jack Gertzog (BI–5), 5600 Fishers Lane, Rockville, Md. 20852, 301–496–1676.

Purpose. Reviews and evaluates available data concerning the safety, effectiveness, and adequacy of labeling of currently marketed biological products consisting of live, attenuated virus, inactivated virus, or killed inactivated rickettsial microorganisms.

Agenda. Continuing review of viral vaccines and rickettsial vaccines under investigation.

Committee name	Date, time, place	Type of meeting and contact person
2. Diagnostic Products Advisory Committee Statistics Subcommittee.	Aug. 30 and 31, 9 a.m., Conference Room K, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open Aug. 30, 9 a.m. to 10 a.m., closed Aug. 30 after 10 a.m., closed Aug. 31. Eloise Eavenson, Ph.D., Room 16B–33, 5600 Fishers Lane, Rockville, Md. 20852, 301–443–4590.

Purpose. Reviews and evaluates information pertaining to performance standards for selected diagnostic products, evaluates and recommends appropriate reference methodologies and standards of precision and accuracy for measuring such products, and recommends priorities on presently marketed products for standard setting by FDA.

Agenda. Preliminary meeting to develop statements of performance requirements and appropriate statistical testing procedures for product class standard. Review data for glucose product class standard.

Agenda items are subject to change as priorities dictate.

During the open session shown above, interested persons may present relevant information or views orally to any committee for its consideration. Information or views submitted to any committee in writing before or during a meeting shall also be considered by the committee.

A list of committee members and summary minutes of meetings may be obtained from the contact person for the committee both for meetings open to the public and those meetings closed to the public in accordance with section 10(d) of the Federal Advisory Committee Act.

Most Food and Drug Administration advisory committees are created to advise the Commissioner of Food and Drugs on pending regulatory matters. Recommendations made by the committees on these matters are intended to result in action under the Federal Food, Drug, and Cosmetic Act, and these committees thus necessarily participate with the Commissioner in exercising his law enforcement responsibilities.

The Freedom of Information Act recognized that the premature disclosure of regulatory plans, or indeed internal discussions of alternative regulatory approaches to a specific problem, could have adverse effects upon both public and private interests. Congress recognized that such plans, even when finalized, may not be made fully available in advance of the effective date without damage to such interests, and therefore provided that this type of discussion would remain confidential. Thus, law enforcement activities have long been recognized as a legitimate subject for confidential consideration.

These committees often must consider trade secrets and other confidential information submitted by particular manufacturers which the Food and Drug Administration by law may not disclose, and which Congress has included within the exemptions from the Freedom of Information Act. Such information includes safety and effectiveness information, product formulation, and manufacturing methods and procedures, all of which are of substantial competitive importance.

In addition, to operate most effectively, the evaluation of specific drug or device products requires that members of committees considering such regulatory matters be free to engage in full and frank discussion. Members of committees have frequently agreed to serve and to provide their most candid advice on the understanding that the discussion would be private in nature. Many experts would be unwilling to engage in candid public discussion advocating regulatory action against a specific product. If the committees were not to engage in the deliberative portions of their work on a confidential basis, the consequent loss of frank and full discussion among committee members would severely hamper the value of these committees.

The Food and Drug Administration is relying heavily on the use of outside experts to assist in regulatory decisions. The Agency's regulatory actions uniquely affect the health and safety of every citizen, and it is imperative that the best advice be made available to it on a continuing basis in order that it may most effectively carry out its mission.

A determination to close part of an advisory committee meeting does not mean that the public should not have ready access to these advisory committees considering regulatory issues. A determination to close the meeting is subject to the following conditions: First, any interested person may submit written data or information to any committee, for its consideration. This information will be accepted and will be considered by the committee. Second, a portion of every committee meeting will be open to the public, so that interested persons may present any relevant information or views orally to the committee. The period for open discussion will be designated in any announcement of a committee meeting. Third, only the deliberative portion of a committee meeting, and the portion dealing with trade secret and confidential information, will be closed to the public. The portion of any meeting during which non-confidential information is made available to the committee will be open for public participation. Fourth, after the committee makes its recommendations and the Commissioner either accepts or rejects them, the public and the individuals affected by the regulatory decision involved will have an opportunity to express their views on the decision. If the decision results in promulgation of a regulation, for example, the proposed regulation will be published for public comment. Closing a committee meeting for deliberations on regulatory matters will therefore in no way preclude public access to the committee itself or full public comment with respect to the decisions made based upon the committee's recommendation.

The Commissioner has been delegated the authority under section 10(d) of the Federal Advisory Committee Act to issue a determination in writing, containing the reasons therefor, that any advisory committee meeting is concerned with matters listed in 5 U.S.C. 552(b) which contains the exemptions from the public disclosure requirements of the Freedom of Information Act. Pursuant to this authority, the Commissioner hereby determines, for the reasons set out above, that the portions of the advisory committee meetings designated in this notice as closed to the public involve discussion of existing documents falling within one of the exemptions set forth in 5 U.S.C. 552(b), or matters that, if in writing, would fall within 5 U.S.C. 552(b), and that it is essential to close such portions of such meetings to protect the free exchange of internal views and to avoid undue interference with Agency and committee operations. This determination shall apply only to the designated portions of such meetings which relate to trade secrets and confidential information or to committee deliberations.

Dated: August 6, 1973.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[DESI 9411; Docket No. FDC–D–576; NDA No. 9–411 etc.]

PREPARATIONS CONTAINING MECLIZINE HYDROCHLORIDE AND PYRIDOXINE HYDROCHLORIDE

Notice of Withdrawal of Approval of New Drug Applications

A notice was published in the FEDERAL REGISTER of March 1, 1973 (38 FR 5494), extending to Pfizer Laboratories Division, Pfizer, Inc., 235 East 42nd Street, New York, NY 10017 and any interested person an opportunity for hearing on the proposal of the Commissioner of Food and Drugs to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act withdrawing approval of NDA 9–411 for Bonadoxin Tablets and NDA 10–095 for Bonadoxin Drops, both containing meclizine hydrochloride and pyridoxine hydrochloride. The basis of the proposed action was the lack of substantial evidence that these drugs are effective for their labeled indications. The drugs are no longer marketed.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug applications reviewed and are subject to this notice. See 21 CFR 130.40

V 38-155 AUG 13 73 XUM

(37 F.R. 23185, October 21, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, Maryland 20852.

Neither the holder of the applications nor any other person filed a written appearance of election within the 30 days provided by said notice. The failure to file such an appearance constitutes election by such persons not to avail themselves of an opportunity for hearing.

The Commissioner of Food and Drugs, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended; 21 U.S.C. 355) and the Administrative Procedure Act (5 U.S.C. 554), and under the authority delegated to him (21 CFR 2.120), finds that on the basis of new information before him with regard to the drugs, evaluated together with the evidence available to him when the applications were approved, there is a lack of substantial evidence that the drugs will have the effect they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in the labeling thereof.

Therefore, pursuant to the foregoing finding, approval of new drug applications Nos. 9-411 and 10-095 and all amendments and supplements thereto are withdrawn.

Shipment in interstate commerce of the above-listed drug products or of any identical, related, or similar products, not the subject of an approved new drug application, is henceforth unlawful.

Effective date. This order shall become effective on August 23, 1973.

Dated: August 6, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc 73-16653 Filed 8-10-73;8:45 am]

[Docket No. FDC-D-636; NADA No. 13-091V]

VINELAND EGG DIP FORMULA 112

Notice of Withdrawal of Approval of New Animal Drug Application

In the FEDERAL REGISTER of June 27, 1973 (38 FR 16926), the Commissioner of Food and Drugs published a notice proposing to withdraw approval of new animal drug application (NADA) No. 13-091V for Vineland Egg Dip Formula 112 (a product which contains erythromycin thiocyanate and riboflavin-5'-phosphate sodium); marketed by Vineland Laboratories, Inc., a Subsidiary of Damon, 2285 East Landis Avenue, Vineland, N.J. 08360.

Vineland Laboratories, Inc. (the successor to Vineland Poultry Laboratories) advised the Commissioner that they do not wish to avail themselves of the opportunity for a hearing.

Therefore, based on the grounds set forth in said notice of opportunity for a hearing, the Commissioner concludes that approval of said NADA should be withdrawn. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-351; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120), approval of NADA No. 13-091V, including all amendments and supplements thereto, is hereby withdrawn effective on August 23, 1973.

Dated: August 3, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

Office of the Secretary

COMMISSIONER OF WELFARE (SPECIAL ASSISTANT TO THE SECRETARY)

Change of Title

Part 1 of the statement of organization, functions, and delegations of authority of the Department of Health, Education, and Welfare is amended to change the title of the special Assistant to the Secretary for Welfare to Commissioner of Welfare (Special Assistant to the Secretary) in Chapter 1A30 (38 FR 15988, 6/19/73). There is no change in the functions. The revised chapter reads as follows:

1A30.10 Organization. The Commissioner of Welfare (Special Assistant to the Secretary) reports directly to the Secretary.

1A30.20 Functions. A. Serves as the Secretary's principal advisor on welfare policy, and administration.

B. Serves as the Secretary's personal representative with State Governors on all welfare matters.

C. Provides recommendations to the Secretary on legislative or regulatory changes to improve the management of State-administered welfare programs.

D. Works with top-level State and local officials to identify major problems in welfare policy and in the administration and management of a State's program of aid to families with dependent children.

E. Serves as the Secretary's advocate for State welfare reforms, by providing guidance and technical assistance to States to encourage the adoption of improvements which solve the problems identified in D above.

F. Works with top-level State officials to develop and implement demonstration projects which examine various approaches to improved management of AFDC programs.

G. Working closely with the project manager for H.R. 1 implementation, carries out the following tasks with regard to the supplementary security income program:

1. Serves as the Secretary's personal liaison with Governors on SSI implementation.

2. Works with SSA and SRS to insure a unified departmental approach to States during the State-to-Federal conversion process.

3. Working with SSA, provides onsite technical assistance to resolve major Federal/State differences in areas such as contracts for State supplementation and records conversion.

Dated August 7, 1973.

THOMAS S. MCFEE,
Acting Assistant Secretary for Administration and Management.

NATIONAL PROFESSIONAL STANDARDS REVIEW COUNCIL

Notice of Meeting

The National Professional Standards Review Council, which was established to advise the Secretary of the Department of Health, Education and Welfare on the administration of professional standards review (Title XI, Part B, Social Security Act), will meet on Monday and Tuesday, August 27-28, 1973. Monday, August 27 the Council will meet from 9:00-5:00 and Tuesday, August 28 from 9:00-1:00 at the Parklawn Building, 5600 Fishers Lane, 3rd Floor, Conference Room G-H, Rockville, Maryland. Professional standards review is the procedure to assure that the services for which payment may be made under the Social Security Act are medically necessary and conform to appropriate professional standards for the provision of quality health care. The Council's agenda will include reports from the Subcommittees on Data and Norms, Evaluation and Policy Development. The Council will be briefed on developments at the National and Regional level in the implementation of professional standards review since the last meeting. The meeting is open to the public.

Dated: August 2, 1973.

WILLIAM I. BAUER, M.D.,
Executive Secretary, National Professional Standards Review Council.

[FR Doc.73-16660 Filed 8-10-73;8:45 am]

NATIONAL PROFESSIONAL STANDARDS REVIEW COUNCIL SUBCOMMITTEE ON POLICY DEVELOPMENT

Notice of Meeting

The National Professional Standards Review Council Subcommittee on Policy Development will meet on Wednesday, August 15. This Subcommittee was formed to review issues of importance in the implementation of Title XI, Part B, Social Security Act with respect to the policy ramifications of the PSRO program. The meeting will be held from 9:00 a.m. to 4:00 p.m. at the Hilton Inn, St. Louis, Missouri. Professional standards review is the procedure to assure that the services for which payment may be made under the Social Security Act are medically necessary and conform to appropriate professional standards for the provision of quality care. The Subcommittee's agenda will consist of a discussion of issues bearing on the designation of PSRO areas and consideration of a work plan for future subcommittee attention. The meeting is open to the public.

Dated: August 7, 1973.

WILLIAM I. BAUER,
Executive Secretary, National Professional Standards Review Council.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. D-73-248]

COMMUNITY DEVELOPMENT CORPORATION

Designation of Authority

Clifford W. Graves and Edward M. Lamont are authorized to exercise the authority of the General Manager to carry out the executive management of the Community Development Corporation as provided in its bylaws during the absence of the General Manager.

Supersedure. Previous delegations of authority dated February 15, 1972 and published in the FEDERAL REGISTER on July 21, 1972 (37 FR 14651) and February 16, 1972 published in the FEDERAL REGISTER on May 6, 1972 (37 FR 9251) to act on behalf of the General Manager are superseded as of the effective date of this designation.

(Secs. 726, 729 Title VII of the Housing and Urban Development Act of 1970, 42 U.S.C. 4501 et seq.; Bylaws of Community Development Corporation, 37 FR 10665, May 26, 1972)

Effective date. This designation is effective as of July 1, 1973.

JAMES T. LYNN,
Secretary, Department of Housing and Urban Development; Chairman, Community Development Corporation.

[Docket No. D-73-247]

REGIONAL COUNSELS

Amendment to Redelegation of Authority

The Department is amending the redelegation of authority to Regional Counsels with respect to tort claims issued November 29, 1972 (37 FR 25251). This amendment would permit claims filed by, or on behalf of, a HUD employee if the claim is for property damage resulting from a tortious action or omission of another Department employee acting within the scope of his employment.

Accordingly, paragraph 3 of the redelegation of authority cited above is revised to read as follows:

3. The claim if filed by, or on behalf of, a HUD employee is solely for property damage resulting from the wrongful or negligent act or omission of another HUD employee while acting within the scope of his employment.

(Sec. 7(d), Department of HUD Act, 42 U.S.C. 3535(d))

Effective date. This redelegation of authority is effective August 7, 1973.

JAMES L. MITCHELL,
General Counsel.

Federal Disaster Assistance Administration

[Docket No. NFD-120]

NEW JERSEY

Notice of Major Disaster and Related Determinations

Pursuant to the authority vested in the Secretary of Housing and Urban Development by the President under Executive Order 11725 of June 27, 1973; and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-73-238; and by virtue of the Act of December 31, 1970, entitled "Disaster Relief Act of 1970" (84 Stat. 1744), as amended by Public Law 92-209 (85 Stat. 742); notice is hereby given that on August 7, 1973, the President declared a major disaster as follows:

I have determined that the damage in certain areas of the State of New Jersey resulting from severe storms and flooding, beginning about August 1, 1973, is of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 91-606. I therefore declare that such a major disaster exists in the State of New Jersey. You are to determine the specific areas within the State eligible for Federal assistance under this declaration.

Notice is hereby given that pursuant to the authority vested in the Secretary of Housing and Urban Development under Executive Order 11725, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-73-238, to administer the Disaster Relief Act of 1970 (Public Law 91-606, as amended), I hereby appoint Mr. Thomas R. Casey, HUD Region 2, to act as the Federal Coordinating Officer to perform the duties specified by Section 201 of that Act for this disaster.

I do hereby determine the following areas in the State of New Jersey to have been adversely affected by this declared major disaster:

The Counties of:

Essex	Somerset
Middlesex	Union

This disaster has been designated as FDAA-402-DR.

Dated: August 7, 1973.

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

CIVIL AERONAUTICS BOARD

[Docket 25280]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Relating to Specific Commodity Rates

AUGUST 3, 1973.

An agreement [1] has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers and other carriers, embodied in the resolutions of Traffic Conference 1 of the International Air Transport Association (IATA). The agreement, which was adopted at the 34th meeting of the TC1 Specific Commodity Rates Board held in Mexico City on May 17, 1973, has been assigned the above C.A.B. agreement number.

The agreement proposes revisions to the specific commodity rate structure applicable within the Western Hemisphere. These revisions, insofar as they would affect air transportation, are outlined in the attachments hereto, and reflect both reductions and increases from the presently applicable rates.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14, it is not found that the subject agreement is adverse to the public interest or in violation of the Act, provided that approval is subject to the conditions hereinafter ordered.

Accordingly, *It is ordered,* That:

1. Agreement C.A.B. 23732 be and hereby is approved, provided that ap-

[1] Filed as part of original document.

V 38 - 155 AUG 13 73 XUM

proval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publication; and

2. The U.S.- and foreign-flag carriers may file tariffs implementing this agreement on not less than one day's notice for effectiveness not earlier than August 13, 1973.

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

JAMES L. DEEGAN,
Chief, Passenger and Cargo Rates Division, Bureau of Economics.

[SEAL] PHYLLIS T. KAYLOR,
Acting Secretary.

[FR Doc.73-16746 Filed 8-10-73;8:45 am]

DEFENSE SUPPLY AGENCY

DEFENSE CONTRACT ADMINISTRATION SERVICES

Notice of Proposed Cancellation of Contracts

The following letter is published in accordance with the requirements of 41 CFR 60-1.26(b)(2)(i) and (ii):

DCAS-VO
MR. L. M. PEARCE, JR., *President,*
Waukesha-Pearce Industries, Inc.,
12320 South Main Street,
Houston, Texas 77035.

DEAR MR. PEARCE: On 13 February 1973 an onsite Equal Employment Opportunity compliance review was initiated at Waukesha-Pearce Industries, Incorporated, Houston, Texas to determine its compliance posture under provisions of Executive Order (EO) 11246 as amended by EO 11375 and Department of Labor Rules and Regulations, 41 Code of Federal Regulations (CFR), Chapter 60.

At that time the Executive Vice President of your company stated that no Affirmative Action Program (AAP) had been developed for the Houston facility or for any of 18 other facilities in Texas, Louisiana, New Mexico and Oklahoma. Failure to develop an AAP for each facility places the company in noncompliance with EO 11246 as amended by EO 11375 and 41 CFR Part 60.

The status of noncompliance was brought to your attention by a letter from the Commander, Defense Contract Administration Services Region (DCASR), Dallas under date of 15 February 1973 wherein you were given 30 days from date of receipt of the letter to show cause why enforcement proceedings under Section 209(b) EO 11246, as amended, should not be instituted. On 2 March 1973 the DCASR, Dallas offered your company technical assistance in the development of the required AAP's but the offer was rejected.

In view of your continuing noncompliance you are hereby notified of proposed cancellation or termination of existing U.S. Government contracts or subcontracts, if any, and debarment from future contracts and subcontracts with the U.S. Government. This action is pursuant to EO 11246 and 41 CFR Part 60-1.

Waukesha-Pearce Industries, Incorporated may, within 14 days after receipt of this notice, request a formal hearing, in accordance with 41 CFR 1.26 and the Department of Defense Directive No. 1100.11, copy enclosed,[1] issued pursuant to Section 201 of EO 11246.

Sincerely,

WALLACE H. ROBINSON, JR.,
Lieutenant General, USMC
Director.

[FR Doc.73-16705 Filed 8-10-73;8:45 am]

ENVIRONMENTAL PROTECTION AGENCY

COMPLIANCE SCHEDULES: WEST VIRGINIA

Approval of Public Hearing Procedure

On December 9, 1972 (37 FR 26310), the Administrator amended 40 CFR Part 51 to clarify requirements relative to compliance schedules adopted as part of State implementation plans under Section 110 of the Clean Air Act, as amended (42 U.S.C. 1857c-5). Included in these revisions were requirements related to public hearings. Section 51.4(e) of these requirements specified that, subject to the Administrator's approval, States may use their own procedures to satisfy the public hearing requirements if such procedures carry out the intent of the Clean Air Act for public participation.

On June 1, 1973 and in subsequent letters of clarification on June 8 and June 15, 1973, the West Virginia Air Pollution Control Commission submitted to the EPA Regional Office in Philadelphia a request for approval of State procedures for giving notice of public hearings on compliance schedules. The procedures meet all requirements of § 51.4 with the exception of the 30-day notice. A shorter notice period would enable the West Virginia Air Pollution Control Commission to submit compliance schedules in sufficient time so that the necessity for an EPA promulgation of such schedules on August 15, 1973 might be avoided. Accordingly, West Virginia has proposed that a 20-day notice period be substituted for the normal 30-day requirement to permit the Commission to make any necessary changes in the schedules. This substitution would affect only the hearings dealing with compliance schedules for approximately 150 sources covered by West Virginia's Regulation X.

The Administrator has determined that the West Virginia procedures for notice of public hearings on compliance schedules to be submitted pursuant to 40 CFR 51.15(a)(2), although different from the requirements of 40 CFR 51.4(b), do provide for adequate notice to and permit participation by the public and such procedures are hereby approved. This approval is conditioned upon the requirement that notice under such procedures shall not be less than 20 days prior to the date of any such hearing, and is expressly limited to hearings for compliance schedules for sources subject to West Virginia's Regulation X, §§ 3.01, 3.03, and 3.05. All future submittals of proposed portions of West Virginia's implementation plan must meet the 30-day notice requirement.

Copies of the request for approval are available for public inspection at the U.S. Environmental Protection Agency, Region III Office, 6th and Walnut Streets, Philadelphia, Pennsylvania 19106. This approval is effective August 13, 1973.

Dated: August 3, 1973.

ROBERT W. FRI,
Acting Administrator.

[FR Doc.73-16752 Filed 8-10-73;8:45 am]

E. I. DU PONT DE NEMOURS & CO., INC.

Notice of Filing of Pesticide and Food Additive Petitions

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 408(d)(1), 409(b)(5), 68 Stat. 512, 72 Stat. 1786; 21 U.S.C. 346a(d)(1), 348(b)(5)), notice is given that a petition (PP 3F410) has been filed by E. I. du Pont de Nemours & Co., Inc., Wilmington, DE 19898, proposing establishment of a tolerance (40 CFR Part 180) for combined residues of the fungicide benomyl (methyl 1-(butylcarbamoyl) -2-benzimidazolecarbamate) and its metabolites containing the benzimidazole moiety (calculated as benomyl) in or on the raw agricultural commodity citrus fruit at 10 parts per million (from preharvest and/or postharvest application).

Notice is also given that the same firm has filed a related food additive petition (FAP 3H5033) proposing establishment of a food additive tolerance (21 CFR Part 121) for combined residues of the fungicide and its metabolites containing the benzimidazole moiety (calculated as benomyl) in dried citrus pulp at 50 parts per million resulting from preharvest and/or postharvest application of the fungicide to citrus fruit.

The analytical method proposed in the pesticide petition for determining residues of the fungicide is that of H. L. Pease and R. F. Holt, "Journal of the Association of Official Analytical Chemists", vol. 54, pp. 1399-1402 (1971).

Dated: August 8, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticide Programs.

[FR Doc.73-16747 Filed 8-10-73;8:45 am]

MONSANTO CO.

Notice of Filing of Petition Regarding Pesticide Chemical

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP3F1406) has been filed by Monsanto Co., 800 North Lindbergh Boulevard, St. Louis, MO 63166, proposing establishment of tolerances (40 CFR Part 180) for combined negligible residues of the herbicide alachlor (2-chloro-2',6'-diethyl-*N*-(methoxymethyl) acetanilide) and its metabolites (calculated as 2-chloro-2',6'-diethyl-*N*-(methoxymethyl) acetanilide) in or on the raw agricultural commodities forages of field beans, lima beans, and peas at 0.2 part per million and field beans, green lima beans (determined on green lima beans after removing any pod present when marketed), and peas with pods (determined on peas after removing any pod present when marketed) at 0.1 part per million.

The analytical method proposed in the petition for determining residues of the herbicide and its metabolites is a procedure in which the residue is refluxed in acid to remove the methoxymethyl group followed by cleavage of the anilide. The resulting 2,6-diethylaniline is determined by means of a gas-liquid chromatograph with a flame ionization detector.

Dated: August 8, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticide Programs.

UNION CARBIDE CORP.

Notice of Filing of Petition Regarding Pestcide Chemical

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 3F1414) has been filed by Union Carbide Corp., 1730 Pennsylvania Avenue, NW., Washington, DC 20006, proposing establishment of tolerances (40 CFR Part 180) for combined residues of the insecticide and nematocide aldicarb (2-methyl-2-(methylthio) propionaldehyde O-(methylcarbamoyl) oxime) and its cholinesterase-inhibiting metabolites aldicarb sulfoxide and aldicarb sulfone in or on the raw agricultural commodities potatoes at 1 part per million, peanut hulls at 0.5 part per million, and peanuts at 0.1 part per million.

The analytical methods proposed in the petition for determining combined residues of aldicarb and its cholinesterase-inhibiting metabolites are gas chromatographic procedures using flame-photometric detection.

Dated: August 8, 1973.

HENRY J. KORN,
Deputy Assistant Administrator for Pesticide Programs.

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 660]

COMMON CARRIER SERVICES INFORMATION[1]

Domestic Public Radio Services Applications Accepted for Filing[2]

AUGUST 6, 1973.

Pursuant to §§ 1.227(b)(3) and 21.30(b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cut-off dates are set forth in the alternative—applications will be entitled to consideration with those listed in the appendix if filed by the end of the 60-day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to § 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Acting Secretary.

Correction

9090-C2-MP-73 Illinois Bell Telephone Company. Chicago, Illinois. Correct PN to read a mod to change antenna system at Loc. No. 6 and delete Loc. No. 4 only. All other particulars are to remain as reported on PN No. 653 dated June 18, 1973.

Informative

It appears that the following applications may be mutually exclusive and subject to the Commission's Rules regarding ex parte presentations, by reasons of potential electrical interference.

Massachusetts—Barnstable
Zipcall (KCB890) 6384-C2-P-72
Colgan Communication (New) 5055-C2-P-72

RURAL RADIO SERVICE

60021-C6-P-74 (KZI23) The Pacific Telephone and Telegraph Company. C. P. to change antenna system, change frequency, change points of communication, change power and replace transmitter to operate on 459.550 and 459.475 MHz located at Brooks Island, Richmond Inner Harbor, Richmond, California.

60022-C6-P-74 Penasco Valley Telephone Cooperative, Inc. (New) C. P. for a new rural subscriber station to operate on 157.80 and 157.98 MHz to be located at 11 miles west of U.S. 285 on State Highway 13, Chaves, New Mexico.

60023-C6-ML-74 RCA Alaska Communications, Inc. Modification of License to replace antenna system to operate on 89.1 MHz located at Gartina Highway at Alaska

[1] All applications listed in the appendix are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations and other requirements.

[2] The above alternative cut-off rules apply to those applications listed in the appendix as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio and Local Television Transmission Services (Part 21 of the Rules).

[Docket No. CI74–60]

AMOCO PRODUCTION CO.

Notice of Application

AUGUST 7, 1973.

Take notice that on July 27, 1973, Amoco Production Company (Applicant), P.O. Box 3092, Houston, Texas 77001, filed in Docket No. CI74–60 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to El Paso Natural Gas Company from the Sand Dunes Field, Eddy County, New Mexico, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it intends to commerce the sale of gas within the contemplation of section 157.29 of the Regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for twenty-four months from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell all the gas available to it, estimated to be initially approximately 300 Mcf per day, at 45.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment. Deliveries are estimated to be 600 Mcf per month.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before August 24, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-16731 Filed 8–10–73;8:45 am]

[Rate Schedule Nos. 1, et al.]

ANGELINA CORP., ET AL.

Notice of Rate Change Filings Pursuant to Commission's Opinion No. 639

AUGUST 6, 1973.

Take notice that the producers listed in the Appendix attached hereto have filed proposed increased rates to the applicable area new gas ceiling based on the interpretation of vintaging concepts set forth by the Commission in its Opinion No. 639, issued December 12, 1972.

The information relevant to each of these sales is listed in the Appendix.

Any person desiring to be heard or to make any protest with reference to said filings should on or before August 17, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered

V 38-155 AUG 13 73 XUM

by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

BROWN & McKENZIE, INC.

Notice of Application

AUGUST 7, 1973.

Take notice that on July 30, 1973, Brown & McKenzie, Inc. (Applicant), Three Greenway Plaza East, Suite 1120, Houston, Texas 77046, filed in Docket No. CI74-65 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Texas Gas Transmission Corporation from the Savor Field, St. Landry Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of gas on July 17, 1973, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for one year from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell all the gas from the leases, estimated to be approximately 93,000 Mcf per month, at 45.0 cents per Mcf at 15.025 psia, subject to downward Btu adjustment.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before August 24, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-16730 Filed 8-10-73;8:45 am]

[Docket No. CI74-62]

MORRIS CANNAN

Notice of Application

AUGUST 7, 1973.

Take notice that on July 27, 1973, Morris Cannan (Applicant), 1645 Milam Building, San Antonio, Texas 78205, filed in Docket No. CI74-62 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas interstate commerce to Texas Eastern Transmission Corporation from the Loma Alta Area, McMullen County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that he commenced the sale of gas on July 3, 1973, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for one year from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell up to 1,000 Mcf of gas per day at 35.0 cents per Mcf at 14.65 psia. Deliveries are estimated to be 30,000 Mcf of gas per month.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before August 20, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-16732 Filed 8-10-73;8:45 am]

[Docket No. E-8333]

CENTRAL TELEPHONE & UTILITIES CORP.

Notice of Proposed Changes in Rates and Charges

AUGUST 6, 1973.

Take notice that the Western Power Division of Central Telephone & Utilities Corporation (Central Telephone) on July 26, 1973, tendered for filing two proposed rate schedules, one, Schedule 73-CWH-2, for the REA Cooperative customers of Central Telephone, and the other, Schedule 73-MWH-5, for the Municipal Wholesale customers. The Company proposes that these rate schedules supersede Rate Schedule 68-CWH-2 and 68-MWH-5 and requests that this filing be deemed notice of cancellation of such schedules. The proposed changes, according to Central Telephone's filing, would increase revenues from jurisdictional sales and service after the first year of the new schedules by approximately $494,000 for the Cooperatives and $26,000 for the Municipals based on a volume of sales for the 12 month period ending December 31, 1972.

The proposed rate change is described in the Company's transmittal letter as resulting from extensive negotiations between the Company and its REA Cooperative and Municipal Wholesale customers. The Company states that a basic consideration for agreement was Central Telephone agreeing to forego the right to unilaterally file for increased rates over and above those proposed in the filing before September 26, 1975. According to the Company, the proposed changes differ from the presently effective rate schedules in that Rate Schedules 73-CWH-2 and 73-MWH-5 have been adjusted to produce two-stage increases resulting in a total increase for the Cooperatives and Municipals of 25% and 6% respectively.

Other changes include: a calculation of billing demand based on a ratchet provision; the removal of the non-peak provisions contained in the currently effective Rate Schedule 68-CWH-2; and a restatement of the fuel adjustment clause in the present rate schedules.

The Company states that the rates of return which the new rates will provide, based on the test year ended December 31, 1972, and after reflecting the second stage of the proposed increase, are 6.35% for service to the REA Cooperatives and 6.39% for service to the Municipal Wholesale customers. The proposed rates, according to Central Telephone, will better enable the Company to provide service to its jurisdictional customers. The Company states that copies of the executed contracts or other evidence of agreement between the Company and each customer will be filed as soon as they are available. The proposed effective date is September 26, 1973.

Any person desiring to be heard or to protest said filing should file comments or protests with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such comments or protests should be filed on or before August 24, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken. Copies of this filing are on file with th Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-16713 Filed 8-10-73;8:45 am]

[Docket Nos. E-8308, E-7206]

DETROIT EDISON CO. AND CONSUMERS POWER CO.

Notice of Applications

AUGUST 6, 1973.

Take notice that The Detroit Edison Company (Edison) and Consumers Power Company (Consumers) filed with the Federal Power Commission on June 14, 1973, the following applications: (1) an application by Edison in Docket No. E-8308 for a permit, pursuant to Executive Order No. 10485, dated September 3, 1953, authorizing the construction, operation, maintenance and connection at the international border between the United States and Canada of certain facilities for the transmission of electric energy between the United States and Canada; and (2) a joint application by Edison and Consumers (Applicants) in Docket No. E-7206 for a supplemental order, pursuant to Section 202(e) of the Federal Power Act, authorizing the transmission of electric energy from the United States to Canada by means of certain existing facilities and the above-mentioned proposed facilities.

Edison is incorporated under the laws of the States of Michigan and New York, with its principal place of business at Detroit, Michigan. Consumers is incorporated under the laws of the State of Michigan, with its principal place of business at Jackson, Michigan.

Applicants generate, purchase, transmit, sell and distribute electric energy in Michigan. In general, Edison provides electric service in the southeastern part of Michigan, whereas Consumers serves nearly all other parts of Michigan except its upper (northern) peninsula. The service territories of Applicants are contiguous and their electric systems are interconnected and operated on a coordinated basis. They exchange energy at several points. In addition, the combined electric systems of Applicants interconnect and exchange energy with various neighboring electric systems, including that of The Hydro-Electric Power Commission of Ontario (Ontario Hydro), an agency of the Province of Ontario, Canada, with its principal place of business at Toronto. Applicants' export-import arrangements with Ontario Hydro are provided for in the Interconnection Agreement dated May 23, 1969 (Agreement) among Consumers, Edison and Ontario Hydro, which is on file with the Commission as Edison's Export Rate Schedule FPC No. 13.

Certain electric transmission facilities of Edison and Ontario Hydro are currently connected overhead at three points on the United States-Canadian Border to effectuate transfers of electric energy between Applicants and Ontario Hydro as follows: a 230,000 volt interconnection over the Detroit River near Detroit, Michigan and Windsor, Ontario; a 230,000 volt interconnection over the St. Clair River near Marysville, Michigan and Sarnia, Ontario; and a 345,000 volt interconnection over the St. Clair River near St. Clair, Michigan and Courtright, Ontario. Edison's facilities included in those interconnections are covered by its Permit signed by the Chairman of the Commission on October 12, 1953, as modified by Amendment to Permit signed by said Chairman on September 15, 1972, Docket No. E-6516, which authorized the 230,000 volt facilities, and by its Permit signed by the Acting Chairman of the Commission on March 1, 1966, Docket No. E-7207, which authorized the 345,000 volt facilities. The Commission by order issued October 10, 1972, Docket No. E-7206, authorized Applicants to transmit energy from the United States to Canada for delivery to Ontario Hydro in an amount not in excess of 4,000,000,000 kwh annually at a transmission rate not to exceed 2,200,000 kva by means of Edison's above-mentioned existing 230,000 volt and 345,000 volt facilities.

An additional interconnection at the United States-Canadian Border is now proposed by Edison and Ontario Hydro to maintain the reliability of the exchange of electric service between Applicants and Ontario Hydro. The proposed interconnection will be established by the construction of an overhead 345,000 volt transmission line and related terminal facilities. The proposed transmission line will consist of four sections (two in the United States and two in Canada) and will cross the St. Clair River at a point between St. Clair and Marine City, Michigan, and a point between Courtright and Sombra, Ontario. The permit which Edison has applied for in Docket No. E-8308 would authorize the construction and operation at the international border of one single circuit 345,000 volt transmission line on steel towers with two 2776 MCM acsr conductors per phase, with phase spacing and insulation suitable for future operation at 500,000 volts. The proposed line will extend overhead from a point on the international border a distance of approximately 0.9 miles to a point on the Port Huron and Detroit Railroad located in Michigan, thence southerly along said Railroad's right-of-way a distance of approximately 0.2 miles. In addition, to the above-described proposed facilities, the portion of which to be located at the international border would be covered by the permit sought in Docket No. E-8308, Edison states that it proposes to construct and operate one single circuit 345,000 volt transmission line on double circuit steel towers, with two 1431 MCM acsr conductors per phase, extending overhead from the last mentioned point on the Port Huron and Detroit Railroad a distance of approximately 2.2 miles to Edison's St. Clair Power Plant, together with terminal facilities at said Power Plant consisting of two 3,000 ampere, 345,000 volt circuit

V 38-155 AUG 13 73 XUM

breakers. Ontario Hydro will construct and operate the Canadian portion of the proposed transmission line and terminal facilities.

Applicants do not seek authorization to increase or otherwise change the amount or transmission rate of electric energy which they are currently authorized by the Commission's above-mentioned order of October 10, 1972, Docket No. E-7206, to transmit from the United States to Canada. The supplemental order which Edison and Consumers have applied for in Docket No. E-7206 would authorize them to export energy in an amount not in excess of 4,000,000,000 kwh annually at a transmission rate not to exceed 2,200,000 kva by means of Edison's proposed 345,000 volt transmission line in addition to its existing 230,000 volt and 345,000 volt transmission facilities for delivery to Ontario Hydro.

Applicants indicate that in the event the Commission issues the permit and supplemental order as requested, their transactions with Ontario Hydro, including sales, exchanges, and deliveries of electric energy, will be carried out, as at present in accordance with the terms and conditions and at the rates and charges set forth and included in the Agreement. The joint application recites that the energy "to be exported • • • as proposed herein, like that presently exported, will be utilized by Ontario Hydro to improve the reliability of electric energy supply for its electric system" and that the source of such exported energy "as in the case of the energy currently exported • • • will be applicants' total resources, including energy generated or purchased by them."

The amount of electric energy which Applicants would be authorized to transmit from the United States to Canada by the supplemental order sought in Docket No. E-7206 is, as set forth above, the same as that which Applicants are currently authorized to export. Applicants submitted, as a part of their joint application, an exhibit showing that for the 5 year period ending December 31, 1972, the gross receipts of energy by Applicants from Ontario Hydro exceeded the gross deliveries of energy by Applicants to Ontario Hydro by nearly two billion kilowatt-hours. Applicants represent that deliveries of energy to Ontario Hydro under the supplemental order "will not impair the ability to supply the requirements of accessible United States markets at the time of • • • exportation."

Any person desiring to be heard or to make any protest with reference to said applications should on or before August 27, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The applications are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-16716 Filed 8-10-73;8:45 am]

[Docket No. CI74-67]

LUCIUS C. GEER AND ARTHUR G. MURPHY

Notice of Application

AUGUST 7, 1973.

Take notice that on July 30, 1973, Lucius C. Geer and Arthur G. Murphy (Applicants), Suite 719, C & I Building, Houston, Texas 77002, filed in Docket No. CI74-67 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Texas Gas Transmission Corporation from the Keithville Area, Caddo Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicants state that they commenced the sale of gas on July 9, 1973, within the contemplation of section 157.29 of the Regulations under the Natural Gas Act (18 CFR 157.29), and propose to continue said sales for one year from the end of the sixty-day emergency period within the contemplation of section 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicants propose to sell approximately 500 Mcf of gas per day at 42.0 cents per Mcf at 15.025 psia, subject to downward Btu adjustment.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before August 24, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Project No. 1494]

GRAND RIVER DAM AUTHORITY

Order To Show Cause

Issued August 3, 1973.

It appearing to the Commission that:

(a) During the summer of 1970 a non-project structure, i.e., effluent holding basin, was constructed on project lands under license from the Federal Power Commission to the Grand River Dam Authority, designated as Project No. 1494;

(b) The sewage facility was observed to be in operation during September 1970;

(c) The primary purpose of the pond is to receive treated effluent from a package treatment plant and to serve as a holding pond for untreated sewage in the event the treatment plant becomes inoperative;

(d) This non-project structure was built on the project lands without the approval of or permission by the Federal Power Commission;

(e) The dike built to contain the holding basin has eroded and is allowing leakage from the holding pond into the reservoir;

(f) There has been no Water Quality Certificate obtained covering this structure;

The Commission, on its own Motion, orders that the Grand River Dam Authority shall, under oath, show cause, if any there be, on or before September 5, 1973;

(1) Why the use of the holding basin should not cease and desist pending receipt of a Water Quality Certification under Section 401(a)(1) of the Federal Water Pollution Control Act Amendments of 1972, 33 USC 1341; and

(2) Why the unauthorized non-project structures should not be removed from project land or be rebuilt in accordance with a further Commission order after notice and opportunity for hearing; and

(3) Why the Commission should not issue such other and further order as it may find appropriate, expedient and in the public interest to conserve and utilize the water resources of the region.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.73-16715 Filed 8-10-73;8:45 am]

[Docket No. E-8325]

KANSAS POWER AND LIGHT CO.

Notice of Proposed Changes in Rates and Charges

AUGUST 6, 1973.

Take notice that the Kansas Power and Light Company (KPL) on July 9, 1973, tendered for filing a proposed Renewal Contract (Contract) dated July 2, 1973, to the present contract dated April 16, 1973, and designated KPL Rate Schedule FPC No. 66. The Contract is between KPL and Wathena, Kansas for wholesale electric service to that community and the contract rate will be the only rate available for this class of service. According to KPL's filing, the proposed changes would increase revenues from jurisdictional sales and service by approximately $4,000, based on a comparison of sales for the 12 month periods preceding and succeeding the proposed change. Waiver of the Commission's notice requirements is requested so as to allow for an effective date of July 1, 1973.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 20, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-16709 Filed 8-10-73;8:45 am]

[Docket No. RP72-132]

NATURAL GAS PIPELINE CO. OF AMERICA

Notice of Filing of Revised Tariff Sheets To Implement Settlement Rates Approved by FPC Order Issued July 18, 1973

AUGUST 8, 1973.

Take notice that on July 25, 1973, Natural Gas Pipeline Company of America (Natural) tendered for filing revised tariff sheets which purport to comply with the terms and conditions of Federal Power Commission order issued July 18, 1973, entitled "Order Approving Settlement Agreement with a Condition".

Under the provisions of the approved amended settlement agreement, revised tariff sheets were submitted showing "refund" Base Rates effective for the period December 1, 1972 through August 31, 1973, and "prospective" Base Rates effective September 1, 1973. Further, in compliance with paragraph (D) of the Commission's July 18th order, Natural states the Base Rate level of its amended settlement agreement were reduced to reflect the elimination of Coal Option Payments in the amount of $1,000,000.

On June 15, 1973, Natural filed unit adjustments to the Base Rates to be effective August 1, 1973, to reflect the cost of service effect of Advance Payments for Gas made by June 15, 1973, that were in excess of the amount for such expenditures stipulated in the amended settlement agreement. The unit adjustments to the rates under this filing were computed by assigning the cost of service effect 50% to the Demand Component and 50% to the Commodity Component. In compliance with ordering paragraph (D) of the Commission's order approving the settlement Natural states it recomputed the unit adjustments to be effective August 1, 1973, and revised its Base Rates to reflect the effect of the cost changes solely in the commodity component of the rates. Natural also states that in compliance with the Commission's order any subsequent tracking filings relating to R&D and advance payments will be computed so as to reflect the cost change in the commodity component of the rates.

Natural also submitted a recalculation of its PGA adjustment accepted for filing by the Commission to be effective June 1, 1973. This revision was made to conform the PGA adjustment to reflect unit adjustments calculated on the basis of the Base Average Purchased Gas Cost underlying the approved settlement agreement.

Natural states that copies of this filing were served on Natural's customers and all interested parties to Docket No. RP 72-132.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 20, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-16735 Filed 8-10-73;8:45 am]

[Docket No. CI74-64]

PETROLEUM CORP.

Notice of Application

AUGUST 7, 1973.

Take notice that on July 30, 1973, The Petroleum Corporation (Applicant), 3303 Lee Parkway, Dallas, Texas 75219, filed in Docket No. CI74-64 an application pursuant to Section 7(c) of the Natural Gas Act authorizing the sale for resale and delivery of natural gas in interstate commerce to El Paso Natural Gas Company from the Parkway West Strawn and Atoka Fields, Eddy County, New Mexico, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell for one year up to 5,000 Mcf of gas per day at 52.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment, within the contemplation of Section 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Deliveries are estimated at 5,000 Mcf of gas per month.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before August 24, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the requirements of the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP74-25]

VALLEY GAS TRANSMISSION, INC.

Notice of Application

AUGUST 6, 1973.

Take notice that on July 25, 1973, Valley Gas Transmission, Inc. (Applicant), P.O. Box 1188, Houston, Texas 77001, filed in Docket No. CP74-25 an applica-

V 38-155 AUG 13 73 XUM

tion pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction during the twelve-month period commencing July 1, 1973, and to operate facilities to take into its certificated pipeline system additional natural gas supplies to be purchased from fields in the general area of its existing system, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the purpose of this "budget-type" application is to augment Applicant's ability to act with reasonable dispatch in contracting for and connecting to its pipeline system supplies of natural gas in the various producing areas generally coextensive with said system.

The total cost of the facilities proposed herein will not exceed $250,000, and no single project will exceed $50,000. Applicant proposes to finance these costs from cash on hand or from short-term financing. Applicant requests a waiver of the requirements of § 157.7(b)(1) of the Regulations under the Natural Gas Act (18 CFR 157.7(b)(1)) because, Applicant states, the limitations therein would effectively deny Applicant's ability to connect new gas supplies to its system except on an individual application basis due to the relatively small size of its jurisdictional gas plant.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 27, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI69-756]

WARREN PETROLEUM CO.

Notice of Petition To Amend

AUGUST 6, 1973.

Take notice that on July 19, 1973, Warren Petroleum Company, a Division of Gulf Oil Corporation (Operator) (Petitioner), P.O. Box 1589, Tulsa, Oklahoma 74102, filed in Docket No. CI69-756 a petition to amend the order of the Commission issuing a certificate of public convenience and necessity in said docket pursuant to section 7(c) of the Natural Gas Act by authorizing the sale of certain surplus residue gas from the Vada Processing Plant in Lea County, New Mexico, at a new price to Natural Gas Pipeline Company of America, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner is presently authorized in the subject docket to sell residue gas to Natural from the Vada Plant pursuant to a Gas Purchase Contract dated January 1, 1969, which is on file as Petitioner's FPC Gas Rate Schedule No. 57. Petitioner asserts that since the execution of this contract, the price of gas in the Permian Basin Area has increased to the extent that the rate originally provided in the contract of 14.5 cents per Mcf is no longer competitive with the rate in effect for the sale of residue gas from other plants in the area. Petitioner indicates that it is having only limited success in acquiring additional supplies of natural gas for the Vada Plant due to its inability to offer competitive prices necessary to stimulate either development or purchase of new supplies when they become available. Petitioner also indicates that it is faced with the problem of renewing and extending existing plant supply contracts as they expire in order to maintain the present raw gas supply connected to the Plant. In order for it to compete more effectively for the purchase of gas supplies for the Vada Plant from behind the plant sellers and to negotiate more effectively to extend or renew existing plant supply contracts as they expire, Petitioner states, it has entered into an amendment to the original contract for these sales providing a new, separate and higher pricing schedule for certain residue gas.

Petitioner seeks authorization herein pursuant to this new amendment dated May 15, 1973, to sell at an initial rate of 31.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment, all residue gas that is attributable to raw gas which is purchased under (a) new gas contracts and (b) renewed or extended contracts. The amendment defines new gas contracts as those contracted for after January 1, 1972, for processing in the Vada Plant and gas reserves not dedicated to Petitioner prior to that date, as well as gas produced through completions made after the date of the subject amendment from new reservoirs underlying lands covered by Petitioner's contracts with third parties, which reservoirs qualify for separate reservoir treatment under paragraph (f) of § 2.56 of the Commission's general policy and interpretations (18 CFR 2.56). It also defines renewed or extended contracts as all gas purchased under gas contracts where the primary term of any such contract shall have been extended or renewed for at least ten years from then existing termination date of such contract.

On July 5, 1973, Petitioner filed a notice of independent producer rate change filing based on the new May 15, 1973, amendment submitted herein as a proposed supplement to its FPC Gas Rate Schedule No. 57. Because of the instant certificate filing, Petitioner has requested by a filing received on July 19, 1973, that it be permitted to withdraw the said rate filing.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before August 28, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petitioner to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8326]

WASHINGTON WATER POWER CO.

Notice of Energy Exchange Agreement

AUGUST 6, 1973.

Take notice that on July 20, 1973, Washington Water Power Company (Washington) filed an agreement executed May 25, 1973, with Puget Sound Power and Light Company (Puget).

Washington states that the agreement provides for capacity and energy to be delivered by Puget to Washington for redelivery by Washington to Utah Power and Light Company (Utah) during the period of April 16, 1973–August 31, 1973. In exchange for such capacity and energy, Washington will make energy available to Puget during the period September 16, 1974—April 15, 1975. Such energy shall be made available to Washington by Utah under Service Schedule III, Agreement for Exchange of Power and Energy, dated May 25, 1973, filed by Utah on July 9, 1973, as Supplement No. 4 to Utah's Rate Schedule FPC No. 103. Washington further asserts that as compensation for use of its facilities in effecting deliveries of capacity and energy to Utah, Washington will retain 10% of the energy made available by Utah for delivery to Puget.

Any person desiring to be heard or to protest said filing should file comments or protests with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such comments or protests should be filed on or before August 20, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

ALABAMA BANCORPORATION

Acquisition of Bank

Alabama Bancorporation, Birmingham, Alabama, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 per cent (less directors' qualifying shares) of the voting shares of the successor by merger to Baldwin National Bank of Robertsdale, Robertsdale, Alabama. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than August 30, 1973.

Board of Governors of the Federal Reserve System, August 3, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.73-16695 Filed 8-10-73;8:45 am]

AMERICAN BANCORPORATION, INC.

Proposed Acquisition of Lake City Agency, Inc.

American Bancorporation, Inc., St. Paul, Minnesota has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Lake City Agency, Inc., Lake City, Minnesota. Notice of the application was published on June 7, 1973 in The Lake City Graphic, a newspaper circulated in Lake City Minnesota.

Applicant states that the proposed subsidiary would engage in the activities of a general insurance agency in a community of less than 5,000 persons. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Minnesota.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than August 28, 1973.

Board of Governors of the Federal Reserve System, August 1, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.73-16645 Filed 8-10-73;8:45 am]

AMERICAN BANKCORP, INC.

Acquisition of Bank

American Bankcorp, Inc., Lansing, Michigan, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 per cent of the voting shares of American Bank of Grand Ledge, Grand Ledge, Michigan, a proposed new bank. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank, to be received not later than August 13, 1973.

Board of Governors of the Federal Reserve System, August 3, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

ASSOCIATED BANK CORP.

Acquisition of Bank

Associated Bank Corporation, Davenport, Iowa, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 80 per cent or more of the voting shares of Iowa County Savings Bank, Marengo, Iowa. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than August 28, 1973.

Board of Governors of the Federal Reserve System, August 1, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.73-16646 Filed 8-10-73;8:45 am]

ASSOCIATED BANK CORP.

Proposed Acquisition of Leasing, Inc.

Associated Bank Corporation, Davenport, Iowa, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Leasing, Inc., Des Moines, Iowa. Notice of the application was published on February 27, 1973, in the Arapahoe Herald, a newspaper circulated in Littleton, Colorado; and on February 28, 1973, in The Des Moines Register, a newspaper circulated in Des Moines, Iowa.

Applicant states that the proposed subsidiary would engage in the activities of leasing personal property and equipment or acting as agent, broker, or adviser in leasing of such property. Applicant states that such activities have been specified by the Board in § 225.4(a)(6) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b). A proposal to amend § 225.4(a)(6) of Regulation Y with respect to the leasing activities permissible for bank holding companies (Press Release dated July 31, 1973) is currently under consideration by the Board and, if adopted by the Board, might affect the activities that could be conducted by the proposed subsidiary.

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the

V38-155 AUG 13 73 XUM

reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than August 30, 1973.

Board of Governors of the Federal Reserve System, August 3, 1973.

BANKERS TRUST NEW YORK CORP.

Order Denying Acquisition of Public Loan Company

Bankers Trust New York Corporation, New York, New York, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)), and § 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of Public Loan Company, Inc., Binghamton, New York ("Public Loan"). Public Loan, operating through its subsidiaries, engages in making consumer finance and sales finance loans (including the purchase of retail instalment contracts). Also, through two wholly-owned subsidiaries, Empire Life Insurance Company ("Empire Life") and Commonwealth Life Insurance Company ("Commonwealth Life"), both located in Wilmington, Delaware, Public Loan is engaged in underwriting, as reinsurer, credit life and credit accident and health insurance in connection with loans made to Public Loan's borrowers. Such activities have been determined by the Board to be closely related to banking (12 CFR 225.4(a)(1) and (10)). Thrift Credit Corp., a wholly-owned subsidiary of Public Loan engaged in commercial lending and equipment leasing, will be disposed of prior to the acquisition of Public Loan by Applicant.

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (38 FR 5206). The time for filing comments and views has expired, and the Board has considered all comments received in light of the public interest factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)).

Applicant controls nine banks, with aggregate deposits of $8.0 billion, representing 7.4 per cent of the total deposits in commercial banks in New York State, and is the sixth largest banking organization and bank holding company in the country.[1] Within New York State, Applicant is the fifth largest banking organization. Applicant's lead bank, Bankers Trust Company of New York, has deposits of $7.4 billion and is the seventh largest bank in the United States. In addition to its banking subsidiaries, Applicant's six nonbanking subsidiaries are engaged in mortgage banking, real estate investment trust management, equipment leasing and brokering, small business investing, and extension of credit through use of a credit card.

Public Loan, established in 1933, is a family-held small loan company, with total assets of approximately $72 million and net receivables of $54 million (as of June 30, 1972). Ranked by total capital funds, Public Loan is the 66th largest finance company and 40th largest non-captive finance company in the country. Headquartered in Binghamton, New York, it controls nine wholly-owned subsidiaries, operates 28 small loan offices in New York, 32 in Pennsylvania, and one in New Jersey. Other activities engaged in by Public Loan are the following: Sales financing, engaged in by two subsidiaries, Beacon Discount Company and Public Discount Company, which business is being discontinued; commercial lending and equipment leasing, through another wholly-owned subsidiary, Thrift Credit Corporation, which will be sold or liquidated before Public Loan is acquired; and reinsuring credit life insurance and credit health and accident insurance covering the borrowers of Public Loan. Applicant proposes that Public Loan's activities would be confined to its small loan business with related credit life reinsurance.

A threshold question in the consideration of this application is whether consumer finance companies compete with commercial banks in the area of small loans to individuals. It has been contended that there are principally two factors which reflect an absence of competition between these types of organizations: (1) Different statutory limitations with respect to the size of loan that can be made;[2] and (2) a different clientele being served by each type of organization. Our experience, however, in applying section 4(c)(8) of the Bank Holding Company Act to the many consumer finance applications processed since enactment of the 1970 Amendments leads us to conclude that the acquisition of a consumer finance company by a commercial banking organization may result in the elimination of existing competition in those geographic markets in which both compete.

The statutory lending limit, $1,400 for consumer finance companies in New York State, allows for direct competition between consumer finance companies and commercial banks. The $1,400 limit, however, masks the fact that the actual amount of credit obtained may be higher by a customer borrowing from more than one licensed lender, a practice known as "doubling up". Also, in this instance, a borrower living in the Binghamton area may choose to secure credit in Pennsylvania, as from Public Loan's Montrose office, which has a $3,500 limit. These facts, among others of record, lead us to conclude that finance companies are an alternative credit source for personal loans, as well as loans to finance the purchase of automobiles and home improvements and other loans traditionally made by commercial banks.

The contention that commercial banks serve a different clientele from finance companies is becoming less and less valid as commercial banks place more emphasis on retail banking and seek to attract a greater diversity of customers. There appears to be a substantial class of customers being served by both institutions, consisting of the high-risk margin clientele of commercial banks and the low-risk margin customers in the case of finance companies. A few consumer finance companies, which confine their operations to small loans made to the very high risk sector of the market, would not generally be regarded as competing with commercial banks. Public Loan, however, is not of this category. Its very favorable loan write-off experience shows that Public Loan does not serve the high-risk market, but rather, lends to many of the same clientele as are served by Applicant's banking subsidiaries.

The relevant product markets in which the Board analyzes the competitive aspects of the proposed transaction are: (1) Personal loans of $1,400 or less, and (2) all direct consumer instalment loans, the latter including personal loans and automobile, mobile home, and home improvement and modernization loans.

While applicant and Public Loan compete for consumer loans (which includes both personal loans and consumer instalment loans) in several markets in New York State, where Public Loan is the sixth largest licensed lender as of year-end 1971, the Board is concerned with the consequences resulting from affiliation only in the Binghamton and Jamestown markets. It is only in these markets that the competitive effects are sufficiently serious as to represent an adverse factor weighing against approval of the proposed transaction.

The Binghamton market[3] encompasses the Triple Cities Area of Binghamton, Endicott, and Johnson City. Competing in that market are 33 lending institutions (15 commercial banks, 7 finance companies, and 11 credit unions), including the main office and two branches of Applicant's Binghamton banking subsidiary and six offices of Public Loan. Public Loan's Montrose, Pennsylvania, office is also included in the Binghamton

[1] All banking data are as of December 31, 1972, and reflect bank holding company formations and acquisitions approved by the Board through June 30, 1973. All other data are as of December 31, 1971, unless otherwise indicated.

[2] In New York, Public Loan can make consumer instalment loans up to $1,400; in Pennsylvania, the limitation is $600 under a small loan license or $3,500 under a consumer discount license. Commercial banks in New York State can make instalment loans up to $10,000; in Pennsylvania, up to $5,000. (As of December 31, 1971, commercial banks in New York State were subject to a $5,000 ceiling.)

[3] Approximated by Broome and Tioga Counties plus the Town of Green in Chenango County and the northern half of Susquehanna County in Pennsylvania.

market. In terms of personal loans under $1,400, Public Loan was the largest lender in the market with $5.2 million in loans outstanding and 18.6 per cent of the market; Bankers Trust of Binghamton was the 15th largest, with $327,000 and 1.2 per cent of the market. Upon consummation, Applicant would control 19.8 per cent of the market and be nearly equal in size to the next two largest competitors, both of which are commercial banks. In terms of all direct consumer instalment loans, Public Loan and Bankers Trust of Binghamton are the third and fourth largest competitors in the market (the first two competitors are banks) and hold 7.2 per cent ($5.6 million) and 6.2 per cent ($4.9 million), respectively. If approved, Applicant would be the second largest supplier of such loans in the market.

The second geographic market in which there will result a loss of existing competition is the Jamestown market.[4] Bankers Trust of Jamestown operates its head office and seven branches in this market, while Public Loan has one office, at Lakewood. Public Loan's service area is encompassed by the service area of Bankers Trust of Jamestown. Suppliers of credit in this market also number 33 lending institutions (4 commercial banks, 4 finance companies, and 25 credit unions). With respect to personal loans under $1,400, Public Loan ranked third in the market with 13.9 per cent of market loans ($1.4 million) while Bankers Trust of Jamestown was fourth with 10.1 per cent ($1.0 million). Upon consummation, Applicant would be the largest supplier of funds and would account for 24 per cent of the small personal loan business—nearly 50 per cent more than the next largest competitor in the market. Three of the five largest competitors in this market are commercial banks. With respect to all direct consummer instalment loans outstanding, Bankers Trust's subsidiary is the largest in the market with 19.8 per cent of market loans ($4.7 million); Public Loan ranks fifth with an even 6 per cent ($1.4 million). After consummation, Applicant's banking subsidiary would continue to rank first with nearly 26 per cent of all direct consumer instalment loans. Commercial banks are also heavily represented in this product market as the three largest competitors are of this category.

Because of the elimination of substantial existing competition in both the Binghamton and Jamestown markets, it is the Board's judgment that these competitive consequences are an adverse factor weighing against approval of the proposed transaction. Further, while the consumer finance industry is characterized by ease of entry, the proposed acquisition would solidify the market positions of Applicant and Public Loan in the Binghamton and Jamestown markets. Neither market has shown rapid growth and neither is particularly attractive for *de novo* entry in view of anticipated moderate population growth. In Jamestown, the acquisition would eliminate the only possible vehicle for entry by acquisition because the remaining consumer finance companies are national firms and presumably not interested in being acquired by a potential entrant. Accordingly, approval would serve to foreclose market entry by outside organizations.

Section 4(c)(8) of the Bank Holding Company Act requires the Board to find that the performance by Public Loan as an affiliate of Applicant "can reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests or unsound banking practices." The basic balancing test of section 4(c)(8) requires a showing of positive public benefits that outweigh the adverse effects of the proposed acquisition described above. Applicant must bear the burden of demonstrating that the proposed nonbanking activity will be in the public interest.[5] In seeking to meet this burden, Applicant has claimed that consummation of the proposal would produce the following benefits:

(1) Ready access to funds by Public Loan at competitive rates and with greater assurance of availability;

(2) Replacement of family management by an aggressive corporate management interested in expanding the volume, scope, and character of their services to the public;

(3) Referral of customers for small loans to Public Loan and of those requiring loans in excess of $1,400 to Applicant's banking subsidiaries;

(4) Expansion in types of insurance offered and reduction in the cost of credit insurance offered through Applicant's banking subsidiaries; and

(5) Reduction in cost of credit insurance to customers of Public Loan.

The public benefits claimed by Applicant, in the Board's view, fall short of outweighing the adverse competitive effects which would result from approval of the proposed transaction. Public Loan appears to be of adequate size and financial soundness to obtain necessary financing at competitive rates. Moreover, any difference in the cost of funds to Applicant and to Public Loan would probably not be large enough to have a significant effect on the rates charged to customers of Public Loan. With respect to the management of Public Loan, there is no evidence of record to demonstrate that family management has in any way lessened the ability of the company to grow and prosper.

The proposed referral system cited by Applicant, in practice, may have quite the opposite effect to that expected by the Board when a bank holding company is permitted to acquire a consumer finance company. The Board expects that the acquisition of a consumer finance company by a bank holding company will result in positive benefits to the public such as greater availability of consumer credit and a lowering of the finance rates previously charged by the acquired consumer finance company. The use of referrals may, however, instead of benefitting the public, have the contrary effect of enabling Applicant to divert eligible bank borrowers to Applicant's consumer finance subsidiary.

Applicant proposes upon approval of this application to expand the quality and range of insurance coverage available to customers of its subsidiary banks as well as to reduce rates on credit insurance. The provision of these benefits, however, is not dependent upon consummation of the Public Loan acquisition. Applicant can expand the quality and range of credit insurance presently made available to its customers and at lower premium rates without the affiliation of Public Loan.

A final benefit cited by Applicant results from the underwriting activity of Public Loan, as reinsurer, of credit life and credit accident and health insurance which is directly related to its extensions of credit. Applicant has indicated that the proposed underwriting activities would include underwriting such insurance for its banking subsidiaries as well. Applicant does not presently engage in insurance underwriting activities and the proposed affiliation with Applicant would appear to have no significant effects on competition within the industry.

In adding credit life to the list of permissible activities for bank holding companies, the Board stated that:

> To assure that engaging in the underwriting or credit life and credit accident and health insurance can reasonably be expected to be in the public interest, the Board will only approve applications in which an Applicant demonstrates that approval will benefit the consumer or result in other public benefits. Normally such a showing would be made by a projected reduction in rates or increase in policy benefits due to bank holding company performance of this service. (12 CFR 225.4(a)(10))

Applicant has stated that upon consummation of the proposed acquisition, the rate reductions for accident and health insurance in Pennsylvania, New York, and New Jersey, which have among the lowest rate ceilings in the nation, would range from approximately 3 per cent in Pennsylvania on policies for less than 3 years to 2 per cent in New York and New Jersey. In the credit life in-

[4] Approximated by the southern half of Chautauga County and the southwestern third of Cattaraugus County, in effect, the Jamestown banking market.

[5] The House Conference Report on the 1970 Amendments to the Act (Report No. 91-1747) states at page 19:

"In connection with the overall application of the public benefits test, it is important to emphasize that the bank holding company making application under section 4(c)(8) must bear the burden of proof in showing that its carrying on of a particular nonbank activity would produce benefits to the public that outweigh any adverse effects".

V 38 155 AUG 13 73 XUM

surance area, the rates presently charged will be reduced by Applicant by amounts varying from approximately 1 per cent to 6 per cent in the various states. Additionally, Applicant would waive the suicide clause with respect to policies taken out in Pennsylvania. To the extent such reductions occur and improvements in policy terms occur, the public benefits.

It is the Board's judgment, applying the balancing test under section 4(c)(8) of the Act, that Applicant has failed to meet the burden of demonstrating that benefits to the public would outweigh the adverse effects which would result from approval of the application. For the most part, the benefits cited are not supported by objective facts of record [6] or backed by firm policy commitments on the part of Applicant. Accordingly, since the public interest factors do not outweigh the possible adverse effects, the application is hereby denied.

By order of the Board of Governors,[7] effective August 3, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

FIDELITY AMERICAN BANKSHARES

Acquisition of Bank

Fidelity American Bankshares, Inc., Lynchburg, Virginia, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 per cent or less of the voting shares (less directors' qualifying shares) of Fidelity National Bank, Halifax County, Virginia, a proposed new bank. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Richmond. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than August 30, 1973.

Board of Governors of the Federal Reserve System, August 3, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.73-16699 Filed 8-10-73;8:45 am]

FIRST AMTENN CORP.

Order Approving Acquisition of Bank

First Amtenn Corporation, Nashville, Tennessee, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 80 per cent or more of the voting shares of the First National Bank of Tullahoma, Tullahoma, Tennessee ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received.

Applicant has three existing subsidiaries and two approved subsidiaries with total deposits of $774.5 million.[1] Acquisition of Bank, which has deposits of $17.1 million, will have a nominal effect on Statewide concentration and on Applicant's share of deposits.

Bank is located in and serves the Coffee County banking market. Coffee County is located in south central Tennessee, and Tullahoma is the largest city in the County, with a population of approxtmately 15,000. Applicant's closest subsidiary is First American National Bank, Nashville, Tennessee, lead bank for the holding company. Bank and the lead bank are separated by approximately 72 miles. Applicant's subsidiaries attract a nominal amount of business from Coffee County. Elimination of this limited amount of competition is negligible.

Two directors of Bank also serve as directors of the First National Bank of Manchester, a competing bank in the same market. The two banks together control approximately 50 per cent of the commercial deposits within the market. Applicant has made a commitment to terminate, prior to consummation of the proposal, the existing director interlocks between these banks. Approval of the proposed transaction will, therefore, be procompetitive in that it will encourage independent action by the two institutions and prevent any possibility of joint decision making.

There is no evidence in the record to indicate that the convenience and needs of the community are not being adequately served by the existing institutions. However, Applicant has indicated that it will seek to improve existing services relating to Bank's marketing and advertising programs, personal and corporate trust services, and other internal operations. It is the Board's judgment that convenience and needs factors are consistent with, and lend some weight toward, approval of the application.

Considerations relating to the financial and managerial resources and future prospects of Applicant, its subsidiaries and Bank are regarded as satisfactory and consistent with approval of the application.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[8] effective August 3, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

FIRST BANKSHARES CORP. OF SOUTH CAROLINA

Proposed Retention of August Kohn and Company, Inc.

First Bankshares Corp. of South Carolina, Columbia, South Carolina, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to retain voting shares of August Kohn and Company, Incorporated, Columbia, South Carolina. Notice of the application was published on:

Date	Newspaper	City and State
July 9, 1973	The State	Columbia, South Carolina
July 9, 1973	Anderson Independent	Anderson, South Carolina
July 9, 1973	The Spartanburg Herald	Spartanburg County, South Carolina
July 10, 1973	Greenville Piedmont	Greenville, South Carolina
July 12, 1973	The News and Courier	Charleston, South Carolina

Applicant states that the proposed subsidiary would engage in the activities of general mortgage banking and would act as an agent in the sale of credit life and credit accident and health insurance related to extension of credit. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Richmond.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than September 2, 1973.

Board of Governors of the Federal Reserve System, August 6, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

FIRST JERSEY NATIONAL CORP.

Proposed Acquisition of the Loans, Accounts and Notes Receivable, and Fixed Assets of Delaney Finance Co., Inc.

First Jersey National Corporation, Jersey City, New Jersey, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire through its wholly-owned subsidiary, Guardian Commercial Corp., the loans, accounts and notes receivable, and fixed assets of Delaney Finance Co., Inc., Providence, Rhode Island. Notice of the application was published on March 28, 1973 in The Providence Journal a newspaper circulated in Providence, Rhode Island.

Applicant states that the proposed subsidiary would engage in the activities of making secured and unsecured loans under Chapter 19-25.3 of the General Laws of the State of Rhode Island, and in connection therewith the sale of credit life and credit accident and health insurance. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of New York.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than September 2, 1973.

TWIN GATES CORP. AND NORTHERN STATES BANCORPORATION, INC.

Proposed Acquisition of Kelly Mortgage and Investment Company and Its Subsidiaries Kelly Holding Company and Income Advisory Corporation

Twin Gates Corporation, Wilmington, Delaware and its subsidiary, Northern States Bancorporation, Inc., Detroit Michigan have applied pursuant to § 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Kelly Mortgage and Investment Company ("Kelly") and its subsidiaries Kelly Holding Company ("Kelly Holding") and Income Advisory Corporation ("Income"), all with head offices in Flint, Michigan. Notice of the application was published on the following newspapers on the following dates:

Date	Newspaper	City and State
May 15 and June 9, 1973.	The San Antonio Express & San Antonio Evening News.	San Antonio, Texas.
May 12, and June 12, 1973.	The Palm Beach Port.	Palm Beach, Florida.
May 11, and June 8, 1973.	The Flint Journal.	Genessee County, Michigan.
May 15, and June 11, 1973	The State Journal.	Ingham County, Michigan.
May 17, and June 14, 1973.	The Eccentric.	Oakland County, Michigan.

Applicant states that Kelly would engage in mortgage banking activities, including the origination of mortgages for sale to permanent investors and servicing of mortgages for permanent investors, all with respect to residential, commercial, and industrial real estate and the making of interim construction loans. Kelly Holding would engage in the business of selling residential FHA and VA loans on a bulk purchase basis to a life insurance company. Income would engage in the business of being an advisor to a real estate investment trust. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposals can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The applications may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than August 30, 1973.

Board of Governors of the Federal Reserve System, August 3, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

UNION COMMERCE CORP.

Proposed Acquisition of Bjorke Associates, Inc.

Union Commerce Corporation, Cleveland, Ohio, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Bjorke Associates, Inc., New York, New York. Notice of the application was published on June 12, 1973 in The Plain Dealer, a newspaper circulated in Cleveland, Ohio and in the Rochester Democrat & Chronicle, a newspaper circulated in Rochester, New York.

Applicant states that the proposed subsidiary would engage in the activities of acting as investment advisor and portfolio manager for employee benefit, private foundation, educational endowment and personal funds. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweight possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Cleveland.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than September 2, 1973.

UNITED FIRST FLORIDA BANKS, INC.

Order Approving Acquisition of Bank

United First Florida Banks, Inc., Tampa, Florida, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under Section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) of the acquisition of 80 percent or more of the voting shares of the Davenport State Bank, Davenport, Florida ("Bank"), a proposed new bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with Section 3(b) of the Act. The time for filing comments and views has expired, and none have been received. The application has been considered in light of the factors set forth in Section 3(c) of the Act (12 U.S.C. 1842 (c)).

Applicant controls 31 banks having aggregate deposits of $971.5 million[1] and ranks as the fifth largest banking organization in Florida. Bank's establishment and acquisition will not affect concentration of banking resources in this State.

Davenport is in the eastern half of Polk County, Florida, the relevant market, in which 13 banks and eight bank holding companies are now operating. Applicant is the third largest of these organizations, and controls two banks with 10.72 per cent of the aggregate deposits in the market. Applicant's formation and acquisition of Bank will improve Applicant's competitive position in the market, but not to the extent that its position is dominant so as to foreclose others from entry. Considerations under the competitive aspects are consistent with approval of the application.

Applicant proposes to offer banking services to an area not conveniently served by banks now in the market; it would thus tend to serve the convenience and needs of the community, and this lends weight to approval.

The financial and managerial resources of Applicant, its subsidiary banks, and Bank are consistent with approval, particularly in view of Applicant's commitment to improve the capital position of several of its other subsidiary banks. It is the Board's judgment that the proposed transaction is in the public interest, and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[2] effective August 6, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-16677 Filed 8-10-73;8:45 am]

[1] All banking data are as of June 30, 1972, unless otherwise noted, and include formations and acquisitions approved by the Board through June 12, 1973.

[2] Voting for this action: Chairman Burns and Governors Mitchell, Sheehan, Bucher. Absent not voting: Governors Daane, Brimmer, and Holland.

GENERAL SERVICES ADMINISTRATION

[Federal Property Management Reg.; Temporary Reg. F-187]

SECRETARY OF TRANSPORTATION

Delegation of Authority

Correction

In FR Doc. 73-15741 appearing on page 20380 in the issue of Tuesday, July 31, 1973, the headings should read as set forth above.

[Federal Property Management Regs. Temporary Reg. F-189]

SECRETARY OF DEFENSE

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government in a telecommunications service rate proceeding.

2. *Effective date.* This regulation is effective immediately.

3. *Delegation.* a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government before the North Carolina Utilities Commission in a proceeding involving an application of the Southern Bell Telephone and Telegraph Company for a telecommunications service rate increase.

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and, further, shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

ARTHUR F. SAMPSON,
Administrator of General Services.

AUGUST 6, 1973.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 7-4421—7-4428]

AVIS, INC., ET AL.

Notice of Applications for Unlisted Trading Privileges and of Opportunity for Hearing

AUGUST 6, 1973.

In the matter of applications of the Boston Stock Exchange, Inc., for unlisted trading privileges in certain securities.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the common stocks of the following companies, which securities are listed and registered on one or more other national securities exchanges:

Avis, Inc	File No. 7-4421
Colonial Penn Group	File No. 7-4422
Davis Food Services, Inc	File No. 7-4423
Franklin Stores Corp	File No. 7-4424
General Development Corp	File No. 7-4425
Hospital Corp. of America	File No. 7-4426
Jefferson-Pilot Corp	File No. 7-4427
Louisiana-Pacific Corp	File No. 7-4428

Upon receipt of a request, on or before August 22, 1973 from any interested person, the Commission will determine whether the application with respect to any of the companies named shall be set down for hearing. Any such request should state briefly the title of the security in which he is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on any of the said applications by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C., 20549 not later than the date specified. If no one requests a hearing with respect to any particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

V 38 155 AUG 13 73 XUM

[812-3484]

BUNKER HILL INCOME SECURITIES, INC.

Notice of Filing of Application for Order of Exemption

AUGUST 6, 1973.

Notice is hereby given that Bunker Hill Income Securities, Inc., 9200 Sunset Boulevard, Suite 930, Los Angeles, California 90069 ("Applicant"), a diversified, closed-end management investment company, in connection with a proposed public offering of shares of its common stock, has filed an application pursuant to section 6(c) of the Investment Company Act of 1940 (the "Act") for an order of exemption from sections 15(a) and 16(a) of the Act to the extent necessary to permit Security Pacific National Bank to serve as investment adviser of the Applicant pursuant to a written investment advisory contract approved by the Applicant's Board of Directors even though such contract has not been approved by a vote of the shareholders of the Applicant, and to permit directors of the Applicant to serve as directors without having been elected to such positions by the shareholders of the Applicant, such exemptions to be effective until the meeting of shareholders to be held within 180 days after the effective date of the Applicant's Registration Statement on Form S-4 filed under the Securities Act of 1933 (the "1933 Act"). All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant, at present, has no shareholders, but proposes to issue up to 4,400,000 shares of its common stock when its 1933 Act Registration Statement becomes effective. Applicant also proposes to enter into an investment advisory agreement with Security Pacific National Bank under which the bank will serve as investment adviser of the Applicant.

Section 15(a) of the Act provides, in part, that a person may not serve as an investment adviser of a registered investment company except pursuant to a written contract which has been approved by a vote of a majority of the outstanding voting securities of such registered investment company, and section 16(a) of the Act provides, with limited exceptions not here relevant, that no person shall serve as a director of a registered investment company unless elected to that office by the holders of the outstanding voting securities of such company. Inasmuch as the Applicant has no shareholders to date, the investment advisory contract has not been approved by the shareholders and the Board of Directors of the Applicant has not been elected by the shareholders.

The application states that the proposed investment advisory contract will comply with the provisions of the Act in all respects except as to necessary advance shareholder approval provided in section 15(a) of the Act, and that the persons serving as directors of the Applicant will meet all of the requirements of the Act except the requirements of section 16(a) that they be elected to that office by holders of the outstanding voting securities of the Applicant and that at least ⅔ of the directors in office have been elected by shareholders of the Applicant.

The application states that the entire Board of Directors will stand for election, and the investment advisory contract will be presented for approval, at the meeting of shareholders to be held within 180 days after the effective date of the Applicant's 1933 Act Registration Statement, and that the prospectus to be used by the Applicant in connection with the sale of its shares of common stock will contain full appropriate information concerning the directors and investment advisory contract.

Applicant submits that the requested exemptions from the provisions of sections 15(a) and 16(a) of the Act are necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Section 6(c) of the Act authorizes the Commission to exempt any person, security or transaction, or any class or classes of persons, securities or transactions from the provisions of the Act and Rules promulgated thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than August 31, 1973 at 5:30 p.m., submit to the Commission in writing a request for a hearing on this matter accompanied by a statement as to the nature of his or her interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he or she may request that he or she be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

DELMARVA POWER & LIGHT CO.

Notice of Proposed Issue and Sale of Preferred Stock at Competitive Bidding

AUGUST 7, 1973.

Notice is hereby given that Delmarva Power and Light Company ("Delmarva"), 800 King Street, Wilmington, Delaware 19899, a registered holding company, has filed a declaration with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6 and 7 of the Act and Rule 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

Delmarva proposes to issue and sell, subject to the competitive bidding requirements of Rule 50, 150,000 shares of its cumulative preferred stock, par value $100 per share. The dividend rate of the preferred stock (which will be a multiple of .04%) and the price, exclusive of accrued dividends, to be paid to Delmarva (which will be not less than $100 per share nor more than $102.75) will be determined by the competitive bidding. The terms of the preferred stock include a prohibition until October 1, 1978, against redeeming the preferred stock, directly or indirectly, with funds derived from the issuance of debt securities at a lower effective interest cost or other preferred stock at a lower effective dividend cost.

The net proceeds from the sale of the preferred stock will be applied toward the retirement of the Company's First Mortgage and Collateral Trust Bonds, 3% Series, due October 1, 1973.

A statement of the fees and expenses to be incurred in connection with the proposed transaction will be filed by amendment. It is represented that the Public Service Commission of Delaware has jurisdiction over the proposed issue of preferred stock by Delmarva and that no other State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than August 31, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

MASONITE CORP., ET AL.

Notice of Applications for Unlisted Trading Privileges and of Opportunity for Hearing

AUGUST 6, 1973.

In the matter of applications of the Boston Stock Exchange, Inc. for unlisted trading privileges in certain securities.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the common stocks of the following companies, which securities are listed and registered on one or more other national securities exchanges:

	File No.
Masonite Corporation	7-4429
Ponderosa System, Inc. (Del)	7-4430
Helena Rubinstein, Inc	7-4431
Russ Togs, Inc	7-4432
Statham Instruments, Inc	7-4433
Sternco Industries, Inc	7-4434
Tesoro Petroleum	7-4435

Upon receipt of a request, on or before August 22, 1973 from any interested person, the Commission will determine whether the application with respect to any of the companies named shall be set down for hearing. Any such request should state briefly the title of the security in which he is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on any of the said applications by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, not later than the date specified. If no one requests a hearing with respect to any particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

MICHIGAN CONSOLIDATED GAS CO.

Notice of Proposed Short-Term Borrowing From Trust Department of a Bank and Issuance and Sale of Notes to Banks and or Issuance and Sale of Commercial Paper

AUGUST 7, 1973.

Notice is hereby given that Michigan Consolidated Gas Company ("Michigan Consolidated"), One Woodward Avenue, Detroit, Michigan 48226, a gas utility subsidiary company of American Natural Gas Co., a registered holding company, has filed an application-declaration and and amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6 and 7 of the Act and Rules 42(b)(2), 50(a)(2) and 70(b)(2) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the amended application-declaration, which is summarized below, for a complete statement of the proposed transaction.

Michigan Consolidated proposes, from time to time until September 1, 1974 and to the extent funds are available, to borrow up to a maximum of $12,000,000 outstanding at any one time from the Trust Department of the National Bank of Detroit ("Trust Department"), which administers, as Trustee, pension and other funds of many corporations. It is stated that borrowings from the Trust Department will be made under an agreement between Michigan Consolidated and the Trust Department, on notes, at an interest rate (computed on a 360-day interest bearing basis) equivalent to the highest rate paid daily by General Motors Acceptance Corporation on its commercial paper with a maturity of 30 to 180 days. Michigan Consolidated will be notified by the Trust Department of any change in the interest rate. The notes issued from January 1 to June 30 will mature July 1 of the same year and those issued from July 1 to December 31 will mature January 1 of the following year. The Trust Department will have the right, however, to demand payment at any time of all or any part of the principal of the loan or loans outstanding. Michigan Consolidated will have the right to repay the notes at any time without penalty. Michigan Consolidated proposes to report quarterly to the Commission the amounts borrowed from the Trust Department and the interest rate thereon. It is further stated that under terms of an identical arrangement of September 1972, with the Trust Department (Holding Company Act Release No. 17677, dated August 29, 1972), borrowings thereunder ranged from a low of $7,311,000 on April 23, 1973 to a high of $11,991,000 on Januray 15, 1973. If borrowings from the Trust Department should decline below $6,000,000, it may be necessary, depending upon the amount of borrowings from the banks and commercial paper outstanding, to supply the required funds for a short time by a temporary draw-

V 38 155 AUG 13 73 XUM

ing down of Michigan Consolidated's cash balances. The Trust Department has a continuous flow of funds from its internal operations and follows a practice of pooling these funds and loaning them to various corporations through its nominee, Trussal & Co., so that Michigan Consolidated anticipates always having a minimum of $6,000,000 available from this source.

Michigan Consolidated states it has obtained lines of credit from a group of six commercial banks (herein collectively referred to as "Banks") providing for bank borrowings on its promissory notes ("Notes"). The Banks and their respective commitments are as follows:

Name of Bank	Amount of Commitment
National Bank of Detroit, Detroit, Michigan	$12,000,000
First National City Bank, New York, New York	8,000,000
The Chase Manhattan Bank, New York, New York	5,000,000
Manufacturers Hanover Trust Company, New York, New York	4,000,000
The Detroit Bank & Trust Company, Detroit, Michigan	3,000,000
Manufacturers National Bank of Detroit, Detroit, Michigan	3,000,000
	$35,000,000

Michigan Consolidated states the Notes will be unsecured and will be issued in varying amounts commencing in September, 1973 and from time to time as funds are required by Michigan Consolidated. There is no commitment fee, closing or other related charges payable to the Banks in connection with the bank borrowings. The Notes may be prepaid at any time without penalty. If any Notes are prepaid, new Notes may be issued provided that the aggregate principal amount of Notes outstanding at any one time does not exceed $35,000,000. The Notes will be dated as of the date of issuance and will mature September 1, 1974. Each Note will bear interest at the prime rate in effect at the lending bank on the date of each borrowing and will be adjusted to the prime rate effective with any change in said rate. Interest shall be payable at the end of each 90-day period subsequent to the date of the first borrowing and at maturity. As a condition of these lines of credit, Michigan Consolidated is required to maintain compensating balances with the Banks. If it is assumed that these balances are maintained solely in order to fulfill the compensating balance requirement, the effective cost is thereby increased by approximately one and one-half percent above the stated rates, based upon a prime rate of 8¾%.

Michigan Consolidated proposes, in lieu of borrowing under the lines of credit, to issue and sell from time to time commercial paper payable to bearer, with maturities not later than September 1, 1974, in the aggregate face amount not to exceed $35,000,000 outstanding at any one time. The commercial paper will be sold to Goldman, Sachs & Co., a New York, New York dealer in commercial paper. The commercial paper will have varying maturities of not more than 270 days after the date of issue and will be issued and sold in varying denominations of not less than $50,000 and not more than $2,000,000 directly to Goldman, Sachs & Co. at a discount which will not be in excess of the discount rate per annum prevailing at the date of issuance for commercial paper of comparable quality and like maturities. Michigan Consolidated proposes to sell commercial paper only so long as the effective interest cost for such commercial paper does not be in excess of the discount rate per ings from commercial banks (after taking into consideration compensating balances) on the date of sale, except for commercial paper of maturity not exceeding 90 days issued to refund outstanding commercial paper, if, in the judgment of Michigan Consolidated, it would be impractical to borrow from commercial banks to refund such outstanding commercial paper.

No commission or fee will be payable by Michigan Consolidated in connection with the issue and sale of such commercial paper notes. Goldman, Sachs & Co., as principal, will reoffer such notes at a discount not to exceed ⅛ of 1% per annum less than the prevailing discount rate to Michigan Consolidated. Such notes will be reoffered to not more than 200 identified and designated customers in a list (non-public) prepared in advance by Goldman, Sachs & Co. and no additions will be made to the customer list without approval of this Commission. It is anticipated that the commercial paper will be held by customers to maturity; however, if any commercial paper is repurchased by Goldman, Sachs & Co., such paper will be reoffered only to others in the group of 200 customers. Michigan Consolidated proposes to report quarterly to the Commission pursuant to Rule 24 the amounts issued and sold by Goldman, Sachs & Co. and the discount thereon.

In July 1973 Michigan Consolidated sold $35,000,000 principal amount of first mortgage bonds and 400,000 shares of its common stock ($14 per share par value) for $5,600,000 (Holding Company Act Release No. 18011, June 28, 1973). Part of the proceeds will be used to retire $17,000,000 of outstanding bank loans due August 31, 1973 (Holding Company Act Release No. 17677, August 29, 1972). The remaining net proceeds together with the borrowings herein requested will be used to partially finance the Company's 1973 construction program (estimated at $91,000,000). It is anticipated that funds required to retire the borrowings herein requested will ultimately be obtained from additional long-term financing and funds generated internally.

Michigan Consolidated states that the total amount of proposed borrowings from the Trust Department, Banks and or the issuance and sale of commercial paper will not exceed $41,000,000 outstanding at any one time.

Michigan Consolidated also plans to borrow, pursuant to the exemption contained in section 6(b) of the Act, up to $26,000,000 to partially finance current inventory of gas placed in underground storage. It is stated that funds are generated in an amount sufficient to repay these borrowings as the inventory gas is sold to meet the winter demand of customers.

Fees and expenses incident to the proposed transactions are estimated at $3,000, including counsel fees of $500. The application-declaration as amended states that no approval or consent of any regulatory body other than this Commission is necessary for the consummation of the proposed transactions.

Notice is further given that any interested person may, not later than August 31, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the application-declaration, as amended, which he desires to controvert; or he may request that he be notified should the Commission order a hearing in respect thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant-declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[70-5374]

MIDDLE SOUTH UTILITIES, INC., ET AL.

Proposed Sale of Microwave Equipment Amendment to Loan Agreement

AUGUST 6, 1973.

Notice is hereby given that Middle South Utilities, Inc., 280 Park Avenue, New York, New York 10017 ("Middle South"), a registered holding company, Arkansas Power & Light Company, Ninth and Louisiana Streets, Little Rock, Arkansas 72203 ("Arkansas") and ("Louisiana"), 142 Delaronde Street, New Orleans, Lousiana 70174, electric utility subsidiary companies of Middle South, and Middle South Services, Inc., 225 Baronne Street, New Orleans, Louisiana 70112 ("Services"), a nonutility subsidiary service company of Middle South, have filed an application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7(a), 9(a), 10(a), 12(b) and 12(f) of the Act and Rules 43 and 45 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to said application-declaration, which is summarized below, for a complete statement of the proposed transactions.

Services has been authorized by this Commission to operate control facilities used to coordinate the bulk power generation and transmission system of the Middle South System ("System") (Holding Company Act Release No. 17056, dated March 19, 1971). Furthermore, Services has also been authorized by this Commission to operate electronic data processing facilities for the System (Holding Company Act Release No. 16044, dated April 24, 1968). Pursuant thereto, Services has established and is operating a Systems Operations Center at Pine Bluff, Arkansas and a Computer Center at Gretna, Louisiana.

Arkansas and Louisiana own certain microwave equipment located at or near the Systems Operations Center and the Computer Center. Since the establishment of the System Operations Center and Computer Center, this particular microwave equipment has become primarily associated with the operations of the two Centers and is primarily used to tie the two Centers into the microwave communications network for Middle South System. To fulfill operational requirements of the System, additions to this microwave equipment presently are being installed.

In view of the relationship of this particular microwave equipment to the two Centers, Services proposed to acquire from Arkansas and Louisiana, and Arkansas and Louisiana propose to sell to Services such microwave equipment, including the additions thereto.

Services will acquire said microwave equipment and the additions thereto for a purchase price equal to the depreciated original cost, including construction work-in-progress. The purchase price will be adjusted for any additions and retirements occurring between May 31, 1973, and the last day of the month preceding the month of the date of the closing. It is contemplated that the closing date of the sales will be on or about September 4, 1973, for both the Arkansas and Louisiana equipment and that the total purchase price so computed will be approximately $696,000. In addition to this amount, Services will compensate Arkansas and Louisiana for the latters' completion, subsequent to the closing date, of the additions to the microwave equipment. This sum is currently estimated to be $40,000.

To finance the cost of acquisition of, and additions to, the microwave equipment, and to provide funds for the presently contemplated expansion of Services' staff, functions and facilities, Services and Middle South propose to amend an existing Loan Agreement between them, dated January 12, 1972 (Holding Company Act Release No. 17379, dated November 30, 1971), to increase the total amount of allowable borrowings thereunder from $1,000,000 to $3,000,000. As of May 31, 1973, borrowings by Services outstanding under the Loan Agreement amount to $800,000. Under the terms of the Loan Agreement, as amended, Services proposes, as and when required, to issue and sell to Middle South, and Middle South proposes to acquire from Services, unsecured subordinated notes.

The applicants-declarants state that no special and separable fees, commissions or expenses are anticipated in connection with the transactions proposed, except for the filing fee of $2,000 and other legal and related expenses estimated not to exceed $550. It is stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than August 28, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration, which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

PACIFIC INVESTMENT FUND, LTD.

Notice of Proposal To Terminate Registration

AUGUST 6, 1973.

Notice is hereby given that the Commission proposes, pursuant to section 8(f) of the Investment Company Act of 1940 ("Act"), to declare by order upon its own motion that Pacific Investment Fund, Ltd. ("Fund"), 301 Liberty Bank Building, 99 North King Street, Honolulu, Hawaii 96817, registered under the Act as an open-end, diversified management investment company, has ceased to be an investment company.

Fund was organized as a Hawaiian corporation on September 1, 1955, and registered under the Act by filing a Form N-8A Notification of Registration on October 17, 1955, and a Form N-8B-1 Registration Statement on October 27, 1955.

The Commission's records disclose that at an annual meeting held on March 18, 1959, shareholders approved the liquidation and dissolution of the Fund, and on September 28, 1959, the Trustees for creditors and stockholders of the Fund informed the Commission that such liquidation and dissolution was completed by that date and that registration of the Fund under the Act should be terminated. Fund also ceased offering its shares to the general public on November 30, 1958.

Section 8(f) of the Act, provides, in pertinent part, that when the Commission finds a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the effectiveness of such order, which may be issued upon the Commission's own motion when appropriate, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than August 31, 1973 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the Fund at the address set forth above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the matter may be issued by the Commission upon the basis of the information stated herein, unless an order for a hearing shall be issued upon request or upon the Commission's own motion. Persons who

V 38-155 AUG 13 73 XUM

request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

TROPICANA PRODUCTS, INC. (FLA.), AND URIS BUILDINGS CORP.

Notice of Applications for Unlisted Trading Privileges and of Opportunity for Hearing

AUGUST 6, 1973.

In the matter of applications of the Boston Stock Exchange, Inc., for unlisted trading privileges in certain securities.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to Section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the common stocks of the following companies, which securities are listed and registered on one or more other national securities exchanges:

Tropicana Products, Inc. (Fla.)	File No. 7-4436
Uris Buildings Corp	File No. 7-4437

Upon receipt of a request, on or before August 22, 1973 from any interested person, the Commission will determine whether the application with respect to any of the companies named shall be set down for hearing. Any such request should state briefly the title of the security in which he is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on any of the said applications by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C., 20549 not later than the date specified. If no one requests a hearing with respect to any particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

FOURTH SECTION APPLICATIONS FOR RELIEF

AUGUST 8, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 1100.40 of the General Rules of Practice (49 CFR 1100.40) and filed on or before August 28, 1973.

FSA No. 42728—*Fertilizer and Fertilizer Materials from Erda, Utah.* Filed by Southwestern Freight Bureau, Agent, (No. B-421), for interested rail carriers. Rates on fertilizer and fertilizer materials, in carloads and tank-car loads, as described in the application, from Erda, Utah, to points in southwestern territory. Grounds for relief—Market competition, modified short-line distance formula and grouping.

Tariff—Supplement 161 to Southwestern Freight Bureau, Agent, tariff 270-F, I.C.C. No. 4832. Rates are published to become effective on September 13, 1973.

FSA No. 42729—*Alloys or Metals from Braddock and McKees Rocks, Pennsylvania.* Filed by Southwestern Freight Bureau, Agent, (No. B-422), for interested rail carriers. Rates on alloys or metals, in carloads, as described in the application, from Braddock and McKees Rocks, Pa., to specified points in Texas. Grounds for relief—Market competition and rate relationship. Tariffs—Supplements 263 and 265 to Southwestern Freight Bureau, Agent, tariffs 1-F and 2-G, I.C.C. Nos. 4875 and 4847, respectively. Rates are published to become effective on September 13, 1973.

By the Commission.

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 7, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 C.F.R. 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 8973 (Sub-No. 32 TA) filed July 23, 1973 Applicant: METROPOLITAN TRUCKING, INC. 2424 95th Street North Bergen, N.J. 07047 Applicant's representative: George A. [Suspension Docket No. 8664 Sub Nos. 4 and 5]

STABILIZATION OF RATES AND CHARGES, JUNE 1973

AUGUST 8, 1973.

Order. At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 8th day of August 1973.

It appearing, that solely pursuant to the provisions of Executive Order No. 11730 (38 F.R. 19345) dated June 13, 1973, the Interstate Commerce Commission, by its orders entered June 15, 1973 and July 13, 1973, suspended, for an indefinite period pending further order of the Commission, the operation of schedules setting forth new increased rates, fares and charges and new rules, regulations and practices having the effect of increasing rates, fares and charges applicable to movements in interstate and foreign commerce, which had been filed to become effective during the period June 14, 1973 through August 12, 1973;

And it further appearing, that Executive Order No. 11730, provided for the freezing of prices for a maximum period of 60 days from the date of said order, which period will expire at 11:59 p.m., August 12, 1973, and that under proposed Phase IV regulations issued by the Cost of Living Council rate increases for commodities or services provided by a public utility are exempt.

It is ordered, That the orders entered June 15, 1973 and July 13, 1973, insofar as they suspended the operation of the said schedules be, and they are hereby, vacated and set aside effective August 13, 1973;

It is further ordered, That respondents herein be, and they are hereby, authorized to file with the Commission, upon not less than one day's notice, supplements to the said schedules announcing the vacation of the Commission's orders and directing that the said schedules shall become effective, specifying the date thereof but not earlier than August 13, 1973;

And it is further ordered, That a copy of this order be posted in the Office of the Secretary and in the Section of Tariffs of the Interstate Commerce Commission and that a copy be delivered to the Director, Division of Federal Register, for publication in the FEDERAL REGISTER.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

POLICY STATEMENT

Phase IV of the President's Economic Stabilization Program is scheduled to go into effect on August 13, 1973. Pursuant to new section 150.56 (6 C.F.R. 150.56) rate increases for commodities or services provided by public utilities, defined as including carriers regulated by the Interstate Commerce Commission, are exempt from direct Phase IV controls. However, this Commission is charged with the duty of insuring that rate increases are non-inflationary and otherwise in conformity with the goals of the Economic Stabilization Program. To carry out this program, the Commission is requiring proponents in general increase proceedings to comply with existing Ex Parte No. 280 regulations (49 C.F.R. 1311.5). In addition, in all other proposals where increases will result, we will expect that the proponent or proponents of the increases will have taken into account the goals of the Economic Stabilization Program and that any resulting increases will not be inflationary.

[Notice No. 333]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 C.F.R. Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before September 3, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–74471. By supplemental order of the Motor Carrier Board approved for inclusion in the subject proceeding, the transfer to Wayne Daniel Truck, Inc., Mount Vernon, Mo., of Certificate No. MC–133591 (Sub-No. 3), and Permit No. MC–134494 (Sub-No. 5) issued March 14, 1973, and July 30, 1973, respectively, to Wayne Daniel, doing business as Wayne Daniel Truck, Mount Vernon, Mo., authorizing the transportation of toys and games, except sandboxes, blackboards, and chalkboards, from Booneville, Ark., to points in California, Oregon, Washington, Idaho, Utah, Colorado, Arizona, New Mexico, and Nevada, and confectioneries, from the plant sites of Sunline, Inc., located at or near St. Louis, Mo., to points in Utah and Colorado, limited to a transportation service to be performed under a contract with Sunline, Inc. Dual operations were authorized. Frederick J. Coffman, 521 South 14th Street, P.O. Box 80806, Lincoln, Nebr. 68501 Attorney for applicants.

No. MC–FC–74481. By order of August 7, 1973, the Motor Carrier Board approved the transfer to Westchester and New Jersey Transportation Co., Inc., Matawan, N.J., of Certificate No. MC–93147 issued to Lecon Trans., Inc., Brooklyn, N.Y., authorizing the transportation of: General commodities, usual exceptions, between Newark, N. J., and specified points in Westchester County, N.Y. A David Millner, Attorney, 744 Broad Street, Newark, N.J. 07102.

No. MC–FC–74486. By order of August 7, 1973, the Motor Carrier Board approved the transfer to Inland Empire Transport, Inc., Anaheim, Calif., of a portion of Certificate No. MC 41098 (Sub No. 36) issued to Global Van Lines, Inc., Anaheim, Calif., authorizing the transportation of: General commodities, usual exceptions, and certain specified commodities, between points and areas in Washington, Montana, Idaho, Nebraska, Colorado, Wyoming and South Dakota. Alan F. Wohlstetter, Attorney, 1700 K St., N.W., Wash., D.C. 20006.

No. MC–FC–74493. By order of August 7, 1973, the Motor Carrier Board approved the transfer to Ivan Lindekugel, doing business as Highline Transfer, 805 Phillip, North Platte, Nebr., of Certificate No. MC–120162 (Sub-No. 1), issued to Fred M. Gorder, dba Highline Transfer, 1314 West A Street, North Platte, Nebr., authorizing the transportation of: General commodities, usual exceptions, between specified points and areas in Nebraska.

[SEAL] ROBERT L. OSWALD,
Secretary.

COST OF LIVING COUNCIL

[Order No. 37]

SECRETARY OF THE TREASURY

Delegation of Authority

Pursuant to the authority delegated to me as Chairman of the Cost of Living Council by Executive Order 11695, as continued by Executive Order 11730, it is hereby ordered as follows:

1. There is hereby delegated to the Secretary of the Treasury authority to perform the following price stabilization functions except as provided in paragraph 2 of this order.

(a) Operate and maintain local service and compliance centers, especially in key district centers, in support of the Economic Stabilization Program as it pertains to price stabilization matters.

(b) Receive and process price stabilization forms, reports, applications, requests, and other information required to be submitted pursuant to the price stabilization regulations in Title 6, Code of Federal Regulations, or any order issued thereunder.

(c) Make decisions and issue orders with respect to notices of proposed price increases filed pursuant to Part 150 of Title 6, Code of Federal Regulations except:

(1) Those involving a prenotified price increase on a product, product line, service, or service line of $10 million or more;

(2) Those involving a prenotified price increase on a product, product line, service or service line of $5 million or more and an increase of 5 percent or more in a firm's annual sales or revenues over its sales or revenues for the most recently completed fiscal year; and

(3) Such other prenotified price increases as the Director of the Cost of Living Council or his delegate may direct.

(d) Make decisions and issue orders with respect to all special filings submitted pursuant to Part 150 of Title 6, Code of Federal Regulations (except as the Director of the Cost of Living Council or his delegate may direct) including—

(1) Applications for modification of prenotification requirements [6 CFR 150.151(b)(2)(iv)(A)];

(2) Applications for volatile pricing authority [6 CFR 150.156];

(3) Reports supporting loss or low profit firm pricing [6 CFR 150.201]; and

(4) Merchandise pricing plans [6 CFR Subpart K of Part 150].

(e) Make decisions and issue orders with respect to individual requests for exceptions (other than class exceptions and such individual requests as the Director of the Cost of Living Council or his delegate may direct) from the price stabilization regulations in Title 6, Code of Federal Regulations, or any order issued thereunder.

(f) Monitor submissions of periodic and one-time reports required to be submitted pursuant to Part 150 of Title 6, Code of Federal Regulations to ensure completeness and accuracy and to determine compliance with relevant price stabilization regulations and orders.

(g) Conduct investigations to determine compliance with the price stabilization regulations in Title 6, Code of Federal Regulations and the orders issued thereunder.

(h) Sign and issue subpoenas for the attendance and testimony of witnesses and the production of relevant books, papers, and other documents, and to administer oaths, all in accordance with Section 206 of the Economic Stabilization Act of 1970, as amended, with respect to functions delegated by this order and, subject to the concurrence of the General Counsel of the Cost of Living Council, seek judicial enforcement of those subpoenas.

(i) Notify persons of probable violations of the price stabilization regulations and orders, issue remedial orders, monitor remedial activities, and approve compliance actions with respect thereto.

(j) Compromise and collect civil penalties for violations of price stabilization regulations and orders by price category III firms and for late filings of required price stabilization reports by price category I and price category II firms.

(k) Subject to the guidance of the General Counsel of the Cost of Living Council, issue to individuals and individual firms interpretations of the price stabilization regulations in Part 150 of Title 6, Code of Federal Regulations.

(l) Make decisions and issue orders with respect to requests for reconsideration of initial decisions made and orders issued pursuant to the authority delegated by subparagraph (c) of this paragraph, with respect to prenotified price increases on a product, product line, service, or service line of less than $3 million.

(m) Make decisions and issue orders with respect to requests for reconsideration of initial decisions made and orders issued pursuant to the authority delegated by subparagraphs (d), (e), (i) or (k) of this paragraph except in such cases as the Director of the Cost of Living Council or his delegate may otherwise direct.

(n) Maintain records and provide periodic reports to the Director of the Cost of Living Council concerning the conduct of price stabilization activities performed pursuant to this order.

(o) Disseminate public information with respect to price stabilization matters and respond to requests for public disclosure of records relating to price stabilization in accordance with Part 102 of Title 6, Code of Federal Regulations.

2. The authority delegated by paragraph 1(a) through (f) and (i) through (o) of this order does not extend to institutional and non-institutional providers of health services who are subject to Subpart O of Part 150 of Title 6, Code of Federal Regulations.

3. The Secretary may redelegate to the Commissioner of Internal Revenue and provide for further redelegation to any official of the Internal Revenue Service any authority under this order, and may utilize any service of any other agency, federal or state, as may be available and appropriate.

4. Officials exercising the authority delegated by this order or redelegated pursuant thereto shall be governed by the regulations and rulings of the Cost of Living Council and by the policies, procedures, and controls prescribed by the Cost of Living Council.

5. This order is effective August 13, 1973.

Issued in Washington, D.C. on August 9, 1973.

GEORGE P. SHULTZ,
Chairman
Cost of Living Council.

NATIONAL OIL AND HAZARDOUS SUBSTANCES POLLUTION CONTINGENCY PLAN

V 38-155 AUG 13 73 XUM

Title 40—Protection of Environment

CHAPTER V—COUNCIL ON ENVIRONMENTAL QUALITY

PART 1510—NATIONAL OIL AND HAZARDOUS SUBSTANCES POLLUTION CONTINGENCY PLAN

Pursuant to section 311(c)(2) of the Federal Water Pollution Control Act Amendments of 1972 (Public Law 92–500) and section 4 of Executive Order 11735, August 2, 1973, the Council on Environmental Quality invites comments and suggestions from interested parties on or before September 27, 1973, with respect to the following revision of the National Oil and Hazardous Substances Pollution Contingency Plan. This Plan supersedes the one set forth in the FEDERAL REGISTER of August 20, 1971 (36 FR 16215), as amended on September 9, 1972 (37 FR 18411) and December 21, 1972 (37 FR 2808).

The new National Contingency Plan has been prepared in conjunction with the National Response Team (NRT) in light of both operating experience under the 1971 Plan and new requirements contained in Public Law 92–500. Its purpose is to provide for efficient, coordinated, and effective actions to minimize damage from oil and hazardous substance discharges. Pending designation of hazardous substances pursuant to section 311(b)(2) of Public Law 92–500, the NRT agencies will act pursuant to other operating authority to remove discharges of polluting substances when necessary to protect the public health or welfare.

Significant changes in the Plan, as compared with the 1971 version, include: (a) A requirement that removal efforts by private parties, in order to be considered proper under section 311(c)(1) of Public Law 92–500, must be fully sufficient to minimize or mitigate damage to the public health or welfare and must conform with applicable regulations and guidelines and Annex X and other provisions or restrictions of the Plan; (b) a requirement that, in circumstances not covered by regulations or the Regional Contingency Plan, the use of chemicals to remove discharges must be authorized by the EPA representative or alternate representative on the Regional Response Team; (c) a determination that, because of the overriding need for prompt initiation of discharge removal actions, no formal permit under section 402 of Public Law 92–500 shall be required before application of chemicals to remove a discharge, if such application is in accordance with the Plan; and (d) provision for States to designate liaisons to Regional Response Teams, to act where necessary to remove discharges, and to be reimbursed from the Federal Pollution Revolving Fund for reasonable costs incurred in such removal.

Annex X of the Plan was prepared by the Environmental Protection Agency pursuant to section 1(2) of Executive Order 11735.

The Plan is hereby codified as Part 1510 in Chapter V of Title 40 of the Code of Federal Regulations. Comments as requested above will be considered and may be addressed to the General Counsel, Council on Environmental Quality, 722 Jackson Place, NW., Washington, D.C. 20006. In order that the Plan may be immediately utilized to protect the public health and welfare, it is made effective August 13, 1973.

RUSSELL E. TRAIN,
Chairman.

This National Contingency Plan, prepared at the direction of the 92nd Congress and PL 92–500, provides a mechanism for coordinating the response to discharges of oil and hazardous substances.

AUGUST 1973.

This Plan supersedes the National Oil and Hazardous Substances Pollution Contingency Plan—August 1971

Subpart A—Introduction

1510.1 Authority.
1510.2 Purpose and objectives.
1510.3 Scope.
1510.4 Abbreviations.
1510.5 Definitions (within the meaning of this Plan).

Subpart B—Policy and Responsibility

1510.21 Federal policy.
1510.22 Federal responsibility.
1510.23 Non-Federal responsibility.

Subpart C—Planning and Response Organization

1510.31 Emergency response activities and coordination.
1510.32 National response team.
1510.33 National response center.
1510.34 Regional response team.
1510.35 Regional response center.
1510.36 On-scene coordination.

Subpart D—Operational—Response Phases

1510.40 Phase groupings.
1510.41 Phase I—Discovery and notification.
1510.42 Phase II—Evaluation and initiation of action.
1510.43 Phase III—Containment and countermeasures.
1510.44 Phase IV—Cleanup, mitigation and disposal.
1510.45 Phase V—Documentation and cost recovery.
1510.46 Special considerations.

Subpart E—Coordinating Instructions

1510.51 Delegation of authority.
1510.52 Multi-regional actions.
1510.53 General pattern of response actions.
1510.54 Strike force.

LIST OF ANNEXES

		Annex No.
1100	Distribution	I
1200	National Response Team	II
1300	National Response Center	III
1400	Geographical Boundaries	IV
1500	Communications and Reports	V
1600	Public Information	VI
1700	Legal Authorities	VII
1800	Documentation and Cost Recovery	VIII
1900	Funding	IX
2000	Dispersant Schedule	X
2100	Non-Federal Interests	XI
2500	Technical Information	XV
3000	Regional Contingency Plans	XX

AUTHORITY: Sec. 311(c)(2), Public Law 92–500, 86 Stat. 865, 33 U.S.C. 1251, et seq.

Subpart A—Introduction

§ 1510.1 Authority.

This National Oil and Hazardous Substances Pollution Contingency Plan[1] has been developed in compliance with the Federal Water Pollution Control Act, as amended, (33 U.S.C. 1251, et seq.). The President delegated authority and responsibility to the Council on Environmental Quality to carry out subsection (c)(2) of section 311 of the Act, providing for the preparation, publication, revision and amendment of a National Contingency Plan for the removal of oil and hazardous substances.

[1] This Plan supersedes the August 1971 edition.

§ 1510.2 Purpose of objectives.

(a) This Plan, including the Annexes, provides for a pattern of coordinated and integrated response by Departments and Agencies of the Federal Government to protect the environment from the damaging effects of pollution discharges. It promotes the coordination and direction of Federal and State response systems and encourages the development of local government and private capabilities to handle such discharges.

(b) The objectives of this Plan are to provide for efficient, coordinated and effective action to minimize damage from oil and hazardous substance discharges, including containment, dispersal and removal. The Plan, including the Annexes and regional plans, provides for: (1) Assignment of duties and responsibility among Federal departments and agencies in coordination with State and local agencies; (2) identification, procurement, maintenance, and storage of equipment and supplies; (3) establishment or designation of a strike force to provide necessary services to carry out the Plan and establishment, at major ports, of trained and equipped emergency task forces; (4) a system of surveillance and reporting designed to insure the earliest possible notice of discharges of oil and hazardous substances to appropriate Federal agency; (5) establishment of a national center to provide coordination and direction for operations in carrying out the Plan; (6) procedures and techniques to be employed in identifying, containing, dispersing, and removing oil and hazardous substances; (7) a schedule, prepared in cooperation with the States, identifying dispersants and other chemicals, if any, that may be used in carrying out the Plan; and (8) a system whereby the State or States effected by a discharge may be reimbursed for reasonable costs incurred in the removal of such discharge.

§ 1510.3 Scope.

(a) This Plan is effective for all United States waters and shorelines, the contiguous zone and the high seas, where there exists a threat to United States waters, shoreface, or shelf-bottom.

(b) The provisions of this Plan are applicable to all Federal Agencies. Implementation of this Plan is compatible with and complementary to the joint U.S./Canadian Contingency Plan including the annexes pertaining to the Great Lakes, Eastern and Western coastal areas; International assistance plans and agreements, security regulations, and responsibilities based upon Federal statutes and Executive Orders.

§ 1510.4 Abbreviations.

(a) *Department and Agency title abbreviations.*

AEC—Atomic Energy Commission
CEQ—Council on Environmental Quality
Commerce—Department of Commerce
Corps—U.S. Army Corps of Engineers
DHEW—Department of Health, Education and Welfare
DOD—Department of Defense
DOI—Department of Interior
DOT—Department of Transportation
EPA—Environmental Protection Agency
Justice—Department of Justice
MarAd—Maritime Administration
NOAA—National Oceanic and Atmospheric Administration
OEP—Office of Emergency Preparedness
State—Department of State
USCG—U.S. Coast Guard
USGS—U.S. Geological Survey
USN—U.S. Navy

(b) *Operational title abbreviations.*

NRC—National Response Center
NRT—National Response Team
OSC—On-Scene Coordinator
RRC—Regional Response Center
RRT—Regional Response Team

§ 1510.5 Definitions (within the meaning of this Plan).

(a) Act—means the Federal Water Pollution Control Act, PL 92–500 (86 Stat. 816).

(b) Discharge—includes but is not limited to any spilling, leaking, pumping, pouring, emitting, emptying or dumping. (For the purposes of this Plan, discharges permitted pursuant to sections 301, 302, 306, 318, 402 or 404 of the Act or section 102 of PL 92–532 are not included.)

(c) On-Scene Coordinator (O.S.C.)—means the Federal official pre-designated by the EPA or the USCG to coordinate and direct Federal discharge removal efforts under Regional Contingency Plans at the scene of an oil or hazardous substance discharge.

(d) United States—means the States, the District of Columbia, the Commonwealth of Puerto Rico, the Canal Zone, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands.

(e) Coastal waters—generally are those U.S. waters navigable by deep draft vessels, the contiguous zone, the high seas and other waters subject to tidal influence.

(f) Inland waters—generally are those waters upstream from coastal waters (paragraph (e) of this section).

(g) Contiguous Zone—means the entire zone established by the United States under Article 24 of the Convention on the Territorial Sea and the Contiguous Zone. This is the zone contiguous to the territorial sea which extends 12 miles seaward from the baseline from which the territorial sea is measured.

(h) Public health or welfare—includes consideration of all factors affecting the health and welfare of man, including but not limited to human health, the natural environment, fish, shellfish, wildlife, and public and private property, shorelines and beaches.

(i) Major Disaster—means any hurricane, tornado, storm, flood, high water, wind-driven water, tidal wave, earthquake, drought, fire, or other catastrophe in any part of the United States which, in the determination of the President, is or threatens to become of sufficient severity and magnitude to warrant disaster assistance by the Federal Government to supplement the efforts and available resources of States and local governments and relief organizations in alleviating the damage, loss, hardship or suffering caused thereby.

(j) Oil—means oil of any kind or in any form, including but not limited to, petroleum, fuel oil, sludge, oil refuse and oil mixed with wastes other than dredged spoil.

(k) Hazardous substance—means any substance designated pursuant to subsection (b)(2) of section 311 of the Act.

(l) Minor discharge—is a discharge, in the inland waters of less than 1,000 gallons of oil; and in the coastal waters, a discharge of less than 10,000 gallons of oil. Discharges of hazardous substances, to be designated by regulations, shall be classed as medium or major pursuant to paragraphs (m) and (n) of this section. (Discharges of oil or hazardous substances that: (1) Generate critical public concern; or (2) pose a substantial threat to the public health or welfare shall be classified as "major" discharges.)

(m) Medium discharge—is a discharge of 1,000 to 10,000 gallons of oil in the inland waters; or 10,000 to 100,000 gallons of oil in the coastal waters; or a discharge of a hazardous substance in a harmful quantity as specified by regulation. (Discharges of oil or hazardous substances that: (1) Generate critical public concern; or (2) pose a substantial threat to the public health or welfare shall be classified as "major" discharges.)

(n) Major discharge—is a discharge of oil of more than 10,000 gallons to the inland waters or more than 100,000 gallons of oil of more than 10,000 gallons to the lons in coastal waters or a discharge of a hazardous substance that (1) generates critical public concern; or (2) poses a substantial threat to the public health or welfare.

(o) Potential discharge—is any accident or other circumstance which threatens to result in the discharge of oil or hazardous substance. A potential discharge shall be classified by its severity based on the guidelines above.

(p) Primary Agencies—are those Departments or Agencies comprising the NRT and designated to have primary responsibility and resources to promote effective operation of this Plan. These agencies are: Commerce, DOD, DOI, DOT, and EPA.

(q) Advisory Agencies—are those Departments or Agencies which can make major contributions during response activities for certain types of discharges. These Agencies are: AEC, DHEW, Justice, OEP and State.

(r) Remove or Removal—is the removal of oil or hazardous substance from the water and shorelines or the taking of such other actions as may be necessary to minimize or mitigate damage to the public health or welfare. For purposes of this Plan, removal refers to Phase III and IV response operations.

Subpart B—Policy and Responsibility

§ 1510.21 Federal policy.

(a) The Congress has declared that it is the policy of the United States that there should be no discharge of oil or hazardous substance into or upon the navigable waters of the United States, adjoining shorelines, or into or upon the waters of the contiguous zone (section 311(b)(1) of the Act).

(b) The primary thrust of this Plan is to provide a coordinated Federal response capability at the scene of an unplanned or sudden, and usually accidental, discharge of oil or hazardous substances in excess of that otherwise permitted by law. Initial actions of the Federal OSC, designated pursuant to § 1510.36(b) of this Plan and the appropriate regional contingency plan, shall be to determine, in accordance with section 311(c)(1) of the Act, if the actions taken by the person responsible for the discharge of oil or hazardous substance are proper to remove the discharge. The OSC should, if practicable, insure that the person responsible for the discharge is aware of his responsibility and is encouraged to undertake necessary countermeasures. In the event that the person responsible for the discharge does not act promptly, does not take or propose to take proper and appropriate actions to remove the discharged pollutants, or if the person responsible for the discharge is unknown, further Federal response actions shall be instituted as required in accordance with this Plan. When the person responsible for the discharge is taking proper action, the OSC shall observe and monitor progress, and provide advice, counsel, and logistical support as may be necessary

(c) Removal actions taken pursuant to section 311(c)(1) of the act are limited to the navigable waters of the United States, adjoining shorelines and the waters of the contiguous zone. Removal actions within the Contiguous zone are limited and do not include those covered by the Outer Continental Shelf Lands Act. When a discharge or potential discharge that poses a threat to the waters of the U.S. occurs outside the jurisdiction under section 311(c) of the Act, the procedures of this plan apply to the extent practicable and removal action will be accomplished pursuant to other Agency authorities. Removal actions for non-vessel discharges on the outer continental shelf, shall be in accordance with the August 1971 DOI/DOT Memorandum of Understanding.

(d) In accordance with section 311(d), whenever a marine disaster in or upon the navigable waters of the United States has created a substantial threat of pollution hazard to the public health or welfare, because of a discharge, or an imminent discharge, of large quantities of oil, or of a hazardous substance from a vessel, the United States may: (1) Coordinate and direct all public and private efforts directed at the removal or elimination of such threat; and (2)

V 38-155 AUG 13 73 XUM

summarily remove and, if necessary, destroy such vessel by whatever means are available without regard to any provisions of law governing the employment of personnel or the expenditure of appropriated funds. This authority has been delegated to the Administrator of EPA and the Secretary of the Department in which the Coast Guard is operating, respectively, in and for the waters for which each has responsibility to furnish or provide the OSC under this Plan.

(e) In addition to any other actions taken by a State or local government, when the Administrator of EPA or the Secretary of the Department in which the Coast Guard is operating determines there is an imminent and substantial threat to the public health and welfare because of an actual or threatened discharge of oil or hazardous substance into or upon the waters of the United States from any onshore or offshore facility, he may require, through the Attorney General, that the U.S. Attorney of the district in which the threat occurs secure such relief as may be necessary to abate such threat. This authority could be exercised on request of the NRT.

(f) The Federal agencies possessing facilities or other resources which may be useful in a Federal response situation will make such facilities or resources available for use in accordance with this Plan, as supplemented by the regional plans, and as consistent with operational requirements, within the limits of existing statutory authority, and within the spirit of the President's intention to minimize discharges and their effects when they do occur.

(g) Environmental pollution control techniques shall be employed in accordance with applicable regulations and guidelines, and regional contingency plans. In any circumstances not covered by regulations or regional contingency plans, the use of chemicals shall be in accordance with Annex X and must have the concurrence of the EPA representative or alternate representative on the RRT; or in his absence the concurrence of the appropriate EPA Regional Administrator.

(h) Response operations carried out to remove discharges originating from Outer Continent Shelf Lands Act operations shall be in accordance with the August 1971 Memorandum of Understanding between DOI and DOT concerning respective responsibilities under this Plan.

§ 1510.22 Federal responsibility.

(a) Each of the Primary and Advisory Federal Agencies has responsibilities established by statute, Executive Order or Presidential Directive which may bear on the Federal response to a pollution discharge. This Plan intends to promote the expeditious and harmonious discharge of these responsibilities through the recognition of authority for action by those Agencies having the most appropriate capability to act in each specific situation. Responsibilities and authorities of these several agencies relevant to the control of pollution discharges are detailed in Annex VII to this part. In the development of the regional plans, provision shall be made to assure recognition of the statutory responsibilities of all involved Agencies.

(b) The Council on Environmental Quality is responsible for the preparation, publication, revision and amendment of this National Contingency Plan. The Council will receive the advice of the NRT on necessary changes to the Plan and shall insure that any disagreements arising among members of the NRT are expeditiously settled.

(c) The Department of Commerce, through NOAA, provides support to the NRT, RRT and OSC with respect to: Marine environmental data; living marine resources; current and predicted meteorological, hydrologic and oceanographic conditions for the high seas, coastal and inland waters; and maps and charts, including tides and currents for coastal and territorial waters and the Great Lakes. When requested by NRT, MARAD will provide advice on the design, construction and operation of merchant ships.

(d) The Department of Defense, consistent with its operational requirements, may provide assistance in critical pollution discharges and in the maintenance of navigation channels, salvage, and removal of navigation obstructions.

(e) The Department of Health, Education, and Welfare is responsible for providing expert advice and assistance relative to those discharges or potential discharges that constitute or may constitute a threat to public health and safety.

(f) The Department of Interior, through the USGS, supplies expertise in the fields of oil drilling, producing, handling, and pipeline transportation. Also, the USGS has access to and supervision over continuously manned facilities which can be used for command, control and surveillance of discharges occurring from operations conducted under the Outer Continental Shelf Lands Act. Additionally, the Department of Interior will provide, through its Regional Coordinators, techincal expertise to the OSC and RRT with respect to land, fish and wildlife, and other resources for which it is responsible. DOI is also responsible for American Samoa and the Trust Territory.

(g) The Department of Justice can supply expert legal advice to deal with complicated judicial questions arising from discharges and Federal agency responses.

(h) The Department of Transportation provides expertise regarding all modes of transporting oil and hazardous substances. Through the USCG, DOT supplies support and expertise in the domestic/international fields of port safety and security, marine law enforcement, navigation, and construction; manning, operation, and safety of vessels and marine facilities. Additionally, the Coast Guard maintains continuously manned facilities that are capable of command, control, and surveillance for oil discharges occurring on the waters of the United States or the high seas. The USCG is responsible for chairing the RRT and for implementing, developing and revising, as necessary, the regional plans for those areas where it is assigned the responsibility to furnish or provide for OSC's (§ 1510.36(b)).

(i) The Department of State will provide leadership in developing joint international contingency plans. It will also provide assistance in coordination when a pollution discharge transects international boundaries or involves foreign flag vessels.

(j) The Atomic Energy Commission is the designated Agency for administration, implementation and coordination of the Interagency Radiological Assistance Plan (IRAP). AEC will provide advice and assistance to the NRT with respect to the identification of the source and extent of radioactive contamination, and removal and disposal of radioactive discharges.

(k) The Environmental Protection Agency, through the Office of Air and Water Programs, provides expertise regarding environmental effects of pollution discharges and environmental pollution control techniques, including assessment of damages. EPA shall also advise the RRT and OSC of the degree of hazard a particular discharge poses to the public health and safety. EPA is responsible for chairing the RRT and for development, revision and implementation, as necessary, of regional plans for those areas in which it has responsibility to furnish or provide for the OSC (§ 1310.36(b)). EPA will provide guidance to and coordinate with DOT regarding pollution control and protection of the environment in the preparation of regional plans.

(l) The Office of Emergency Preparedness will maintain an awareness of pollution emergencies as they develop. The normal OEP procedures will be followed to evaluate any request for a major disaster declaration received from a Governor of a State. If the President declares that a pollution discharge constitutes a "major disaster" under PL 91-606, or that a major disaster is imminent as defined by section 221, PL 91-606, the Director, OEP, will prepare coordination and direction of the Federal response in accordance with OEP policies and procedures.

(m) All Federal agencies are responsible for minimizing the occurrence of discharges and for developing the capability to respond promptly in cases of discharges from facilities they operate or supervise, and for making resources available for Federal pollution response operations.

(n) In addition to paragraph (m) of this section, Primary Agencies are responsible for:

(1) Leading all Federal agencies in programs to minimize the number of and environmental damage associated with discharges from facilities they operate or supervise;

(2) Providing representation to the NRT and the RRT's;

(3) Developing, within their operating elements, the capability for a rapid, coordinated response to any pollution discharge;

(4) Making information available to the NRT, RRT or OSC as necessary; and

(5) Keeping NRT and the RRT's informed, consistent with national security considerations, of changes in the availability of resources that would affect the operation of this Plan.

§ 1510.23 Non-Federal responsibility.

(a) The States are invited to provide liaison to RRT's and shall designate the appropriate element of the State government that would undertake direction of State supervised discharge removal operations. The designated agency shall be the single State governmental element that will seek reimbursement for removal operation expenditures in accordance with section 311(c)(2)(H) of the Act. Details on reimbursement to States for removal actions taken pursuant to this Plan are contained in Title 33 Part 153, CFR, and Annex IX—Funding.

(b) Industry groups, the academic community, and others are encouraged to commit resources for removal operations. Their specific commitments are outlined by the regional plans. Of particular relevance is the organization of a standby scientific response capability.

Subpart C—Planning and Response Organization

§ 1510.31 Emergency response activities and coordination.

(a) For pollution emergency response activities, Federal on-scene coordination is accomplished through the OSC. He reports to and receives advice from an RRT composed of appropriate representatives from the Regional and District offices of the Primary and Advisory Agencies.

(b) National level coordination is accomplished through the NRT which receives reports from and renders advice to the RRT. Activities are coordinated through the National and various regional response centers.

(c) The organizational concepts of this Plan are shown on Figure 1.

§ 1510.32 National response team.

(a) The NRT consists of representatives from the Primary and Advisory Agencies. It serves as the National body for planning and preparedness actions prior to a pollution discharge and for coordination and advice during a pollution emergency. It shall be organized and shall function as outlined in Annex II to this part.

(b) The NRT shall establish and maintain a Committee on Revision of the National Plan. This Committee shall provide suggested revisions to the NRT for consideration, approval and publication by CEQ. The Primary Agencies shall provide membership on this standing committee. Advisory Agencies shall participate whenever revision or proposed amendments would affect those Agencies. Ad hoc committees may also be established from time to time to consider various matters. Membership on these committees shall consist of the representatives from the Primary Agencies and such Advisory Agencies that may have direct involvement.

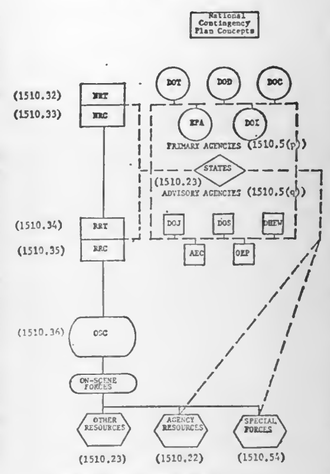

FIG. 1

(c) Based on a continuing evaluation of response actions, the NRT shall consider and make recommendations to appropriate agencies relating to training and equipping response team personnel; necessary research, development, demonstration and evaluation activities to improve response capabilities; and equipment, material stockpiling and other operational matters as the need arises. CEQ shall be advised of any agency's failure to adequately respond to these recommendations.

(d) During pollution emergencies, MRT shall act as an emergency response team comprised of representatives from the Primary and selected Advisory Agencies to be activated in accordance with section 1202.2, Annex II to this part.

§ 1510.33 National Response Center.

(a) The NRC, located at Headquarters, USCG, is the Washington, D.C. headquarters site for activities relative to pollution emergencies. NRC quarters are described in Annex III to this part, and provide communications, including a continuously manned communication center, information storage; and necessary personnel and facilities to promote the smooth and adequate functioning of this activity as described in Annex III to this part.

§ 1510.34 Regional Response Team.

(a) The RRT consists of regional representatives of the Primary and selected Advisory Agencies, as appropriate. RRT shall act within its region as an emergency response team performing response functions similar to those described for NRT. RRT will also perform review and advisory functions relative to the regional plan similar to those prescribed for NRT at the National level. Additionally, the RRT shall determine the duration and extent of the Federal response, and when a shift of on-scene coordination from the predesignated OSC to another OSC is indicated by the circumstances or progress of a pollution discharge.

(b) Each Primary Agency shall designate one member and a minimum of one alternate member to the RRT. Each Advisory Agency may designate a member. Agencies may also provide additional representatives as observers to meetings of the RRT. Individuals representing the participating agencies may vary depending on the subregional area in which the discharge occurred or removal actions are underway. Details of such representation are specified in each regional contingency plan.

(c) Each of the States lying within a region is invited to furnish liaison to the RRT for planning and preparedness activities. When the Team is activated for a pollution emergency, the affected State or States are invited to participate in RRT deliberations.

(d) The RRT shall be activated automatically in the event of a major or potential major discharge. The RRT shall be activated during any other pollution emergency by an oral request from any Primary Agency representative to the Chairman of the team. Such requests for team activation shall be confirmed in writing. The time of team activation, place of assembly, and means of contact shall be included in POLREPS submitted in accordance with Annex V to this part.

(e) The Chairman may require assembly of all or selected members of the team at the emergency center during a pollution response operation to provide technical support and assistance to the OSC.

(f) Deactivation of RRT shall be by agreement between the EPA and USCG team members. The time of deactivation shall be included in POLREPS submitted in accordance with Annex V to this part.

(g) Boundaries of the Standard Federal Regions as shown in Annex IV to this part shall be followed for the development of Regional Contingency Plans.

§ 1510.35 Regional Response Center.

(a) The RRC is the regional site for pollution emergency response activities. It will be accommodated in quarters described in each regional plan and will provide communications, information storage and other necessary personnel and facilities to promote the proper functioning and administration of regional pollution emergency response operations.

§ 1510.36 On-Scene Coordination.

(a) Coordination and direction of Federal pollution control efforts at the scene of a discharge or potential discharge shall be accomplished through the OSC, predesignated by regional plan to coordinate and direct such pollution control activities in each area of the region.

(1) In the event of a discharge of oil or hazardous substance, the first official on the site from an agency having responsibility under this Plan shall assume

V 38-155 AUG 13 73 XUM

coordination of activities under the Plan until the arrival of the predesignated OSC.

(2) The OSC shall determine pertinent facts about a particular discharge, such as its potential impact on human health and welfare; the nature, amount, and location of material discharged; the probable direction and time of travel of the material; the resources and installations which may be affected and the priorities for protecting them.

(3) The OSC shall initiate and direct as required Phase II, Phase III and Phase IV operations. Advice provided by the EPA representative on the RRT on use of chemicals in Phase III and Phase IV operations in response to discharges of oil or hazardous substances shall be binding on the OSC, except as provided for by Annex X to this part.

(4) The OSC shall call upon and direct the deployment of needed resources in accordance with the regional plan to evaluate the magnitude of the discharge and to initiate and continue removal operations.

(5) The OSC shall provide necessary support activities and documentation for Phase V activities.

(6) In carrying out this Plan, the OSC will fully inform and coordinate closely with RRT to ensure the maximum effectiveness of the Federal effort in protecting the natural resources and the environment from pollution damage.

(b) EPA and the USCG shall insure that OSC's are predesignated for all areas within the region in accordance with the following criteria:

(1) The EPA shall furnish or provide for OSC's on inland waters.

(2) The USCG shall furnish or provide for OSC's for the coastal waters, and for Great Lakes waters, ports and harbors.

(3) The major consideration in selection of the OSC shall be based upon that Agency's capability and resources for pollution control response activities and the individual OSC's knowledge of the National Contingency Plan and the appropriate Regional Contingency Plan.

(c) All Federal agencies are required by executive order to develop emergency plans and procedures for dealing with accidental pollution. All Federal agencies, therefore, are responsible for designating the offices to coordinate response actions for facilities or vessels under their jurisdiction and for the provision of means to remove or mitigate the effects of discharges from their facilities. If the responsible Agency does not act promptly or take appropriate action, the EPA or USCG shall, depending on the area in which the discharge occurs, assume the OSC functions. Pollution control actions taken must be in accordance with Federal regulations and guidelines, EPA policies and this Plan.

Subpart D—Operational—Response Phases

§ 1510.40 Phase groupings.

The actions taken to respond to a pollution discharge can be separated into five relatively distinct classes or phases. For descriptive purposes, these are: Phase I—Discovery and Notification; Phase II—Evaluation and Initiation of Action; Phase III—Containment and Countermeasures; Phase IV—Removal, Mitigation and Disposal; and Phase V—Documentation and Cost Recovery. It must be recognized that elements of any one phase may take place concurrently with one or more other phases.

§ 1510.41 Phase I—Discovery and notification.

(a) A discharge may be discovered when a report is received from a discharger in accordance with statutory requirements; through deliberate discovery procedures such as vessel patrols, aircraft searches, or similar procedures; or through random discovery by incidental observations of government agencies or the general public.

(b) In the event of a deliberate discovery, the discharge will be reported directly to the RRC. Reports from random discovery may be initially through fishing or pleasure boats, police departments, telephone operators, port authorities, news media, etc. Reports generated by random discovery should be reported to the nearest USCG or EPA office. Regional plans shall provide for such reports to be channeled to the RRC as promptly as possible to facilitate effective response action. Reports of major and medium discharges received by either EPA or USCG shall be expeditiously relayed by telephone to the other agency. Reports of minor discharges shall be exchanged between EPA and USCG as agreed to by the two agencies.

§ 1510.42 Phase II—Evaluation and initiation of action.

(a) The OSC shall insure that a report of a discharge is immediately investigated. Based on all available information, the OSC shall: (1) Evaluate the magnitude and severity of the discharge; (2) determine the feasibility of removal; and (3) assess the effectivenes of removal actions.

(b) The OSC shall, when appropriate and as soon as possible after receipt of a report, advise the RRC of the need to initiate further governmental response actions. This may be limited to activation of the RRT or a request for additional resources to conduct further surveillance or initiation of Phase III or Phase IV removal operations.

(c) The OSC shall insure that adequate surveillance is maintained to determine that removal actions are being properly carried out. If removal is not being done properly, the OSC shall so advise the responsible party. If, after the responsible party has been advised and does not initiate proper removal action, the OSC shall, pursuant to section 311(c)(1) of the Act, take necessary action to remove the pollutant.

(d) If the discharger is unknown or otherwise unavailable, the OSC shall proceed with removal actions pursuant to section 311(c)(1) of the Act.

§ 1510.43 Phase III—Containment and countermeasures.

(a) These are defensive actions to be initiated as soon as possible after discovery and notification of a discharge. These actions may include public health and welfare protection activities, source control procedures, salvage operations, placement of physical barriers to halt or slow the spread of a pollutant, emplacement or activation of booms or barriers to protect specific installations or areas, control of the water discharge from upstream impoundments and the employment of chemicals and other materials to restrain the pollutant and its effects on water related resources.

§ 1510.44 Phase IV—Cleanup, mitigation and disposal.

(a) This includes actions taken to recover the pollutant from the water and affected public and private shoreline areas, and monitoring activities to determine the scope and effectiveness of removal actions. Actions that could be taken include the use of sorbers, skimmers and other collection devices for floating pollutants, the use of vacuum dredges or other devices for sunken pollutants; the use of reaeration or other methods to minimize or mitigate damage resulting from dissolved, suspended or emulsified pollutants; or special treatment techniques to protect public water supplies or wildlife resources from continuing damage.

(b) Pollutants and contaminated materials that are recovered in cleanup operations shall be disposed of in accordance with procedures agreed to at the State or local level.

§ 1510.45 Phase V—Documentation and cost recovery.

(a) This includes a variety of activities, depending on the location of and circumstances surrounding a particular discharge. Recovery of Federal removal costs and recovery for damage done to Federal, State or local government property is included; however, third party damages are not dealt with in this Plan. The collection of scientific and technical information of value to the scientific community as a basis for research and development activities and for the enhancement of understanding of the environment may also be considered in this phase. It must be recognized that the collection of samples and necessary data must be performed at the proper times during the case to fix liability and for other purposes.

§ 1510.46 Special considerations.

(a) *Safety of personnel.* Actual or potential polluting discharges that could have an imminent and substantial effect on both air and water media can pose serious hazards to personnel health and safety. The OSC should be aware of this potential and should exercise caution in allowing civilian or government personnel into the affected area without first verifying the nature of the substance discharged. Regional plans shall identify the sources of information on the hazards, precautions, and personnel protective requirements that will be expected in carrying out response operations. The means for OSC to secure such information also shall be included.

(b) *Waterfowl conservation.* Oil discharges, particularly in estuarine and near shore areas, often cause severe stress to resident migratory bird species. The DOI representatives and the State liaison to the RRT shall arrange for and coordinate actions of professional and volunteer groups that wish to establish bird collection, cleaning and recovery centers. Regional contingency plans shall, to the extent practicable, identify organizations or institutions that can and are willing to establish and operate such facilities. These activities will normally be considered Phase IV response actions (paragraph (a) of this section).

Subpart E—Coordinating Instructions

§ 1510.51 Delegation of Authority.

(a) When required, delegation of authority or concurrence in proposed or continuing pollution control activities initially may be oral; however, written confirmation by the EPA representative on RRT should be completed as soon as possible.

§ 1510.52 Multi-regional actions.

(a) In the event that a discharge or a potential pollution emergency moves from the area covered by one contingency plan into another area, the authority to initiate pollution control actions shall shift as appropriate. In the event that a polluting discharge or potential pollution emergency affects areas covered by two or more regional plans, the response mechanism called for by both plans shall be activated; however, pollution control actions shall be fully coordinated as detailed in the regional plans.

(b) There shall be only one ON–Scene Coordinator at any time during the course of a response operation. Should a discharge affect two or more areas, the RRT will designate the OSC, giving prime consideration to the area vulnerable to the greatest damage. NRT shall designate the OSC if members of one RRT or of two adjacent RRT's, if appropriate, are unable to agree on the designation.

§ 1510.53 General pattern of response actions.

(a) When the predesignated Federal On-Scene Coordinator receives a report of a discharge, or potential discharge, the report should be evaluated. In most situations, the sequence of actions shown below should be followed:

(1) Investigate the report to determine pertinent information such as the threat posed to public health or welfare, the type and quantity of material discharged, and the source of the discharge.

(2) Effect notification in accordance with Annex V to this part and the applicable regional plan.

(3) Determine, in accordance with section 311(c)(1) of the Act, whether removal actions are being carried out properly. Removal is considered as being done properly when the following criteria are met:

(i) Private cleanup efforts are effective in terms of the statutory definition of removal, that is, they are fully sufficient to minimize or mitigate damage to the public health or welfare. Private removal efforts shall be deemed "improper" to the extent that Federal efforts are necessary to prevent continued or further damage.

(ii) Private removal efforts must be in accordance with applicable regulations and guidelines, and Annex X to this part and other provisions or restrictions of this Plan.

(4) Designate the severity of the situation and determine the future course of action to be followed.

(5) Determine whether State action to effect removal is necessary.

(b) The result of the report probably can be categorized by one of five classes. Appropriate action to be taken in each specific type case is outlined below:

(1) If the investigation shows that the initial information overstated the magnitude or danger of the discharge and there is no environmental pollution involved, it shall be considered a false alarm and the case should be closed; contact should be established with the discharger. The discharger shall be advised of proper removal procedures. The situation shall be monitored to insure that the removal is done properly by the owner or operator of the vessel, onshore facility or offshore facility from which the discharge occurred.

(3) If the investigation shows a minor discharge with improper action being taken, the following measures shall be taken:

(i) Attempt should be made to prevent further discharges from the source.

(ii) The discharger shall be advised of the proper action to be taken.

(iii) If, after providing advice to the discharger and this advice is not followed, the discharger shall be warned of his liability for the cost of removal pursuant to section 311(f) of the Act (See subparagraph (3) of this paragraph).

(iv) The OSC should notify appropriate State and local officials. He shall keep the RRC advised and initiate Phase III and IV operations as conditions warrant.

(v) Information shall be collected for possible recovery of removal costs when removal is effected in accordance with section 311(c)(1) of the Act.

(4) When a report or investigation indicates that a medium discharge has occurred or that the potential for a medium discharge exists, the OSC shall follow the same general procedures as for a minor discharge. Additionally, the OSC shall make a recommendation concerning team activation to the Chairman of the RRT.

(5) When a report indicates that a major discharge has occurred, that a potential major pollution emergency exists, or that a discharge or potential discharges which could arouse wide public concern has occurred, the OSC shall follow the same procedures as for minor and medium discharges. RRC and NRT shall, however, be notified immediately of the situation even if the initial report has not been confirmed.

§ 1510.54 Special forces.

(a) The National Strike Force (NSF) shall be established consisting of personnel trained, prepared, and available to provide necessary services to carry out this Plan. This NSF shall be formed around the Strike Teams established by the U.S. Coast Guard on the East, West, and Gulf coasts, and including the Environmental Response Team (ERT) established by the EPA, when required. The NSF shall provide assistance to the OSC during Phase III, IV, and V operations as the circumstances of the situation dictate. When possible, the NSF will provide training to the Emergency Task Forces and participate with the Regional Response Team in Regional Contingency Plan development.

(1) The Strike Teams established by the U.S. Coast Guard are able to provide communications support, advice and assistance for oil and hazardous substances removal. These teams include expertise in ship salvage, diving, and removal techniques and methodology.

(2) The Environmental Response Team established by EPA to carry out the Agency's disaster and emergency responsibilities can provide the OSC and NSF with advice on the environmental effects of oil and hazardous substances discharges, and removal and mitigation of the effects of such discharges. This team includes expertise in biology, chemistry, engineering and, when necessary, meteorology and oceanography.

(3) The Emergency Task Forces established pursuant to section 311(c)(2)(C) shall consist of trained personnel with adequate supplies of oil and hazardous pollution control equipment and materials and detailed discharge removal plans for their areas of responsibility. The Emergency Task Forces shall be established by the Agency responsible for providing the OSC not later than one year from the effective date of this Plan.

(4) The NSF and ERT will generally respond to requests for assistance from the OSC. Requests for the NSF may be made directly to the Commanding Officer of the appropriate Strike Team, the Coast Guard member on the RRT, the appropriate Area Commander, USCG, or to the Commandant, USCG, through the NRC. Requests for the EPA–ERT may be made to the EPA Emergency Coordinator or the appropriate Regional Emergency Coordinator (REC), or the EPA representative on the RRT.

Annex I—1100 Distribution

1101 Plan distribution.

1101.1 This Plan will be distributed to designated offices of Primary and Advisory Agencies, State and interstate water pollution control agencies and such other Federal, State, local and private agencies and organizations which are cooperating with and participating in activities in support of the Plan.

V 38 155 AUG 13 73 XUM

1101.2 Included in this formal distribution are the following:

Department of Commerce
Department of Defense
Department of Health, Education and Welfare
Department of the Interior
Department of Justice
Department of State
Department of Transportation
Atomic Energy Commission
Office of Emergency Preparedness
All State water pollution control agencies
All interstate water pollution control agencies
Other Federal, State, local and private agencies and organizations, as appropriate.

1101.3 Formal distribution of the Plan and amendments will be made by the Environmental Protection Agency.

1102 Amendment, distribution and format.

1102.1 Amendments to the Plan and annexes will be made by sequentially numbered changes. Numbered changes will be effected by means of a transmittal sheet which identifies the Plan, the change number and date, the page numbers affected by the change and any other instructions deemed necessary for purposes of clarity or to make special emphasis or explanation of the change. There will be attached to the transmittal sheet the revised or added pages with the change number and current date on each page at the upper right hand corner.

1102.2 Where a change can be effected merely by pen and ink, the transmittal sheet may be used to accomplish the change without submission of revised pages. The use of pen and ink changes is limited to those cases where existing matter is being deleted or is of minor extent.

1102.3 Asterisks will be used to indicate changes. For line changes, an asterisk will be placed before and after each sentence changed in the left and right page margins. For paragraph changes, an asterisk will be placed before and after each paragraph changed and if continued on the next page, an asterisk will be placed at the top of the page and the end of the paragraph. For a paragraph deletion, an asterisk will be placed in the left margin and the paragraph number or letter will be retained in the original sequence followed by the word "Rescinded" in parentheses.

1102.4 If the Plan is completely rewritten, asterisks will not be used but supercession will be indicated at the bottom of the first page.

ANNEX II—1200 NATIONAL RESPONSE TEAM

1201 National Response Team.

1201.1 The NRT consists of representatives from the Primary and Advisory Agencies. It serves as the National body for planning and preparedness actions prior to a pollution discharge and for coordination and advice during a pollution discharge.

1201.2 Membership on the NRT is established by § 1510.32(a). Each Primary and Advisory Agency shall designate a member to the team and sufficient alternates to insure representation in the event that the member is unavailable.

1202 NRT organization.

1202.1 Except for periods of activation because of a pollution incident, the representative of EPA shall be the Chairman and the representative of DOT shall be vice-chairman of NRT. The vice-chairman shall maintain records of the NRT activities along with National and regional plans for pollution response. When NRT is activated for a pollution incident, the Chairman shall be the representative of EPA or DOT, depending upon the area in which the response is taking place.

1203 NRT purpose.

1203.1 The NRT, when not activated for a pollution discharge, serves as a standing committee to recommend needed policy changes in the response organization, to revise this Plan as needed and to evaluate the preparedness of the Agencies and effectiveness of plans for coping with pollution discharges.

1203.2 The NRT shall act as an emergency response team to be activated in the event of a discharge involving oil or hazardous substances which (a) exceeds the response capability of the region in which it occurs; (b) transects regional boundaries; (c) involves significant numbers of persons or nationally significant amounts of property; or (d) when requested by any Primary Agency representative. Each representative, or an appropriate alternate, shall be notified immediately by telephone of activation of NRT.

1204 Responsibilities and functions.

1204.1 Planning and preparedness responsibilities of the NRT are to:

1204.1–1 Maintain a continuing review of regional pollution emergency response operations and equipment readiness to insure adequacy of regional and national planning, and coordination for combating discharges of oil and hazardous substances. RRT shall recommend revision of the National Contingency Plan to CEQ on the basis of observations of response operations;

1204.1–2 Review the functioning of the RRT's to insure that regional plans developed are fully coordinated among involved agencies. It shall serve as a body to which the RRT's may refer for settlement of matters which they cannot resolve;

1204.1–3 Develop procedures to promote the coordination of Federal, State and local governments and private agencies to respond to pollution incidents;

1204.1–4 Consider necessary changes in policy on the basis of continuing evaluation of regional response actions taken in combating discharges of oil and hazardous polluting substances;

1204.1–5 Provide information to the Research and Development Committee, on research requirements, the need for which is not known until discharges of unusual materials or unique circumstances occur;

1204.1–6 Maintain a continuing awareness of review and act upon reports by the Research and Development Committee;

1204.1–7 Maintain a readiness posture to respond to a nationally significant discharges of oil or other hazardous substance;

1204.1–8 Maintain a continuing surveillance of incoming reports from all RRT's and activate NRT when appropriate; and

1204.1–9 Meet quarterly on the first Thursday of March, June, September and December to review pollution emergency response actions of the preceding period, receive reports of the Committee on Revision and consider amendments to the Plan.

1204.2 When activated during a pollution discharge response, Agency representatives shall meet at the call of the Chairman and shall:

1204.2–1 Monitor and evaluate reports generated by the OSC insuring their completeness. Based on this evaluation, NRT may recommend courses of action in combating the discharge through RRT for consideration by the OSC.

1204.2–2 Request other Federal, State, local government or private agencies to consider taking action under their existing authorities to provide resources necessary for combating a discharge or deployment of personnel to monitor response operations.

1204.2–3 Coordinate the actions of regions or districts other than those affected by the pollution emergency to supply needed equipment, personnel, or technical advice to the RRT and OSC. This includes requests, when appropriate, for activating the Special Forces provided by § 1510.54 of the Plan.

1204.2–4 Act as the focal point for national public information releases and for information transfer between the OSC and the Washington, D.C. headquarters of the Agencies concerned, so as to minimize or prevent dissemination of spurious and incomplete information. Public information actions are discussed in Annex VI of this part.

ANNEX III—1300 NATIONAL RESPONSE CENTER

1301 National Response Center location.

1301.1 The National Response Center (NRC) for control of pollution by oil and hazardous substances is established at the Headquarters, United States Coast Guard, Washington, D.C.

1302 NRC purpose.

1302.1 The purpose of the NRC is to provide physical facilities for coordination and control of a pollution emergency should national level involvement be required.

1303 Responsibility for NRC.

1303.1 The Commandant, U.S. Coast Guard, shall provide the necessary communications and plotting facilities and equipment. These will include:

1303.1–1 A continuously manned communication center for receiving reports of discharges;

1303.1–2 Telephone branch lines;

1303.1–3 Teletypewriter circuits;

1303.1–4 The latest updated charts of the Department of Commerce, Interior and Defense for the U.S. waters, the Continental Shelf and the ocean areas adjacent to U.S. territorial waters;

1303.1–5 Technical library on oil and hazardous substances pollution; and,

1303.1–6 Plotting and display provisions to visually depict the geographic position, movement and extent of the pollutant.

1303.2 Primary Agencies shall furnish competent technical personnel to man the NRC as requested, furnish appropriate technical manuals and materials, and such additional administrative support as required to operate the NRC effectively and efficiently.

1304 Communications services available.

1304.1 Telephone (voice) services available include:

1304.1–1 AUTOVON (Automated Voice Network)—General purpose switched voice network of Defense Communications Systems, which serves Continental U.S., Alaska, Europe, Pacific and Panama;

1304.1–2 Washington Tactical Switchboard—Pentagon terminal of the tactical telephone system, operated by USAF;

1304.1–3 FTS–GSA operated government administrative telephone system; and,

1304.1–4 SARTEL—Search and Rescue Command Coordination telephone network including leased Hotline telephone net extending from Halifax to New Orleans.

1304.2 Teletype writer services available include:

1304.2–1 AUTODIN—A defense communications worldwide high speed user data communications system operated for and managed by the DCA to provide both direct user-to-user and store and forward message switching service for DOD and other government agencies;

1304.2–2 SARLANT—Coast Guard-leased teletypewriter system extending from Massachusetts to Texas (used to control and coordinate SAR incidents and to handle other operational traffic and priority administrative communications);

1304.2–3 SARPAC—Same as (2) for the West Coast U.S.; and

1304.2–4 TELEX—Teletypewriter exchange service provided by Western Union that serves Continental U.S., industry and Government offices. TELEX also permits direct connections with international communication carriers and oversea TELEX communications.

1305.1 Information on current and predicted meteorological, hydrologic and oceanographic conditions for the high seas, coastal and inland waters is available from NOAA. If specific capabilities of other agency environmental description and prediction programs are required because of the area or unusual conditions, NOAA will arrange for the provision of such information.

ANNEX IV—1400 PRIMARY AGENCY OFFICE LOCATIONS AND BOUNDARIES

1400 Geographical Boundaries

Regional contingency plans shall be based upon the Standard Federal Regions as shown on page IV–5. Commerce, EPA, and OEP regional geographical boundaries follow tihs delineation.

1401 Standard Federal Regions—Map I

1401.1 U.S. Department of Commerce
1401.2 Environmental Protection Agency
1401.3 Office of Emergency Preparedness
1402 Department fo Transportation—USCG
1403 Department of Defense
1403.1 U.S. Army Corps of Engineers—Division Offices
1403.2 U.S. Army Continental Army Commands
1403.3 U.S. Naval Districts
1403.4 U.S. Air Force Reserve Regions
1404 U.S. Department of the Interior
1404.1 Field Committee Regions
1404.2 U.S. Geological Survey—Area and District Offices

1401.1 DEPARTMENT OF COMMERCE NOAA AND MARAD

The Weather Service Forecast Offices (WSFO) of the National Weather Service are operational 24 hours a day and consequently serve as contact point for the Department of Commerce elements, such as the NOAA and MarAd, participating in the National Oil and Hazardous Substances Pollution Contingency Plan.

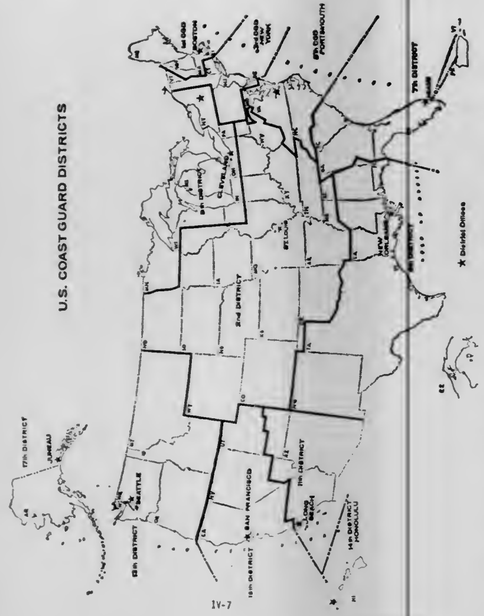
Following list shows Federal regions and designated Department of Commerce contact offices:

Weather Service Forecast Office
Region I
General Aviation Admin. Bldg.
Maverick Street
Logan International Airport
East Boston, Mass. 02128
Phone (617) 567–1718*
Weather Service Forecast Office
Regions II and III
Morris Heights Post Office
P.O. Box 604
Bronx, N.Y. 10453
Phone (212) 584–0327*
Weather Service Forecast Office
Region II
Isla Verde International Airport
San Juan, Puerto Rico 00913
Phone (809) 791–0376*
Weather Service Forecast Office
Region IV
Atlanta Airport
Atlanta, Ga. 30320
Phone (404) 526–7585*

*This is an unlisted number and should only be used for alerting purposes.
[1] 24 hour telephone

Weather Service Forecast Office
Region V
Bldg. C, Sixth Floor
1819 West Pershing Road
Chicago, Illinois 60609
Phone (312) 353–4765*
Weather Service Forecast Office
Region VI
819 Taylor Street, Room 10A44
Forth Worth, Texas 76102
Phone (817) 334–3451*
Weather Service Forecast Office
Region VII
Room 1710
601 E. 12th Street
Kansas City, Missouri 64106
Phone (816) 374–5203*
Weather Service Forecast Office
(Denver County)
Region VIII
2520 Galena Street
Aurora, Colorado 80010
Phone (303) 837–4207*
Weather Service Forecast Office
(San Francisco County)
Region IX
660 Price Avenue
Redwood City, California 94063
Phone (415) 556–0484*
Weather Service Forecast Office
Region IX
International Airport
P.O. Box 9428
Honolulu, Hawaii 96820
Phone (808) 845–2102*
Weather Service Forecast Office
Region X
1121 Federal Building
Seattle, Washington 98104
Phone (206) 442–5908*
Weather Service Forecast Office
Region X
632 6th Avenue
Anchorage, Alaska 99501
Phone (907) 265–4742*

1401.2 ENVIRONMENTAL PROTECTION AGENCY REGIONAL OFFICES



Environmental Protection Agency
Region I, Room 2303
John F. Kennedy Federal Building
Boston, Massachusetts 02203

ANNEX V—1500 COMMUNICATIONS AND REPORTS

1501 Purpose.

1501.1 The communications concerning an oil or hazardous substance discharge are an integral and significant part of the operations. The same precepts govern in these instances as do other operations in which the USCG, EPA and other operating agencies are involved.

1502 Objectives.

1502.1 The objectives of the communications and reports are:

1502.1-1 To speed the flow of information pertaining to pollution discharge;

1502.1-2 To relay advice, instructions and reports pertaining to pollution discharge; and

1502.1-3 To provide for alerting, notification, surveillance and warning of a pollution discharge.

1503 Communications procedures.

1503.1 Normal communication circuits of each Primary Agency shall be used to effectuate this Plan. The national and district or regional offices and telephone numbers of primary alerting and notification offices of interested agencies will be maintained in NRC and as appropriate in RRC.

1503.2 The initial reporting of a pollution discharge by agencies participating in this plan shall be in accordance with the information and format as described in the regional plans. Reports of medium or major discharge received from dischargers or the general public by the NRC shall be relayed by telephone to predesignated OSC, NRC shall evaluate incoming information and immediately advise OEP Disaster Programs Office of potential disaster situations.

1503.3 POLREPS (Pollution Reports) shall be submitted by RRT to NRT in a timely manner as developments occur and at 0800 and 2000 local time on each day of the operation.

1504 Pollution reports.

1504.1 Within 60 days after the conclusion of Federal removal action resulting from a major pollution discharge, the OSC shall submit a complete report of the response operation and the actions taken. Copies will be furnished to the NRT or RRT, as appropriate, together with any other pertinent information available to the forwarding group. The NRT shall then evaluate each situation and will make appropriate recommendations.

1504.2 The report required by 1504.1 above shall include:

1504.2-1 Description of the cause and intial situation;

1504.2-2 Organization of response action and resources committed;

1504.2-3 Effectiveness of response and removal actions by:

a. The discharger;
b. State and local forces;
c. Federal Agencies and Special Forces;

1504.2-4 Unique problems encountered;

1504.2-5 Recommendations on:

a. Means to prevent reoccurrence;
b. Improvement of response actions;
c. Changes in National or Regional Contingency plans to improve.

ANNEX VI—1600 PUBLIC INFORMATION

1601 Introduction.

1601.1 When a major pollution discharge occurs, it is imperative that the public be provided promptly with accurate information on the nature of the discharge and what steps are being taken to correct the problem. This policy must be followed to obtain understanding from the public, ensure cooperation for all interested parties and to check the spread of misinformation. National Administration Policy and the Freedom of Information Act both call for maximum disclosure of information.

1602 National News Office.

1602.1 When the NRT is activated, the team chairman will contact the most appropriate Primary Agency and ask it to detail a professional information officer to establish and direct a National News Office. Requests by the Director of the National News Office for an appropriate number of professional and clerical assistants will be met by one or more of the Primary Agencies.

1602.2 The Director of the National News Office will be responsible for overall supervision of public information activities. While the Director of the Regional News Office will have considerable freedom in responding to news inquiries, he will work under the direction of the Director of the National News Office. The closest possible coordination will be maintained between the National News Office in Washington and the Regional News Office.

1602.3 Promptly after his designation, the Director of the National News Office will contact the White House Press Office and the Office of the Director of Communications for the Federal Government to arrange whatever information assistance may be required by these offices.

1602.4 All written news releases involving major policy considerations will be cleared by the Chairman of the NRT or in his absence the vice-chairman. Situation reports and other factual releases will not require formal clearance.

1602.5 The Director of the National News Office will have free access to meetings of the NRT and will be consulted on the possible public reaction to the courses of action under consideration by the NRT.

1602.6 At appropriate intervals the Director of the National News Office may arrange news conferences at which the Chairman of the NRT, the OSC or other informed officials will make progress reports and respond to questions from the media representatives.

1602.7 The Director of the National News Office will keep appropriate press offices posted on developments. These include the press offices of the Secretaries or Director of the Primary Agencies to the National Contingency Plan; Governors, Senators and Representatives whose States or Districts are affected by the incident; and, the mayor and other responsible local officials in affected communities.

1602.8 As long as public interest warrants, at least one written news release or status report per day will be issued by the National News Office and the Regional News Office reporting progress.

1602.9 The National News Office will be provided with adequate space, telephones, typewriters, communications equipment and other supplies by the U.S. Coast Guard at U.S. Coast Guard headquarters, Washington, D.C., where the NRC is housed. The Director of the National News Office will determine what equipment and supplies are needed to ensure an orderly flow of information and to accommodate visiting members of the news media.

1603 Regional News Office.

1603.1 When an RRT is activated, the Chairman will contact the most appropriate agency and ask it to detail a professional public information officer to establish and direct a Regional News Office. Any primary Agency may by request to the RRT, place its designated representative on the staff of the Regional News office to advise and assist the Director. The Regional News Office should be set up at or near the location where the OSC is stationed. Requests by the Director of the Regional News Office for appropriate professional and clerical assistance will be met by one or more of the primary agencies.

1603.2 The Director of the Regional News Office will follow the procedures outlined above for the Director of National News Office in contacting the press offices of State and local officials, in arranging appropriate public information liaison with industries and other concerned interests, and in issuing at least one daily written news release.

1603.3 All news releases involving major policy considerations will be cleared by the Chairman of the RRT.

1603.4 The Director of the Regional News Office will have free access to meetings of the RRT and should be consulted on the

V 38-155 AUG 13 73 XUM

possible public reaction to the courses of action under consideration by the RRT.

1603.5 The Regional News Office will be provided with adequate space, telephones, typewriters, communications equipment and other supplies by the Primary Agency which is providing the RRC. The Director of the Regional News Office will determine what equipment and supplies are needed to ensure an orderly flow of information and to accommodate visiting members of the news media.

1604 Washington, D.C., public information contact.

1604.1 If the NRT has not been activated, the Director of the Regional News Office will ask the most appropriate Primary Agency to assign a public information officer in Washington, D.C., to serve as a contact point for queries made in Washington, D.C. The information officer assigned to this task will follow the procedures outlined above for the Director of the National News Office in contacting the press offices of the White House and Congressional and Federal officials.

1605 Interim Public Information Director.

1605.1 In the period following a discharge and before the need for a Federal response is determined, information activities will be directed by the public information personnel of the same Primary Agency which will provide the predesignated OSC. These activities will be conducted in accordance with the information policies of that agency.

1606 Special public information procedures for Senators, Representatives, Congressional Aides and Staff Members, White House Representatives and other VIP's.

1606.1 The Director of the National News Office or the Director of the Regional News Office will arrange, on request, to perform special public information services for VIP's including: notifying the media of the time, place and purpose of the VIP visits; making press conference arrangements; and, arranging for interviews with the VIP by interested members of the media.

1607 Special public information procedures for salesmen.

1607.1 Public information officers assigned to pollution emergencies will refer salesmen to technical personnel designated to evaluate their wares.

1608 Special public information procedures for the general public.

1608.1 In responding to queries from the general public, public information officers will advise the callers or arrange to have the callers advised on what the latest press release has reported.

1609 Special public information procedures—correspondence.

1609.1 After the crisis has subsided, a model letter reporting on the situation will be drafted by the public information personnel assigned to the problem. After the model letter has been approved by the Chairman of the NRT or the RRT, copies will be sent to the Primary Agencies for their guidance in responding to mail inquiries.

ANNEX VII

1700 LEGAL AUTHORITIES

1700.1 Federal Statutes, Regulations and Administration orders relative to oil pollution control are administered by several Departments and Agencies. The following is a tabular summation of the more important of these legal authorities.

1710 Federal Oil Pollution Control Statutes

	STATUTES	OPERATING AGENCIES INVOLVED	PROHIBITED ACT OR AUTHORIZATION	TERRITORIAL APPLICATION	SANCTIONS	EXCEPTED DISCHARGES
1711	Refuse Act 1899 (33 U.S.C.407 et seq.)	1.CORPS 2.U.S.C.G. 3.Customs 4.JUSTICE	To discharge from ship. . . (foreign & domestic) or from shore or water front facility, any refuse matter of any kind or description (even commercially valuable petroleum).	1.U.S.navigable waters (USNW) 2.Tributaries, if refuse floats or washes into USNW. 3.On banks, if likely to be washed into USNW.	1.$500.00 - $2500.00; 30 days to 1 yr. or both 2.Vessel liable "in rem" for penalties.	"sewage" flowing from streets and sewers.
	* * * *	* * * *	* * * *	* * * *	* * * *	* * * *
1712	Federal Water Pollution Control Act, as amended. 1[33 U.S.C. 1151 et seq.)	1.EPA 2.DOT 3.CORPS 4.Customs 5.JUSTICE	Discharge, in harmful quantities, of oil or hazardous substances to the waters of the U.S. Effluent Standards, National Standards of Performance, Water Quality Standards.	U.S. waters or adjoining shorelines or the waters of the contiguous zone.	1.Failure to report prohibited discharge:(a)fine up to-$10K or (b) imprisonment for up to one year. 2.Prohibited discharge of oil or hazardous substance-civil penalty, $K. 3.Violation of regulations-$K. 4.Removal liability costs: (a)vessel $14M or $100/grt; (b)onshore or offshore facility, $6M.	1.As allowed by regulations, standards or permits. 2.In the contiguous zone as permitted by the 54 Convention, as amended in 1969.
	* * * *	* * * *	* * * *	* * * *	* * * *	* * * *
1713	Oil Pollution Act-1961, as amended, (33 U.S.C. 1001-1015)Implements International Convention on Prevention of Pollution of Sea by Oil.	1.U.S.C.G. 2.Customs 3.CORPS 4.JUSTICE 5.State	1.Any discharge or escape of persistant oil from vessels subject to Act, i.e., all U.S. seagoing vessels including tankers (whose tanks carry only oil). Except:(a)Tankers under 150 gross tons; (b)Other vessels under 500 gross tons; (c)Vessels on whaling operations;	1.Prohibited zone: (a)measured from baseline from which territorial sea is established; (b)Generally extends 50 miles to sea; (c)Extends 100 miles to sea off Northeast Coast of U.S.; (d)Extends out 100 miles to sea off West Coast of Canada; and (e)Modifications published in Notices to Mariners.	1.Penalty: (a)$500.00 to $2500.00 or 1 yr. or both-any person or company; (b)Ship other than one owned & operated by U.S. liable "in rem" for above penalty, and (c)Suspension or revocation of license.	1.Discharges: (a)To secure safety of ship, cargo or life at sea; (b)Due to damage to vessel or unavoidable leakage, if all reasonable precautions taken after damage occurred

		(d)Vessels while using Great Lakes & tributaries and. (e)Naval vessels and auxiliaries. 2.Any discharge of oil from vessel subject to Act, of 20,000 or-plus gross tons, whose bldg. contract executed on or after May 18, 1967. 3.Vessels, subject to Act, which are tankers or use oil fuel must keep Oil Record Book with entries of certain discharges or escapes of oils. 4.Forward to State Dept. evidence of discharge or escape from foreign vesl.	2.Unlimited-Except if in Master's opinion special circumstances make it neither reasonable nor practicable to retain oil on board, discharge, outside prohibited zone is permitted. 3.Penalties re. Oil Record Book: (a)Person failing to comply - fine of from $500.00 to $1,000.00; (b)Person making false entry (i)fine - $500.00 to $1,000.00, (ii)imprisonment for 6 mos. or both. 4.Prohibited zone (No. 1 above).	or leakage discovered; (c)Of residue from fuel or lube oil purification or clarification as far from land as possible; (d)Oily mixtures from bilges containing only lube oil drained or leaked from machinery spaces; and (e)Vessels, other than tanker, proceeding to a port with inadequate reception facilities.

1757	Convention for Prevention of Pollution by Sea by Oil, (1954) (12 U.S.T. 2989; (1962) amended 17 U.S.T. 1523)	U.S. (1961)-Belgium, Denmark, Finland, France, West Germany, Greece, Italy, Japan, Liberia, Mexico, Netherlands, Nigeria, Norway, Panama, Spain, Sweden, U.K., inter alia.	1. To prevent discharge or escape of oily substances by sea-going vessels - See Oil Pollution Act of 1961 as amended in 1966 for U.S. implementation. (33 U.S.C. 1001-1015) (Note: Oily substance is defined as persistent oil) 2. Maintenance of Oil Record Book.	1. Prohibited zone: All seas within 50 miles from nearest land (baseline from which territorial sea is established) and other areas as defined in the convention.

ANNEX VIII—1800 DOCUMENTATION AND COST RECOVERY

1801 Introduction.

1801.1 The OSC in charge at the scene of a discharge may be from any one of several agencies; it is necessary, therefore, to establish uniform procedures for collection of samples and information consistent with the several phases in Federal response operations. Necessary information and sample collection must be performed at the proper times during the Federal involvement in removal operations for the purpose of later use in identifying the party responsible for removal cost recovery. Time is of great importance since wind, tide and current may disperse or remove the evidence. Additionally, witnesses may no longer be available. Thus, during the response phases, the OSC must take the necessary action to ensure that information, records, and samples adequate for legal and research purposes are obtained and safeguarded for future use. Additional guidance can be found in EPA's "Field Detection and Damage Assessment Handbook".

1802 Notification of Counsel.

1802.1 Immediately upon notification that a discharge has occurred, the RRT or NRT members, as appropriate, shall notify their respective regional and departmental attorneys, as provided herein and as detailed in regional plans.

1802.2 Coordination of appropriate counsel will be effected by counsel of the Department responsible for furnishing the OSC. Coordination will be for joint and several actions concerning legal matters regarding the operation and the Plan and for advising the owner or operator that a determination has been made under subsection 311(c)(1) of the Act that removal is not being properly accomplished.

1802.3 The information and reports obtained by the OSC are to be transmitted to the RRC. Copies will then be forwarded to the NRC, members of the RRT, and others, as appropriate. The representative of the Agency on the RRT having cost recovery authority will then refer copies of the pollution reports to his respective agency counsel.

1803 Legal notice to suspected discharger.

1803.1 The owner, operator, or other appropriate responsible person shall be notified of Federal interest and potential action in a pollution discharge by the agency furnishing the OSC. This notice shall include advice of the owner or operator's liability for proper removal of the discharge in accordance with section 311(f) of the Act; the need to perform removal in accordance with existing Federal and State statutes and regulations, and this Plan; and identification of the OSC.

1804 Sample collection procedures to be followed by OSC.

1804.1 Several precautions must be observed when taking and handling liquid samples for analyses as the character of the sample may be affected by a number of common conditions. These precautions concern the following: (a) The composition of the container; (b) cleanliness of the container; and, (c) manner in which the sample is taken.

1804.2 In taking such samples, the following procedures are to be followed in all cases:

1804.2-1 Glass or other appropriate containers of suitable size shall be used. The portion of the closure (sealing gasket or cap liner) which may come into contact with the sample in the container is of considerable importance. When oil or petroleum hydrocarbons are to be sampled, the closure should be made of glass, aluminum foil, or teflon. Pollutants other than oil may require special precautions such as jacketing of glass containers or different closure material. The analysis laboratory should be consulted whenever a question arises as to the appropriateness of any packaging material.

1804.2-2 Previously unused containers are preferred. Containers that have been cleaned with a strong detergent, thoroughly rinsed and dried may be used.

1804.2-3 Some explanatory notes covering the above procedures are as follows: (a) Glass or other appropriate containers always must be used because plastic containers, with the exception of teflon, have been found in some cases to absorb organic materials from water and, in other cases, compounds have been dissolved from plastic containers; (b) as it is desirable to take a large sample of the pollutant, proper skimming techniques should be used to obtain a sufficient amount of oil for analysis; and, (c) because pollution conditions change rapidly, samples should be taken promptly, and the time sequences and locations noted.

1804.2-4 Consult with the analysis laboratory personnel relative to special samples and unusual problems.

1804.2-5 Samples collected are to be transmitted for analysis, using special courier or registered mail (return receipt requested) and observing the procedures outlined below. Appropriate analytical laboratories are designated in the regional plan. Reports of laboratory analysis will be forwarded to the appropriate RRT for transmittal to counsel.

1805 Photographic records.

1805.1 Photographs should be taken to show the source and the extent of pollution, if possible, using both color and black and white film. The following information should be recorded on the back of each photographic print: (a) Name and location of vessel or facility; (b) date and time the photo was taken; (c) names of the photographer and witnesses; (d) shutter speed and lens opening; and (e) type of film used and details of film processing. (The immediate developing type of photographic process may be of major assistance to the less-than-professional photographer by allowing on-the-spot inspection of results and "retakes" as needed to obtain an acceptable photograph.)

ANNEX IX—1900 FUNDING

1901 General.

1901.1 The primary thrust of this Plan is to encourage the person responsible for a discharge to take appropriate remedial actions promptly. Usually this will mean that the cost of removal of the discharge shall be borne by the person responsible for the discharge. The OSC and other officials associated with the handling of a pollution emergency shall make a substantial effort to have the discharger voluntarily accept this responsibility.

1901.2 If the discharger does not voluntarily act promptly to remove the discharge of oil or hazardous substances, Federal discharge removal actions may be initiated pursuant to section 311(c)(1) of the Act. The discharger, if known, is liable for the reasonable costs of such Federal removal actions in accordance with section 311(f) of the Act.

1901.3 Actions undertaken by the Primary Agencies in response to pollution emergencies shall be carried out under existing programs and authorities insofar as practicable.

1901.4 It is not envisioned that any Federal agency will make resources available, expend funds or participate in operations in connection with pollution emergency operations unless such agency can so respond in conformance with its existing authority. Authority to expend resources will be in accordance with agencies' basic statutes and, if required, through cross-servicing agreements.

1901.5 This Plan encourages interagency agreements whenever specific reimbursement agreements between Federal agencies are deemed necessary to ensure that the Federal resources will be available for a timely response to a pollution emergency.

1902 Funding responsibility.

1902.1 The funding of removal actions necessitated by a discharge from a Federally operated or supervised facility is the responsibility of the operating or supervising agency.

1902.2 Funding of response actions not associated with the removal activity, such as scientific investigations, law enforcement or public relations, is the responsibility of the agency having statutory or executive responsibility for those specific actions.

1903 Agency funding.

1903.1 The Environmental Protection Agency can provide funds to insure timely initiation of discharge removal actions in those instances where the OSC is an EPA representative. Funding of continuing Phase III and IV actions, however, shall be determined on a case-by-case basis by the Division of Oil and Hazardous Materials at EPA. Inasmuch as EPA does not have funds provided for this purpose by statute or regulation, initiation of Phase III and IV activities is funded out of operating program funds.

1903.2 The U.S. Coast Guard pollution control efforts are funded under "Operating Expenses." These funds are utilized in accordance with agency directives and applicable regional plans.

1903.3 The Department of Defense has two specific sources of funds which may be applicable to a pollution incident under appropriate circumstances. (This does not consider military resources which might be made available under specific conditions.)

1903.3-1 Funds required for removal of a sunken vessel or similar obstruction to navigation are available to the Corps of Engineers through Civil Functions Appropriations, Operations and Maintenance, General.

1903.3-2 The U.S. Navy has funds available on a reimbursable basis to conduct salvage operations.

1904 Disaster relief funds.

1904.1 Certain pollution control emergency response activities may qualify for reimbursement as disaster relief functions. In making a declaration of a "major disaster" for a stricken area, the President may allocate funds from his Disaster Relief Fund, administered by the Director, Office of Emergency Preparedness. After the President has declared a "major disaster" and authorized allocation of funds, the Director may authorize certain reimbursements to Federal agencies for disaster assistance provided under direction of his office. Applicable policies and procedures are stated in Title 32, Chapter XVII, Part 1709, "Reimbursement of Other Federal Agencies Performing Major Disaster Relief Functions".

1904.2 In addition to the authority provided for actions taken subsequent to the declaration of a "major disaster", if the President determines that a major disaster is imminent, he is authorized pursuant to section 221, PL 91-606 to use the resources of the Federal Government to avert or lessen the effects of such disaster before its actual occurrence

1904.3 The Director, OEP, may also make financial assistance available to State governments and through the States to local governments in accordance with policies and procedures stated in Title 32, Chapter XVII, Part 1710, "Federal Disaster Assistance".

1905 Pollution revolving fund.

1905.1 A pollution revolving fund, administered by the Commandant, USCG, has

V 38 155 AUG 13 73 XUM

been established pursuant to subsection (k) of section 311 of the Act. Regulations governing the administration and use of the fund are contained in 33 CFR 153.301–153.319.

1905.2 Pursuant to section 311(c)(2)(H) of Public Law 92–500, the State or States affected by a discharge of oil or hazardous substance may act where necessary to remove such discharge and may, pursuant to regulations which the Commandant, USCG, may prescribe, be reimbursed from the fund for the reasonable costs incurred in such removal.

1905.2–1 Removal by a State is necessary when the OSC determines that the owner or operator of the vessel, onshore facility, or offshore facility from which the discharge occurs does not effect removal properly and that:

1905.2–1.1 State action is required to minimize or mitigate significant damage to the public health or welfare which Federal action cannot minimize or mitigate, or

1905.2–1.2 Removal or partial removal can be effected by the State at a cost which is not significantly greater than the cost which would be incurred by the Federal departments or agencies.

1905.2–2 Nothwithstanding the above, State removal actions are not necessary if not in compliance with Annex X of this Plan.

1905.2–3 State removal operations are considered to be Response Phase III or Response Phase IV actions to the extent that the same operations undertaken by a Federal agency would be so considered.

1905.2–4 When supervised by the State agency designated pursuant to § 1510.23(a) of this Plan, removal operations of a local government are considered to be actions of the State for purposes of this section.

1906 Obligations of funds.

1906.1 Care must be exercised to ensure that misunderstandings do not develop about reimbursement of funds expended for removal activities. The OSC should not knowingly request services for which reimbursement is mandatory unless reimbursement funds are known to be available. Similarly, the agency supplying a reimbursable service should determine the source of reimbursement before committing resources necessitating reimbursement.

1906.2 OSC shall exert adequate control of removal operations so that he can certify that reimbursement from the fund is appropriate.

1906.3 Detailed instructions on utilization of the fund are contained in USCG Comptroller Manual.

1907 Planning.

1907.1 The availability of funds and requirements for the reimbursement of expenditures by certain agencies must be included in resource utilization planning. Regional and subregional contingency plans should show what resources are available under what conditions and cost arrangements.

1907.2 Local interagency agreements may be necessary to specify when reimbursement is required.

ANNEX X—2000 SCHEDULE OF CHEMICALS TO REMOVE OIL & HAZARDOUS SUBSTANCES DISCHARGES

2001 General.

2001.1 This Schedule shall apply to the waters of the United States and adjoining shorelines, and the waters of the contiguous zone.

2001.2 This Schedule applies to the use of any chemicals as hereinafter defined that may be used to remove oil and remove or neutralize hazardous substances discharges.

2001.3 This Schedule advocates development and utilization of mechanical and other control methods that will result in removal of oil and hazardous substances discharges from the environment with subsequent proper disposal.

2001.4 It is the intent of this Schedule that no harmful quantities of any substances be applied to the waters to remove or neutralize the effects of oil or hazardous substances discharged.

2001.5 Relationship of the Environmental Protection Agency to other Federal and State agencies in implementing this Schedule: in those States with more stringent laws, regulations or written policies regulating chemical use, such State laws, regulations or written policies shall govern.

2001.6 It has been determined that because of the overriding need for prompt initiation of discharge removal actions, no formal permit as provided for by section 402 of the Act, shall be required before application of chemicals to mitigate the effects of a discharge. The provisions of § 1510.21(g) of this Plan shall apply.

2002 Definitions. Substances applied to oil or floating hazardous substances discharges are defined as follows:

2002.1 Collecting agents—are those substances that concentrate, congeal, entrap, fix, gell, or make the pollutant mass more rigid or viscous in order to facilitate removal from the water's surface.

2002.2 Sinking agents—are those substances that can physically sink the pollutant below the water's surface.

2002.3 Chemical agents—are those elements, compounds or mixtures that disperse, dissolve, emulsify, neutralize, precipitate, oxidize or reduce the pollutant on the water's surface or in the water column.

2003 Collecting agents—are considered to be generally acceptable providing that these materials do not in themselves or in combination with the pollutant increase the environmental hazard.

2003 Collecting Agents—may be used only when authorized by the On-Scene Coordinator on a case by case basis. The OSC can authorize that use only after considering the effects on the performance of the collecting agent of ambient temperatures, wind, wave action, debris and other foreign material in the water, type of oil, and availability of removal operations to remove the collected oil. Technical guidance on application techniques and dosage rates will be provided by EPA.

2004 Sinking Agents—shall not be used for oil and hazardous substances pollution control.

2005 Authorities controlling use of chemical agents.

2005.1 *Major and medium discharges.* Chemical Agents may be used in any place, at any time, and in quantities designated by the On-Scene Coordinator, when their use will:

2005.1–1 In the judgement of the OSC, prevent or substantially reduce hazard to human life or limb or substantially reduce explosion or fire hazard to property;

2005.1–2 In the judgement of EPA, in consultation with appropriate State agencies, prevent or reduce substantial hazard to a major segment of the population(s) of vulnerable species of waterfowl; and,

2005.1–3 In the judgement of EPA, in consultation with appropriate State agencies, result in the least overall environmental damage or interference with designated water uses.

2005.2 *Minor discharge.* The provisions of section 2005.1–1 shall apply. The use of chemical agents in any other situation shall be subject to this Schedule except in States where State laws, regulations, or written policies that govern the prohibition, use, quantity, or type of chemical are in effect. In such States, the State laws, regulations or written policies shall be followed during the removal operation.

2006 *Restrictions on use of chemical agents for pollution control purposes.* Except as noted in 2005.1 above, chemical agents shall not be applied to the waters to remove discharges:

2006.1 of distillate fuel oils;

2006.2 of less than 200 barrels of oil;

2006.3 from any beach;

2006.4 in waters less than 100 feet deep;

2006.5 in waters, identified in regional plans, containing major populations, or breeding or passage areas of species of fish or marine life which may be damaged or rendered commercially less marketable by exposure to chemical agents or dispersed pollutants.

2006.6 in waters where winds and/or currents are of such velocity and direction that chemically treated mixtures would likely, in the judgement of EPA, be carried to shore areas within 24 hours; or

2006.7 on any waters where such use may affect surface drinking water supplies.

2007 Chemical agent use. Chemical agents may be used for removal of oil discharges in accordance with this Schedule if other control methods are judged to be inadequate or infeasible, and if:

2007.1 Technical information on the physical, chemical, and toxicity characteristics of the chemical agents has been submitted in duplicate to the DOHM, EPA, Washington, D.C., 20460, at least 60 days prior to the chemical agent's use. The submission shall include the information required in sections 2007.3 and 2007.4 as well as dispersant effectiveness and toxicity data obtained in accordance with the EPA standard analytical procedures specified in "Standard Dispersant Effectiveness and Toxicity Test" (EPA R2–73–201, May 1973).

2007.2 Information furnished in accordance with section 2007.1 shall be maintained on file by EPA to provide technical guidance to pre-designated OSC's on the acceptable circumstances of use and dosage rates for the chemical agent(s).

2007.3 Chemical agent containers shall be labeled with the following information:

2007.3–1 Name, brand or trademark, if any, under which the chemical agent is sold;

2007.3–2 Name and address of the manufacturer, importer or vendor;

2007.3–3 Flash point;

2007.3–4 Freezing or pour point;

2007.3–5 Viscosity;

2007.3–6 Special handling, storage or worker safety precautions;

2007.3–7 Recommend application procedure(s), concentration(s), and conditions for use depending upon water salinity, water temperature, and types and ages of the pollutants; and

2007.3–8 Date of production and shelf life.

2007.4 Information to be supplied to EPA:

2007.4–1 Chemical agent name and percentage of each component;

2007.4–2 Specific gravity;

2007.4–3 Solubility in fresh or salt waters at 15°C;

2007.4–4 Concentrations of potentially hazardous trace materials, including, but not necessarily being limited to arsenic, chromium, copper, lead, mercury, nickel or zinc; or chlorinated hydrocarbons; and

2007.4–5 Description of the analytical methods employed and results obtained in determining the chemical and biological characteristics of the chemical agent. This information shall be described in an official report from a recognized laboratory.

2007.5 For purposes of research, development and demonstration, EPA may authorize use of chemicals in specified amounts and locations under controlled conditions irrespective of the provisions of this Schedule. Guidelines have been published (FEDERAL REGISTER, Vol. 36, No. 75, April 17, 1971) for this purpose.

NOTE: In addition to those agents defined and described in section 2002 above, the following materials which are not a part of this Schedule, with cautions on their use, should be considered:

1. Biological agents—are microbiological cultures or enzymes or nutrient additives that are deliberately introduced into an oil or hazardous substance spill for the specific purpose of encouraging or speeding biodegradations to mitigate the effects of a spill. These agents may be used only when such use is the most desirable technique for removing oils or hazardous substances and only after obtaining approval from the appropriate state and local public health and water pollution control officials. Biological agents may be used only when a listing of organisms or other ingredients contained in the agent is provided to EPA in sufficient time for review before its use.

2. Burning agents—are those materials which, through physical or chemical means, improve the combustibility of the materials to which they are applied. Burning agents may be used and are acceptable so long as they do not in themselves, or in combination with the material to which they are applied, increase the pollution hazard and their use is approved by appropriate Federal, State and local fire prevention officials.

ANNEX XI—2100 NON-FEDERAL INTERESTS

2101 General policy.

2101.1 The policy of the Federal government is to initiate discharge removal operations when required and action is not being taken by the discharger or other private or public organization.

2110 Planning and preparedness.

2110.1 The planning and preparedness functions incorporated in regional contingency plans also apply to non-Federal resources. The State and local governments and private interests are to be encouraged to participate in Regional planning and preparedness functions.

2110.2 State and local government agencies are encouraged to include contingency planning for discharge removal in existing and future emergency and disaster planning activities. States are invited to provide observers to the planning activities of the appropriate RRT. (§1510.34(c) of the Plan)

2120 Pollution emergency response operations.

2120.1 State agencies may be reimbursed from the fund established by section 311(k) of the Act for reasonable costs incurred in the removal of oil and hazardous substances discharges from the waters and shorelines of the United States. The procedures to be followed are detailed in section 1905, Annex IX of this part.

2120.2 Regional Contingency Plans should provide for coordination with local government organizations such as as county and city or town governments. This is especially important for purposes of traffic control, land access and disposal of pollutants removed in response operations.

2130 Volunteers.

2130.1 In many pollution emergency situations in the coastal areas, volunteers desiring to assist in mitigating the effects of the pollution discharge response effort present themselves at the scene. Regional contingency plans should provide for this possibility and through the direct participation of State observers in plan development, should establish procedures that will result in organized and worthwhile employment of these persons.

2130.2 Regional plans should provide for the organization and directing of volunteers by USCG, other Federal, local or State officials knowledgeable in contingency operations and capable of providing mature, responsive and practical leadership.

2130.3 Regional plans should also provide specific areas in which volunteers should be used such as: Beach surveillance, logistical support, bird and other wildlife treatment and scientific investigations. Normally they should not be used for physical removal of pollutants. Specifically, if a substance is toxic to humans, volunteers should not be permitted at on-scene operations.

2130.4 Information for and education of volunteer personnel on general contingency operations and procedures as well as specific details of the discharge is mandatory if response efforts are to be effective and conclusive. Regional plans should provide for this volunteer education and training program for rapid, on-site use.

2130.5 During contingency plan operations, information on the discharge and removal efforts should be provided to volunteers frequently to insure coordinated effort and a sense of meaningful participation.

ANNEX XV—2500 TECHNICAL INFORMATION

2501 Technical Library.

2501.1 A technical library of pertinent pollution control technical documents will be maintained in the NRC and in each RRC. Such information should be useful as reference information to the experienced OSC and instructional to less experienced personnel.

2502 Specific references.

2502.1 As a minimum the following reference documents will be maintained in the NRC and in each RRC technical library.

2502.1–1 Current National Oil and Hazardous Substances Pollution Contingency Plan.

2502.1–2 Current Regional and State Oil and Hazardous Substances Pollution Contingency Plan.

2502.1–3 Current Directory of the American Council of Independent Laboratories.

2502.1–4 The Encyclopedia of Geochemistry and Environmental Sciences, Vol. IVA—Fairbridge; Van Nostrand Reinhold Company, New York, 1972.

2502.1–5 Encyclopedia of Chemical Technology, Vol. 18; Kirk-Othmer, Interscience Publishers, 1969.

2502.1–6 Control of Spillage of Hazardous Polluting Substances; USDOI, FWQA Publication 15090 FOZ, October 1970.

2502.1–7 "Regulations, Practices and Plans for the Prevention of Spills of Oil and Hazardous Polluting Substances"; Vol. I, (EPA Report OHM 75–05–002).

2502.1–8 Chemical Data Guide for Bulk Shipment by Water (U.S. Coast Guard CG–388).

2502.1–9 "The Restoration of Oil Contaminated Beaches" (USDOI–FWPCA Publication 15080 EOS, March 1970).

2502.1–10 U.S. Corps of Engineers' Regulations ER 500–1–1 and ER 500–1–8 Emergency Employment of Army Resources (Natural Disaster Activities).

2502.1–11 Natural Disaster Manual for State and Local Applicants (OEP Circular 4000.4A, 1968).

2502.1–12 Handbook for Federal Agency Inspectors (OEP Circular 4000.6A, February 1969).

2502.1–13 Handbook of Toxicology (National Academy of Sciences/National Research Council).

2502.1–14 Character and Control of Sea Pollution by Oil (American Petroleum Institute, October 1963).

2502.1–15 Manual for the Prevention of Water Pollution During Marine Oil Terminal Transfer Operations (American Petroleum Institute, 1964).

2502.1–16 46 CFR Part 146, Transportation or Storage of Explosives or other Dangerous Articles or Substances, and Combustible Liquids on Board Vessels.

2502.1–17 33 CFR, Parts 3, 6, 121, 122, 124–6. Security of Vessels and Waterfront Facilities (USCG CG 239).

2052.2 In addition to the library specified above, the RRC should have provision, either in publications or by computer terminal, for access to the EPA Technical Assistance Data System (TADS) and the USCG Chemical Hazard Response Information System (CHRIS) when these systems are available.

2503 Definitions of terms.

2503.1 *API Gravity.* An empirical scale for measuring the density of liquid petroleum products, the unit being called the "degree API".

2503.2 *Ash.* Inorganic residue remaining after ignition of combustible substances determined by definite prescribed methods.

2503.3 *Asphalts.* Black, solid or semisolid bitumens which occur in nature or are obtained as residues during petroleum refining.

2503.4 *Bilge Oil.* Waste oil which accumulates, usually in small quantities, in the lower spaces in a ship, just inside the shell plating. Usually mixed with larger quantities of water.

2503.5 *Blowout.* A sudden violent escape of gas and oil from an oil well when high pressure gas is encountered and preventive measures have failed.

2503.6 *Boiling Point.* The temperature at which the vapor pressure of a liquid is equal to the pressure of the atmosphere.

2503.7 *Bunker "C" Oil.* A general term used to indicate a heavy viscous fuel oil.

2503.8 *Bunker Fuel.* A general term for heavy oils used as fuel on ships and in industry. It often refers to No. 5 and 6 fuel oils

2503.9 *Bunkering.* The process of fueling a ship.

2503.10 *Coker Feed (or fuel).* A special fuel oil used in a coker furnace, one of the operating elements of a refinery.

2503.11 *Conversion tables.*

aviation gasolines	8.3–9.2
motor gasolines	8.2–9.1
kerosenes	7.7–8.3
gas oils	7.2–7.9
diesel oils	7.0–7.9
lubricating oils	6.8–7.6
fuel oils	6.6–7.0
asphaltic bitumens	5.9–6.5

(As a general rule-of-thumb use 6.5 barrels or 250 gallons per ton of oil.)

2503.13 *Crude oil.* Petroleum as it is extracted from the earth. There may be several thousands of different substances in crude oil, some of which evaporate quickly while others persist indefinitely. The physical characteristics of crude oils may vary widely. Crude oils are often identified in trade jargon by their regions of origin. This identification may not relate to the apparent physical characteristics of the oil. Commercial gasoline, kerosene, heating oils, diesel oils, lubricating oils, waxes, and asphalts are all obtained by refining crude oil.

2503.14 *Demulsibility.* The resistance of an oil to emulsification, or the ability of an oil to separate from any water with which it is mixed. The better the demulsibility rating, the more quickly the oil separates from water.

2503.15 *Density.* Density is the term meaning the mass of a unit volume. Its numerical expression varies with the units selected.

2503.16 *Emulsion.* A mechanical mixture of two liquids which do not naturally mix as oil and water. Water-in-oil emulsions have the water as the internal phase and oil as the external. Oil-in-water emulsions have water as the external phase and the internal phase is oil.

2503.17 *Fire Point.* The lowest temperature at which an oil vaporizes rapidly enough to burn for at least 5 seconds after ignition, under standard conditions.

2503.18 *Flash Point.* The lowest temperature at which an oil gives off sufficient vapor to form a mixture which will ignite, under standard conditions.

2503.19 *Fraction.* Refinery term for a product of fractional distillation having a restricted boiling range.

2503.20 *Fuel oil grade.* Numerical ratings ranging from 1 to 6. The lower the grade number, the thinner the oil is and the more easily it evaporates. A high number indicates a relatively thick, heavy oil. No. 1 and No. 2 fuel oils are usually used in domestic heaters, and the others are used by industry and ships. No. 5 and 6 oils are solids which must be liquified by heating. Kerosene, coal oil, and range oil are all No. 1 oil. No. 3 fuel oil is no longer used as a standard term.

2503.21 *Innage.* Space occupied in a product container.

2503.22 *In personem.* An action *in personem* is instituted against an individual, usually through the personal service of process, and may result in the imposition of a liability directly upon the person of a defendant.

2503.23 *In rem.* An action *in rem* is one in which the vessel or thing itself is treated as offender and made defendant without any proceeding against the owners or even mentioning their names. The decree in an action *in rem* is enforced directly against the *res* by a condemnation and sale thereof.

2503.24 *Load on top.* A procedure for ballasting and cleaning unloaded tankers without discharging oil. Half of the tanks are first filled with seawater while the others are cleaned by hosing. Then oil from the cleaned tanks, along with oil which has separated out in the full tanks, is pumped into a single slop tank. The clean water in the full tanks is then discharged while the freshly-cleaned tanks are filled with seawater. Ballast is thus constantly maintained.

2503.25 *Oil films.* A slick thinner than .0001 inch and may be classified as follows:

Standard Term	Gallons of Oil Per Square Mile	Appearance
"barely visible"	25	barely visible under most favorable light conditions
"silvery"	50	visible as a silvery sheen on surface water
"slightly colored"	100	first trace of color may be observed
"brightly colored"	200	bright bands of color are visible
"dull"	666	colors begin to turn dull brown
"dark"	1332	Much darker brown

NOTE: Each one-inch thickness of oil equals 5.61 gallons per square yard or 17,378,709 gallons per square mile.

2503.26 *Outage.* Space left in a product container to allow for expansion during temperature changes it may undergo during shipment and use. Measurement of space not occupied.

2503.27 *pH.* Term used to express the apparent acidity or alkalinity of aqueous solutions; values below 7 indicate acid solutions and values above 7 indicate alkaline solutions.

2503.28 *Pour Point.* The lowest temperature at which an oil will flow or can be poured under specified conditions of test.

2503.29 *Residual oil.* A general term used to indicate a heavy viscous fuel oil.

2503.30 *Scuppers.* Openings around the deck of a vessel which allow water falling onto the deck to flow overboard. Should be plugged during fuel transfer.

2503.31 *Sludge oil.* Muddy impurities and acid which have settled from a mineral oil.

2503.32 *Specific gravity.* The ratio of the weight of a given volume of the material at a stated temperature to the weight of an equal volume of distilled water at a stated temperature.

2503.33 *Spontaneous ignition temperature (S.I.T.).* The temperature at which an oil ignites of its own accord in the presence of air oxygen under standard conditions.

2503.34 *Stoke.* The unit of kinematic viscosity.

2503.35 *Tonnage.* There are various tonnages applied to merchant ships. The one commonly implied is gross tonnage although in these days tankers and other bulk-carriers are often referred to in terms of deadweight.

2503.35–1 *Gross tonnage.* 100 cubic feet of permanently enclosed space is equal to one gross ton—nothing whatever to do with weight. This is usually the registered tonnage although it may vary somewhat according to the classifying authority or nationality.

2503.35–2 *Net tonnage.* The earning capacity of a ship. The gross tonnage after deduction of certain spaces, such as engine and boiler rooms, crew accommodation, stores, equipment, etc. Port and harbor dues are based on this tonnage.

2503.35–3 *Displacement tonnage.* The actual weight in tons, varying according to whether a vessel is in light or loaded condition. Warships are always spoken of by this form of measurement.

2503.35–4 *Deadweight tonnage.* The actual weight in tons of cargo, stores, etc., required to bring a vessel down to her load line, from the light condition. Cargo deadweight is, as its name implies, the actual weight in tons of the cargo when loaded, as distinct from stores, ballast, etc.

2503.36 *Ullage.* The amount by which a tank or vessel lacks being filled. (See also Outage)

2503.37 *Viscosity.* The property of liquids which causes them to resist instantaneous change of shape, or instantaneous rearrangement of their parts, due to internal friction. The resistance which the particles of a liquid offer to a force tending to move them in relation to each other. Viscosity of oils is usually expressed as the number of seconds at a definite temperature required for a standard quantity of oil to flow through a standard apparatus.

2503.38 *Viscous.* Thick, resistant to flow, having a high viscosity.

2503.39 *Volatile.* Evaporates easily.

ANNEX XX—3000 REGIONAL CONTINGENCY PLANS

3001 General

3001.1 Regional Contingency Plans based on the boundaries of the Standard Federal Regions have been developed for the coastal and inland waters of the U.S.

3001.2 These plans are available for review at the USCG District or EPA Regional Offices indicated below.

3002 Cross references.

3002.1 The Standard Federal Regions by States, USCG District, and EPA Regions are as follows:

States	Coast Guard District (Coastal)	EPA Region (Inland)
(REGION I)		
Maine	1st [1]	Region I
New Hampshire	1st	"
Vermont		"
Massachusetts	1st	"
Connecticut	3rd	"
Rhode Island	1st	"
(REGION II)		
New York		
(Coastal Area)	3rd [1]	Region II
(Great Lakes Area)	9th	"
New Jersey	3rd	"
Puerto Rico	7th	"
Virgin Islands	7th	"
(REGION III)		
Pennsylvania		
(East Coast)	3rd	Region III
(Lakeside)	9th	"

Volume 38 ■ Number 156

Pages 21911–21965

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

ECONOMIC STABILIZATION—CLC extends freeze on crude oil and petroleum products until 8–19–73 21933

ENVIRONMENT—CEQ hearings on impact of potential oil and gas production on certain areas 21956

FOOD STAMPS—USDA excludes income received by National Older Americans Volunteers for determining eligibility; effective 8–9–73 21917

OIL AND HAZARDOUS SUBSTANCES—Maritime Commission proposals on financial responsibility for removal; comments by 9–4–73 21941

PURCHASES FROM COMMUNIST AREAS—VA removes restrictions on certain items; effective 8–13–73 21924

AIRCRAFT ACCIDENT—National Transportation Safety Board hearing at St. Louis, Missouri, 8–28–73 21961

TRICHLOROETHANE—
FDA proposes designation of inhalation aerosol compounds as new drugs; comments by 9–13–73 21935
FDA request for data by 9–13–73 21950

FOOD ADDITIVES—FDA provides for safe use of certain food-packaging ingredients (2 documents); effective 8–14–73 ..... 21920, 21921

NEW ANIMAL DRUGS—FDA regulation regarding safe use of monensin sodium and lincomycin in feed; effective 8–14–73 21921

EDUCATIONAL PLANNING AND EVALUATION—HEW regulations on grants to State and local agencies; effective 8–14–73 21924

VETERANS—
VA proposes changes in payment of expenses for transportation of bodies; comments by 9–12–73 21946
VA equalizes wartime and peacetime disability compensation rates; effective 7–1–73 21923

(Continued inside)

REMINDERS

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

This list includes only rules that were published in the FEDERAL REGISTER after October 1, 1972.

page no. and date

FDA—Child protection packaging standards for household substances containing 10 percent or more of sulfuric acid 4513; 2-15-73

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

TEXTILE IMPORTS—CITA announces visa requirements for Macao and Korea (2 documents) 21961, 21962

MEETINGS—
USDA: Medicine Bow National Forest Advisory Board, 8–15–73 21949
Wasatch National Forest Multiple Use Advisory Committee, 8–29–73 21949
INTERIOR DEPARTMENT: Kanab District Advisory Board, 8–17–73 21948
NATIONAL ENDOWMENT FOR THE HUMANITIES: National Council on the Humanities Advisory Committee, 8–16 and 8–17–73 21960
DoT: National Motor Vehicle Safety Advisory Council, 10–9 and 10–10–73 21953
AEC: Advisory Committee on Reactor Safeguards combined Environmental and Waste Management Subcommittees, 8–27 and 8–28–73 21954
CIVIL RIGHTS COMMISSION: New York State Advisory Committee, 8–14–73 21956

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER II—FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

PART 271—PARTICIPATION OF STATE AGENCIES AND ELIGIBLE HOUSEHOLDS

Food Stamp Program; Payment Received by Elderly in Volunteer Work Programs

Public Law 93-29 (87 Stat. 55) approved May 3, 1973, and which amends the Older Americans Act of 1965, prohibits considering as income for any purpose whatsoever, compensation paid to those elderly volunteers participating in the National Older Americans Volunteer Program.

This law authorizes the Commissioner of the Administration on Aging to make grants or contracts to public and nonprofit organizations to help defray costs of projects which provide opportunities for the elderly to work in the community.

In accordance with this law, the Food Stamp Regulations are amended to include under the provision regarding excluded income, payments received by the elderly participating in the above-mentioned program.

Although it is the policy of this Department to give 30 days' notice for amendments to the Regulations, Public Law 93-29 has already been approved and its provisions are mandatory, thus, it would be impracticable and unnecessary to give notice of proposed rule-making with regard to this amendment.

Chapter II of Title 7 of the Code of Federal Regulations is amended by adding to § 271.3(c)(1)(ii) of Part 271 a new subdivision.

(*h*) reading as follows:

§ 271.3 Household eligibility.

* * * * *

(c) *Income and resource eligibility standards of other households.* * * *

(1) *Definition of income.* * * *

(ii) The following shall not be considered income to the household: * * *

(h) Income received by volunteers for services performed in the National Older Americans Volunteer Program as stipulated in the 1973 Amendments to the Older Americans Act of 1965, Public Law 93-29 (87 Stat. 30).

* * * * *

(76 Stat. 703, as amended, 7 U.S.C. 2011-2025)

This amendment shall become effective on August 9, 1973.

(Catalog of Federal Domestic Assistance Programs No. 10.551, National Archives Reference Services.)

CLAYTON YEUTTER,
Assistant Secretary.

[FR Doc.73-16792 Filed 8-13-73;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 11939; Amdt. 39-1703]

PART 39—AIRWORTHINESS DIRECTIVES

Hawker Siddeley Aviation De Havilland Model DH-114 "Heron" Airplanes

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring replacement of certain flap hinge-to-wing attachments bolts and nuts, and periodic inspection and replacement as necessary of certain fork joint and eye joint fittings and angle brackets on Hawker Siddeley de Havilland Model DH-114 airplanes was published in the FEDERAL REGISTER on May 25, 1972, at 37 FR 10575.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

HAWKER SIDDELEY: Applies to de Havilland Model DH-114 "Heron" Airplanes.

Compliance is required as indicated.

To prevent failure of the lower flap hinge-to-wing attachment bolts at Rib No. 7, the fork joint fitting (P/N 14 WF.1) and the eye joint fitting (P/N 14 WF.3) at Rib No. 2, and the angle brackets at Rib No. 01, accomplish the following:

(a) Within the next 500 hours' time in service after the effective date of this AD, unless already accomplished, replace the lower two flap hinge-to-wing attachment bolts and nuts at Rib No. 7 with new bolts (P/N A.25/10E) and nuts (P/N 14W 5781) in accordance with Hawker Siddeley Modification No. Heron 1303, dated December 31, 1969, as amended by Amendment No. 1, dated May 7, 1970, or an FAA-approved equivalent.

(b) Before the accumulation of a total of 13,000 hours' time in service, or within the next 300 hours' time in service after the effective date of this AD, whichever occurs later, unless already accomplished within the last 900 hours' time in service, and thereafter at intervals not to exceed 1,200 hours' time in service from the last inspection, visually inspect the attachment flanges of the forward fork joint fitting (P/N 14WF.1) and forward eye joint fitting (P/N 14WF.3), located between the inner and center flap sections, for cracks near the fitting-to-flap attachment bolt holes (two per fitting) using a glass of at least 10-power magnification in accordance with § 4 of Hawker Siddeley Technical News Sheet Series: Heron (114), No. W.16, Issue 1, dated May 4, 1970, or an FAA-approved equivalent. If cracks are found, before further flight replace the cracked parts in accordance with Hawker Siddeley Repair Drawing RD.14WF.109, dated January 23, 1970, or an FAA-approved equivalent.

(c) Within the next 2,400 hours' time in service after the effective date of this AD and thereafter at intervals not to exceed 2,400 hours' time in service from the last inspection, visually inspect the corner radius of the small angle brackets on the forward face of the rear vertical flange of Rib No. 01 for cracks using a glass of at least 10-power magnification in accordance with section 5 of Hawker Siddeley Technical News Sheet Series: Heron (114), No. W.16, Issue 1, dated May 4, 1970, or an FAA-approved equivalent. If cracks are found, before further flight replace the cracked parts with new parts, P/N 14W.5621, or 14W.5623, as applicable.

This amendment becomes effective September 13, 1973.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958; 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act; 49 U.S.C. 1655(c))

Issued in Washington, D.C., on August 6, 1973.

C. R. MELUGIN, JR.,
Acting Director,
Flight Standards Service.

[Airspace Docket No. 73-EA-43]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Revocation, Alteration and Designation of VOR Federal Airways

Correction

In FR Doc. 15418 appearing at page 19964 in the issue of Thursday, July 26, 1973, make the following changes: In the paragraph designated l., the figure "R-66022" in the penultimate line should read "R-6602"; the first line of the first paragraph designated z., following the paragraph designated v., reading "z. "V-379 From Nottingham, Md.; to", should read "w. "V-376 From Richmond, Va.; to".

[Airspace Docket No. 73-SW-34]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

PART 73—SPECIAL USE AIRSPACE

Alteration of Restricted Area and Controlled Airspace

The purpose of this amendment to Part 73 of the Federal Aviation Regulations (FARs) is to reduce the volume and

V 38 156 AUG 14 73 XUM

stratify the altitude structure of the restricted area complex Camp Claiborne, La. An amendment will also be made to Part 71 of the FAR to reflect these changes in the description of the continental control area.

The United States Air Force has requested that the Camp Claiborne restricted area complex be restructured and redesignated for more efficient use. Specifically, R-3801A should be reduced in volume by lowering the former upper altitude limit of 5000 feet MSL by 1000 feet and reducing the projected surface area by approximately 40 square miles. The Air Force has also requested that former adjacent Restricted Areas R-3801B and R-3801C be consolidated into one geographical area with a stratification of altitudes from the surface to 14,000 feet MSL. The airspace within the lower 7000-foot structure would be designated R-3801B, and the upper airspace from 7000 feet MSL to 14,000 feet MSL would be designated R-3801C.

The new R-3801C will have a 6000-foot altitude reduction from its former upper limit of 20,000 feet MSL. To retain part of the higher altitude structure, former R-3801D is designated R-3801D with altitudes from 14,000 feet MSL to FL 200. This same area was formerly designated from the surface to 20,000 feet MSL. Former Restricted Area R-3801E, overlying former R-3801C, with altitude designation from 20,000 feet MSL to FL 240 has become unnecessary and therefore it has been requested that it be revoked.

Restricted airspace above 7000 feet MSL will not be activated unless the Houston ARTC Center radar (Alexandria system) is operational.

Since these amendments reduce the overall size of the restricted area complex by restoring unneeded restricted airspace to the general public, they are minor amendments in which the public is not particularly interested. Therefore notice and public procedure thereon are unnecessary.

In consideration of the foregoing, Parts 71 and 73 of the Federal Aviation Regulations are amended, effective 0901 g.m.t., September 13, 1973, as hereinafter set forth.

In § 73.38 (38 FR 651 and 9157) Camp Claiborne, La., Restricted Areas are amended as follows:

a. R-3801A, Camp Claiborne, La., is amended to read as follows:

Boundaries. Beginning at latitude 31°-18'00"N., longitude 92°46'30"W.; to latitude 31°13'55"N., longitude 92°49'45"W.; to latitude 31°23'40"N., longitude 93°06'45"W.; to latitude 31°27'30"N., longitude 93°03'00" W.; to point of beginning.

Designated altitudes. 7,500 feet AGL to and including 4,000 feet MSL northwest of a line extending from latitude 31°20'50"N., longitude 92°51'15"W.; to latitude 31°16'40"N., longitude 92°54'30"W.; and 500 feet AGL to and including 4,000 feet MSL southeast of a line extending from latitude 31°20'50"N., longitude 92°51'15"W.; to latitude 31°-16'40"N., longitude 92°54'30"W.

Time of designation. Continuous.

Controlling agency. FAA, Houston ARTC Center.

Using agency. Commander, England AFB, La.

b. R-3801B, Camp Claiborne, La., is amended to read as follows:

Boundaries. Beginning at latitude 31°-11'45"N., longitude 92°30'15"W.; to latitude 31°05'15"N., longitude 92°34'50"W.; to latitude 31°13'55"N., longitude 92°49'-45"W.; to latitude 31°18'00"N., longitude 92°46'30"W.; to latitude 31°15'15"N., longitude 92°41'45"W.; to latitude 31°17'10"N., longitude 92°40'10"W.; to point of beginning.

Designated altitudes. Surface to and including 7,000 feet MSL.

Time of designation. Continuous.

Controlling agency. FAA, Houston ARTC Center.

Using agency. Commander, England AFB, La.

c. R-3801C, Camp Claiborne, La., is amended to read as follows:

Boundaries. Beginning at latitude 31°11'-45" N., longitude 92°30'15" W.; to latitude 31°05'15" N., longitude 92°34'54" W.; to latitude 31°18'55" N., longitude 92°49'45" W.; to latitude 31°18'00" N., longitude 92°46'30" W.; to latitude 31°15'15" N., longitude 92°-41'45" W., to latitude 31°17'10" N., longitude 92°40'10" W.; to point of beginning.

Designated altitudes. 7,000 feet MSL to and including FL 200.

Time of designation. Continuous. R-3801C shall not be activated unless the Houston ARTC Center radar (Alexandria system) is operational.

Controlling agency. FAA, Houston ARTC Center.

Using agency. Commander, England AFB, La.

d. R-3801D, Camp Claiborne, La., is amended to read as follows:

Boundaries. Beginning at latitude 31°11'-45" N., longitude 92°30'15" W.; to latitude 31°09'45" N., longitude 92°31'45" W.; to latitude 31°15'15" N., longitude 92°41'45" W.; to latitude 31°17'10" N., longitude 92°40'10" W.; to point of beginning.

Designated altitudes. 14,000 feet MSL to and including FL 200.

Time of designation. Continuous. R-3801D shall not be activated unless the Houston ARTC Center radar (Alexandria system) is operational.

Controlling agency. FAA, Houston ARTC Center.

Using agency. Commander, England AFB, La.

e. R-3801E, Camp Claiborne, La., is revoked.

In § 71.151 (38 FR 341) "R-3801C, R-3801E, Camp Claiborne, La.," are deleted.

(Sec. 307(a), Federal Aviation Act of 1958; 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act; 49 U.S.C. 1655(c))

Issued in Washington, D.C., on August 6, 1973.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73-16768 Filed 8-13-73;8:45 am]

[Airspace Docket No. 73-GL-37]

PART 73—SPECIAL USE AIRSPACE

Alteration of Restricted Area

The purpose of this amendment to Part 73 of the Federal Aviation Regulations is to reduce the time of designation for Restricted Area R-3403 Jefferson Proving Ground, Ind.

A review of the annual utilization report for Restricted Area R-3403, covering the period from October 1, 1971, through September 30, 1972, revealed that R-3403 was not needed by the using agency between 2300 and 0800 local time daily. Accordingly, the Federal Aviation Administration has determined that the time of designation for R-3403 should be reduced from continuous to 0800 to 2300 local time daily. The Department of the Army concurs in this determination.

This amendment relieves a restriction upon the public and it is a minor amendment upon which the public should have no particular reason to comment. Therefore, notice and public procedure thereon are deemed unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., October 11, 1973, as hereinafter set forth.

In § 73.34 (38 FR 649), the time of designation for R-3403 Jefferson Proving Ground, Ind., is amended to read as follows:

Time of designation. Daily, 0800 to 2300 local time.

(Sec. 307(a), Federal Aviation Act of 1958; 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act; 49 U.S.C. 1655(c))

Issued in Washington, D.C., on August 7, 1973.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 1, 31, 1953

Unrelated Debt-Financed Income

Correction

In FR Doc. 72-21849 appearing at page 28141 in the issue of Thursday, December 21, 1972, in § 1.514(c)-1(e)(2), the references in the fourth and fifth lines to "section 101(b)" and "§ 1.101-2(e)(1)(iii)(b)(2)" should read "section 1011(b)" and "§ 1.1011-2(e)(1)(iii)(b)(2)".

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Massachusetts; Approvals and Disapprovals of Plan Revisions

On May 31, 1972 (37 FR 10482), pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved portions of State plans for implementation of the national ambient air quality standards. Recently, Massachusetts, pursuant to 40 CFR § 51.6 submitted to the Environmental Protection Agency revisions to compliance schedule portions of its approved plan. This publication contains both approvals and disapprovals of those revisions.

Sixty-six (66) compliance schedule revisions are approved herein. The approved revisions were adopted by the State of Massachusetts and submitted to the Environmental Protection Agency after notice and public hearing in accordance with the procedural requirements of 40 CFR Part 51. These revisions also satisfy the substantive requirements of 40 CFR Part 51 that pertain to compliance schedules, and have been determined to be consistent with the approved control strategies for Massachusetts.

Each approved revision establishes a new date by which an individual air pollution source must comply with an emission limitation in the State implementation plan. In each case the new date allows an appropriate period of time for a source to choose and implement a course of action which will enable it to comply. This date is indicated in the table below under the heading "Final Compliance Date". In all cases the schedules include incremental steps toward compliance with the applicable emission limitations. While the table below does not indicate these interim dates, the actual compliance schedules do. Approved compliance schedules are available for public inspection at one of the following locations: EPA Region I, Office of Public Affairs, JFK Federal Building, Boston, Massachusetts; Bureau of Air Quality Control, Division of Environmental Health, Department of Public Health, 600 Washington Street, Boston, Massachusetts; in the Metropolitan Boston Intrastate AQCR at the Metropolitan Boston Air Pollution Control District, 600 Washington Street, Boston, Massachusetts; in the Berkshire Intrastate AQCR and Hartford-New Haven-Springfield Interstate AQCR at Berkshire and Pioneer Valley Air Pollution Control Districts, 1414 State Street, Springfield, Massachusetts; in the Merrimack Valley Air Pollution Control District, Tewksbury State Hospital, Regional Health Offices, Tewksbury, Massachusetts; in the Metropolitan Providence Interstate AQCR at the Southeastern Massachusetts Air Pollution Control District, Southeast Regional Health Office, Lakeville State Hospital, Lakeville, Massachusetts. An evaluation of each approved schedule is available for public inspection at the EPA Regional Office as noted above.

Four (4) compliance schedule revisions are disapproved herein. All are similarly deficient in that compliance with the applicable emission limitation is not required as expeditiously as is practicable; thus the requirements of 40 CFR 51.15(b)(1) are not satisfied.

Each disapproved revision is for a gasoline loading rack in the Boston Intrastate Air Quality Control Region; in each case the time taken to order equipment to implement a pollution abatement system is excessive. The air pollution sources involved remain subject to the applicable compliance schedule in Regulation 2.5, unless prior to the date for final compliance (January 31, 1974), the the State submits and the Administrator approves compliance schedule revisions that fully satisfy the requirements of 40 CFR Part 51. Evaluations of the disapproved compliance schedules are available for public inspection at the EPA Regional Office as noted above.

The Agency finds that good cause exists for making these actions effective immediately on August 14, 1973, for the following reasons:

1. The implementation plan revisions were adopted in accordance with procedural requirements of State and Federal law, which provided for adequate public hearings and comments, and further participation is unnecessary and impracticable.

2. Immediate effectiveness of the actions enables the sources involved to proceed with certainty in conducting their affairs, and persons wishing to seek judicial review of the actions may do so without delay.

(42 U.S.C. 1857c-5)

Dated: August 8, 1973.

JOHN QUARLES,
Acting Administrator.

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

Title 20—Employees' Benefits

CHAPTER V—MANPOWER ADMINISTRATION, DEPARTMENT OF LABOR

PART 602—COOPERATION OF THE U.S. TRAINING AND EMPLOYMENT SERVICE AND STATES IN ESTABLISHING AND MAINTAINING A NATIONAL SYSTEM OF PUBLIC EMPLOYMENT OFFICES

Minimum Wage Rates for Temporary Foreign Agricultural Labor

On page 20614 of the FEDERAL REGISTER of August 2, 1973, there was published an incomplete document under this part. The omitted portion, which should have appeared at the end of the document, is set forth below.

Signed at Washington, D.C. this 8th day of August 1973.

WILLIAM H. KOLBERG,
Assistant Secretary for Manpower.

As amended, subparagraph (1) of paragraph (a) in 20 CFR 602.10b reads as follows:

§ 602.10b Wage rates.

(a) (1) Except as otherwise provided in this section the following hourly wage rates (which have been found to be the rates necessary to prevent adverse effect upon U.S. workers) shall be offered to agricultural workers in accordance with § 602.10a(j):

State:	Rate
Connecticut	$2.12
Maine	2.12
Massachusetts	2.15
New Hampshire	2.32
New York	2.20
Rhode Island	2.09
Vermont	2.26
Virginia	2.07
West Virginia	1.95

(8 U.S.C. 1184, 8 CFR 214.2(h), Secretary's Order No. 20-71.)

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

ADHESIVES

The Commissioner of Food and Drugs, having evaluated data in a petition (FAP 3B2848) filed by Union Carbide Corp., Tarrytown, NY 10591, and other relevant material, concludes that the food additive regulations (21 CFR Part 121) should be amended as set forth below to provide for safe use of poly(oxycaproyl) diols and triols as components of food-packaging adhesives.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1), and under authority delegated to the Commissioner (21 CFR 2.120), § 121.2520(c)(5) is amended by alphabetically inserting in the list of substances a new item, as follows:

§ 121.2520 Adhesives.

* * * * * * *

(c) * * *

(5) * * *

COMPONENTS OF ADHESIVES

Substances	*Limitations*
* * *	* * *
Poly(oxycaproyl) diols and triols (minimum molecular weight 500).	* * *

* * *

Any person who will be adversely affected by the foregoing order may at any time on or before September 13, 1973 file with the Hearing Clerk, Food and Drug Administration, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective August 14, 1973.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: August 3, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact with Containers or Equipment and Food Additives Otherwise Affecting Food

COMPONENTS OF PAPER AND PAPERBOARD IN CONTACT WITH AQUEOUS AND FATTY FOODS

The Commissioner of Food and Drugs, having evaluated data in a petition (FAP 2B2718) filed by Nalco Chemical Co., 180 N. Michigan Ave., Chicago, IL 60601, and other relevant material, concludes that the food additive regulations (21 CFR Part 121) should be amended, as set forth below, to provide for the safe use of polyacrolein-sodium bisulfite adduct for modifying starches and starch gums used in the manufacture of paper and paperboard for use in contact with food.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120) § 121.2526(a)(5) is amended by alphabetically inserting in the list of substances a new item, as follows:

§ 121.2526 Components of paper and paperboard in contact with aqueous and fatty foods.

* * * * * * *

(a) * * *

(5) * * *

List of substances	*Limitations*
* * *	* * *
Polyacrolein (1 part)-sodium bisulfite (0.7 part) adduct, containing excess bisulfite (ratio of excess bisulfite to adduct not to exceed 1.5 to 1).	For use only as an agent in modifying starches and starch gums used in the production of paper and paperboard and limited to use at a level not to exceed 0.09 mg/in² of the finished paper and paperboard.

* * *

Any person who will be adversely affected by the foregoing order may at any time on or before September 13, 1973 file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective August 14, 1973.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: August 3, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

SUBCHAPTER C—DRUGS

PART 135e—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Approval of Monensin and Lincomycin Applications

The Commissioner of Food and Drugs has evaluated a new animal drug application (92-482V) filed by The Upjohn Co., Kalamazoo, MI 49001, proposing the safe and effective use of monensin sodium and lincomycin in feed for specified conditions in broiler chickens. The application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135e is amended as follows:

1. In § 135e.49(e), a new subparagraph (2)(vii) is added as follows:

§ 135e.49 Lincomycin.

* * * * * * *

(e) * * *

(2) * * *

(vii) Monensin sodium in accordance with § 135e.50 of this chapter.

2. In § 135e.50(f), a new item 5 is added to the table as follows:

§ 135e.50 Monensin; monensin sodium.

* * * * * * *

(f) * * *

Principal Ingredient	Gms. Per Ton	Combined with—	Gms. Per Ton	Limitations	Indications for use
* * *	* * *	* * *	* * *	* * *	* * *
xx. Monensin sodium	100 (as monensic acid activity).	Lincomycin...	2	To be fed as a sole ration for floor raising broiler chickens; do not feed to laying chickens; withdraw 72 hours before slaughter.	For increase in rate of weight gain and as an aid in the prevention of coccidiosis caused by *E. necatrix, E. tenella, E. acervulina, E. brunetti, E. mitati,* and *E. maxima.*

Effective date. This order shall become effective August 14, 1973.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)).

Dated: August 3, 1973.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

WHOLE FISH PROTEIN CONCENTRATE

Correction

In FR Doc. 73-15110 appearing at page 19815 in the issue for Tuesday, July 24, 1973, on page 19816, "ug", which appears in the eighth line of the first column, and the fourth, fifth, and eighth lines of the third paragraph in the second column, should read "μg".

Title 33—Navigation and Navigable Waters

CHAPTER IV—SAINT LAWRENCE SEAWAY DEVELOPMENT CORPORATION

PART 401—SEAWAY REGULATIONS AND RULES

Penalty Procedures

On pages 16915-16917 of the FEDERAL REGISTER of June 27, 1973, there was published a notice of proposed rulemaking by the Saint Lawrence Seaway Development Corporation establishing a new Subpart C to Part 401, regulations and rules of the Corporation. The new procedures provide for the assessment, mitigation or remission of penalties as authorized by Title I of the Ports and Waterways Safety Act of 1972, Public Law 92-340. The Secretary of Transportation delegated his authority under section 106 of the Act as it applies to the St. Lawrence Seaway to the Administrator of the Corporation in 49 CFR 1.50a and this document further delegates that authority relating to penalty assessment, mitigation or remission to the Resident Manager and the General Counsel of the Corporation.

Interested parties were invited to submit written comments and suggestions with respect to the proposed procedures. No comments having been received, the proposed procedures are hereby adopted without change.

Because the navigation season is well underway and the need for implementing the procedures is immediate, I find that good cause exists for making the procedures effective in less than 30 days.

V 38-156 AUG 14 73 XUM

The full text of the new Subpart C of Part 401 of the Seaway Regulations and Rules is as follows:

Subpart C—Assessment, Mitigation or Remission of Penalties

Sec.
401.201 Delegation of authority.
401.202 Statute providing for assessment, mitigation or remission of civil penalties.
401.203 Reports of violations of Seaway regulations or rules and instituting and conducting civil penalty proceedings.
401.204 Criminal penalties.
401.205 Civil and criminal penalties.
401.206 Procedure for payment of civil penalty for violation of Seaway regulation or rule.

AUTHORITY: Sec. 106 of P.L. 92-340, 86 Stat. 424.

§ 401.201 Delegation of authority.

(a) The Secretary of Transportation, by 49 CFR 1.50a, has delegated to the Administrator of the Saint Lawrence Seaway Development Corporation the authority vested in him under the Ports and Waterways Safety Act of 1972, P.L. 92-340.

(b) The Administrator hereby authorizes the Corporation's Resident Manager to administer this statute in accordance with the procedures set forth in this subpart.

§ 401.202 Statute providing for assessment, mitigation or remission of civil penalties.

Title I of the Ports and Waterways Safety Act of 1972 authorizes the assessment and collection of a civil penalty of not more than $10,000 from anyone who violates a regulation issued under that title.

§ 401.203 Reports of violations of Seaway regulations or rules and instituting and conducting civil penalty proceedings.

(a) Violations of Seaway regulations and rules, Subparts A and B of this Part, will be brought to the attention of the alleged violator at the time of detection whenever possible. When appropriate, there will be a written notification of the fact of the violation. This notification will set forth the time and nature of the violation and advise the alleged violator relative to the administrative procedure employed in processing civil penalty cases. The alleged violator will be advised that he has 15 days in which to appear before the Resident Manager or submit a written statement for consideration. The Resident Manager shall, upon expiration of the 15-day period, determine whether there has been a violation of the Seaway regulations or rules.

(b) If the Resident Manager decides that a violation of Seaway regulations or rules has occurred, a determination will be made as to whether to invoke no penalty at all and close the case or whether to invoke a part or full statutory penalty. In either event, a written notice of the decision shall be given to advise the violator. If a penalty is assessed, such notice will advise the violator of his right to petition for relief within 15 days or such longer period as the Resident Manager, in his discretion, may allow. The Resident Manager may mitigate the penalty or remit it in full, except as the latter action is limited to paragraph (f) of this section. The violator may, if he desires, appear in person before the Resident Manager. If the violator does not apply for relief but instead maintains that he has not committed the violation(s) charged, and the Resident Manager, upon review, concludes that invocation of the penalty was proper, no remission or mitigation action will be taken. On the other hand, should the violator petition the Resident Manager for relief without contesting the determination that a violation did, in fact, occur, relief may be granted as the circumstances may warrant.

(c) When the penalty is mitigated, such mitigation will be made conditional upon payment of the balance within 15 days of the notice or within such other longer period of time as the Resident Manager in his discretion may allow.

(d) The violator may appeal to the Administrator from the action of the Resident Manager. Any such appeal shall be submitted to the Administrator through the Resident Manager within 15 days of the date of notification by the Resident Manager, or such longer period of time as the Resident Manager, in his discretion, may allow.

(e) Should the alleged violator require additional time to present matters favorable to his case at any stage of these penalty proceedings, a request for additional time shall be addressed to the Resident Manager who will grant a reasonable extension of time where sufficient justification is shown.

(f) Under the following circumstances, the Corporation's General Counsel shall forward cases involving violations of the Seaway regulations and rules to the United States Attorney with the recommendation that action be taken to collect the assessed statutory penalty:

(1) When, within the prescribed time, the violator does not explain the violation, appeal for mitigation or remission, or otherwise respond to written notices from the Resident Manager; or

(2) When, having responded to such inquiries, the violator fails or refuses to pay the assessed or mitigated penalty, or to appeal to the Administrator, within the time prescribed; or

(3) When the violator denies that the violation(s) was committed by him, the Resident Manager, upon review, disagrees and the violator thereafter fails to respond to the demand, appeal to the Administrator, or to remit payment of the assessed penalty within the time prescribed (see § 401.203(b)); or

(4) When the violator fails to pay within the prescribed time the penalty as determined by the Administrator after consideration of the violator's appeal from the action of the Resident Manager.

(g) If a report of boarding or an investigation report submitted by a Corporation employee or investigative body discloses evidence of violation of a Federal criminal statute, the Corporation's General Counsel, in accordance with § 401.204, shall refer the findings to the United States Attorney for appropriate action.

§ 401.204 Criminal penalties.

(a) Prosecution in the Federal courts for violations of Seaway regulations and rules enforced by the Corporation which provide, upon conviction, for punishment by fine or imprisonment is a matter finally determined by the Department of Justice. This final determination consists of deciding whether and under what conditions to prosecute or to abandon prosecution.

(b) The Corporation's General Counsel is hereby authorized to determine whether or not a violation of a Seaway regulation or rule carrying a criminal penalty is one which would justify referral of the case to the United States Attorney.

(c) The Corporation's General Counsel will identify the regulations or rules which were violated and make specific recommendations concerning the proceedings to be instituted by the United States Attorney in every case.

(d) Referral of a case to the United States Attorney for prosecution terminates the Corporation's authority with respect to the criminal aspects of a violation.

§ 401.205 Civil and criminal penalties.

(a) If a violation of a Seaway regulation or rule carries a criminal penalty, the Corporation's General Counsel is hereby authorized to determine whether to refer the case to the United States Attorney for prosecution in accordance with § 491.204, which outlines the appropriate procedure for handling criminal cases.

(b) The decision of the United States Attorney as to whether to institute criminal proceedings shall not bar the initiation of civil penalty proceedings by the Resident Manager.

§ 401.206 Procedure for payment of civil penalty for violation of Seaway regulation or rule.

(a) The payment must be by money order or certified check payable to the order of the Saint Lawrence Seaway Development Corporation when mailed to the Resident Manager. If the payment is made in person at the offices of the Saint Lawrence Seaway Development Corporation, the payment may be in cash or by postal money order or check payable to the order of the Saint Lawrence Seaway Development Corporation.

(b) The payment of any penalty is acknowledged by written receipt.

(c) If the penalty paid is determined by the Resident Manager to have been improperly or excessively imposed, the payor will be notified and requested to submit an application for a refund which should be mailed to the Saint Lawrence Seaway Development Corporation, attention of the Resident Manager. Such application must be made by the payor

within one year of the date of the notification provided for in this section.

(d) In the event the alleged violator is about to leave the jurisdiction of the United States, he will be required, before being allowed to depart, to post a bond in the amount and manner suitable to the Resident Manager, from which bond any subsequent assessed or mitigated penalty may be satisfied.

(68 Stat. 92-97, 33 U.S.C. 981-990, as amended, and Sec. 104, Pub. L. 92-340, 86 Stat. 424, 49 CFR 1.50a (37 FR 21943)).

Effective date: August 6, 1973.

SAINT LAWRENCE SEAWAY DEVELOPMENT CORPORATION,
[SEAL] D. W. OBERLIN,
Administrator.

[FR Doc.73-16818 Filed 8-13-73;8:45 am]

Title 38—Pensions, Bonuses, and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART 3—ADJUDICATION

Disability Compensation; Equalization of Wartime and Peacetime Rates

The following regulatory provisions implementing section 108 of Public Law 92-328 (86 Stat. 393) are effective July 1, 1973. Compliance with § 1.12 of this chapter, as to notice of proposed regulatory development, is unnecessary in this instance and would be impracticable inasmuch as the changes implement specific provisions of the enabling legislation.

Section 108 of Public Law 92-328 amended sections 334 and 335, title 38, United States Code, to delete the provisions for paying peacetime disability compensation at 80 percent of the wartime rates. As amended, these sections provide for payment at the rates specified in sections 314 and 315 of Title 38 for wartime disabilities. The Act also repealed section 336 of Title 38 which provided wartime rates for disabilities incurred in peacetime service as a result of armed conflict or extra-hazardous duty. Although enacted June 30, 1972, these amendments and repeal were made effective July 1, 1973.

To reflect the equalization of peacetime and wartime disability compensation rates effected by Public Law 92-328, Part 3, Title 38 Code of Federal Regulations, is amended to read as follows:

§ 3.4 Compensation.

* * * * *

(d) *Wartime rates of death compensation under special conditions.* Compensation is payable at wartime rates if the veteran died as the result of injury or disease received in line of duty during peacetime service:

(1) As a direct result of armed conflict; or

(2) While engaged in extrahazardous service including such service under conditions simulating war; or

(3) After December 31, 1946, and before July 26, 1947. (38 U.S.C. 343).

2. In § 3.311, the headnote and paragraph (b) are amended to read as follows:

§ 3.311 Death from armed conflict or extrahazardous duty in peacetime (38 U.S.C. 343).

* * * * *

(b) "As a direct result of armed conflict" means any situation in which death is due to injury or disease incurred in line of duty and the primary, contributory, or proximate cause thereof results directly from the use of any instrumentality employed as a weapon in a war, expedition or occupation, battle, skirmish, raid, invasion, rebellion, insurrection, guerrilla action, etc. The concept relates to the actual use of firearms or other instrumentalities of war including submarine or aircraft by a belligerent nation or faction with which the United States is not at war, under circumstances endangering the lives or safety of members of our forces.

* * * * *

3. The cross reference immediately following § 3.311 is amended to read as follows:

CROSS REFERENCE: Wartime rates of death compensation under special conditions. See § 3.4(d).

4. In § 3.323, paragraphs (a)(2) and (b)(2) are amended to read as follows:

§ 3.323 Combined ratings.

(a) *Compensation.* * * *

(2) *Wartime and peacetime service.* Evaluation of wartime and peacetime service-connected compensable disabilities will be combined to provide for the payment of wartime rates of compensation. (38 U.S.C. 357) effective July 1, 1973, it is immaterial whether the disabilities are wartime or peacetime service-connected since all disabilities are compensable under 38 U.S.C. 314 and 315 on and after that date.

(b) *Pension.* * * *

(2) *Service-connected and non-service-connected disabilities.* Evaluations for service-connected disabilities may be combined with evaluations for disabilities not shown to be service connected and not the result of the veteran's own willfull misconduct or vicious habits.

5. Section 3.324 is revised to read as follows:

§ 3.324 Multiple noncompensable service-connected disabilities.

Whenever a veteran is suffering from two or more separate permanent service-connected disabilities of such character as clearly to interfere with his normal employability, even though none of the disabilities may be of compensable degree under the 1945 Schedule for Rating Disabilities (Part 4 of this chapter) the rating agency is authorized to apply a 10-percent rating, but not in combination with any other rating.

6. In § 3.350, the introductory portion preceding paragraph (a) and the introductory portion of paragraph (a) preceding subparagraph (1) are amended to read as follows:

§ 3.350 Special monthly compensation ratings.

The rates of special monthly compensation stated in this section are those provided under 38 U.S.C. 314 based on wartime service. Disabilities due to peacetime service are compensable at 80 percent of the wartime rates for periods prior to July 1, 1973. Effective July 1, 1973, the rates provided under 38 U.S.C. 314 are applicable to both wartime and peacetime disabilities. (Public Law 92-328; 86 Stat. 393).

(a) *Ratings under 38 U.S.C. 314(k).* Special monthly compensation ($47) is payable for each anatomical loss or loss of use of one hand, one foot, both buttocks, one or more creative organs, blindness of one eye having only light perception, deafness of both ears, having absence of air and bone conduction, or complete organic aphonia with constant inability to communicate by speech. This special compensation is payable in addition to the basic rate of compensation otherwise payable on the basis of degree of disability, provided that the combined rate of compensation does not exceed $616 monthly when authorized in conjunction with any of the provisions of 38 U.S.C. 314(a) through (j) or (s). When there is entitlement under 38 U.S.C. 314 (l) through (n) or an intermediate rate under (p) such additional allowance is payable for each such anatomical loss or loss of use existing in addition to the requirements for the basic rates, provided the total does not exceed $862 per month. The limitations on the maximum compensation payable under this paragraph are independent of and do not preclude payment of additional compensation for dependents under 38 U.S.C. 315, or the special allowance for aid and attendance provided by 38 U.S.C. 314(r). (Public Law 92-328; 86 Stat. 393).

* * * * *

7. In § 3.500, paragraph (r) is amended to read as follows:

§ 3.500 General.

* * * * *

(r) *Service connection (38 U.S.C. 3012(b)(6); § 3.105).* Last day of month following 60 days after notice to payee. Applies to change from wartime to peacetime (death cases only effective July 1, 1973), reduced evaluation, and severance of service connection.

* * * * *

8. In § 3.800, paragraph (b) is amended to read as follows:

§ 3.800 Disability or death due to hospitalization, etc.

* * * * *

(b)(1) If the veteran served during a war period the death compensation to be awarded to his dependents will be at the wartime rate. If death occurs on or after January 1, 1957, the benefit payable will be dependency and indemnity compensation.

V 38-156 AUG 14 73 XUM

(2) If the veteran served only during peacetime the death compensation to be awarded to his dependents will be the peacetime rate. If death occurs on or after January 1, 1957, the benefit payable will be dependency and indemnity compensation.

These VA regulations are effective July 1, 1973.

Approved: August 6, 1973.

By direction of the Administrator.

[SEAL] FRED B. RHODES,
Deputy Administrator.

[FR Doc.73-16755 Filed 8-13-73;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 8—VETERANS ADMINISTRATION

PART 8-6—FOREIGN PURCHASES

Purchases From Communist-Controlled Areas

On page 14416 of the FEDERAL REGISTER of June 1, 1973, there was published a notice of proposed regulatory revision of Part 8-6, Title 41, Code of Federal Regulations, to revoke Subpart 8-6.53 in order to remove a restriction on the purchase of items which have been lawfully brought into the country. Interested persons were given 30 days in which to submit written comments, suggestions, or objections regarding the proposed regulations.

Only one comment was received. That was from an individual who objected to the proposed revocation on the grounds that it was not in the best interests of the country. It is believed, however, that the regulations of this agency should not be in contrast to the laws allowing the entry of items into the country and to the practices of other agencies in this matter. Accordingly, the revised regulation is adopted as proposed.

Effective date. This revocation is effective August 13, 1973.

Approved: August 6, 1973.

By direction of the Administrator.

[SEAL] FRED B. RHODES,
Deputy Administrator.

Part 8-6 is amended as follows:

§§ 8-6.5300—8-6.5303 [Revoked]

Subpart 8-6.53, Purchases from Communist-controlled areas, is revoked.

[FR Doc.73-16756 Filed 8-13-73;8:45 am]

Title 45—Public Welfare

CHAPTER I—OFFICE OF EDUCATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 129—COMPREHENSIVE EDUCATIONAL PLANNING AND EVALUATION

On September 21, 1972, there was published in the FEDERAL REGISTER (37 FR 19647) a notice of proposed rule making which set forth the requirements for grants to State and local educational agencies under Part C of Title V of the Elementary and Secondary Education Act of 1965 (84 Stat. 145–148, 20 U.S.C. 867–867c). The grants to these agencies are to assist and stimulate them to enhance their capability to make effective progress, through comprehensive and continuing planning and evaluation, toward the achievement of opportunities for high-quality education for all segments of the population.

Interested persons were given the opportunity to submit within 30 days comments, suggestions, or objections pertaining to the proposed regulations. The only comment received was from The Navajo Tribe asking that federally recognized Indian tribal governments be included in the definitions of "State" and "State educational agency" so as to make tribal governments eligible applicants for grant funds. This could not be done without conflicting with the statutory definitions of these two terms.

The regulations as set forth below, therefore, are issued as originally published and without change save for: a cross-reference informing recipients of the applicability of section 901 of P.L. 92–318 (prohibiting discrimination on the basis of sex in federally assisted education programs), a clarification of the date for submission of applications, and changes to bring the regulations into conformity with Office of Management and Budget Circular No. A-102.

Submission of applications. For fiscal year 1974, the final date for submission of applications to the Commissioner, pursuant to § 129.4(b)(1), shall be February 1, 1974.

Effective date. As appears from the above summary, the modifications do not involve any changes of a substantial nature from the provisions which were published in the FEDERAL REGISTER on September 21, 1972, as proposed rule making. Accordingly, these regulations shall be effective on August 14, 1973, except for any portions which have become effective by operation of law.

(Secs. 531–534 of the Elementary and Secondary Education Act of 1965, as amended, 84 Stat. 145–148, 20 U.S.C. 867–867c)

Dated: August 1, 1973.

JOHN OTTINA,
Acting U.S. Commissioner of Education.

Approved: August 9, 1973.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

The regulations set forth below are applicable to grants awarded pursuant to title V, Part C, of the Elementary and Secondary Education Act of 1965 (Public Law 89-10). Federal financial assistance given pursuant to these regulations is subject to the regulations in 45 CFR Part 80, issued by the Secretary of Health, Education, and Welfare, and approved by the President, to effectuate the provisions of section 601 (42 U.S.C. 2000d) of the Civil Rights Act of 1964 (Public Law 88-352) and to the provisions of section 901 of the Education Amendments of 1972, P.L. 92-318 (prohibition of sex discrimination) and any regulations issued thereunder.

Part 129 reads as follows:

Sec.
129.1 Definitions.
129.2 State administration.
129.3 Application for grants.
129.4 Review and disposition of applications.
129.5 Parental participation.
129.6 Amendments.
129.8 Grant awards.

AUTHORITY: The provisions of this Part 129 issued under Elementary and Secondary Education Act of 1965, title V, Part C, sections 531–534, 84 Stat. 145–148, 20 U.S.C. 867–867c.

§ 129.1 Definitions.

As used in this part:

(a) "Act" means the Elementary and Secondary Education Act of 1965 (Public Law 89-10). (20 U.S.C. 867)

(b) "Commissioner" means the United States Commissioner of Education. (20 U.S.C. 881(a))

(c) "Comprehensive educational planning and evaluation" means that educational planning and evaluation dealing primarily with overall educational goals under the direct responsibility of the chief executive of the applicant and performed or coordinated by the State planning and evaluation agency which has sufficient authority for this activity. (20 U.S.C. 867a)

(d) "Coordination of planning and evaluation" means the conduct, within or between public agencies, of two or more planning or evaluation activities in a mutually supportive and harmonious mode which have as their objective the same aim, mission, or goal. (20 U.S.C. 867a(c))

(e) "Department" means the Department of Health, Education, and Welfare. (20 U.S.C. 881(l))

(f) "Elementary and secondary education" means elementary and secondary education as determined under State law, except that it does not include any education provided beyond grade 12. (20 U.S.C. 881(c), (h))

(g) "Evaluation" means the continuous process for determining the extent to which management and program objectives are being achieved, using measures of efficiency and effectiveness. (20 U.S.C. 867a)

(h) "Fiscal year" means the period beginning on July 1 and ending on the following June 30. A fiscal year is designated in accordance with the calendar year of the ending date. (20 U.S.C. 867(b))

(i) "Grant period" means that period of time for which grant funds are made available for expenditure by the grantee. (20 U.S.C. 867)

(j) "Local educational agency" means a public board of education or other public authority legally constituted within a State for either administrative control or direction of, or to perform a service function for, public elementary or secondary schools in a city, county, township, school district, or other political subdivision of a State, or such combination of school districts or counties as are recognized in a State as an administrative agency for its public elementary or secondary schools. It also includes any other public institution or agency having administrative control and direction of a public elementary or secondary school. (20 U.S.C. 881(f))

(k) "Parent" includes legal guardian or anyone else standing in loco parentis as defined by State law. (20 U.S.C. 244 (3), 867)

(l) "Planning" means the selection or identification of the overall, long-range goals, priorities, and objectives of the agency, and the formulation of various courses of action in terms of identification of needs and relative costs or benefits for the purpose of deciding on courses of action to be followed in working toward achieving those goals, priorities, and objectives. (20 U.S.C. 867)

(m) "Project period" means the total period of time for which a project is approved for support under this part. (20 U.S.C. 867)

(n) "State" includes, in addition to the several States of the Union, the Commonwealth of Puerto Rico, the District of Columbia, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands. (20 U.S.C. 881(j))

(o) "State educational agency" means the State board of education or other agency or officer primarily responsible for the State supervision of public elementary and secondary schools, or, if there is no such officer or agency, an officer or agency designated by the Governor or by State law. For the purposes of this part, the State educational agencies of Hawaii, the Commonwealth of Puerto Rico, the District of Columbia, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands, which serve both as State and as local educational agencies, shall be considered to be only State educational agencies. (20 U.S.C. 881(k))

(p) "State planning and evaluation agency" or "unit" means a single organizational unit within the State educational agency which has the exclusive authority for administering a comprehensive program of systematic planning and evaluation of elementary and secondary education in the State. (20 U.S.C. 867a(a))

§ 129.2 State administration.

(a) *State leadership.* It is the purpose of this Part to support a coordinated comprehensive program of systematic planning and evaluation of elementary and secondary education in each State. To this end, each State shall designate or establish a State planning and evaluation agency or unit within the State educational agency. This unit shall assume the responsibility of coordinating throughout the State the activities which are supported under this part. For State educational agencies that are by law both a State and a local educational agency, paragraphs (b) and (c) of this section and § 129.4 shall not apply. (20 U.S.C. 867, 867a(a))

(b) *Program organization and administration.* Prior to the submission of applications for grants under this part, the State educational agency shall, in order to assist the Commissioner in the administration of this part, provide the Commissioner with an indication of its intent to participate. Such indication will include (1) a description of the leadership and coordination role of the State educational agency, (2) criteria to be used for review of local educational agency applications pursuant to section 532(d) of the Act, (3) appeal procedures to be used in cases of disapproved local educational agency applications pursuant to such section, (4) recommendations concerning criteria for the allocation of available funds between State and local educational agencies, and (5) a description of the method of involving the local agencies in developing a coordinated program for the use of funds under this part. (20 U.S.C. 867 (a), (c), (d))

(c) *Technical assistance.* The State planning and evaluation unit shall provide, as necessary and appropriate, technical assistance to local educational agencies in their establishment of eligibility to participate under this part, in their development of applications and programs, and in the implementation and evaluation of those programs. (20 U.S.C. 867a, 867b)

§ 129.3 Application for grants.

(a) *In general.* Any State or local educational agency desiring to receive a grant under this part shall submit an application for each fiscal year at such time, in such form, containing such information, and in accordance with such procedures as the Commissioner may prescribe. An application shall contain:

(1) A statement of present and projected educational needs of persons residing in the area to be served;

(2) A description of a program for meeting those needs which includes—

(i) Setting long-range areawide goals in meeting educational needs and establishing priorities among such goals,

(ii) Developing long-range plans for achieving such goals, taking into consideration the resources available and the educational effectiveness of each of the alternatives,

(iii) Planning new programs and improvements in existing programs based on the results of analyses of alternative means of achieving educational goals,

(iv) Objectively evaluating at intermediate stages the progress and effectiveness of programs in achieving such goals, and, when appropriate, adjusting goals, plans, and programs to maximize educational effectiveness, and

(v) Utilizing available management information, planning, and evaluation systems and techniques,

(3) A plan for developing and strengthening the capabilities of the applicant to improve its planning capacity and to conduct, on a continuous basis, objective evaluations of the effectiveness of educational programs and projects;

(4) A plan for utilizing the resources of, and coordinating with, programs affecting education conducted by or supported by other Federal, State, and local agencies, organizations, and persons;

(5) A statement of policies and procedures which have been, or will be, established and implemented for developing and maintaining a permanent system for obtaining and collecting significant information necessary for the assessment of education in the area to be served by the applicant, for consulting with and involving parents of children served by the applicant, and for making full and detailed information concerning the educational planning and evaluation activities and findings of the applicant and other agencies and persons receiving assistance under this part reasonably available to the public;

(6) A statement of those policies and procedures as will insure that Federal funds made available under the application will be so used as to supplement, and to the extent practical, increase the amounts of State or local funds to be made available for meeting the purposes of this part; and

(7) In the case of an application from a State educational agency, a description of the provisions for using funds granted under this part to make program planning and evaluation services available to local educational agencies in the State. To judge the adequacy of these provisions for the purpose of approving the application of the State educational agency, the Commissioner may apply such criteria as:

(i) The State educational agency has estimated the services desired by the local educational agencies,

(ii) The State educational agency has identified the types of services available and has informed the local educational agencies of their availability,

(iii) The staff of the State educational agency is adequate in size and competency to offer the services identified,

(iv) The types of services available and procedures for offering them are consistent with the purposes of this part,

(v) Services are provided on the basis of relative need of local educational agencies, and

(vi) Local educational agencies requesting services have resources to benefit from the services provided. (20 U.S.C. 867b)

(b) *Assurances.* Each application shall set forth, in such detail as the Commissioner may determine necessary, such policies and procedures as will provide satisfactory assurance that:

V 38-156 AUG 14 73 XUM

(1) Assistance provided under this part, together with other available resources, will be so used for the purposes of this part as to result in the maximum possible effective progress toward the achievement of a high level of planning and evaluation competence; and

(2) Assistance under this part will be used primarily in strengthening the capabilities of the planning and evaluation staff of the agency, office, or unit responsible for the administration of the comprehensive educational planning and evaluation. (20 U.S.C. 867b(b)(2))

(c) *Local educational agency application.* An application from a local educational agency shall contain, in addition to those items in paragraphs (a) and (b) of this section:

(1) A description of the organization, responsibilities, and competencies of the planning and evaluation office or unit of the applicant;

(2) A description of the consultation with the State educational agency in the development of the application; and

(3) A description of how the applicant's planning and evaluation activities will be coordinated with the similar activities of the State educational agency; and will further contain either:

(4) A description of the area and the population to be served by the applicant agency, or agencies if a joint application; or

(5) A description of the demonstration nature of the project for planning, developing, testing, and improving planning and evaluation systems and techniques. (20 U.S.C. 867a(b))

(d) *Supplementation of State or local effort.* The application of a State or local educational agency shall contain or be accompanied by an assurance that Federal funds made available under the application will supplement and, to the extent practicable, increase the amount of State or local funds that would in the absence of such Federal funds be made available for activities which meet the conditions of section 532 of the Act and of this section. In determining whether this assurance is adequate, the Commissioner may request additional data from the applicant such as: (1) The amount of State or local funds (including, in the case of programs supported by Federal funds, the State or local share of all expenditures pursuant to such programs) to be expended by the applicant for activities which meet the conditions of section 532 of the Act and of this section as compared with (2) the amount of State or local funds expended by the applicant in the preceding fiscal year or years, as appropriate, for such activities, with allowances for unusual capital expenditures, such as the acquisition of data processing or other major items of equipment, and adjustments to reflect changes in the scope of the responsibilities of the applicant. (20 U.S.C. 867b)

§ 129.4 Review and disposition of applications.

(a) *Review of applications from local educational agencies.* The State planning and evaluation unit shall receive and review all applications from local educational agencies which desire financial assistance under this part. The State planning and evaluation unit shall evaluate all applications against the criteria established pursuant to § 129.2(b)(2) in this part. (20 U.S.C. 867a(a), (d))

(b) *Forwarding of applications to the Commissioner.* (1) The State educational agency's application for financial assistance under this part and the applications from the local educational agencies within that State shall be submitted together to the Commissioner at such time as he may prescribe.

(2) The State educational agency may establish a final submission date for local educational agency applications to be received by it which may be no more than 60 days prior to the date established by the State for submission by it of applications to the Commissioner pursuant to this section. A local educational agency may submit its application to the State educational agency not more than 90 days prior to the date established by the State for submission by it of applications to the Commissioner pursuant to this section. The State educational agency may have up to these 90 days to act upon all local educational agency applications submitted to it prior to its submission of applications to the Commissioner.

(3) All applications forwarded by the State educational agency shall be accompanied by such evaluative annotations, judgments, and recommendations as the Commissioner may require which will enable him to provide an expeditious review and approval of the applications. Each State educational agency shall recommend local and State educational agency applications which, together, add up to no more than the total apportionment for the State for the applicable fiscal year. (20 U.S.C. 867b(a), 867a(d), 867(c))

(c) *Commissioner's review of local educational agency applications disapproved by a State educational agency.* All local educational agency applications, whether the State educational agency recommends them for approval by the Commissioner or disapproves them, must be submitted at the same time to the Commissioner with the comments referred to in paragraph (b) of this section. Prior to submitting any disapproved applications to the Commissioner, the State educational agency shall comply with its own appeal procedures referred to in § 129.2(b)(3): *Provided*, That these procedures shall not delay the timely submission of applications to the Commissioner pursuant to paragraph (b) of this section. (20 U.S.C. 867a, 867b)

§ 129.5 Parental participation.

An application shall contain such information as the Commissioner may consider necessary which will indicate that the interested parents have been given reasonable notice and opportunity to express their views on the planning and development of the application, and that such notice and opportunity shall be at least as effective as providing access to the application as drafted, with an announcement in a newspaper of general circulation in the area concerning the availability of such application and of an opportunity to review the application and to express views orally or in writing. (20 U.S.C. 867b(b)(1))

§ 129.6 Amendments.

(a) *Submission.* An application must be appropriately amended whenever (1) there is a material change in a pertinent law or in the organization, policies, or operation of the grantee affecting the application or any activity described therein, (2) there is a material change in the content or administration of any such activity, or (3) any activity is added or deleted.

(b) *Approval.* Amendments to applications of local educational agencies shall be submitted for review to the State educational agency. Within 30 days after receipt, the State educational agency shall forward the proposed amendment to the Commissioner with recommendations for approval or disapproval. All amendments proposed by State educational agencies to their own applications shall be submitted to the Commissioner for approval. (20 U.S.C. 867a, 867b)

§ 129.8 Grant awards.

Grant awards may be made by the Commissioner from each State's apportionment for each fiscal year to each State and local educational agency on the basis of approved applications. To simplify payment procedures, the Commissioner may, pursuant to a single instrument, transfer funds under this part to a State agency for the purpose of making payments under approved State and local educational agency grants in that State. The State, as agent, shall subsequently transfer such funds in the appropriate amounts and at appropriate times to those local educational agencies having applications approved by the Commissioner in accordance with this part. Such arrangement shall not affect the responsibility or authority of a local educational agency with an approved application with respect to the administration of its project or otherwise alter the duties and responsibilities of the Commissioner which would prevail with respect to the grant in the absence of such arrangement. (20 U.S.C. 867(c)(3), 867b, 1232d)

§ 129.9 Federal financial participation.

The Federal Government will pay, either in installments in advance on the basis of estimated expenditures or by way of reimbursement of actual costs incurred, from each State's apportionment an amount equal to no more than three-quarters of the sums expended for comprehensive educational planning and evaluation activities under an application approved pursuant to this part. (20 U.S.C. 867b, 1232d)

§ 129.10 Public nature of funds.

The expenditures to be used in computing Federal financial participation must be from public funds. Public funds do not include contributions by private organizations or individuals unless such contributions are deposited in accordance with State law to the account of the applicant without such conditions or restrictions as would negate their public character. (20 U.S.C. 867b)

§ 129.11 Eligible costs.

Federal funds granted under title V–C of the Act may be used for such reasonable and otherwise allowable expenditures as are necessary to carry out the activities for which the grants are made. Allowable expenditures shall be computed in accordance with Office of Management and Budget Circular No. A–87 (41 CFR Part 1–15.7). (20 U.S.C. 867)

§ 129.12 Project and grant periods.

The project period shall begin on the date, and shall remain in effect for the period, specified in the notice of award. A grant of Federal funds will normally be made for only 1 year but need not coincide with a fiscal year. The grantee must make separate application for continuation support beyond a grant period. (20 U.S.C. 867)

§ 129.13 Expenditures by grantees.

The expenditure of funds will be deemed to have occurred at the entering into of binding commitments for the acquisition of goods or property or for the performance of work, except that the expenditure of funds for personal services, for services performed by public utilities, for travel, and for rental of equipment and facilities shall be determined on the basis of the time such services were rendered, such travel was performed, and such rented equipment and facilities were used, respectively. (20 U.S.C. 867, 31 U.S.C. 200)

§ 129.14 Liquidation of obligations.

Obligations entered into by a State educational agency and payable out of funds under this part should ordinarily be liquidated within 12 months following the end of the grant period unless the Commissioner extends the time for so liquidating obligations on the basis of a request from the State agency made prior to the end of the grant period. The same period for liquidating obligations should prevail for grants made to local educational agencies if the State educational agency is similarly notified and extends the time for so liquidating obligations. (20 U.S.C. 867, 1232d, 31 U.S.C. 200)

§ 129.15 Effect of payments and settlement of accounts.

(a) *No waiver.* Neither the approval of an application nor any payment to the grantee pursuant thereto shall be deemed to waive the right or duty of the Commissioner to withhold funds by reason of the failure of the grantee to observe any Federal requirements before or after such administrative action.

(b) *Settlement of accounts.* The final amount to which the grantee is entitled for any period is determined on the basis of actual disbursements under each application with respect to which Federal financial participation is authorized. (20 U.S.C. 867b, 1232d, 40 Comp. Gen. 242, 247 (1960))

§ 129.16 Fiscal audits and program reviews.

(a) To assist the grantee in adhering to statutory requirements and to the substantive legal and administrative provisions of the approved application, the Commissioner will conduct periodic reviews of the grantee's administrative and programmatic activities under title V–C of the Act.

(b) The Secretary of Health, Education, and Welfare and the Comptroller General of the United States or any of their duly authorized representatives shall have access for the purpose of audit and examination to any books, documents, papers, and records of the grantee that are pertinent to the grant received under title V–C of the Act. (20 U.S.C. 1232c)

§ 129.17 Retention of records.

(a) *Records.* The grantee shall keep intact and accessible all records relating to the receipt and expenditure of Federal funds and to the expenditure of the grantee's contribution to the cost of the project in accordance with section 434 (a) of the General Education Provisions Act, including all accounting records and related original and supporting documents that substantiate direct and indirect costs charged to the award.

(b) *Period of retention.* (1) Except as provided in paragraphs (b)(2) and (d) of this section, the records specified in paragraph (a) of this section shall be retained for 3 years after the date of submission of the annual expenditure report.

(2) Records for nonexpendable personal property which was acquired with Federal funds or with the grantee's contribution shall be retained for 3 years after its final disposition.

(c) *Microfilm copies.* Grantees may substitute microfilm copies in lieu of original records in meeting the requirements of this section.

(d) *Audit questions.* The records involved in any claim or expenditure which has been questioned by Federal audit shall be further retained until resolution of any such audit questions. (OMB Circular No. A–73; OMB Circular No. A–102, Attachment C; 20 U.S.C. 1232c(a))

§ 129.18 Adjustments.

The grantee, in its maintenance of program expenditures, accounts, records, and reports, shall make promptly any necessary adjustments in its records to reflect refunds, credits, underpayments, or overpayments, as well as any adjustments resulting from Federal or State administrative reviews and audits. Such adjustments shall be set forth in the State or local educational agency's financial reports filed with the Commissioner. (20 U.S.C. 1232d)

§ 129.19 Reports.

The application shall provide that the grantee will consult periodically with the Commissioner and will make an annual report on the activities carried out with the funds from the grant which includes such information as the Commissioner determines will permit an evaluation of the effectiveness of the program authorized by this part in achieving its purposes. Each grantee shall also make such other reports, in such form and containing such information as the Commissioner may require to carry out his functions under this part. (20 U.S.C. 867c)

§ 129.20 Reapportionment.

(a) *In general.* The amount of any State apportionment under this Part for any fiscal year which the Commissioner determines will not be required for such fiscal year shall be available for reapportionment, from time to time, on such dates during the year as the Commissioner may fix, to other States in proportion to the original apportionment to such States under title V–C of the Act for that year, but with such proportionate amount for any of such other States being reduced to the extent it exceeds the sum the Commissioner estimates such State and local educational agencies of that State need and will be able to use for such year; and the total of these reductions shall be similarly reapportioned among the States whose proportionate amounts were not so reduced.

(b) *Statements of anticipated need.* In order to provide a basis for reapportionment by the Commissioner under this section, each State educational agency shall, if requested, submit to the Commissioner, by such date or dates as he may specify, a statement or statements showing the anticipated need during the current fiscal year for the amount previously apportioned, or any amount needed to be added thereto. Such further information as the Commissioner may request for the purpose of making reapportionments shall be reflected in such statements. (20 U.S.C. 867)

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19537; FCC 73-838]

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Stations in Maryland

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Princess Anne and Pocomoke City, Maryland)[1], RM-1870, (37 FR 14000).

1. The Commission has before it the notice of proposed rulemaking adopted in this proceeding on July 6, 1972, and the comments and reply comments filed by Maranatha, Inc., and by Peter and John Radio Fellowship, Incorporated ("Fellowship").

2. The proceeding was initiated by Maranatha's filing of a petition seeking the assignment of Class B Channel 273 to Princess Anne, Maryland, a commu-

[1] The caption of this proceeding has been changed by adding Pocomoke City.

V 38-156 AUG 14 73 XUM

nity of 975 persons on the DelMarVa peninsula. Maranatha urged the assignment of a Class B channel, even though Princess Anne's population was small, so that a much needed areawide service could be provided. Maranatha pointed out that in similar circumstances the Commission had made Class B assignments to Tasley and Exmore, Virginia, even though both were quite small communities.

3. The Commission was persuaded that Maranatha's proposal was worth exploring and it issued a notice of proposed rule-making. The notice, however, did not proceed exactly along the path urged by Maranatha. Instead, the Commission proposed assigning the channel to nearby and larger Pocomoke City, Maryland, and at the same time proposed deleting the unoccupied Class A assignment there. The reasons for this approach were several-fold. First, the Commission's experience with assignments in this area had shown that a need for additional service not providable by Class A stations had led to the assignment of Class B channels to rather small communities. In fact, population distribution in this general area was such that there was a paucity of real population centers in which to make assignments on any other basis. In recognition of this experience, the Commission expressed the tentative view that little purpose would be served by retaining the unoccupied assignment at Pocomoke City, since it did not appear likely that this channel would be activated in competition with a nearby Class B assignment. If the Class A channel were deleted, Pocomoke City would be without an assignment even though it was larger than Princess Anne. Thus, the notice proposed assigning the Class B channel to Pocomoke City, recognizing the fact that the proximity of the communities meant that the use of the channel at Princess Anne remained a viable possibility. At this point, Maranatha was the only party involved.

4. With the release of the notice, the situation changed and Fellowship joined the picture. Although it, too, was desirous of operating an FM station in the area, Fellowship's comments diverged from those of Maranatha. Although Maranatha accepted the rationale of the Commission's Notice, it continued to believe that its original proposal was preferable. It reiterated its view that Princess Anne warranted a Class B assignment and questioned the Commission's observation that this assignment might preclude use of the existing Class A assignment. It felt that the channel should remain so that it could be utilized when the need arose. Fellowship took a different tack. Having by then decided to apply for the existing Class A assignment at Pocomoke City, Fellowship urged retention of the assignment so that service could commence as early as possible.[2] Fellowship advanced two counter-disposals. The first would assign Class B Channel 273 to Pocomoke City while retaining the community's existing Class A assignment. The second would assign the Class B channel to Pocomoke City and transfer the existing Class A assignment from Pocomoke City to Princess Anne. Each of the parties has offered information regarding the need for an assignment to provide a local outlet of expression as well as to provide needed area coverage. Although both favor retention of the Class A assignment, neither appears willing to settle for it.

5. The record clearly indicates that the area is in need of additional service, and there is no way to bring such a wide-area service save by assigning a Class B channel to a relatively small community. As we observed in the Notice, a pattern of assignments has been developing, one based on the use of Class B channels. Our recognition of this pattern is not intended to denigrate the use of Class A channels in this area but serves merely to observe their inability to provide coverage to the thinly populated areas involved. Of course, Class A channels retain their function of providing outlets for local expression, and our point was not that use of Class A channels was unacceptable. It was only that their use was limited and expressions of interest in them even more limited. At first blush, this case appears to indicate an exception to the rule: someone apparently is desirous of operating on a Class A channel. From all indications, however, Fellowship's interest in the Class A channel is solely as a stepping stone to the Class B channel. As we read its pleadings it either would operate on the Class A channel or would anticipate a modification of license to specify the Class B channel. Neither is consistent with the objectives of the Communications Act, as each forecloses fair competition in the making of a choice of the better applicant.

6. In order for us to retain Channel 221A in the area, we need a bona fide expression of interest in it, not merely as a tool of competition for the Class B channel.[3] To date there has been none. One alternative could be to require an election so that the applicant for the Class A channel could not use any permit on it as a stepping stone. The problem is that Maranatha has expressed no interest in this channel and Fellowship has not indicated such an interest if it could lead no where else. In all likelihood, then, to insist on fairness (and hence an election) is to end interest in the channel. There is no reason to retain a channel that appears to serve no useful purpose. Under these circumstances Channel 221A will be deleted from Pocomoke City.[4]

7. Having concluded that area intermixture is inappropriate we now have to decide which community should be assigned the Class B channel. Practically speaking, there is little difference, since Pocomoke City and Princess Anne are within 15 miles of one another. This being the case, so long as Channel 221A no longer appears in the Table, Class B Channel 273 could be used at either community. Our reason for initially proposing Pocomoke City was simply its larger size. Although Maranatha points to Princess Anne's growth and potential for even greater expansion, a proper resolution of these 307(b) comparative issues could best take place in the context of a comparative hearing. Even if there is no real practical significance to the choice in this context, it seems preferable to follow our usual policy and assign the channel to Pocomoke City, as the larger community.

8. *It is ordered*, That effective September 14, 1973, the FM Table of Assignments (§ 73.202(b) of the Commissions Rules) is amended to read as follows:

City	Channel No.
Pocomoke City, Maryland	273

9. Authority for the actions taken herein is contained in Sections 4(i), 303 and 307(b) of the Communications Act of 1934, as amended.

10. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307.)

By the Commission.

Adopted: August 2, 1973.

Released: August 7, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[5]
VINCENT J. MULLINS,
Acting Secretary.

[FR Doc.73-16793 Filed 8-13-73;8:45 am]

[2] Fellowship indicated its willingness to have any license or permit granted to it modified to specify operation on the Class B channel if it later were substituted. Such a procedure, effectively foreclosing a comparison of applicants, is clearly inappropriate. This is one of the reasons for the Commission's policy of withholding action on applications until rule making proceedings involving them are concluded.

[3] If we were to accept Fellowship's urgings, we would be forced to construct special rules for a hearing on the Class B channel so that it would not unfairly benefit by virtue of any occupancy of the Class A channel. In fact, competitive reasons might dictate that both would first vie for the Class A channel, thus vitiating any possible advantage in terms of earlier commencement of service.

[4] If, contrary to present appearances, there is a party interested in the Class A channel itself, we would be prepared to take expeditious action on a petition seeking to have it re-assigned.

[5] Commissioners H. Rex Lee and Reid absent.

[Docket No. 19717; FCC 73-837]

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Stations in Washington

In the Matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Yakima, Washington), RM-1897, RM-1933.

1. The Commission here considers the notice of proposed rule making in this docket, adopted March 29, 1973 (FCC 73-354; 38 FR 8754), proposing amendment of the FM Table of Assignments (§ 73.202(b) of the Commission's rules and regulations) by assigning Channel 252A to Yakima, Washington. The parties commenting are the petitioners, KUTI Communicators, Inc. (KUTI) and KQOT, Inc. (KQOT), respectively the licensees of daytime-only AM stations KUTI and KQOT at Yakima, Washington, both of whom seek the assignment of Channel 252A as a fourth channel to Yakima.

2. Yakima, population 45,588[1] is the county seat and largest city in Yakima County, population 144,971.[2] Yakima has three FM stations (all Class C) and six AM stations (three daytime-only). The Notice raised a number of issues. The first is whether Yakima is entitled to a fourth FM channel assignment under population criteria for assigning FM channels. In this respect, it was appropriately noted that a city of the size of Yakima warrants only two channels while a city of 50,000 to 100,000 population merits up to four channels.[3] However, it was also noted that our population guidelines are not viewed as a strait jacket precluding consideration of special circumstances. Consequently, we stated that the question of making another FM channel assignment to Yakima warranted exploration in the light of an active interest by the petitioners (and possibly others if another channel were assigned there) and in view of the fact that the 1970 Yakima population was only 4,412 below the 50,000 dividing line. Comments were invited about whether a Class A facility could serve the metropolitan area (allegedly with a population of 72,100), the county, and the trade area (261,000 inhabitants), and the question of intermixing classes of channels. We indicated that in order to avoid redundancy the petitioners might wish to file a joint submission. From the technical viewpoint, we agreed that Channel 252A could be assigned to Yakima without affecting any assignment elsewhere and without serious preclusionary effects.

3. We now discuss the comments. KUTI indicates that its interest as a daytime-only station is to provide nighttime service as well. In this respect, it says that our recent Report and Order in Docket No. 18651, 39 F.C.C. 2d 645 (1973), does not permit it to file an application for a nighttime AM facility, and, thus, the most feasible method for achieving its objective of providing nighttime service is by the assignment of an additional FM channel which it proposes to apply for. In other respects, KUTI incorporates by reference factual material submitted by it and KQOT in support of the petitions. We need not here repeat this for what was deemed relevant was set forth in the Notice. KUTI affirms its interest in filing an application for a station if a channel is assigned. As to the question of the ability of a Class A station to serve a substantial portion of the population in and around Yakima, KUTI says that the population is concentrated in a small geographic area in the Yakima River Valley; while Yakima is located in the mountains of south-central Washington, the city is in the valley of the Yakima River which is bounded by steep mountains to the northeast and southwest and we are told that large unpopulated areas owned by the Government lie to the north and east and a sparsely populated Indian reservation is located to the south and west. In the circumstances, KUTI states that from a transmitter site at one of several locations on nearby mountains (where the existing FM stations operate) adequate service to a substantial portion of the population in and around Yakima can be rendered. In this respect, it defers to the engineering finding submitted by KQOT.

4. KQOT's comments are of principal interest with respect to the engineering study dealing with the type of service that a Class A station could provide to Yakima and surrounding area. From a transmitter site tentatively selected for its application, KQOT shows that a community-grade signal could be provided to 171 square miles encompassing the city of Yakima and its urban area with a total population of 74,900 people (51 percent of the population in the county), while the 1 mV/m contour would cover 620 square miles with a population of 110,871 (76 percent of the county).[4] No showing was made about the trade area. As concerns the question of intermixture, KQOT refers to numerous actions by the Commission where such action has been permitted.

5. As already noted, the basic issues in this proceeding concern the population criteria and intermixture. As to the former, we have said that they are "a guide and not an immutable standard" (*Fresno*, 38 F.C.C. 2d 525, 526 (1972)). Here, as in that instance, there is reason for deviating from the criteria because of the availability of an FM channel for assignment to Yakima, and because of demand for the channel which is evidenced by what in effect is a joint petition by two daytime-only stations seeking to bring nighttime service. Moreover, it appears that such service would be brought to a substantial population in and around Yakima. The record shows that because of the peculiar geographical location of Yakima and Yakima County and the high concentration of population in the river valley, a Class A facility from one of the nearby mountain peaks could provide a community-grade service to about 75,000 people and at least 1 mV/m service to approximately three-fourths of the population in Yakima County.[5] As to the policy against intermixture of the classes of FM channels to a community, KQOT points to many instances of deviation, and, indeed, we have deviated, for example, when there is a demand and a showing has been made that a Class A channel could compete with Class C channels (or at least, a showing has been made that someone is willing to attempt such action) when no further Class C channel may be assigned to a community. See and compare *Tallahassee* (FCC 73-670, __ F.C.C. 2d _____ (1973)). See also *Oak Ridge*, 32 F.C.C. 2d 937, 944 (1972); and *Parkersburg*, 37 F.C.C. 2d 54, 58 (1972), where we indicated that we adhere to intermixture to the extent possible but that to continue to do so with the FM assignments becoming scarce in some areas would be a vain effort aimed at equality and parity of service inconsistent with more important public interest, convenience, and necessity considerations under the Communications Act.

6. In the circumstances, we find that the public interest, convenience, and necessity will be served by assigning Channel 252A to Yakima, Washington, considering all relevant policy considerations. From the point of view of population criteria, another assignment would satisfy the demand and need for additional nighttime service to a substantial population because of the geographical characteristics. As to intermixture, our concern was both as to policy and whether a Class A facility could provide Yakima and its surrounding population with requisite service. As to the latter, we are satisfied that because of the population concentration a station on Class A channel could provide adequate service. As to intermixture, we are guided by the considerations mentioned at the end of the last paragraph.

[1] All population information is from the 1970 U.S. Census.

[2] These respectively are a 5.3 percent increase and 0.1 percent decrease from the 1960 Census.

[3] See para. 4 of the further notice of proposed rule making in Docket No. 14185, adopted July 25, 1962 (FCC 62-867), and incorporated by reference in para. 25 of the Third Report, Memorandum Opinion and Order (40 F.C.C. 747, 758 (1968)).

[4] Other data filed with KQOT's comments consist of letters evidencing an interest in having its public affairs programming broadcast during evening hours. We do not detail this information here, inasmuch as it seems to be more appropriate as concerns an application for construction permit should a channel be assigned to the community.

[5] See § 73.315.

V38-156 AUG 14 73 XUM

7. Authority for this action is found in sections 4(i), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended.

8. Accordingly, *It is ordered*, That the FM Table of Assignments (§ 73.202(b) of the Commission's rules and regulations) is amended effective September 14, 1973, as concerns Yakima, Washington, as follows:

City	*Channel No.*
Yakima, Washington	233, 252A, 281, 297

9. *It is further ordered*, That this proceeding is terminated.

Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307.

By the Commission.

Adopted: August 2, 1973.

Released: August 7, 1973.

FEDERAL COMMUNICATIONS COMMISSION,*
VINCENT J. MULLINS,
Acting Secretary.

[FR Doc.73-16794 Filed 8-13-73;8:45 am].

Title 49—Transportation

SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

[OST Docket No. 1; Amdt. 1-76]

PART 1—ORGANIZATION AND DELEGATION OF POWERS AND DUTIES

Administrators et al.; Reimbursable Agreements and Employee Claims for Personal Property Losses

The purpose of this amendment is to:

1. Revoke the delegation to all Administrators appearing at 49 CFR 1.45(a)(5) to approve systems of administrative control to restrict obligations or expenditures to the amount of apportionments and to fix responsibility for the creation of any such obligation which exceeds available funds (31 U.S.C. 665) since this authority is encompassed within the general delegation to exercise the authority of the Secretary as executive head of a department appearing at 49 CFR 1.45(a)(2).

2. Delegate to Administrators and Secretarial Officers authority under 31 U.S.C. 636 to enter into inter- and intradepartmental reimbursable agreements other than with the head of another department or agency, and restrict the authority to redelegate that authority.

3. Delegate to Administrators and the Director of the Transportation Systems Center authority under 31 U.S.C. 241 (a) or (b), as appropriate, to settle and pay claims of employees for personal property losses, and restrict the authority of Administrators to redelegate that authority.

4. Delete from 49 CFR 1.61(j) reference to the Office of Supersonic Transport Development, since that office no longer exists.

* Commissioners Johnson concurring in the result; Commissioner H. Rex Lee and Reid absent.

Since this amendment relates to Departmental management, procedures, and practices, notice and public procedures there on are unnecessary and it may be made effective in fewer than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, effective on August 14, 1973, Part 1 of Title 49, Code of Federal Regulations, is amended as follows;

1. In § 1.45(a), former subparagraph (5) is revoked, former subparagraph (6) is redesignated subparagraph (5), and new subparagraphs (6) and (9) are added, to read as follows:

§ 1.45 Delegations to all Administrators.

(a) • • •

(6) Enter into inter- and intra-departmental reimbursable agreements other than with the head of another department or agency (31 U.S.C. 686). This authority may be redelegated only to Office Directors, Regional Directors, District Commanders or other comparable levels and Contracting Officers.

• • • • •

(9) Settle and pay claims by employees for personal property losses as provided by 31 U.S.C. 241 (a) or (b), as appropriate. This authority may be redelegated only to Office Directors, Regional Directors, District Commanders or other comparable levels and to those individuals that report to the above officials.

2. In § 1.52(b), former subparagraph (8) is redesignated subparagraph (9), and a new subparagraph (8) is inserted, to read as follows:

§ 1.52 Delegations to all Secretarial Officers.

• • • • •

(b) • • •

(8) Enter into inter- and intra-departmental reimbursable agreements other than with the head of another department or agency (31 U.S.C. 686). This authority may be redelegated only to Office Directors or other comparable levels and to Contracting Officers.

• • • • •

3. In § 1.61, paragraph (j) is revised, and a new paragraph (k) is added, to read as follows:

§ 1.61 Delegations to Director of the Transportation Systems Center.

• • • • •

(j) Enter into General Working Agreements and specific Project Plan Agreements with sponsoring organizations (operating administrations and others) which spell out in relatively broad terms the type of work the Transportation Systems Center will perform for the sponsor and which commit or obligate the sponsor's funds to be advanced periodically during the work period to a special OST/TSC Consolidated Working Fund.

(k) Settle and pay claims by employees for personal property losses as provided by 31 U.S.C. 241(b).

(Sec. 9(e), Department of Transportation Act 49 U.S.C. 1657(e))

Issued in Washington, D.C., on August 8, 1973.

CLAUDE S. BRINEGAR,
Secretary of Transportation.

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION DEPARTMENT OF TRANSPORTATION

[Docket No. 69-7; Notice 29]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Occupant Crash Protection; Postponement of Effective Date

The purpose of this notice is to postpone the effective date of the requirements of Standards No. 208, Occupant Crash Protection, and 216, Roof Crush Resistance, applicable to the upcoming model year, from August 15, 1973, to September 1, 1973.

The amendment of the effective date was proposed in a notice published July 17, 1973 (38 FR 19049), in response to a petition filed by Chrysler Corporation. Chrysler had stated that the build-out of their 1973 models was in danger of running beyond the August 15 date, due to a variety of factors beyond the company's control. In proposing the postponement of the date, the NHTSA noted that the August 15 date had been chosen to coincide with the normal changeover date and that a delay would not appear to have any effect beyond allowing a slightly prolonged build-out.

The two comments submitted in response to the proposal were both favorable. The agency has not discovered any adverse consequences of a delay which would make it inadvisable, and has therefore decided to postpone the effective date as proposed.

In light of the foregoing, 49 CFR 571.208, Standard No. 208, Occupant Crash Protection, is amended by changing the date of August 14, 1973, appearing in S4.1.1 to August 31, 1973, and by changing the date of August 15, 1973, appearing in S4.1.2 to September 1, 1973. The effective date of 49 CFR 571.216, Standard No. 216, Roof Crush Resistance, is changed from August 15, 1973, to September 1, 1973.

Because this amendment relieves a restriction and imposes no additional burden, an effective date of less than 30 days from the date of issuance is found to be in the public interest.

(Sec. 103, 119, Pub. L. 89-563, 80 Stat. 718, 15 U.S.C. 1392, 1407; delegation of authority at 49 CFR 1.51)

Issued on August 10, 1973.

JAMES B. GREGORY,
Administrator.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

[Ex Parte 272]

C.O.D. AND FREIGHT-COLLECT SHIPMENTS

Investigation Into Limitations of Carrier Service

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 16th day of July 1973.

It appearing, that by order entered December 15, 1970, this Commission instituted an investigation for the purposes, among others, to (1) examine the nature and scope of the practices of all regulated carriers with respect to limitations of service on the basis of the factors described in our initiating notice and order; (2) investigate the impact on the Nation's commerce of those practices; (3) analyze the motivational forces which have contributed to these and other related carrier practices and actions; (4) determine the scope of this Commission's jurisdiction with respect to each of the matters described in the notice; (5) consider the need for or the desirability of the adoption by this Commission of just, reasonable, and lawful rules and regulations governing (a) these and other matters (including possible carrier bonding requirements) relating to the handling of or refusal by regulated carriers to transport c.o.d. and order-notify shipments generally or with respect to certain areas, and (b) the complete or partial refusal by regulated carriers to transport freight-collect shipments generally or those destined to specified points; and (6) determine the need for such other and further action, including the possible recommendation of any legislation, as the facts and circumstances may justify or require;

It further appearing, that all railroads, express companies, motor carriers, water carriers, freight forwarders, and brokers subject to the Interstate Commerce Act were made respondents in the proceeding, the Bureau of Enforcement of this Commission was authorized and directed to participate, and opportunity to participate in the proceeding by filing initial and reply statements was given to all persons that indicated to this Commission their intention to do so;

It further appearing, that statutory notice of the institution of this proceeding was given to the general public by mailing a copy of the order of December 15, 1970, to the Governor of every State and to the Public Utilities Commissions or Boards of each State having jurisdiction over transportation, by depositing a copy of said order in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and by delivering a copy thereof to the Director, Division of the Federal Register, for publication in the FEDERAL REGISTER as notice to all interested parties and that such notice appeared in the issue of the FEDERAL REGISTER on January 7, 1971 (36 FR 226-228);

It further appearing, that initial representations and statements in reply were filed by numerous parties to the proceeding; and investigation of the matters and things involved in this proceeding having been made, and the Commission on the date hereof, having made and filed a report containing its findings of facts and conclusions thereon, in which said report it is found, as more particularly set forth therein, that certain carrier respondents, including parties to this proceeding, have been and are at the present time publishing in their tariffs, maintaining, and enforcing rules, regulations, and practices with respect to the curtailment or abolishment of services on c.o.d., order-notify, and freight-collect shipments and shipments transported under combinations of rates which are unjust, unreasonable, unduly discriminatory, and otherwise in violation of certain provisions of parts I, II, III, and IV of the Interstate Commerce Act and the national transportation policy, as more particularly set forth in the said report, and that the said report, for the reasons above, should be made a part hereof;

It further appearing, that the said report embraces an appendix referred to and designated therein as appendix D, and that the Commission has found, as set forth in the report, that the regulations contained in the said appendix are required by the public convenience and necessity, are consistent with the public interest, and the national transportation policy, and are just, reasonable, and otherwise lawful, and that compliance therewith should be required of all common carriers of property and freight forwarders, respondents hereto;

And it further appearing, that services provided by respondent carriers with respect to c.o.d., order-notify, and freight-collect shipments including such services as shipments transported under combinations of rates, constitute "transportation" within the meaning of the Interstate Commerce Act and the national transportation policy for the reasons set forth in the said report, and good cause appearing therefor:

It is ordered, That Subchapter D to Chapter X, of Title 49 of the Code of Federal Regulations be, and it is hereby, amended by inserting therein new paragraphs in parts 1300, 1304, 1307, 1308, and 1309, which paragraphs are appropriately designated and set forth in part I of appendix D to the said report.

It is further ordered, That Subchapter A, Chapter X, of Title 49 of the Code of Federal Regulations be, and it is hereby, modified (a) by inserting therein a new part, which part is hereby designated part 1006, Embargoes, and contains all of the regulations set forth in part II of appendix D to the said report; and (b) by cancelling and deleting therefrom all of part 1059, Embargoes, but that said cancellation and deletion shall not take effect prior to the time that the regulations referred to in (a) become effective.

It is further ordered, That all common carriers of property and freight forwarders, respondents herein, be, and they are hereby, notified and required to cease and desist, on or before October 15, 1973, from using or applying their tariff provisions, rules, regulations, and practices to the extent that the provisions and purposes thereof are inconsistent with or substantively at variance with the provisions and regulations set forth in appendix D referred to above.

It is further ordered, That all common carriers of property and freight forwarders, respondents to this proceeding be, and they are hereby, ordered to file with this Commission, on or before October 15, 1973, each tariff or tariff supplement which may be required to bring their effective published tariffs into conformity with the findings made in the said report, the requirements of the Interstate Commerce Act, and the regulations prescribed thereunder, including the regulations set forth in part I of appendix D to the said report; and that each tariff or tariff supplement so filed shall be made effective not later than November 15, 1973.

It is further ordered, That common carriers subject to parts I, II, and III and freight forwarders subject to part IV of the Interstate Commerce Act, be, and they are hereby, notified that any proposal to limit the services of carriers under consideration herein resulting from collective rate-making will be subject to rejection and or suspension for investigation.

It is further ordered, That the motion of National Bus Traffic Association, Inc., contained in its initial representation filed in behalf of its members, to discharge motor common carriers of passengers as respondents in this proceeding be, and it is hereby, overruled for the reasons set forth in the said report.

It is further ordered, That the petition of the Department of Defense contained in its tendered initial representation filed June 2, 1972, for leave to submit a late-filed initial representation be, and it is hereby granted, and the tendered representation be, and it is hereby, accepted for filing.

It is further ordered, That the regulation promulgated herein be, and they are hereby, prescribed to become effective on October 15, 1973, and will apply on all operations conducted by respondents subject thereto on and after the said effective date.

It is further ordered, That this proceeding be, and it is hereby discontinued.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Interstate Commerce Commission, at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

EMBARGOES AND NOTICE

PART 1006—EMBARGOES

1. Part 1006 is added to 49 CFR Chapter X as follows:

Sec.
1006.1 Public notice of embargoes required.
1006.2 Notice of delay in performing service.
1006.3 Request for authority to impose a qualified freight embargo.
1006.4 Duty to transport not affected.

AUTHORITY: 24 Stat. 379 (this section and subsequent citations designated with an asterisk, as amended), 380*, 383*, 384*; 34 Stat. 595*; 41 Stat. 488*; 44 Stat. 1447; 49 Stat. 543*, 544*, 546*, 552*, 558*, 560*, 563*, 565; 52 Stat. 1237; 54 Stat. 899, 900, 910, 911, 922, 924, 931*, 933, 934*, 935, 937, 941*, 946, 949; 56 Stat. 284*, 285, 286, 287, 288, 291*, 295, 295; and 62 Stat. 472, 49 U.S.C. preceding section 1, and sections 1, 2, 3, 5, 5b, 6, 12, 13, 15, 15a, 20, 303, 304, 308, 316, 317, 319, 323, 903, 904, 905, 906, 907, 909, 916, 918, 1002, 1003, 1004, 1005, 1006, 1010, 1013, and 1014.

§ 1006.1 Public notice of embargoes required.

(a) Whenever any common carrier of property or freight forwarder subject to the Interstate Commerce Act finds that because of a lack of facilities or personnel, or because it is required to give preference and precedence to other traffic legally entitled to such priority, or because of other compelling circumstances not within the control of the carrier or freight forwarder, it is or soon will be unable to perform all authorized and required transportation services requested of it, and that it will be necessary for it temporarily to suspend the offering of service in the transportation of any commodity, commodities, or class of traffic, to or from any territory, point, shipper, consignee, or connecting carrier, or over any route, it shall immediately give public notice of such fact by a written notice of an embargo, specifying the extent thereof, the date the embargo is to become effective, its duration, if known, and the reasons why the placing of the embargo is necessary.

(b) Immediately upon the issuance of a notice of an embargo as required by paragraph (a) of this section, one copy of such notice shall be mailed to the Bureau of Operations, Interstate Commerce Commission, Washington, D.C. 20423, two copies shall be mailed or delivered to the Regional Director of the Interstate Commerce Commission in the Region where the principal headquarters of the carrier is located, one copy shall be posted for public inspection in each office of the carrier where the embargo is to be made effective, one copy shall be served upon each connecting carrier with whom the issuing carrier interchanges traffic in cases where traffic so interchanged is affected, and, so far as is reasonably practicable in each case, the embargo shall be brought to the attention of interested shippers and consignees.

(c) Except in instances when the notice of an embargo specifies the date of its expiration, a notice of the termination or modification of an embargo shall be issued, posted, and filed by the carrier, and notice of such termination or modification shall be given to interested shippers, consignees, and connecting lines, in the same manner as prescribed for notice of the establishment of an embargo in paragraph (b) of this section.

§ 1006.2 Notice of delay in performing service.

In all instances, other than specified in § 1006.1, when a common carrier of property or freight forwarder subject to the Interstate Commerce Act, is unable to perform authorized transportation promptly upon request, it shall notify the person requesting the service of the anticipated delay and the reason therefor, and shall promptly notify the Bureau of Operations, Interstate Commerce Commission, Washington, D.C., and the Regional Director of the Bureau of Operations, Interstate Commerce Commission, in the Region where the carrier has its principal headquarters, of any inability to perform requested transportation within a reasonable time, and the reason therefor. Upon the termination of the conditions which render the carrier unable to perform desired transportation within a reasonable time, the carrier shall notify the Bureau of Operations and the Regional Director mentioned above of the changed conditions.

§ 1006.3 Request for authority to impose a qualified freight embargo.

(a) Whenever any common carrier of property or freight forwarder believes that, for reasons beyond its ability to control, its continued provision of transportation service on c.o.d., freight-collect, and order-notify shipments, including such services on shipments transported under combinations of rates, from or to a particular shipper or consignee will cause other members of the shipping public which it is lawfully obligated to serve to be denied reasonable and adequate service, it may apply to this Commission for authority to impose a qualified freight embargo. Each request for such authority shall detail the reasons for the request and shall affirmatively show that bona fide efforts have been made to communicate and cooperate with the shipper or consignee named therein for the purpose of alleviating the problem or problems involved and that such efforts have failed.

(b) Each request shall be filed in the manner and form which the Commission shall from time to time prescribe and must contain (i) an affirmative showing that bona fide efforts have been made to communicate and cooperate with the shipper or consignee named therein for the purpose of alleviating the problem or problems involved and that such efforts have failed to meet with success; and (ii) a certification that a copy thereof has been served upon all persons known to the carrier who will be affected if the request is granted. Neither the provisions of this paragraph nor the granting by this Commission of authority to impose a qualified freight embargo shall be construed to relieve any carrier or freight forwarder of the duty to issue an embargo notice as required by paragraph (a) of § 1006.1.

§ 1006.4 Duty to transport not affected.

The provisions of §§ 1006.1, 1006.2, and 1006.3 shall not be construed to relieve any carrier or freight forwarder of the duty to furnish transportation service, nor to relieve any carrier or forwarder of the duty to observe all requirements of law and the regulations prescribed by the Commission.

PART 1059—EMBARGOES [DELETED AND RESERVED]

2. Part 1059 of 49 CFR Chapter X is deleted and reserved.

CONTENT OF TARIFFS

PART 1300—FREIGHT SCHEDULES—RAILROADS

3. That 49 CFR Part 1300 be amended by adding thereto new § 1300.4(e) as follows:

§ 1300.4 Content of tariffs.

* * * * *

(e) *Public holding out.* (1) Tariffs must contain only rates, charges, and related provisions that cover services in strict conformity with each carrier's public holding out. No provision may be published in tariffs, supplements, or revised pages which results in restricting service to less than the carrier's full obligation to the public to provide and furnish transportation or which exceeds such carrier's lawful public holding out.

(2) Tariffs and supplements thereto filed prior to the effective date of section 1300.4(e)(1) which do not conform to those requirements shall be brought into conformity therewith on or before November 15, 1973.

(3) Unless each tariff filed on and after the effective date hereof contains a certification by the carrier filing the same that, with respect to all of the services described therein (except those services being published for the first time), it is in fact (i) fully offering and, when requested, impartially providing all of its obligated services, and (ii) fully observing all requirements of law and the regulations prescribed by the Commission, the tariff or supplement will be rejected until such time as certification thereof is made. Such service includes service on c.o.d., freight-collect, and order-notify shipments, including such services on shipments transported under combinations of rates.

PART 1304—EXPRESS COMPANIES SCHEDULES AND CLASSIFICATIONS

4. Part 1304 of 49 CFR Chapter X is amended by adding a new § 1304.4(k) as follows:

§ 1304.4 Content of tariffs in book or pamphlet form.

* * * * *

(k) *Operating authority.* (1) Tariffs must contain only rates, charges, and related provisions that cover services in strict conformity with each express company's public holding out. No provision may be published in tariffs, supplements, or revised pages which results in restricting service to less than the express company's full obligation to the public to provide and furnish transportation or which exceeds its lawful public holding out. Such service includes service on c.o.d., freight-collect, and order-notify shipments, including such services on shipments transported under combinations of rates. Tariff publications containing such provisions are subject to rejection or suspension for investigation.

(2) Tariffs and supplements thereto filed prior to the effective date of paragraph (k)(1) of this section which do not conform to those requirements shall be brought into conformity therewith on or before November 15, 1973.

(3) Unless each tariff filed on and after the effective date hereof contains a certification by the express company filing the same that, with respect to all of the services described therein (except those services being published for the first time), it is in fact (i) fully offering and, when requested, impartially providing all of its obligated services, and (ii) fully observing all requirements of law and the regulations prescribed by the Commission, the tariff or supplement will be rejected until such time as certification thereof is made. Such service includes service on c.o.d., freight-collect, and order-notify shipments, including such services on shipments transported under combinations of rates.

PART 1307—FREIGHT RATE TARIFFS, SCHEDULES, AND CLASSIFICATIONS OF MOTOR CARRIERS

5. Part 1307 of 49 CFR Chapter X is amended by adding a new § 1307.27(k)(3) as follows:

§ 1307.27 Contents of tariffs.

* * * * *

(k) *Operating authority.* * * *

(3) Unless each tariff filed on and after the effective date hereof contains a certification by the carrier filing the same that, with respect to the services described therein (except those services being published for the first time), it is in fact fully offering and, when requested, impartially providing all of its authorized services, the tariff or supplement will be rejected until such time as certification thereof is made.

PART 1308—FREIGHT TARIFFS AND SCHEDULES OF WATER CARRIERS

6. Part 1308 of 49 CFR Chapter X is amended by adding a new § 1308.4(k) to read as follows:

§ 1308.4 Contents.

* * * * *

(k) *Operating authority.* (1) Tariffs must contain only rates, charges, and related provisions that cover services in strict conformity with each carrier's operating authority. No provisions may be published in tariffs supplements or revised pages which result in restricting service to less than the carrier's full operating authority or which exceed such authority. Such service includes service on c.o.d., freight-collect, and order-notify shipments, including such services on shipments transported under combinations of rates. Tariff publications containing such provisions are subject to rejection or suspension for investigation.

(2) Tariffs and supplements thereto filed prior to the effective date of section 1308.4(k)(1) which do not conform to those requirements shall be brought into conformity therewith on or before November 15, 1973.

(3) Unless each tariff filed on and after the effective date hereof contains a certification by the carrier filing the same that, with respect to all of the services described therein (except those services being published for the first time), it is in fact (i) fully offering and, when requested, impartially providing all of its authorized services, and (ii) fully observing all requirements of law and the regulations prescribed by the Commission, the tariff or supplement will be rejected until such time as certification thereof is made.

PART 1309—TARIFFS AND CLASSIFICATIONS OF FREIGHT FORWARDERS

7. Part 1309 of 49 CFR Chapter X is amended by adding a new § 1309.6(k) to read as follows:

§ 1309.6 Contents.

* * * * *

(k) *Operating authority.* (1) Tariffs must contain only rates, charges, and related provisions that cover services in strict conformity with each freight forwarder's operating authority. No provision may be published in tariffs' supplements, or revised pages which results in restricting service to less than the freight forwarder's full operating authority or which exceeds such authority. Such service includes service on c.o.d., freight-collect, and order-notify shipments, including such services on shipments transported under combinations of rates. Tariff publications containing such provisions are subject to rejection or suspension for investigation.

(2) Tariffs and supplements thereto filed prior to the effective date of section 1309.6(k)(1) which do not conform to those requirements shall be brought into conformity therewith on or before November 15, 1973.

(3) Unless each tariff filed on and after the effective date hereof contains a certification by the freight forwarder filing the same that, with respect to all of the services described therein (except those services being published for the first time), it is in fact (i) fully offering and, when requested, impartially providing all of its authorized services, and (ii) fully observing all requirements of law and the regulations prescribed by the Commission, the tariff or supplement will be rejected until such time as certification thereof is made.

[FR Doc.73-16822 Filed 8-13-73;8:45 am]

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Department of Agriculture

Section 213.3313 is amended to show that one position of Special Staff Assistant (Natural Resources and Environmental Matters) to the Secretary is excepted under Schedule C.

Effective on August 14, 1973, § 213.3313(a)(35) is added as set out below.

§ 213.3313 Department of Agriculture.

(a) *Office of the Secretary.* * * *

(35) One Special Staff Assistant (Natural Resources and Environmental Matters) to the Secretary.

* * * * *

(5 U.S.C. secs. 3301, 3302; E.O. 10577, 3 CFR 1954–58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.73-16771 Filed 8-13-73;8:45 am]

Title 6—Economic Stabilization

CHAPTER I—COST OF LIVING COUNCIL

PART 140—COST OF LIVING COUNCIL FREEZE REGULATIONS

PART 150—COST OF LIVING COUNCIL PHASE IV PRICE REGULATIONS

Extension of Freeze for Crude Oil and Petroleum Products

Parts 140 and 150 are amended to extend the freeze on prices charged for crude petroleum, natural gas liquids and refined petroleum products including gasoline, kerosene and fuel oil until 11:59 p.m., e.s.t., August 19, 1973. Sections 140.1(a) and 150.1(b), the scope sections of the freeze and Phase IV regulations, are revised to accomplish this result. The products covered by this extension are described in the 1972 edition of the Standard Industrial Classification Manual. Industrial Codes 1311 (except natural gas), 1321, and 2911.

V 38-156 AUG 14 73 XUM

The Cost of Living Council has found that this limited extension of the freeze is necessary in order to adequately consider the volume of comments which the Council received on the proposed Phase IV regulations affecting petroleum. The Council received 272 comments on Subpart L of the proposed Phase IV regulations. This number includes 110 comments which were received after July 31, 1973.

Although the basic policy decisions have been made, a careful review of the methods of implementing these policies is necessary. The extreme complexity of this industry prevents issuance of final Phase IV regulations in time for them to be effective August 13, 1973. Thus, the Council has extended the freeze for one week to provide time to write the Subpart L regulations in final form.

Because the purpose of these amendments is to provide immediate guidance and information with respect to the decisions of the Council, the Council finds that publication in accordance with normal rule making procedure is impracticable and that good cause exists for making these amendments effective in less than 30 days.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92-210, 85 Stat 743; Pub. L. 93-28, 87 Stat 27; E.O. 11730, 38 FR 19345; Cost of Living Council Order No. 14, 38 FR 1489)

In consideration of the foregoing Chapter I of Title 6 of the Code of Federal Regulations is amended as follows, effective August 10, 1973.

Issued in Washington, D.C., on August 10, 1973.

JOHN T. DUNLOP,
Director,
Cost of Living Council.

1. Section 140.1(a) is amended to read as follows:

§ 140.1 Purpose and scope.

(a) The purpose of this part is to implement the provisions of Executive Order 11730 which continues the freeze on prices for commodities and services imposed by Executive Order 11723. Except as provided in paragraph (b) of this section, the provisions of this part are in addition to the provisions of Part 130 of this chapter with respect to prices charged or received for commodities and services beginning 9:00 p.m., e.s.t., June 13, 1973 and shall not operate to abrogate any requirements imposed under Part 130. This part shall remain in general effect until 11:59 p.m., e.s.t., August 12, 1973, after which Phase IV shall commence except that the freeze on prices for food as modified by Subpart I shall remain in effect until 11:59 p.m., e.s.t., September 11, 1973 and the freeze on prices for products described in the 1972 edition, Standard Industrial Classification Manual, Industrial Code 1311 (except natural gas), 1321, and 2911 shall remain in effect until 11:59 p.m., e.s.t., August 19, 1973. To the extent that the provisions of this part are in conflict with the provisions of Part 130, the provisions of this part control, except that the provisions of this part shall not operate to permit prices higher than permitted under Part 130. The provisions of this part do not extend to:

(1) Wages and salaries, which continue to be subject to the program established pursuant to Executive Order 11695;

(2) Interest and dividends, which continue to be subject to the program established by the Committee on Interest and Dividends; and

(3) Rents, which continue to be subject to controls only to the limited extent provided in Executive Order 11695.

* * * * * *

2. Section 150.1(b) is amended to read as follows:

§ 150.1 Scope.

* * * * * *

(b) The price rules of Part 130 of this chapter remain effective until 11:59 p.m., e.s.t., September 11, 1973, with respect to sales of food subject to Subpart F of that part and with respect to sales of meat subject to Subpart M of that part. Part 140 of this chapter also remains effective with respect to sales of food and meat subject to Subpart I of that part until 11:59 p.m., e.s.t., September 11, 1973 and with respect to sales of products described in the 1972 edition, Standard Industrial Classification Manual, Industry Code 1311 (except natural gas), 1321, and 2911 until 11:59 p.m., e.s.t., August 19, 1973.

* * * * * *

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[7 CFR Part 301]

WHITEFRINGED BEETLE QUARANTINE

Notice of Public Hearing and Proposed Rulemaking for Missouri, Kentucky, and Texas

Under the administrative procedure provisions of 5 U.S.C. 553, sections 8 and 9 of the Plant Quarantine Act of 1912, as amended, and section 106 of the Federal Plant Pest Act (7 U.S.C. 161, 162, 150ee), notice is hereby given of a public hearing and proposed rulemaking proceeding to determine whether to terminate the Whitefringed Beetle Quarantine and regulations (7 CFR 301.72, 301.72-1 et seq.); or whether the Quarantine and regulations should be extended to the States of Missouri, Kentucky, and Texas.

The whitefringed beetle (Graphognathus spp.), a dangerous insect injurious to cultivated crops, is currently established in 10 Southeastern States which are presently under Federal quarantine regulations: Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, and Virginia. Soil-inhabiting larvae damage plant roots of field and garden crops. Crop damage during the 37-year known history of the beetle in the United States is sporadic and occurs on small scattered acreage in infested States. The Department cooperates with the affected States in programs to control the infestations. Use of chlorinated-hydrocarbon pesticides in such programs is being curtailed for environmental reasons and available substitutes are not as effective. Biometrical analyses of plant studies on beetle populations showed that variations in corn yields could not be definitely linked with variations in whitefringed beetle larvae density.

The Department of Agriculture has studied the whitefringed beetle problem since 1970 to evaluate the necessity for and the effectiveness of the Quarantine and regulations and control programs. The results of this study will be considered at the public hearing.

If it should be determined that the provisions of the Quarantine and regulations are no longer necessary to prevent the spread of the whitefringed beetle, such provisions would be terminated.

The Administrator has received information that the whitefringed beetle has been discovered in certain parts of the States of Missouri, Kentucky, and Texas. Therefore, should it be determined necessary to continue the provisions of the Quarantine and regulations, the Service proposes to amend the Quarantine and regulations by adding the States of Missouri, Kentucky, and Texas to the States designated as quarantined and specifying regulated areas in said States for purposes of the regulations.

If the proposal to extend the Whitefringed Beetle Quarantine and regulations to the States of Missouri, Kentucky, and Texas is adopted, the following articles could not legally be moved interstate from such quarantined States except in accordance with the conditions specified in the Whitefringed Beetle Quarantine and regulations: (1) soil, compost, decomposed manure, humus, muck, and peat, separately or with other things; (2) plants with roots; (3) grass sod; (4) plant crowns and roots for propagation; (5) true bulbs, corms, rhizomes, and tubers of ornamental plants when freshly harvested or uncured; (6) potatoes (Irish) when freshly harvested; (7) peanuts in shells and peanut shells, except boiled or roasted peanuts; (8) uncleaned grass, grain, and legume seed; (9) hay and straw; (10) used mechanized cultivating equipment and used harvesting equipment; (11) used mechanized soil-moving equipment; and (12) any other products, articles, or means of conveyance of any character whatsoever when it is determined by an inspector that they present a hazard of spread of the whitefringed beetle and the person in possession thereof has been so notified.

A public hearing to consider the above proposals will be held before a representative of the Animal and Plant Health Inspection Service in the Delta Room, 11th floor, Albert Pick Motor Inn, Memphis, Tennessee, at 10 a.m., September 11, 1973. Any interested person may appear and be heard either in person or by attorney.

Any interested person who desires to submit written data, views, or arguments on the proposal may do so by filing the same with the Deputy Administrator, Plant Protection and Quarantine Programs, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Federal Center Building, Hyattsville, Maryland 20782, on or before September 11, 1973, or with the presiding officer at the hearing. All written submissions made pursuant to this notice will be made available for public inspection at times and places and in a manner convenient to the public business (7 CFR 1.27(b)).

After consideration of all information presented at the hearing or otherwise available to the Department, a determination will be made regarding the action to be taken.

Done at Washington, D.C., this 9th day of August 1973.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73-16869 Filed 8-13-73;8:45 am]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 130]

TRICHLOROETHANE (1,1,1-TRICHLOROETHANE, METHYL CHLOROFORM)

Aerosol Drug Products for Human Use

Several decongestant aerosol sprays containing the solvent trichloroehane (1,1,1-trichloroethane, methyl chloroform) have recently been removed from the market. This action was based on reports of 21 deaths, resulting in most cases from abuse or gross misuse of the drug products.

Trichloroethane is used in aerosol products as a solvent for the active ingredients and to reduce the vapor pressure of the propellants. It has been used for many years as an industrial solvent and as a substitute for carbon tetrachloride as a degreasing agent. It is irritating to the eyes and mucous membranes and toxic to the cardiovascular system. It is also a potent anesthetic agent when inhaled and induces ventricular arrhythmias more readily than chloroform.

Evidence is not available to establish trichloroethane as safe or effective for use in preparations intended for inhalation directly or indirectly. No new drug applications have been approved for this use or any other drug use of trichloroethane.

On the basis of the above information, the Commissioner of Food and Drugs concludes that aerosol drug products containing trichloroethane and intended for inhalation, directly or indirectly, are not generally recognized as safe and effective for use and are new drugs within the meaning of section 201(p) of the Federal Food, Drug, and Cosmetic Act.

To determine the extent trichloroethane is used in drug products and to determine if any additional action is needed to protect the public health, published elsewhere in this FEDERAL REGISTER is a request, pursuant to the regulations under the Drug Listing Act of 1972, § 132.7(a)(4) (21 CFR 132.7), for a list

V 38-156 AUG 14 73 XUM

of all drug products marketed containing the ingredient trichloroethane.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201, 502, 505, 701, 52 Stat. 1040–1042, as amended, 1050–1051, as amended, 1055–1056, as amended; 21 U.S.C. 321, 352, 355, 371) and under the authority delegated to the Commissioner (21 CFR 2.120) it is proposed that Part 130 be amended by adding thereto a new section to read as follows:

§ 130.------ Aerosol drug products for human use containing trichloroethane.

(a) Trichloroethane has been used in decongestant aerosol drug products as a solvent for the active ingredients and to reduce the vapor pressure of the propellants. It is irritating to the eyes and mucous membranes and is toxic to the cardiovascular system. When inhaled, it is a potent anesthetic agent and induces ventricular arrhythmias. Deaths associated with aerosol decongestant products containing trichloroethane have been reported. Most of the deaths resulted from abuse or misuse of the preparations.

(b) The Food and Drug Administration finds that there is a lack of general recognition by qualified experts of the safety or effectiveness of trichloroethane in aerosol drug products intended for inhalation either directly or indirectly. Any such product containing trichloroethane and labeled, represented, or advertised for such use is a new drug and subject to regulatory proceedings unless it is the subject of a new drug application approved pursuant to section 505 of the Federal Food, Drug, and Cosmetic Act.

(c) A completed and signed "Notice of Claimed Investigational Exemption for a New Drug" (Form FD–1571) set forth in § 130.3, shall be submitted to cover clinical investigations designed to obtain evidence that such preparations are safe and effective for the purposes intended.

(d) Regulatory proceedings will be initiated with regard to any such drug within the jurisdiction of the act which is not in accord with this regulation on its date of publication in the FEDERAL REGISTER.

Interested persons may, on or before September 13, 1973, file with the Hearing Clerk, Food and Drug Administration, Room 6–86, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during regular working hours, Monday through Friday.

Dated: August 6, 1973.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Airworthiness Docket No. 73–SW–51]

AIRCRAFT PARTS AND DEVELOPMENT CORP. (CALLAIR) A–9 SERIES AIRPLANES

Proposed Airworthiness Directive

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to Aircraft Parts and Development Corp. (Callair) A–9, A–9A, and A–9B airplanes. There have been deletions of required welds on the lift struts of A–9 series air planes resulting in ingestion of water into the struts with resulting corrosion. Since this condition is likely to exist or develop in other airplanes of the same type design, the proposed airworthiness directive would require inspection of the wing lift struts for deletion of welds and repair or replacement as necessary on Aircraft Parts and Development Corp. (Callair) A–9, A–9A, and A–9B airplanes.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or comments as they may desire. Communications should identify the docket number and be submitted in triplicate to the Regional Counsel, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before September 20, 1973 will be considered by the Director before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the office of Regional Counsel, Southwest Region, Federal Aviation Administration, 4400 Blue Mound Road, Fort Worth, Texas.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (U.S.C. 1354(a), 1421, 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive.

AIRCRAFT PARTS AND DEVELOPMENT CORPORATION: Applies to Models A–9, A–9A, and A–9B.

Compliance required within the next 100 hours' time in service after the effective date of this A.D., unless already accomplished.

To prevent water accumulation in the wing lift struts and associated detrimental effects, accomplish the following:

(a) Inspect visually for welds on both sides of the four wing lift struts at the P/N 10671 eye fittings. A 360° fillet weld is required around the eye fitting shank on both sides of the lift strut to seal the strut against moisture. These fittings provide for attachment of the lift struts to the stabilizing struts.

(b) If the welds between the eye fittings and the lift struts do not provide a complete seal as specified above, the lift strut should be removed and checked for water ingestion visually and for corrosion by x-ray, ultrasonic or equivalent method approved by the Chief, Engineering and Manufacturing Branch, FAA, Southwest Region.

(1) If no water or corrosion is present in the strut, weld the eye fitting to the strut 360° on both sides of the strut and reinstall the strut.

(2) If water is present in the strut (without corrosion), dry the strut, flush with linseed oil, weld the eye fitting to the strut 360° on both sides of the strut and reinstall the strut.

(3) If corrosion is found, before further flight, the affected lift strut must be replaced or corrosion must be removed in accordance with a procedure approved by the Chief, Engineering and Manufacturing Branch, FAA, Southwest Region.

(c) If the welds between the eye fittings and the lift struts provide a complete seal as specified above, no further action is required.

(APDC Service Bulletin No. A–23 covers this same subject.)

Issued in Fort Worth, Texas on August 1, 1973.

A. T. THURBURN,
Acting Director,
Southwest Region.

[FR Doc.73–16760 Filed 8–13–73;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 73–SW–50]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to alter controlled airspace in the Laredo, Tex., terminal area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before September 13, 1973 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

1. In § 71.171 (38 FR 351), the Laredo, Tex., control zone is amended to read:

LAREDO, TEX.

Within a 5-mile radius of Laredo International Airport (latitude 27°36'56'' N., longitude 99°31'12'' W.), within 1.5 miles each side of the Laredo ILS localizer northwest course extending from the ILS localizer site (latitude 27°36'12.6'' N., longitude 99°30'50.2'' W.) to 7 miles northwest; within 1.5 miles each side of the Laredo VORTAC 325° radial extending from the 5-mile radius zone to 4.5 miles southeast, excluding that portion outside the United States. This control zone will be effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

2. In § 71.181 (38 FR 435), the Laredo Tex., transition area is amended to read:

LAREDO, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Laredo International Airport (latitude 27°36'56'' N., longitude 99°31'12'' W.), within 3.5 miles each side of the Laredo ILS localizer northwest course extending from the 5-mile radius area to 11.5 miles northwest of the ILS outer marker; within 1.5 miles each side of the Laredo VORTAC 325° radial extending from the 5-mile radius area to the VORTAC; within a 5-mile radius of the Link Ranch Airport (latitude 27°25'32'' N., longitude 99°28'21'' W.), and within 3.5 miles each side of the VORTAC 015° radial extending from the 5-mile radius area to 11.5 miles northeast, excluding those portions outside of the United States.

The amendments described above are considered necessary due to the closing of the Laredo AFB on September 30, 1973. The control zone and extension will provide controlled airspace below 700 feet for aircraft executiong the NDB RWY 15, ILS RWY 15, VOR/DME RWY 15, and VOR RWY 33 approaches to Laredo International Airport.

The amended transition area will provide controlled airspace below 1200 feet ASL for aircraft executing the NDB RWY 15, ILS RWY 15, VOR/DME RWY 15, and VOR RWY 33 approaches to Laredo International Airport and for the VOR–1 approach to Link Ranch Airport.

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Tex., on August 6, 1973.

HENRY L. NEWMAN,
Director, Southwest Region.

[14 CFR Part 71]

[Airspace Docket No. 73–SW–49]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate a 700 foot transition area at Foraker, Oklahoma.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before September 13, 1973 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (38 FR 435) the following transition area is added:

FORAKER, OKLA.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Codding Cattle Airport (latitude 30°-45'00'' N., longitude 95°53'00'' W.). The proposed transition area will provide controlled airspace for aircraft executing approach/departure procedures proposed at the Codding Cattle Airport, Foraker, Okla.

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348)

V 38-156 AUG 14 73 XUM

and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, TX., on August 3, 1973.

A. H. THURBURN,
Acting Director,
Southwest Region.

[FR Doc.73-16761 Filed 8-13-73;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 73-SW-48]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate a 700-foot transition area at Intercoastal City, La.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before September 13, 1973 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (38 FR 435), the following transition area is added:

INTERCOASTAL CITY, LA.

That airspace extending upward from 700 feet above the surface within 2 miles each side of the White Lake, La., VORTAC 062°T (056°M) radial extending from 9 miles NE of the VORTAC to 13 miles NE of the VORTAC.

The proposed transition area will provide controlled airspace for helicopters executing the proposed Copter VORTAC (original) 056° instrument approach procedure. This procedure is designed to permit the transition of IFR helicopters to VFR conditions and flights to a landing area.

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, TX., on July 28, 1973.

ALBERT H. THURBURN,
Acting Director,
Southwest Region.

[14 CFR Part 73]

[Airspace Docket No. 73-SO-33]

TEMPORARY RESTRICTED AREA

Proposed Designation

The Federal Aviation Administration (FAA) is considering an amendment to Part 73 of the Federal Aviation Regulations that would designate a temporary restricted area in the vicinity of Fort Campbell, Ky. The area would be used to encompass a joint military exercise "Brave Shield VII" to be conducted from December 6 through 11, 1973.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320.

All communications received on or before September 13, 1973 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue, S.W., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would designate the following temporary restricted area:

R-3705 BRAVE SHIELD VII, FORT CAMPBELL, KY.

1. *Subarea A—Boundaries.* Beginning at Lat. 36°57'00" N., Long. 88°09'00" W.; to Lat. 36°57'00" N., Long. 87°45'00" W.; to Lat. 36°39'00" N., Long 87°33'00" W.; thence counterclockwise along the boundary of Restricted Area R-3702 to Lat. 36°32'00" N., Long. 87°32'30" W.; to Lat 36°34'00" N., Long. 87°29'50" W.; to Lat. 36°19'00" N., Long. 87°30'00" W.; to Lat. 36°15'00" N., Long. 87°36'00 W.; to Lat. 36°15'00 N., Long. 88°15'00" W.; to point of beginning.

Designated altitudes. Surface to and including FL 180.

Time of designation. December 6–11, 1973, inclusive, from 0600 CST to 1900 CST.

Controlling agency. Federal Aviation Administration, Memphis ARTC Center.

Using agency. U.S. Air Force Readiness Command, Langley AFB, Va.

2. *Subarea B—Boundaries.* Beginning at Lat. 36°15'00" N., Long. 87°36'00" W.; to Lat. 36°00'00" N., Long. 87°58'00" W.; to Lat. 36°00'00" N., Long. 88°17'00" W.; to Lat. 36°15'00" N., Long. 88°15'00" W.; to point of beginning.

Designated altitudes. Surface to and including 10,000 feet MSL.

Time of designation. December 6–11, 1973, inclusive from 0600 CST to 1900 CST.

Controlling agency. Federal Aviation Administration, Memphis ARTC Center.

Using agency. U.S. Air Force Readiness Command, Langley AFB, Va.

3. *Subarea C—Boundaries.* Beginning at Lat. 36°15'00"N., Long. 87°36'00"W.; to Lat. 36°00'00"N., Long. 87°58'00"W.; to Lat. 36°00'00"N., Long. 88°17'00"W.; to Lat. 36°15'00"N., Long. 88°15'00"W.; to point of beginning.

Designated altitudes. From 10,000 feet MSL to and including FL 180.

Time of designation. December 6–11, 1973, inclusive, from 0600 CST to 1900 CST.

Controlling agency. Federal Aviation Administration, Memphis ARTC Center.

Using agency. U.S. Air Force Readiness Command, Langley AFB, Va.

The proposed restricted area would be required throughout Exercise Brave Shield VII to assure segregation of nonparticipating traffic and to provide adequate maneuvering airspace for exercise aircraft. Exercise aircraft would include 18 tactical fighters, six tactical reconnaissance, six airborne forward air control, 24 tactical airlift, and approximately 200 rotor wing aircraft.

Activities to be conducted by the exercise aircraft would include massive troop movements, deployment of artillery pieces and other equipment by airborne sling, reconnaissance, close air support, and other simulated bombing, rocket and strafing attacks required by the exercise combat situation.

Throughout the exercise the using agency would allow scheduled air carrier flights and other nonparticipating aircraft into or through the temporary restricted area when exercise operations permit. The using agency would provide all necessary communications lines required by the Federal Aviation Administration, and it would also provide a wide area telecommunications service number so that nonparticipating pilots can obtain clearances on an individual basis without charge to themselves. This number would be published in Part 3 of the Airman's Information Manual (AIM) effective during the exercise period. The Federal Aviation Administration would establish temporary routing to reroute air carrier and other nonparticipating aircraft around the restricted area, when clearance through the area cannot be approved.

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on August 6, 1973.

H. B. HELSTROM,
Chief, Airspace and Air
Traffic Rules Division.

[49 CFR Part 575]

[Docket No. 25; Notice 6]

UNIFORM TIRE QUALITY GRADING

Consumer Information Regulation; Supplemental Notice of Proposed Rulemaking

This notice proposes minor amendments to the notice, published March 7, 1973 (38 FR 6194), proposing a Uniform Tire Quality Grading regulation. An additional notice published May 25, 1973 (38 FR 13748), has extended the comment period until October 5, 1973. This notice modifies certain substantive provisions of the March 7 notice.

The notice of March 7 specified a control tire (§ 575.104(i)) as a test device to be used in traction and treadwear grading. The specification does not include dimensional criteria for the tire crown radius. This dimension, however, is relevant to the mileage potential of a tire, and the NHTSA includes it with this notice. The crown radius proposed is 110 percent, calculated by dividing the actual tread radius by the nominal tire cross-section width.

There has been some suggestion that the maximum proposed treadwear grade of 200 percent may not be adequate to provide sufficient gradations of performance for tires whose treadwear performance exceeds by a substantial margin the performance of the control tire. Accordingly, this notice proposes the addition of the treadwear grade "250", for tires whose treadwear performance exceeds by at least 250 percent the performance of the control tire.

It has been suggested that the part of the treadwear test procedure calling for test increments of 1,000 miles between tire rotation is inefficient, in that it is difficult for manufacturers to accomplish tire rotation at this increment at the end or beginning of a complete day. The 1,000 mile provision, however, is only a part of a performance requirement; it is the figure that the NHTSA has proposed to utilize in its testing program. Manufacturers are not required to use that or any particular procedure in ascertaining that their tires will perform as graded. Of course they must make sure that results obtained using different increments are the same as, or can be corrected to, the results obtained by 1,000-mile increments. Manufacturers who do deviate from this aspect of the test procedure should be aware that the purpose of the incremental rotation is that each candidate and control tire be run for the same number of consecutive miles on every wheel position in the test convoy during any single test procedure.

A similar question has been raised concerning failures of candidate or control tires in the course of a treadwear run: Whether a tire may be substituted and the test continued using the remaining tires on the vehicle in question. The answer is essentially the same. The test procedures set forth in the standard constitute both the performance levels that the tires are legally required to meet, and, in general, the method the government will use in testing tires for compliance. A manufacturer must, by his own testing, ascertain the performance levels that his tires will consistently meet when tested according to the procedures in the regulation. Any deviations by a manufacturer in his own tests from these procedures must be made at the manufacturer's own risk.

The notice of March 7 did not propose that the control tire be required to meet the Federal safety standard for new tires, Motor Vehicle Safety Standard No. 109 (49 CFR 571.109). While the notice proposed the requirement that the control tire be labeled with the informational requirements of Standard No. 109 (S4.3(a) through (g)), it specifically exempted them from the certification and identification requirements of S4.3.1, S4.3.2, and S4.3.3. The NHTSA has decided that the tires should conform to all the requirements of the standard except those regarding the tire identification number. The tires will be used on the public highways during NHTSA and manufacturer test programs, presenting a possible hazard both to drivers of the test vehicles, and other highway users. Moreover, the control tires are of a construction and design substantially the same as tires that are manufactured and sold for use on passenger cars, and which are manufactured to conform and certified as conforming to Motor Vehicle Safety Standard No. 109. The proposed exemption from the identification requirements (S4.3.2 of Standard No. 109) would be retained. The NHTSA does not believe that the identification number used for purposes of the Tire Identification and Recordkeeping regulations (49 CFR Part 574) will satisfactorily identify control tires as that number, in identifying one week's production, does not identify individual tires. The NHTSA proposes, in this notice, that each control tire be molded with an identification number, of a size and in a location on one sidewall specified for the identification number required pursuant to Part 574, that will identify both control tire lots of 1,000, and each tire in the lot consecutively. Such a number might consist of a letter designation to indicate the lot, and the numbers 0001 to 1000 to indicate the individual tires.

The notice of March 7 proposed certain amendments to the general Consumer Information regulations (§§ 575.1–575.6) to make those provisions applicable to tires, and tire manufacturers and brand name owners. The proposal inadvertently omitted that part of § 575.6 that presently requires manufacturers to make consumer information available at no charge for retention by prospective purchasers. There was no intention on the part of NHTSA to delete this requirement. Rather, it should have been extended to tire manufacturers and brand name owners, similarly to the other general provisions, and the appropriate language is included by this notice.

In light of the above, the proposal published March 7, 1973 (38 FR 6194), to amend Part 575, Title 49, Code of Federal Regulations, by the addition of a new section 575.104, "Uniform Tire Quality Grading," is amended as set forth below:

1. In proposed § 575.6, paragraph (c), is amended to read:

§ 575.6 Requirements.

* * * * * *

(c) Each manufacturer of motor vehicles, each brand name owner of tires, and each manufacturer of tires for which there is no brand name owner shall provide for examination by prospective purchasers, at each location where its vehicles or tires are offered for sale by a person with whom the manufacturer or brand name owner has a contractural, proprietary, or other legal relationship, or by a person who has such a relationship with a distributor of the manufacturer or brand name owner concerning the vehicle or tire in question, the information specified in Subpart B of this part that is applicable to each of the vehicles or tires offered for sale at that location. The information shall be provided without charge and in sufficient quantity to be available for retention by prospective purchasers, or sent by mail to a prospective purchaser upon his request. With respect to * * *

* * * * * *

§ 575.104 [Amended]

2. In paragraph (d)(2) of proposed § 575.104, a new subdivision (viii) is added to read:

(viii) The tire may be graded 250 only if the value obtained pursuant to paragraph (f)(2)(ix) of this section is 250 or more.

3. In paragraph (i)(10) of proposed § 575.104, subdivision (i) is revised to read:

(i) The labeling specified in paragraph S4.3 of § 571.109 of this chapter (Motor Vehicle Safety Standard No. 109), including paragraph S4.3.1, but excluding paragraph S4.3.2, is branded into each mold half in accordance with that paragraph.

4. In paragraph (i)(10) of proposed § 574.104, a new subdivision (iv) is added to read:

(iv) An identification number, consisting of both letters and numerals of the size and in the location specified for the "Tire Identification Number" in Figure 1 of Part 574 of this chapter, identifying a lot consisting of 1,000 tires and numbering consecutively the tires in the lot, is branded into one mold half.

5. In paragraph (i)(11) of proposed § 575.104, Table IV—Tire Construction is revised by the addition of the following specification at the bottom of the Table, and the following footnote after the existing footnotes:

...	...	...	...
Crown Radius.[1]	110 percent..	110 percent..	110 percent.

[1] Actual tread radius divided by nominal tire cross section width.

V 38-156 AUG 14 73 XUM

6. In paragraph (1) of proposed § 575.104, a new subdivision (13) is added to read:

(13) *Performance requirement.* Each control tire shall be manufactured to conform to § 571.109 of this chapter.

7. In Figure 1—DOT Tire Quality Grades of proposed § 575.104, appearing at page 6202, immediately after the listing of possible treadwear grades, but before the line reading "This tire is graded * * *" the following line is added:

250_____ At least 250 percent

Interested persons are invited to submit comments in accordance with the guidelines specified in the notices of March 7, 1973 (38 FR 6194) and May 25, 1973 (38 FR 13748).

Comment closing date: October 5, 1973.

Proposed effective date: September 1, 1974.

(Secs. 103, 112, 119, 201, 203, Public Law 89-563, 80 Stat. 718; 15 U.S.C. 1392, 1401, 1407, 1421, 1423; delegations of authority at 38 FR 12147)

Issued on August 6, 1973.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 19800; FCC 73-840]

FM BROADCAST STATIONS IN CALIFORNIA

Notice of Proposed Rule Making

In the Matter of Amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Merced, California), RM-2012.

1. Notice of Proposed Rule Making is hereby given concerning proposed amendment of the FM Table of Assignments (§ 73.202(b) of the Commission's Rules and Regulations) with respect to the petition of Radio One, Inc. (Radio One), licensee of AM Station KYOS, Merced, California, proposing the assignment of Class B Channel 248 as a second assignment to that community.

2. Merced, population 22,670,[1] is the seat of Merced County, population 104,629.[2] There are presently four aural broadcast services at Merced: FM Station KAMB, Channel 268, AM Stations KYOS and KWIP (daytime-only), and educational FM Station KBDR (licensed to Merced Community College). Other aural broadcast stations in the county are Stations KLBS (daytime-only) and KLBS-FM (Channel 240A) licensed to Los Banos, population 9,188. Merced is 110 miles southeast of San Francisco. Merced County is bordered by Mariposa, Madera, San Benito, Fresno, San Jose, and Stanislaus Counties (the latter three are respectively the Fresno, San Jose, and Modesto Standard Metropolitan Statistical Areas).

3. Radio One, in support of its petition, sets forth information as to radio service in Merced and Merced County and makes further contentions. It urges that the addition of another channel at Merced would be a further step toward perfecting the Commission's overall objective of providing a fair, efficient, and equitable distribution of radio services as required by Section 307(b) of the Communications Act of 1934, as amended, and, more particularly, that the public interest, convenience, and necessity would be served by another FM channel rendering service to a sizable community and providing service to substantial unserved and "gray" areas. The assignment, we are told, may be made without making other changes in the FM Table of Assignments, there is no substantial preclusion, and the proposal comports with the Commission's policy of avoiding intermixture of FM assignments to the same community. Radio One states that Merced is located in the Central Valley, approximately 66 miles northwest of Fresno and 103 miles southeast of Sacramento and far from any large metropolitan area, and that Merced County's population is scattered. Merced, we are told, is a center of the Merced County's agricultural community which is 15th ranking county in value in the nation for farm products; Merced is the site of various agriculturally oriented agencies (Farm Labor Office, Farmers Home Administration, Soil Conservation Office, Agricultural Stabilization and Conservation Committee, Agricultural Commissioner, and Agricultural Extension Service). Merced is the central shopping and business area for both Merced and Mariposa (population 6,015) Counties with retail sales of over $90 million as compared to the over $171 million for its county. Castle Air Force Base with an estimated complement of over 16,000 personnel is located seven miles north of Merced; the city is the site of Merced College, and it is a tourist center (known as "The Gateway to Yosemite"). Topographically, Merced County is mostly flat land with hills to the east and west. Radio One contends that a station on proposed Channel 248 would serve all of Merced County and substantial portions of Mariposa and Madera Counties.[3] Petitioner calls attention to the fact that the programming of Station KAMB is religiously oriented. Radio One asserts that a Class A channel could not properly serve the area. Finally, Radio One states it will apply for a construction permit if the channel is assigned.

4. While not mentioned by petitioner, the Commission's population criteria[4] allow a city of the size of Merced a second FM assignment in appropriate circumstances. Radio One's arguments primarily are directed at showing the feasibility of the assignment and that another Class B assignment should be made. In the latter respect, it relies on our policy against mixing assignments and that a station on Channel 248 would provide service to an area of 1,810 square miles with 149,274 persons including an area of 370 square miles with 12,098 persons presently receiving no FM service and an area of 385 square miles with 50,627 persons presently receiving only one FM service.

5. It would appear that a sufficient showing has been made that the Commission should adopt a Notice of Proposed Rule Making requesting comments as to the proposal. We are satisfied that the proposed assignment may be made without any other change in the FM Table of Assignments. However, Radio One will have to furnish further information both as to preclusion and as to areas receiving no FM service (unserved areas) and those receiving one FM service (gray areas). With respect to preclusion, it appears that there are three sizeable communities which would be affected.[5] These are: Coalinga, population 6,161, which has only a daytime AM station; Avenal, population 3,035, which has no radio broadcast facilities; and Atwater, population 11,640, which also has no broadcast transmission service. Radio One should make a showing as to the availability of other channels for these communities. As concerns Radio One's argument based on service to unserved and gray areas, petitioner has not made an appropriate showing. Such a showing more appropriately should include assignments as well as stations and there are assumptions as to power and height. The criteria as set forth in *Roanoke Rapids-Goldsboro, North Carolina,* 9 F.C.C. 2d 672, 673 (1967) are (i) estimated FM 1 mV/m contours; (ii) assuming reasonable facilities for all existing stations, maximum for Class A, and 30 kW at 300 feet A.A.T. for Class B, or greater in the event the station already has such operating facility; and (iii) all unoccupied channels in the area with the same facilities as (ii) above. In this respect, Radio One has failed to consider Station KLBS-FM at Los Banos, it did not use the correct operating facility for Station KAMB at Merced (50 kW and 390 feet antenna height), and, for the Channel 236 assignment to Oakdale, coverage must be based on a maximum facility since use of that channel is so conditioned.

6. In view of the foregoing and pursuant to authority found in Sections 4(i), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, it is proposed to amend § 73.202(b) of the Commission's rules and regulations, the FM Table of Assignments, as concerns Merced, California, as follows:

City	Channel No.	
	Present	Proposed
Merced, California	268	248, 268

7. *Showings required.* Comments are invited upon the proposal referred to above. As indicated, there are questions about preclusion and the appropriate manner for showing unserved and gray areas. Radio One should also affirm its intention both to promptly apply for the channel if assigned and to construct if its application is granted. Failure to file comments or address the issues raised may result in dismissal.

8. *Cut-off procedure.* The following procedures will govern:

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered, if advanced in reply comments.

(b) With respect to petitions for rule making which conflict with the proposal in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given, as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision herein.

9. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules and regulations, interested parties may file comments on or before September 14, 1973, and reply comments on or before September 25, 1973. All submissions by parties to this proceeding, or persons acting on behalf of such parties, must be made in written comments, reply comments, or other appropriate pleadings.

10. In accordance with the provisions of § 1.419 of the Rules and Regulations, an original and 14 copies of all comments, reply comments, pleadings, briefs, and other documents shall be furnished the Commission. These will be available for public inspection during regular business hours in the Commission's Public Reference Room at its Headquarters, 1919 M Street, NW., Washington, D.C.

By the Commission.

FEDERAL COMMUNICATIONS COMMISSION,[6]

COMMON CARRIERS BY WATER IN THE DOMESTIC OFFSHORE AND FOREIGN COMMERCE OF THE U.S.

[Dockets Nos. 73-39, 73-40]

Filing of Tariffs; Extension of Time for Comments

By two notices of proposed rulemaking published in these proceedings July 19, 1973 (FR Doc. 73-14844, 38 FR 19237; and FR Doc. 73-14843, 38 FR 19238) interested parties were afforded opportunity to comment on proposed new rules regarding contents of ocean carriers' tariff publications in respect to naming of rates and charges applicable to cargo moving in containers.

Various interested parties have requested enlargement of time for comments, or postponement of comments pending establishment of an industry advisory group for consultation and cooperation with the Commission in respect to formulating an appropriate rule.

Notice is hereby given that time for filing comments in these proceedings is postponed pending disposition of the various requests for revised procedures.

FRANCIS C. HURNEY,
Secretary.

[46 CFR Part 542]

[General Order __; Docket No. 73-48]

REMOVAL OF OIL AND HAZARDOUS SUBSTANCES

Financial Responsibility

On October 18, 1972, Congress enacted the Federal Water Pollution Control Act Amendments of 1972. Section 311(p) of this new legislation amends the previous oil pollution financial responsibility requirements of section 11(p) of the Federal Water Pollution Control Act, as amended (hereinafter called the Act), (1) to include, in addition to the liability for the cost of removal of oil, the liability for the cost of removing hazardous substances; (2) to provide a fine of not more than $10,000 for any owner or operator of a vessel who fails to comply with the financial responsibility requirements of the Act or any regulation issued thereunder; (3) to authorize the Secretary of the Treasury to refuse clearance to a vessel which does not have evidence that the financial responsibility requirements have been complied with; and (4) to authorize the Secretary of the Department in which the Coast Guard is operating to deny entry to and detain any vessel, which upon request, does not produce evidence that the financial responsibility provisions have been complied with.

On August 3, 1973, the President issued Executive Order No. 11735 delegating to the Federal Maritime Commission the responsibility, including issuance of the necessary implementing regulations, to carry out the provisions of section 311(p) of the Act. Accordingly, the herein proposed rules (General Order __) are intended to supersede the existing oil pollution financial responsibility requirements contained in General Order 27 and accomplish the purposes of the new section 311(p).

PROPOSED RULES—SECTION BY SECTION ANALYSIS

The proposed rules in most instances follow the wording of General Order 27. In every instance each reference to the previous section 11 of the Act has been changed to section 311 of the Federal Water Pollution Control Act, as amended, and all reference to the removal of "oil" has been changed to include "hazardous substances." In addition, for the reason discussed under § 542.1 below, all reference to "* * * liability for the discharge * * *" has been changed to "liability for the removal of * * *" In some instances minor changes in the wording have been made for the purposes of clarity and readability. Since these changes are not substantive they are not discussed in this analysis.

The existing rules contained in General Order 27, and the evidence of financial responsibility forms incorporated therein by reference, refer only to claims which may arise under section 11(f) of the Act. In paragraph (1) the aforesaid section 11(f) pertains to liabilities which may be incurred by owners or operators of vessels discharging oil. Section 11(g) of the Act, insofar as it pertains to vessels, refers to liabilities which may be incurred by "third party" owners or operators of vessels which cause discharges from other vessels.

With respect to vessels, new sections 311(f) and 311(g) impose similar liabilities for removal costs on not only owners or operators of vessels actually discharging oil or hazardous substances, but also on those "third party" owners or operators of vessels which cause the discharge of oil or hazardous substances from other vessels. So that there will be no dispute as to what liabilities are covered by the proposed rules and the evidence of financial responsibility forms incorporated therein by reference, the proposed rules and forms have been written to include the liabilities imposed by section 311(g) on "third party" owners or operators as well as the liabilities imposed by section 311(f) on owners or operators of vessels actually discharging oil or hazardous substances.

Title. The title of Part 542 is changed from Financial responsibility for oil pollution cleanup to Financial responsibility for removal of oil and hazardous substances.

V 38-156 AUG 14 73 XUM

Section 542.1 Scope. This section has been amended where necessary to include the liability for removal of hazardous substances as well as oil; provide in accordance with the new section 311 of the Act that the effective date of the requirements with respect to hazardous substances shall be October 18, 1973; and change all references to section 11 of the Water Quality Improvement Act of 1970 to section 311.

Section 542.2. Definitions. Paragraphs (s) and (t) have been added to include the definitions of the terms "remove or removal" and "hazardous substances." These definitions are self-explanatory.

Section 542.3. Proof of financial responsibility when required. No specific changes.

Section 542.4. Procedure for establishing financial responsibility. No specific changes.

Section 542.5. Methods of establishing financial responsibility, forms and requirements. Section 542.5(a)(1) contains the Commission's "uniform endorsement" which is required to be included in all insurance policies and cover notes. This endorsement was contained in the original publication of General Order 27, but at the request of interested parties was changed several times by amendment to the rules to make clearer the Commission's intent and to more closely relate the language of the rules to the language of the enabling Act. Since some endorsements had already been filed with the Commission in the original wording, to avoid placing an undue burden on insurers and applicants the Commission prescribed in each of the amendments that the use of the new wording would be permissive at the discretion of the insurer or applicant. Since the endorsement must again be amended in these proposed rules to conform to the amendment to the enabling Act, all existing endorsements must be refiled and therefore there is no longer a need to provide for the permissive use of the alternative wording. Accordingly, all reference to such permissiveness is deleted.

The substance of the uniform endorsement is included in the Commission's current insurance, bond, and guaranty form, and § 525.5(b) as presently worded also provides for the use of alternative language. For the reasons set forth above this permissiveness is no longer necessary and, therefore, such provisions are deleted from § 525.5(b).

Section 542.6 Issuance of Certificate of Financial Responsibility. No specific changes.

Section 542.7 Denial, revocation, suspension, or modification of Certificates. No specific changes.

Section 542.8 Notice. No specific changes.

Section 542.9 Fees. § 542.9(d) pertaining to application fees is changed to note that in accordance with new § 542.11(a) applicants for new Certificates under these proposed rules who hold a Certificate issued under General Order 27, need not file a new $100 application fee, if application for the new Certificate is made prior to October 18, 1973.

Section 542.10 Enforcement. New § 542.10 is added to provide, in statutory language, the enforcement provisions added by the 1972 amendments to the Act.

Section 542.11 Conversions. A new § 542.11 is added to the rules to provide for the filing of applications by persons who presently hold Certificates issued under General Order 27. This section provides for the filing of new applications by the owners and operators of the approximately 20,000 vessels presently certified for oil pollution responsibility pursuant to the provisions of General Order 27. Each of these owners and operators will be required to file new applications and new evidence of financial responsibility in order to comply with the 1972 amendments to the Act.

In order to accomplish the issuance of the new Certificates in an orderly manner, the new section 542.11 of the proposed rules provides that those owners and operators presently holding valid oil pollution Certificates must file acceptable applications and evidence of financial responsibility before October 18, 1973. Upon such a filing the existing oil pollution Certificates will be deemed to be evidence of compliance with the new requirements. Those owners and operators who do not make an acceptable filing within the time limit will be so notified and be required to return their oil pollution Certificates. According to this new section, upon failure to make a timely filing or upon issuance of a new Certificate the previously existing Certificate will become null and void.

Forms similar to the previous forms contained in General Order 27 are appended to these new proposed rules and incorporated therein by reference. The wording of each of the forms has been changed to include, in addition to oil, the liability for removal of hazardous substances, and to conform to the rules proposed herein.

This rulemaking proceeding is not a major federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (42 U.S.C. 4321, et seq.). Furthermore, inasmuch as these rules and regulations, as promulgated under the Federal Water Pollution Control Act, as amended by the Federal Water Pollution Control Act Amendments of 1972 (Public Law 92–500), require the Commission to issue Certificates evidencing compliance to all applicants qualified in accordance with the statutory provisions, and inasmuch as the effect of implementation of these rules serves to benefit the overall environment, the issuance of an environmental impact statement is not required in the certification procedures proposed herein.

Now, therefore, pursuant to the provisions of section 4 of the Administrative Procedure Act (5 U.S.C. 553), sections 311(p)(1) and 311(p)(2) of the Federal Water Pollution Control Act, as amended, (86 Stat. 870), and section 3 of Executive Order 11735, notice is hereby given that the Federal Maritime Commission proposes to promulgate certain rules and regulations to implement the provisions and to accomplish the purpose of section 311(p) of the Federal Water Pollution Control Act, as amended. The proposed rules would set forth the procedures and qualifications for the certification of vessels under section 311(p)(1) of the Federal Water Pollution Control Act, as amended. As proposed, the title and provisions of Part 542 of Title 46 CFR would be revised to provide as follows:

PART 542—FINANCIAL RESPONSIBILITY FOR REMOVAL OF OIL AND HAZARDOUS SUBSTANCES

Sec.

542.1 Scope.
542.2 Definitions.
542.3 Proof of financial responsibility, when required.
542.4 Procedure for establishing financial responsibility.
542.5 Methods of establishing financial responsibility; forms and requirements.
542.6 Issuance of Certificate of Financial Responsibility.
542.7 Denial, revocation, suspension, or modification of a Certificate.
542.8 Notice.
542.9 Fees.
542.10 Enforcement.
542.11 Conversions.

AUTHORITY: Secs. 311(p)(1) and 311(p)(2), Federal Water Pollution Control Act, as amended; 86 Stat. 870; sec. 3, Executive Order 11735. Upon adoption these regulations shall supersede the regulations contained in General Order 27, issued September 29, 1970 (35 FR 15216).

§ 542.1 Scope.

The regulations contained in this part set forth the procedures whereby the owner or operator of every vessel over 300 gross tons, including any barge of equivalent size, but not including any barge that is not self-propelled and that does not carry oil or hazardous substances as cargo or fuel, using any port or place in the United States or the navigable waters of the United States for any purposes after April 2, 1971, with respect to oil and October 17, 1973, with respect to hazardous substances, shall establish and maintain evidence of financial responsibility of $100 per gross ton, or $14 million, whichever is the lesser, to meet the liability to the United States to which any such vessel could be subjected pursuant to section 311, Federal Water Pollution Control Act, as amended, for the removal of oil or hazardous substances from the navigable waters of the United States, adjoining shorelines, or the waters of the contiguous zone. Included also are the qualifications required by the Commission for issuance of Certificates and the basis for the denial, revocation, modification, or suspension of such Certificates. The rules of this part shall not apply to the use by vessels of ports or places in the United States or the navigable waters of the United States prior to April 3, 1971, with respect to oil and October 18, 1973, with respect to hazardous substances.

§ 542.2 Definitions.

As used in this part, the following terms shall have the meanings indicated:

(a) "Act" means the Federal Water Pollution Control Act, as amended.

(b) "Commission" means Federal Maritime Commission.

(c) "Applicant" means any owner or operator, including a potential owner or operator, who has applied for a Certificate.

(d) "Certificant" means any person who has been issued, and holds, a Certificate.

(e) "Certificate" means a Certificate of Financial Responsibility (Pollution).

(f) "United States" means the States, the District of Columbia, the Commonwealth of Puerto Rico, the Canal Zone, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands.

(g) "Public vessel" means a vessel owned or bare-boat chartered and operated by the United States, or by a State or political subdivision thereof, or by a foreign nation, except when such vessel is engaged in commerce.

(h) "Vessel" means every description of watercraft or other artificial contrivance used, or capable of being used, as a means of transportation on water other than a public vessel.

(i) "Person" includes an individual, government, firm, corporation, association, or a partnership.

(j) "Owner" means any person owning a vessel. In a case where a certificate of registry has been issued, the owner shall be deemed to be the person or persons whose name or names appear upon the vessel's certificate of registry; provided, however, that where a certificate of registry has been issued in the name of the President or Secretary of an incorporated company pursuant to 46 U.S.C. 15, such incorporated company will be deemed to be the "owner".

(k) "Operator" means a bare-boat charterer or any other person except the owner, responsible for a vessel's operation and who mans, victuals, and supplies the vessel.

(l) "Insurer" means one or more insurance companies, underwriters, corporations or associations of underwriters, shipowners' protection and indemnity associations, or other persons acceptable to the Commission.

(m) "Oil" means oil of any kind or in any form, including, but not limited to, petroleum, fuel oil, sludge, oil refuse, and oil mixed with wastes other than dredge spoil.

(n) "Discharge" includes, but it not limited to, any spilling, leaking, pumping, pouring, emitting, emptying, or dumping.

(o) "Contiguous zone" means the entire zone established or to be established by the United States under article 24 of the Convention on the Territorial Sea and the Contiguous Zone.

(p) "Navigable waters of the United States" include the coastal territorial waters of the United States, the inland waters of the United States including the United States portion of the Great Lakes and the St. Lawrence Seaway, and the Panama Canal.

(q) "Cargo" includes both proprietary and non-proprietary cargo.

(r) "Fuel" means any oil or hazardous substance used or capable of being used to produce heat or power by burning.

"Remove" or "removal" means the removal of oil or hazardous substances from the water and shorelines or the taking of such other actions as may be necessary to minimize or mitigate damage to the public health or welfare, including, but not limited to, fish, shellfish, wildlife, and public and private property, shorelines, and beaches.

(t) "Hazardous substance" means any substance designated as such by the Administrator of the Environmental Protection Agency pursuant to section 311(b)(2) of the Federal Water Pollution Control Act, as amended.

§ 542.3 Proof of financial responsibility, when required.

(a) No vessel over 300 gross tons, including any barge of equivalent size, but not including any barge that is not self-propelled and that does not carry oil or hazardous substance as cargo or fuel, shall use any port or place in the United States or the navigable waters of the United States on or after April 3, 1973, with respect to oil and October 18, 1973, with respect to hazardous substances, for any purpose unless a Certificate has been issued covering such vessel.

(b) Vessels subject to the provisions of this part shall be presumed to be of the gross tonnage denoted in their certificates of registry or other marine documents acceptable to the Commission; provided, however, that if such a vessel has more than one gross tonnage, the higher one will apply.

§ 542.4 Procedure for establishing financial responsibility.

(a) Either owners or operators of vessels subject to § 542.3 must file an application on Form FMC–321 for a Certificate of Financial Responsibility (Pollution).[1] Persons who intend to become an owner or operator within the meaning of this part at a future date may file an application for a Certificate. Copies of Form FMC–321 may be obtained from the Secretary, Federal Maritime Commission, Washington, D.C. 20573, or at the Commission's offices at New York, New York; New Orleans, Louisiana; and San Francisco, California.

(b) An applicant desiring to obtain a Certificate should file a completed application Form FMC–321 at least 45 days in advance of any of its vessels using any port or place in, or the navigable waters of, the United States. Applications will be processed in order of receipt. Requests for special consideration in the processing of an application, however, will be granted where applications involve bare-boat charters or unusual situations, if good cause is shown by the applicant. All applications, evidence, documents, and other statements require to be filed with the Commission shall be in English, and any monetary terms shall be expressed in terms of U.S. currency. The Commission shall have the privilege of verifying any statement made or evidence submitted under the rules of this part.

(c) The application shall be signed by a duly authorized officer or representative of the applicant and, except in the case of a corporate officer when his title appears in the application or in the case of an individual owner or operator, be submitted with a copy of evidence of his authority. In the event of any nonmaterial change in the facts as reflected in the application, the applicant or certificant shall notify the Commission in writing no later than fifteen (15) working days following such change. For the purpose of this part, a nonmaterial change shall be one which does not result in an increase in the amount of financial responsibility necessary to qualify for a Certificate under the provisions of this part. In addition, if for any reason including a vessel's demise, sale, or transfer to an operator, a certificant ceases to be responsible for liabilities to which such vessel could be subjected under section 311 of the Act, the certificant shall follow the procedure set forth in § 542.6(b).

(d) Each applicant, insurer, surety, and guarantor shall furnish a written designation of a person in the United States as legal agent for service of process for the purposes of the rules of this part. Such designation must be acknowledged, in writing, by the designee. In any instance in which the designated agent cannot be served because of his death, disability, or unavailability, the Secretary, Federal Maritime Commission, will be deemed to be the agent for service of process. When serving the Secretary in accordance with the above provision, the U.S. Government must also serve the certificant, insurer, surety, or guarantor, as the case may be, by registered mail at its last known address on file with the Commission.

§ 542.5 Methods of establishing financial responsibility; forms and requirements.

(a) Every applicant must establish acceptable evidence of financial responsibility to meet his liability to the United States under the Act in the amount of $100 per gross ton, or $14 million, whichever is the lesser: provided, however, that, if an applicant is, or for purposes of the rules of this part becomes, responsible for more than one vessel subject to this part, financial responsibility need only be established in an amount necessary to meet the maximum liability to which the largest vessel of such vessels (fleet) could be subjected. Evidence of such responsibility may be established by any one, or any combination, of the following methods:

(1) Filing with the Commission on insurance Form FMC–322 evidence of insurance issued by an acceptable insurer or insurance broker; or, in the alternative, a signed copy of an acceptable cover

[1] All forms referred to in this part are filed as part of the original document.

V 38-156 AUG 14 73 XUM

note or signed copy of an acceptable insurance policy. When a cover note is submitted, the underlying insurance policy must be provided to the Commission as soon as possible. A deductible provision in any policy of insurance or cover note, except where the insurer agrees to be liable to the United States for the full amount of the deductible, will be unacceptable unless the applicant evidences supplemental coverage for the amount of the deductible by means of other acceptable insurance, surety bond, guaranty or self-insurance. If a policy of insurance or cover note is submitted, it must include the following uniform endorsement:

Any other provisions of this policy (or the policy evidenced by this cover note) notwithstanding (1) said policy insures any liability the assured may incur to the United States under sections 311(f) and (g) of the Federal Water Pollution Control Act, as amended: provided, however, that the insurer's liability to the United States or to the assured in any event shall not exceed $100 per gross ton of the tonnage of the vessel in respect of which a claim may be made, or $14 million, whichever is the lesser, subject to any deductible as specifically set forth in Clause or Article of said policy (or in this cover note); (2) the Insurer agrees that any claims incurred under the aforementioned sections 311(f) and (g) may be brought directly against the Insurer, provided that where a claim is brought directly against the Insurer, the Insurer shall be entitled to invoke all rights and defenses, as set forth in section 311(f)(1) of the Federal Water Pollution Control Act, as amended, which would have been available to the assured if the action had been brought against said assured by the U.S. Government, and shall also be entitled to invoke all rights and defenses which would have been available to the Insurer if the action had been brought against him by the assured; and (3) termination or cancellation of said insurance including expiration by its terms, insofar as it relates to the assured's liability under section 311 of the Federal Water Pollution Control Act, as amended, shall not be effected until notice in writing has been given by the Insurer to the assured and to the Secretary of the Federal Maritime Commission at its office in Washington, D.C., and until after 30 days expire from the date such notice is actually received by the Commission, unless substitute evidence of financial responsibility already has been accepted by the Commission; provided, however, the Insurer shall remain liable for claims covered by said insurance arising by virtue of an event which had occurred prior to the effective date of such termination or cancellation.

(2) Filing with the Commission a surety bond on Form FMC–324 issued by a bonding company authorized to do business in the United States and acceptable to the Commission. Such surety bond shall evidence coverage for liability to the United States, in the amount specified in paragraph (a) of this section, to which a vessel could be subjected for the removal of oil or hazardous substances from the navigable waters of the United States, adjoining shorelines, or the waters of the contiguous zone.

(3) Filing with the Commission for qualification as a self-insurer. Any such self-insurer must demonstrate financial responsibility by maintenance in the United States of working capital and net worth each in an amount calculated as in paragraph (a) of this section; provided, however, that the Commission for good cause shown may waive the requirement as to the amount of working capital. With respect to the maintenance of working capital and/or net worth, the Commission may take into consideration all current contractual requirements to which the applicant is bound. This evidence of financial responsibility shall be supported by, and subject to, the following, which are to be submitted with the initial application and on a continuing fiscal year basis while the Certificate is in effect:

(i) A current semiannual balance sheet; provided, however, the Commission for good cause shown may require only an annual balance sheet;

(ii) A current semiannual statement of income and surplus; provided, however, the Commission for good cause shown may require only an annual statement of income and surplus;

(iii) An annual current balance sheet and an annual current statement of income and surplus to be certified by appropriate certified public accountants;

(iv) An annual current credit rating report by Dun & Bradstreet or any similar concern found acceptable to the Commission;

(v) All financial statements required to be submitted under paragraph (a)(3) of this section shall be due within 120 days after the close of each of the aforementioned pertinent accounting periods; provided that if such financial statements have been furnished to other United States Government agencies, a copy thereof may be submitted;

(vi) Such additional financial information as the Commission may deem necessary in appropriate cases;

(vii) Upon request the Commission may grant reasonable extensions of the time limits provided by this subparagraph for filing the statements required by this part: provided, that the request is received 15 days before the statements are due and provided further that such request sets forth good and sufficient reasons to justify the extension requested. In no event, however, will the Commission entertain requests for extensions of more than 60 days.

(4) Filing with the Commission a guaranty on Form FMC–325 by a guarantor acceptable to the Commission. Any such guaranty shall be in an amount calculated as in paragraph (a) of this section. An acceptable guarantor must comply with the provisions of paragraph (a)(3) of this section, relating to self-insurers, except that the amount of net worth and working capital required to be demonstrated by such guarantor shall not be less than the aggregate amount of guarantees underwritten. As in the case of self-insurers, the Commission for good cause shown may waive the requirement as to the amount of working capital.

(5) Filing with the Commission on insurance Form FMC–323 evidence of insurance, issued by an acceptable insurer or insurance broker for purposes of obtaining a master Certificate as provided in § 542.6(d).

(6) Filing with the Commission a guaranty on Form FMC–326 issued by a guarantor acceptable to the Commission, for the purpose of obtaining a master Certificate as provided in § 542.6(d). An acceptable guarantor is defined in paragraph (a)(4) of this section.

(7) Filing with the Commission such other evidence of financial responsibility as the Commission shall, in its discretion, deem proper and acceptable: provided, however, that such other evidence of financial responsibility shall in no way constitute an alteration or modification of the methods of establishing financial responsibility prescribed in this paragraph (a).

(b) The Commission's application Form FMC–321, insurance Forms FMC–322 and FMC–323, surety bond Form FMC–324, and guaranty Forms FMC–325 and FMC–326, as set forth in and appended to this part, are hereby incorporated into the rules of this part.

(c) Any evidence of financial responsibility filed pursuant to the provisions of this part shall not prohibit the institution of claims for costs incurred by a vessel under the provisions of section 311 of the Act directly against the insurer or other person providing the evidence of financial responsibility required by this part. In the event, however, of any such claim brought directly against the insurer or other person providing the evidence of financial responsibility, such insurer or other person shall be entitled to invoke all rights and defenses, as set forth in section 311(f)(1) of the Act, which would have been available to the owners or operator if the action had been brought against said owner or operator by the U.S. Government, and shall also be entitled to invoke all rights and defenses which would have been available to such insurer or other person if the action had been brought against him by said owner or operator.

(d) Any financial evidence submitted to the Commission under the rules of this part shall set forth in full the correct name of the person to whom the Certificate is to be issued.

(e) If any evidence filed with the application does not comply with the requirements of this part, or for any reason fails to provide adequate or satisfactory protection to the United States, the Commission will notify the applicant stating the deficiencies thereof.

(f) Financial data filed in connection with the rules of this part shall be confidential except in instances where such information becomes relevant in connection with hearings conducted pursuant to § 542.7.

§ 542.6 Issuance of Certificate of Financial Responsibility.

(a) Except as set forth in paragraph (d) of this section, where evidence of financial responsibility has been established, a separate Certificate covering each vessel shall be issued evidencing the

Commission's finding of adequate financial responsibility to meet the liability to the United States to which such vessel could be subjected under section 311 of the Act for the cost of removal of oil or hazardous substances from the navigable waters of the United States, adjoining shorelines, or the waters of the contiguous zone. The period covered by each Certificate shall be indeterminate unless a termination date has been specified thereon. A Certificate issued pursuant to this part, or copy thereof, must be carried on board the certificated vessel. Where it would be physically impossible for the Certificate or copy thereof to be carried aboard the certified vessel, it must be retained at a location in the United States and kept readily accessible for inspection by U.S. Government officials; provided, however, that where it would be physically impossible for the Certificate or copy thereof to be carried aboard the certified vessel, the Federal Maritime Commission Certificate number, preceded by the letters "FMC", must be marked upon each bow of such vessel in such manner as to be readily discernible, but in no event shall the letters and numbers used be smaller than three inches in size.

(b) Except in the case of a master Certificate as provided for in paragraph (d) of this section, if for any reason, including a vessel's demise, sale or transfer to an operator, a certificant ceases to be responsible for liabilities to which such vessel could be subjected under section 311 of the Act, such certificate must within five (5) working days thereafter, complete the reverse side of the Certificate covering the involved vessel and return the Certificate to the Secretary of the Commission. If the Certificate covering a vessel subject to this paragraph has been lost or destroyed, the certificant must, within five (5) working days, submit the following written information to the Secretary:

(1) The number of the Certificate and the name of the vessel;

(2) The date on which the certificant ceased to be liable for the vessel;

(3) The name and mailing address of the person to whom the vessel was sold or transferred, if any;

(4) The location of the vessel on the date indicated in paragraph (b)(2) of this section.

(c) In the event of the transfer of a vessel certificated pursuant to this part to an operator where the certificant, transferring such vessel, continues to be responsible for liabilities to which such vessel could be subjected under section 311 of the Act, and continues to maintain on file with the Commission adequate evidence of financial responsibility with respect to such vessel, the existing Certificate will remain in effect and the new operator shall not be required to obtain an additional Certificate.

(d) In lieu of separate Certificates for each vessel, a person owning or operating vessels as a builder, scrapper, or seller may apply for a master Certificate to cover all vessels up to a specified, individual vessel, maximum gross tonnage, which such applicant may from time to time hold for the purposes of construction, scrapping or sale. The maximum gross tonnage to be specified on a particular master Certificate shall be that number of gross tons for which the applicant has evidenced acceptable financial responsibility. For purposes of obtaining a master Certificate, acceptable evidence of financial responsibility shall be established by the methods set forth in § 542.5(a), with the exceptions of insurance Form FMC–322 and guaranty Form FMC–325. Persons who have been issued master Certificates must submit to the Secretary of the Commission, every six months beginning with the month in which the master Certificate is issued, reports indicating the name, previous name, or other identifying information and gross tonnage of every vessel covered by the master Certificate during the reporting period. Before any certificant, already holding a master Certificate, acquires a new vessel which is of a gross tonnage greater than the gross tonnage specified on his master Certificate, and such new vessel is to be acquired for purposes of construction, scrapping or sale, said certificant shall submit to the Commission new or amended evidence of financial responsibility in an amount necessary to cover such new, larger vessel. Failure to do so may result in the master Certificate being suspended or revoked, which would require the certificant to apply for separate Certificates for each of his vessels in accordance with the other provisions of this part.

§ 542.7 Denial, revocation, suspension, or modification of a Certificate.

(a) Prior to the denial, revocation, suspension, or modification of a Certificate, the Commission shall advise the applicant or certificant of its intention to deny, revoke, suspend, or modify, and shall state the reasons therefor. If the applicant or certificant within 20 days after the receipt of such advice requests a hearing, such hearing shall be granted by the Commission and conducted in accordance with the Commission's rules of practice and procedure (Part 502 of this chapter); provided, however, that a Certificate shall become null and void upon cancellation or termination of evidence of insurance, surety bond or guaranty. The procedural provisions of the Shipping Act, 1916 (46 U.S.C. 801), shall apply to all proceedings conducted under this part.

(b) A Certificate may be denied, revoked, suspended, or modified for any of, but not limited to, the following reasons:

(1) Making any willfully false statement to the Commission in connection with an application for a Certificate, or its continuance in effect;

(2) Circumstances whereby the applicant or certificant does not qualify as financially responsible in accordance with the requirements of the Commission;

(3) Failure to comply with or respond to lawful inquiries, rules, regulations, or orders of the Commission pursuant to the rules of this part.

§ 542.8 Notice.

Notice to the public of the issuance, denial, revocation, suspension, or modification of any Certificate shall be published in the FEDERAL REGISTER.

§ 542.9 Fees.

(a) This section establishes the application and certification fees which shall be imposed by the Federal Maritime Commission for processing application Form FMC–321 and issuance of Certificates of Financial Responsibility (Pollution).

(b) Applications filed pursuant to this part are subject to the application and certification fees set forth in paragraphs (d) and (e) of this section. Applications returned to applicants for additional information or corrections will not require an additional application fee when resubmitted.

(c) Fees are payable in terms of U.S. dollars and may be paid by check, draft, or postal money order made payable to the Federal Maritime Commission. Cash will not be accepted.

(d) Except as provided in § 542.11(a) of this part, every application Form FMC–321 shall be accompanied by an application fee of $100 which shall not be refundable.

(e) In addition to the application fee, a vessel certification fee for each vessel listed on the application, subject to a maximum total certification fee of $1,000 shall be paid by the applicant in accordance with the following gross tonnage schedule:

For each vessel over:

300 to 1,200 gross tons	$2
1,200 to 5,000 gross tons	5
5,000 to 10,000 gross tons	10
10,000 to 30,000 gross tons	15
30,000 gross tons	25

Provided, however, That there shall be no certification fee assessed for Certificates issued to cover vessels of persons engaged in the building, scrapping, or sale of vessels when such vessels are being held solely for construction, sale, or scrapping.

(f) Certification fees will be refunded, on request, if (1) the application is withdrawn prior to the issuance of the Certificate or (2) the Certificate is denied pursuant to § 542.7(b)(2). Payments in excess of the applicable application and/or certification fee will be refunded only if overpayment is $2 or more.

(g) In any case necessitating the issuance of a new Certificate, such as, but not limited to, the addition of a vessel, change in name, or replacement of a lost Certificate, the individual vessel fee based on the particular vessel's gross tonnage shall apply: provided, however, that, consistent with paragraph (e) of this section, the maximum total certification fee that an applicant will be assessed is $1,000.

V 38 156 AUG 14 73 XUM

§ 542.10 Enforcement.

(a) Any owner or operator of a vessel subject to section 311(p) of the Act who fails to comply with the provisions of said section 311(p) or these regulations shall be subject to a fine of not more than $10,000.

(b) Any vessel subject to section 311 (p) of the Act which does not have a Certificate issued pursuant to this part, evidencing that the financial responsibility requirements of section 311(p)(1) of the Act have been complied with, may be refused by the Secretary of the Treasury the clearance required by section 4197 of the Revised Statutes of the United States, as amended (46 U.S.C. 91).

(c) Any vessel subject to section 311 (p) of the Act, which upon request, does not produce a Certificate issued pursuant to this part, evidencing that the financial responsibility requirements of section 311(p)(1) of the Act have been complied with, may be (1) denied entry, by the Secretary of the Department in which the Coast Guard is operating, to any port or place in the United States or the navigable waters of the United States, and (2) detained by said Secretary at the port or place in the United States from which it is about to depart for any other port or place in the United States.

§ 542.11 Conversions.

(a) Every owner or operator of a vessel subject to this part who on the effective date of this part holds a valid Certificate of Financial Responsibility (Oil Pollution) issued pursuant to the provisions of General Order 27 must, prior to October 18, 1973, file an application Form FMC–321 in accordance with § 542.4, and new evidence of financial responsibility as prescribed in § 542.5.

Such application must be accompanied by appropriate certification fees as prescribed in § 542.9, but such owners and operators shall not be required to submit the $100 application fee. The certification fees herein required shall be due and payable without regard to any prior certification fees paid under the provisions of General Order 27, but shall apply toward the $1,000 maximum provided in § 542.9(e).

(b) On and after October 18, 1973, a Certificate of Financial Responsibility (Oil Pollution) shall be deemed evidence of compliance with the financial responsibility requirements of section 311(p) of the Act and this part, provided the holder thereof has complied with the provisions of paragraph (a) of this section by filing a properly executed application, evidence of financial responsibility as required by the provisions of § 542.5, and appropriate certification fees. Such Certificate of Financial Responsibility (Oil Pollution) shall remain valid until revoked or until a Certificate is issued pursuant to § 542.6. A Certificate of Financial Responsibility (Oil Pollution) held by an owner or operator who has complied with paragraph (a) of this section shall become null and void upon failure of said owner or operator to maintain acceptable evidence of financial responsibility on file with the Federal Maritime Commission.

(c) The Certificates of Financial Responsibility (Oil Pollution) held by an owner or operator who fails to comply with the filing requirements of paragraph (a) of this section shall automatically become null and void at 12:01 a.m., October 18, 1973.

(d) Any self-insurer filing application pursuant to this § 542.11 or any guarantor executing evidence of financial responsibility pursuant to this section 542.11 on behalf of an applicant who on October 18, 1973, has on file with the Federal Maritime Commission the financial information required by § 542.5(a)(3) need not refile such financial information, provided, however, all subsequently required annual and semiannual financial information required by said § 542.5(a)(3) is timely filed.

Interested persons may participate in this rulemaking proceeding by filing with the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before September 4, 1973, an original and 15 copies of their views or arguments pertaining to the proposed rules. All suggestions for changes in the text should be accompanied by drafts of the language thought necessary to accomplish the desired change and should be supported by statements and arguments relating the proposed change to the purposes of section 311(p) of the Federal Water Pollution Control Act, as amended (86 Stat. 870).

By order of the Federal Maritime Commission.

[SEAL] FRANCIS C. HURNEY, *Secretary.*

[FR Doc.73-16829 Filed 8-13-73;8:45 am]

VETERANS ADMINISTRATION

[38 CFR Part 3]

TRANSPORTATION OF BODY

Cost of Shipping Case

The Administrator of Veterans' Affairs proposes a regulatory change relating to payment by the Veterans Administration of expense incurred in transporting the body to the place of burial when a veteran dies while receiving hospital or domiciliary care in a Veterans Administration facility. The revision removes a current limitation of $30 on the amount that may be allowed on the cost of a shipping case. When transportation expenses are payable and the shipping case is used solely for transportation purposes there would be no limitation on the amount payable for this item so long as the charges therefor do not exceed those made to the general public. To effect the change it is proposed to amend Part 3, Title 38, Code of Federal Regulations as set forth below.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposal to the Administrator of Veterans' Affairs (232H), Veterans Administration, Central Office, 810 Vermont Avenue, NW, Washington, DC 20420. All relevant material received before September 12, 1973, will be considered. All written comments received will be available for public inspection at the above address only between the hours of 8 a.m. and 4:30 p.m., Monday through Friday (except holidays), during the mentioned 30-day period and for 10 days thereafter. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Assistance Unit in room 132. Such visitors to any VA field station will be informed that the records are available for inspection only in Central Office and will be furnished the address of the above room number.

Notice is given that the change would be effective the date of final approval.

In § 3.1606(a), subparagraph (3) would be amended to read as follows:

§ 3.1606 Transportation items where veteran dies while properly hospitalized.

The transportation costs of those persons who come within the provisions of § 3.1605 (a), (b), (c) and (d) may include the following:

(a) *Shipment by common carrier.* * * *

(3) *Shipping case.* When a box purchased for interment purposes is also used as the shipping case, the amount payable may not exceed the usual and customary charge for a shipping case. In any such instance any excess amount would be an acceptable item to be included in the burial allowance expenses.

* * * * *

By direction of the Administrator.

Approved: August 6, 1973.

[SEAL] FRED B. RHODES, *Deputy Administrator.*

Notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF STATE

Agency for International Development

[No. 99.1.5]

DIRECTOR, WEST AFRICA REGIONAL ECONOMIC DEVELOPMENT SERVICES OFFICE

Redelegation of Authority Regarding Contracting Functions

Pursuant to the authority delegated to me as Director, Office of Contract Management under Redelegation of Authority No. 99.1 (38 FR 12836) from the Assistant Administrator for Program and Management Services of the Agency for International Development, I hereby redelegate to the Director, West Africa Regional Economic Development Services Office, and to the person in that office who has been designated, with the concurrence of this Office, as contracting officer, the authority to sign or approve:

1. U.S. Government contracts financed in whole or in part by A.I.D., provided each individual contractual action does not exceed $500,000;

2. Country contracts for technical assistance activities financed in whole or in part by an A.I.D. grant;

3. Grants (other than grants to foreign governments or agencies of foreign governments) for technical assistance activities, provided each individual grant action does not exceed $500,000;

4. With respect to those contracts and grants referred to above; to make findings and determinations with respect to advance payments, including those financed by Federal Reserve Letters of Credit and to approve the contract provisions relating to such advance payments. This authority is limited to advance payments on non-profit contracts with non-profit educational or research institutions, including international organizations.

The authority herein delegated to the Director, West Africa Regional Economic Development Services Office may be exercised by duly authorized persons who are performing the functions of the Director in an acting capacity. The authorities delegated herein are to be exercised in accordance with regulations, procedures, and policies now or hereafter established or modified and promulgated within the Agency for International Development.

The Redelegation of Authority to the Director, West Africa Regional Economic Development Services Office dated October 24, 1972 (37 FR 23580; A.I.D. Manual Order 131.3.9) is hereby revoked.

This redelegation of authority shall be effective immediately.

Dated: July 30, 1973.

Office of the Secretary

[Treasury Department Order No. 189 (Rev. 2)]

ASSISTANT SECRETARY FOR ADMINISTRATION AND DIRECTOR, OFFICE OF EQUAL OPPORTUNITY PROGRAM

Designation as Director and Deputy Director of Equal Employment Opportunity and Principal and Deputy Compliance Officer

I hereby designate the Assistant Secretary for Adminstration to be Treasury's Director of Equal Employment Opportunity and Principal Compliance Officer, with full authority to act for me on equal employment opportunity matters with respect to both Treasury and contractor personnel.

I hereby transfer supervision of the Office of Equal Opportunity Program from the General Counsel to the Assistant Secretary for Administration.

I further designate the Director of the Office of Equal Opportunity Program to be the Deputy Director of Equal Employment Opportunity and the Deputy Compliance Officer. The Assistant Secretary for Administration may delegate to the Director of the Office of Equal Opportunity Program the authority to make decisions and dispositions on complaints of discrimination, acceptance of affirmative action plans by Treasury components and to make determinations of the compliance posture of contractors. This authority may not be redelegated by the Director.

This order supersedes Treasury Department Order 189, (revised) of May 3, 1969.

Dated: August 5, 1973.

KANAB DISTRICT ADVISORY BOARD

Notice of Meeting

Notice is hereby given that the Kanab District Advisory Board will hold a meeting August 17, 1973, at 9:00 a.m. at the Escalante Resource Area Office, Escalante, Utah. The meeting will consist of a range field tour of the Escalante Resource Area beginning at 9:00 a.m. followed by a business meeting at about 4:00 p.m. in the Double "D" Cafe in Escalante. Interested members of the public going on the range tour will have to furnish their own transportation and lunches.

The agenda for the business meeting will include: applications for transfer of grazing privileges, management of grazing allotments, review and discussion of Wild Free-Roaming Horse and Burro Regulations and discussion on land use planning.

The meeting and tour will be open to the public. Persons wanting to make verbal statements during the meeting should notify in advance the advisory board chairman, Wallace Ott of Tropic, Utah, 84776.

MORGAN S. JENSEN,
District Manager.

ARIZONA

Order Opening Reclamation Withdrawn Lands to Mineral Location, Entry, and Patent

By virtue of the authority of the Act of April 23, 1932 (47 Stat. 136; 43 U.S.C. 154) and the regulations thereunder contained in 43 CFR 3816, and pursuant to the authority delegated by Bureau of Land Management Order No. 701 dated July 23, 1964 (29 FR 10526) as amended, it is ordered as follows:

1. Subject to valid existing rights and the provisions of existing withdrawals, the following described lands shall, commencing at 10 a.m. on September 10, 1973, be open to location, entry, and patenting under the United States Mining Laws, subject to the stipulations hereinafter quoted, to be executed and acknowledged in favor of the United States by the locators, for themselves, their heirs, successors, and assigns, and recorded in the county records and in the United States Land Office at Phoenix, Arizona, before any rights attach by virtue of this order:

GILA AND SALT RIVER MERIDIAN, ARIZONA

T. 5 S., R. 16 E.,
Sec. 5, lots 1, 2, 3, 4, 5, S½NE¼, N½SE¼, SW¼SE¼.

The area described contains 332.53 acres.

2. The land lies within the withdrawal for the Middle Gila River Project made by Public Land Order No. 3835, dated September 27, 1965.

3. Location, entry, and/or patenting of the land shall be subject to the following stipulations:

a. In carrying on the mining and milling operations contemplated hereunder, applicant will, by means of substantial dikes or other adequate structures, confine all tailings, debris, and harmful chemicals in such a manner that the same shall not be carried into Gila River bottom lands by storm waters or otherwise.

b. There is reserved to the United States, its successors and assigns, the prior right to use any of the land herein described to construct, reconstruct, operate, and maintain dams, dikes, levees, reservoirs, canals, wasteways, laterals, ditches, drainage works, flood channels, telephone and telegraph lines, electric transmission lines, roadways, and appurtenant irrigation structures, without any payment made by the United States, or its successors and assigns, for such right, with the agreement on the part of the applicant that if the construction or reconstruction of any or all of such dams, dikes, levees, reservoirs, canals, wasteways, laterals, ditches, telephone and telegraph lines, electric transmission lines, roadways, or appurtenant irrigation structures across, over, or upon said lands should be made more expensive by reason of the existence of improvements or workings of the applicant thereon, such additional expense is to be estimated by the Secretary of the Interior, whose estimate is to be final and binding upon the parties hereto, and that within thirty days after demand is made upon the applicant for payment of such sums, the applicant will make payment thereof to the United States, or its successors and assigns, constructing or reconstructing such dams, dikes, levees, reservoirs, canals, wasteways, laterals, ditches, telephone and telegraph lines, electric transmission lines, roadways, or appurtenant irrigation structures across, over, or upon said lands. There is also reserved to the United States the right of its officers, agents, employees, licensees, and permittees, at all proper times and places freely to have ingress to, passage over, and egress from all of said lands for the purpose of exercising, enforcing, and protecting the rights reserved herein.

c. Applicant further agrees that the United States, its officers, agents, employees, and assigns, shall not be liable for any damage to the improvements or works of the applicant resulting from the construction, reconstruction, operation, or maintenance of any of the works hereinabove enumerated.

Inquiries concerning these lands shall be addressed to Chief, Division of Technical Services, Arizona State Office, Bureau of Land Management, 3022 Federal Building, Phoenix, Arizona 85025.

JOE T. FALLINI,
State Director.

WASATCH NATIONAL FOREST MULTIPLE USE ADVISORY COMMITTEE

Notice of Meeting

AUGUST 1, 1973.

The Wasatch National Forest Multiple Use Advisory Committee will meet at 8 PM on August 29, 1973 and all day August 30th at Logan, Utah.

The purpose of this meeting is to review in the evening meeting (Aug. 29) the role of National Forest management on the Ogden and Logan Ranger Districts (formerly administered by the Cache National Forest and now administered by the Wasatch National Forest) and to spend the following day on a horseback trip in the Mt. Naomi Roadless Area. This trip is to acquaint the Advisory Committee with at least a portion of the area so that they will be better qualified to evaluate management alternatives for that area. Management of the Mt. Naomi area has become a matter of great interest to many individuals and groups in the States of Utah and Idaho.

The meeting will be open to the public. Persons who wish to attend the field trip will have to provide their own transportation to the trailhead and their own horses and food. Persons who wish to attend should notify Wasatch National Forest Supervisor C. P. St. John, Telephone No. 524–5031, Federal Building, 125 South State Street, Room 4311, Salt Lake City, Utah.

Written statements may be filed with the Committee before or after the meeting.

CHANDLER P. ST. JOHN,
Forest Supervisor.

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before September 3, 1973.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C.

Docket number: 74–00036–33–46040. APPLICANT: University of Maryland Hospital, University of Maryland, 660 West Redwood Street, Baltimore, Maryland 21201. ARTICLE: Electron Microscope, Model JEM 100B. MANUFACTURER: JEOL, Ltd., Japan. INTENDED USE OF ARTICLE: The article is intended to be used in the study of pathological processes ranging from low magnification survey pathology to high resolution studies of selected aspects of injury on cell membranes and organelles, and virus identification studies. Specific applications include:

1. Renal biopsy program. Diagnostic surveys to observe the type of renal alterations and type of deposits present and for analysis of immunochemical and histochemical studies.

2. Neuropathology. Description of autopsy material from immediate and routine autopsies.

3. Blood cell program. Study of alterations of red blood cells in Sickle cell and other blood cell diseases.

4. Virus studies. Virus identification and study in body fluids, skin vesicles and other tissues.

The article will also be used in a course entitled Instrumentation, Light and electron microscopy. Application received by Commissioner of Customs: July 19, 1973.

Docket number: 74–00037–33–46040. Applicant: Colorado State University, Purchasing Department, Fort Collins, Colorado 80521. Article: Electron microscope, Model HS–9 and accessories.

Manufacturer: Hitachi Perkin-Elmer, Japan. Intended use of article: The article is intended to be used in research on renal disease following a single low level exposure to gamma irradiation during prenatal and early postnatal life in the beagle. Materials to be studied are biological specimens which include renal cortex, renal medulla, parathyoids and selected additional tissues. It is also intended to study cardiotoxicity of antineoplastic agents including investigation of subcellular isolates of myocardial cells; and the recovery from lesion producing doses of adriamyacin which requires the electron microscope to reveal subtle subcellular lesions and recovery capabilities in the area of the studies of pathogenesis and mechanism of these compounds. The article is to be used in the following courses for masters and doctoral candidates: AY 704–Biological Preparations for Electron Microscopy; AY 705–Biological Preparation for Electron Microscopy Laboratory; AY 706–Theory of Electron Microscopy Op-

V 38-156 AUG 14 73 XUM

eration; AY 707-Electron Microscopy Operation; and AY 875-Advanced Electron Microscopy. Application received by Commissioner of Customs: July 19, 1973.

Docket number: 74-00038-33-28500. Applicant: State University of New York at Buffalo, 1803 Elmwood Avenue, Buffalo, New York 14207. Article: Rank Electrophoresis Instrument. Manufacturer: Rank Brothers, United Kingdom. Intended use of article: The article is intended to be used to measure the relation between the motion of living cells in suspension, in an electric field, and the field strength and the composition of the suspending medium. Cells will be used from various tissue-culture lines, and at various ages in the growth cycle, and before and after malignant transformation. Results will be correlated with the behavior of these cells in other biological experiments in an effort to obtain an understanding of the behavior of cells in forming tissues in metastisis (a problem in cancer research) and related problems. Application received by Commissioner of Customs: July 19, 1973.

Docket number: 74-00039-33-90000. Applicant: Brandeis University, Rosenstiel Basic Medical Sciences Research Center, 415 South Street, Waltham, Massachusetts 02154. Article: Rotating anode X-Ray Generator, Model GX6. Manufacturer: Elliott Automation Radar Systems Ltd., United Kingdom. Intended use of Article: The article will be used in small-angle, high-resolution X-ray diffraction experiments involving muscle, membrane and virus structure. Application received by Commissioner of Customs: July 2, 1973.

Docket number: 74-00040-33-46040. Applicant: Harvard University, Purchasing Department, 75 Mt. Auburn Street, Cambridge, Massachusetts 02138. Article: Electron Microscope, Model EM 300. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used in the examination of ovaries; uteri; oviducts; eggs and blastocysts; spermatozoa; testis and accessory glands of the male reproductive tract in research intended to further the understanding of reproduction and to contribute to development of improved methods for limitation of human fertility. Among the intended studies are (1) membranes and membrane contacts of granulosa cells in ovarian follicles as ovulation approaches; the nature of the blood-testis permeability barrier; localizing histocompatability antigens on cell surfaces by conjugating ferritin to antibody and localizing the ferritin molecules in high resolution electron micrographs; cell biology of the female reproductive system and the early events of embryogenesis by use of the techniques of light and electron microscopy: and ovary, oviduct and early cleavage stages of the embryo. Application received by Commissioner of Customs: July 16, 1973.

A. H. STUART,
Director Special Import Programs Division.

Maritime Administration

TANKER CONSTRUCTION PROGRAM

Environmental Impact Statement

In FR Doc. 73-11495, appearing in the FEDERAL REGISTER of June 8, 1973, (38 FR 15087) reference was made to the environmental impact statement entitled, Maritime Administration tanker construction program, NTIS Report No. EIS 730725-F, published May 30, 1973, concerning proposed assistance to private industry to aid in the construction in the United States of a fleet of oil carrying vessels during the decade of the 1970's. Vessel classes included ranged from approximately 35,000 DWT to 400,000 DWT.

Said notice of June 8, 1973, stated that the Maritime Subsidy Board had received certain applications for assistance under the tanker construction program and had determined that the vessels thereupon identified to be constructed with such assistance were of the type, design and characteristics of those vessels treated in the above mentioned environmental impact statement.

In FR Doc. 73-15762, appearing in the FEDERAL REGISTER of July 31, 1973 (38 FR 20355) notice was given that Moore-McCormack Bulk Transport, Inc. had filed an application dated July 23, 1973, pursuant to title V of the Merchant Marine Act, 1936, as amended, for construction-differential subsidy to aid in the construction of three new tank vessels of approximately 38,300 deadweight tons to be used in the worldwide bulk trade, including the import-export commerce of the United States.

This application is for construction of three ships of MarAd Design T6-S-93a, similar to and to be constructed from the same plans and specifications as the three tankers now under construction at National Steel and Shipbuilding Co. (NASSCO) for Margate Shipping Company.

The design is similar to the "Handy Tanker" described in Section II of the Environmental Impact Statement (EIS) except that dimensions are slightly different and deadweight is increased from 35,000 to 38,300 tons. In addition the subject tankers will have 15 cargo tanks and three segregated ballast tanks as compared to 27 tanks, all allocated to cargo, of the "Handy Tanker." This difference will result in an advantage to the subject tanker when considering the likelihood of oil outflow due to collision, but in the event of a collision in way of the cargo tanks a larger quantity of oil would be spilled than on the "Handy Tanker", with small tanks. It is therefore considered that the two designs have equivalent acceptability from this point of view.

These are relatively small ships used for shorthaul operation and for berthing in restricted areas and this type of ship is described in detail in the EIS under the title of "Handy Tankers".

The subject ships will have two longitudinal oiltight bulkheads and seven main transverse oiltight bulkheads in the cargo area dividing that space into six sets of cargo tanks forward to aft. There are 15 cargo tanks, plus three tanks set aside for segregated ballast.

The ship meets all the requirements for subdivision and stability as required by the International Load Line Convention of 1966 as well as the IMCO oil outflow limitations for collision or stranding.

Characteristics are as follows:

Length overall	668'-6"
Length between perpendiculars	660'-0"
Beam	90'-0"
Depth	47'-0"
Full load draft	35'-0"
Full load displacement	47,120
Light ship (approx.)	8,170
Total deadweight (approx.)	38,950
Segregated ballast	9,837
Percent total displacement in ballast	42%
Maximum SHP	15,000
Service speed	16 knots

Numerous special pollution control features described in the EIS for "Handy Tankers" will be installed in the NASSCO T6-S-93a design vessels covered by this application. These features are:

IMCO cargo tank outflow requirement
Remote shutdown cargo pumps
Local control load and discharge manifolds
"Loan-on-Top" capability
Segregated ballast—42%
Oil content meters or alarm device
Sewage holding tank

In view of the fact that these ships duplicate the Design T6-S-93a 38,300 DWT tankers presently under construction at NASSCO, which were considered in the EIS, and that the pollution control features on the "Handy Tankers" considered in the EIS are included, the Maritime Subsidy Board has concluded that these vessels are adequately covered by the Final Environmental Impact Statement, NTIS Report No. EIS 730725-F.

As a consequence the Board has found that no supplement to the EIS nor any new impact statement need be prepared with respect to the three vessels described above. Future Board action with respect to this application will be, from an environmental standpoint, based on the above referenced impact statement.

Dated: August 9, 1973.

By order of the Maritime Subsidy Board, Maritime Administration.

JAMES S. DAWSON, Jr.,
Secretary.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

HUMAN DRUGS CONTAINING TRICHLOROETHANE (1,1,1-TRICHLOROETHANE, METHYLCHLOROFORM)

Notice to Drug Manufacturers, Packers, and Distributors

Elsewhere in this issue of the FEDERAL REGISTER, the Commissioner of Food and Drugs has proposed that all aerosal drug products intended for inhalation, either directly or indirectly, containing 1,1,1-trichloroethane (also known as methylchloroform) be considered as new drugs and subject to regulatory proceedings unless the products are the subject of new drug applications approved pursuant to section 505 of the Federal Food, Drug, and Cosmetic Act. That proposal is based on reports of 21 deaths resulting from the use of decongestant aerosol sprays containing the solvent trichloroethane. Most of the deaths were attributed to misuse of the products. All such products known to the Food and Drug Administration have been recalled from the market.

1,1,1-Trichloroethane is used in various aersol products as a solvent for the active ingredients and to reduce the vapor pressure of the propellants. Although the chemical has been used for many years as an industrial solvent and as a substitute for carbon tetrachloride as a degreasing agent, the Food and Drug Administration has no information regarding its use in drug products other than its use in certain decongestant aersol sprays. 1,1,1-Trichloroethane is known to be irritating to the eyes and mucous membrane and is toxic to the cardiovascular system. When inhaled, it is a potent anesthetic agent and induces ventricular arrhythmias. For these reasons it is essential that the Commissioner have knowledge of every drug product currently marketed in the United States that contains 1,1,1-trichloroethane, whether it is present as an active or inactive ingredient, so that he may determine if there is adequate evidence the drugs are safe and effective for their intended purposes and what, if any, action is necessary to protect the public health.

Section 510(j)(3) of the act, as added by the Drug Listing Act of 1972, authorizes the Commissioner to require each registrant under section 510 of the act to submit a list of each drug product which the registrant is manufacturing, preparing, propagating, compounding, or processing for commercial distribution and contains a particular ingredient, when the Commissioner has made a finding that the submission of such a list is necessary to carry out the purposes of the act. For the reasons stated above the Commissioner so finds with regard to drugs containing 1,1,1-trichloroethane.

In addition to the required list of drugs containing 1,1,1-tricholorethane, the Commissioner is requesting, but not requiring, that certain other information be submitted. The Commissioner acknowledges that some of the information being requested has also been requested in the regulations implementing the Drug Listing Act of 1972, and will be available from that source. However, it will greatly simplify the compilation of this information if it is included in this submission.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201, 510, 701(a), 52 Stat. 1040-1042, as amended, 1053, as amended, 1055, as amended; 21 U.S.C. 321, 360, 371(a); 42 U.S.C. 262) and under authority delegated to the Commissioner (21 CFR 2.120), each registrant under section 510 of the act is required to submit to the Food and Drug Administration a list of all human drugs which are being manufactured, prepared, propagated, compounded, or processed for commercial distribution and which contain 1,1,1-trichloroethane (also known as methylchloroform), whether or not the 1,1,1-trichloroethane is an active or inactive ingredient, as follows:

1. Reporting firm name, address, and registration number.

2. List of drugs containing 1,1,1-trichloroethane (by trade name, if any, and established name, if any).

It is requested but not required that the following information also be submitted:

3. National Drug Code (NDC) if one has been assigned.

4. A statement whether the drug is marketed over the counter or limited to prescription distribution.

5. Route of administration.

6. Amount of 1,1,1-trichloroethane in average daily dose.

7. Quantity of drug distributed (number of dosage units) during previous 12 months.

8. A copy of the label and labeling.

This information shall be submitted to:

Department of Health, Education, and Welfare
Food and Drug Administration
Bureau of Drugs, Registration Section
5600 Fishers Lane
Rockville, MD 20852

by: September 13 1973.

Dated: AUGUST 6, 1973.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

Office of Child Development

HEAD START GRANT TO MISSOULA-MINERAL HUMAN RESOURCES, INC.

Hearing Regarding Termination

Notice of hearing is hereby given as set forth in the following letter which has been sent to Missoula-Mineral Human Resources, Inc.

MRS. DONNA HATTON, *President,*
Board of Directors,
Missoula-Mineral Human Resources, Inc.,
508 Toole Avenue,
Missoula, Montana 59801.

AUGUST 7, 1973.

DEAR MRS. HATTON: In accordance with your request for a hearing on the termination of assistance under the Head Start program to your agency, I have set August 20, 1973, at 9:30 a.m., Room 510, Suite 502, 1050 17th Street, Denver, Colorado as the time and place for a hearing. This hearing is held under the authority of section 604(3) of the Economic Opportunity Act of 1964 (81 Stat. 715, section 103(d); 42 USC 2944(3)). Attached is a copy of my order designating the Honorable Charles T. Birmingham, Jr., to preside over this hearing.

The hearing will be conducted in accordance with the draft procedure attached hereto and which is adapted for this case. For purposes of this hearing, the Acting Director, Office of Child Development, is the "responsible OCD official" referred to in the attached draft procedure and the procedure is hereby further modified so that there is no review such as the one in § 1302.4-7(e), subsequent to the review by the responsible OCD official. In addition, the responsible OCD official shall render his decision within thirty days of the mailing of any exceptions instead of twenty days as provided.

The reason for the termination of assistance is the failure of the Board of Directors, Missoula-Mineral Human Resources, Incorporated, (MMHR) to comply with Federal standards, guidelines, instructions and conditions resulting in serious maladministration of the Head Start program. In particular, those charged with the administration of the programs on behalf of MMHR have failed to comply with Federal requirements as follows:

1. The Head Start Manual 6108-1 regulation on family income eligibility specifies that at least ninety per cent of the children to be enrolled in each class must come from families receiving a limited gross income. The intake records of Missoula-Mineral Human Resources, Inc., show that determinations of eligible children were made on the basis of adjusted family incomes, resulting in enrollment of a substantial number of children in Head Start classes in excess of ten per cent from families above the poverty guidelines.

2. Refusal to permit access to records related to program operations to Mr. Hollis Bach.

3. Failure to furnish an annual audit for the program year ending November 30, 1972 within the required time period.

4. Diversion of funds derived from fees for services from the State AFDC program, from the Head Start program to payment of interest on a commercial loan contrary to applicable instructions.

5. Dissolution of the Head Start Policy Council on or about June 15, 1973 without Policy Council concurrence as required by applicable Federal policy.

6. Personnel actions were taken without the concurrence of the Head Start Policy Council as required by OCD policy, including removal of the Head Start director.

7. Misuse of funds on several recent occasions.

8. Head Start facilities were made available to individuals for non-Head Start purposes resulting in loss or damage to property and other disruptions to the program. Responsible officials failed to take necessary timely action to put a stop to this and to prevent a reoccurrence.

Sincerely,

SAUL R. ROSOFF,
Acting Director,
Office of Child Development.

Interested persons or organizations may be permitted to participate in the hearing as parties if, in the discretion of the presiding officer, the participation of such persons or organizations is necessary to a proper determination of the issues involved. Any person or group requesting to participate shall file an application with the Office of Child Development Hearing Clerk, Room 5746, 400 Sixth Street, S.W., Washington, D.C. 20201, as soon as possible, but not later than August 15, 1973. The application shall state the applicant's interest in the proceeding, the evidence or arguments the applicant intends to con-

V 38-156 AUG 14 73 XUM

tribute, and the necessity for the introduction of such evidence or arguments. The hearing clerk shall forward all such applications to the presiding officer.

Dated: August 9, 1973.

SAUL R. ROSOFF,
Acting Director,
Office of Child Development.

Federal Highway Administration

WASHINGTON

Availability of Proposed Action Plan

The Washington Department of Highways has submitted to the Federal Highway Administration of the U.S. Department of Transportation a proposed Action Plan as required by Policy and Procedure Memorandum 90-4 issued on June 1, 1973. The Action Plan outlines the organizational relationships, the assignments of responsibility, and the procedures to be used by the State to assure that economic, social and environmental effects are fully considered in developing highway projects and that final decisions on highway projects are made in the best overall public interest, taking into consideration: (1) Needs for fast, safe and efficient transportation; (2) public services; and (3) costs of eliminating or minimizing adverse effects.

The proposed Action Plan is available for public review at the following locations:

1. Washington State Highway Library
Highway Administration Building
Olympia, Washington 98504
2. District 1, Washington Department of Highways
6431 Corson Avenue South
Seattle, Washington 98108
Phone: (206) 764-4141
3. District 2, Washington Department of Highways
P.O. Box 98
Wenatchee, Washington 98801
Phone: (509) 663-1641
4. District 3, Washington Department of Highways

Comments from interested groups and the public on the proposed Action Plan are invited. Comments should be sent to the FHWA Regional Office shown above before September 10, 1973.

Issued on August 9, 1973.

NORBERT T. TIEMANN,
Federal Highway Administrator.

[FR Doc.73-16803 Filed 8-13-73;8:45 am]

Federal Railroad Administration

[FRA E.O. No. 3]

TRANSPORTATION OF TRITONAL BOMBS

Emergency Order Regarding Class A Explosives

As a result of investigations of recent rail accidents and incidents involving the transportation of Tritonal Bombs (Class A Explosives), the Federal Railroad Administration (FRA) has determined that the use of low-sparking brake shoes and adequate spark shields or increased inspection and surveillance of car selection and transportation of Class A explosives are essential to prevent further occurrences. Although the accidents involving Class A explosive bombs which occurred on the Southern Pacific Transportation Company at Roseville, California on April 28, 1973, and at Benson, Arizona on May 24, 1973, are still under investigation, on June 1, 1973, the National Transportation Safety Board (NTSB) issued its safety recommendation R-73-24. In R-73-24 the NTSB recommended that the FRA issue temporary regulations requiring "Increased inspection and surveillance of the car selection, loading and transportation of military explosives of a type involved in Tobar, Roseville, and the Benson explosions."

In addition to the action recommended by the NTSB, the FRA believes that an effort must be made to eliminate sources of excessive heat in the rail transportation of these munitions and that increased inspection is needed of those car components which can cause such heat. One source of excessive heat is the sticking of brakes. In addition, cast iron brake shoes can produce a "sparking" condition which can cause hot metal sparks to be thrown against and ignite a wooden car body. Similarly, the application of high-friction composition brake shoes to a car equipped for the application of low-friction composition shoes may cause a fire in the brake shoe which can be transmitted to the wooden floor of a car body.

I have thoroughly reviewed this matter and conclude that the present practice of transporting Class A explosives creates an emergency situation involving a hazard of death or injury to persons affected by the use of railroad equipment in transporting the explosives. Therefore, pursuant to the authority contained in section 203 of the Federal Railroad Safety Act of 1970 (45 U.S.C. 432), I am hereby issuing the following order:

ORDER

In addition to the requirements of Parts 170-189 of Title 49 of the Code of Federal Regulations governing the transportation of explosives, effective 12:01 a.m., August 16, 1973, a railroad may transport Class A explosives only under the following conditions:

(a) Each car transporting Class A explosives must be designed for and equipped with one of the following types of brake shoes. All brake shoes on the car must be of the same type and of a type for which the car is designed. All brake shoes must be in a safe and suitable condition for service, and in compliance with the wear limit set forth below according to type of brake shoe:

Type of brake shoe	*Wear limit* Brake shoe must have a uniform thickness of more than—
Low-friction composition	¾ inch
High-friction composition	⅝ inch
High-phosphorous	½ inch

(b) Except as provided in subdivision (c) of this order, each car transporting Class A explosives must be equipped with—

(1) A continuous steel sub-floor; or

(2) Metal spark shields, located on each side of the center sill, extending continuously from the center sill to the side sill, and continuously from the end sill to a point not less than one foot beyond the tread of the inside wheel of the car truck and which do not have an accumulation of oil, grease, or debris constituting a fire hazard.

(c) A car which does not meet the requirements set forth in subdivision (b) of this order may be used to transport Class A explosives under the following conditions:

(1) The car transporting Class A explosives and each car coupled to that car in a train must be inspected as provided in clause (2) of this subdivision, by employees qualified to make the inspection, while the train is stopped at each of the following points:

(i) Where the train and engine crews are changed;

(ii) Immediately before traversing a 1.75 percent or more descending grade of 10 miles or more in length;

(iii) The first point practicable after traversing a 1.75 percent or more descending grade of 10 miles or more in length, but not more than two miles after descending the grade;

(iv) The first point practicable after the automatic air brakes have been in continuous application on a moving train for a period of 30 minutes or more; and

(v) The first point practicable after an emergency application of the automatic air brakes.

(2) The inspection required by clause (1) of this subdivision must be conducted to determine that—

(i) The air brakes are released;

(ii) There is no evidence of fire;

(iii) There is no evidence of overheating of brake shoes, wheel rims, wheel treads, or journals; and

(iv) The car suspension system and draft gear assembly are in a safe and suitable condition for service.

(3) With respect to an inspection made under clause (2) of this subdivision—

(i) If there is evidence of sticking brakes, measures must be taken to assure that air brakes and hand brakes are fully released.

(ii) If any evidence of overheating of any component of a car is discovered, or the suspension system or draft gear assembly of a car are found to be in an unsuitable condition for service, each defective car must be set out from the train, or the train may proceed at a speed of not more than 10 miles per hour to the nearest point where each defective car can be removed from the train. Cars set out from the train under these conditions may not be used for the transportation of Class A explosives until they have been repaired, inspected, and certified as safe and suitable for service by a responsible mechanical officer of the railroad concerned. If a car cannot be certified to be in a safe and suitable condition for service, the Class A explosives lading must be transferred to a car which meets the requirements set forth in this order before they are transported by rail.

A civil penalty of not less than $250 nor more than $2500 will be assessed for each violation of this order and each day of such violation will constitute a separate offense.

An opportunity for review of this order is provided in accordance with section 554 of Title 5 of the United States Code.

(Sec. 203, 84 Stat. 972, 45 U.S.C. 432; and § 1.49(n) of the regulations of the Office of the Secretary of Transportation, 49 CFR 1.49 (n)).

Issued in Washington, D.C. on August 9, 1973.

JOHN W. INGRAM,
Administrator.

National Highway Traffic Safety Administration

NATIONAL MOTOR VEHICLE SAFETY ADVISORY COUNCIL

Notice of Public Meeting

On October 9 and 10, 1973, the National Motor Vehicle Safety Advisory Council will hold a public conference on the technical and legal aspects of motor vehicle safety defects. The conference will be held in room 2232, Department of Transportation headquarters building, 400 Seventh Street, SW, Washington, D.C., beginning at 9:00 a.m. each day. The Safety Defects Conference is being sponsored by the National Motor Vehicle Safety Advisory Council to aid the Council in developing recommendations and guidelines for consideration by the Secretary of Transportation on what constitutes a "safety-related defect." The Council believes that the conference is timely in light of the increasingly large number of motor vehicles recalled each year and legislation before Congress calling for mandatory recall and remedy of safety-related defects.

The Advisory Council is asking for participation by representatives of the motor vehicle industry, consumer groups, the Government, and other interested parties. Parties who wish to speak at the Conference or submit a written report are invited to indicate their interest by writing the Chairman of the Safety Defects Conference for further details by August 31, 1973 at the following address: Chairman, Safety Defects Conference, National Motor Vehicle Safety Advisory Council, (Rm. 5215), NHTSA, DOT, Washington, D.C. 20590.

The National Motor Vehicle Safety Advisory Council is composed of 22 members, a majority of whom represent the general public, including representatives of State and local governments, with the remainder representing motor vehicle and equipment manufacturers and dealers. The Advisory Council makes recommendations to the Secretary of Transportation on the motor vehicle safety standards program administered under the National Traffic and Motor Vehicle Safety Act of 1966 (15 USC 1381 et seq.).

V 38-156 AUG 14 73 XUM

The Advisory Council's Safety Defects Conference is independent of any rule-making activities conducted by the Department of Transportation, is not a substitute for meetings held at the request of the Department, and is not a substitute for comments submitted to any rule-making docket. The Department of Transportation is not responsible for representations made or positions taken at the conference.

This notice is given pursuant to section 10(a)(2) of Public Law 92-463, Federal Advisory Committee Act, effective January 5, 1973.

For further information, contact the NHTSA Executive Secretary, Room 5215, 400 Seventh Street, SW., Washington, D.C. or telephone 202-426-2872.

Issued on: AUGUST 8, 1973.

CALVIN BURKHART,
Executive Secretary.

[FR Doc.73-16802 Filed 8-13-73;8:45 am]

ATOMIC ENERGY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS COMBINED ENVIRONMENTAL AND WASTE MANAGEMENT SUBCOMMITTEES

Notice of Meeting

AUGUST 10, 1973.

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 USC 2039, 2232 b.), the Advisory Committee on Reactor Safeguards Combined Environmental and Waste Management Subcommittees will hold a meeting on August 27-28, 1973, in Room 1046, 1717 H Street, N.W., Washington, D.C. The purpose of the meeting will be to consider a variety of subjects and programs pertaining to protection of the environment and to the handling of radioactive waste.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

Monday, August 27, 1973, 9:00 a.m.-5:00 p.m. Assessment of Current Reactor Waste Management Systems; Emergency Radiological Instrumentation for Power Reactors; Evaluation of Plutonium Contamination; and, Evaluation of Environmental Impact Statements.

Tuesday, August 28, 1973, 8:30 a.m.-12:30 p.m. Waste Treatment Methods for Airborne Radioactive Materials; Management of Solid Radioactive Wastes Other Than Solidified High Level Waste; Decontaminating and Decommissioning of AEC Facilities; and, Criteria Involved in Achieving As Low As Practicable Release of Radioactive Materials.

In connection with the above agenda items, the Subcommittees will hold an executive session at 8:30 a.m. on August 27 which will involve a discussion of their preliminary views, and an executive session at 1:30 p.m. on August 28, consisting of an exchange of opinions of the Subcommittees members and internal deliberations and formulation of recommendations to the ACRS.

I have determined, in accordance with subsection 10(d) of Public Law 92-463, that the executive sessions at the beginning and end of the meeting will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b). It is essential to close such portions of the meeting to protect the free interchange of internal views and to avoid undue interference with Agency or Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The acting Chairman of the combined Subcommittees is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda items may do so by mailing 25 copies thereof, postmarked no later than August 21, 1973, to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the combined Subcommittees. To the extent that the time available for the meeting permits, the combined Subcommittees will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the acting Chairman of the combined Subcommittees, between the hours of 11:30 a.m., and 12:30 p.m. on the second day of the meeting, August 28, 1973.

(c) Requests for the opportunity to make oral statements shall be ruled on by the acting Chairman of the combined Subcommittees, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled, and in regard to the acting Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on August 24, 1973, to the Office of the Executive Secretary of the Committee (telephone: 301-973-5651) between 8:30 a.m. and 5:15 p.m., Eastern Daylight Time.

(e) Questions may be propounded only by members of the Subcommittees and their consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) A copy of the transcript of the open portions of the meeting will be available for inspection during the following workday at the Atomic Energy Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20545. On request, copies of the minutes of the meeting will be made available for inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20545 on or after October 29, 1973. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
Advisory Committee Management Officer.

DUQUESNE LIGHT CO. ET AL.

Notice and Order for Special Prehearing Conference

In the matter of Duquesne Light Company, Ohio Edison Company, Pennsylvania Power Company, the Cleveland Electric Illuminating Company, the Toledo Edison Company, (Perry Nuclear Power Plant, Units 1 and 2)

Take notice, that pursuant to the Atomic Energy Commission's "Notice of Hearing on Application for Construction Permits", dated July 8, 1973, and in accordance with § 2.751(a) of the Commission's rules of practice, a special prehearing conference will be held in the subject proceeding on September 5, 1973, at 10:00 a.m., local time, in Courtroom No. 3, Lake County Courthouse, Park Place, Painesville, Ohio 44077.

The special prehearing conference will deal with the matters set forth in § 2.751(a), including such matters as:

1. Identification and simplification of the issues;
2. The necessity or desirability of amending the pleadings;
3. The obtaining of stipulations and admissions;
4. The setting of a hearing schedule; and
5. Such other matters as may aid in the orderly disposition of the proceeding.

All members of the public are entitled to attend this prehearing conference as well as the subsequent evidentiary sessions.

It is so ordered.

Issued at Washington, D.C., this 9th day of August 1973.

ATOMIC SAFETY AND LICENSING BOARD,
JOHN B. FARMAKIDES,
Chairman.

[FR Doc.73-16831 Filed 8-13-73;8:45 am]

[Docket No. 50-277]

PHILADELPHIA ELECTRIC CO. ET AL.

Notice of Issuance of Facility Operating License

Notice is hereby given that pursuant to an Order, dated May 11, 1973, issued by the Atomic Safety and Licensing Board, the Atomic Energy Commission (the Commission) has issued Facility Operating License No. DPR-44 to the Philadephia Electric Company, Public Service Electric and Gas Company, Delmarva Power and Light Company and the Atlantic City Electric Company which authorizes low power testing and operation at reactor core power levels not in excess of 329 megawatts thermal (10% of rated power), in accordance with the provisions of the license and the Technical Specifications. The Peach Bottom Atomic Power Station, Unit 2 is a boiling water nuclear reactor located at the licensees' site in York County, Pennsylvania.

The Commission has made appropriate findings as required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license. The application for the license complies with the standards and requirements of the Act and the Commission's rules and regulations.

The license is effective as of the date of issuance and shall expire on February 7, 1975, unless extended for good cause shown or upon the earlier issuance of a superseding operating license.

A copy of (1) Order, dated May 11, 1973, (2) Facility Operating License No. DPR-44, complete with Technical Specifications (Appendices "A" and "B"), (3) the report of the Advisory Committee on Reactor Safeguards, dated September 21, 1972, (4) the Directorate of Licensing's Safety Evaluation, dated August 11, 1972, (5) Supplement No. 1 to the Safety Evaluation, dated December 11, 1972, (6) Supplement No. 2 to the Safety Evaluation, dated May 23, 1973, (7) the Final Safety Analysis Report and amendments thereto, (8) the applicant's Environmental Report, dated June 4, 1971 and supplements thereto, (9) the Draft Environmental Statement dated October, 1972, and (10) the Final Environmental Statement, dated April, 1973, are available for public inspection at the Commission's Public Document Room at 1717 H Street, N. W., Washington, D. C. and at the Martin Memorial Library, 159 E. Market Street, York, Pennsylvania 17401. A copy of the license and the Safety Evaluation and Supplements may be obtained upon request addressed to the United States Atomic Energy Commission, Washington, D. C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Maryland, this 8th day of August, 1973.

For the Atomic Energy Commission.

WALTER R. BUTLER,
Chief, Boiling Water Reactors Branch 1, Directorate of Licensing.

[Docket Nos. 50-344, 50-344-OL]

PORTLAND GENERAL ELECTRIC CO., ET AL.

Notice of Prehearing Conference

In the matter of PORTLAND GENERAL ELECTRIC COMPANY, ET AL. (Trojan Nuclear Plant): notice is hereby given that in accordance with the Licensing Board's Prehearing Conference Order of August 8, 1973, in the above-entitled proceedings, a Second Prehearing Conference will be held commencing at 10:00 am, local time, on Monday, September 10, 1973, in Courtroom 204, United States Court of Appeals, The Pioneer Courthouse, Portland, Oregon 97204.

The Prehearing Conference will deal with the status of discovery, any motions then outstanding, and such other matters as may aid in the orderly preparation for the Evidentiary Hearing tentatively scheduled to commence on October 30, 1973, in Portland, Oregon.

Also take notice that considering the circumstances of the two proceedings as discussed in the aforementioned Order of August 8, 1973, consecutive Evidentiary Hearings will be held at the same sitting of the Board in the proceeding on the application for a facility operating license (in accordance with the Commission's "Notice of Receipt of Application . . . and Notice of Opportunity For Hearing", published February 23, 1973) and the mandatory proceeding on environmental issues relating to the construction permit (in accordance with the Commission's Notice of Hearing Pursuant to 10 CFR Part 50, Appendix D, Section B, published December 29, 1972).

Members of the public are welcome to attend the Prehearing Conference and the Evidentiary Hearing which will follow at a later date.

It is so ordered.

Issued at Washington, D.C., this 9th day of August, 1973.

ATOMIC SAFETY AND LICENSING BOARD,
ROBERT M. LAZO,
Chairman.

[FR Doc.73-16832 Filed 8-13-73;8:45 am]

WASTE MANAGEMENT OPERATIONS AT CERTAIN PLANTS

Preparation of Environmental Impact Statements

Notice is hereby given that in accordance with the National Environmental Policy Act the U.S. Atomic Energy Commission has commenced the preparation of environmental impact statements on waste management operations at its Hanford Reservation in Eastern Washington, its Savannah River Plant in South Carolina, and its National Reactor Testing Station in Idaho.

Copies of waste management data to be utilized in the preparation of these statements will be available at AEC Public Document Rooms at 1717 H Street, N.W., Washington, D.C.; 1333 Broadway, Oakland, California; Federal Building, Richland, Washington; Savannah River Plant, Aiken, South Carolina and 550 Second Street, Idaho Falls, Idaho.

All interested persons desiring to submit suggestions for consideration in connection with the preparation of the draft environmental impact statments should send them in duplicate to Dr. James L. Liverman, Assistant General Manager for Biomedical and Environmental Research and Safety Programs, U.S. Atomic Energy Commission, Washington, D.C. 20545, on or before October 15, 1973.

Dated at Germantown, Maryland, this 10th day of August 1973.

For the Atomic Energy Commission.

GORDON GRANT,
Acting Secretary to the Commission.

[FR Doc.73-16999 Filed 8-13-73;8:45 am]

CIVIL AERONAUTICS BOARD

[Docket No. 25280]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Relating to Cargo Rate Matters

AUGUST 8, 1973.

Issued under delegated authority, agreement adopted by the Traffic Conferences of the International Air Transport Association relating to cargo rate matters.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's economic regulations between various air carriers, foreign air carriers and other carriers embodied in the resolutions of the Traffic Conferences of the International Air Transport Association (IATA). The agreement, which has been assigned the above-designated C.A.B. agreement number, was adopted as a result of the 5th Meeting of the Cargo Traffic Procedures Committee held February 20-23, 1973 in Geneva.

The agreement, for intended October 1, 1973, effectiveness, would amend an existing resolution governing airport to airport rates by expanding the provisions governing notification of the arrival of a shipment to include advice to the consignee's agent.

Pursuant to authority duly delegated by the Board in the Board's regulations, 14 CFR 385.14, it is not found that the following resolution, incorporated in Agreement C.A.B. 23757 as indicated, is adverse to the public interest or in violation of the Act:

Agreement C.A.B.	IATA No.	Title	Application
23757: R-4	512b	Air Cargo Rates—Airport to Airport	1; 2; 3; 1 2; 2 3; 1 2 3

Accordingly, it is ordered That:

Agreement C.A.B. 23757, R-4 be and hereby is approved subject to conditions previously imposed by the Board.

Persons entitled to petition the Board for review of this order pursuant to the Board's regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

V 38-156 AUG 14 73 XUM

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[SEAL] PHYLLIS T. KAYLOR,
Acting Secretary.

[FR Doc.73-16826 Filed 8-13-73;8:45 am]

CIVIL RIGHTS COMMISSION

NEW YORK STATE ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the New York State Advisory Committee to this Commission will convene at 3:30 p.m. on August 14, 1973, at the Basement Workshop Inc., 22 Catherine Street, New York, New York 10007.

Persons wishing to attend this meeting should contact the Committee Chairman, or the Northeastern Regional Office of the Commission, 26 Federal Plaza, Room 1639, New York, New York 10007.

The purpose of this meeting shall be to discuss developments in the Asian American community and civil rights as part of the program of the New York State Advisory Committee's Asian American Subcommittee.

This meeting will be conducted pursuant to the rules and regulations of the Commission.

Dated at Washington, D.C., August 9, 1973.

ISAIAH T. CRESWELL, JR.,
Advisory Committee Management Officer.

[FR Doc.73-16941 Filed 8-13-73;8:45 am]

COMMISSION ON REVISION OF THE FEDERAL COURT APPELLATE SYSTEM

REALIGNMENT OF FEDERAL JUDICIAL CIRCUITS

Notice of Scheduled Hearings

AUGUST 8, 1973.

The Commission on Revision of the Federal Court Appellate System will hold an additional series of hearings in the following cities on the dates indicated:

Aug. 21—Houston, Texas, U.S. Courthouse
Aug. 22—New Orleans, Louisiana, U.S. Court of Appeals
Aug. 23—Jackson, Mississippi, U.S. Courthouse
Aug. 28—Seattle, Washington, U.S. Courthouse
Aug. 29—Portland, Oregon, Pioneer Courthouse
Aug. 30—San Francisco, Calif., U.S. Court of Appeals
Aug. 31—Los Angeles, Calif., U.S. Courthouse
Sept. 5—Jacksonville, Florida

The Commission is charged with making recommendations concerning redistricting the judicial circuits. In addition, the Commission is to study the internal procedures and structure of the Federal courts of appeal system, making such recommendations as are appropriate. Because the Commission's first report has a congressionally-mandated deadline of mid-December, priority will be given to testimony relevant to redistricting.

The hearings are open to the public and interested persons are invited to attend. Those wishing to present oral testimony should contact A. Leo Levin, Executive Director of the Commission, at 209 Court of Claims Building, 717 Madison Pl., N.W., Washington, D.C. 20005. Phone: (202) 382-2943. Written statements, in lieu of oral testimony, may also be filed with the Commission.

Additional hearings in other parts of the country are being planned. For further information, please contact the office of the Commission.

A. LEO LEVIN,
Executive Director.

[FR Doc.73-16809 Filed 8-13-73;8:45 am]

COUNCIL ON ENVIRONMENTAL QUALITY

ATLANTIC OUTER CONTINENTAL SHELF AND GULF OF ALASKA

Oil and Gas Development; Environmental Hearings

Public Hearings on the Environmental Impact of Potential Oil and Gas Development on the Atlantic Outer Continental Shelf and in the Gulf of Alaska. Hearing Schedule:

September 12–13, Washington, D.C.
September 18–19, Boston, Massachusetts
September 26–27, Anchorage, Alaska
October 3–4, New York Metropolitan Area
October 11–12, Philadelphia Metropolitan Area
October 16–17, Jacksonville, Florida

BACKGROUND

In his April 18, 1973, Energy Message to the Congress, the President asked "the Chairman of the Council on Environmental Quality to work with the Environmental Protection Agency, in consultation with the National Academy of Sciences and appropriate Federal agencies, to study the environmental impact of oil and gas production on the Atlantic Outer Continental Shelf and the Gulf of Alaska." Governors, legislators, and citizens of these areas were to be consulted in this process.

In response to this request the Council is undertaking a one year comprehensive study. The purpose of the study is to assess, against the background of future regional and national energy needs, the environmental impacts of potential oil and gas development in the Atlantic Outer Continental Shelf (OCS) and Gulf of Alaska. The study will assess all impacts of OCS development from production to refining and related development to determine any potential or actual damages to the marine and human environments.

ORGANIZATION

The study will be conducted in conjunction with the Environmental Protection Agency and with the help of other Federal agencies including the Departments of Commerce, Interior, and Transportation, the Federal Power Commission, and the Atomic Energy Commission. In addition, there will be a continuing dialogue with state and local governments and with the private sector. A final report will be prepared in April 1974.

The study will be coordinated through several interagency working groups, each treating a specific topic area. These topics are resource availability, technology and environmental controls, primary environmental effects, secondary environmental effects, energy supply and demand alternatives, economics, and institutional factors. The groups will contract with consultants and universities to provide expertise in specific areas.

To obtain input from citizens, public officials, and nongovernmental groups, the Council has established the following mechanisms:

Public Hearings to provide open forums for exchange of knowledge and opinions on issues relevant to OCS development.

A Governors' Advisory Committee composed of representatives of the Atlantic maritime states and Alaska to advise on matters of interest to those states.

Independent analysis by the National Academy of Sciences to advise on the organization of the study, to review its progress, and to critique the final report. The Academy's involvement will broaden the scientific and technological base of the report and provide a qualified nongovernmental review of its conclusions and recommendations.

THE HEARINGS

The Council wishes to solicit public input early enough to ensure that this information will play a vital part in the study. It is necessary to define the issues and to present the full spectrum of views in order to obtain a complete picture of public concern.

Therefore, regional public hearings will be held for those in areas near sites where oil and gas resources could be developed, and a national hearing will be held in Washington, DC to present a similar forum for groups with a national base.

PROCEDURES FOR REGIONAL HEARINGS

The regional hearings will be reserved solely for the testimony of groups and individuals within the particular area. Sites have been selected according to the ease of access from other points in the region and proximity to potential development areas. During the day, testimony will be heard from public officials and representatives of recognized regional and local groups. To permit full public participation there will be special evening sessions devoted primarily to testimony from private citizens.

Persons or groups wishing to testify at one of the regional hearings should so notify the Council in writing. For the national and Eastern regional hearings, letters should be addressed to Council on Environmental Quality, 722 Jackson Place, NW., Washington, DC 20006, Attn: OCS Hearings.

Letters for the Alaska hearing should be sent to OCS Hearings, P.O. Box 517, Anchorage, Alaska 99510. All letters must be received two weeks prior to the particular hearing. Witnesses will be notified of exact sites and times after receipt of their letters of intent to testify.

Because of the large number of witnesses expected, individuals may be asked to limit the length of their remarks. Organizations with several members may obtain permission to offer more than one spokesman at the hearing if they show that this arrangement will benefit the hearing panel by replacing many lengthy repetitive statements by individual members of the organization.

So that time limitations on oral testimony will not prevent a thorough review of all points, each witness is requested to submit, prior to the hearing date, a written copy of his testimony. All hearings will be open to the public and the press, and a complete record of the proceedings will be compiled and made available to the public.

PROCEDURES FOR NATIONAL HEARING

National groups and concerns will be able to express their views at the hearing in Washington, D.C. The same general procedures will apply to this hearing as to the regional hearings.

Letters indicating a desire to testify should be submitted to the Council on Environmental Quality as indicated above, and fifty copies of the testimony must be submitted prior to the hearings. As in the regional hearings, the national hearing will be open, and the hearing record will be made available to the public.

BACKGROUND OF TOPICS TO BE COVERED

The Outer Continental Shelf (OCS)—In general, continental shelves, which exist along the margins of oceans of the world, extend from the mean low waterline to the abrupt change in slope known as the continental slope. The average depth at which this change occurs is 432 feet.

The Atlantic OCS is a 2,400 mile long submerged platform, about 350,000 miles in area which widens from less than three miles off Southern Florida to about 285 miles off Newfoundland. In the Gulf of Alaska similar formations extend offshore over a considerable expanse into the waters of the Pacific.

The topics and issues which the Council would like to see fully developed by witnesses at the hearings are described below:

I. RESOURCE AVAILABILITY

Presently there is a lack of comprehensive knowledge about most areas of the Atlantic and Gulf of Alaska OCS. The Federal study teams will use geological, geophysical, and seismographic information to define areas where oil and gas resources may exist and will attempt to estimate potential reserves and production capacity. The study must rely upon the U.S. Geological Survey and individual consultants who have limited access to proprietary, petroleum industry data.

II. REGIONAL SUPPLY AND DEMAND ALTERNATIVES

Consideration of regional energy supply and demand involves the balancing of potential OCS oil and gas development against various combinations of possible energy alternatives. Such alternatives include energy conservation, increased oil imports and expanded use of coal, nuclear power, or other sources. The study will focus on the environmental impacts of various alternatives, as well those associated with OSC development.

III. PRIMARY ENVIRONMENTAL EFFECTS

The extent to which oil may affect the marine environment is a prime concern of the study. In routine operation, most oil rigs pump water, as well as oil, from the resource reservoir.

Separation of the two is imperfect, and the result is that some oil is usually discharged into the sea with waste water.

Oil spills may result from blowouts at the rig, pipeline ruptures, or tanker incidents. The study group will estimate the probability of spills under various conditions. The fate of oil spills, their direction of movement and their dissipation, is vital to assessing potential damage. The study group will use computer models (1) to investigate the fate of potential spills.

The study will develop an environmental inventory defining ocean ecosystems. It will then identify the effects on marine organisms of both rig and pipeline construction and those effects due to oil discharges and spills. The potential risks to fishing and recreation industries will be studied.

IV. TECHNOLOGY AND CONTROLS

It is essential to understand relevant technologies in order to assess the risks of spills or the amount of operational discharge associated with OCS exploration, production, transportation, and refining. The status of both current and evolving safety and pollution control equipment (blowout preventers, surface and subsurface chokes, pipeline flow-rate monitors, etc.) is under intensive review (2, 3).

As part of the study, an independent critique of recent technology reviews will be obtained. The study will also provide an analysis of the levels and costs of control and the effectiveness of equipment to protect against currents, weather, and waves.

V. POTENTIAL EFFECTS OF ONSHORE DEVELOPMENT

Oil and gas development on the OCS would stimulate onshore construction of refineries and petrochemical complexes and the growth of service industries. These new installations can provide new real income, jobs, population, and economic development for affected communities. On the other hand, they can lead to increased burdens on air, water, and land. The environmental effects will be analyzed and compared with impacts associated with alternative energy sources.

VI. OCS MANAGEMENT ISSUES

In some situations, there are questions of Federal versus state jurisdiction over OCS activities. When pipelines must cross state lands, questions of easement and regulation arise. It is important, therefore, that the study deal with the question of Federal-state relationships in controlling development of the OCS.

Even when there are no jurisdictional issues, OCS management is complex. Regulation, inspection, and enforcement of OCS development are under the authority of the U.S. Geological Survey, Federal Power Commission, Environmental Protection Agency, U.S. Coast Guard, and U.S. Army Corps of Engineers, depending upon the situation. The study will consider the adequacy of present regulations in all phases of offshore development.

FEDERAL COMMUNICATIONS COMMISSION

[FCC 73-851]

POLE ATTACHMENT PROCEEDING

Drafting of Jurisdiction Documents

AUGUST 3, 1973.

The Commission today instructed the staff to draft appropriate documents asserting jurisdiction over pole attachments and conduit agreements and arrangements for cable television usage; such jurisdiction to be exercised in those instances where adequate provisions in this respect have not been made by state or other local jurisdictions.[1] The Commission's intention is to offer the inter-

[1] Action by the Commission August 3, 1973. Commissioners Burch (Chairman), Johnson, Wiley and Hooks, with Commissioner Robert E. Lee dissenting; and issuing a statement which is filed as part of the original document.

V 38-156 AUG 14 73 XUM

ested parties adequate opportunity to reach mutual agreement with respect to such pole and conduit usage arrangements within a 90-day period from July 31, 1973. If mutually satisfactory agreements have not been reached, the Commission would propose to enter into formal rule making proceedings designed to implement fully all aspects of its jurisdiction. The Commission further expressed the view that all parties should maintain the status quo in effect on July 31, 1973, pending outcome of the negotiations, and noted that the General Telephone Company of California, Inc., had agreed voluntarily to forbear from implementing its proposed increases in pole attachment charges during the 90-day negotiating period.

This action was taken on Dockets 16928, 16943 and 17098.

FEDERAL MARITIME COMMISSION

AMERICAN MAIL LINE, LTD. AND REDERIAKTIEBOLAGET HELSINGBORG (AUSTRALIA-WEST PACIFIC LINE)

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street, N.W., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, and San Francisco, California. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before September 4, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Mr. W. R. Purnell
Assistant Vice President
American Mail Line Ltd.
601 California Street, Suite 610
San Francisco, California 94108

Agreement No. 10068, between the above named carriers, establishes a through billing arrangement for the transportation of cargo from ports in Oregon and Washington to ports in Australia, with transshipment at Hong Kong.

By order of the Federal Maritime Commission.

Dated: August 8, 1973.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.73-16827 Filed 8-13-73;8:45 am]

FEDERAL RESERVE SYSTEM

AMERICAN BANCSHARES, INC., NORTH MIAMI, FLA.

Order Approving Acquisition of Bank

American Bancshares, Inc., North Miami, Florida, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire at least 80 percent of the outstanding voting shares of University City Bank, Gainesville, Florida ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none have been received. The application has been considered in light of the factors set out in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant has seven existing subsidiaries with aggregate deposits of $166.3 million.[1] Acquisition of Bank, which has deposits of $12.2 million, will have little effect on state-wide concentration and on Applicant's share of deposits.

Bank is located in Alachua County, the relevant market, in north central Florida, and Gainesville is the county's largest city. Bank is the fifth largest of eleven banks in the market area, and its larger competitors are controlled by other bank holding companies. Applicant's nearest subsidiary is the National Bank of St. Petersburg, Florida, 159 miles to the southwest. Neither Applicant nor its subsidiaries now compete with Bank. The Applicant's chairman of the board and president is also chairman of the board of Bank, and three directors of Applicant are also directors of Bank. No existing competition would be eliminated by the acquisition as proposed, and it is not likely that the Applicant will obtain a dominant position in the market.

The banking needs of the community are being met by the organizations in the market. This acquisition will not result in any new services being provided by Bank, nor is it likely that Bank's lending capacity will be significantly changed, since Applicant's subsidiary banks have in the past accommodated Bank in loan participations. Convenience and needs factors are consistent with approval.

Considerations relating to the financial and managerial resources and future prospects of Applicant, its subsidiaries and Bank, in view of Applicant's commitments to reduce its debt and to furnish additional capital to Bank, are regarded as satisfactory and consistent with approval of the application. It is that the proposed transaction is in the this Federal Reserve Bank's judgment public interest and that the application should be approved.

On the basis of the record in this case, the application is approved for the reasons summarized above. However, the transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the date of this Order, unless such period is extended for good cause by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Federal Reserve Bank of Atlanta, acting pursuant to delegated authority for the Board of Governors of the Federal Reserve System, effective August 1, 1973.

[SEAL] MONROE KIMBREL,
President.

[FR Doc.73-16810 Filed 8-13-73;8:45 am]

AMERICAN BANCSHARES, INC. NORTH MIAMI, FLA.

Order Approving Acquisition of Bank

American Bancshares, Inc., North Miami, Florida, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire at least 90 percent of the outstanding voting shares of The Seminole Bank of Tampa, Florida ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none have been received. The application has been considered in light of the factors set out in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant has seven subsidiary banks with aggregate deposits of $166.3 million.[1] Acquisition of Bank, which has deposits of $36 million, will have only nominal effect on state-wide concentration and on Applicant's share of deposits.

Bank is the eighth largest of 26 banking organizations in Hillsborough County, Florida, the relevant banking market; Tampa is the county's major city, and Applicant is not represented in this market. Applicant's banking subsidiaries nearest to Bank are Second National Bank of Clearwater and the National Bank of St. Petersburg, located 26 and 30 miles, respectively, west of Bank; these banks do not compete in the market area. No competition would be eliminated by the acquisition proposed, and it is not likely that Applicant will acquire a dominant position in the market.

The banking needs of the community are being met by organizations in the market. Applicant does not propose changes in the operations or services of Bank, but affiliation with Applicant is expected to help Bank in recruiting new personnel. Convenience and needs factors are consistent with approval.

Considerations relating to the financial and managerial resources and future prospects of Applicant, its subsidiaries, and Bank, in view of Applicant's commitments to reduce its debt and furnish additional equity capital to other subsidiary banks, are regarded as satisfactory and consistent with approval. It is this Federal Reserve Bank's judgment that the proposed transaction is in the public interest and that the application should be approved.

On the basis of the record in this case, the application is approved for the reasons summarized above. However, the transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the date of this Order, unless such period is extended for good cause by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Federal Reserve Bank of Atlanta, acting pursuant to delegated authority for the Board of Governors of the Federal Reserve System, effective August 1, 1973.

[SEAL] MONROE KIMBREL,
President.

FIRST BANCSHARES OF FLA., INC.

Proposed Acquisition of Beacon Leasing Corp.

First Bancshares of Florida, Inc., Boca Raton, Florida, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire 90 per cent or more of the voting shares of Beacon Leasing Corporation, North Palm Beach, Florida. Notice of the application was published on May 2, 1973, in the Palm Beach Post, a newspaper circulated in West Palm Beach, Florida; and on June 2, 1973, in the Fort Lauderdale News, a newspaper circulated in Fort Lauderdale, Florida.

Applicant states that the proposed subsidiary would engage in the activities of leasing of personal property and equipment. Applicant states that such activities have been specified by the Board in § 225.4(a)(6) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b). A proposal to amend § 225.4(a)(6) of Regulation Y with respect to the leasing activities permissible for bank holding companies (Press Release dated July 31, 1973) is currently under consideration by the Board and, if adopted by the Board, might affect the activities that could be conducted by the proposed subsidiary.

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Atlanta.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than August 20, 1973.

Board of Governors of the Federal Reserve System, August 3, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

FIRST TEXAS BANCORP, INC.

Proposed Retention of First Texas Development Corp.

First Texas Bancorp, Inc., Georgetown, Texas, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to retain voting shares of First Texas Development Corporation, Georgetown, Texas. Notice of the application was published on June 28, 1973, in The Sun a newspaper circulated in Georgetown, Texas.

Applicant states that the proposed subsidiary engages in the activities of servicing real estate loans and loans for the financing of unlisted stock purchases. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

[1] Banking data are as of June 30, 1972, reflecting holding company formations and acquisitions approved by the Board through May 29, 1973.

FOREIGN-TRADE ZONES BOARD

[Docket No. 2-73]

KANSAS CITY, MO. AND KANSAS CITY, KANS.

Expansion of Foreign-Trade Zone, and Establishment of New Zone

Notice is hereby given that an application has been submitted to the Foreign-Trade Zones Board (Board) by the Greater Kansas City Foreign-Trade Zone, Inc., grantee of Foreign-Trade Zone No. 15, Kansas City, Missouri, requesting authority from the Board under its regulations (15 CFR Part 400) for the contiguous expansion of Site 2 of the zone located at 7800 East Birmingham Road, Kansas City, Missouri, and the establishment of a new zone site within the same Customs port of entry in Kansas City, Kansas. The applicant is a Missouri not-for-profit corporation licensed to do business in the State of Kansas and was recently authorized under Kansas law to apply for zones in that State. The application has been found to be in filing order and was filed with the Board on August 8, 1973.

Foreign-Trade Zone No. 15 presently consists of two sites in Kansas City, Missouri, both of which will become operational within 1973. Authority for the zone was granted by the Board on March 23, 1973 (Board Order No. 93, 38 FR 8622, April 4, 1973). A public hearing was held at the Federal Building in Kansas City, Missouri on September 14, 1972, pursuant to public notice (37 FR 15535, August 3, 1972). In the original zone application it was indicated that authority would be sought for a site in Kansas City, Kansas, as soon as enabling legislation was passed by the legislature of that state. Such legislation was recently enacted on April 3, 1973 (Kansas Senate Bill No. 403, amending KSA 1972 Suppl. 12-825h and 12-3406). The applicant is a non-profit corporation affiliated with the Chamber of Commerce of Greater Kansas City which was established for the purpose of making foreign-trade zone facilities available to businessmen in the area.

The application under consideration was submitted in two parts and has been consolidated. First, authority is requested to contiguously expand the area of Site 2, which presently covers 315,000 square feet of space within an underground warehouse facility, by some 2,500,000 square feet. The additional space is needed in anticipation of contracts with 8 firms who would utilize over 2,000,000 square feet of space and to accommodate additional firms during the next year. Activities expected to be carried on involve storage, processing, and assembly of foreign merchandise including liquor, hops, carpets, bicycles, electronics equipment, machine tools, fiber, paper products, and farm machinery.

Secondly, authority is requested to establish a new zone site at 6500 Inland Drive, Kansas City, Kansas. The facility would occupy some 405,000 square feet of space within an existing underground warehouse facility, which is owned and operated by Inland Center, a division of Beatrice Foods Company. An operational agreement similar to the one in existence for Sites 1 and 2 would be entered into between the zone operator and the applicant, as grantee, to insure that the zone is operated so as to satisfy the public utility requirements of the Foreign-Trade Zones Act (19 USC 81). Some 300,000 square feet of the requested area is planned for immediate use by some 10 firms, with space available for anticipated increased zone needs during the next year. The facility will be used for storage, processing, and assembly of foreign merchandise including liquor, canned goods, meat, food products, sporting goods, footwear, home furnishings, garden equipment and electronic equipment.

In accordance with the Board's regulations an Examiners Committee has been appointed to conduct an investigation of the proposal and report its findings to the Board. The Committee is composed of: John J. Da Ponte, Jr. (Chairman), Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, Washington, D.C. 20230; Donald E. Grimwood, Director, Inspection and Control Division, Office of the Regional Commissioner of Customs, 300 South Wacker Drive, Chicago, Illinois 60606; and Col. W. R. Needham, District Engineer, U.S. Army Engineer District Kansas City, Kansas City, Missouri 64106.

A copy of the application and accompanying exhibits will be available for public inspection, together with the original zone application and hearing transcript, during regular business hours for 30 calendar days from the appearance of this notice in the Federal Register at the following locations:

Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, Room 2203, 14th and Constitution Ave., NW Washington, D.C. 20230.

Office of the District Engineer, U.S. Army Engineer District Kansas City, Room 725, Federal Building, 601 East 12th Street, Kansas City, Missouri 64106.

Notice is hereby given that in connection with its investigation of the application the Examiners Committee invites interested persons and organizations to submit their written views regarding the proposal. They should be addressed to the Committee chairman and be postmarked by September 13, 1973.

Dated: August 8, 1973.

JOHN J. DAPONTE, Jr.,
Executive Secretary,
Foreign-Trade Zones Board.

NATIONAL ENDOWMENT FOR THE HUMANITIES

NATIONAL COUNCIL ON THE HUMANITIES ADVISORY COMMITTEE

Notice of Meeting

AUGUST 6, 1973.

Pursuant to Public Law 92-463, The Federal Advisory Committee Act, notice is hereby given that a meeting of the National Council on the Humanities will take place in Washington, D.C., on August 16 and 17, 1973.

The meeting will be held in the Washington Room, Washington Hotel, 15th Street at Pennsylvania Avenue, NW, Washington, D.C. The morning session will convene at 9:30 a.m., on Thursday, August 16, and will be open to the public. The agenda for the open session will be as follows:

I. Minutes of previous meeting
II. Reports
- Introduction and summary of recent business
- Appropriation and reauthorization legislation
- Gifts and matching funds
- Application report for FY '73
- Report on Chairman's grants
- Continued business
  - Support of two-year colleges
  - Recruitment of staff with minority background
- Selected project evaluations
- Science, Technology, and Human Values Program

The purpose of the meeting is to advise the Chairman of the National Endowment for the Humanities with respect to policies, programs and procedures for carrying out his functions, and to review applications for financial support and gifts offered to the Endowment and to make recommendations thereon to the Chairman.

Based on section b. (3), (4), and (6) of 5 U.S.C. 552, the session on Friday, August 17, will not be open to public participation. It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Mr. John W. Jordan 805 15th Street, NW, Washington, D.C. 20506, or call Area Code 202-382-2031.

JOHN W. JORDAN,
Advisory Committee Management Officer.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COTTON, WOOL AND MAN-MADE FIBER TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THE REPUBLIC OF KOREA

Entry or Withdrawal from Warehouse for Consumption

AUGUST 8, 1973.

On May 25, 1972, there was published in the FEDERAL REGISTER (37 FR 10605) a letter dated May 19, 1972, from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs, prohibiting entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool, and man-made fiber textile products produced or manufactured in the Republic of Korea and exported from the Republic of Korea thirty (30) days following publication for which the Republic of Korea had not issued a visa.

The Government of the Republic of Korea has requested, and the United States Government has acceded to the request, that a new visa be recognized as valid for textile shipments exported from the Republic of Korea to the United States on and after August 1, 1973. The visa will appear on the front side of the invoice (Special Customs Invoice Form 5515 or other successor document, or commercial invoice when used). Mr. Jae Euk Chae, Chief, Quota Management Division, Ministry of Commerce and Industry, Republic of Korea Government, is the only official authorized to issue visas on and after August 1, 1973. Shipments of cotton, wool and/or man-made fiber textile products exported from the

V 38-156 AUG 14 73 XUM

Republic of Korea and covered by visas issued before August 1, 1973, in accordance with previous requirements, will not be denied entry.

Accordingly, there is published below a letter of August 8, 1973, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs further amending the directive of May 19, 1972, effective as soon as possible, to implement the aforementioned new requirements. A facsimile of the visa with the signature of Mr. Jae Euk Chae is published as an enclosure to that letter.

ALAN POLANSKY,
Acting Chairman, Committee for the Implementation of Textile Agreements, and Acting Deputy Assistance Secretary for Resources and Trade Assistance.

Jae Euk Chae
JAE EUK CHAE
CHIEF, QUOTA MANAGEMENT DIVISION
REPUBLIC OF KOREA

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Commissioner of Customs
Department of the Treasury
Washington, D.C. 20229

Dear Mr. Commissioner:

August 8, 1973.

This letter further amends, but does not cancel, the directive of May 19, 1972 from the Chairman, Committee for the Implementation of Textile Agreements, that directed you to prohibit, effective 30 days after publication of notice in the Federal Register, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 1–64; wool textile products in Categories 101–126, 128, and 131–132; and man-made fiber textile products in Categories 200–243; produced or manufactured in the Republic of Korea for which the Republic of Korea had not issued a visa. The directive of May 19, 1972 was previously amended on December 21, 1972, July 17, 1973, and July 18, 1973.

Under the provisions of the Cotton Textile Agreement of December 30, 1971 and the Wool and Man-Made Fiber Textile Agreement of January 4, 1972, as amended, between the Governments of the United States and the Republic of Korea, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, the directive of May 19, 1972 is further amended, effective as soon as possible, to authorize the use of a new visa for cotton, wool and man-made fiber textile shipments in the aforementioned categories exported from the Republic of Korea to the United States on and after August 1, 1973. The visa should appear on the front side of the invoice (Special Customs Invoice Form 5515 or other successor document, or commercial invoice when used). Mr. Jae Euk Chae, Chief, Quota Management Division, Ministry of Commerce and Industry, Republic of Korea Government, is the only official designated to issue visas on and after August 1, 1973. Shipments of cotton, wool and/or man-made fiber textile products exported from the Republic of Korea and covered by visas issued before August 1, 1973, in accordance with previous directives, shall not be denied entry. A facsimile of the new visa with the signature of Mr. Jae Euk Chae is enclosed.

The actions taken with respect to the Government of the Republic of Korea and with respect to imports of cotton, wool, and man-made fiber textiles and textile products from the Republic of Korea have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

ALAN POLANSKY,
Acting Chairman, Committee for the Implementation of Textile Agreements, and Acting Deputy Assistance Secretary for Resources and Trade Assistance.

Enclosure

[FR Doc.73–17039 Filed 8–13–73;11:34 am]

COTTON, WOOL, AND MAN-MADE FIBER TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN MACAO

Entry or Withdrawal From Warehouse for Consumption

AUGUST 6, 1973.

Under the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreements of December 22, 1972, between the Governments of the United States and Portugal, the Government of Portugal has undertaken to limit exports of cotton, wool and man-made fiber textile products from Macao to the United States to certain designated levels. Pursuant to these agreements an administrative mechanism has been established which is intended to preclude circumvention of the licensing system for exports to the United States from Macao. The purpose of this notice is to announce the implementation of this administrative mechanism.

Effective September 13, 1973, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool, and man-made fiber textile products produced or manufactured in Macao and exported to the United States from Macao for which Macao has not issued an appropriate export Visa, fully described below, will be prohibited. Application of this Visa system to cotton, wool and man-made fiber textile products exported from Macao before August 14, 1973, is to become effective October 15, 1973. The Visa will be a stamped marking on the invoice (Special Customs Invoice Form 5515, or other successor document, or commercial invoice when such form is used), and will bear the signature of the official issuing the Visa. The four officials authorized to issue such Visas are the following: Dr. José Correia Montenegro, Dr. Lourenço Maria da Conceição, Dr. Joaquim Leonel Ferreira Marinho de Bastos, and Mr. José Silveira Machado. A facsimile of the stamp, along with the signatures of the above officials, are published as enclosures to the letter set forth below.

Interested parties are advised to take all necessary steps to assure that cotton, wool, and man-made fiber textile products produced or manufactured in Macao which are to be entered into the United States for consumption or withdrawn from warehouse for consumption will meet the stated visa requirements.

There is published below a letter of August 6, 1973, from the Chairman of the Committee for the Implementation of Textile Agreements, to the Commissioner of Customs implementing the administrative mechanism.

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

Read Carefully Instructions for Preparation of Invoice
(THIS FORM DOES NOT REQUIRE CERTIFICATION BY A UNITED STATES CONSULAR OFFICER)

SPECIAL CUSTOMS INVOICE
BUREAU OF CUSTOMS
(Original only required for customs purposes)

I. THIS SECTION TO BE FILLED IN FOR EVERY SHIPMENT
1. How were goods obtained by importer? By purchase or agreement to purchase ☐ By [illegible] other than a purchase ☐
DO NOT INCLUDE PURCHASE AND NONPURCHASE GOODS ON SAME INVOICE. USE SEPARATE INVOICE FOR EACH.
2. Place (city and country) and date obtained by importer | 3. Name of [illegible] officer | 4. Date of shipment | No.

II. TO BE FILLED IN IF GOODS WERE PURCHASED OR AGREED TO BE PURCHASED
1. Name and address of seller
2. Name and address of purchaser
3. Date order accepted

III. TO BE FILLED IN IF [illegible]
Name and address of person from whom goods were obtained
3. Name and address of person for whose account goods are shipped

IV. THIS SECTION TO BE FILLED IN FOR EVERY SHIPMENT

(1) Marks and Numbers on Shipping Packages	(2) Number of Packages; Kind of Packages; Description of Goods	(3) Quantity and Full Description of Goods (State contents of each package and imperial quantities or symbols, if any)	(4) Unit Price or Value	(5) Invoice Totals and Show Separately Packing Costs; All Other Costs, Charges, and Expenses	(6) Current Unit Price for Home Consumption in Home Currency	(7) Current Unit Price for Export to United States
			(Signature)		(Title)	

(8) Country of origin | (9) If rate of exchange is fixed or agreed, give rate | (10) If discount is freely offered, give terms, amount, and whether trade or cash

V. THIS SECTION TO BE FILLED IN FOR EVERY SHIPMENT
1. IF GOODS WERE PURCHASED, have you stated in section IV, column 4, the purchase price of each item in the currency in which the goods were bought? ☐ Yes ☐ No.
2. IF THE GOODS WERE NOT PURCHASED, have you stated in section IV, column 4, the price that you would have received or would be willing to receive now if the goods were sold in the ordinary course of trade for exportation to the United States? ☐ Yes ☐ No.
3. What currency was used in this invoice transaction? _____
4. Whether the goods were purchased or obtained by the United States importer in some other manner, have you stated in section IV, column 6:
(A) (1) The price at which you are now selling the goods or offering them for sale for home consumption, including all applicable taxes? ☐ Yes ☐ No.
(2) Is this price freely offered to anyone who wishes to buy the goods for home consumption? ☐ Yes ☐ No.
(B) (1) Have you stated in section IV, column 7, the price at which you are now selling the goods or offering them for sale for export to the United States and whether this price is f.o.b., c.i.f., c.&f. or whatever the fact may be? ☐ Yes ☐ No.
(2) Is this price freely offered to anyone who wishes to buy the goods for export to the United States? ☐ Yes ☐ No.
5. Have you listed all charges and stated whether each amount has been included in or excluded from the invoice amount? ☐ Yes ☐ No. Is the inland freight included in the invoice price or value? ☐ Yes ☐ No. Is the price or value of the goods the same at the factory as at the point of delivery? ☐ Yes ☐ No. If the answer is No, have any sales been made at an ex-factory price? ☐ Yes ☐ No.
6. Are any rebates, drawbacks, bounties, or other grants allowed upon the exportation of the goods? ☐ Yes ☐ No. If so, have all been separately itemized? ☐ Yes ☐ No.
7. If such or similar goods are being sold or offered for sale in the home market for home consumption, what taxes are applicable and are they included in the price shown in section IV, column 6?
Rate _____ Kind _____

CUSTOMS FORM 5515

MINISTRY OF ECONOMY DEPARTMENT OF MACAU
TEXTILE EXPORT VISA
No.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Commissioner of Customs
Department of the Treasury
Washington, D.C. 20229

AUGUST 6, 1973.

Dear Mr. Commissioner:

Under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, pursuant to paragraph 12 of the Bilateral Cotton Textile Agreement of December 22, 1972; and under the provisions of paragraph 10(a) of the Bilateral Wool and Man-Made Fiber Textile Agreement of December 22, 1972; between the Governments of the United States and Portugal, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective September 13, 1973, and until further notice, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Categories 1–64; wool textile products in Categories 101–126, 128, 131 and 132; [1] and man-made fiber textile products in Categories 200–243, produced or manufactured in Macao, for which Macao has not issued an appropriate Visa, fully described below, provided, however, that the aforestated cotton, wool, and man-made fiber textile products produced or manufactured in Macao and exported therefrom prior to August 14, 1973, shall not be denied entry until October 15, 1973.

The Visa will be a stamped marking on the invoice (Special Customs Invoice Form 5515, or other successor document, or commercial invoice when such form is used), and will bear the authorized signature of the official issuing the Visa. A facsimile of the stamp, along with the signatures of those officials authorized to issue Visas, are enclosed.

You are further directed to allow entry into the United States for consumption and withdrawal from warehouse for consumption of designated shipments of cotton, wool and man-made fiber textile products produced or manufactured in Macao and exported to the United States from Macao, notwithstanding the designated shipment or shipments do not meet the aforementioned Visa requirements, whenever requested to do so in writing by the Chairman of the Committee for the Implementation of Textile Agreements.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on April 29, 1972 (37 FR 8802), as amended on February 14, 1973 (38 FR 4436).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of Portugal and with respect to imports of cotton, wool, and man-made fiber textile products from Macao have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance

Would you like to know WHAT CHANGES HAVE BEEN MADE IN CERTAIN TITLES OF THE CODE OF FEDERAL REGULATIONS without reading the Federal Register every day? If so, you may wish to subscribe to the "List of CFR Sections Affected."

List of CFR Sections Affected — $5.00 per year

The "List of CFR Sections Affected" is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register, and is issued monthly in cumulative form. Entries indicate the nature of the changes.

Also available on a subscription basis . . .

The Federal Register Subject Index — $3.00 per year

Subject Indexes covering the contents of the daily Federal Register are issued monthly, quarterly, and annually. Entries are carried primarily under the names of the issuing agencies, with the most significant subjects additionally carried in appropriate alphabetical position.

A finding aid is included at the end of each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Order from: Superintendent of Documents
U.S. Government Printing Office
Washington, D.C. 20402

Note to FR Subscribers: FR Subject Indexes and the "List of CFR Sections Affected" will continue to be mailed free of charge to regular FR subscribers.

Pages 21967–22108

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

PHASE IV—
CLC rules concerning insurance and health services ... 21978
CLC combines price procedure rules into one part 21972
CLC rules concerning public access to records 21981

PUBLIC ASSISTANCE—
HEW regulations on fair hearings, eligibility determination and incorrect payment 22005
HEW proposal on probable fraud cases; comments by 9–14–73 22042

GAS LEAKAGE—Office of Pipeline Safety proposes odorization of gas in certain transmission lines 22044

LICENSING INVENTIONS—Interior Department proposes amendments concerning government-owned patents; comments by 10–15–73 22036

MEAT INSPECTION ESTABLISHMENTS—USDA proposes to prohibit tenants and subsidiaries without separate grant; comments by 10–19–73 22041

CONTRACT MARKETS—USDA establishes requirement for filing information; effective 10–1–73 22031

FOOD ADDITIVES—
FDA addition to food starch-modified list 21997
FDA proposal to specify sequence in etherification treatment; comments by 10–15–73 22041

NEW ANIMAL DRUGS—FDA approves use of opthalmic solution for treatment of dogs; effective 8–15–73 21997

MIGRATORY BIRDS—Interior Department adopts rules allowing shooting from power craft and use of livestock as concealment; effective 8–15–73 22015

CITIZENS RADIO SERVICE—FCC proposes amendment to antenna height restrictions on class C or D stations ... 22046

MEETINGS—
CIVIL RIGHTS COMMISSION: State meetings (4 documents), 8–15 through 8–22–73 22093
AEC: Advisory Committee on Reactor Safeguards Working Groups on Peaking Factors, 8–29–73 22092

V 38 - 157 AUG 15 73 XUM

REMINDERS

Rules Going Into Effect Today

This list includes only rules that were published in the FEDERAL REGISTER after October 1, 1972.

page no. and date

DoT—Motor Vehicle Safety Standard No. 208, injury protect on criteria for seat belts 22871; 10–26–72

FAA—Designation of Federal airways, area low routes, controlled airspace, and reporting points 18870; 7–16–73

GSA—Redetermination of construction contract prices 17441; 7–2–73

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION—Seat belt interlock requirements; performance and convenience 16072; 6–20–73

Next Week's Hearings

COAST GUARD—Fixed highway bridge carrying Crystal Lake Road, Route 593, across Torch River, to be held in Alden, Mich 19445; 7–20–73

Next Week's Deadlines for Comments on Proposed Rules

AUGUST 19

FAA—Designation of Federal airways, area low routes, controlled airspace, and reporting points 19413–19415; 7–20–73

AUGUST 20

CAB—Foreign air carriers; policy statement on oral confirmed reservations. 19415; 7–20–73

EPA—Proposed tolerances for streptomycin 19416; 7–20–73

FAA—Designation of Federal airways, area low routes, controlled airspace, and reporting points 16239; 6–21–73; 19235–19236; 7–19–73

FCC—Domestic telegraph speed of service studies 18908; 7–16–73

—FM broadcast stations in Fort Walton Beach, Fla ... 18688; 7–13–73

—FM broadcast stations in Grasonville, Leonardtown, and Lexington Park, Md 18689; 7–13–73

FDA—Feminine deodorant sprays; labeling warnings 16236; 6–21–73

FEDERAL HOME LOAN BANK—Private mortgage insurance for 90–95 percent loans 19417; 7–20–73

HUMAN DEVELOPMENT OFFICE—Juvenile delinquency prevention programs and activities 19406; 7–20–73

ICC—Practices of motor common carriers of household goods; waiver of order for service 18253; 7–9–73

LAND MANAGEMENT BUREAU—National Advisory Board Council; function, duties, and memberships. 19914; 7–25–73

SOCIAL SECURITY ADMINISTRATION—Payment for services of physicians in teaching hospitals, for physician costs to hospitals and medical schools, and for volunteer services 19230; 7–19–73

AUGUST 21

CAB—Dismissal of an application following denial of motion for expedited hearing or for order to show cause. 20266; 7–27–73

COAST GUARD—Sacramento River, Old River, Georgiana Slough and Steamboat Slough, Calif.; drawbridge operation regulations 19412; 7–20–73

EPA—Advertised supply contracts; procurement forms .. 16392; 6–22–73

FAA—Radio equipment for overwater operations 17019; 6–28–73

FOOD AND DRUG ADMINISTRATION—Optional use of margarine as a seasoning ingredient 16909; 6–27–73

AUGUST 22

EPA—Parathion or its methyl homolog; tolerances 19699; 7–23–73

LAND MANAGEMENT BUREAU—Geothermal resources; leasing on public, acquired and withdrawn lands; revision 19748; 7–23–73

—Geothermal resources operations on public, acquired and withdrawn lands and geothermal resources unit plan regulations including suggested forms .. 19765; 7–23–73

FPC—Reliability of electric and gas service; updating nationwide investigation 21182; 8–6–73

SEC—Issuers of registration statements; summary requirement 20903; 8–3–73

AUGUST 23

EPA—Proposed exemption of certain inert ingredients in pesticide formulations from the tolerance requirements.

—Pesticide establishment registration and labeling and reporting. 19840; 19841; 7–24–73

AUGUST 24

AMS—Fresh Bartlett pears grown in Oregon and Washington; expenses and fixing of rate of assessment for 1973–74 fiscal period 21499; 8–9–73

EPA—Transportation and/or land use control strategies ... 20851; 8–3–73

FEDERAL HOME LOAN BANK BOARD—Federal Savings and Loan system; give-away prohibitions 21435; 8–8–73

FRS—Bank holding companies conducting nonbanking activities ... 21436; 8–8–73

Weekly List of Public Laws

This is a listing of public bills enacted by Congress and approved by the President, together with the law number, the date of approval, and the U.S. Statutes citation. Subsequent lists will appear every Wednesday in the FEDERAL REGISTER, and copies of the laws may be obtained from the U.S. Government Printing Office.

H.R. 8152 ..... Pub. Law 93–83
Crime Control Act of 1973 (Aug. 6, 1973; 87 Stat. 197)

S. 1090 ..... Pub. Law 93–84
Corporation for Public Broadcasting, appropriation authorization (Aug. 6, 1973; 87 Stat. 219)

S. 1888 ..... Pub. Law 93–86
Agriculture and Consumer Protection Act of 1973
(Aug. 10, 1973; 87 Stat. 221)

S. J. Res. 144 ..... Pub. Law 93–85
Housing and urban development, insurance of loans and mortgages, temporary extension (Aug. 10, 1973; 87 Stat. 220)

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Contents

AGRICULTURAL MARKETING SERVICE

Rules and Regulations
Handling of Irish potatoes grown in Colorado Area No. 3 21995

Proposed Rules
Hops of domestic production; expenses of the Hop Administrative Committee and rate of assessment for 1973–74 marketing year 22040

AGRICULTURE DEPARTMENT

University of California L.A. ... 22053
University of Illinois 22053
University of Washington 22053
University of Wisconsin 22054
V.A. Hospital Durham 22052

ENVIRONMENTAL PROTECTION AGENCY

Rules and Regulations
Requirements for preparation, adoption, and submittal of implementation plans; extension .. 22025

Proposed Rules
Approval and promulgation of state implementation plans; opportunity for public comment on transportation and land use control strategies for Ohio 22045

Notices
State of Connecticut; request for state program approval for control of discharges of pollutants to navigable waters 22058

FEDERAL AVIATION ADMINISTRATION

Rules and Regulations
Designation of transition area; correction 22030

Proposed Rules
Airworthiness directive; Mooney model M20 series 22042
Terminal Control Area 22043

FEDERAL COMMUNICATIONS COMMISSION

Rules and Regulations
FM Broadcast stations; report and order to show cause (3 documents) 22010, 22012
Land mobile frequencies aboard aircraft 22013

Proposed Rules
Citizens Radio Service; antenna height restrictions 22046

Notices
American Telephone and Telegraph Co.; order regarding oral argument before commission en banc 22058

FEDERAL CROP INSURANCE CORPORATION

Rules and Regulations
Arizona desert citrus; regulations for the 1967 and succeeding crop years 21994

FEDERAL DISASTER ASSISTANCE ADMINISTRATION

Notices
John F. Sullivan; appointment as Federal Coordinating Officer ... 22055

FEDERAL HOME LOAN BANK BOARD

Proposed Rules
Federal savings and loan system; loans on second or vacation homes 22047

FEDERAL INSURANCE ADMINISTRATION

Rules and Regulations
Areas eligible for the sale of insurance; status of participating communities 21998
Identification of special hazard areas; list of communities 21999

FEDERAL MARITIME COMMISSION

Notices
Port of Portland and Cook Industries Inc.; notice of agreement filed 22062

FEDERAL POWER COMMISSION

Notices
Hearings, etc. (42 documents) ... 22062–22077

FEDERAL RAILROAD ADMINISTRATION

Proposed Rules
Railroad Operating Practices; extension of time for comments and new date for public hearing 22043

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 6—Economic Stabilization
CHAPTER I—COST OF LIVING COUNCIL
PART 102—PUBLIC ACCESS TO RECORDS

Miscellaneous Amendments

The purpose of this revision of Part 102 of Title 6 of the Code of Federal Regulations is to set out the regulations of the Cost of Living Council governing access to records during Phase IV.

These regulations are basically a continuation of the regulations in effect during Phase III. There are two major changes. First, this part now contains, in Subpart G, regulations governing inspection of Internal Revenue Economic Stabilization records. Subpart G sets out unchanged the provisions which were adopted during Phase II and set out in Chapter IV, Part 4, Subpart K.

The second major change is the adoption of regulations defining which parts of Form CLC–22 are subject to disclosure under § 205 of the Economic Stabilization Act of 1970, as amended.

Section 6 of the Economic Stabilization Act Amendments of 1973 (Public Law 93–28), enacted on April 30, 1973, required firms which met certain criteria to make public parts of their quarterly reports to the Cost of Living Council. Although section 6 required businesses, and not the Council, to disclose the reports, the Freedom of Information Act, 5 U.S.C. 552, in turn required the Council to make these reports public. Section 6 also directed the President or his delegate to issue regulations specifying what parts of those reports did not need to be made public.

In accordance with this last requirement, the Council issued proposed regulations on May 11, 1973 (38 FR 12413), held public hearings on June 6, 1973, and issued final regulations on June 20, 1973 (38 FR 16023), which appear as Subpart F of Part 102 of Title 6 of the Code of Federal Regulations.

On July 18, 1973, the President directed the Council in Executive Order 11730 to publish proposed plans for Phase IV. On July 19, 1973 the Council issued in proposed form some of the regulations for Phase IV, on which it invited public comment. These regulations were published in final form on August 7, 1973. The Council today is publishing public disclosure regulations for Phase IV, in accordance with the requirements imposed on the Council by section 6 of the Economic Stabilization Act Amendments of 1973.

Section 6 amended section 205 of the Economic Stabilization Act of 1970, which as amended reads:

Section 205 *Confidentiality of information.*

"(a) Except as provided in subsection (b), all information reported to or otherwise obtained by any person exercising authority under this title which contains or relates to a trade secret or other matter referred to in section 1905 of title 18, United States Code, shall be considered confidential for the purposes of that section, except that such information may be disclosed to other persons empowered to carry out this title solely for the purpose of carrying out this title or when relevant in any proceeding under this title.

(b) (1) Any business enterprise subject to the reporting requirements under § 130.21(b) of the regulations of the Cost of Living Council in effect on January 11, 1973, shall make public any report (except for matter excluded in accordance with paragraph (2)) so required which covers a period during which that business enterprise charges a price for a substantial product which exceeds by more than 1.5 per centum the price lawfully in effect for such product on January 10, 1973, or on the date twelve months preceding the end of such period, whichever is later. As used in this subsection, the term 'substantial product' means any single product or service which accounted for 5 per centum or more of the gross sales or revenues of a business enterprise in its most recent full fiscal year.

(2) A business enterprise may exclude from any report made public pursuant to paragraph 1 any information or data reported to the Cost of Living Council, proprietary in nature, which concerns or relates to the amount or sources of its income, profits, losses, costs, or expenditures but may not exclude from such report, data, or information, so reported, which concerns or relates to its prices for goods and services.

(3) Immediately upon enactment of this subsection the President or his delegate shall issue regulations defining for the purpose of this subsection what information or data are proprietary in nature and therefore excludable under paragraph (2), except that such regulations may not define as excludable any information or data which cannot currently be excluded from public annual reports to the Securities and Exchange Commission pursuant to section 13 or 15(d) of the Securities Exchange Act of 1934 by a business enterprise exclusively engaged in the manufacture or sale of a substantial product as defined in paragraph (1). Such regulations shall define as excludable any information or data which concerns or relates to the trade secrets, processes, operations, style of work, or apparatus of the business enterprise."

The application of section 215(b) is limited by its terms to any report required "under § 130.21(b) of the regulations of the Cost of Living Council in effect on January 11, 1973." Section 130.21(b) of the Council's regulations, to which section 205(b) of the Act refers, has been superseded for most sectors of the economy effective August 12, 1973, when Phase IV begins. The issue, therefore, is whether the amendment to section 205, which specifically incorporates a Phase III regulation, has any effect when Phase III is superseded by Phase IV.

In Phase III, firms over $250 million had to file quarterly reports, while in Phase IV firms over $50 million must file. Consequently, a subsidiary issue is whether or not section 205, assuming it remains in effect in Phase IV, applies only to firms over $250 million, or to all firms subject to the Council's Phase IV reporting requirements, i.e., all firms over $50 million in annual sales or revenues.

The reporting requirements of Phase III defined a price reporting firm as a firm with annual sales or revenues of $250 million or more, and § 130.21(b) required each price reporting firm to submit quarterly reports to the Council.

Phase IV regulations contain provisions which are analogous in their function of requiring quarterly reports, but which are far broader in their coverage. Sections 150.41 and 150.42 define Price Category I and II firms as, respectively, those firms with $100 million or more and with $50 to $100 million in annual sales or revenues. Section 150.161 requires Price Category I and II firms, with certain exceptions, to submit quarterly reports. So Phase IV's quarterly reporting requirements are far more extensive than those of Phase III. Phase III required fewer than 700 firms to report quarterly, while Phase IV will demand quarterly reports of more than four times that number.

Since section 205 is tied so specifically to a section of the Phase III regulations, and since that section is due to terminate on August 12, 1973, the strictest reading of the Act would leave section 205(b) without effect after August 11, 1973.

It is a general rule of statutory interpretation that one looks to Congressional intention only when the words of a statute are unclear. But the Council is required in Phase IV to go behind the wording of the amendments in order to determine the extent to which the amendments modify the application of 18 U.S.C. 1905, which makes disclosure of certain information by Federal Officers a criminal offense, and which, absent the applicability of section 205, requires that the Council keep the quarterly reports confidential.

The legislative history does not speak directly to the question of whether section 205(b) was intended to survive the passing of Phase III. The discussions dealt with problems which were specific to Phase III, and it was in these terms that the amendment's sponsors presented the need for the amendments.

The report of the Senate Committee on Banking, Housing and Urban Affairs on the amendments (Report No. 93–63) stated that:

"Phase III already places the burden of combating inflationary price increases on the public. By removing from the Federal Government the initiative for enforcing price controls, and by declaring that such controls as remain be self-administered by the companies, • • • Phase III in effect determines that no action will be taken on excessive price increases unless there is a public outcry of some magnitude • • •.

Public disclosure . . . should provide some counterweight to the power the self-administering aspects of Phase III give the large companies."

Senator Hathaway, who authored the amendment, said that "a disclosure provision of the sort proposed here is essential to maintain public confidence in the administration's anti-inflationary program, especially in view of the voluntary nature of the controls under Phase III" (119 Daily Cong. Rec. S 5118).

Not only was the need for public disclosure described as stemming particularly from Phase III's voluntary nature, but the remedy went into effect when a firm exceeded a standard related to the Phase III standard—the alternative price standard of a 1.5 percent weighted annual average price increase set out in § 130.13. The Senate Committee on Banking, Housing and Urban Affairs report, referred to above, stated that:

"The figure of 1.5 percent comes from the general standard for price adjustments set out in § 130.13 of the Cost of Living Council regulations • • •.

• • • • •

The purpose of this amendment is to give the public a means of fighting price increases which exceed Phase III guidelines."

The standard set out in the Act is not the same as that found in § 130.13 of the Council regulations, in that section 205(b)(1) of the amended Act speaks of a price "which exceeds by more than 1.5 per centum the price lawfully in effect . . . on January 10, 1973 . . .," while § 130.13 of the Council regulations speaks of "a weighted annual average of 1.5 percent over prices authorized or lawfully in effect on January 10, 1973 . . .". Thus a firm could trigger section 205(b)(2) without violating the Phase III guideline. There were several other differences, but this was the most apparent.

It appears from the debates, however, that the Senators thought the amendment's 1.5 percent trigger and the Council's Phase III guidelines were the same. Senator Hathaway explained the amendment, which he sponsored, as requiring:

"public disclosure . . . by certain very large companies [when] • • • such a company raises the price of a substantial product by more than 1.5 percent a year—the phase III guidelines on price increases" (119 Daily Cong. Rec. S 5118).

Senator Hathaway consistently explained his amendment in terms of the "1.5 percent guidelines" or the "phase III guidelines."

My amendment, without interfering with the looser and self-administering aspects of phase III, just gives these companies the impetus to keep price increases in line with phase III guidelines • • • " (119 Daily Cong. Rec. S 5119).

The amendment was also tied to the specific coverage of the Council's reporting requirements—to firms with $250 million or more in annual sales or revenues. This number was cited so repeatedly that the very clear inference is that the Congress was thinking of disclosure by firms of that size or larger, rather than of requiring disclosure by any firm from which the Council might eventually require quarterly reports. Senator Hathaway said that:

"The impact of public disclosure requirement falls only in areas of great significance to the economy. The restriction to substantial products of firms with $250 [million] or more in sales or revenues means that in the case of the smallest reporting company, sales of a single product up to $12.5 million are exempt from disclosure • • •" (119 Daily Cong. Rec. S 5119).

As to the effect of a change in what the Council might require, the Senators recognized that the amendment was tied to a report of uncertain and changing content. Early in the debates Senator Hathaway put a copy of the proposed Council Form CLC–2, in the Record, and asserted that the form was currently in use (119 Daily Cong. Rec. S 5120–5121), but this misapprehension was cleared up later that day when Senator Saxbe, speaking in opposition to the public disclosure provision, said that:

The amendment requires that information filed under § 130.21B of the regulations of the Cost of Living Council in effect January 11, 1973 shall be made public. This is an interesting requirement in that the final determination as to what cost information shall be filed and in what detail is not in existence. The Cost of Living Council is still working on the problem as to what information should be filed.(119 Daily Cong. Rec. S 5123).

The Council concludes from the legislative history that the Congress intended the public disclosure provision to apply to firms of $250 million or more, and that the disclosure provisions apply to the CLC–2's successors, and do not restrict the Council's freedom to determine what information shall be required in its quarterly reports.

The record is simply not conclusive either way in resolving the central issue of whether or not section 205(b), which incorporates a Phase III regulation, survives Phase III and has continued applicability in Phase IV.

The choice must therefore be made between the competing policy alternatives embodied in the statutory language of section 205(a), which restates a long standing Congressional policy of protecting the confidentiality of private commercial information, and that embodied in section 205(b) which articulates the desirability of greater public access to information. The Council has concluded that in this context, a policy of continuing the degree of public disclosure which pertained in Phase III must prevail.

The Council is therefore issuing, in Subpart F, regulations for Phase IV which will effectuate section 205 of the Act. These regulations require disclosure of parts of Form CLC–22 (the Phase IV successor to Form CLC–2), but apply only to firms with annual sales or revenues of $250 million or more.

These regulations are similar to those issued during Phase III in Subpart F of Part 102, except that references to § 130.21(b) are replaced by references to § 150.1(c) and § 150.161. Section 150.1(c) provides that reports due under Phase III regulations for reporting periods ending before Phase IV, must still be filed, and § 150.161 sets out the Phase IV quarterly reporting requirements. The regulations also specify those parts of Forms CLC–2 and CLC–22 which the Council has determined contain information which is non-proprietary and therefore subject to disclosure in accordance with the procedures of this part. There is no change in the determination of what information on a Form CLC–2 is subject to disclosure.

In consideration of the foregoing, Part 102 of Title 6 of the Code of Federal Regulations is reissued as set fort below, effective August 13, 1973.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92–210, 85 Stat. 743; Pub. L. 93–28, 87 Stat. 27; E.O. 11695, 38 FR 1473, E.O. 11730, 38 FR 19345, Cost of Living Council Order No. 14, 38 FR 1489)

Issued in Washington, D.C. on August 13, 1973.

JOHN T. DUNLOP,
Director,
Cost of Living Council.

Subpart A—General

Sec.
102.1 Purpose and scope.
102.2 Definitions.
102.3 Authority.
102.4 Records not subject to disclosure.
102.5 Authentication of records.
102.6 Records of other agencies.

Subpart B—Request for Records

102.11 Who may file.
102.12 Where to file.
102.13 Form of request; When to file.

Subpart C—Processing Requests

102.21 Review by the Assistant Director.
102.22 Availability of records.

Subpart D—Fees

102.31 Fees.

Subpart E—Appeals

102.41 Appeals.

Subpart F—Public Disclosure of CLC Reports

102.51 Purpose and scope.
102.52 General rule.
102.53 Definitions.
102.54 Disclosure procedure.
102.55 Form CLC–2 data.
102.56 Form CLC–22 data.

Subpart G—Inspection of Internal Revenue Economic Stabilization Records

102.71 Inspection of Internal Revenue Service stabilization records by Department of the Treasury and Department of Justice.

Authority: Economic Stabilization Act of 1970, as amended, Pub. L. 92–210, 85 Stat. 743; Pub. L. 93–28, 87 Stat. 27; E.O. 11695, 38 FR 1473; E.O. 11730, 38 FR 19345; Cost of Living Council Order No. 14, 38 FR 1489

Subpart A—General

§ 102.1 Purpose and scope.

This part (a) grants authority to the Assistant Director for Public Affairs of the Cost of Living Council to make records available for public inspection in accordance with the provisions of this part; (b) establishes procedures pursuant to the Freedom of Information Act, 81 Stat. 54, 5 U.S.C. 552 for the public inspection of identifiable records in the custody and control of the Cost of Living Council, except those excluded by the Act; (c) prescribes the time and place at which such records will be made available; and (d) sets the fees to be paid for copies of such records.

§ 102.2 Definitions.

In construing the terms used in this part, words and phrases shall be given the meaning ascribed to them in the Administrative Procedure Act, 5 U.S.C. 551, et seq.

V 38-157 AUG 15 73 XUM

§ 102.3 Authority.

(a) The Assistant Director for Public Affairs of the Cost of Living Council (hereinafter referred to as the Assistant Director) is hereby delegated the authority to receive, review, identify, determine the availability of, and approve or disapprove requests for records in the custody and control of the Cost of Living Council in accordance with the provisions of this part.

(b) The Assistant Director, in his discretion, is specifically authorized to divulge or disclose to a complainant, or to an individual with specific knowledge of a complaint, the nature and result of the investigation of said complaint in circumstances where no violation has been found.

(c) The Chairman of the Council, or his delegate, is authorized at his discretion to make any record enumerated in § 102.4 available for inspection when he deems disclosure to be in the public interest and disclosure is not otherwise prohibited by law.

§ 102.4 Records not subject to disclosure.

This part does not apply to records which are:

(a) Specifically required by Executive Order to be kept secret in the interest of the national defense or foreign policy;

(b) Related solely to the internal personnel rules and practices of an agency;

(c) Specifically exempted from disclosure by statute including information which contains or relates to trade secrets or other matters referred to in section 1905 of Title 18 of the United States Code;

(d) Interagency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency;

(e) Personnel and medical files and similar files, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(f) Investigatory files compiled for law enforcement purposes except to the extent available by law to a party other than an agency, and except as authorized in § 102.3(b);

(g) Contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions; or

(h) Geological and geophysical information and data, including maps, concerning wells.

§ 102.5 Authentication of records.

(a) The Assistant Director will designate an official custodian who will have authority to attest or otherwise authenticate copies of records made available under the provisions of this part.

(b) The Assistant Director and the official custodian may issue such statements, certificates, or other documents as may be required to show that after a diligent search, no record or entry of the tenor specified in a request has been found to exist. (See Rule 44, Federal Rules of Civil Procedure.)

§ 102.6 Records of other agencies.

(a) A person who requests a record originating in another agency but currently in the custody of the Cost of Living Council shall submit his request to the other agency.

(b) Where the originating agency consents, in writing, to make the record available, it will be made available in accordance with the provisions of this part.

Subpart B—Request for Records

§ 102.11 Who may file.

Any person may file a request for records.

§ 102.12 Where to file.

A request for a record may be filed by mail or in person with the Assistant Director for Public Affairs, Cost of Living Council, 2000 M Street, NW., Washington, D.C. 20508.

§ 102.13 Form of request; When to file.

A request for records must be in writing and filed, except on Federal Government holidays, between the hours of 9 a.m. and 5:30 p.m., Monday through Friday.

Subpart C—Processing Requests

§ 102.21 Review by the Assistant Director.

Each request submitted in accordance with §§ 102.10 through 102.12 will be reviewed by the Assistant Director to determine whether the record requested is an identifiable record within the meaning of 5 U.S.C. 552(a)(3).

(a) If the Assistant Director determines that the record is not identifiable, he will advise the person filing the request and give him a reasonable opportunity to provide additional information to facilitate the identification of the record.

(b) If the Assistant Director determines that the record is identifiable but should be withheld from inspection in the public interest, he will inform the person filing the request, in writing, of his decision to deny it. The denial shall inform the applicant of:

(1) The specific subsection of § 102.4 relied on for denying the request; and

(2) The right to request a review of an adverse determination as provided in § 102.40.

§ 102.22 Availability of records.

(a) An identifiable record which has been determined by the Assistant Director to be available for inspection, will be made available for examination in the Office of the Assistant Director.

(b) Manual, typewritten, or other copies may be made freely by the person filing the request subject to appropriate supervision.

Subpart D—Fees

§ 102.31 Fees.

(a) Except as provided in paragraph (b) of this section, there will be no charge for making an identifiable record available pursuant to § 102.21.

(b) If the Assistant Director determines that a record cannot be made available without significant disruption of normal business activities, he may secure an estimate of the cost of making the record available and require the person filing the request to deposit that amount prior to commencing a search for the record. However, if the actual cost of making the record available is significantly more or less than the amount deposited, an adjustment in the form of a supplemental charge or refund, as appropriate, will be made by the Assistant Director.

(c) In determining whether the search for a record will disrupt normal business activities, the Assistant Director may take into account the cumulative effect upon business activities of all other pending requests for records under this part, whether made by the same person or by other persons.

(d) An available record, upon advance payment of the fee prescribed in any reproduction fee schedule established by the Assistant Director, may be reproduced through any available means; however, the Assistant Director may waive such fees if he determines the reproduction cost to be inconsequential.

Subpart E—Appeals

§ 102.41 Appeals.

(a) Any person aggrieved by any determination made or action taken by the Assistant Director pursuant to the provisions of this part may request a review.

(b) An appeal must be filed with the Director of the Cost of Living Council within 30 days of the determination or action to be reviewed.

(c) An appeal may be filed in any form and a letter or other written statement setting forth the pertinent facts will be considered sufficient for this purpose.

(d) The Director of the Cost of Living Council may require the person filing the appeal to present additional evidence or information in support of his request for review.

(e) The Director of the Cost of Living Council will promptly review each appeal and notify the appellant in writing, of his decision.

Subpart F—Public Disclosure of CLC Reports

§ 102.51 Purpose and scope.

(a) The purpose of this subpart is to define, pursuant to section 205(b)(3) of the Economic Stabilization Act of 1970, as amended, what information or data contained in quarterly reports submitted to the Cost of Living Council pursuant to § 150.1(c) or § 150.161 of this title is proprietary in nature and therefore excludable from public disclosure and, conversely, what information or data contained in those quarterly reports is nonproprietary in nature and therefore available to the public.

(b) This subpart applies to:

(1) A business enterprise which

(i) Has annual sales or revenues of $250 million or more;

(ii) Is subject to the quarterly reporting requirements of § 150.1(c) or § 150.161 of this title; and

(iii) Charges a price for a substantial product which exceeds by more than 1.5 percent the price lawfully in effect for that product on January 10, 1973, or on the date 12 months preceding the end of the quarterly reporting period, whichever is later; and

(2) A Council form submitted pursuant to the quarterly reporting requirement of § 150.1(c) or § 150.161 of this title, and any schedule or supporting information or document attached thereto in accordance with the instructions to the form.

§ 102.52 General Rule.

All CLC data determined by this subpart to be proprietary data is excludable from public disclosure. All CLC data determined by this subpart to be nonproprietary data is available to the public.

§ 102.53 Definitions.

For the purpose of this subpart—

"Business enterprise" means an "entity" as defined in the Instructions to the Form CLC–2, and to the Form CLC–22.

"CLC data" means any information or data provided on or with a quarterly report submitted to the Cost of Living Council pursuant to § 150.1(c) or § 150.161 of this title when that report is subject to public disclosure pursuant to section 205(b)(1) of the Economic Stabilization Act of 1970, as amended.

"General financial data" means any CLC data, other than trade data, which concerns or relates to the amount or sources of a firm's income, profits, losses, costs or expenditures.

"Price data" means any CLC data which concerns or relates to a firm's prices for goods and services.

"SEC data" means any general financial data which cannot currently be excluded from public annual reports to the Securities and Exchange Commission pursuant to section 13 or 15(d) of the Securities and Exchange Act of 1934 by a firm exclusively engaged in the manufacture or sale of a substantial product as defined in section 205(b)(1) of the Economic Stabilization Act of 1970, as amended.

"Substantial product" means a product, product line, service, or service line, as called for in lines 1–19 of Part VI of the Form CLC–2, and in item 24 of Part VI of the Form CLC–22, or any continuation schedule, in accordance with the instructions to the Form CLC–2, and to the Form CLC–22, which accounted for 5 percent or more of the business enterprise's annual sales or revenues as defined for purposes of the CLC–2 in Part 130 and for purposes of the CLC–22 in Part 150 of this title.

"Trade data" means any CLC data which concerns or relates to the trade secrets, processes, operations, style of work, or apparatus of a firm.

§ 102.54 Disclosure Procedure.

(a) Each business enterprise submitting to the Cost of Living Council a Form CLC–2 or Form CLC–22 which is subject to public disclosure pursuant to section 205(b)(1) of the Economic Stabilization Act of 1970, as amended, shall:

(1) In addition to checking the box provided on the front page of the Form CLC–2 or Form CLC–22 under the heading "Type of Submission" to indicate the submission of a quarterly report, check the box provided for "Other" purpose and, in the adjacent space provided, enter the words "Public Disclosure Required";

(2) Attach to the Form CLC–2 or Form CLC–22 a supporting schedule which identifies the substantial product or products which gave rise to the requirement of public disclosure and the weighted average percentage price increase or increases above the weighted average price or prices lawfully in effect on January 10, 1973, charged for those substantial products; and

(3) Attach three copies of the entire CLC–2 or CLC–22 submission which omit all proprietary information or data in accordance with the definitions and rules provided in § 102.55 or § 102.56.

(b) The instructions provided in paragraph (a), above, are in addition to the Instructions to the Form CLC–2 and the Instructions to the Form CLC–22.

(c) Interested persons may examine nonproprietary information or data which a firm furnishes on or with Form CLC–2 or Form CLC–22 reports subject to public disclosure at the key IRS District Office which serves the district in which the firm's corporate headquarters are domiciled.

§ 102.55 Form CLC–2 data.

(a) Form CLC–2 Proper.

(1) Part I (Identification Information).

The information called for in Part I (and in the spaces provided above Part I) serves to identify or describe the firm, the type of filing, the reporting or fiscal periods in question, and the total sales or revenues of the firm for the last fiscal year. All of the information required, other than the annual sales or revenues of the firm, is nonproprietary data because it does not include either trade data or general financial data other than SEC data, and is generally available to the public elsewhere. The annual sales or revenues of the firm (line 5) is proprietary because the Council's special definition of annual sales or revenues results in a figure not disclosed in the SEC Form 10–K.

(2) Parts II and III (Profit Margin Calculations).

Except for the calendar entries in lines 6 and 7 (nonproprietary data), all general financial data furnished in Parts II and III is based on base period and current period "net sales" and "operating income" as defined by the Cost of Living Council for purposes of Parts II and III. These definitions are not the same as those used for SEC purposes because they exclude revenues from foreign operations, public utilities, farming activities and insurance activities. Since such general financial data, thus more narrowly defined, is not required for SEC purposes, it can be excluded from the public annual reports to the SEC and is, therefore, defined as proprietary data with the exception of the information in line 17. In order to fulfill the general purposes of Section 205 of the Economic Stabilization Act of 1970, as amended, and in exercise of the authority granted thereunder, the Council defines the information required in line 17 as nonproprietary CLC data.

(3) Parts IV and V (Other Information).

Parts IV and V call for names, titles, addresses and similar non-financial information, including signature and date. Everything required in these parts is nonproprietary data because it does not include either trade data or general financial data other than SEC data, and is generally available to the public elsewhere.

(4) Part VI (Price/Cost Information). The information required at the top of the page—the name of the firm, the reporting period dates and the cumulative period dates—is nonproprietary data because it does not include either trade data or general financial data other than SEC data, and is generally available to the public elsewhere.

All of the information required in Columns (a) and (b) on lines 1 through 19 and on any continuation schedule is nonproprietary data because only the names of product lines or service lines and related Standard Industrial Classification Codes is required, which is neither trade data nor general financial data other than SEC data and is generally available to the public elsewhere.

The general financial data required in Columns (c) and (h), lines 1 through 19 (and any continuation schedule) concerns sales by product or service line. Because the CLC definition of "sales' for these columns exclude sales from public utilities activities, foreign operations, insurance activities, farming, exempt items, health service activities, custom products and food operations, the

V 38 157 AUG 15 73 XUM

Column (c) or (h) sales entry does not coincide with the equivalent information on the SEC Form 10–K prepared as though the firm were a single-product-line firm. Therefore, the general financial data in Column (c) and (h) is defined as proprietary data.

The general financial data required in Columns (c) and (h), lines 20 and 21, are sub-totals and totals of the individual sales entries on lines 1–19 and in any continuation schedule. This information has no counterpart on a SEC Form 10–K prepared as though the firm were a single-product-line firm and thus it is defined as proprietary data.

The general financial data required in Columns (c) and (h), lines 23–25, is a breakdown of total sales into sales of or from foreign operations, food sales, and "other nonapplicable sales." These entries have no counterparts on any SEC Form and are, therefore, defined as proprietary data.

The "net sales" information required in Columns (c) and (h), line 26 coincide in scope with the data shown in Part III, line 13 ("net sales"). As explained in the discussion for Parts II and III, this information is proprietary data.

Columns (d), (e), (g) and (i) all call for price data. All information required is, therefore, nonproprietary data.

The data required in Column (f) is a percentage figure representing "cost justification" for each product or service line entered in lines 1–19 and on any continuation schedule for which a price increase is indicated in Column (e). The general financial data required in Column (f), line 22, is the cost justification supporting the weighted average price increase for the combined product or service lines. These are calculations unique to the Form CLC–2 and find no counterpart on the SEC Form 10–K. However, in order to fulfill the general purpose of section 205 of the Economic Stabilization Act of 1970, as amended, and in exercise of the authority granted thereunder, the Council defines the data required in Column (f), lines 1–19, inclusive, line 22, and on any continuation schedule, as nonproprietary of CLC data.

(b) Schedule C (Cost Justification).

(1) Part I (Identification Information).

All of the information called for in Part I (and in the spaces provided above Part I) serves to identify or describe the firm, the reporting period, and the product line or SIC Code. All of the information is already defined as nonproprietary in Part I of the Form CLC–2. However, as an administrative convenience, to avoid unnecessary handling and cost of duplication of this portion of the Schedule C which otherwise contains no financial data which is to be available to the public, information required by Part I of Schedule C is defined as proprietary.

(2) Part II (Calculation of Cost Justification).

All of the general financial data called for in Part II, lines 3 through 7, is calculated and entered on the basis of cost per unit of input or output. There are no counterparts for these figures on the SEC 10–K. None of the information required in lines 3 through 7 is SEC data and all of it, therefore, is defined as proprietary data.

The general financial data required in lines 8 through 12 are special CLC calculations which have no counterpart in the SEC 10–K. Therefore, none of the information required is SEC data and all of it is defined as proprietary data.

The same figure that appears on line 11 of Schedule C also appears in Column (f) of Part VI of the Form CLC–2. As explained above, Column (f) information is defined as nonproprietary even though it is general financial data which is not SEC data. Consistency would normally require that information required by line 11 of Schedule C also be defined as nonproprietary. However, as an administrative convenience, to avoid unnecessary handling and cost of duplication of this portion of the Schedule C which otherwise contains no financial data which is to be available to the public, information required by line 11 of Schedule C is defined as proprietary.

(c) Supporting Information.

Parts of the CLC–2 are required to be submitted as attachments to the CLC–2 proper. Determination of the proprietary nature of information or data shown on these attached Parts is to be made on the same basis as the determination for the equivalent Part on the CLC–2 proper.

Supporting information prepared by the firm in textual or other form other than on a Form provided by the Council must be reviewed on an ad hoc basis to determine whether or not it contains proprietary data. The rules contained in this Subpart shall be used as guidelines for this purpose.

§ 102.56 Form CLC–22 data.

(a) Form CLC–22 Proper.

(1) Part I (Identification data).

The information called for in Part I serves to identify or describe the firm, the type of filing, the reporting or fiscal periods in question, and the total sales or revenues of the firm for the last fiscal year. All of the information required, other than the annual sales or revenues of the firm, is nonproprietary data because it does not include either trade data or general financial data other than SEC data, and is generally available to the public elsewhere. The annual sales or revenues of the firm (item 7) is proprietary because the Council's special definition of annual sales or revenues results in a figure not disclosed in the SEC Form 10–K.

(2) Parts II and III (Profit Margin Calculations).

Except for the calendar entries in items 8 and 9 (nonproprietary data), all general financial data furnished in Parts II and III is based on base period and current period "net sales" and "operating income" as defined by the Cost of Living Council for purposes of Parts II and III. These definitions are not the same as those used for SEC purposes because they exclude revenues from foreign operations, public utility operations, insurance operations, agricultural products, and, where required, construction operations. Since such general financial data, thus more narrowly defined, is not required for SEC purposes, it can be excluded from the public annual reports to the SEC and is, therefore, defined as proprietary data with the exception of the information in item 19. In order to fulfill the general purposes of § 205 of the Economic Stabilization Act of 1970, as amended, and in exercise of the authority granted thereunder, the Council defines the information required in item 19 as nonproprietary CLC data.

(3) Parts IV and V (Additional Information).

Parts IV and V call for names, titles, addresses, and similar non-financial information, including signature and date. Everything required in these parts is nonproprietary data because it does not include either trade data or general financial data other than SEC data, and is generally available to the public elsewhere.

(4) Part VI (Price/Cost Information). The information required in items 22 and 23—the name of the firm, and the reporting period dates—is nonproprietary data because it does not include either trade data or general financial data other than SEC data, and is generally available to the public elsewhere.

All of the information required in Columns (a) and (b) for item 24 and on any continuation schedule is nonproprietary data because only the names of product lines or service lines and related Standard Industrial Classification Codes is required, which is neither trade data nor general financial data other than SEC data and is generally available to the public elsewhere.

The general financial data required in Column (c), item 24 (and any continuation schedule) concerns sales by product line or service line. Because the CLC definition of "sales" for this column excludes sales from public utility operations, foreign operations, insurance operations, agricultural products, and, where required, construction operations, the Column (c) sales entry does not coincide with the equivalent information on the SEC Form 10–K prepared as though the firm were a single-product-line firm. Therefore, the general financial data in Column (c) is defined as proprietary data.

The general financial data required in Column (c), items 25 and 26, are subtotals and totals of the individual sales entries in item 24 and in any continuation schedule. This information has no counterpart on a SEC Form 10–K prepared as though the firm were a single-product-line firm and thus it is defined as proprietary data.

The general financial data required in Column (c), items 27–38, is a breakdown of total sales into sales of or from various categories such as public utilities, foreign operations, and custom products. These entries have no counterparts on any SEC Form and are, therefore, defined as proprietary data.

The "Total" sales figure required in Column (c), item 39, coincides in scope with the data shown in Part III, line 15 ("net sales"). As explained in the discussion for Parts II and III, this information is proprietary data.

Column (d) is used only for prenotification purposes and is not filled out when the CLC–22 is used as a quarterly report. Columns (e) and (g) both call for price data. All information required is, therefore, nonproprietary data.

The data required in Column (f) is a percentage figure representing "cost justification" for each product line or service line entered in item 24 and on any continuation schedule for which a price increase is indicated in Column (e). These are calculations unique to the Form CLC–22 and find no counterpart on the SEC Form 10–K. However, in order to fulfill the general purpose of section 205 of the Economic Stabilization Act of 1970, as amended, and in exercise of the authority granted thereunder, the Council defines the data required in Column (f), item 24, and on any continuation schedule, as nonproprietary CLC data.

(b) Schedule C (Cost Justification).

(1) Part I (Identification Data).

All of the information called for in Part I serves to identify or describe the firm, the reporting period, the product line, and the SIC Code. All of the information is already defined as nonproprietary in Part I of the Form CLC–22.

(2) Part II (Calculation of Cost Justification).

All of the general financial data called for in Part II, items 4 through 8, is calculated and entered on the basis of cost per unit of input or output. There are no counterparts for these figures on the SEC 10–K. None of the information required in items 4 through 8 is SEC data and all of it, therefore, is defined as proprietary data.

The general financial data required in items 9 through 11 are special CLC calculations which have no counterpart in the SEC 10–K. Therefore, none of the information required is SEC data and all of it is defined as proprietary data.

The same figure that appears on item 12 of Schedule C also appears in Column (f) of Part VI of the Form CLC–22. As explained above, Column (f) information is defined as nonproprietary even though it is general financial data which is not SEC data.

The base cost period and the current cost period are provided in items 13 and 14. This information is nonproprietary.

(c) Supporting Information.

Parts of the CLC–22 are required to be submitted as attachments to the CLC–22 proper. Determination of the proprietary nature of information or data shown on these attached Parts is to be made on the same basis as the determination for the equivalent Part on the CLC–22 proper.

Supporting information prepared by the firm in textual or other form other than on a Form provided by the Council must be reviewed on an ad hoc basis to determine whether or not it contains proprietary data. The rules contained in this Subpart shall be used as guidelines for this purpose.

Subpart G—Inspection of Internal Revenue Economic Stabilization Records

§ 102.71 Inspection of Internal Revenue Service stabilization records by Department of the Treasury and Department of Justice.

(a) *General.*—Pursuant to the provisions of section 205 of the Economic Stabilization Act of 1970 (Public Law 91–379, 84 Stat. 799), as last amended by the Economic Stabilization Act Amendments of 1972 (Public Law 93–28), officers and employees of the Department of the Treasury (including the Internal Revenue Service and the Office of the Chief Counsel for the Internal Revenue Service) and the Department of Justice whose official duties require inspection of returns made in respect of any tax described in paragraph (a)(2) of § 301.6103(a)–1 of 26 CFR Part 301, or include the administration or enforcement of the provisions of the Economic Stabilization Act of 1970, as amended, may inspect the stabilization records of the Internal Revenue Service without making written application therefore. If the head of a bureau or office in the Department of the Treasury (not a part of the Internal Revenue Service or the Office of Chief Counsel for the Internal Revenue Service), or the Department of Justice, desires to inspect, or to have an employee of his bureau or office inspect, any such records in connection with some matter officially before him for reasons other than tax administration purposes or the administration or enforcement of the provisions of the Economic Stabilization Act of 1970, as amended, the inspection may, in the discretion of the Secretary of the Treasury or the Commissioner of Internal Revenue or the delegate of either, be permitted upon written application by the head of the bureau or office desiring the inspection. The application shall be made to the Commissioner of Internal Revenue, Washington, D.C. 20224, and shall show the name and address of the person about whom records are to be inspected and the reason why inspection is desired. The information obtained from inspection pursuant to this paragraph may be used as evidence in any proceeding, conducted by or before any department or establishment of the United States, or to which the United States is a party.

(b) *Definitions.* (1) *Stabilization records.*—For purposes of this section, the term "stabilization records" includes—

(i) All schedules, lists, written statements, or other written documents filed by or on behalf of any person with the Internal Revenue Service, and

(ii) All other reports, information received orally or in writing, factual data, documents, papers, abstracts, memoranda, or evidence taken, or any portion thereof, relating to any person and held by the Internal Revenue Service, to the extent any such item is with respect to the administration or enforcement of any provision of the Economic Stabilization Act of 1970, as amended, and is not part of a return (as defined in § 301.6103(a)–1(a)(3)(i) of 26 CFR 301.)

(2) *Person.* For purposes of this section, the term "person" has the meaning given to such term under section 7701(a)(1) of the Internal Revenue Code of 1954 (68A Stat. 911; 26 U.S.C. 7701(a)(1)).

V 38-157 AUG 15 73 XUM

PART 150—COST OF LIVING COUNCIL PHASE IV PRICE REGULATIONS

Final Phase IV Regulations, Subparts M and O

The purpose of this amendment to Part 150 of the Cost of Living Council Regulations is to add Subpart M—Insurance, and Subpart O—Providers of Health Services.

On July 19, 1973, the Cost of Living Council established Part 150 and issued Subpart N in final form, 38 FR 19462 (July 20, 1973). On the same day the Council issued a notice of proposed rulemaking, 38 FR 19464 (July 20, 1973) setting out proposed Phase IV regulations, and inviting interested persons to submit written data, views or arguments. On August 6, 1973, the Council issued Subparts A through K and P in final form, 38 FR 21592, (August 9, 1973).

The Council stated in the July 19 Notice of Proposed Rulemaking that all comments received before July 31, 1973, would be considered by the Council before taking action on the proposed regulations.

As in the case of comments on the subparts already issued in final form, copies of each comment on proposed Subparts M and O went to the attorney and the operations specialist or economic analyst who was responsible for the particular subpart. Staff officials of the Council conducted an intensive reexamination of the regulations, independently as well as in light of the comments, in order to assure the maximum degree of clarity and consistency of the policy decisions that were made and of the regulations written to reflect these decisions. As a result of these efforts Subpart M in its final form contains numerous changes from the proposals that were published in proposed form on July 19, 1973. Most of the changes are editorial in nature. A few of them are substantive.

Subpart M—Insurance

Subpart M sets forth the rules applicable to rate increases by insurers.

A paragraph (b) has been added to § 150.401 to clarify that this subpart is paramount to all other subpart with respect to insurance matters.

Section 150.402 has been changed by amending the definitions of "covered earned premium", "prenotifier" and "rate" to clarify the intent and the definition of a "State" has been added to include the District of Columbia.

Section 150.403 has been revised in several respects. Section 150.403(a) has been changed to refer to actual incurred costs rather than experience incurred on all actual costs to make it clear that insurers are permitted to reflect accurately all actual incurred costs. Section 150.403 (b) has been amended to include a second sentence permitting factors used in established rating plans to continue to be used if they reflect physical conditions. Section 150.403(c) reflects one of the few substantive changes from the proposed version of Subpart M. The introductory paragraph has been expanded to include the definition of period of projection which is slightly changed from that proposed as § 150.403(b) and § 150.403 (b) has been deleted. Additionally the final phrase of items (3), (4) and (5) has been rewritten to make it clear that the trend factors must be based upon the latest available data. The substantive change is found in item (6) which was changed to establish a base, below which, the restrictions in (3), (4) and (5) need not be applied.

Section 150.404 has been changed in two respects, first, § 150.404(a) has been reworded to specify a change which "will not result in an overall rate increase" while the proposed regulations referred to a change which "will result in an overall premium level reduction". Second, § 150.404(b) has been reworded to delete the specification of "no fault" legislation and to consider all legislation or regulation promulgated in a particular jurisdiction as apply to this paragraph.

Section 150.405(a) has been reworded for clarity; the portion regulating subsequent rate increases has been reworded to apply to a 12 month period instead of the same calendar year and addresses itself to subsequent rate increases affecting $1 million or more of aggregate annualized premium as opposed to any subsequent rate increase. Clarification of § 150.405(a) eliminated the need for § 150.405(c) which was deleted.

Section 150.408 has been modified to include in the 30 day period for taking action those prenotifications filed directly with the Cost of Living Council under § 150.407.

Section 150.410 has been expanded to apply to a rating formula as well as a rate increase.

Section 150.411 has been revised to delete the requirement that the determination be made by the head of the State regulatory Agency and now requires only agency approval. The determination to be made by the agency has been reworded to apply to a determination that a "rule, rating formula, formula use or application, data base, ratemaking procedure or technique or other element in the ratemaking process should be consistently applied so that warranted rate decreases as well as increases occur," and the agency shall so inform the Cost of Living Council.

Section 150.412 has been expanded to allow rating bureaus to furnish reports or parts of reports on behalf of individual insurers who have based their rates and filings on the aggregate statistics as compiled by such rating bureaus.

Sections 150.412 (a) and (b) have been substantially revised and paragraph (c) has been added to expand the reporting requirements. The requirement for monthly reporting by certain health insurers has been replaced by a quarterly report.

In a related amendment to § 150.53 (b), enrollment fees, deductibles, coinsurance and other cost sharing required by State Medicaid agencies under section 208 of Public Law 92-603 are being added to the list of insurance premiums exempt from price controls.

Subpart O—Providers of Health Services

Subpart O continues the Phase II and Phase III rules applicable to institutional and noninstitutional providers of health services. This subpart merely serves to remove the price rules for providers of health from Part 130 and restate them in Part 150 without substantive change. New regulations governing providers of health services will be issued later this year in this subpart after completion of extensive consultation with the Health Industry Advisory Committee of the Cost of Living Council and other interested health care providers and consumers.

No other provisions of Part 150 apply to institutional and noninstitutional providers of health services except § 150.1, § 150.2, § 150.3, and the definition of base period in § 150.31.

Pursuant to § 150.1, requests for exceptions or exemptions from the requirements of this part shall be submitted by providers of health services in accordance with the new procedures established in Part 155 of this chapter.

Section 150.2 provides that the procedures and remedies under Part 130 will remain in effect with respect to matters subject to that part before August 13, 1973 and that the procedures and remedies under Part 140 will remain in effect with respect to matters subject to that part before August 13, 1973.

Section 150.3 further provides that any firm which has been authorized to adjust its base period profit margin pursuant to an exception granted prior to August 13, 1973 may continue to calculate its base period profit margin pursuant to that exception.

The use of the base period definition in § 150.31 continues the same definition of base period that was in effect during Phase III for providers of health services. Finally, § 150.502 explicitly adopts Form S-52 (Revised July 1973) and Schedule A (July, 1973) which replaced certain Price Commission forms during Phase III.

In consideration of the foregoing, Part 150 of Title 6 of the Code of Federal Regulations is amended as set forth below, effective August 13, 1973.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92-210, 85 Stat. 743; Pub. L. 93-28, 87 Stat. 27; E.O. 11695, 38 FR 1473, E.O. 11730, 38 FR 19345, Cost of Living Council Order No. 14, 38 FR 1489)

Issued in Washington, D.C. on August 9, 1973.

JOHN T. DUNLOP,
Director,
Cost of Living Council.

1. The table of sections is amended by adding the following items regarding Subpart M and Subpart O:

2. Section 150.53(b) is amended by adding a new item (3) at the end thereof to read as follows:

§ 150.53 Real estate and insurance premiums.

• • • • •

(b) *Insurance premiums.* (1) • • •
(2) • • •
(3) Enrollment fees, deductibles, coinsurance, and other cost sharing required by State Medicaid agencies under provisions of § 208 of Public Law 92-603 (86 Stat. 1329, 42 U.S.C. 1396a(a)(14)).

3. The part is amended by adding a new Subpart M to read as follows:

Subpart M—Insurance

§ 150.401 Applicability.

(a) This subpart applies to each insurance rate increase to be placed into effect after August 12, 1973, which would increase the rate above the level in effect on that date, whether or not the increase is approved by a regulatory agency.

(b) To the extent this subpart may be inconsistent with other provisions in this part, the provisions in this subpart govern.

§ 150.402 Definitions.

As used in this subpart—

"Covered earned premium" means the total premium earned for all lines of insurance that are not exempt by § 150.53(b).

"Firm" is limited to a firm's consolidated or unconsolidated entities which are insurers.

"Insurer" means a firm which by contract or for a stipulated consideration undertakes to compensate another for loss on a specified subject and is (1) subject to the regulatory jurisdiction of a State (including a person engaged in providing non-profit medical or hospital services under such a regulatory jurisdiction) or (2) undertaking to provide medical or hospital services for a capitation fee.

"Prenotifier" means a health insurer that had $50 million or more of covered earned premium or a property-liability insurer that had $150 million or more of covered earned premium during the calendar year preceding the effective date of the rate increase it is proposing.

"Rate" means a unit charge which produces a premium amount to be charged, charged or paid for insurance, calculated in accordance with a ratemaking practice or formula, or developed under a classification system.

"Rate increase" includes a restriction in coverage, an increase in a deductible level, or any similar diminution of insurance coverage without a corresponding reduction in the rate.

"Rating bureau" means a firm who makes, files, or submits insurance rates applicable to, on behalf of, or advisory for more than one insurer.

"State" means a State or the District of Columbia.

"State regulatory agency" means any commission, board or other legal body that has jurisdiction over rates or practices of insurers in a State or the District of Columbia.

§ 150.403 Criteria.

Each insurance rate increase put into effect by any insurer or rating bureau (regardless of its covered earned premium) after August 12, 1973, which would increase the rate above the level in effect on that date must be consistent with the following criteria:

(a) Factors that reflect actual incurred costs may be used in the customary manner in the ratemaking process.

(b) Factors in the ratemaking process or in the actual determination of the final premium that relate to or reflect changes in claim frequency, occurrence or utilization, changes in the classification of risks under class plans already in use or territory relativities, or similar changed conditions of risk may be used in accordance with customary practice provided such factors are supported statistically. Factors included in rating plans and procedures already in use which reflect physical conditions affecting exposure to loss may be applied in accordance with customary practice.

(c) Factors in the ratemaking process anticipating cost or price increases (i.e., trend factors to the extent they project inflation) may be used subject to the following restrictions. The period of projection covers the entire length of time from the underlying experience base to the future date to which loss or cost levels are being adjusted.

(1) For any portion of the period of projection through August 14, 1971, the normal, full factors may be used, provided they are statistically supported by the latest available data in accordance with the insurer's customary practice.

(2) For any portion of the period of projection after August 14, 1971, through November 13, 1971, a zero rate of inflation must be used.

(3) For any portion of the period of projection after November 13, 1971, through January 11, 1973, the inflationary trend factor may not exceed five-eighths (5/8) of the factor based upon the latest available data in accordance with the insurer's customary practice.

(4) For any portion of the period of projection after January 11, 1973, through August 12, 1973, the inflationary trend factor may not exceed six-eighths (6/8) of the factor based upon the latest available data in accordance with the insurer's customary practice.

(5) For any portion of the period of projection after August 12, 1973, through the end of the projection period, the inflationary trend factor may not exceed seven-eighths (7/8) of the factor based upon the latest available data in accordance with the insurer's customary practice.

(6) The provisions of items (3), (4) and (5) shall not be applied to require an insurer or rating bureau to reduce the annualized inflationary trend below five-eighths (5/8) of the annualized inflationary trend based on experience and customary practice before August 15, 1971.

(d) Factors for claim settlement or loss adjustment expenses, or contingencies which are separate, distinct and in addition to a profit factor, state taxes, licenses and fees, and commissions payable to licensed agents and brokers may be loaded on a percentage of premium or any other customary basis of actual incurred costs in accordance with customary practice. Any increases in the percentage loading for these expense items must be justified.

(e) Factors for administrative expenses other than those specified in paragraph (d) when loaded as a percentage of premium must be limited to a maximum of a 5 percent increase in the dollar amount represented by the loading that was used in the prior rate. If administrative expenses are loaded on an actual cost basis, no increases will be permitted unless statistically supported.

(f) Any profit portion of premium, whether loaded as a percentage of premium or a dollar amount per contract, must be limited to a 2½ percent increase in the dollar amount represented by the loading that was used in the prior rate. For purposes of this section, any portion of premium which is classified as a contribution to reserve, contingency reserve or similar element where a profit, as such, is not a part of the ratemaking process, shall be treated as the profit provision.

§ 150.404 Change in ratemaking formula.

No insurer or rating bureau may change a rule, rating formula, formula use or application, data base, ratemaking procedure or technique, or other element in the ratemaking process unless:

(a) The change will not result in an overall rate increase;

(b) The change is necessitated by legislation or regulation promulgated in a particular jurisdiction; or

(c) Written approval has been granted by the Cost of Living Council.

§ 150.405 Prenotification.

(a) Each prenotifier, or rating bureau acting for a prenotifier, shall file a written notice with the Cost of Living Council and the appropriate State regulatory agency of the State to which the rate increase is applicable, or the State regulatory agency of the insurer's State of domicile when a rate increase is proposed for use in more than one State, or the State of domicile or delivery of the master policy for experience rated or

V 38 - 157 AUG 15 73 XUM

group contracts applicable to a multi-State risk, of each proposed rate increase in excess of 5.0 percent which affects $1 million or more of aggregate annualized premium under the existing rate. Any second or subsequent rate increase proposed for the same class of purchaser within 12 consecutive months must be prenotified if that increase affects $1 million or more of aggregate annualized premium regardless of whether any prior increase within that 12-month period was required to be prenotified. Each insurer submitting a notice under this section shall certify to the Cost of Living Council and the State regulatory agency that the proposed increase confirms to §§ 150.403 and 150.404. The certification must be signed by the chief executive officer of the prenotifier or by an individual to whom he has delegated that authority. A copy of the delegation must be filed with the Cost of Living Council.

(b) In any State in which rates are established by a State regulatory agency, that agency may submit a prenotification and certify to the Cost of Living Council that the rate increases are in compliance with §§ 150.403 and 150.404. An insurer using those State rates needs only to report quarterly that it is using those rates without submitting all of the supporting data.

§ 150.406 Certification by State regulatory agency.

A State regulatory agency may agree, in writing, with the Cost of Living Council to certify that the rate increases of which it has received prenotification under § 150.405 are or are not in compliance with §§ 150.403 and 150.404. Each agency entering into such agreement with the Cost of Living Council shall furnish its certification to the Council (with a copy to the insurer) within 20 days after it receives the prenotification. A certification by an agency under this section is prima facie evidence that the proposed rate increase is or is not in compliance with §§ 150.403 and 150.404.

§ 150.407 Self-certification.

Whenever a prenotifier, or a rating bureau acting for a prenotifier, cannot obtain a certification of a rate increase from a State regulatory agency in accordance with § 150.406 because:

(a) The State regulatory agency concerned has not agreed to furnish certifications under that section; or

(b) The State regulatory agency did not act upon the filing within the period required under that section.

The prenotifier or rating bureau shall immediately notify the Cost of Living Council that it cannot obtain the certification and may request the Council to act upon the certification filed with it under § 150.405.

§ 150.408 Cost of Living Council actions.

(a) With respect to any rate increase certified by a State regulatory agency under §§ 150.405(b) or 150.406, or self-certified by a prenotifier or a rating bureau acting for a prenotifier under § 150.407, the Cost of Living Council may, within 30 days after the State regulatory agency receives the prenotification, or within 30 days after the Cost of Living Council receives the prenotification under § 150.407, take one or more of the following actions:

(1) Require the insurer to furnish additional information regarding the increase.

(2) Delay the effective date of the increase pending further Council action.

(3) Suspend all or part of the effect of the increase, pending further action by the Cost of Living Council or by the State regulatory agency.

(4) Limit, refuse, rescind, reduce, or modify the increase.

(b) If the Cost of Living Council does not act upon a request under this section before the end of the thirtieth day as described above, the increase may go into effect. However, in any case in which that period would otherwise end on a Saturday, Sunday, or Federal holiday, it will end at the close of the next succeeding workday. However, if after implementation of the rate increase the Council finds that the increase is inconsistent with the rules of this subpart or unnecessarily inconsistent with the goals of the Economic Stabilization Program it may issue an order modifying, deferring, suspending or disapproving the rate increase. A prenotification to a State regulatory agency which has been certified by that agency as being not in compliance with §§ 150.403 and 150.404 may not be placed into effect unless the written approval of the Cost of Living Council has been granted.

§ 150.409 Rates for replacement or revised insurance coverages.

The rate for a form of insurance coverage replacing or revising another form of insurance coverage previously written by the same insurer is subject to the same requirements as an increase in the rate to which the previous insurance coverage would have been subject.

§ 150.410 Insurance rates subject to State laws.

Approval of an insurance rate increase or rating formula under this subpart does not authorize the use of an insurance rate or formula in contravention of any applicable State law.

§ 150.411 Investigation and review of rates.

The Cost of Living Council acting with and through the appropriate State regulatory agency may require an insurer or rating bureau, acting for an insurer, to file with the appropriate State regulatory agency the latest available rate review for a particular class of business for which rates have not been revised in the last four quarters. The State regulatory agency shall determine whether a rule, rating formula, formula use or application, data base, ratemaking procedure or technique, or other element in the ratemaking process has been consistently applied so that warranted rate decreases as well as increases occur and shall so inform the Cost of Living Counell.

§ 150.412 Reporting.

Each health insurer that had $25 million or more of covered earned premium and each property-liability insurer that had $50 million or more of covered earned premium during the calendar year preceding any rate increase shall file a quarterly report with the Cost of Living Council with a copy to the appropriate State regulatory agency at the time it normally releases its quarterly reports, but in any event not later than 45 days after the end of the quarter. Rating bureaus may furnish such reports or parts of such reports on behalf of individual insurers that have based their rates and filings on the aggregate statistics as compiled by the rating bureau. These reports shall include the following information:

(a) The data required by the quarterly reporting form prescribed by the Cost of Living Council and by § 150.414 for each rate increase effected during the preceding quarter that affected $250,000 or more of aggregate annualized premium under the pre-existing rate. However, with respect to a rate increase that has been prenotified the report need not include the supporting data required by § 150.414 but must list the rate increase, the name of the prenotifier or rating bureau, date of prenotification, line of insurance, State or States affected, and aggregate annualized premium affected.

(b) The latest available premium and claims or loss experience for those lines described below for which rates were not revised or reports not filed with the Cost of Living Council during the last four quarters as follows:

(1) For property-liability insurers the experience must be reported for private passenger, homeowners and workmen's compensation insurance coverages for each State with an annualized premium volume of $1 million or more;

(2) For health insurers the experience must be reported for all class or manual rated business and pool rated risks with an aggregate annualized premium of $1 million or more.

(c) A summary by line of business and type of coverage of all rate decreases effected during the preceding quarter that affected $250,000 or more of aggregate annualized premium under the pre-existing rate. This part of the report need not contain the data required under § 150.414 but should include a specification of the coverages affected for each line, the premium volume affected, average percentage decrease and dollar effect.

§ 150.413 Federal employees health benefits law.

The Cost of Living Council designates the U. S. Civil Service Commission to act as certifying agent for contracts of insurers under the Federal Employees Health Benefits Law. Each prenotifier with $1 million or more of aggregate annualized premium from the Federal Employees Health Benefits contract that proposes to increase rates under such a contract by more than 5 percent shall file notice thereof with the Cost of Living Council and the Civil Service Commission. The Civil Service Commission shall, with respect to each such proposed increase, certify to the Cost of Living Council that the increase is or is not in compliance with § 150.403 and that certification is prima facie evidence of compliance or noncompliance. A rate certified by the Civil Service Commission as being in compliance may go into effect on any date, specified by that Commission, that is at least 10 days after the date of certification, and at least 30 days after the date of prenotification.

§ 150.414 Data requirements.

Each prenotification filed under § 150.405 and each quarterly report made under § 150.412 shall include:

(a) The specifications of the coverages to which the rate increase is applicable and of the person or persons by which the rate is to be used;

(b) The average percentage increase by line, by coverage and by State;

(c) The annualized inflationary trend factor or factors used with specification of the applicability of the factors if more than one are involved, including pre-Phase I, Phase I, Phase II, Phase III and Phase IV applicability separately; and

(d) Any other data specified by the Cost of Living Council on a form to be prescribe by the Council.

§ 150.415 Monitoring by health insurers.

Each health insurer is authorized and encouraged to monitor and report to health care providers (both institutional and noninstitutional) any price increases by those providers that involved significant deviation from the provisions that apply to those providers and any increases in use of services or benefits that significantly exceeds its experience with that provider. Upon the receipt of such a report, the provider and the insurer shall make a good faith effort to determine whether any violation of this part has occurred and to take any steps to remedy such violation.

4. The part is amended by adding a new Subpart O to read as follows:

Subpart O—Providers of Health Services

§ 150.501 Scope.

This subpart applies to all institutional and noninstitutional providers of health services. No other provisions of Part 150 apply to institutional and noninstitutional providers of health services except § 150.1, § 150.2, §150.3, and the definition of base period in § 150.31.

§ 150.502 General.

Price adjustments by institutional and noninstitutional providers of health services remain subject to the classification, prenotification, and reporting requirements of the Council and the rules and regulations of the Price Commission in effect on January 10, 1973, except that § 300.18(g) and § 300.19(d) of this title are hereby revoked. The Cost of Living Council shall succeed to and assume all applicable rights, duties, and obligations of the Price Commission contained therein. Whenever under those rules and regulations authorizations from or reports to the Price Commission are required, such authorizations and written reports shall be obtained from or made to the Council in the form and within the time required under regulations of the Price Commission in effect on January 10, 1973, except to the extent that these reports have been superseded by Form S-52 (Revised July, 1973) and Schedule A (July, 1973).

[FR Doc.73-16877 Filed 8-10-73;12:00 pm]

PART 155—PHASE IV PRICE PROCEDURES

Part 155 establishes price procedures to be utilized in proceedings involving price matters before the Cost of Living Council and the Internal Revenue Service in Phase IV of the Economic Stabilization Program. In general, Part 155 embodies procedures previously utilized in earlier phases of the program and combines them into one part. The use of the term "Council" throughout the part encompasses actions by and appearances before both the Cost of Living Council and the Internal Revenue Service.

In general, this part provides that firms should file their submissions in duplicate with the key IRS District Office which serves the district in which their corporate headquarters are domiciled. Exceptions to this rule are insurers who file with the National Office of Internal Revenue Service, and institutional and non-institutional providers of health services who file with the Cost of Living Council. Initial actions and reconsideration of such actions will be made by the Council or IRS in accordance with Cost of Living Council Order No. 37, 38 FR 21836 (August 13, 1973).

Subpart A of Part 155 contains general provisions which parallel with only minor technical changes, Subpart A of Part 305 of the Price Commission regulations, § 155.11, Instructions to applicants, was previously included in Part 401 of the Internal Revenue Service regulations in this Title.

Subpart B, Prenotifications, reports, interpretations and other matters, is new. It establishes procedures governing initial actions of the Council with respect to all filings required or permitted under Part 150 of this chapter except for requests for exceptions, exemptions and reclassifications. Subparts C, D and E deal with exceptions, exemptions and reclassifications, notices of probable violation and remedial orders, and generally parallel Phase II Price Commission and Cost of Living Council Procedures. Subpart F is a new subpart combining all requests for reconsideration of decisions issued under Subparts B, C, D and E under a single procedure. Subpart G, which concerns compromise of civil penalties, sets forth procedures which are the same as those employed by the Price Commission during Phase II. Subparts H and I, which relate to petition and comment on rulemaking and published rulings, respectively, are again similar to Phase II rules.

Subpart J sets out the range of Council responses to a violation of the profit margin limitations established for Phase IV in Part 150. The provisions are essentially those provided in Phase II, with the exception of § 155.181 dealing with custom products. That section provides relief for a firm which exceeds its base period margin in a fiscal year during which it sells a custom product or service, and which does not qualify for the Special Rule of § 150.11(d)(iii). That Special Rule provides that charging a price for a custom product or service does not subject a firm to a profit margin limitation during its first fiscal year ending in Phase IV when the firm derives less than $10 million or less than 1 percent of its sales or revenues for that fiscal year, whichever is greater, from the sale of custom products and custom services. When a firm does not qualify for this de minimis provision, and therefore is required to take remedial action under this subpart, Subpart J provides the following rules. Where no prices have been charged above base levels for noncustom products and noncustom services, only an amount that bears the same ratio to the total profit margin overage as sales of custom products and services bears to total sales must be disgorged. Where prices in excess of base levels have been charged with respect to noncustom products and services, and the profit margin overage exceeds the revenues derived from the price increases above base levels for noncustom products and services, a firm must disgorge the revenue derived from charging prices above base levels with respect to noncustom products and services plus a portion of the remaining profit margin overage equal to the ratio that custom products and services sales bear to total sales; and if the profit margin overage is less than the revenues derived from price increases above base levels, the firm is required to disgorge the full amount of the profit margin overage.

The purpose of Subpart K is to add to the Phase IV regulations the "repurification" procedures that were available under Special Regulation No. 1 issued during Phase II. Under the "repurification" procedure, a firm which becomes subject to the profit margin limitation by virtue of having raised a price above the base level may elect to eliminate those price increases and the revenues derived therefrom and thus return to the position of a firm which has not raised prices to the level which triggers the profit margin limitation. The remission of revenues must be made in the following manner:

(1) If the ultimate consumers who purchased the goods and services prices above the "base level" are reasonably identifiable, refunds must first be made to them.

(2) To the extent that these ultimate consumers are not reasonably identifiable, revenues must be remitted in the form of future sales at prices below the base level of the same goods and services previously sold at prices above the base level.

V 38 - 157 AUG 15 73 XUM

However, in order to avoid a profit margin violation a firm which wishes to repurify must complete all action to remit revenues before the end of the fiscal year. This procedure is available to a firm which increases prices above the base level and completes action within the same fiscal year. It also is available to a firm which raises a price or prices above the base level in a previous fiscal year (without exceeding its base period profit margin for that fiscal year) and which continues to charge the increased price or prices in an ensuing fiscal year. To avoid the profit margin limitation in the ensuing year, the firm must return prices at least to the base levels and take appropriate steps to remit revenues derived in that ensuing fiscal year from the price increases which were previously put into effect. In any event, a firm which completes the steps listed above becomes subject to the profit margin limitation once again if it subsequently charges a price in excess of the "base level."

Since Executive Order No. 11730 provides that Phase IV of the Economic Stabilization Program will begin on 11:59 p.m., e.s.t., August 12, 1973 and since the Phase IV substantive regulations, Part 150, will be effective on that date, it is essential that the procedures governing appearances before and proceedings by the Cost of Living Council also be effective on 11:59 p.m., e.s.t., August 12, 1973. Consequently, in order to give immediate guidance and information to the public with respect to Phase IV price procedures, the Council finds that publication in accordance with usual rulemaking procedures is impracticable and that good cause exists for making these regulations effective in less than 30 days. Interested persons may submit written comments regarding these regulations. Communications should be addressed to the Office of General Counsel, Cost of Living Council, 2000 M Street NW., Washington, D.C. 20508.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92-210, 85 Stat. 743; Pub. L. 93-28, 87 Stat. 27; E.O. 11695, 38 FR 1473; E.O. 11730, 38 FR 19345; Cost of Living Council Order No. 14, 38 FR 1489).

In consideration of the foregoing, Part 155 is added to Chapter I of Title 6 of the Code of Federal Regulations, effective 11:59 p.m., e.s.t., August 12, 1973.

Issued in Washington, D.C. on August 9, 1973.

JOHN T. DUNLAP,
Director,
Cost of Living Council.

PART 155—PHASE IV PRICE PROCEDURES

Subpart A—General Provisions

Sec.
155.1 Purpose and scope.
155.2 Definitions.
155.3 Appearances before the Council.
155.4 Filing of Documents.
155.5 Computation of time.
155.6 Service.
155.7 Extensions of time.
155.8 Subpenas; witness fees.
155.9 Consolidations.
155.10 Effective date of orders.
155.11 Instructions to applicants.

Subpart B—Prenotifications, Reports, Interpretations and Other Matters

155.21 Purpose and scope.
155.22 Initial action by Council.
155.23 Requests for reconsideration.

Subpart C—Exceptions

155.41 Purpose and scope.
155.42 Initial action on request for exception.
155.43 Requests for reconsideration.

Subpart D—Exemptions and Reclassifications

155.61 Purpose and scope.
155.62 Initial action by Council.
155.63 Requests for reconsideration.

Subpart E—Notices of Probable Violation; Remedial Orders

155.81 Purpose and scope.
155.82 General.
155.83 Issuance of notice of probable violation to begin proceedings.
155.84 Issuance of remedial orders to begin proceedings in unusual circumstances.
155.85 Reply.
155.86 Decision.
155.87 Requests for reconsideration.

Subpart F—Requests for Reconsideration

155.101 Purpose and scope.
155.102 Who may request reconsideration.
155.103 Where to file.
155.104 When to file.
155.105 Contents of request.
155.106 Reconsideration by Council.
155.107 Hearing.
155.108 Decision by Council.
155.109 Stays pending reconsideration.

Subpart G—Compromise of Civil Penalties

155.121 Purpose and scope.
155.122 Notice of possible compromise of civil penalties.
155.123 Response to notice.
155.124 Acceptance of offer to compromise.
155.125 No compromise.

Subpart H—Petition and Comment on Rulemaking

155.141 Purpose and scope.
155.142 Who may file.
155.143 Where to file.

Subpart I—Published Rulings

155.161 Rulings for publication.

Subpart J—Profit Margin Limitations: Council Actions

155.171 Applicability.
155.172 Definitions.
155.173 General.
155.174 Council actions.
155.175 Violations during first, second, or third quarter of firm's fiscal year.
155.176 Violation for fiscal year, customers identifiable.
155.177 Violation for fiscal year, customers not identifiable.
155.178 Deduction of refunds.
155.179 Violation of order.
155.180 Prohibition of further price increases.
155.181 Custom products or services.

Subpart K—Profit Margin Repurification

155.191 Scope.
155.192 Definitions.
155.193 General rule.
155.194 Price Category I and II firms.
155.195 Price Category III firms.
155.196 Remission of revenues.
155.197 Reporting requirements.
155.198 Effect of price reductions.

APPENDIX

[Economic Stabilization Act of 1970, as amended, Pub. L. 92-210, 85 Stat. 743; Pub. L. 93-28, 87 Stat. 27; E.O. 11695, 38 FR 1473; E.O. 11730, 38 FR 19345; Cost of Living Council Order No. 14, 38 FR 1489]

Subpart A—General Provisions

§ 155.1 Purpose and scope.

(a) This part establishes procedures to be utilized in proceedings before the Cost of Living Council and the Internal Revenue Service relating to price stabilization matters under Part 150 of this chapter. The word "Council" used throughout this part encompasses actions by and appearances before both agencies in economic stabilization matters. Cost of Living Council Order No. 37, 38 FR 21836 (August 13, 1973) contains information relating to the division of stabilization functions between the Council and IRS. More specifically, this part contains procedures for:

(1) Initial actions with respect to prenotifications, reports, interpretations and other matters;

(2) Initial action on requests for exceptions;

(3) Initial actions with respect to requests for exemption and reclassification;

(4) Issuance of notices of probable violation and remedial orders;

(5) Requests for reconsideration;

(6) Compromise of civil penalties;

(7) Petition and comment on rulemaking;

(8) Published rulings;

(9) Profit margin limitations: Council actions; and

(10) Profit margin repurification.

(b) Procedural rules contained in Parts 105, 130, 140, 305 and 401 of this title continue in effect for the purpose of disposing of matters subject to those parts.

(c) Nothing in this part extinguishes or otherwise modifies present [August 13, 1973] procedures utilized by the Council in pay matters.

(d) When any small business enterprise within the meaning of section 214(a) of the Economic Stabilization Act of 1970, as amended, files a request, application or appeal under the provisions of this part it will be accorded expedited handling by affording it priority on the dockets maintained by the Council for the orderly conduct of its business.

§ 155.2 Definitions.

As used in this part, except where the context indicates otherwise, the term:

"Act" means the Economic Stabilization Act of 1970, as amended.

"Act or transaction" shall include a series or combination of such acts or transactions.

"Adverse action" means an action issued by the Council which is contrary to the position asserted by the applicant.

"Council" means the Chairman of the Cost of Living Council established by Executive Order 11615 (3 CFR, 1971 Comp., p. 199) and continued under the provisions of Executive Order 11695, or his delegate (including IRS).

"District conferee" means a person designated by a district director to process and decide any request for reconsideration referred to in this part.

"District director" means a district director of the Internal Revenue Service or his delegate.

"District office" means a district director's office and such local offices within his district as a director may designate. "Key District office" means a district office specially designated by the Assistant Commissioner of Internal Revenue (Stabilization) to handle particular stabilization matters.

"Exception" means a waiver in a particular case of the requirements of any rule, regulation, or order, issued pursuant to the Act.

"Exemption" means a general waiver of the requirements of all rules, regulations, and orders issued pursuant to the Act.

"Firm" has the same meaning as in § 150.31 of this chapter.

"Hearing Officer" means a person appointed by the Director of the Cost of Living Council or his delegate to conduct a hearing.

"Information letter" means a statement issued by a district director which calls attention to a well-established interpretation or principle of the regulations or guidelines of the Cost of Living Council without applying it to a specific set of facts. An information letter may be issued when the nature of the request from the individual or the organization suggests that it is seeking general information or where the request does not meet all the requirements of § 155.11, and it is believed that such general information will assist the individual or organization.

"Interpretation" means a written statement issued by a district director in response to an inquiry by an individual or an organization, which applies to the particular facts involved the principles and precedents previously announced by the Cost of Living Council. Interpretations are issued only where a determination can be made on the basis of established rules as set forth in the regulations and guidelines of the Cost of Living Council or by rulings or court decisions.

"IRS" means the Internal Revenue Service.

"National Office" means the Office of the assistant Commissioner of Internal Revenue (Stabilization).

"Notice of probable violation" means a written statement issued to a person by the Cost of Living Council or the Internal Revenue Service setting forth one or more charges of alleged violation of the Economic Stabilization Program.

"Person" means any firm, individual, estate, trust, sole proprietorship, partnership, association, company, joint-venture, corporation, governmental unit or instrumentality thereof, or a charitable, educational or other institution; however, the term does not include a foreign government or instrumentality thereof or international organizations established by treaty or by agreement among participating governments.

"Person aggrieved" means a person with a substantial pecuniary interest which is adversely affected by an order or interpretation issued by the Council.

"Person with a substantial pecuniary interest" means a person who increased or seeks to increase a price.

"Practice before the Cost of Living Council or IRS" comprehends all matters connected with presentation to the Council or IRS or any of its officers or employees relating to a client's rights, privileges, or liabilities under laws or regulations administered by the Council or IRS relating to economic stabilization matters. Such presentations include the preparation and filing of necessary documents, correspondence with and communications to the Council or IRS, and the representation of a client at conferences, hearings, and meetings. Neither the appearance of an individual as a witness, nor the furnishing of information at the request of the Council or IRS or any of its officers or employees is considered practice before the Council or IRS.

"Price increase" has the same meaning as in § 150.31 of this chapter.

"Regulation" means a regulation promulgated by the Director of the Cost of Living Council, or his delegate, which appears in Title 6, Code of Federal Regulations.

"Request for a determination" means a written inquiry by a person as to the application to him of the regulations and guidelines promulgated by the Cost of Living Council in respect of a completed or proposed act or transaction. Thus, such a request may be a request for an interpretation or an application for an exception.

"Ruling" means an official interpretation by General Counsel of the Cost of Living Council, published in the FEDERAL REGISTER, which applies the regulations and guidelines of the Cost of Living Council to a specific set of facts.

§ 155.3 Appearances before the Council or IRS.

(a) A person may take any action or make any appearance which is required or permitted by this title on his own behalf, or he may be represented by any natural person, age 21 years or older, whom he has designated to represent him. Such designation shall be in writing and signed by the person legally authorized to so designate and shall be filed with the Council or appropriate IRS office, as the case may be.

(b) Persons appearing before the Cost of Living Council or the Internal Revenue Service in economic stabilization matters may be barred therefrom for disreputable conduct which includes, but is not limited to the following:

(1) Filing false or altered documents, affidavits, and other papers;

(2) Making false or misleading representations either orally or in writing; or

(3) Using intemperate or abusive language or engaging in disruptive conduct before the Council or IRS.

§ 155.4 Filing of documents.

(a) Unless otherwise expressly provided, a document required to be filed directly with the Council or directly with a key IRS District office or National IRS office under this title is considered filed when it has been received at the appropriate office. Documents received after regular business hours are deemed filed on the next regular business day.

(b) All documents filed with the Council or IRS must be filed in duplicate.

§ 155.5 Computation of time.

(a) In computing any period of time prescribed or allowed by this title for the performance of any act, the day of the act, event, or default on which the designated period of time begins to run will not be counted.

(b) If the last day of the period falls on a Saturday, Sunday, or a Federal legal holiday, the period will be extended to the next day which is not a Saturday, Sunday, or a Federal legal holiday.

(c) If the period prescribed or allowed is 7 days or less, an intervening Saturday, Sunday, or Federal legal holiday will not be counted.

§ 155.6 Service.

(a) All documents required to be served under this title are to be served personally, by registered or certified mail, or by regular U.S. mail (this option available only for service by the Council or IRS) on the person specified in the regulations in this title.

(b) If a person is represented by a duly authorized representative, service on the representative shall constitute service on the person.

(c) A certificate of service shall be filed with the Council for each document served.

(d) Service by mail is complete upon mailing.

§ 155.7 Extension of time.

If an action is required to be taken within a prescribed time under this title, an extension of time will be granted only upon a showing of good cause.

§ 155.8 Subpenas; witness fees.

(a) The Director of the Council, his duly authorized agent, the General Counsel, or an IRS District director of a key IRS District Office may sign and issue subpenas.

(b) A subpena may require the attendance of witnesses and the production of relevant papers, books, and documents in the possession or under the control of the person served.

(c) A subpena may be served by any person who is not a party and not less than 18 years of age.

(d) The original subpena bearing a certificate of service shall be filed with the issuing officer.

(e) A witness to whom a subpena has been issued pursuant to this section shall be paid the same fees and mileage as are paid witnesses in district courts of the United States. The witness fees and mileage shall be paid by the party at whose instance the subpena was issued.

§ 155.9 Consolidations.

Upon the initiative of the Council, the Director of the Council or his delegate, a Hearing Officer, a District director or his delegate, or a District conferee, or in response to a party's motion, two or more requests for exception, exemption, reclassification, or other cases which involve substantially the same parties or issues which are closely related, may be

V 38-157 AUG 15 73 XUM

consolidated if it is found that such consolidation will expedite the proceedings or otherwise assist the Council or IRS in carrying out their economic stabilization functions.

§ 155.10 Effective date of orders.

Any order issued by the Council under this title is effective, in accordance with its terms, unless and until it is stayed, modified, suspended, or revoked.

§ 155.11 Instructions to applicants.

(a) Each request for a determination must be submitted in writing to the appropriate district director and contain a complete statement of all relevant facts relating to the act or transactions. Such facts include names, addresses, and identifying numbers of all affected parties (if reasonably ascertainable); a full and precise statement of the business reasons for the act or transaction (where appropriate); and a carefully detailed description of the act or transaction. In addition, true copies of all contracts, agreements, leases, instruments, and other documents involved must be submitted with the request. However, relevant facts reflected in documents submitted must be included in the statement and not merely incorporated by reference, and must be accompanied by an analysis of their bearing on the issue or issues, specifying the pertinent provisions. The request must contain a statement whether, to the best of the knowledge of the applicant or his representative, the identical issue is being considered by any field office of the IRS (or other governmental agency) in connection with a possible violation of economic stabilization regulations or guidelines by the person who is the subject of the requested determination. The request must also contain a statement as to whether the applicant or his representative has previously requested a determination with respect to the subject matter of the requested determination from any office of the IRS or any other governmental agency, detailing the disposition of any such previous request, or has filed an application for an exception or an exemption. Where the request pertains to only one step of a larger integrated transaction, the facts, circumstances, etc., must be submitted with respect to the entire transaction. As documents and exhibits become a part of the file and cannot be returned, the original documents should not be submitted.

(b) If the applicant is contending for a particular determination, he must furnish an explanation of the grounds for his contentions, together with a statement of relevant authorities in support of his views. Even though the applicant is urging no particular determination with regard to an act or transaction, he must state his views as to the effect of economic stabilization regulations and guidelines upon the action and furnish a statement of relevant authorities to support such views.

(c) A request by or for an applicant must be signed by the applicant or his authorized representative. If the request is signed by a representative of the applicant, or if the representative is to appear before the Council or IRS in connection with the request he must be a person who complies with the appearance requirements of this part. Such representative must not be under disbarment or suspension to practice before the Internal Revenue Service or the Cost of Living Council. Form S–68, Power of Attorney, must be used with regard to determinations requested pursuant to this section.

(d) Any request for a determination which does not comply with all the provisions of this section will be acknowledged and the requirements which have not been met will be pointed out.

(e) An applicant or his representative who desires an oral discussion of the issue or issues involved should indicate such desire in writing when filing the request or soon thereafter in order that a conference or hearing, if granted, may be arranged at that stage of consideration when it will be most helpful.

(f) It is the practice of the IRS to process requests for determinations in regular order and as expeditiously as possible. Compliance with a request for consideration of a particular matter ahead of its regular order, or by a specified time, tends to delay the disposition of other matters. Requests for processing ahead of the regular order, made in writing in a separate letter submitted with the request or subsequent thereto and showing clear need for such treatment will be given consideration as the particular circumstances warrant. However, no assurance can be given that any request for determination will be processed by the time requested. For example, the scheduling of a closing date for transaction or a meeting of the board of directors or shareholders of a corporation without due regard to the time it may take to obtain such a determination will not be deemed sufficient reason for handling a request ahead of its regular order. Neither will the possible effect of fluctuation in the market price of goods or commodities on a transaction be deemed sufficient reason for handling a request out of order. Requests by telegram will be treated in the same manner as requests by letter. Determinations ordinarily will not be issued by telegram.

(g) A request for an interpretation which includes, or could be construed to include, an application for an exception or exemption will nonetheless be treated solely as a request for an interpretation, as appropriate, and processed as such.

Subpart B—Prenotifications, Reports, Interpretations and Other Matters

§ 155.21 Purpose and scope.

(a) This subpart establishes the procedures of the Council governing initial actions with respect to all filings required or permitted under the provisions of Part 150 of this chapter except for requests for exceptions which are governed by subpart C of this part and requests for exemption or reclassification which are governed by Subpart D of this part. All papers filed must conform to the requirements set forth in Part 150 and any filing instructions which accompany the prescribed forms.

(b) Except as provided in paragraphs (c) and (d) of this section, all firms making initial filings with respect to the following matters shall file their papers with the key IRS District Office which serves the district in which their corporate headquarters are domiciled:

(1) Prenotifications and reports filed pursuant to subparts H, K, L, N, or P of Part 150;

(2) Applications for modification of prenotification requirements pursuant to § 150.151(b)(2)(iv);

(3) Applications for volatile pricing authorizations pursuant to § 150.156;

(4) Reports supporting loss or low profit firm pricing pursuant to § 150.201.

(5) Reports supporting minimum profit margin treatment pursuant to § 150.202;

(6) Merchandise pricing plans pursuant to § 150.306; and

(7) Requests for interpretation

(c) Insurers subject to subpart M of Part 150 of this chapter shall make all filings pursuant to that subpart and shall file requests for interpretation with the Internal Revenue Service, Insurance Group (Stabilization), P.O. Box 995, Washington, D.C. 20044.

(d) Institutional and noninstitutional providers of health services subject to Subpart O of Part 150 of this chapter shall make all filings pursuant to that subpart and shall file requests for interpretation with the Cost of Living Council, 2000 M Street, NW., Washington, D.C. 20508.

(e) Initial actions on filings made pursuant to this subpart may be made by the Council or IRS, as appropriate, in accordance with Cost of Living Council Order No. 37, 38 FR 21836 (August 13, 1973).

§ 155.22 Initial actions by the Council.

(a) In those cases in which a document is filed with the Council and the applicable provision of Part 150 provides that a proposed action may be taken unless the Council takes affirmative action to suspend, modify, defer, or disapprove the proposed action, the Council may make a decision and issue an order together with a statement of the grounds therefor to suspend, modify, defer, or disapprove the proposed action pursuant to the applicable provision of Part 150.

(b) In those cases in which a document is filed with the Council and the applicable provision of Part 150 provides that a proposed action may be taken unless the Council approves, the Council will make a decision and issue an order together with a statement of the grounds therefor.

(c) Within 60 days after it receives a firm's merchandise pricing plan pursuant to § 150.306, the Council will review the plan and (1) approve it or (2) take the action provided for in § 150.308.

(d) The Council will issue interpretations in response to requests for interpretation filed pursuant to § 155.21 of this subpart.

(e) The Council will advise the recipient of an order or interpretation issued under this section which is adverse to the recipient that he may seek reconsideration under subpart F.

§ 155.23 Requests for Reconsideration.

Any person aggrieved by an initial action of the Council under this subpart may request reconsideration pursuant to Subpart F. The Council will not consider that a person appearing before the Council has exhausted his administrative remedies until he has filed a request for reconsideration under subpart F and final action has been taken by the Council under §§ 155.106 through 155.108.

Subpart C—Exceptions

§ 155.41 Purpose and scope.

Exceptions from the provisions of Part 150 of this title may be granted for the purpose of preventing or correcting a serious hardship or gross inequity.

(a) All persons requesting exceptions shall file their applications with the key IRS District Office which serves the district in which their corporate headquarters are domiciled, except that persons who are: (1) Insurers subject to Subpart M of Part 150 of this chapter, shall file with the Internal Revenue Service, Insurance Group (Stabilization), P.O. Box 995, Washington, D.C. 20044 and (2) Institutional and noninstitutional providers of health services subject to subpart O of Part 150 of this chapter, shall file with the Cost of Living Council, 2000 "M" Street, NW., Washington, D.C. 20508. All requests for exception, wherever filed, must conform to the requirements set out in § 155.11 of this part.

(b) Initial actions on requests for exception may be made by the Council or IRS, as appropriate, in accordance with Cost of Living Council Number 37, 38 FR 21836 (August 13, 1973).

(c) This subpart establishes the rules of the Council governing the disposition of requests for exceptions.

§ 155.42 Initial action on request for exception.

After considering the record, the Council will make a decision and issue an appropriate order:

(a) When the Council grants an exception it will serve upon the applicant a copy of its order.

(b) When the Council denies an exception in whole or in part, it will serve upon the appellant a copy of its order, which will contain a statement of the grounds for denial, and advise the applicant that he may request reconsideration pursuant to Subpart F of this part.

§ 155.43 Requests for reconsideration.

Any person aggrieved by an initial action of the Council under this subpart may request reconsideration pursuant to Subpart F of this part. The Council will not consider that a person appearing before the Council has exhausted his administrative remedies until he has filed a request for reconsideration under Subpart F and final action has been taken by the Council under §§ 155.106 through 155.108.

Subpart D—Exemptions and Reclassifications

§ 155.61 Purpose and scope.

(a) All requests for exemption, or reclassification with respect to prenotification or reporting requirements must be filed with the Cost of Living Council, 2000 M Street, NW., Washington, D.C. 20508.

(b) This subpart establishes the rules of practice of the Council governing initial action on requests for exemption or reclassification.

§ 155.62 Initial action by Council.

After considering the record, the Council will make a decision and issue an order:

(a) When the Council grants an exemption or reclassification, it will serve upon the appellant a copy of its order.

(b) When the Council denies an exemption or reclassification, in whole or in part, it will serve upon the appellant a copy of its order, which will contain a statement of the grounds for denial, and advise the applicant that he may request reconsideration pursuant to Subpart F of this part.

§ 155.63 Requests for reconsideration.

Any person aggrieved by an initial action of the Council under this subpart may request reconsideration pursuant to Subpart F of this part. The Council will not consider that a person appearing before the Council has exhausted his administrative remedies until he has filed a request for reconsideration under Subpart F and final action has been taken by the Council under §§ 155.106 through 155.108.

Subpart E—Notices of Probable Violation; Remedial Orders

§ 155.81 Purpose and scope.

(a) This subpart establishes the procedures for determining the nature and extent of violations and the procedures for the issuance of remedial orders.

(b) A "remedial order" is an order requiring a person to cease a violation or to take action to eliminate or to compensate for the effects of a violation, or both, or which imposes other sanctions.

§ 155.82 General.

When any report required by the Council or any audit or investigation discloses, or the Council otherwise discovers, that a person appears to be in violation of the Act or any regulation in this title, the Council may conduct proceedings to determine the nature and extent of the violations and issue remedial orders. The Council may commence proceedings by serving a notice of probable violation or by issuing a remedial order.

§ 155.83 Issuance of notice of probable violation to begin proceedings.

The Council may begin proceedings under this subpart by issuing a notice of probable violation if the Council has reason to believe that a violation has occurred or is about to occur.

§ 155.84 Issuance of remedial orders to begin proceedings in unusual circumstances.

Remedial orders may be issued to begin proceedings under this subpart if the Council finds on preliminary examination that the violations are patent or repetitive, that their immediate cessation is required to avoid irreparable injury to others or unjust enrichment to the person to whom the order is issued, or for any other unusual circumstance the Council deems sufficient.

§ 155.85 Reply.

(a) Within 10 days of receipt of a notice of probable violation issued under § 155.83 or a remedial order issued under § 155.84, the person to whom the notice or order is issued may file a reply. The reply must be in writing. He may also request an appointment for a personal appearance, which must be held within the 10-day period provided for reply. He may be represented or accompanied by counsel at the personal appearance. The Council will extend the 10-day reply period for good cause shown.

(b) If a person does not reply within the time allowed by a notice of probable violation, the violation will be considered admitted as alleged and the Council may issue whatever remedial order would be appropriate.

(c) If a person has not replied to the Council within the 10-day period provided and a remedial order issued to begin proceedings, the order will go into effect or remain in effect, in accordance with its terms as the case may be.

(d) An order which goes into effect or is permitted to remain in effect under paragraph (c) of this section or an order issued under paragraph (b) of this section is not subject to judicial or any other review with respect to any finding of fact or conclusion of law which could have been raised in the proceedings before the Council by the filing of a reply.

§ 155.86 Order.

(a) If the Council finds, after the person has filed a reply under § 155.85, that no violation has occurred or is about to occur or that for any other reason the issuance of a remedial order would not be appropriate, it will issue an order so stating and, if necessary, revoke or modify any remedial order which already may be outstanding.

(b) If the Council finds that a violation has occurred or is about to occur and that a remedial order is appropriate, it will issue an order so stating and, if necessary, direct remedial action, vacate the suspension of any outstanding remedial order, or modify as appropriate, any outstanding remedial order. The order will state the grounds upon which it is based.

(c) Remedial orders issued hereunder may include any of the provisions stated in § 150.163 of this chapter or Subpart J of this part for the kind of violation con-

V 38-157 AUG 15 73 XUM

cerned or any other requirement which is reasonable and appropriate.

§ 155.87 Requests for reconsideration.

Any person aggrieved by an initial action of the Council under this subpart may request reconsideration pursuant to subpart F of this part. Requests for reconsideration of an order under this subpart will be accorded expedited treatment by the Council. The Council will not consider that a person appearing before the Council has exhausted his administrative remedies until he has filed a request for reconsideration under Subpart F and final action has been taken by the Council under §§ 155.106 through 155.108.

Subpart F—Requests for Reconsideration

§ 155.101 Purpose and scope.

(a) This subpart establishes the procedures governing reconsideration of initial actions taken under Subparts B, C, D, or E of this part.

(b) The Council will not consider that a person who has appeared before the Council in connection with a matter arising under Subparts B, C, D, or E has exhausted his administrative remedies until he has filed a request for reconsideration under this subpart and final action thereon has been taken by the Council under §§ 155.106 through 155.108.

§ 155.102 Who may request reconsideration.

Any person aggrieved by an initial action of the Council under Subparts B, C, D, or E of this part may request reconsideration.

§ 155.103 Where to file.

A request for reconsideration shall be filed with the IRS or Council official who issued the initial action or decision from which reconsideration is sought.

§ 155.104 When to file.

A request for reconsideration must be filed within 30 days of service of the initial action or decision from which reconsideration is sought.

§ 155.105 Contents of request.

(a) A request for reconsideration shall—

(1) Be in writing and signed by the appellant;

(2) Be designated clearly as a request for reconsideration;

(3) Contain a concise statement of the grounds for reconsideration and the requested relief;

(4) Be accompanied by briefs, if any; and

(5) Be marked on the outside of the envelope—"Reconsideration."

(b) If the request for reconsideration is from an order issued under § 155.86 and involves an outstanding remedial order, the envelope should be marked "Reconsideration—Outstanding Remedial Order."

§ 155.106 Reconsideration.

(a) The Council will reconsider its initial action taken under Subparts B, C, D or E of this part if a request for reconsideration:

(1) Is made by a person aggrieved by the initial action;

(2) Is timely; and

(3) Makes a prima facie showing that the Council's initial action was erroneous in fact or in law.

(b) The Council may summarily reject a request for reconsideration which is not timely or which was filed by a person other than the one against whom the initial action was taken.

(c) The Council may summarily reject a request for reconsideration which fails to make a prima facie showing that the Council's initial action was erroneous in fact or in law, in which case it will notify the applicant of its action. Such appellant may seek judicial review under the Act.

(d) When a request for reconsideration meets the requirements set forth in paragraph (a) of this section, the Council will proceed in accordance with § 155.107 through § 155.108.

(e) The Council on its own motion may consider any additional evidence that it deems relevant and which in its opinion the party did not have a reasonable opportunity to present previously.

§ 155.107 Hearing.

(a) If the Council in its discretion deems that a hearing or conference is advisable, it will, as expeditiously as possible after receiving the request for reconsideration, direct that a hearing or conference be held before a Hearing Officer or District conferee.

(b) When a hearing or conference has been directed in accordance with paragraph (a) of this section, it will be conducted promptly after written notice has been served on the appellant, at such time and place as the Council may direct.

(c) When a hearing is conducted in accordance with this section, the appellant may present oral argument and submit such additional documentary evidence as the Hearing Officer or District conferee allows.

(d) When administratively feasible, within 30 days after the close of the hearing, the Hearing Officer or District conferee will submit to the Council a report and any recommendation he deems appropriate with respect to the appellant's request for reconsideration.

§ 155.108 Decision by Council.

(a) When administratively feasible, within 10 days of receipt of a request for reconsideration, or within 30 days of a Hearing Officer's or District conferee's report, when a hearing or conference has been held, the Council will make a decision and issue an order. However, if a remedial order is outstanding and reconsideration is sought from an order under § 155.86, the Council will make every effort to expedite the issuance of an order under this section. It is expected that such orders will ordinarily issue within 10 days of receipt of the request for reconsideration.

(b) When an order grants the requested relief, a copy of the order will be served upon the party to the proceedings.

(c) When the order denies the requested relief in whole or in part, the Council will set forth the grounds therefor, and advise appellant that he has exhausted his administrative remedies.

§ 155.109 Stays pending reconsideration.

As part of a request for reconsideration, any person may request a stay of the initial action for which reconsideration is sought pending final disposition of the request for reconsideration. The Council may grant a request for stay for good cause shown.

Subpart G—Compromise of Civil Penalties

§ 155.121 Purpose and scope.

(a) Under section 208(b) of the Economic Stabilization Act of 1970, as amended, whoever violates an order or regulation issued by the Council (or an order or regulation by the Price Commission during the time that such order or regulation was or is in effect) under that Act is subject to a civil penalty of not more than $2,500 for each violation. This subpart prescribes procedures governing the compromise and collection of those civil penalties which the Council considers appropriate or advisable to settle through compromise.

(b) Except as provided in paragraph (c) of this section, in the case of violations of price stabilization regulations and orders by price category III firms and for late filings of reports by all firms, the District Director of a key IRS district office may settle civil penalty cases through compromise.

(c) In the case of violations of price stabilization regulations and orders by institutional and noninstitutional providers of health services subject to Subpart O of Part 150 of this chapter, and all other violations, the General Counsel of the Cost of Living Council may settle civil penalty cases through compromise.

§ 155.122 Notice of possible compromise of civil penalties.

If the Council considers it appropriate or advisable under the circumstances of a particular civil penalty case to settle it through compromise, the General Counsel of the Cost of Living Council, or his delegate, or district director of a key IRS district office, as appropriate, sends a letter to the person charged with the violation advising him of the charges against him, the order or regulation that he is charged with violating, and the total amount of penalty involved, and that the Council is willing to consider an offer in compromise of the amount of the penalty.

§ 155.123 Response to notice.

(a) A person who receives a notice pursuant to § 155.122 may present to the General Counsel or district director, as appropriate, any information or material bearing on the charges that denies, explains, or mitigates the violation. The person charged with the violation

may present the information or materials in writing or he may request an informal conference for the purpose of presenting them. Information or materials so presented will be considered in making a final determination as to the amount for which a civil penalty is to be compromised.

(b) A person who receives such a notice may offer to compromise the civil penalty for a specific amount by delivering to the General Counsel or district director, as appropriate, a certified check for that amount payable to the Treasurer of the United States. An offer to compromise does not admit or deny the violation.

§ 155.124 Acceptance of offer to compromise.

(a) The General Counsel or district director, as appropriate, may accept or reject an offer to compromise a civil penalty. If he accepts it, he sends a letter to the person charged with the violation advising him of the acceptance.

(b) If the General Counsel or district director, as appropriate, accepts an offer to compromise, that acceptance is in full settlement on behalf of the United States of the civil penalty for the violation. It is not a determination as to the merits of the charges. A compromise settlement does not constitute an admission of violation by the person concerned.

§ 155.125 No compromise.

If a compromise settlement of a civil penalty cannot be reached, the General Counsel may refer the matter to the Attorney General for the initiation of proceedings in a U.S. district court to collect the full amount of the penalty, or take such other action as is necessary.

Subpart H—Petition and Comment on Rulemaking

§ 155.141 Purpose and scope.

(a) The provisions of 5 U.S.C. 553 will be followed for the issuance of all regulations or amendments to regulations by the Council, to the extent such provisions apply.

(b) In addition, the Council will accept from interested persons written comments on or written objections to its regulations or its published rulings at any time. If in the opinion of the Council such comments or objections warrant a proceeding similar to a rule making proceeding as provided by 5 U.S.C. 553, the Council will conduct such a proceeding pursuant to notice published in the FEDERAL REGISTER.

§ 155.142 Who may file.

Any interested person may file a comment on or objection to a regulation or published ruling at any time.

§ 155.143 Where to file.

A written comment or objection to a regulation or published ruling shall be filed with the Cost of Living Council, 2000 M Street, NW., Washington, D.C. 20508.

Subpart I—Published Rulings

§ 155.161 Rulings for publication.

From time to time, the General Counsel of the Cost of Living Council will issue rulings for publication in the FEDERAL REGISTER which are:

(a) Of general applicability,

(b) Illustrative of a general principle, or

(c) Of assistance to the public in applying the Act, regulations and guidelines to a specific situation.

Subpart J—Profit Margin Limitations: Council Actions

§ 155.171 Applicability.

This subpart applies to all activities of a firm subject to a profit margin limitation under Part 150.

§ 155.172 Definitions.

For the purposes of this subpart:

"Base level" of an item means the greater of the base price of that item as determined in accordance with Subpart F of Part 150 of this chapter or the adjusted freeze price of that item as defined in Subparts E or K of Part 150 of this chapter.

§ 155.173 General.

The Council may make the determination of whether a firm is in violation of a profit margin limitation prescribed in this chapter—

(a) In the case of any firm, on the basis of whether that firm's profit margin, for the fiscal year in which it made a charge above a base level, exceeded its base period profit margin; and

(b) In the case of a price category I or II firm, on the basis of whether that firm's profit margin for any quarter of that fiscal year, after such a charge is made, is at the rate that would, when projected for the entire fiscal year, exceed its base period profit margin and the firm fails to demonstrate, to the satisfaction of the Council, that its base period profit margin will not be exceeded for that fiscal year, for reasons such as seasonal patterns.

§ 155.174 Council actions.

The Council may take any action specified in § 155.175, § 155.176, § 155.177 or § 155.179, as applicable with respect to a violation of a profit margin limitation prescribed in this chapter.

§ 155.175 Violations during first, second, or third quarter of firm's fiscal year.

Whenever, pursuant to paragraph (b)(2) of this section, the Council determines that a firm is illegally exceeding its base period profit margin for the first quarter, or for the second or third quarter (on a cumulative basis), the Council may, at the option of the violator, order the action specified in paragraph (a) or (b) of this section.

(a)(1) Order the firm immediately to lower the price of any or all of its products or services to base levels; and

(2) Order either—

(i) A refund, within a period prescribed by the Council of the revenues derived from the prices charged in violation of this section to the extent that they exceeded the revenues from the prices which otherwise would have been chargeable, to the persons who paid those prices, if they are reasonably identifiable; or

(ii) If those persons are not reasonably identifiable, a reduction of the prices below base levels, as appropriate, by an amount that will equal the amount by which the revenues from the prices in violation of this section exceeded the prices which otherwise would have been chargeable, by the end of the fiscal quarter following the fiscal quarter in which the order of the Council is issued.

(b)(1) With respect to a violation occurring during the first quarter of the firm's fiscal year, order price reductions sufficient to ensure that the profit margin on the firm's quarterly report for the fiscal quarter following the fiscal quarter in which the order of the Council is issued, will not exceed the firm's base period profit margin.

(2) With respect to a violation occurring during the second quarter of the firm's fiscal year, order price reductions sufficient to ensure that the profit margin on the firm's quarterly report for the last quarter of its fiscal year will not exceed the firm's base period profit margin.

(3) With respect to a violation occurring during the third quarter of the firm's fiscal year, order price reductions sufficient to ensure that the profit margin on the firm's quarterly report for the first quarter of the fiscal year following the fiscal year in which the violation occurred will not exceed the firm's base period profit margin.

§ 155.176 Violation for fiscal year, if persons who paid the illegal charges are reasonably identifiable.

Whenever, pursuant to § 155.173 of this part, the Council determines that a firm has illegally exceeded its base period profit margin for the fiscal year, and the persons who paid the illegal prices are reasonably identifiable, the Council may order—

(a) The refund of revenues derived from the prices in violation to the extent that they exceed the revenues from prices which otherwise would have been chargeable, or the dollar value of the excess profit margin, whichever is less; and

(b) The reduction of prices to the extent necessary to lower the firm's revenues by an amount equal to two times the amount that the revenues derived from the prices in violation exceeded the revenues which otherwise would have been realized; or equal to two times the dollar value of the excess profit margin, whichever is less, by the end of the third quarter of the fiscal year following the fiscal year in which the violation occurred.

§ 155.177 Violation for fiscal year, if persons who paid the illegal charges are not reasonably identifiable.

Whenever, pursuant to § 155.173 the Council determines that a firm has illegally exceeded its base period profit margin for the fiscal year, and the persons

V 38-157 AUG 15 73 XUM

who paid the illegal prices are not reasonably identifiable, the Council may order the reduction of prices to the extent necessary to lower the firm's revenues by an amount equal to three times the amount that the revenues derived from the prices in violation exceeded the revenues which would otherwise have been realized, or equal to three times the dollar value of the excess profit margin, whichever is less, by the end of the third quarter of the fiscal year following the fiscal year in which the violation occurred.

§ 155.178 Deduction of refunds.

For the purpose of computing a firm's profit margin in any quarter or fiscal year following a quarter in which it made refunds or reductions pursuant to an order issued under this section, that firm may not be allowed to deduct from its revenues the amount of those refunds or reductions that it made.

§ 155.179 Violation of order.

If a firm violates any provision of an order issued under this section, the Council may order it to reduce prices still further to the extent necessary to lower its revenues by an amount equal to two times the amount ordered to be refunded or reduced under this section, reduced to the extent that the firm has partially complied with the previous order.

§ 155.180 Prohibition of further price increases.

In any case in which the Council considers a firm to be in violation of its profit margin limitations, the Council may order that firm to make no further price increases without the specific approval of the Council.

§ 155.181 Custom products or services.

(a) Notwithstanding any other provisions of this subpart, a firm which exceeds its base period profit margin limitation in the same fiscal year in which it sells a custom product or service subject to Subpart F of Part 150, and which does not qualify for the Special Rule in § 150.11(d)(iii), shall be required to disgorge, through refunds or price reductions, an amount as follows:

(1) In the case of a firm which did not, in that fiscal year, charge a price for any item which exceeds the base level: an amount which bears the same ratio to the dollar value of the profit margin excess that its sales of custom products and custom services bears to total sales;

(2) In the case of a firm which in that fiscal year charged a price for an item in excess of the base level

(i) Where the dollar value of the profit margin excess is equal to or less than the revenues derived from the prices in violation to the extent that they exceed the revenues which otherwise would have been chargeable: the dollar value of the profit margin excess; and

(ii) Where the revenues derived from the prices in violation to the extent that they exceed the revenues which otherwise would have been chargeable, are less than the dollar value of the profit margin excess: Those revenues, plus an amount which bears the same ratio to the difference between those revenues and the dollar value of the profit margin excess that the firm's sales of custom products and custom services bears to total sales.

(b) For purposes of computing the ratio which sales of custom products or services bear to total sales pursuant to paragraph (a) of this section, a firm shall exclude from sales of custom products or services, for its first fiscal year ending after August 12, 1973, and before January 1, 1974, any sales of a custom product or service, after August 12, 1973, under a contract entered into before August 13, 1973.

Subpart K—Profit Margin Repurification

§ 155.191 Scope.

The subpart applies to any firm subject to a profit margin limitation imposed by Part 150 of this chapter.

§ 155.192 Definitions.

For the purposes of this subpart:

"Base level" of an item means the greater of the base price of that item as determined in accordance with Subpart F of Part 150 of this chapter or the adjusted freeze price of that item as defined in Subparts E or K of Part 150 of this chapter.

"Internal Revenue Service" means the District Director of the key IRS District Office which serves the district in which the corporate headquarters of the firm concerned are domiciled.

"Price Category I or II firm" means a price category I firm or a price category II firm as defined in Subpart C of Part 150 of this chapter.

"Price Category III firm" means a price category III firm as defined in Subpart C of Part 150 of this chapter.

§ 155.193 General rule.

Any firm subject to a profit margin limitation under Part 150 of this chapter is not subject to that limitation if, before the end of the fiscal year in which it charged a price above the base level, the firm (a) rescinds all price increases above base levels, and (b) in conformity with §§ 155.194, 155.195 and 155.196 of this subpart, remits to customers in the form of refunds, or future sales at prices below base levels of the same goods and services previously sold at prices above base levels, or both, an amount equal to or greater than the revenues derived in that fiscal year from charging a price or prices in excess of base price levels.

§ 155.194 Price Category I and II Firms.

(a) A price category I or II firm may take action to reduce prices to base levels at any time.

(b) Before remitting revenues derived from charging prices above base levels, each firm shall submit, for the approval of the Internal Revenue Service, a letter of intent to remit revenues under this regulation. If the firm receives no written response to its letter of intent within 20 days after the date it was received by the Internal Revenue Service, the firm may assume approval and proceed to remit revenues in accordance with § 155.196 of this part.

(c) To be eligible for Internal Revenue Service approval under this subpart, a letter of intent must be received at such a time before the end of the firm's fiscal year as will allow Internal Revenue Service review thereof in accordance with paragraph (b) of this section and as will allow the firm to fully execute the plan for remission of revenues before the end of that fiscal year. In any event, a letter of intent must be received at least 30 days before the end of that fiscal year.

(d) Each letter of intent to remit revenues shall include a revenue remission plan presenting the following information:

(1) The amount of revenue the firm has received as a result of having increased the price of property or services, or both, above base levels, indicated by product, product line, service, or service line;

(2) The above-base-level selling price, the base level, and the proposed below-base-level selling price of each product, product line, service or service line;

(3) The sales figures and other information which demonstrates that the proposed prices below base level will result in remission of revenues derived from charging prices above the base level;

(4) The period of time during which the remission of revenues will take place;

(5) The anticipated effect of the firm's price reductions on competition and the manner in which the firm's revenue remission plan will minimize disruption of competitive pricing patterns; and

(6) The amount of revenues which can be refunded to customers.

§ 155.195 Price Category III Firms.

A price category III firm which intends to make price reductions and refunds pursuant to this subpart shall, before remitting revenues derived from charging prices above base levels, record its intent in a notarized statement.

§ 155.196 Remission of Revenues.

(a) Remission of revenues derived from charging prices above base levels shall be made first in the form of refunds to individual customers who purchased goods and services at prices in excess of base levels, to the extent that those customers are reasonably identifiable. For the purpose of making refunds pursuant to this subpart, "customer" means, so far as possible, the ultimate consumer. To the extent that customers are not reasonably identifiable, remission of the balance of revenues derived from charging prices above base levels shall be made to customers of the same class as those charged the increased prices through the reduction of the price of those items which were raised above base levels to below base levels, so that the difference between the revenues realized at the reduced prices and the revenues which would have been realized if the sales had been made at base levels is equal to or greater than the revenues (net of any refunds) derived from charging prices above base levels.

(b) Each firm that remits revenues shall make such arrangements with its immediate customers, purchasers, dealers, employees or agents as are necessary to obtain and maintain records of the names and addresses of ultimate consumers who are reasonably identifiable in accordance with normal business practices and to assure that refunds are in fact made to such ultimate consumers.

§ 155.197 Reporting requirements.

No firm is considered to be restored to the position of a firm which has not raised any prices above base levels until it has carried out its revenue remission plan and complied with all of the applicable requirements of §§ 155.193 through 155.196 of this part. Upon meeting these requirements, a price category I or II firm may submit the certification of no price increase which, pursuant to the instructions to the Form CLC–22, certain firms which have not charged any price above the base level may use in lieu of reporting on price increases. However, the first certification of no price increase submitted after remission of revenues pursuant to this regulation shall be accompanied by a report which includes:

(a) A statement signed by that firm's chief executive officer (or other authorized officer) certifying that all selling prices of those items which were previously raised above base levels have been reduced to base levels; and

(b) The following information, set forth in detail, showing that all other curative actions have been completed:

(1) The dollar amount of the revenues which the firm received as a result of having charged a price for items above base levels during the current fiscal year;

(2) The names and addresses of all customers, if any, to whom the firm has made refunds pursuant to this subpart, together with the amounts refunded in each case and the date of each refund;

(3) The nature, type, and extent of price reductions below base levels which the firm did, in fact, institute pursuant to this subpart including the dollar amount of the revenues realized from sales at below base levels compared with the dollar amount of the revenues which would have been received if those sales had been made at base levels.

§ 155.198 Effect of Price Reductions.

This subpart does not relieve any firm of its obligations under the Clayton Act, the Federal Trade Commission Act, or any law with a similar purpose; nor does it permit or obligate any firm to do any act or engage in any practice which would violate any of those laws.

APPENDIX

Example 1. Firm A, a price category I firm which operates on a calendar-year basis, raised a few prices above base levels early in Phase IV. The firm finds it is exceeding its base period profit margin on the basis of its third quarter's performance and believes it will be unable to demonstrate that it will not exceed its base period profit margin for its full fiscal year. Consequently, before December 31, 1973, Firm A returns all prices to base levels and either makes refunds or reduces the prices on the same items to below base levels to the extent necessary to remit all revenues derived from charging prices above base levels as provided in this subpart. Firm A is no longer subject to a profit margin limitation and will remain free therefrom until it again raises a price above the base level.

Example 2. A remedial order was issued to Firm B because it raised prices above base levels in Phase IV and exceeded its base period profit margin for the third quarter of its fiscal year. The order, among other things, directed Firm B to (1) reduce all prices to base levels and (2) at the firm's option, to either (a) remit revenues derived from charging prices in excess of base levels or (b) further reduce prices by an amount sufficient to assure that by the end of the firm's fourth quarter the firm's profit margin will not exceed its base period profit margin.

Firm B wishes to conform to the requirements of this subpart. It therefore reduces all prices to base price levels and selects option 2(a) in the order. In carrying out option 2(a) it follows all applicable requirements of this subpart, including the submission of a letter of intent (§ 155.195) and the making of refunds to identifiable customers (§ 155.196). The decision of Firm B to meet the requirements of this subpart does not, however, relieve it of any additional requirements placed upon it by the remedial order.

Example 3. Firm C raised the price of its one product above the base level during its 1973 fiscal year but did not exceed its base period profit margin for fiscal year 1973. During the first month of its 1974 fiscal year, Firm D's profit margin appears to be rising substantially due in large measure to greatly increased demand for its product and related decreases in cost per unit. Firm C continues to charge the same increased price for its product in FY 1974 as it did last year.

Anticipating a profit margin excess for fiscal year 1974, Firm C elects to return to base levels and to remit all revenues derived in fiscal year 1974 from the price increase above base levels which was instituted in 1973. Having no identifiable customers, the firm determines that it would have to reduce the price of its product to a level below the base level for a period of three months in order to remit revenues (in the form of reduced prices) equal to or greater than the revenues derived in FY 1974 from the price charged in excess of the base price. With a price per unit at $2.00 above the base level and 20,000 units sold to date in FY 1974, Firm C determines that a total price decrease of $2.50 (50 cents below base level) with projected sales of at least 80,000 units over the next 3 months will result in remission of the $40,000 in revenues derived in FY 1974 from the price charged in excess of the base level.

After five months of sales as anticipated at prices below the base level, Firm C finds that it has met the requirements of this subpart with respect to remission of revenues and thereupon increases the price of the product to the base level. There are no price increases above base levels during the 1974 fiscal year, and Firm C exceeds its base period profit margin for FY 1974. Under the facts presented, there is no profit margin violation.

Example 4. Firm C, under the same facts as example 3 except that some customers are identifiable, works through its dealers (independent contractors) to identify and to refund directly to consumers who purchased its product in FY 1974 a total of $20,000. This leaves a balance of $20,000 which must be remitted in the form of sales at prices below the base level. Firm C lowers its price to 25 cents below base level and sells 80,000 units at that price over a three month period. This results in a remission of an additional $20,000, and Firm C has met the requirements of this subpart with respect to remission of revenues.

Title 49—Transportation

CHAPTER I—DEPARTMENT OF TRANSPORTATION

SUBCHAPTER A—HAZARDOUS MATERIALS REGULATIONS BOARD

[Docket No. HM–99; Amdts. Nos. 171–21, 173–75, 178–27]

SPECIFICATIONS 3AX, 3AAX, AND 3T CYLINDERS

The purpose of this amendment to the Hazardous Materials Regulations is to amend §§ 171.7, 173.34, 173.301, 173.302 and 173.304, and to add a new section 178.45, DOT specification 3T, to provide for the shipment of certain gases in large cylinders or tubes mounted on a motor vehicle.

On April 4, 1972, the Hazardous Materials Regulations Board published a notice of proposed rulemaking, Docket No. HM–99; Notice No. 72–3 (37 FR 6747), which proposed this amendment. Interested persons were invited to give their views and several comments were received by the Board.

1. *Hydrogen chloride.* A commenter stated that the proposed regulations omitted the authorization for hydrogen chloride to be shipped in DOT–3T cylinders. This authorization was purposely omitted because the Board has not completed its evaluation of DOT–3T cylinders in hydrogen chloride service.

2. *Nonliquefied natural gas.* Another commenter requested that the regulations be amended to permit nonliquefied natural gas to be shipped in DOT–3AX, 3AAX, and 3T cylinders. The Board has not authorized nonliquefied natural gas to be shipped in these cylinders because it has not been demonstrated that impurities which may be present in the gas would not affect the structure of the particular steel used in the manufacture of these cylinders.

3. *Design criteria for cylinders.* The proposed regulations provide design criteria for cylinders of 1000 pounds or more water capacity. A commenter has stated that this same design criteria should be applicable for cylinders of less than 1000 pounds water capacity and has requested that, wherever appropriate, the proposed regulations be amended to include the design criteria for the smaller water capacity cylinders. As this request is not within the scope of the present rule making, the Board did not address itself to the comment in this amendment.

4. *Cylinder attachment to vehicle.* Another commenter objected to the proposal which would require the rear end of the cylinders to be affixed to the vehicle. This commenter stated that adequate expansion provisions can be in-

V 38 - 157 AUG 15 73 XUM

corporated in the cylinders when they are affixed to the vehicle at the front end of the cylinders. The Board agrees that it need not specify rear end rigid attachment and has authorized the cylinders to be affixed at either end with thermal expansion provisions required at the opposite end.

5. *Editorial.* Section 178.45–11(d) is reworded to more clearly state the intent of the regulation. As previously worded, the words "the test may be repeated" did not clearly indicate the other option of reheat treatment and subsequent compliance with all the prescribed tests. Consequently, the objective of the use of the word "may" could be misunderstood.

Accordingly, 49 CFR Parts 171, 173, and 178 are amended to read as follows:

PART 171—GENERAL INFORMATION AND REGULATIONS

In § 171.7, paragraphs (c) (17), and (d) (12) are added to read as follows:

§ 171.7 Matter incorporated by reference.

* * * * *

(c) * * *

(17) Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

(d) * * *

(12) U.S. Department of Commerce, National Bureau of Standards Handbook H28 (1957)—Part II is titled "Screw-Thread Standards for Federal Services 1957," December 1966 edition.

PART 173—SHIPPERS

§ 173.34 [Amended]

(A) In § 173.34 paragraph (e) table, the following is added as the ninth entry: "3T ____5/3 times service pressure____5."

(B) In § 173.301, paragraph (h) table is amended by adding as the fifth entry "DOT–3AX" and by adding the entry "DOT–3AAX" after 3AA in the first column; by adding the entry "DOT–3T" as the third entry in the second column; paragraph (d) (1) is amended and paragraph (l) is added to read as follows:

§ 173.301 General requirements for shipment of compressed gases in cylinders.[1]

* * * * *

(d) * * *

(1) Manifolding is authorized for containers of the following gases: argon, air, carbon dioxide, helium, neon, nitrogen, nitrous oxide or oxygen provided that each container is individually equipped with safety relief devices as required by § 173.34 (d) or § 173.315(i).

* * * * *

(l) Specifications 3AX, 3AAX, and 3T cylinders are authorized for transportation only when horizontally mounted on a motor vehicle and when valves and safety devices are protected, as follows:

(1) Each cylinder must be fixed at one end of the vehicle with provision for thermal expansion at the opposite end attachment.

(2) The valve and safety relief device protective structure must be sufficiently strong to withstand a force equal to twice the weight involved with a safety factor of four, based on the ultimate strength of the material used; and

(3) Each discharge for a safety relief device on a cylinder containing a flammable gas must be upward and unobstructed.

(C) In § 173.302, paragraph (a) (3), the introductory text of paragraph (c), (c) (3) Table, and paragraph (f) are amended to read as follows:

§ 173.302 Charging of cylinders with non-liquefied compressed gases.

(a) * * *

(3) Specification 3AX, 3AAX, or 3T (§§ 178.36, 178.37, 178.45 of this subchapter) cylinders are authorized only for the following nonliquified gases: air, argon, carbon monoxide, ethane, ethyene, hellum, hydrogen, methane, neon, nitrogen, or oxygen, except that specification 3T is not authorized for hydrogen.

* * * * *

(c) *Special filling limits for Specifications 3A, 3AX, 3AA, 3AAX, and 3T cylinders.* Specifications 3A, 3AX, 3AA, 3AAX, and 3T (§§ 178.36, 178.37, 178.45 of this subchapter) cylinders may be charged with compresed gases, other than liquefied, dissolved, poisonous, or flammable gases to a pressure 10 percent in excess of their marked service pressure, provided:

* * * * *

(3) * * *

Kind of gas (change)	Maximum permitted filling density (see Note 1)	Containers marked as shown in this column or of the same type with higher service pressure must be used except as provided in § 173.34(a), (b), § 173.301(j) (see notes following table)
	Percent	
Carbon dioxide, liquefied (see Notes 4, 7, and 8).	68	DOT-3A1800; DOT-3AX1800; DOT-3AA1800; DOT-3AAX1800; DOT-3; DOT-3E1800; DOT-3T1800; DOT-3HT2000; DOT-39.
Carbon dioxide-nitrous oxide mixture (see Notes 7 and 8).	68	DOT-3A1800; DOT-3AX1800; DOT-3AA1800; DOT-3AAX1800; DOT-3; DOT-3E1800; DOT-3T1800; DOT-3ET2000; DOT-39.
Ethane (see Notes 8 and 9)	35.8	DOT-3A1800; DOT-3AX1800; DOT-3AA1800; DOT-3AAX1800; DOT-3; DOT-3E1800; DOT-3T1800; DOT-39.
Ethane (see Notes 8 and 9)	36.8	DOT-3A2000; DOT-3AX2000; DOT-3AA2000; DOT-3AAX2000; DOT-3T2000; DOT-39.
Ethylene (see Notes 8 and 9)	31.0	DOT-3A1800; DOT-3AX1800; DOT-3AA1800; DOT-3AAX1800; DOT-3; DOT-3E1800; DOT-3T1800; DOT-39.
Ethylene (see Notes 8 and 9)	32.5	DOT-3A2000; DOT-3AX2000; DOT-3AA2000; DOT-3AAX2000; DOT-3T2000; DOT-39.
Ethylene (see Notes 8 and 9)	35.5	DOT-3A2400; DOT-3AX2400; DOT-3AA2400; DOT-3AAX2400; DOT-3T2400; DOT-39.
Nitrous oxide (see Notes 7 and 8)	68	DOT-3A1800; DOT-3AX1800; DOT-3AA1800; DOT-3AAX1800; DOT-3; DOT-3E1800; DOT-3T1800; DOT-3HT2000; DOT-39.

* * * * * * * * *

PART 178—SHIPPING CONTAINER SPECIFICATIONS

(A) In the Table of Contents for Part 178, § 178.45 is added to read as follows:

Sec.
178.45 Specification 3T; seamless steel cylinder.
178.45–1 Compliance.
178.45–2 Type, size, and service pressure.
178.45–3 Inspection by whom and where.
178.45–4 Duties of the inspector.
178.45–5 Material, steel.
178.45–6 Manufacture.
178.45–7 Wall thickness.
178.45–8 Heat treatment.
178.45–9 Openings.
178.45–10 Safety devices and protection for valves, safety devices, and other connections.
178.45–11 Hydrostatic test.
178.45–12 Ultrasonic examination.
178.45–13 Basic requirements for tension and Charpy impact tests.
178.45–14 Basic conditions for acceptable physical testing.
178.45–15 Acceptable physical test results.
178.45–16 Rejected cylinders.
178.45–17 Markings.
178.45–18 Inspector's report.

(B) Section 178.45 is added to read as follows:

§ 178.45 Specification 3T; seamless steel cylinder.

§ 178.45–1 Compliance.

Each cylinder must meet the applicable requirements of § 173.24 of this subchapter.

[1] Requirements covering cylinders are also applicable to spherical pressure vessels.

§ 178.45–2 Type, size, and service pressure.

(a) *Type.* Each cylinder must be of seamless construction with integrally formed heads concave to pressure at both ends. The inside head shape must be hemispherical, ellipsoidal in which the major axis is two times the minor axis, or a dished shape falling within these two limits. Permanent closures formed by spinning are prohibited.

(b) *Size.* The minimum water capacity is 1,000 pounds.

(c) *Service pressure.* The minimum service pressure is 1,800 p.s.i.

§ 178.45–3 Inspection by whom and where.

Inspection of each cylinder must be performed by a competent and disinterested inspector, acceptable to the Bureau of Explosives. Chemical analyses and tests must be performed within the limits of the United States.

§ 178.45–4 Duties of the inspector.

(a) The inspector must determine that all materials are in compliance with the requirements of this specification.

(b) The inspector must verify compliance with the requirements of § 178.45–5 by making a chemical analysis or obtaining a certified chemical analysis from the material manufacturer for each heat of material. If an analysis is not provided by the material manufacturer, a sample from each heat must be analyzed.

(c) The inspector must determine that each cylinder is made and marked in compliance with this specification by:

(1) Complete internal and external inspection;

(2) Verification of proper heat treatment;

(3) Selection of samples to be tested;

(4) Witnessing all tests;

(5) Verification of threads by gage; and

(6) Preparation of required report.

§ 178.45–5 Material, steel.

(a) Only open hearth, basic oxygen, or electric furnace process steel of uniform quality is authorized. The steel analysis must conform to the following:

ANALYSES TOLERANCES

Element (percent)	Ladle analysis	Check analysis	
		Under	Over
Carbon	0.35 to 0.50	0.03	0.04
Manganese	0.75 to 1.05	0.04	0.04
Phosphorus (max)	0.035		0.01
Sulfur (max)	0.04		0.01
Silicon	0.15 to 0.35	0.02	0.03
Chromium	0.80 to 1.15	0.05	0.05
Molybdenum	0.15 to 0.25	0.02	0.02

(b) A heat of steel made under these specifications, the ladle analysis of which is slightly out of the specified range, is acceptable if satisfactory in all other aspects. However, the check analysis tolerances shown in the above table may not be exceeded except as approved by the Department.

(c) Material with seams, cracks, laminations, or other injurious defects is not permitted.

(d) Material used must be identified by any suitable method.

§ 178.45–6 Manufacture.

(a) General manufacturing requirements are as follows:

(1) Dirt and scale must be removed prior to inspection and processing.

(2) Surface finish must be uniform and reasonably smooth.

(3) Inside surfaces must be clean, dry, and free of loose particles.

(4) No defect of any kind is permitted if it is likely to weaken a finished cylinder.

(b) If the cylinder surface is not originally free from the defects described in paragraph (a) of this section, the surface may be machined or otherwise treated to eliminate these defects provided the minimum wall thickness is maintained.

(c) Welding or brazing on a cylinder is not permitted.

§ 178.45–7 Wall thickness.

(a) The minimum wall thickness must be such that the wall stress at the minimum specified test pressure does not exceed 67 percent of the minimum tensile strength of the steel as determined by the physical tests required in §§ 178.45–14 and 178.45–15. A wall stress of more than 90,500 p.s.i. is not permitted. The minimum wall thickness for any cylinder may not be less than 0.225 inch.

(b) Calculation of the stress for cylinders must be made by the following formula:

$$S=\frac{P(1.3D^2+0.4d^2)}{D^2-d^2}$$

where:
S = Wall stress in pounds per square inch;
P = Minimum test pressure, at least 5/3 service pressure;
D = Outside diameter in inches;
d = Inside diameter in inches.

(c) Each cylinder must meet the following additional requirements which assumes a cylinder horizontally supported at its two ends and uniformally loaded over its entire length. This load consists of the weight per inch of length of the straight cylindrical portion filled with water compressed to the specified test pressure. The wall thickness must be increased when necessary to meet this additional requirement.

(1) The sum of two times the maximum tensile stress in the bottom fibers due to bending (see paragraph (c) (1) (i) of this section), plus the maximum tensile stress in the same fibers due to hydrostatic testing (see paragraph (c) (1) (ii) of this section) may not exceed 80 percent of the minimum yield strength of the steel at this maximum stress.

(i) The following formula must be used to calculate the maximum tensile stress due to bending:

$$S=\frac{Mc}{I}$$

where:
S = Tensile stress in pounds per square inch;
M = Bending moment in inch-pounds $\left(\frac{wl^2}{8}\right)$;
I = Moment of inertia—0.04909 (D^4-d^4) in inches fourth;
c = Radius $\left(\frac{D}{2}\right)$ of cylinder in inches;
w = Weight per inch of cylinder filled with water;
l = Length of cylinder in inches;
D = Outside diameter in inches;
d = Inside diameter in inches.

(ii) The following formula must be used to calculate the maximum longitudinal tensile stress due to hydrostatic test pressure:

$$S=\frac{A_1P}{A_2}$$

where:
S = Tensile stress in pounds per square inch;
A_1 = Internal area in cross section of cylinder in square inches;
P = Hydrostatic test pressure in pounds per square inch;
A_2 = Area of metal in cross section of cylinder in square inches.

§ 178.45–8 Heat treatment.

(a) Each completed cylinder must be uniformly and properly heat treated prior to testing, as follows:

(1) Each cylinder must be heated and held at the proper temperature for at least one hour per inch of thickness based on the maximum thickness of the cylinder and then quenched in a suitable liquid medium having a cooling rate not in excess of 80 per cent of water. The steel temperature on quenching must be that recommended for the steel analysis, but it must never exceed 1750°F.

(2) After quenching, each cylinder must be reheated to a temperature below the transformation range but not less than 1050°F., and must be held at this temperature for at least one hour per inch of thickness based on the maximum thickness of the cylinder. Each cylinder must then be cooled under conditions recommended for the steel.

§ 178.45–9 Openings.

(a) Openings are permitted on heads only.

(b) The size of any centered opening in a head may not exceed one half the outside diameter of the cylinder.

(c) Openings in a head must have ligaments between openings of at least three times the average of their hole diameter. No off-center opening may exceed 2.625 inches in diameter.

(d) All openings must be circular.

(e) All openings must be threaded. Threads must be in compliance with the following:

(1) Each thread must be clean cut, even, without any checks, and to gage.

(2) Taper threads, when used, must be the American Standard Pipe thread (NPT) type and must be in compliance with the requirements of NBS Handbook H–28, Part II, Section VII.

V 38 I 157 AUG 15 73 XUM

(3) Taper threads conforming to National Gas Taper thread (NGT) standards must be in compliance with the requirements of NBS Handbook H–28, Part II, Sections VII and IX.

(4) Straight threads conforming with National Gas Straight thread (NGS) standards are authorized. These threads must be in compliance with the requirements of NBS Handbook H–28, Part II, Sections VII and IX.

§ 178.45–10 Safety devices and protection for valves, safety devices, and other connections.

Safety devices and protection arrangements for valves, safety devices, and other connections must be in compliance with § 173.34(d) of this subchapter. See also § 173.301(L) of this subchapter.

§ 178.45–11 Hydrostatic test.

(a) Each cylinder must be tested at an internal pressure by the water jacket method or other suitable method. The testing apparatus must be operated in a manner that will obtain accurate data. Any pressure gage used must permit reading to an accuracy of one percent. Any expansion gage used must permit reading of the total expansion to an accuracy of one percent.

(b) Any internal pressure applied to the cylinder after heat treatment and before the official test may not exceed 90 percent of the test pressure.

(c) The pressure must be maintained sufficiently long to assure complete expansion of the cylinder. In no case may the pressure be held less than 30 seconds.

(d) If, due to failure of the test apparatus, the required test pressure cannot be maintained, the test must be repeated at a pressure increased by 10 percent or 100 p.s.i., whichever is lower or, the cylinder must be reheat treated.

(e) Permanent volumetric expansion of the cylinder may not exceed 10 percent of its total volumetric expansion at the required test pressure.

(f) Each cylinder must be tested to at least 5/3 times its service pressure.

§ 178.45–12 Ultrasonic examination.

After the hydrostatic test, the cylindrical section of each vessel must be examined in accordance with ASTM Standard A–388–67 using the angle beam technique. The equipment used must be calibrated to detect a notch equal to five percent of the design minimum wall thickness. Any discontinuity indication greater than that produced by the five percent notch shall be cause for rejection of the cylinder unless the discontinuity is repaired within the requirements of this specification.

§ 178.45–13 Basic requirements for tension and Charpy impact tests.

(a) When the cylinders are heat treated in a batch furnace, two tension specimens and three Charpy impact specimens must be tested from one of the cylinders or a test ring from each batch. The lot size represented by these tests may not exceed 200 cylinders.

(b) When the cylinders are heat treated in a continuous furnace, two tension specimens and three Charpy impact specimens must be tested from one of the cylinders or a test ring from each four hours or less of production. However, in no case may a test lot based on this production period exceed 200 cylinders.

(c) Each specimen for the tension and Charpy impact tests must be taken from the side wall of a cylinder or from a ring which has been heat treated with the finished cylinders of which the specimens must be representative. The axis of the specimens must be parallel to the axis of the cylinder. Each cylinder or ring specimen for test must be of the same diameter, thickness, and metal as the finished cylinders they represent. A test ring must be at least 24 inches long with ends covered during the heat treatment process so as to simulate the heat treatment process of the finished cylinders it represents.

(d) A test cylinder or test ring need represent only one of the heats in a furnace batch provided the other heats in the batch have previously been tested and have passed the tests and that such tests do not represent more than 200 cylinders from any one heat.

(e) The test results must conform to the requirements specified in §§ 178.45–14 and 178.45–15.

(f) When the test results do not conform to the requirements specified, the cylinders represented by the tests may be reheat treated and the tests repeated. Paragraph (e) of this section applies to any retesting.

§ 178.45–14 Basic conditions for acceptable physical testing.

(a) The following criteria must be followed to obtain acceptable physical test results:

(1) Each tension specimen must have a gage length of two inches with a width not exceeding one and one-half inches. Except for the grip ends, the specimen may not be flattened. The grip ends may be flattened to within one inch of each end of the reduced section.

(2) A specimen may not be heated after heat treatment specified in § 178.45–8.

(3) The yield strength in tension must be the stress corresponding to a permanent strain of 0.2 percent of the gage length.

(i) This yield strength must be determined by the "offset" method or the "extension under load" method described in ASTM Standard E8–69.

(ii) For the "extension under load" method, the total strain (or extension under load) corresponding to the stress at which the 0.2 percent permanent strain occurs may be determined with sufficient accuracy by calculating the elastic extension of the gage length under appropriate load and adding thereto 0.2 percent of the gage length. Elastic extension calculations must be based on an elastic modulus of 30,000,000. However, when the degree of accuracy of this method is questionable the entire stress-strain diagram must be plotted and the yield strength determined from the 0.2 percent offset.

(iii) For the purpose of strain measurement, the initial strain must be set with the specimen under a stress of 12,000 p.s.i. and the strain indicator reading set at the calculated corresponding strain.

(iv) The cross-head speed of the testing machine may not exceed ⅛ inch per minute during the determination of yield strength.

(4) Each impact specimen must be Charpy V-notch type size 10 mm x 10 mm taken in accordance with paragraph 11 of ASTM Standard A–333–67. When a reduced size specimen is used, it must be the largest size obtainable.

§ 178.45–15 Acceptable physical test results.

(a) Results of physical tests must conform to the following:

(1) The tensile strength may not exceed 155,000 p.s.i.

(2) The elongation must be at least 16 percent for a two-inch gage length.

(3) The Charpy V-notch impact properties for the three impact specimens which must be tested at 0° F. may not be less than the values shown below:

Size of specimen (mm)	Average value for acceptance 3 specimens	Minimum value 1 specimen only of the three
10.0 x 10.0	25.0 ft. lbs.	20.0 ft. lbs.
10.0 x 7.5	21.0 ft. lbs.	17.0 ft. lbs.
10.0 x 5.0	17.0 ft. lbs.	14.0 ft. lbs.

(4) After the final heat treatment, each vessel must be hardness tested on the cylindrical section. The tensile strength equivalent of the hardness number obtained may not be more than 165,000 p.s.i. (R^c 36). When the result of a hardness test exceeds the maximum permitted, two or more retests may be made; however, the hardness number obtained in each retest may not exceed the maximum permitted.

§ 178.45–16 Rejected cylinders.

(a) Reheat treatment is authorized. However, each reheat treated cylinder must subsequently pass all the prescribed tests.

(b) Repair by welding is not authorized.

§ 178.45–17 Markings.

(a) Marking must be done by stamping into the metal of the cylinder. All markings must be legible and located on a shoulder.

(b) Required markings are as follows:

(1) "DOT–3T," followed by the service pressure (for example: "DOT–3T1800");

(2) The appropriate serial number;

(3) The registration number of the manufacturer ("M ****");

(4) The inspector's official mark near the serial number;

(5) The tare weight in pounds; and

(6) The date of the test (for example "5–72" for May 1972), so placed that dates of subsequent tests may be easily added.

(c) Markings must be at least ½ inch high.

(d) The markings prescribed by paragraphs (b)(1), (2), and (3) of this section must be displayed one immediately below the previous one as follows:

DOT–3T1800
1234
M 6789

(e) No person may mark any cylinder with the specification identification "DOT–3T" unless (1) it was manufactured in compliance with the requirements of this section and (2) its manufacturer has a registration number (M ****) from the Office of Hazardous Materials, Department of Transportation, Washington, D.C. 20590.

§ 178.45–18 Inspector's report.

(a) The inspector's report must be retained indefinitely by the manufacturer as long as DOT–3T cylinders are authorized for use by these regulations and a copy must be supplied the purchaser and owner of each cylinder. Upon sale by the original purchaser or owner, the seller must furnish the buyer a copy of the report. The manufacturer and owner must keep all reports available for examination upon request by representatives of the Department.

(b) Each report must be legible, and contain at least the following information:

INSPECTION REPORT COVERING THE MANUFACTURE OF SPECIFICATION DOT–3T CYLINDERS

The cylinders covered by this report were manufactured for _____ located at _____. They were manufactured by _____ located at _____. The cylinders are _____ inches in diameter (OD), _____ inches in length, and have a minimum wall thickness of _____ inches. The calculated stress is _____ p.s.i. under a test pressure of _____ p.s.i. The marks stamped into the shoulder of the cylinder are:

Specification DOT–_____;
Serial numbers _____ to _____ inclusive;
Inspector's mark _____;
DOT registration number M_____;
Tare weight _____;
Test date _____;
Other marks (if any) _____.

These cylinders were made by process of _____. The cylinders were heat treated by the process of _____. The metal used was identified by the following _____ numbers _____.
(heat-purchase order)

The metal used was verified as to chemical analysis as shown in the "Record of Chemical Analysis of Metal" attached hereto. The heat numbers _____ marked on the metal
(were—were not)

All material was inspected visually and by ultrasonic means and all that was accepted was found free of injurious defects which might significantly affect the strength of the cylinder. The processes of manufacture and heat treatment of cylinders were observed and found satisfactory.

The cylinder walls and outside diameter were measured and the calculated stress for the cylinder design covered herein was verified.

Hydrostatic test, physical tests of the material, and other tests as prescribed in specification DOT–3T were made in the presence of the inspector. All materials, tests results, and cylinders accepted were found to be in compliance with the requirements of that specification and records therefor are attached hereto.

I hereby certify that all these cylinders proved satisfactory in every way and are in compliance with the requirements of Department of Transportation Specification 3T.

This amendment is effective September 30, 1973. However, compliance with the regulations, as amended herein, is authorized immediately.

(Sections 831–835 of Title 18, U.S.C.; sec. 9, Department of Transportation Act, 49 U.S.C. 1657)

Issued in Washington, D.C. on August 6, 1973.

KENNETH L. PIERSON,
Alternate Board Member for the Federal Highway Administration.

MAC E. ROGERS,
Board Member for the Federal Railroad Administration.

D. H. CLIFTON,
Captain, Alternate Board Member for the United States Coast Guard.

Title 7—Agriculture

CHAPTER IV—FEDERAL CROP INSURANCE CORPORATION, DEPARTMENT OF AGRICULTURE

[Amendment No. 7]

PART 409—ARIZONA-DESERT VALLEY CITRUS CROP INSURANCE

Subpart—Regulations for the 1967 and Succeeding Crop Years

ARIZONA-DESERT VALLEY CITRUS

Pursuant to the authority contained in the Federal Crop Insurance Act, as amended, the above-identified regulations are amended effective beginning with the 1973 crop year in the following respects:

Section 409.25 of this chapter is amended by adding the following new paragraph 23, which shall apply only to new contracts entered into to be effective beginning with the 1973 or a succeeding crop year:

§ 409.25 The application and the policy.

* * * * *

23. *New Contracts for the 1973 Crop Year.* (a) This section applies only to applications for insurance submitted beginning with the 1973 or a succeeding crop year and to contracts entered into pursuant thereto. The insurance provided under this section shall be designated as "Plan B".

(b) Notwithstanding the provisions of sections 1 and 3 above, applications for insurance shall be with respect to all insurable types of citrus, as defined in section 22 hereof, produced by the applicant.

(c) In lieu of subsection 7(c) above, the following shall apply: The amount of insurance for any crop year for any insured type on the unit shall be determined by multiplying the estimated production in boxes for the insured type for that crop year as reported by the insured or as determined by the Corporation by the applicable amount of insurance per box and multiplying the product thereof by the insured's interest: *Provided, however,* That for any insured type the amount of insurance for any crop year shall not exceed the product of the insured acreage for that type, and the maximum amount of insurance per acre shown on the actuarial table for such crop year and the insured's interest. The total of the amounts of insurance for all insured types on the unit shall be the total amount of insurance for the unit.

(d) In lieu of subsection 13(a) above, the following shall apply: It shall be a condition precedent to payment of any indemnity on any unit hereunder that the insured report each damage to the insured crop from freeze to the office for the county within 30 days after the date of such freeze.

(e) In lieu of subsection 14(a), the following shall apply: Any claim for loss on any unit must be submitted to the Corporation on a form prescribed by the Corporation by the earlier of 60 days after harvesting of the insured crop is completed on the unit or September 30 of the calendar year following the calendar year in which insurance attached. The Corporation reserves the right to provide additional time if it determines that circumstances beyond the control of either party prevent compliance with this provision.

(f) In lieu of subsection 14(b) above, the following shall apply: Losses shall be adjusted separately for each unit. The amount of loss with respect to any unit shall be determined in the following manner: (1) For each insured type of citrus in the unit multiply the amount of insurance (determined in accordance with subsection (c) of this section) by the percent of damage for that type (determined in accordance with subsection (g) of this section), (2) add the dollar amounts obtained for each of the respective types of citrus in (1) above, (3) add the dollar amounts of insurance for each type of insured citrus on the unit, (4) from the amount obtained in (2) above subtract 30 percent of the amount obtained in (3) above.

(g) In lieu of subsection 14(c) above, the following shall apply: The average percent of damage for each insured type on the unit shall be the ratio of the number of boxes of the crop lost as a result of freeze to the total number of boxes which would have been produced (herein called the "potential"). The potential shall include: (1) Citrus picked before the freeze damage occurred, (2) citrus remaining on the trees after the freeze damage occurred, (3) citrus lost from freeze, and (4) any other citrus not included in items (1) through (3), including citrus lost from causes not insured against other than normal dropping, "rots," and "splits." Citrus lost as a result of freeze shall be citrus to which damage from freeze is serious as defined in the laws of the state in which the county is geographically located and shall be determined by the Corporation on the basis of the cuts made in the grove by the Corporation, except that the Corporation shall consider: (1) Any fruit on the ground as a result of freeze which is not marketed as being 90 percent damaged, (2) any fruit which is or could be packed as fresh fruit as being undamaged, and (3) any portion of the insured crop which is harvested prior to inspection by the Corporation as fruit not damaged.

The Corporation reserves the right to delay the determination of the extent of damage from freeze and the settlement of any loss until the insured makes available to its complete records of the marketing of the insured crop for the crop year. It shall be a condition precedent to payment of any claim that the insured furnished any production records and any other information required by the Corporation regarding the manner and extent of damage or loss.

(h) In lieu of subsection 14(d) above, the following shall apply: If the Corporation determines that frost protection equipment was not properly utilized or was improperly reported, the indemnity otherwise computed for the unit shall be reduced by the percentage of premium reduction given for frost protection equipment. It shall be a condition precedent to establishing that frost equipment was properly utilized that the insured provide proof satisfactory to the Corporation when each operation of such equipment was started and the period of use.

(i) In lieu of subsection 22(f), the following shall apply: "Insurance unit" means all insurable acreage in the county of the six types of citrus (see subsection 22(h)): (1) In which the insured has 100 percent interest on the date insurance attaches for the crop year, or (2) in which the same two or more pensions have 100 percent interest on the date insurance attaches for the crop year. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee.

(j) Notwithstanding any other provision of the contract, for the purpose of applications submitted and contracts entered into pursuant to this section where the same person owns, or the same two or more persons own, 50 percent or more of the stock in each of two or more corporations, all such corporations shall be considered as one person. In such case an application submitted by any such corporation must be joined by all such corporations having an interest in any insurable type of citrus. Insurance units shall be constituted and losses shall be adjusted as though only one insured person were involved. Failure of any such corporation to join in the application shall void such application or contract entered into pursuant thereto.

(Secs. 506, 516, 52 Stat. 73, as amended, 77, as amended; 7 U.S.C. 1506, 1516)

Since the foregoing amendment provides the only practical basis on which the Board of Directors believed insurance could be provided in the unclassified areas of Yuma County, Arizona, and Imperial County, California, for the 1973 crop year, and since producers in these areas should be given sufficient time to determine whether or not they desire to apply for insurance under the provisions of the proposed amendment, the Board of Directors found that it would be impracticable and contrary to the public interest to follow the procedure for notice and public participation prescribed by 5 U.S.C. 553(b) and (c), as directed by the Secretary of Agriculture in a Statement of Policy, executed July 20, 1971 (36 FR 13804), prior to its adoption. Accordingly, said amendment was adopted by the Board of Directors on July 12, 1973.

[SEAL] LLOYD E. JONES,
Federal Crop Insurance Corporation.

Approved on August 10, 1973.

EARL L. BUTZ,
Secretary.

[FR Doc.73-16949 Filed 8-14-73;8:45 am]

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Amdt. 1]

PART 948—IRISH POTATOES GROWN IN COLORADO AREA NO. 3

Handling Regulation

This amendment reduces the size requirement to 1⅞ inches minimum diameter or 4 ounces minimum weight on all potatoes shipped to fresh market from Colorado Area No. 3.

With less than normal U.S. potato supplies and with Area No. 3's crop composed of a greater proportion of smaller sized potatoes than the committee anticipated in June, this amendment should tend to increase their returns and make a larger quantity of good potatoes available to the consumers.

Findings. (a) Pursuant to Marketing Agreement No. 97 and Order No. 948, both as amended (7 CFR Part 948), regulating the handling of Irish potatoes grown in Colorado, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and upon the basis of recommendations and information submitted by the Area No. 3 Committee, established under the marketing order, and other available information, it is hereby found that this amendment will tend to effectuate the declared policy of the act.

(b) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice or engage in public rule making procedure, and that good cause exists for not postponing the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of 1973 crop potatoes grown in Area No. 3 are now being made, (2) to maximize benefits to producers, this amendment should apply to as many shipments as possible during the effective period, (3) issuance of this amendment will not require any special preparation by handlers, (4) information regarding the committee's recommendation has been made available to producers and handlers in the production area, and (5) this amendment relieves restrictions on the handling of potatoes grown in the production area.

Regulation, as amended. In § 948.369 (38 FR 20235) paragraph (a) is amended to read as follows:

§ 948.369 Handling regulation.

* * * * *

(a) *Grade and size requirements—All varieties.* U.S. No. 2, or better grade, 1⅞ inches minimum diameter or 4 ounces minimum weight, except Size B may be handled if U.S. No. 1, or better grade.

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

Effective date. August 15, 1973.

Dated: August 9, 1973.

D. S. KURYLOSKI,
Acting Deputy Director, Fruit and Vegetable Division Agricultural Marketing Service.

[FR Doc.73-16867 Filed 8-14-73;8:45 am]

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

PART 1427—COTTON

Subpart—1973-Crop Supplement to Cotton Loan Program Regulations

Correction

In FR Doc. 73-14845 appearing at page 19381 in the issue of Friday, July 30, 1973, make the following changes:

1. In the table to § 1427.101 the final entry in the right hand column under Arkansas reading "20.99", should read "20.90". In the table for South Carolina, the 23d entry from the bottom reading "41.55", should read "21.55".

2. In the table to § 1427.102, the fourth code number from the left, reading "15/15", should read "15/16". The fourteenth code number reading "1¼ long", should read "1¼ longer". In the 6th column from the left, the 12th entry reading "–765", should read "–785".

Title 8—Aliens and Nationality

CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE

PART 299—IMMIGRATION FORMS

Reproduction of Form I–94

To accommodate the establishment of an automated system to facilitate the processing of nonimmigrant documents, on or after January 1, 1974 all Forms I–94 must bear a preprinted seven-digit sequential number. Accordingly, in Part 299, § 299.3 is amended, effective January 1, 1974, to require that Forms I–94 printed or reproduced by private parties shall bear a seven-digit sequential number as specified therein, which number shall appear identically on both the original and the carbon copy of the form. The prenumbering of Forms I–94 in the manner specified in the amendment may begin immediately. While such prenumbering of Forms I–94 prior to January 1, 1974 is optional, all Forms I–94 must bear such preprinted sequential number on and after January 1, 1974.

In the light of the foregoing, pursuant to 5 U.S.C. 552 (80 Stat. 383) and the authority contained in 8 U.S.C. 1103 and 8 CFR 2.1, the following amendment to Part 299 of Chapter I of Title 8, Code of Federal Regulations, is hereby prescribed:

In Part 299, § 299.3 is amended by adding two new sentences at the end thereof. As amended, § 299.3 reads as follows:

§ 299.3 Reproduction of forms by private parties.

The following forms required for compliance with the provisions of subchapter B of this chapter may be printed or otherwise reproduced by an appropriate duplicating process by private parties at their own expense: I–20, I–92, I–94, I–95, I–408, and I–418. Forms printed or reproduced by private parties shall conform to the officially printed forms currently in use with respect to size, wording and language, arrangement, style and size of type, and paper specifications. Such forms shall be printed or otherwise duplicated in black ink or dye that will not fade or "feather" within 20 years. Printed or reproduced Forms I–94 must each bear a seven-digit sequential number which shall appear on both the original and the carbon copy of the form. Beginning with the number 000 00 00 and continuing through 999 99 00, printed or reproduced Forms I–94 shall repeat this series of numbers each time all the numbers have been used.

Compliance with the provisions of 553 of Title 5 of the United States Code (80 Stat. 383) as to notice of proposed rulemaking is unnecessary in this instance because the amendment to § 299.3 relates to agency management.

Effective date. This order shall become effective on January 1, 1974.

Dated: August 10, 1973.

JAMES F. GREENE,
Acting Commissioner.

[FR Doc.73-16885 Filed 8-14-73;8:45 am]

V 38 - 157 AUG 15 73 A XUM

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

SCABIES IN CATTLE AND SHEEP

Treatment of Vehicles, Premises and Facilities Which Have Contained Infested or Exposed Animals

The purpose of the following amendments to the regulations contained in Parts 72, 73, and 74 of Title 9, Code of Federal Regulations, is to require the use of permitted dips rather than permitted disinfectants in treating vehicles, premises, and facilities which have contained cattle or sheep infested with or exposed to scabies or ticks.

Pursuant to the provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, and the Act of July 2, 1962 (21 U.S.C. 111–113, 115, 117, 120, 121, 123–126, 134b, 134f), Parts 72, 73, and 74 of Subchapter C, Chapter I, Title 9, Code of Federal Regulations, are hereby amended in the following respects:

PART 72—TEXAS (SPLENETIC) FEVER IN CATTLE

1. Section 72.22 is amended to read:

§ 72.22 Cars, vehicles, and premises; cleaning and treatment after containing infested or exposed animals.

Cars and other vehicles, and yards, pens, chutes, or other premises or facilities, which have contained interstate shipments of animals infested with or exposed to ticks, shall be cleaned and treated within 72 hours of use and prior to further use in the required concentration with a permitted dip listed in § 72.13 under supervision of a State or Federal inspector or an accredited veterinarian.

2. Section 72.23 is amended to read:

§ 72.23 Cars or other vehicles having carried infested or exposed cattle in quarantined area shall be cleaned and treated.

Cars or others vehicles which have carried cattle exposed to or infested with ticks within the quarantined area of any State shall be cleaned and treated in the required concentration with a permitted dip listed in § 72.13 before being moved interstate under supervision of a State or Federal inspector or an accredited veterinarian.

3. Section 72.24 is amended to read:

§ 72.24 Litter and manure from carriers and premises of tick-infested animals; destruction or treating required.

The litter and manure removed from cars, boats, or other vehicles and from pens, chutes, alleys, or other premises or inclosures which have contained interstate shipments of tick-infested animals, shall be destroyed or treated by the transportation or yard company, or other owner thereof, under Veterinary Services supervision, by saturating it in the required concentration with a permitted dip listed in § 72.13, or shall be otherwise disposed of under prior permission received from the Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

PART 73—SCABIES IN CATTLE

4. Section 73.11 is amended to read:

§ 73.11 Treatment of cars, vehicles and premises having contained scabby cattle.

Cars and other vehicles, yards, pens, sheds, chutes, or other premises or facilities which have contained cattle of a consignment in which scabies is found shall be treated within 72 hours of use and prior to further use in the required concentration with a permitted dip listed in § 73.10 under supervision of a State or Federal inspector or an accredited veterinarian.

PART 74—SCABIES IN SHEEP

5. In the table of headings of Part 74 the Subpart heading preceding the heading of § 74.25; and in Part 74 the Subpart heading preceding § 74.25 are both amended to read:

Subpart—Treatment of Cars, Vehicles, and Premises

6. Section 74.25 is amended to read:

§ 74.25 Required if contained diseased sheep.

Cars, and other vehicles, yards, pens, sheds, and chutes which have contained diseased sheep shall be cleaned and treated within 72 hours of use and prior to further use in the required concentration with a permitted dip listed in § 74.24 under supervision of a State or Federal inspector or an accredited veterinarian.

(Secs. 4–7, 23 Stat. 31–33, as amended; secs. 1–3, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130 and 132; 21 U.S.C. 111–113, 115, 117, 120–126, 134b, 134f; 37 FR 28464, 28477, 38 FR 19141.)

Effective date. The foregoing amendments shall become effective on August 15, 1973.

The amendments alter and clarify the requirements for treatment of vehicles, premises, and facilities infested with or exposed to cattle fever ticks and scabies and should be made effective immediately to accomplish their purpose in the public interest.

It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions of 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable, unnecessary and contrary to the public interest and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 10th day of August, 1973.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73–16953 Filed 8–14–73;8:45 am]

PART 82—EXOTIC NEWCASTLE DISEASE; AND PSITTACOSIS OR ORNITHOSIS IN POULTRY

Areas Released From Quarantine

This amendment excludes portions of Riverside and San Bernardino Counties in California from the areas quarantined because of exotic Newcastle disease. Therefore, the restrictions pertaining to the interstate movement of poultry, mynah and psittacine birds, and birds of all other species under any form of confinement, and their carcasses and parts thereof, and certain other articles from quarantined areas, as contained in 9 CFR Part 82, as amended, will not apply to the excluded areas.

Pursuant to the provisions of sections 1, 2, 3, and 4 of the Act of March 3, 1905, as amended, sections 1 and 2 of the Act of February 2, 1903, as amended, sections 4, 5, 6, and 7 of the Act of May 29, 1884, as amended, and sections 3 and 11 of the Act of July 2, 1962 (21 U.S.C. 111, 112, 113, 115, 117, 120, 123, 124, 125, 126, 134b, 134f), Part 82, Title 9, Code of Federal Regulations is hereby amended in the following respects.

In § 82.3, in subparagraph (a)(1) relating to the State of California, subdivision (i) relating to Riverside County and subdivisions (ii), (vii), and (viii) relating to San Bernardino County are deleted.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 115, 117, 120, 123–126, 134b, 134f; 37 F.R. 28464, 28477.)

Effective date. The foregoing amendment shall become effective August 10, 1973.

The amendment relieves certain restrictions presently imposed but no longer deemed necessary to prevent the spread of exotic Newcastle disease, and must be made effective immediately to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and

unnecessary, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 10th day or August, 1973.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73–16952 Filed 8–14–73;8:45 am]

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

SUBPART D—FOOD ADDITIVES PERMITTED IN FOOD FOR HUMAN CONSUMPTION

FOOD STARCH-MODIFIED

The Commissioner of Food and Drugs, having evaluated data in a petition (FAP 1A2678) filed by A. E. Staley Manufacturing Co., 2200 Eldorado St., Decatur, IL 62525, concludes that § 121.1031 (21 CFR 121.1031) of the food additive regulations should be amended, as set forth below, to provide for the safe use of food starch modified by etherification with epichlorohydrin, not to exceed 0.1 percent, followed by propylene oxide, not to exceed 25 percent.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.1031(e) is amended by adding a new item as follows:

§ 121.1031. Food starch-modified.

• • • • • •

(e) • • •

Limitation
• • •
Epichlorohydrin, not to exceed 0.1 percent, followed by propylene oxide, not to exceed 25 percent
• • •
Residual propylene chlorohydrin not more than 5 parts per million in food starch-modified.
• • •

• • • • • •

Any person who will be adversely affected by the foregoing order may at any time on or before September 14, 1973 file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective August 15, 1973.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: August 7, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

SUBCHAPTER C—DRUGS

PART 135a—NEW ANIMAL DRUGS FOR OPHTHALMIC AND TOPICAL USE

Neomycin Sulfate and Polymyxin B Sulfate Ophthalmic Solution, Veterinary

The Commissioner of Food and Drugs has evaluated a new animal drug application (49–726V) filed by Syntex Laboratories, Inc., Palo Alto, CA 94304, proposing the safe and effective use of neomycin sulfate and polymyxin B sulfate ophthalmic solution, veterinary for the treatment of certain ophthalmic conditions in dogs. The application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135a is amended by adding a new section as follows:

§ 135a.39 Neomycin sulfate and polymyxin B sulfate ophthalmic solution, veterinary.

(a) *Specifications.* Each milliliter of the opthalmic preparation contains 5.0 milligrams neomycin sulfate (3.5 milligrams neomycin base), and 10,000 Units of polymyxin B sulfate.

(b) *Sponsor.* See code No. 036 in § 135.501(c) of this chapter.

(c) *Conditions of use.* (1) The drug is recommended for the treatment of bacterial infections associated with topical ophthalmological conditions such as corneal injuries, superficial keratitis, conjunctivitis, keratoconjunctivitis, and blepharitis in the dog.

(2) The recommended dosage is 1 to 2 drops per eye every 6 hours.

(3) In treating ophthalmological conditions associated with bacterial infections the drug is contraindicated in those cases in which microorganisms are nonsusceptible to the antibiotics incorporated in the drug.

(4) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Effective date. This order shall be effective August 15, 1973.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: August 7, 1973.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-192]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appear for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

State	County	Location	Map No.	State map repository	Local map repository	Effective date of authorization of sale of flood insurance for area

[Docket No. FI-193]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

The Federal Insurance Administrator finds that comment and public procedure and the use of delayed effective dates in identifying the areas of communities which have special flood or mudslide hazards, in accordance with 24 CFR Part 1915, would be contrary to the public interest. The purpose of such identifications is to guide new development away from areas threatened by flooding, a purpose which is accomplished pursuant to statute by denying subsidized flood insurance to structures thereafter built within such areas. The practice of issuing proposed identifications for comment or of delaying effective dates would tend to frustrate this purpose by permitting imprudent or unscrupulous builders to start construction within such hazardous areas before the official identification became final, thus increasing the communities' aggregate exposure to loss of life and property and the agency's financial exposure to flood losses, both of which are contrary to the statutory purposes of the program. Accordingly, the Department is not providing for public comment in issuing this amendment and it will become effective on August 14, 1973. Section 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas.

Title 36—Parks, Forests and Memorials

CHAPTER II—FOREST SERVICE, DEPARTMENT OF AGRICULTURE

PART 231—GRAZING

Protection, Management, and Control of Wild Free-Roaming Horses and Burros

On December 20, 1972, a notice of proposed rulemaking was published in the FEDERAL REGISTER (37 FR 28077). The proposal would amend 36 CFR Part 231 for the purpose of providing authority and direction to the Chief, Forest Service, for protection, managing, and controlling those wild free-roaming horses and burros that are associated all or part time with National Forest System lands. In addition to the above publication the proposal was discussed in a draft environmental statement filed with the Council on Environmental Quality on December 21, 1972, and in a final environmental statement filed on July 6, 1973. The proposed rule making and the environmental statements were reviewed in detail with the National Advisory Board on Wild Free-Roaming Horses and Burros. National Forest Grazing Advisory Boards were also called upon to review the proposal as provided by the Requirements of the Granger-Thye Act (sec. 18, 64 Stat. 87, 16 U.S.C. 580k). All comments received from Advisory Boards and comments received from the public at large were considered in preparation of a final regulation. Revisions made as a result of the comments received and further analysis by USDA and the Forest Service are summarized below:

1. Section 231.11(a) *Definitions*, "Agent of the Secretary" has been added to the list of definitions.

2. Section 231.11(a) *Definitions*, the term "excess animals" has been substituted for "surplus animals."

3. Section 231.11(a) *Definitions*, the term "1971 Horse and Burro Territory" has been defined and adopted as a means of more clearly identifying the areas where Wild Horses and Burros were found at the time of the Act.

4. Direction has been established in § 231.11(b)(3) to identify the 1971 Horse and Burro Territory as rapidly as possible.

5. Section 231.11(c) *Ownership Claims*, has been revised to provide more specific information on the procedures to be followed and to make specific reference to the use of Cooperative Agreements with State agencies administering the State estray laws. The phrase "evidence of ownership" has been substituted for "probable ownership."

6. Section 231.11(e) *Other Lands, Protection Upon*, has been slightly revised to show more clearly that Wild Free-Roaming Horses and Burros associated with the National Forest System lands are protected whenever they move to lands of any other ownership or jurisdiction.

7. Section 231.11(h) *Cooperative Agreements*, has been simplified to eliminate any implied restriction in the use of cooperative agreements.

8. Section 231.11(j) *Disposal of Animals*, has been slightly revised for clarity concerning Acts of Mercy.

As so revised the proposal is hereby adopted to read as set forth below. It becomes effective immediately.

§ 231.11 Wild free-roaming horses and burros.

The Chief, Forest Service, shall protect, manage, and control wild free-roaming horses and burros on lands of the National Forest System and shall maintain vigilance for the welfare of wild free-roaming horses and burros that wander or migrate from National Forest System lands. If these animals also use lands administered by the Bureau of Land Management as a part of their habitat, the Chief, Forest Service, shall cooperate to the fullest extent with the Department of the Interior through the Bureau of Land Management in administering the animals.

(a) *Definitions.* As used in this section,

(1) "Agent of the Secretary" means any employee of the Forest Service or other individual who either individually or by virtue of the position he holds is delegated authority by the Chief, Forest Service, to take actions under the Regulations of this Section.

(2) "Wild Free-Roaming Horses and Burros" shall mean all unbranded and unclaimed horses and burros and their progeny that have used lands of the National Forest System on or after December 15, 1971, or do hereafter use these lands as all or part of their habitat. Unbranded, claimed horses and burros where the claim is found to be erroneous are also considered as wild and free-roaming if they meet the criteria above. However, this definition shall not include any horse or burro introduced onto National Forest System lands on or after December 15, 1971, by accident, negligence, or willful disregard of private ownership.

(3) "Herd" means one or more stallions and their mares, or jacks and their jennies.

(4) "Excess animals" means wild free-roaming horses or burros determined to be in excess of populations proper to maintain a thriving natural ecological balance and harmonious multiple use relationship on National Forest System lands.

(5) "Problem animal" means a wild free-roaming horse or burro whose demonstrated individual habits or traits pose an undue threat to the safety or welfare of persons, wildlife, livestock, or property.

(6) "National Forest System lands" are the National Forests, National Grasslands and other Federal lands for which the Forest Service has administrative jurisdiction.

(7) "1971 Horse and Burro Territory" means the National Forest System areas to be identified by the Chief, Forest Service, as the areas which were the territorial habitat of wild free-roaming horses and/or burros at the time of the passage of the Act.

(8) "Wild Horse and Burro Range" means an area of National Forest System land specifically so designated by the Chief, Forest Service, from 1971 Horse and Burro Territory, for the purpose of sustaining an existing herd or herds of wild free-roaming horses and burros, which does not exceed their known territorial limits, and which is devoted principally but not necessarily exclusively to their welfare in keeping with the multiple-use management concept for the National Forest System lands.

(9) "Act" means the Act of December 15, 1971 (85 Stat. 649, 16 U.S.C. 1331–1340), Public Law 92–195.

(10) "National Advisory Board" means the Advisory Board as established jointly by the Secretary of Agriculture and the Secretary of the Interior under the provisions of the Act.

(b) *Administration of Wild Free-Roaming Horses and Burros and their Environment.* The Chief, Forest Service, shall:

(1) Administer wild free-roaming horses and burros and their progeny on the National Forest System land in the areas where they now occur (1971 Horse and Burro Territory) to maintain a thriving ecological balance, considering them an integral component of the multiple use resources, and regulating their population and accompanying need for forage and habitat in correlation with that of uses recognized under the Multiple Use-Sustained Yield Act of June 12, 1960 (74 Stat. 215; 16 U.S.C. 528–531). He may designate areas of National Forest System land as specific Wild Horse and Buro Ranges in those unique and singularly important situations where he determines such designation as especially fitting to meet the purposes of the Act and the Multiple Use-Sustained Yield Act and after consultation with the appropriate agencies of the State where such Range is proposed and with the National Advisory Board.

(2) Provide direct administration for the welfare of wild free-roaming horses and burros that are located on National Forest System land by use of the Forest Service organization rather than by the granting of leases and permits for maintenance of these animals to individuals and organizations.

(3) Direct that an identification of all areas meeting the definition of 1971 Horse and Burro Territory be completed as rapidly as possible.

(c) *Ownership claims.* Individuals wishing to assert a claim of ownership under the estray laws of a State to any unbranded, unauthorized horse or burro on National Forest System lands must present a written claim and evidence of ownership to the Forest Supervisor before permission will be granted to attempt a capture of the animal(s) involved. A claimant must support his claim in accordance with whatever criteria are cooperatively agreed to between the Forest Service and the State Agency administering the State estray laws. In the absence of a cooperative agreement a claim will be substantiated in accordance with State law, will be reviewed by

the Forest Service for compliance with such law, and will require Forest Service approval. All ownership claims to unauthorized, unbranded horses and burros located on National Forest System land on or after December 15, 1971, must be filed with the Forest Supervisor by November 15, 1973. Capture attempts must be authorized by written permission of the Forest Supervisor. He shall establish in the authorization a specific, reasonable period of time to allow capture of claimed animals and shall stipulate other conditions, including visual observation by Forest Service personnel, that he deems necessary to minimize stress on associated wild free-roaming horses and burros and to protect other resources involved. Prior to authorizing the capture of a claimed animal, the Forest Supervisor shall provide whatever public notice is appropriate in order that all interested parties may take notice and furnish him with any pertinent information relative to the claimed animals.

Prior to removal of claimed, captured animals from National Forest System lands, the claimant shall substantiate his claim of ownership in accordance with whatever criteria are cooperatively agreed to between the Forest Service and the State agency administering the State estray laws. In the absence of a cooperative agreement, ownership claims shall be substantiated in accordance with State law and subject to approval of the Forest Service.

(d) *Removal of other horses and burros.* In the event branded horses or burros or horses or burros which do not come within the definition in paragraph (a) of this section are intermingled at any time with herds of wild free-roaming horses or burros, the Forest Supervisor shall require and allow their removal only by methods which do not subject the wild ones to physical damage or undue stress. Horses or burros introduced onto National Forest System lands after December 15, 1971, by accident, negligence, or wilful disregard of private ownership shall be considered in trespass and treated in accordance with 36 CFR 261.7 and 261.13.

(e) *Other lands, protection upon.* Individual animals and herds of wild free-roaming horses and burros, as components of the National Forest System lands, will be under the protection of the Chief, Forest Service, even though they may thereafter move to lands of other ownership or jurisdiction as a part of their annual territorial habitat pattern or for other reasons. The Chief will exercise surveillance of these animals through the use of cooperative agreements and as otherwise authorized by law, and act immediately through appropriate administrative or criminal and civil judicial procedures to provide them the protective measures of the Act at any time he has cause to believe its provisions are being violated.

(f) *Private lands, removal from.* Owners of land upon which wild free-roaming horses and burros have strayed from National Forest System lands may request their removal by calling the nearest office of either the Forest Service or Federal Marshal.

(g) *Private lands, maintenance.* Owners of land who wish to maintain wild free-roaming horses and burros which have strayed onto their lands from National Forest System lands may do so by notifying the nearest office of the Forest Service in timely fashion and providing such information on a continuing basis as the Chief, Forest Service, may require. Such owners shall protect the wild free-roaming horses and burros on their lands. They may not, in so maintaining these animals, impede their return to National Forest System lands unless authorized by cooperative agreement with the Forest Service.

(h) *Cooperative agreements.* The Chief, Forest Service, may enter into cooperative agreements as he deems necessary to further the protection, management, and control of wild free-roaming horses and burros.

(i) *Relocation of animals.* The Chief, Forest Service, may cause wild free-roaming horses and burros to be captured under the supervision of Forest Service personnel and relocated if they are found to be "excess" animals, "problem" animals, or if it is necessary to prevent their repetitive return to private land from which their removal has been requested.

(1) Relocation upon National Forest System land may be made only to areas identified as 1971 Horse or Burro Territory, and if suitable habitat capacity is available.

(2) Animals may be placed in the custody of private persons, organizations, and other Governmental agencies through the use of a cooperative agreement. Such custodial care arrangements must require that the animals be maintained and protected in accordance with the Act, and not used for commercial exploitation.

(j) *Disposal of animals.* No person except a duly designated Agent of the Secretary shall destroy any wild free-roaming horse or burro. Such Agents may destroy wild free-roaming horses or burros under the following circumstances:

(1) Severely injured or seriously sick animals may be destroyed immediately in the most humane manner possible as an Act of Mercy.

(2) Old, sick, and lame animals may be destroyed in the most humane manner possible after appropriate consultation with the National Advisory Board.

(3) When the Chief, Forest Service, finds it necessary to remove wild free-roaming horses or burros for the reasons identified in Section (i) and he determines there is no practical way to effect either their capture or their relocation, the animal(s) shall be destroyed in the most humane manner possible. To the extent possible, such problems will be anticipated and reviewed with the National Advisory Board before action is taken.

(k) *Disposal of carcasses.* The remains of deceased wild free-roaming horses and burros including these in the custody of private parties may be disposed of in any customary manner under State sanitary codes but in no event will they be processed into a commercial product.

(l) *Agents of the Secretary.* The Chief, Forest Service, is authorized to designate Forest Service personnel to serve as "agents of the Secretary" in accomplishing the purposes of the Act and these regulations. The Chief, Forest Service, may also appoint other individuals to serve as "agents of the Secretary" to assist Forest Service personnel in specific situations of short duration.

(m) *Management coordination.* All management activities by the Chief, Forest Service, shall be carried out in consultation with the appropriate agencies of the State involved. The expert advice of qualified scientists in the fields of biology and ecology shall also be sought in administering wild free-roaming horses and burros. The advice and suggestions of agencies, qualified scientists, and other qualified interest groups shall be made available to the National Advisory Board for their use and consideration. Actions taken in connection with private ownership claims shall be coordinated to the fullest extent possible with the State agency responsible for livestock estray law administration.

(n) *National Advisory Board.* The Chief, Forest Service, shall appoint a representative to attend all meetings of the National Advisory Board for Wild Free-Roaming Horses and Burros and to function as prescribed by the Memorandum of Agreement between the Department of the Interior and the Department of Agriculture and the Joint Charter issued by the Secretary of the Interior and the Secretary of Agriculture. Policies and guidelines relative to proposals for the establishment of ranges, adjustments in number, relocation and disposal of animals, and other matters relating generally to the protection, management, and control of wild free-roaming horses and burros shall be presented to the National Advisory Board for recommendations.

(o) *Studies.* The Chief, Forest Service, is authorized and directed to undertake those studies of the habits and habitat of wild free-roaming horses and burros that he may deem necessary. In doing so, he shall consult with the appropriate agencies of the State(s) involved.

(p) *Arrest.* Any employee designated by the Chief, Forest Service, shall have the power to arrest without warrant, any person committing in the presence of the employee a violation of the Act or of the regulations in this section and to take such person immediately for examination or trial before an officer or court of competent jurisdiction. Any employee so designated shall have power to execute any warrant or other process issued by an officer or court of competent jurisdiction to enforce the provisions of the Act or of the regulations in this section.

(q) *Penalties.* In accordance with Section 8 of the Act, any person who:

(1) Willfully removes or attempts to remove a wild free-roaming horse or burro from the National Forest System lands, without authority from the Chief, Forest Service, or;

V 38 157 AUG 15 73 XUM

(2) Converts a wild free-roaming horse or burro to private use, without authority from the Chief, Forst Service, or;

(3) Maliciously causes the death or harassment of any wild free-roaming horse or burro, or;

(4) Processes or permits to be processed into commercial products the remains of a wild free-roaming horse or burro, or;

(5) Sells, directly or indirectly, a wild horse or burro allowed on private or leased land pursuant to Section 4 of the Act; or

(6) Willfully violates a regulation issued pursuant to the Act shall be subject to a fine of not more than $2,000 or imprisonment for not more than 1 year, or both. Any person so charged with such violation by the authorized officer may be tried and sentenced by a United States commissioner or magistrate, designated for that purpose by the court by which he was appointed, in the same manner and subject to the same conditions as provided in section 3401, Title 18, U.S.C.

(85 Stat. 649 (16 U.S.C. 1331–1340); Sec. 1, 30 Stat. 35, as amended (16 U.S.C. 551); Sec. 32 50 Stat. 525, as amended (7 U.S.C. 1011); 74 Stat. 215 (16 U.S.C. 528–531))

SUBCHAPTER D—RANGE MANAGEMENT (4000)

[Circular No. 2347]

WILD FREE-ROAMING HORSE AND BURRO MANAGEMENT

Protection, Management, Control and Reservation of Forage

On page 28073 of the FEDERAL REGISTER of December 20, 1972, there was published a notice and text of a proposed amendment to Parts 4110, 4120 and 4710 of Title 43, Code of Federal Regulations. The purpose of the amendment was to provide regulations to implement the Act of December 15, 1971 (16 U.S.C. 1331–1340), which requires the Secretary of the Interior to protect, manage, and control wild free-roaming horses and burros on public lands managed by the Bureau of Land Management.

The proposal would add a new Group 4700, Wild Free-Roaming Horse and Burro Management, to the regulations. It would also amend 43 CFR Subparts 4115 and 4121 to provide specifically for a reservation of forage required by wild free-roaming horses and burros on public lands.

Interested persons were given until February 5, 1973, to submit comments, suggestions or objections to the proposed amendment. Thirty-four comments were received.

The written comments and suggestions were all evaluated. The proposed rulemaking and the matters raised were considered by the National Advisory Board on Wild Free-Roaming Horses and Burros in open meetings with public participation. Grazing district advisory boards also submitted views on the proposed rulemaking. Based upon the comments and suggestions received, numerous editorial changes and changes in wording have been made in Group 4700 for clarification and for strengthening the regulations in terms of protection of wild horses and burros. Principal differences between the rules as proposed and as adopted include the following:

1. Section 4710.0–5 is amended by inserting a definition of "excess animals" and "problem animal" following paragraph (c) and redesignating the remaining paragraphs consecutively. The definition of "wild free-roaming horses and burros," paragraph (b), is amended to clarify that their progeny are included.

2. Section 4711.3 is amended to include "private citizens" as a proper party for cooperative agreements in furtherance of the purpose of the regulations.

3. Section 4712.1–2 is revised to clarify that herds may be managed either on a specifically designated range or as a component of public land use.

4. Section 4712.2–3 is amended to recognize herd management plans.

5. Section 4712.3 is revised to refer to "excess animals" rather than "surplus animals," with appropriate changes throughout Subpart 4712 to effectuate that change.

6. Section 4712.3–1 is revised to specify appropriate supervision during the capture of excess or problem animals.

7. Section 4712.3–2 is amended to recognize the existence of "problem animals."

8. Section 4712.3–4 is amended to delete language not pertaining to acts of mercy.

9. Section 4712.4–3 is amended to clarify requirements for the removal of animals from private lands in areas where the private landowner is not required by State statute to fence the private lands.

10. Subpart 4713 is revised to provide more specific guidelines concerning claims.

11. Subpart 4714 is amended to delete proposed sections on related prohibitions and penalties. These are extraneous to the regulations in Part 4700.

A notice of the availability of a final environmental statement on the proposed regulations for the management of wild free-roaming horses and burros on public lands administered by the Bureau of Land Management was published on page 18474 of the FEDERAL REGISTER of July 11, 1973.

Full consideration has been given to all relevant matters presented by interested parties. Accordingly, the proposed amendment is hereby adopted, as revised, and is set forth below in its entirety. This amendment shall become effective August 15, 1973.

The immediate effectiveness of these regulations will enable action to begin for removal of the claimed horses and burros from public lands without undue delay and under suitable weather conditions.

W. R. WILSON,
Acting Deputy Assistant Secretary of the Interior.

AUGUST 13, 1973.

Subchapter D, Chapter II, of Title 43 of the Code of Federal Regulations is amended as follows:

PART 4110—GRAZING ADMINISTRATION (INSIDE GRAZING DISTRICTS) (THE FEDERAL RANGE CODE FOR GRAZING DISTRICTS)

1. The first sentence of paragraph (d) of § 4115.2–1 of Subpart 4115 is revised to read as follows:

§ 4115.2–1 License and permit procedures; requirements and conditions.

* * * * * *

(d) *Cancellation or reduction of licenses or permits; show cause; appeal to examiner.* Licenses or permits are subject to cancellation or reduction to the extent that they have been improperly issued, or to the extent that their continued effectiveness is adversely affected pursuant to any of the provisions of §§ 4111.1, 4115.2–1(e), 4115.1–1(k)(4), 4114.4–4, 4115.2–5(a)(6), 4712.12–3, or 4712.1–4 of this chapter.

* * * * *

PART 4120—GRAZING ADMINISTRATION (OUTSIDE GRAZING DISTRICTS AND EXCLUSIVE OF ALASKA); GENERAL

2. Paragraph (a) of § 4121.2–1 of Subpart 4121 is revised to read as follows:

§ 4121.2–1 Minimum requirements, rating and classification of lease land.

(a) *Land Resource Consideration.* The authorized officer will determine the availability of public land for grazing leases and the amount of forage available for use by livestock in conjunction with considerations of forage reservations for watershed protection, wildlife, wild free-roaming horses and burros, and other multiple uses.

* * * * * *

3. A new Group 4700 is added to Subchapter D to read as follows:

Group 4700—Wild Free-Roaming Horse and Burro Management

PART 4710—WILD FREE-ROAMING HORSE AND BURRO MANAGEMENT; GENERAL

Subpart 4710—Purpose; Objectives; Authority; Definitions; Policy

Sec.
4710.0–1 Purpose.
4710.0–2 Objectives.
4710.0–3 Authority.
4710.0–5 Definitions.
4710.0–6 Policy.

Subpart 4711—Management Coordination

4711.1 Recommendations from the joint national advisory board on wild free-roaming horses and burros.
4711.2 State agencies.
4711.3 Cooperative agreements.

Subpart 4712—Management Considerations

4712.1 Management; General.
4712.1–1 Planning.
4712.1–2 Intensity of management.
4712.1–3 Habitat reservation and allocation.
4712.1–4 Closures to livestock grazing.
4712.2 Establishment of specifically designated ranges or herd management areas.
4712.2–1 Designation.
4712.2–2 Criteria for designation.
4712.2–3 Management plan.
4712.3 Removal and relocation or disposal of excess animals.
4712.3–1 Method of capture.
4712.3–2 Relocation of animals.
4712.3–3 Disposal.
4712.3–4 Acts of mercy.
4712.3–5 Disposal of carcasses.
4712.4 Animals on private lands.
4712.4–1 Allowing animals on private lands.
4712.4–2 Active maintenance of animals on private lands.
4712.4–3 Removal of animals from private lands.

Subpart 4713—Protection of Wild Free-Roaming Horses and Burros in the Identification and Removal of Claimed and Trespass Horses and Burros

4713.1 General.
4713.2 Action on claims.

Subpart 4714—Enforcement Provisions

4714.1 Arrest.
4714.2 Penalties.

Subpart 4710—Purpose; Objectives; Authority; Definitions; Policy

§ 4710.0–1 Purpose.

To implement the laws relating to wild free-roaming horses and burros on public lands.

§ 4710.0–2 Objectives.

The objective of these regulations is to provide criteria and procedures for protecting, managing, and controlling wild free-roaming horses and burros as a recognized component of the public land environment.

§ 4710.0–3 Authority.

The Act of December 15, 1971 (16 U.S.C. 1331–1340), and the Act of June 28, 1934 (43 U.S.C. 315–315r).

§ 4710.0–5 Definitions.

(a) "Authorized Officer" means any employee of the Bureau of Land Management to whom has been delegated the authority to perform the duties described herein.

(b) "Wild free-roaming horses and burros" means all unbranded and unclaimed horses and burros and their progeny that have used public lands on or after December 15, 1971, or that do use these lands as all or part of their habitat, including those animals given an identifying mark upon capture for live disposal by the authorized officer. Unbranded, claimed horses and burros where the claim is found to be erroneous are also considered as wild and free-roaming if they meet the criteria above. However, this definition shall not include any horse or burro which entered or was introduced onto public lands after December 15, 1971, by accident, negligence, or willful disregard of ownership.

(c) "Herd" means one or more stallions and their mares or jacks and their jennies.

(d) "Excess animals" means wild free-roaming horses or burros determined to be in excess of populations proper to maintain a thriving natural ecological balance and harmonious multiple-use relationship in an area of the public lands.

(e) "Problem animal" means a wild free-roaming horse or burro whose demonstrated individual habits or traits pose an undue threat to the safety or welfare of persons, wildlife, livestock, or property; or a wild free-roaming horse or burro infected by a contagious disease or suspected of being diseased or seriously ill.

(f) "Public lands" means any lands administered by the Secretary of the Interior through the Bureau of Land Management.

(g) "Wild horse or burro range" means a specifically designated area of land needed to sustain a herd or herds of wild free-roaming horses or burros, and which is devoted principally but not necessarily exclusively to their welfare in keeping with the multiple use management of the public lands.

(h) "Management plan" means a written program of action designed to protect, manage, and control wild free-roaming horses and burros and maintain a natural ecological balance on the public lands.

(i) "Act" means the Act of December 15, 1971 (16 U.S.C. 1331–1340).

(j) "Advisory Board" means the joint advisory board established by the Secretary of the Interior and the Secretary of Agriculture pursuant to section 7 of the Act.

§ 4710.0–6 Policy.

(a) Wild free-roaming horses and burros are under the jurisdiction of the Secretary of the Interior and will be managed as an integral part of the natural systems of the public lands. They will be protected from unauthorized capture, branding, undue disturbance, and destruction. They and their habitat will be managed and controlled in a manner designed to achieve and maintain a thriving ecological balance on the public lands and a thriving population of sound, healthy individuals, all in accordance with the basic program policies for public land management set forth in Subpart 1725 of this chapter.

(b) Wild free-roaming horses and burros on the public lands will be managed by the authorized officer, with full public participation and such cooperative arangements as he may find helpful. Management on public lands will not be assigned to any private individual or association through a grazing license, lease, or permit.

Subpart 4711—Management Coordination

§ 4711.1 Recommendations from the joint national advisory board on wild free-roaming horses and burros.

Policies and guidelines relative to proposals for establishment of ranges, proposed management plans, adjustments in number, relocation and disposal of animals, and other matters relating generally to the protection, management, and control of wild free-roaming horses and burros shall be presented to the Advisory Board for recommendations.

V 38-157 AUG 15 73 XUM

§ 4711.2 State agencies.

(a) All management activities including, but not limited to, establishment of ranges and adjustments in forage allocation shall be planned and executed in consultation with the appropriate State agency to further consider the needs of all wildlife, particularly endangered species.

(b) All actions taken in connection with private ownership claims to unbranded horses and burros shall be coordinated to the fullest extent possible with the appropriate State agency.

§ 4711.3 Cooperative agreements.

The authorized officer may enter into cooperative agreements with other landowners, private citizens, nonprofit organizations, and with Federal, State, and local governmental agencies as he deems necessary for purposes of protecting, managing and controlling wild free-roaming horses and burros. Where the grazing patterns of the animals require utilization of lands in other ownerships or administration, the authorized officer shall seek cooperative agreements to insure continuance of such use.

Subpart 4712—Management Considerations

§ 4712.1 Management; general.

§ 4712.1–1 Planning.

In planning for management, protection, and control of wild free-roaming horses and burros, including the establishment of specifically designated ranges, determination of desirable numbers and other management provisions of these regulations, the authorized officer will utilize the Bureau's multiple-use planning system with its requirements for public participation by and coordination with others.

§ 4712.1–2 Intensity of management.

Wild free-roaming horse or burro herds may be managed either as one of the components of public land use on a specifically designated wild horse or burro range. Management practices shall be at the minimal feasible level and shall be consistent to the extent possible and practical with the maintenance of their free-roaming behavior. Management facilities should be designed and constructed to the extent possible to maintain the free-roaming behavior of the herds.

§ 4712.1–3 Habitat reservation and allocation.

The biological requirements of wild free-roaming horses and burros will be determined based upon appropriate studies or other available information. The needs for soil and watershed protection, domestic livestock, maintenance of environmental quality, wildlife, and other factors will be considered along with wild free-roaming horse and burro requirements. After determining the optimum number of such horses and burros to be maintained on an area, the authorized officer shall reserve adequate forage and satisfy other biological requirements of such horses and burros and, when necessary, adjust or exclude domestic livestock use accordingly. See §§ 4115.2–1(d) and 4121.2–1(a) of this chapter.

§ 4712.1–4 Closures to livestock grazing.

The authorized officer may close public lands to use by all or a particular class of domestic livestock where he finds it necessary to allocate all available forage to, or to satisfy other biological requirements of, wild free-roaming horses or burros. Such closures may be made only after appropriate public notice and in accordance with the procedures for reduction or cancellation of grazing privileges provided for under the provisions of this subchapter. See §§ 4115.2–1(d) and 4121.2–1(a) of this chapter.

§ 4712.2 Establishment of specifically designated ranges or herd management areas.

§ 4712.2–1 Designation.

The authorized officer may designate and maintain specifically designated ranges principally for the protection and preservation of wild free-roaming horses and burros.

§ 4712.2–2 Criteria for designation.

In designating specific ranges and herd management areas, the authorized officer, in addition to any other provisions of these regulations, shall:

(a) Consider only those areas utilized by wild free-roaming horses or burros as all or part of their habitat on December 15, 1971.

(b) Consider only those areas where self-sustaining herds can maintain themselves within their established utilization and migratory patterns.

(c) Consider only those areas which are capable of being managed as a unit to ensure a sustained yield of forage without jeopardy to the resources.

(d) Develop a wild free-roaming horse or burro management plan in accordance with § 4712.2–3.

§ 4712.2–3 Management plan.

The authorized officer shall, in connection with the designation of a specific range, develop a proposed wild free-roaming horse or burro management plan designed to protect, manage, and control wild free-roaming horses and burros on the area on a continuing basis. The authorized officer may also develop herd management plans as part of the multiple use management on areas outside of specifically designated wild horse or burro ranges. All management plans shall be developed in accordance with the Bureau's planning system and shall govern management of the area.

§ 4712.3 Removal and relocation or disposal of excess or problem animals.

§ 4712.3–1 Method of capture.

Under the supervision of the authorized officer, wild free-roaming horses and burros may be captured, corralled and held under humane conditions pending disposal of excess or problem animals under the provisions of this Subpart.

§ 4712.3–2 Relocation of animals.

(a) The authorized officer may relocate wild free-roaming horses and burros on public lands when he determines such action is necessary to: (1) Relieve overgrazed areas, (2) locate animals removed from private lands in accordance with § 4712.4–3, (3) remove problem animals, or (4) achieve other purposes deemed to be in the interest of proper resource and herd management. Such animals relocated on public lands shall not be introduced onto areas of the public lands which were not used by wild free-roaming horses or burros as all or part of their habitat on December 15, 1971.

(b) The authorized officer may also place animals in the custody of private persons, organizations or other governmental agencies. Custodial arrangements shall be made through cooperative agreement which shall include provisions to maintain and protect the animals and ensure that the animals will not be used for commercial exploitation. The authorized officer may, in his discretion, mark animals placed in private custody for identification purpose.

§ 4712.3–3 Disposal.

Where the authorized officer finds it necessary to remove excess animals from areas of the public lands, and he determines that it is not practical to relocate them on public lands or capture and remove them for private maintenance under § 4712.3–2, he may destroy such animals in the most humane manner possible. No person, except the authorized officer or his authorized representative, shall destroy wild free-roaming horses and burros.

§ 4712.3–4 Acts of mercy.

Any severely injured or seriously sick animals will be destroyed in the most humane manner possible as an act of mercy.

§ 4712.3–5 Disposal of carcasses.

Carcasses shall be disposed of in any customary manner under State sanitary statutes. In no event shall carcasses, or any part thereof, including those in the authorized possession of private parties, be sold or processed into a commercial product.

§ 4712.4 Animals on private lands.

§ 4712.4–1 Allowing animals on private lands.

Nothing in these regulations shall preclude a private landowner from allowing wild free-roaming horses and burros to remain on his private lands so long as the animals were not willfully removed, enticed, or retained by him or his agent from the public lands.

§ 4712.4–2 Active maintenance of animals on private lands.

Any individual who actively maintains wild free-roaming horses and burros on his private lands shall notify the authorized officer and supply him with a reasonable approximation of their number and location and, when required by the authorized officer, a description of the animals. Thereafter, he shall furnish an annual report updating the information during the month of January. An individual will be considered to be actively maintaining wild free-roaming horses or burros if he takes measures of any kind designed to protect or enhance the welfare of the animals. No person shall maintain such animals except under cooperative agreement between the private landowner and the authorized officer setting forth the management and maintenance requirements including provisions for regulating disposal of excess animals.

§ 4712.4–3 Removal of animals from private lands.

The authorized officer shall remove, as soon as he can make the necessary arrangements, wild free-roaming horses and burros, from private land at the request of the landowner where the private land is enclosed in a "legal fence." A "legal fence" for this purpose is one which complies with State standards and specifications. In "no fence districts" or other areas where the private landowner is not required by State statute to fence the private land to protect it from trespass by domestic livestock, the authorized officer shall, as soon as he can make the necessary arrangements, remove wild free-roaming horses or burros from such private land at the request of the landowner.

Subpart 4713 is revised. The full text of revised subpart 4713 follows:

Subpart 4713—Protection of Wild Free-Roaming Horses and Burros in the Identification and Removal of Claimed and Trespass Horses and Burros

§ 4713.1 General.

(a) All unauthorized and unbranded horses and burros on the public lands, except those which entered or were introduced onto the public lands after December 15, 1971, by accident, negligence, or willful disregard of ownership are presumed for the purpose of management to be wild free-roaming horses or burros.

(b) The gathering or rounding up of unbranded horses or burros on the public lands where any of such animals are not in fact authorized to be on the public lands pursuant to a grazing license, permit, lease, or other authorization, is prohibited without written authorization from the authorized officer. Also prohibited without written authorization from the authorized officer is the gathering or rounding up of unauthorized branded horses or burros where the branded animals are, or may become, intermingled with wild free-roaming horses or burros, or where the gathering or round up is likely to involve or affect wild free-roaming horses or burros.

§ 4713.2 Action on claims.

(a) Any person claiming ownership under state branding and estray laws of unbranded or branded horses or burros on public land where such animals are not authorized must present evidence of ownership to justify a roundup before permission will be granted to gather such animals. Claims of ownership, with supporting evidence, shall be submitted within 90 days of the effective date of these regulations. All written authorizations to gather claimed animals shall be on a form approved by the Director. After such public notice as the authorized officer deems appropriate to inform interested parties, he may authorize the gathering or roundup. The authorized officer shall provide in the authorization that the gathering or roundup shall be consistent with the legislation which prohibits the use of aircraft or motor vehicles to capture unbranded horses or burros; shall establish in the authorization a reasonable period of time to allow the gathering of the claimed animals; and shall provide such other conditions in the authorization which he deems necessary to minimize stress on any associated wild free-roaming horses or burros and to protect other resources.

(b) After the animals have been gathered the authorized officer and the appropriate state or local official shall inspect each claimed animal in relation to the evidence of ownership previously presented by the claimant. The state or local official shall then make a written determination of ownership concerning each claimed animal pursuant to the state branding and estray laws and any agreement between the Bureau and the appropriate state or local authority. A copy of the written determination shall be provided to the authorized officer. No animal may be removed from the gathering place until the claim of ownership has been proven to the satisfaction of the authorized officer.

(c) Unauthorized horses or burros which have been claimed and have been determined to be privately owned in accordance with the provisions of this Section will be considered to have been in trespass and may not be released until a proper trespass charge has been determined by the authorized officer in accordance with the provisions of 43 CFR 9239.3.

Subpart 4714—Enforcement Provisions

§ 4714.1 Arrest.

The Director of the Bureau of Land Management may authorize such employees as he deems necessary to arrest without warrant, any person committing in the presence of the employee a violation of the Act or of these regulations and to take such person immediately for examination or trial before an officer or court of competent jurisdiction. Any employee so designated shall have power to execute any warrant or other process issued by an officer or court of competent jurisdiction to enforce the provisions of the Act or these regulations.

§ 4714.2 Penalties.

In accordance with section 8 of the Act (16 U.S.C. 1338), any person who:

(a) Willfully removes or attempts to remove a wild free-roaming horse or burro from the public lands, without authority from the authorized officer, or

(b) Converts a wild free-roaming horse or burro to private use, without authority from the authorized officer, or

(c) Maliciously causes the death or harassment of any wild free-roaming horse or burro, or

(d) Processes or permits to be processed into commercial products the remains of a wild free-roaming horse or burro, or

(e) Sells, directly or indirectly, a wild free-roamng horse or burro maintained on private or leased land pursuant to section 4 of the Act, or the remains thereof, or

(f) Willfully violates any provisions of the regulations under Group 4700, shall be subject to a fine of not more than $2,000 or imprisonment for not more than 1 year, or both. Any person so charged with such violation by the authorized officer may be tried and sentenced by a U.S. commissioner or magistrate, designated for that purpose by the court by which he was appointed, in the same manner and subject to the same conditions as provided in section 3401, Title 18, U.S.C.

[FR Doc.73–17067 Filed 8–14–73;8:45 am]

Title 45—Public Welfare

CHAPTER II—SOCIAL AND REHABILITATION SERVICE (ASSISTANCE PROGRAMS), DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

FURNISHING OF ASSISTANCE; NEED AND AMOUNT OF ASSISTANCE

Methods for Determination of Eligibility

Notice of proposed regulations for the programs administered under titles I, IV–A, X, XIV, XVI, and XIX of the Social Security Act, relating to fair hearings, methods of determining eligibility for financial and medical assistance, and recoupment of overpayments was published in the FEDERAL REGISTER on April 20, 1973 (38 FR 7623).

A total of 696 letters was received from State and local welfare agencies, members of Congress and State legislatures, other State officials, legal aid groups, recipients and recipient groups and other organizations and individuals.

Specific comments reflected the following substantive concerns:

1. *Local hearings.* Section 205.10(a)(1) and (6). This provision implements (and extends to title IV–A) section 407 of P.L. 92–603, under which local agencies "may put into effect immediately upon issuance its decision upon the matter considered at such hearing".

Opposition to the change was based on the belief that it may be impossible for hearing officers at the local level to issue unbiased decisions and that local agencies would use the procedure to reduce and terminate assistance wrongfully. State and local welfare agencies favoring local hearings believe such hearings will serve to discover errors in agency actions as quickly as possible, while eliminating unnecessary payments of assistance to ineligibles. They also recommended that the due process requirements be spelled out.

V 38 157 AUG 15 73 XUM

The final regulation contains the provision specified in P.L. 92–603 which permits States to utilize local evidentiary hearings in all programs, but changes have been made to provide that evidentiary hearings may be used for questions of initial eligibility; to provide definitive due process procedural requirements regarding the conduct of the local hearing; to make sure the individual's rights are protected; to assure an objective hearing officer who was not involved in the decision at issue; to provide a complete record in case of appeal; and for the claimant to be fully informed of his appeal rights.

2. *Ten-day advance notice.* Section 205.10(a)(4)(i)(A). Opponents of the reduction of the advance notice period from 15 to 10 days expressed concern that a 10-day period was too short for a recipient to decide whether to appeal and to make adjustments to reduced assistance. Many stressed slow mail delivery. Proponents favored the change because it reduced the disproportionate number of overpayments to ineligible individuals, and 10 days is sufficient time for the recipient to assess the correctness of the agency action and request a hearing if he believes the action is erroneous. In the final regulation, the 10-day period is retained. If a State determines that a longer period is advisable, it may provide an extra ten days after the timely notice period during which a hearing may be requested and, where appropriate, assistance paid pending a hearing decision.

3. *Exemptions from advance notice.* Section 205.10(a)(4)(ii). Many commentators opposed these provisions as violating due process; not providing recipients time to adjust to changes in payment; providing no protection against agency error; and generally permitting abuse by local agencies. Recipient groups and other individuals were particularly opposed to the exemption in "likelihood of fraud" situations.

Those in favor spoke to reduction in unnecessary administrative cost and recommended that provision be made for the agency to confirm in writing the oral statements made by recipients.

All exemptions, except the one relating to "likelihood of fraud," are for situations where, as a matter of law, the change in payment results necessarily from the ascertained circumstances in the particular case. The chances of there being a factual dispute are minimal. States are required to mail adequate notice to the recipient not later than the date of action, so that in those unlikely instances of factual dispute, he can request a hearing and obtain reinstatement of aid pending such hearing. Because of questions raised regarding the exception where there is a likelihood of fraud, that provision has been rewritten and will be published as a proposed rule. The States will be requested to monitor their programs to determine the necessity for such a provision and to submit their comments to the Administrator, SRS. If such a provision appears to be necessary, the matter will be reconsidered.

4. *Extension from 60 to 90 days for hearing decisions.* Section 205.10(a)(16). Opponents stated that this extension would result in hardship for applicants and recipients who do not receive aid pending the decision, and enable States to further delay paying assistance to eligible individuals.

Those in favor considered 90 days a more realistic time frame.

In view of the difficult position facing States with substantially increased hearing caseloads, the 60-day period is considered insufficient for the orderly processing of cases. Ninety days for processing hearings is consistent (and in some aspect more stringent than) the period prescribed by Congress for the Federally-administered supplemental security income program enacted by P.L. 92–603.

5. *Grievance procedures in lieu of hearings on questions of law or policy.* Section 205.10(a)(5). Most of the comments in this area argued against this provision on the basis that the hearing procedure provides a viable mechanism for effecting changes in policy. Many legal aid groups pointed out that a recent court case cast doubt on the viability of distinguishing between fact or judgment and policy or law. Those in favor stressed reduction of administrative cost.

In response to these comments and the court case, the regulations have been modified. The States may provide for group hearings on questions of policy or law. They need not provide a hearing where either State or Federal law requires automatic grant adjustments for classes of recipients. On individual requests not resulting from such a change in State or Federal law, assistance must be continued pending a hearing decision unless the hearing officer determines at the hearing that the sole issue is one of State or Federal law or policy or a change in State or Federal law. The provision regarding a grievance system has been deleted since "expression of views" on program policy is part of legislative and rulemaking procedures.

6. *Recoupment of continued assistance when the hearing decision supports agency action.* Section 205.10(a)(6)(i).

Legal aid groups argue that not to continue eligibility until a decision is rendered after a hearing, and advising recipients that assistance paid pending a decision is subject to recoupment, discourages claimants requesting hearings.

Present practices in some States include notifying the recipient on the notice that any aid paid pending the decision may be subject to recoupment. Experience fails to indicate that such practice causes any reluctance on the part of a recipient who desires a hearing because he believes the agency made an error. To provide otherwise invites abuse of the hearing process by these utilizing it as a method of continuing aid for which they are not eligible.

State and local welfare agencies favored the provision as discouraging requests for hearings made without belief that the action is erroneous but solely to secure temporary continuation of assistance. Accordingly, the provision is retained.

7. *Signed application on agency form,* § 206.10(a)(1)(ii); *Revocation of simplified method,* § 205.20; *45 days vs. 30 days for action on applications,* § 206.10(a)(3). A number of comments opposed the requirement for a signed application on an agency form on the grounds it creates hardship on applicants with physical, language, and transportation barriers; discourages eligible persons from applying; adds to administrative costs; and results in denial of or delay in providing assistance.

Signed applications on agency forms are necessary to provide a legal document that clearly signifies the intent of the individual to apply, and the date; that advises the applicant of his rights and responsibilities; that puts him on notice that he may be liable for the truthfulness of the information he includes on the application; that provides a document that may be introduced as evidence in court where fraud has been committed; and that provides the agency with sufficient information to make an accurate determination of eligibility. The final regulations have been modified to permit a responsible person to apply on behalf of a person who is incapacitated or incompetent.

Because of the increased emphasis on verification to reduce the numbers of ineligibles, unacceptable error rates at least partially attributable to the simplified method of determining eligibility, and the careful redeterminations of eligibility necessary in the forthcoming transfer of cases to the SSI program, a more complete method for determining eligibility is both appropriate and necessary.

Objections to the granting of 45 days for action on applications stressed that it would cause undue hardship and delay the granting of assistance; increase agency expenses and inefficiency and increase expenditures for general assistance and emergency assistance. State and local welfare agencies considered it a more realistic time frame.

The time extension is necessary in view of the quality control requirement that eligibility be verified. While it is expected that most applications can be completed in a much shorter time, it is recognized that some cases will require a longer period. Where hardship may result to an apparently eligible individual, many States provide for federally matched emergency assistance for up to 30 days, while the application for assistance is being processed. Moreover, there is no fiscal incentive to delay, since cases found eligible must be paid back to the 30th day after application.

8. *Deletion of constraints on verification.* Sections 205.20 and 206.10. Opponents to change considered that the deletions would lead to abusive State practices in violation of constitutional and legal rights, especially violations of dignity, right to privacy, and freedom from harassment. They also believe the deletions are an authorization by the Secretary to reestablish practices prohibited in the past. Proponents commented that the changes are necessary to maintain accuracy and integrity in the welfare system and are long overdue.

State agencies are aware that individuals on welfare share equal rights with all other residents. We agree that it is important that the regulations specifically prohibit the States from violating constitutional and legal rights; we have therefore included a section which restates that constitutional rights are to be observed and protected. Courts have, of course, spelled out the constitutional and legal rights of individuals.

In order to perform a proper job of eligibility determination, and to avoid penalties for inaccuracy, agencies need to develop, within constitutional constraints, new methods of eligibility determination. Verifications are for the protection of the truly needy, and to restore faith in the welfare system. More funds may then be available to assist eligible individuals after eliminating inaccurate payments to those who are not eligible.

9. *Recoupment of overpayments.* Section 233.20(a)(12). Adverse comments in this area were that the provisions are a disincentive to good administration, and would result in undue hardship on recipients; that it is unfair to hold recipients responsible for agency error; and that the provision of "reasonable limits" on recovery is too vague. Many complained that there was no provision for correction of underpayments. Several State agencies requested that the provisions be made mandatory rather than discretionary.
